Dear Antonio and Emma

Re: Drainage Concerns

I refer to your recent correspondence regarding drainage problems in the Goodwood Road, Thomasens Road and Douglas Road areas.

Council realizes that there are drainage issues in the Alloway area and it is proposed to undertake an investigation to identify the existing problems and possible solutions.

This is not a simple process and will take some time to carry out, the work will need to be prioritized against other drainage issues that Council is currently dealing with.

I thank you for the information you have provided.

Should you require any further information in relation to this matter, please do not hesitate to contact [REDACTED] on [REDACTED]

Yours faithfully,

Peter Jensen
Group Manager Roads and Drainage
