PLEASE RETURN WHITE PAGES

- Have you ever been advised of a flood management plan?

No.

- Have you ever been asked to be on or involved with a Floodplain Advisory Committee?

No

What do you feel could have been done to make your area safer:-

- Before the flood - No building on creek banks. Studying creek beds ie looking @ where previous rocks have been deposited
- During the flood - Nothing
- After the flood - Warning <sup>new</sup> neighbours of previous catastrophe.
- Other Questions or Statements.

The public need to educate themselves RE building sites in relation to creeks & previous floods centuries ago. EG - Aborigines used to call Grantham "Crazy Water". No commission can ~~change or predict~~ <sup>change or predict</sup> those powerful events in nature.

Ensure the questionnaire is filled out.

Name: Elizabeth Fox

**PLEASE RETURN WHITE PAGES.**

- Do we need an early warning system for floods?

I think everyone, that could be warned, was warned. Not everyone would have been listening to radios or watching TV or has a computer.

- Have you ever been involved in a local meeting about flood early warning system?

No

- Would an early warning system work? Perhaps people could be prompted via phone, email, SMS, given inches of rain in previous week. Bureau of Meteorology site is very useful for predictions. I live on rocky creek & can tell by studying the land layout & creek banks. In dry season it's happened before. Perhaps land developers need more education, or governing.
- Had you been advised by Council, or State Government, the highest flood levels in your area?

No

- Had you ever received evacuation information for flood / landslides / fires?

Only late at night, 10/01/11  
 After the event, warning of possible further heavy rain.

Please turn over.
