SITREP : 0001 (0600hrs) SAT 8 January 2011

WEATHER

Issued at 0520 EST, Saturday 8 January 2011 the BOM has indicated that for Brisbane there may be a morning shower or two increasing to rain periods with local thunder during the afternoon. Moderate E to SE winds, tending fresh near the bayside.

FLOODING TO HABITABLE AREAS

Nil reported

FLOOD INFORMATION CENTRE - As at 0500hrs

Rainfall Summary

As at 0500hrs, the FIC has reported that since 0900hrs FRI 7 Jan 2011, there has been widespread falls of between 20 to 40mm throughout North Pine, Somerset and Wivenhoe catchments with isolated higher totals of 70mm in the upper reaches of the Brisbane River.

Advice from BoM indicates that SE Qld can expect further high rainfall totals over the next 4 days.

Saturday: Rain light at times 15-50mm with higher falls along the coast
Sunday: Widespread rain with totals between 50-100mm
Monday: Widespread rain again with totals between 50-100mm
Tuesday: Rain easing with totals between 25-50mm

Floodwise Flooded Roads:

- Colleges Crossing, Mt Crosby
- Kholo Bridge, Kholo

Tides:

The high tide is predicted to peak at 2.29m (1.05m AHD) today at 1152hrs (11.52am) at the Brisbane Bar. It is likely that the same amount of oceanic anomaly impact (0.51m) will be present, resulting in possible tide levels of up to 2.80m (1.56m AHD) at the Brisbane Bar or 3.03m (1.79m AHD) at the City Gauge. This is approximately 70mm less than Fridays peak high tide but may result in similar tidal flooding impacts with Brisbane River foreshore areas and bikeways inundated.

Brisbane River - Flood Flow Conditions:

The peak flows from the Lockyer Ck are expected to reach Brisbane City late Saturday with minimal changes (up to 100mm) to Brisbane River levels.

Wivenhoe Dam Release Strategy:

Given the saturated conditions of the catchments, significant inflows to Seqwater dams will be generated, especially following the forecast rainfall on Sunday/Monday. River levels upstream of Wivenhoe Dam were rising again, generating further inflow to the dam.

It is intended to ramp up the release from Wivenhoe to about 1,200m³/s by midday today. However, given the high likelihood of significant inflows in the next week, this may be increased later on the weekend.

The projected Wivenhoe release of 1,200m³/s combined with Lockyer flows and local runoff will mean that all crossings downstream of Wivenhoe (Twin Bridges, Savages Crossing, Burtons Bridge, Kholo Bridge and Colleges Crossing) will be adversely impacted for several days. At this stage Fernvale and Mt Crosby Weir Bridge are not expected to be affected.

Discussions held between Council and the BoM agreed that the combined flow in the lower Brisbane R will only add about 50mm to an upper limit of 100mm to the recorded water levels in the City Reach of the Brisbane River. However, it is noted that tides in the lower Brisbane R will be 0.4 to 0.5 metres higher than predicted tides, due to the aforementioned oceanic anomaly.

BMTMC UPDATE – As at 0530hrs

At 0530hrs, the BMTMC have provided the following update on roads based on the latest road intelligence:

Roads Closed:

1. Paradise Road, Larapinta.
2. Molle Road, Ransome.
3. Illaweena Street, Drewvale.
4. Youngs Crossing Road, Joyner.
5. Wembley Road, Berrinba.
6. Boscombe Road, Brookfield.

Water on road:

1. Gap Creek Road, Kenmore Hills - motorists are requested to drive with caution.

Other areas of interest:

1. Gatton-Clifton Road, Gatton
2. Mt Sylvia Road, Mt Sylvia
3. Colleges Crossing on Mount Crosby Road

Moggill Ferry remains Closed.

CARS (RRG) BRANCH RESPONSE – As at 0445hrs

As at the 0445hrs, the RRG advised that the following roads were identified during their patrols to have water on road, however, were accessible.

1. Gap Creek Road, Kenmore Hills
2. Lancing St, Pullenvale

LAS

LAS has reported that the "King Tide – Salt water over road" signs are down for the predicted higher than usual tides at the usual locations. In addition, LAS ERG will be out today monitoring known locations for possible high tide road inundation.

BRISBANE SES – As at 2130hrs FRI 8 JAN 2011

As at 2130hrs FRI 8 Jan 2011 the Brisbane SES has advised that they had received 36 jobs, with no jobs outstanding.

CONTACT CENTRE – As at 0445hrs

As at 0445hrs the CC reported calls during Friday were not as storm focused, with calls reducing markedly from 1800hrs.

DM DUTY OFFICER**DUTY OFFICER TELEPHONE NUMBER**

SITREP : 0002 (1500hrs) SAT 8 January 2011

WEATHER

Issued at 0520 EST on Saturday 8 January 2011 the BoM website has indicated that there would be a shower or two today increasing to rain periods with local thunder during the afternoon. Moderate E to SE winds, tending fresh near the bayside.

Tomorrow's outlook is rain periods with possible thunder.

FLOODING TO HABITABLE AREAS

Nil reported

FLOOD INFORMATION CENTRE – As at 1400hrs

Rainfall Summary:

As at 1400hrs, the FIC has reported that scattered showers have occurred over the catchment in the last 24 hours. Further rainfall is expected this afternoon and can be seen approaching from the sea on radar. At this point there are no very heavy bursts associated with the rainfall. It's more like steady rain.

Advice from BoM indicates that SE Qld can expect further high rainfall totals over the next 4 days.

Saturday: Rain light at times 15-50mm with higher falls along the coast
Sunday: Widespread rain with totals between 50-100mm
Monday: Widespread rain again with totals between 50-100mm
Tuesday: Rain easing with totals between 25-50mm

FloodWise Flooded Roads:

1. Colleges Crossing, Mt Crosby
2. Kholo Bridge, Kholo

Tidal Flooding:

Tidal flooding was less than expected in Brisbane City. The tide reached a peak of 1.65m AHD at the city gauge and 1.45m AHD at the Brisbane Bar. These levels are no worse than have been experienced over the last few weeks.

Brisbane River - Flood Flow Conditions:

The peak flows from the Lockyer Ck are expected to reach Brisbane City late today with minimal changes (up to 100mm) to Brisbane River levels.

Wivenhoe Dam Release Strategy:

Given the saturated conditions of the catchments, significant inflows to Seqwater dams will be generated, especially following the forecast rainfall on Sunday/Monday. River levels upstream of Wivenhoe Dam were rising again, generating further inflow to the dam.

It is intended to ramp up the release from Wivenhoe to about 1,200m³/s by midday today. However, given the high likelihood of significant inflows in the next week, this may be increased later on the weekend.

The projected Wivenhoe release of 1,200m³/s combined with Lockyer flows and local runoff will mean that all crossings downstream of Wivenhoe (Twin Bridges, Savages Crossing, Burtons Bridge, Kholo Bridge and Colleges Crossing) will be adversely impacted for several days. At this stage Fernvale and Mt Crosby Weir Bridge are not expected to be affected.

Discussions between Brisbane City Council and BoM have resulted in agreement that the combined flow in the lower Brisbane R will only add about 50mm to an upper limit of 100mm to the recorded water levels in the City Reach of the Brisbane River. However, it is noted that tides in the lower Brisbane R will be 0.4 to 0.5 metres higher than predicted tides, due to the oceanic anomaly.

BMTMC UPDATE

As at 1430hrs, the BMTMC have provided the following update on roads:

Closed Roads:

1. Paradise Rd, Larapinta.
2. Illaweena St, Drewvale
3. Boscombe Rd, Brookfield
4. Bowhill Rd, Durack
5. Kholo Rd Bridge, Kholo
6. Colleges Crossing on Mt Crosby Rd.
7. Gap Creek Rd, Kenmore Hills, however, this is currently being reassessed and may be open within an hour.
8. Youngs Crossing Rd, Joyner.
9. Wembley Rd, Berrinba.

Moggill Ferry remains closed.

Other areas of interest:

1. Gatton-Clifton Rd, Gatton
2. Mt Sylvia Road, Mt Sylvia.

CARS (RRG) BRANCH RESPONSE

As at the 1445hrs, the RRG have reported that from their patrols of the high tides (1152hrs) today the following was identified:

1. Waterloo Road, Newstead – Road closed with about 300mm water
2. Wickham Grove, Newstead – Water on road, however less than 300mm
3. Edmonstone Street, Bowen Hills – Bus Lane under water
4. Sandgate Road, Albion – Minimal water
5. Bogan Road, Albion – Water on road, dead end street
6. Immarna Street, Albion – Minimal water on side of road

LAS

As at 1330hrs, LAS ERG reported that the high tides of 1152 hours resulted in the following action being taken on the roads or bikeways:

Full road closure

1. Waterloo Street, Newstead

Full Bikeway closure

1. At QUT and Coronation Drive, Milton.

The bikeway near QUT will be cleaned of debris today.

Lane Closures

1. Abbotsford Road, Bowen Hills inbound of Burrows Street

ERG will continue with the same arrangements tomorrow of monitoring the known locations for road inundation during the predicted high tide.

BRISBANE SES

As at 1415hrs, the Brisbane SES reported that they had received 3 jobs, with 1 job completed and 2 still outstanding. None of the jobs were high priority/risk jobs, with one job being for sandbagging and the other 2 jobs height safety.

CONTACT CENTRE

As at 1445hrs the CC reported that they had taken 27 calls for the Brisbane SES, however, only 3

resulted in jobs for assistance, with the remainder of the calls mainly requesting information about picking up sandbags. In addition to the above the CC have taken the following requests that may be of interest:

2 Fallen Tree Branch,
10 Stormwater Drain Maintenance, and
26 Roads Maintenance.

DM DUTY OFFICER

[REDACTED]

DUTY OFFICER TELEPHONE NUMBER

The next SITREP will be issued at 0600hrs SUN 9 January 2011.

From: [REDACTED]
To: Shane Hackett, Media Matters, Greg Swain, Christen Hill, Kylie Jacobson, DM-LMO Distribution, DM Duty Officers, BMTMC_Traffic, Lisa M Martin, EMT Distribution, CC-Management & TL Team, CC-SHIFT LEADER, Robert McGlinn, FIC-Standby-Duty-Officers [REDACTED]
Date: 9/01/2011 6:02:15 am
Subject: SITREP : 0003 (0600hrs) SUN 9 January 2011

SITREP : 0003 (0600hrs) SUN 9 January 2011

WEATHER

Issued at 0450hrs EST Sunday 9 January 2011 the BoM website indicates that for today the Brisbane forecast is rain periods with possible local thunder. Moderate SE to NE winds, fresh at times.

FLOODING TO HABITABLE AREAS

Nil reported

FLOOD INFORMATION CENTRE

As at 0500hrs, the FIC provided the following report:

Rainfall Summary:

Scattered showers have occurred in the last 24 hours giving an average of 8mm of rainfall over the catchment, with the highest falls of 17mm occurring in Brookside. Further rainfall is expected today with the forecast being for rain periods and possible thunder.

Advice from BoM indicates that SE Qld can expect further high rainfall totals over the next 3 days.

Sunday: Widespread rain with totals between 50-100mm
Monday: Widespread rain again with totals between 50-150mm
Tuesday: Rain easing with totals between 25-50mm

Tidal Flooding:

Tidal flooding yesterday was less than expected in Brisbane City. The tide is predicted to reach a peak of 2.20m (0.96m AHD) at 1224hrs at the Brisbane Bar today. Even with the persistence of the oceanic anomaly and Wivenhoe Dam releases, the high tide level is expected to be no worse than has been experienced over the last few days.

Floodwise:

Current FloodWise Flooded Roads:

- Colleges Crossing, Mt Crosby

According to FloodWise, Minor Flooding is occurring at:

- Enoggera Ck at Enoggera Dam (with water levels falling)

Brisbane River - Flood Flow Conditions:

The peak flows from the Lockyer Ck have reached Brisbane City. The current available assessments indicate that the combined flow in the lower Brisbane River would only add about 50mm to an upper limit of 100mm to the recorded water levels in the City Reach of the Brisbane River. However, it is noted that tides in the lower Brisbane River will be 0.4 to 0.5 metres higher than the predicted tides due to the oceanic anomaly.

Wivenhoe Dam Release Strategy:

SEQ Water advise the current Wivenhoe release of 1,250m³/s combined with Lockyer flows and local runoff will mean that all low level crossings downstream of Wivenhoe (Twin Bridges, Savages Crossing, Burtons Bridge, Kholo Bridge and Colleges Crossing) will be adversely impacted for several days (until Wednesday 12 January). At this stage Fernvale and Mt Crosby Weir Bridge are not expected to be affected, but they could potentially be affected if the predicted rainfall totals eventuate and higher releases from Wivenhoe Dam are considered necessary.

Assessments have been undertaken to determine possible increases to releases given the high

likelihood of significant inflows in the next few days. Projections based upon the forecast rainfalls suggest flows of up to 1,200 m³/s will emanate from the Bremer River catchment. If similar rainfall magnitudes occur in the Upper Brisbane and Stanley Rivers then increased releases may be required from both Somerset Dam and Wivenhoe Dam.

Preliminary projections suggest that such a forecast will extend the release duration until next Saturday 15 January 2011, but mid-Brisbane River flows will be kept to a maximum of 1,800 m³/s. However, if falls are greater than those forecast, releases from Wivenhoe Dam may need to adversely impact Mt Crosby Weir Bridge (1,900 m³/s) and possibly Fernvale Bridge (2,100 m³/s) but will be maintained below 3,500 m³/s.

BMTMC UPDATE

As at 0530hrs, the BMTMC has reported that the latest road intelligence suggests the following:

Roads Closed:

1. Gatton Helidon Road is closed due to flooding- motorists are advised to use an alternative route.
2. Mt Sylvia Road is closed to all traffic from the second last floodway due to road damage
3. The Gatton-Clifton Road is closed to all traffic between Doyles Camp Bridge and McGinleys Road. There is a 5 tonne load limit between McGinleys Road and the New England Hwy.
4. Kholo Rd bridge is closed due to the water release from Wivenhoe Dam.
5. Colleges Crossing on Mount Crosby Road is closed due to the water release from Wivenhoe Dam.

Roads impacted by water over the road:

1. Paradise Road, Larapinta
2. Illaweenah Street Drewvale
3. Young Crossing Road, Joyner
4. Wembley Rd, Berrinba
5. Boscombe Rd, Brookfield

CARS (RRG) BRANCH RESPONSE

As at 0530hrs, RRG reported that during their patrols:

1. Blunder Road, Oxley had minor debris on the side of the road; and
2. Bowhill Road, Oxley had partial flooding of the outbound lane, however, water on road signs were at both ends advising of this. Substantial debris was on the side of road.

LAS ERG has been contacted and will organise for the debris to be removed today.

LAS

LAS will again today have the "King Tide – Salt water over road" signs down for the predicted higher than usual tides at the usual locations. In addition, LAS ERG will be out today monitoring known locations for possible high tide road inundation.

BRISBANE SES

As at 2045hrs, Saturday 8 January 2011, the Brisbane SES advised that 3 jobs were received with all jobs completed. No major incidents of events.

CONTACT CENTRE

As at 0445hrs, the CC advised that the graveyard shift did not receive any flood or storm related calls from the public. However, since 12pm yesterday the following services requests were received that may be of interest:

- 3 fallen tree branches
- 20 flood/stormwater drain maintenance requests
- 47 road maintenance requests - this included potholes and floodwater over road requests

DM DUTY OFFICER

From: [REDACTED]
To: Shane Hackett, Media Matters, Greg Swain, Christen Hill, Kylie Jacobson, DM-LMO Distribution, DM Duty Officers, BMTMC_Traffic, Lisa M Martin, EMT Distribution, CC-Management & TL Team, CC-SHIFT LEADER, Robert McGlenn, FIC-Standby Duty Officers, [REDACTED]
Date: 9/01/2011 3:27:11 pm
Subject: SITREP : 0004 (1500hrs) SUN 9 January 2011

SITREP : 0004 (1500hrs) SUN 9 January 2011

WEATHER

According to the BoM website, the Brisbane Forecast issued at 1035hrs EST on Sunday 9 January 2011 is for rain periods, heavy at times, with possible thunder. Moderate to fresh E to SE winds.

For Monday 10 January 2011, the Brisbane forecast is rain periods, with possible thunder.

FLOODING TO HABITABLE AREAS

A single report was received indicating that the ground floor apartments at Bretts Wharf were impacted by the City Cats bow wave wash during high tide. LAS ERG investigated the issue at high tide today and identified that the habitable areas were well above the tide.

ERG found after speaking to one of the residents that the building stormwater drainage to the river has a tide flap. When the tide flap is closed by the incoming tide, if it is raining, the stormwater from the building roof and court yards backs up in the line till it surcharges from the grate and flows through the car park. This causes flooding in the car park.

ERG was on site today at the top of the tide and noted that there was no impact at that time. Sand bags were on site.

FLOOD INFORMATION CENTRE

As at 1345hrs, the FIC provided the following report:

Rainfall Summary:

Scattered showers have occurred in the last 24 hours giving an average of 27mm of rainfall over the catchment, with the highest falls of 47mm occurring in Brookside. Further rainfall is expected tonight and tomorrow with the forecast being for rain periods, heavy at times and possible thunder.

Rainfall predictions from the BoM website indicates that SE QLD can expect further high rainfall totals over the next 3 days.

Sunday: Widespread rain with totals between 50-100mm
Monday: Widespread rain with totals between 150-200mm
Tuesday: Widespread rain with totals between 100-150mm
Wednesday: Rain easing with totals of up to 5-10mm
Thursday: No rainfall forecasted at present

The next routine forecast will be available on the BoM website after 9pm tonight.

Tidal Flooding:

Ground reports indicate that tidal flooding experienced today was slightly higher than experienced yesterday. Today's tide was predicted to reach a peak of 2.20m (0.96m AHD) at 12:24pm at the Brisbane Bar. Gauge readings show today's tide peaked at 2.71m (1.47m AHD) at 12:35pm at the Brisbane Bar. This indicates a difference of 0.51m between the recorded and predicted peak high tide.

This difference can be attributed to the ongoing oceanic anomaly (0.4-0.5m) and additional flows from Lockyer Ck flows and Wivenhoe Dam releases (less than 0.1m). Discussions with the BoM indicate that this oceanic anomaly will persist for the next 1-2 months, but the level to which it affects the tide will vary.

The high tide is predicted to peak at 2.08m (0.84m AHD) at 12:56pm at the Brisbane Bar tomorrow. Given the persistence of the oceanic anomaly and additional flows from Lockyer Ck and Wivenhoe

Dam releases, the tide could be expected to reach up to 2.68m (1.44m AHD) at the Brisbane Bar. This level is below that experienced in the last few days.

Floodwise:

- 1) **Flooded Roads:**
 - Boscombe Rd, Brookfield
 - Colleges Crossing, Mt Crosby
 - Trouts Rd, Stafford Heights
 - Trouts Rd, McDowall
- 2) **Minor Flooding is occurring at:**
 - Enoggera Ck at Enoggera Dam (with water levels rising)
 - Downstream of Nudgee Rd near Crockford St, Nudgee (with water levels falling)

Brisbane River - Flood Flow Conditions:

The peak flows from the Lockyer Ck have reached Brisbane City. The current available assessments indicate that the combined flow in the lower Brisbane River would only add about 50mm to an upper limit of 100mm to the recorded water levels in the City Reach of the Brisbane River. However, it is noted that tides in the lower Brisbane River will be 0.4 to 0.5 metres higher than the predicted tides due to the oceanic anomaly.

Advice from the BoM indicates that although heavy rainfall is predicted for the Lower Brisbane River catchment tomorrow (predicted to be between 150mm to 200mm) - this is unlikely to cause significant increases to Brisbane River levels at the city. Any local creek inflows will likely be absorbed during the normal tidal cycle. If the predicted heavy rainfall eventuates and occurs within the Upper Brisbane River catchment, any impacts to River levels at the city will not be seen until later in the week.

Wivenhoe Dam Release Strategy:

The dam level is currently falling slowly, with the current level being 68.58m AHD. River levels upstream of the dam are receding, however further inflows will result from any additional rainfall. The current gate operation strategy will maintain flows of around 1,600m³/s in the mid-Brisbane River. The total release for the event is likely to increase over the next few days based on the current rainfall forecasts. At this stage, releases will continue until at least Wednesday. The current Wivenhoe Dam release combined with Lockyer flows and local runoff will mean that all low level crossings downstream of Wivenhoe (Twin Bridges, Savages Crossing, Burtons Bridge, Kholo Bridge and Colleges Crossing) will be adversely impacted until at least Wednesday 12 January 2011. At this stage Fernvale and Mt Crosby Weir Bridge are not expected to be affected, but this may be revised if the predicted rainfall totals eventuate and higher releases from Wivenhoe Dam are considered necessary.

BMTMC UPDATE

As at 1430hrs, the BMTMC report that based on the latest road intelligence, the following impacts are occurring:

Roads Closed:

1. Mt Sylvia Road is closed to all traffic from the second last floodway due to road damage
2. The Gatton-Clifton Road is closed to all traffic between Doyles Camp Bridge and McGinleys Road. There is a 5 tonne load limit between McGinleys Road and the New England Hwy.
3. Kholo Rd Bridge is closed due to water release from Wivenhoe Dam.
4. Colleges Crossing on Mount Crosby Road is closed due to the water release from Wivenhoe Dam.

Water over road:

1. Paradise Road, Larapinta
2. Illaweena Street Drewvale
3. Young Crossing Road, Joyner
4. Wembley Rd, Berrinba

CARS (RRG) BRANCH RESPONSE

As at 1430hrs, the RRG reported that from their patrols the following was identified:

1. Ross St, Newstead - Water just on the roadway.
2. Waterloo St, Newstead - Small amount of water on the road. Road not blocked.
3. Cambridge St, Rocklea - Road completely covered by water. Road Closed signs on the side of the road at the location. However, location now re-opened/removed road closed signs.
4. Parks St, Albion (Minor road in industrial area) - Small amount of water (approximately 150mm) across the roadway.
5. Quay St, Bulimba - Approximately 7 potholes
6. Ross St, Newstead - Water across some of the road. No vehicles in the street
7. Hemmant/Tingalpa Rd, Hemmant - Water subsiding at the location
8. Abbotsford Rd, Albion - Water covering the footpath and surrounding the bus stop but not causing problems to any traffic
9. Waterloo St, Newstead - Water across the entire roadway. Road closed signs in place at the location. A couple of cars in the water. QPS contacted.
10. Wynnum Esplanade - Water lapping the footpath but not on the roadway.
11. Sandgate Rd, Albion - Small amount of water on the road

LAS

As at 1445hrs, LAS ERG reported that similar issues were experienced to yesterday due to the high tides, however, while the levels were similar along Breakfast Creek, the level on bikeways was slightly higher probably due to wind on the river.

The only full closures that occurred today were Waterloo Street, Newstead and the bikeways at QUT and Coronation Drive, Milton. The bikeway will be cleaned of debris today.

Lane closures were established at Abbotsford Road, Bowen Hills, inbound of Burrows Street.

BRISBANE SES

As at 1445hrs, the Brisbane SES reported that 7 jobs had been received, with 5 completed and 2 still outstanding. No high priority/risk jobs were received with the jobs being mainly for roof and sandbagging. The DM Duty Officer contacted the Brisbane SES to identify the variance between the CC and SES. The SES is investigating.

CONTACT CENTRE

As at 1400hrs, the CC reported that the 23 SES requests had been taken, with only 9 requiring assistance. The remaining 14 jobs were requesting information, such as information about collecting sand bags.

Other services requests taken by the CC that may of interest are as follows:

- 10 Fallen tree branch requests;
- 19 Stormwater drain maintenance requests; and
- 16 Road Maintenance requests.

DM DUTY OFFICER

DUTY OFFICER TELEPHONE NUMBER

(24hrs)

Subject: SITREP : 0005 - EMERGENT ISSUES (1900HRS) SUN 9 January 2011

SITREP : 0005 - EMERGENT ISSUES (1900HRS) SUN 9 January 2011

FLOOD INFORMATION CENTRE UPDATE

As at 1845hrs the FIC have advised that the radar is showing light rainfall with patches of moderate rainfall over north Brisbane. However the FloodWise rainfall totals for the last hour show an average of about 3-4mm on the northside with the highest total being 7mm at Cashes Crossing (Pine Rivers Shire).

At the moment the moderate rainfall depicted on the BoM radar is not yet occurring on the ground. The storm band is moving west and mainly crossing over the northside. If we do receive any moderate rainfall overnight, there will likely be localised flash flooding as the creek catchments are fully saturated at present. FloodWise will provide warning of flash flooding for the available Flooded Roads and Area locations. At the moment Trouts Rd (McDowall), Bennetts Rd (The Gap) and Boscombe Rd (Brookfield) are cut on the northside.

The FIC have also contacted the BoM and they have advised that the storm band currently heading west, is likely to shift and move south overnight. If the moderate rainfalls continue as it shifts south towards Brisbane, there will likely be flash flooding across the city. Creek response is likely to be quick due to the catchment saturation. Again, FloodWise will provide warning of flash flooding for the available Flooded Roads and Area locations.

POWERLINK

As at 1800hrs, Powerlink raised concern about one of their 275KV 2 feeder lines on the Brisbane River at Karana Down having its base eroded. An inspection has been completed by Powerlink who indicated that there is no immediate threat, with a more detailed inspection to occur tomorrow.

LDCC

With the risk of further rain overnight, the CEO has activated the LDCC at Level 3 for the purpose of pre-empting/monitoring the weather overnight and forward planning.

Subject: SITREP : 0006 - EMERGENT ISSUES (2359HRS) SUN 9 January 2011

SITREP : 0006 - (2359HRS) SUN 9 January 2011

Flooding inundation to habitable areas of homes: NIL reported

Where there are major incidents/events: NIL reported

WEATHER

Monday - Rain periods, heavy at times, with local thunder. Moderate to fresh E to SE winds

Subsequent conversations with BoM indicate heavy rain expected starting in the early hours of the morning, local flooding possible.

Forecast:

Tuesday - Rain periods, possible thunder

Wednesday - A few showers

Thursday - A shower or two

FLOOD INFORMATION CENTRE UPDATE

Rainfall Summary

Heavy rain forecast to start at approximately 0300HRS. 200mm predicted to fall during a 6-9 hour period. Local flash flooding likely over extended areas of the city. Flooding may occur, potentially affecting properties and closing some roads across the city.

LAS, ERG and RRG have patrolled the following hot spot locations to ensure that gullies and creeks are clear of debris that could inhibit flow with early reports indicating most locations are clear:

Rocklea
Norman Creek/Deshon Street
Breakfast Creek
Zillman Waterholes
Enoggera Creek
Ithaca Creek
Pound Drain
Hemmant Drain
Kedron Brook
Cannery Creek
Wynnum
Beck Street, Paddington
Castlemaine/Caxton Street, Paddington
Newstead
Long Street, Kenmore
Trenton Street, Kenmore
Perrin Creek
Lota
Sandgate

Brisbane River

High Tides

High tide tomorrow, including the expected run off from the creeks, is expected to be 1.65m AHD (2.89m tide level). "High tide - Salt water over road" signs are still displayed in the known locations of king tide inundation. LAS will continue to monitor.

Dam Release

River levels upstream of the dam are rising quickly with significant inflow being generated from the intense heavy rainfall.

The dam will increase its releases starting Monday morning with the objectives of keeping the combined flows in the lower Brisbane river to 4000m³/s which will cause a predicted level of 2.5m AHD (3.74m tide level) at the Brisbane City gauge approximately Wednesday.

Based on the expected schedule of release the effects will result in inundation in low lying areas including habitable areas.

BoM have been contacted and will model the predicted flows to provide greater accuracy in predictions to allow Council to assess impacts on habitable areas. Please note that these levels are dependant on the forecast rainfall over the next two days and will be re-assessed each day.

FIC will model the likely areas (streets and suburbs) impacted from these flows with results being available approximately 1400HRS (10 Jan 2011).

BMTMC

BRISBANE CITY - GEORGE STREET 11:25 PM 09/01/2011 update from
<http://highload.131940.qld.gov.au/>

Due to heavy rain fall, the following roads are closed in the Brisbane Metropolitan Area:

Paradise Road, Larapinta

Illaweena Street Drewvale

Youngs Crossing Road, Joyner

Flooding inundation to habitable areas of homes: NIL reported

Where there are major incidents/events: NIL reported

WEATHER

Monday - Rain, heavy at times. Local thunder. Moderate to fresh SE to NE winds

At 0345HRS, BoM advised that heavy bands of rain are coming in from the East. Rain will be heavy at times. It is still expected that falls of greater than 100mm will fall across Brisbane, with 30-50mm expected to fall in the next couple of hours in locations.

Forecast:

Tuesday - Rain periods, possible thunder

Wednesday - A few showers

Thursday - A shower or two

FLOOD INFORMATION CENTRE UPDATE

FLOODWISE Rainfall Summary

Over the last 24 hours an average of 77mm of rainfall has occurred with the highest falls of 129mm occurring in Brisbane Forest Park and 118mm in The Gap. The lowest rainfall of 29mm occurred at Underwood.

In the last 6 hours an average of 13mm of rainfall has occurred with the highest 6 hour rainfall of 31mm occurring in Brighton and 27mm in Bracken Ridge.

Minor flooding is occurring at the following Location(s):-
Enoggera Ck at Enoggera Dam with water levels Falling

Roads are flooded at the following Location(s):-

Colleges Crossing Mt Crosby

Mt Crosby Weir Mt Crosby

BOSCOMBE RD Brookfield

FloodWise indicates flooding in Moggil Creek, Brookfield. RRG have been dispatched to investigate if there has been any impacts on the Community.

Brisbane River

High Tides

Today's high tide, including the expected run off from the creeks, is expected to be 1.65m AHD (2.89m tide level). "High tide - Salt water over road" signs are still displayed in the known locations of king tide inundation. LAS will continue to monitor.

Dam Release

River levels upstream of the dam are rising quickly with significant inflow being generated from the intense heavy rainfall.

The dam will increase its releases starting this morning with the objective of keeping the combined flows in the lower Brisbane river to 4000m³/s which will cause a predicted level of 2.5m AHD (3.7m tide level) at the Brisbane City gauge by approximately Wednesday.

Based on the expected schedule of release the effects will result in inundation in low lying areas including habitable areas.

We have contacted SEQWater and have expressed concern about the proposal and consequences of a 4000m³/s flood through Brisbane. As a result SEQWater are reviewing their release strategy with their modeling expected to be completed by 0700HRS and will then be passed onto the BoM who will model the expected levels through the lower Brisbane reach.

These levels are dependant on the forecast rainfall over the next two days and will be re-assessed each day by the FIC, SEQWater and BoM.

FIC will continue to model the likely areas (streets and suburbs) impacted from these flows (4000m³/s) with results being available approximately 1400HRS today.

**SITUATION REPORT
WEATHER**

Current: Issued at 4:50 am EST on Monday 10 January 2011

Forecast for Monday

Rain, heavy at times. Local thunder. Moderate to fresh SE to NE winds.

City: Max 25 Bayside: Max 25

Tuesday :Rain periods, possible thunder Min 22 Max 25

Wednesday :A few showers Min 22 Max 27

Rainfall

Moderate to heavy rainfall has been recorded in the Upper Brisbane and Stanley Rivers in the last 12 hours with totals up to 90 mm. Totals for the last 24 hours range from 100 to 325mm.

Mt Glorious recorded 100 mm in the last 12 hours.

Rainfall of similar magnitudes is expected in the 12 to 24 hours around the downstream catchments as the system tracks south.

A severe weather warning remains current for heavy rainfall in the dam catchment areas.

FLOOD INFORMATION CENTRE (FIC)

Has predicated that at 2pm on Wednesday 12 January 2011. Approximately 455 properties flooded and 7731 properties partial flooded.

FloodWise Road Closures – Current Status

Victoria Street Windsor, Marshall Road Salisbury, Colleges Crossing Karana Downs, Mt Crosby Weir Mt Crosby, Bowhill Rd Durack, Bowhill Rd Willawong, Boscombe Rd Brookfield.

Brisbane River - Flood flow Conditions :

Current objectives

- Continue increasing releases to discharge flood waters but keep impact downstream to minimum.

Wivenhoe Dam Release: (Full Supply Level 67.00 m AHD)

River levels upstream of the dam have peaked and are falling slowly with significant inflow being generated from the intense heavy rainfall. Flows in the Brisbane River at Gregor's CK have peaked at 7,350m³/s at 23:00 on Sunday 9 January. This peak is bigger than January 1974 and February 1999 at this location.

The dam level is rising quickly, with the current level being 70.77m AHD (storing 450,000 ML). Estimated peak inflow to the dam just from the Upper Brisbane R is around 8,800m³/s and, at this stage, the dam will reach at least 73.3 m AHD during Tuesday morning. Given the rapid increase in inflow volumes, it was necessary to start to increase the release from Wivenhoe during Monday morning.

Fernvale Bridge approaches and Mt Crosby Weir Bridge have been inundated and both bridges are now closed.

The current release rate from Wivenhoe Dam is around 2,000m³/s (172,000ML/day). Gate opening will continue to be increased during Monday and the release is expected to increase to at least 2,600m³/s in the next 12 to 24 hours and further depending on downstream flows..

Since the commencement of the event on 02/01/2011 approximately 275,000ML has been released from the dam, with an event total approaching 1,600,000ML without further rain and as much as 2,100,000ML with forecast rainfall of (both including Somerset outflow). At this stage, releases will continue until at least Sunday 16th January 2011.

Impacts downstream of Wivenhoe Dam

The projected Wivenhoe Dam releases combined with Lockyer flows and local runoff will mean that all crossings downstream of Wivenhoe (Twin Bridges, Fernvale, Savages Crossing, Burtons Bridge, Kholo Bridge, Mt Crosby Weir and Colleges Crossing) will be adversely impacted until at least Saturday 15 January in varying degrees.

Water levels in the lower Brisbane River will be impacted by the combined flows of Lockyer Ck, Bremer River, local runoff and releases from Wivenhoe Dam. If the predicted rainfall eventuates in the downstream tributary catchments the resultant combined flows in the lower Brisbane may exceed the threshold of damaging discharge in the urban areas within the next 24 to 48 hours.

Somerset Regional, Ipswich City and Brisbane City Councils have been advised of the updated Wivenhoe operating strategy.

Somerset Dam (Full Supply Level 99.00 m AHD)

The dam level at 05:00 was 102.84 m AHD and rising (storing 193,000 ML above FSL). Peak inflow to the dam is estimated to be about 4,200 m³/s based on observed rainfall and could be as high as 5,000m³/s with additional forecast rainfall. Five sluice gates are open releasing about 1,100m³/s (95,000ML/d) into Wivenhoe Dam. At this stage the dam lake level will reach about 103.5 m AHD on Monday afternoon. Areas around Kilcoy will continue to be adversely affected.

The FIC is maintaining a watch and is in contact with the BoM and SEQWater.

Ferry Operations

West End and Teneriffe terminals have been closed due to high tide and will be re-opened shortly. Normal operations are expected to continue until close tonight. Moggill ferry not operating due to debris in river.

BMTMC

The following roads are currently being affected by localised flooding within the Brisbane Metropolitan area:

Due to heavy rain fall, the following roads are closed in the Brisbane Metropolitan Area:

Kangaroo Gully Rd, Bellbowrie

Lancing St, Pullenvale.

Paradise Road, Larapinta

Illaweena Street Drewvale

Youngs Crossing Road, Joyner

Wembley Rd, Berrinba
Rafting Ground Rd at Rees Way, Greentrees Ave and Deerhurst Rd, Brookfield
Widdop St Clayfield
Melton St Nundah
Gap Creek Road Brookfield
Marshall Road Rocklea
Formosa Rd between Stanborough and Dairy Swamp rd Gumdale
Murphys Creek Road, Lockyer
Manly Rd between New Cleveland Rd and Castlereas St, Manly
Ropley Rd, Wynnum West
Rosewood Warrill View Rd, Rosewood
Strathpine Road is between Kremzoe Rd and Gympie Rd
Motorists are advised not to enter floodwaters and to seek alternative routes.

- Due to heavy rain fall, the following roads are reported to have water across them Brisbane Metropolitan Area:
 - Telegraph Rd and Norris Rd intersection Bracken Ridge.
 - Zillmere Rd and Newman Rd Boondall
 - Murial Av and Sherwood Rd Rocklea.
 - Gympie Rd after Beams Rd left lane

KHOLO - KHOLO BRIDGE 01:36 PM 10/01/2011

The Kholo Bridge has been closed due to a water release from Wivenhoe Dam.

- **MILTON - PARK ROAD 01:36 PM 10/01/2011**

There is a stationary truck in the right lane on Park road before Milton road under the rail bridge.

- **MOGGILL - MOGGILL FERRY 01:37 PM 10/01/2011.**

The Moggill Ferry is OUT of service.

- **WINDSOR - NORTHEY STREET 01:39 PM 10/01/2011**

Due to flooding the westbound lanes on Northey St are currently closed.

BCC Action Plan

An Action Plan exists for 10 January 2011 for On Call and Operational arrangements. This Action Plan included the SES, Contact Centre, Local Asset Services, Compliance and Regulatory Services, City Waste, Brisbane City Works, Disaster Management Group and the Flood Information Centre.

LAS

There are 15 staff at each depot working on flood issues, approx 240 staff for BCW.

RRG

Ongoing patrols of known hotspots and monitoring of weather and environmental conditions. RRG has confirmed that all the effected roads have signs in place.

SES

As at 1045 hours 108 jobs received. It is an even split between height safety and sandbags requests ie 54 each. 9 Jobs have been completed.

At present we have 5 teams in the field. The IMT team is running out of Newmarket at HQ and Shane Bunney is the controller.

Sand Bags: 54

Tarps: 54

CONTACT CENTRE

The current situation is include in the call centre scripting updates are being included as they become available.

Communication Response

Preparations are well in hand to provide a letter box drop to likely effected residents and a leaflet drop on cars parked in likely flood effected areas.

ASSESSMENT FUTURE FORECASTS

Tuesday 1pm High Tide 3.34 metres

Wednesday 2pm high tide 3.7 metres

Impacts:

- Water over boardwalk at Cultural Centre, bikeways along the river, and roads Albion, Newstead.
- Ferry Terminal closures at West End and Teneriffe
- Bus – Some disruption to routes
- Road – Some closures and traffic congestion
- Bridge closures- Savages Crossing, Bartons Bridge, Kholo Bridge, Colleges Crossings, Fernvale Bridge, Mt Crosby Weir

Advice form SEQ Water and BOM indicated that the above heights will increase with continued rainfall. Assessment of input is currently being investigated.

The DMG and FIC continue to monitor the situation.

Please note: To all business units please provide your Sitrep reports 60 minutes prior to the LDCC Sitrep closing time.

Sitrep closing times

3:30pm

10:00pm

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]
Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	09
DATE:	10/01/2011	PRIORITY:	Routine
PERIOD:	1530 hrs – 2200 hrs		
EVENT TYPE	Flood		

OPERATIONS AND ASSESSMENTS

- New data indicates that the flood event may be considerably more extensive than originally predicted due to high tides and releases from the Wivenhoe dam

CURRENT ACTIVITES:

- Scripting provided to Call Centre due to high volume of requests for information from residents.
 - 5000 letters approved by the LMO will be distributed to households that are in areas that have been at potential risk of flood. Printing undertaken by Confidential Document Solutions (CDS) at a cost of \$750 and will be delivered to Brisbane Square by no later than 12am 11/1/11.
 - Approximately 75 BCW staff are filling sandbags. BCW continuing to supply filled sandbags to distribution centres. Stafford and Eagle farm are being used as filling and distribution points
-

FUTURE OPERATIONS AND ACTIVITIES:

- RRG will letter box drop to high risk areas
- A copy of the letter will be sent to the call centre.
- Media is collating a list of flood affected streets and suburbs for Lord Mayor's media call.
- Flood information Centre is mapping potentially flooded and partially flooded properties to enable planning and communication to residents

ISSUES:

Community Issues

- High demand for filled sandbags
- Traffic control deployed to Zillmere and Balmoral to manage traffic jams

Economic

- Nil to report

Environment

FIC SITREP @ 6pm

- **Rainfall Update:** Scattered showers have occurred in the last 24 hours giving an average of 73mm of rainfall with the highest falls of 97mm occurring in Brisbane Forest Park and 94mm in The Gap. The lowest rainfall of 40mm occurred at Moggill. In the last 6 hours an average of 3mm of rainfall has occurred with the highest 6 hour rainfall of 8mm occurring in Upper Kedron and 6mm in Brookfield. Further rainfall is expected overnight with the forecast being for rain, heavy at times and local thunder.
 - Advice from BoM indicates that SE Qld can expect further rainfall over the next few days.
 - Tuesday: Rainfall with totals up to 50mm
 - Wednesday: Rain easing with totals up to 10mm
 - Thursday: No rainfall forecasted
 - Friday: No rainfall forecasted
 - **Tidal Flooding:**
 - The tide is predicted to reach a peak of 1.95m (0.71m AHD) at 1:32pm at the Brisbane Bar tomorrow. BoM have advised that due to the persistence of the oceanic anomaly along with inflows from Upper and Lower Brisbane River catchment and the current Wivenhoe Dam releases, this high tide is expected to be exceeded and reach approximately 3.34m (2.10m AHD) at the Brisbane City Gauge.
 - **Brisbane River - Flood Flow Conditions:**
Currently the Lower Brisbane River is receiving flows from the Upper Brisbane River catchment and Wivenhoe Dam releases. The Wivenhoe Dam release strategy is aiming to keep Lower Brisbane River flows below 4000m³/s if possible.
 - **Wivenhoe Dam Release Strategy - as per SEQ Water advice:**
The dam level is 72.41m AHD and rising quickly. The rainfall experienced over the last 2 to 3 hours will result in significant further inflows into the dam and releases from the dam will need to be increased in accordance with Flood Mitigation procedures. Outflows into the Brisbane River from both Lockyer Creek and the Bremer River are also increasing. Five radial gates are currently open at the dam releasing about 2,000m³/s into the Brisbane River and this will need to be increased steadily to an outflow of 2,800m³/s over the next 9 hours (commencing at 1500). At this stage, the
-

dam will reach about 73.8m AHD during Tuesday morning. The objective for dam operations is currently to minimise the impact of urban flooding in areas downstream of the dam and to keep river flows in the lower Brisbane River below 4,000m³/s if possible. This is significantly less than the current estimated combined pre-dam peak inflow of 12,000m³/s.

ADMINISTRATION:

- Nil to report

OVERALL ASSESSMENT:

- BoM forecast at 10/01/2011 1600 hrs – Upper range for the peak forecast for Wednesday 12/01/2011 at 1430 hrs assuming forecasted rainfall over the next 2 days is similar to that received already will be 4 600 m³/s and a 4.24 m tide or port datum (3.1 m AHD) at the Brisbane City gauge
- The projected Wivenhoe Dam releases combined with Lockyer Creek flows and local runoff will mean that all crossings downstream of Wivenhoe (Twin Bridges, Fernvale, Savages Crossing, Burtons Bridge, Kholo Bridge, Mt Crosby Weir and Colleges Crossing) will be adversely impacted until at least Sunday 16 January in varying degrees. Water levels in the lower Brisbane River will be impacted by the combined flows of Lockyer Creek, Bremer River, local runoff and releases from Wivenhoe Dam. Heavy rainfall continues throughout South East Queensland and the situation could deteriorate rapidly over the next 24 hours. The flood operation centre will continue to monitor the situation and provide every six hours until the situation stabilises.

See Annex A for detailed report.

- Regional Manager EMQ

EVENT NAME: January 2011 Flood Event

SITREP NUMBER: 10

DATE: 11/01/2011

PRIORITY: Routine

PERIOD: 2200 hrs – 0200 hrs

EVENT TYPE Flood

OPERATIONS AND ASSESSMENTS

- BoM are liaising with SEQWater re Wivenhoe Dam releases to try and determine the impact of the flash flooding in the Lockyer River on the Lower Brisbane River flows.
- Worst case scenario at this stage is 3.5mAHD (5000 m³/s) at the City Gauge. This includes the effect of the atmospheric anomaly on tide levels. The Bureau's current official advice is 3.0m at the City Gauge occurring on the afternoon high tide. They will not be updating their official advice until 8am Tuesday when they have more certainty around their forecast.

CURRENT ACTIVITES:

- A second print run of 2000 dl flyers targeted at cars parked in streets likely to be flooded was ordered from Confidential Documents Solutions at 9pm. Both the original 5000 print run and the second request were delivered to the LDCC at 11.45pm. RRG staff have taken delivery of the flyers and will transport them to Green Square for distribution from 6am 11/1/11.
- **Contact Centre**

The current grade of service for Monday 10 January was 68.63% since midnight, the current grade of service for Tuesday 11 January from midnight is 80.65% the total General Q calls for Monday 10 January 7633(forecast 4721). The total General Q calls for Tuesday 11 January as at 1.55am is 28 (forecast for the entire day is 4414).

SES - Total number SES calls taken since 10.45am - 459 with total of 58 jobs for assistance submitted, the remainder were information calls (for example; sandbag location for collection)

28 Fallen Tree Branch Requests

79 Stormwater Drain Maintenance Requests

85 Roads Maintenance Requests

SES - Total number SES calls taken since 9.27pm - 23 with a total of 3 jobs for assistance submitted, the remainder were information calls.

No further tree jobs

Stormwater maintenance requests - 2

Roads Maintenance requests - 2

Due to the Lord Mayor and media coverage of the current weather, a significant volume of calls were received, (mainly between 5pm and 7pm). Most residents have concerns about their property flooding.

- Brisbane forecasting reporting system went live just after midnight. This system allows the Contact centre staff to provide flood information about a specific address.

- **Regional Councils:**

Moreton Bay Regional Council: Calls were diverted to BCC at 7pm

Somerset Regional Councils Office flooded and calls were diverted to BCC at 3.30pm

Sunshine Coast Regional Council calls were diverted to BCC at 9pm

Ipswich City Council calls diverted to BCC at 10pm

FUTURE OPERATIONS AND ACTIVITIES:

- Information about specific addresses that may be affected by flooding is being reviewed. More accurate information to be available in the next few hours.

ISSUES:

Community Issues

- Contact Centre receiving high volumes of calls as a result of information provided by the media

Economic

- Nil to report

Environment

- Severe weather warning issued by BoM at 2300 hrs for heavy rainfall leading to localised flash flooding and potentially worsening the existing river flood situation

ADMINISTRATION:

- Nil to report

OVERALL ASSESSMENT:

- Preparation for the various flooding scenarios is progressing.

See Annex A for detailed report.

Annex A to SITREP No: 10**Date:**
Period:**11.01.1011**
To: 2200 hrs**0200 hrs**

ITEM	COMMENTS
Impact Area and Scale	No new issues
Communications	The Brisbane City council website is experiencing intermittent problems. Residents can subscribe to the early warning network via the EWN website. www.ewn.com.au
Electricity	998 customers are without power due to various issues including; high winds and flooding. Energex is undertaking analysis to identify where power may need to be turned off as a result of flooding
Water Supply	QUU advise water booster and sewerage pumps stations are operating normally. However, due to staff shift changeovers over 100 jobs remain logged as unattended sewer surcharges. The control room has logged a request for John Gedge (supervisor QUU control room to update the LDCC with a SITREP in the morning prior by 10am in preparation for the LDMG meeting scheduled for midday.
Sewerage	No issues
Gas	No issue
Transport	The outbound exit of Blunder road and Ipswich road has been closed due to water over the road One lane of Oxley Rd neat the golf course has been closed due to water over the road Full closure Cnr Oxley Station Road and Cook street due to

	flooding. Situation being monitored, further road closures may be required.
Hospitals/Schools etc	No issue
Public Services	No issue
Properties/Buildings	No issue

STATUS REPORT

ITEM	COMMENTS
Supply Problems (Food, clothing, etc)	No issue
Equipment (Sandbags, lighting, etc)	<p>Total stock estimated at 7,500 bags</p> <p>Total supplied during 10.11.10 estimated at up to 20,000 bags up to this report time.</p> <p>SES Depot Newmarket, low stocks ~200 being continuously accessed by public (low volumes now was high traffic), stock levels will be maintained over night by on site fill crew 6 people, also supplied from Stafford central stock. Estimated that 4000+ bags have been distributed 10.11.11.</p> <p>BCW Zillmere Depot, growing stocks 600+ bags, did experience very high traffic and up-take requiring traffic control to be put in place, crew of 10 will continue to fill over night, teams have also been making local deliveries to residents, Estimated 5000-6000 bags have been distributed.</p> <p>BCW Darra Depot, high volumes of traffic throughout the evening, low stocks 400+ but now growing, crew of 6 will continue to fill over night, resident traffic now minimal.</p> <p>BCW / SES Balmoral Depot, very high traffic volumes throughout the night, crew of 10 will continue to fill over night, volumes being supplemented by supply of filled bags from Stafford, very little stockpile but stocks will grow when resident volume decreases as expected over night. Approx 6000+ supplied</p> <p>BCW Stafford, Stock level now approx. 5200 bags (dependant on cross supply as above) Crew of 15 filling bags overnight, will continue to supply other depots and grow stock levels.</p> <p>BCW Eagle Farm, Stock level 800 growing as supply base.</p>

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]
Fax: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	11
DATE:	11/01/2011	PRIORITY:	Routine
PERIOD:	0200 hrs – 0800 hrs		
EVENT TYPE	Flood		

OPERATIONS AND ASSESSMENTS

- BoM are liaising with SEQWater re Wivenhoe Dam releases to try and determine the impact of the flash flooding in the Lockyer River on the Lower Brisbane River flows.
- Worst case scenario at this stage is 3.5mAHD (5000 m³/s) at the City Gauge. This includes the effect of the atmospheric anomaly on tide levels. The Bureau's current official advice is 3.0m at the City Gauge occurring on the afternoon high tide. They will not be updating their official advice until 8am Tuesday when they have more certainty around their forecast.

CURRENT ACTIVITES:

- A second print run of 2000 dl flyers targeted at cars parked in streets likely to be flooded was ordered from Confidential Documents Solutions at 9pm. Both the original 5000 print run and the second request were delivered to the LDCC at 11.45pm. RRG staff have taken delivery of the flyers and will transport them to Green Square for distribution from 6am 11/1/11.
- **Contact Centre**

The current grade of service since midnight is 65.57%. The total General Q calls for Tuesday 11 January from midnight is 64.

SES - Total number SES calls taken since 2.00am – 6 with no jobs for assistance submitted.

0 Fallen Tree Branch Requests
0 Stormwater Drain Maintenance Requests
0 Roads Maintenance Requests
15 Flood information requests

- Brisbane forecasting reporting system went live just after midnight. This system allows the Contact centre staff to provide flood information about a specific address.

- **Regional Councils:**

Moreton Bay Regional Council: Calls were diverted to BCC at 7pm

Somerset Regional Councils Office flooded and calls were diverted to BCC at 3.30pm

Sunshine Coast Regional Council calls were diverted to BCC at 9pm

Ipswich City Council calls diverted to BCC at 10pm

FUTURE OPERATIONS AND ACTIVITIES:

- Information about specific addresses that may be affected by flooding is being reviewed. More accurate information to be available in the next few hours.

ISSUES:

Environment

- Severe weather warning issued by BoM at 0505 hrs for heavy rainfall leading to localised flash flooding and potentially worsening the existing river flood situation

IT

- Council's corporate web page crashed overnight. Third party contractors engaged by ISB rectified issue and system now returned to full operation. Fault not yet identified however support on standby and conducting further enquiries. Post failure report will be provided once fault identified.

ADMINISTRATION:

- Nil to report

OVERALL ASSESSMENT:

- Preparation for the various flooding scenarios is progressing.

See Annex A for detailed report.

Annex A to SITREP No: 11**Date:**
Period:**11.01.1011**
To: 200 hrs**0800 hrs**

POTENTIAL AREAS AFFECTED predicted streets affected by a Brisbane River Flood of 5000m³/s peak flow.The list below is likely to be conservative as the current BOM forecast is for a 4600m³/s peak flow.

DUE TO ALL WORK UNITS STANDING DOWN OVERNIGHT THERE IS NO NEW INFORMATION TO BE ADDED FOR THE INFORMATION BELOW.

ITEM	COMMENTS
Impact Area and Scale	No new issues
Communications	The Brisbane City council website is experiencing intermittent problems. Residents can subscribe to the early warning network via the EWN website. www.ewn.com.au
Electricity	56 customers are without power due to various issues including; high winds and flooding. Energex is undertaking analysis to identify where power may need to be turned off as a result of flooding
Water Supply	QUU advise water booster and sewerage pumps stations are operating normally. However, due to staff shift changeovers over 100 jobs remain logged as unattended sewer surcharges. The control room has logged a request for John Gedge (supervisor QUU control room to update the LDCC with a SITREP in the morning prior by 10am in preparation for the LDMG meeting scheduled for midday.
Sewerage	No issues
Gas	No issue

Transport	<p>The outbound exit of Blunder road and Ipswich road has been closed due to water over the road</p> <p>One lane of Oxley Rd neat the golf course has been closed due to water over the road</p> <p>Full closure Cnr Oxley Station Road and Cook street due to flooding. Situation being monitored, further road closures may be required.</p>
Hospitals/Schools etc	No issue
Public Services	No issue
Properties/Buildings	No issue

STATUS REPORT

ITEM	COMMENTS
Supply Problems (Food, clothing, etc)	No issue
Equipment (Sandbags, lighting, etc)	<p>Total stock estimated at 7,500 bags</p> <p>Total supplied during 10.11.10 estimated at up to 20,000 bags up to this report time.</p> <p>SES Depot Newmarket, low stocks ~200 being continuously accessed by public (low volumes now was high traffic), stock levels will be maintained over night by on site fill crew 6 people, also supplied from Stafford central stock. Estimated that 4000+ bags have been distributed 10.11.11.</p> <p>BCW Zillmere Depot, growing stocks 600+ bags, did experience very high traffic and up-take requiring traffic control to be put in place, crew of 10 will continue to fill over night, teams have also been making local deliveries to residents, Estimated 5000-6000 bags have been distributed.</p> <p>BCW Darra Depot, high volumes of traffic throughout the evening, low stocks 400+ but now growing, crew of 6 will continue to fill over night, resident traffic now minimal.</p> <p>BCW / SES Balmoral Depot, very high traffic volumes throughout the night, crew of 10 will continue to fill over night, volumes being supplemented by supply of filled bags from Stafford, very little stockpile but stocks will grow when resident volume decreases as expected over night. Approx 6000+ supplied</p> <p>BCW Stafford, Stock level now approx. 5200 bags (dependant on cross supply as above) Crew of 15 filling bags overnight, will continue to supply other depots and grow stock levels.</p>

	BCW Eagle Farm, Stock level 800 growing as supply base.

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Fax: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	12
DATE:	11/01/2011	PRIORITY:	Routine
PERIOD:	0800 hrs – 1530 hrs		
EVENT TYPE	Flood		

OPERATIONS AND ASSESSMENTS

- The BoM have communicated to us the following:

The predicted height at the high tide tomorrow is 4.5 mAHD at the Brisbane City Gauge.

Based on the likely Wivenhoe release strategy (6,400 m³/s this evening 8:00pm), the predicted peak flood height at the Brisbane City Gauge is between 5 mAHD and 5.5 mAHD, (10,500 m³/s). The timing of this predicted peak is 3AM Thursday morning 13/01/11.

This flood event will be similar to the 1974 flood.

The BoM further advised that they are briefing the Premier accordingly.

CURRENT ACTIVITES:

- An initial 45 sand bags were delivered to Gyatt Park in St Lucia followed by an additional 150, in response to requests made to the Walter Taylor Ward Office by local residents being flooded.
 - RRG have distributed 5000 FAQ sheets on the flooding of property and LAS have distributed 2000 flyers targeted at cars parked in streets.
-

-
- Some lower lying areas in West End and Westlake have been evacuated by the Queensland Police Service.

Contact Centre

Grade of Service - 31.56% responded to within 20secs

1828 SES calls
5952 General calls

2995 calls for current flooding info
1197 calls for SES info
119 calls for SES assistance

FUTURE OPERATIONS AND ACTIVITIES:

ISSUES:

Resources

- Sandbags have been made available from Council depots at six locations, in addition to local collection points being established at various suburban locations. Stocks are being replenished, with approx 53,000 distributed.

Evacuation

- RNA is confirmed as the first point of call for evacuations.
Entries from Gregory Street.
Council staff are in attendance.
Red Cross staff have been notified and are on their way
St Johns first aid have been notified and are on their way
Food and water is being coordinated by Red Cross and the Salvos
Bedding to be ordered by 4pm

No evacuees are currently in attendance

Channel 10 is on site and filming

ADMINISTRATION:

- Nil to report

OVERALL ASSESSMENT:

- 72 hr planning is being undertaken with consideration to the projected Thursday tidal and river peak.

See Annex A for detailed report of predicted affects.

Annex A to SITREP No: 11**Date:**
Period:**11.01.1011**
To: 200 hrs**0800 hrs**

POTENTIAL AREAS AFFECTED predicted streets affected by a Brisbane River Flood of 7000m³/s peak flow.

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	13
DATE:	11/01/2011	PRIORITY:	Routine
PERIOD:	1530 – 2200 hrs		
EVENT TYPE	Flood		

OPERATIONS AND ASSESSMENTS

The forecast Brisbane River levels provided by Bom in their latest advice do not differ from the previous advice other than at Jindalee which has been forecast 0.5 m lower than the earlier prediction. After discussion with BoM the FIC has decided not to rerun these levels to update the BRFFS used by the contact centre since further flood level rises are still possible anyway. The current advice correlates to 10,500 cumecs and at least 5.5m AHD at City Gauge.

BoM will provide further advice at 12am and will reassess at that time.

CURRENT ACTIVITES:

- As of 1945hrs (11/1), all flood preparation estimates are now being based on a **12000** cumex level. The Flood Information Centre is currently working on revised maps.
 - Spatial Information Services (SIS) will generate a complete list of probable-affected suburbs with accompanying maps. Estimated numbers of probable-affected properties will follow.
 - Letters will continue to be sent to as many affected residents as possible before the window of practicality closes.
-

-
- Best information at this stage is that the operational capability window for tomorrow (**Wed 12/1**) is up to **1400hrs**. Staff have been instructed not to endanger themselves in anyway and not to continue with the letter drop if the situation is deemed dangerous.
 - An initial 45 sand bags were delivered to Gyatt Park in St Lucia followed by an additional 150, in response to requests made to the Walter Taylor Ward Office by local residents being flooded.

- **Contact Centre**

- As at 2140 GOS 40.87 % wait time 206 min, customers in queue 7
- 225 sec AHT
- Majority of calls are request for assistance
- Many calls offering assistance, accommodation on their homes
- Queries about flood zones and flood wise, fill sand bags
- Calls from Nursing homes for assistance

- **RRG**

Scheduled Inspections: 10726 properties

NORTH

Scheduled Inspections: 1200

Suburbs Inspected: Pinkenba, Woolloowin, Albion, Bowen Hills

Completion Rate: 100%

CARS staff letterbox drop 1200 information sheets distributed. 53 Rapid Assessment Forms have been completed with 33 still remaining.

Significant Events:

- Wyampa Road Boondall – Police in attendance for water across the road, Rapid Response Group assisted with road closure and traffic diversion.
- Leaflets have been delivered to known flood prone areas - Deagon and Sandgate.
- Up to six officers from North Region were required to leave work due to personal issues regarding flooding of their properties. It is not known when these staff will be able to return to work.
- Some flooding in Bowen Hills and Albion area.

SOUTH

Completion Rate: 72%

Suburbs Inspected: Rocklea, Sherwood, Willawong, Wacol, Oxley, Yeerongpilly, Yeronga, Tennyson, Corinda, Graceville, Fairfield

Significant Events:

- Parts of South were not accessible due to road closures.
- Mobile Phone communication appears limited.
- Parts of Corinda had approximately 90% of letterbox drops and Vehicle leaflets.

CENTRAL

Scheduled Inspections: 3010 properties: New Farm, Newstead, Brisbane CBD, South Brisbane, West End, East Brisbane, Woolloongabba and Kangaroo Point.

Completion Rate: 120%

3612 commercial and residential properties inspected primarily in the CBD and information distributed by letterbox drop and resident interactions.

Significant Events:

- Holman Street - Australand Construction have advised they have secured their site and removed all chemicals from site.
- Rapid Response Group Officers assisted Queensland Police Officers to evacuate residents from Vincent street, Auchenflower.
- Hill End Tce - Unable to access due to a police block.
- South Brisbane was not able to be inspected due to the area already being flooded.
- Central Regions completion rate is more than 100% due to officers conducting letterbox drops in the surrounding streets.

WEST

Scheduled Inspections: 3255 properties

Completion Rate: 30%

Suburbs Inspected: Indooroopilly, Pinjarra Hills, Pullenvale, Auchenflower, Bellbowrie, Moggill, Milton, Jamboree Heights

Regional Update:

West- Approximately 1000 letters were dropped in commercial and residential property letterboxes across the region.

Significant Events:

- Road closures in Indooroopilly, Pullenvale, Auchenflower, Karana Downs, Toowong and Milton have prevented officers attending sites.
- Major disturbances to mobile phone network have impeded timely information being reported back by officers in the field.
- Officers in the field are reporting motorists attempting to cross flooded roadways.
- Heavy traffic has impeded officers progress.

Significant Events:

- Significant Road Closures in West End have prevented officers attending some local streets including parts of Montague Road and James Street. Police are in attendance and diverting traffic.
- Major disturbances to mobile phone network have impeded timely information being reported back by officers in the field.
- Norman Park Creek has broken its banks and overflow into the Eastern Suburbs Soccer Club.
- Officers in the field are reporting motorists attempting to cross flooded roadways.

EAST

Scheduled Letterbox Drops – 1165

Completion Rate: 64.7%

Suburbs Inspected: Bulimba, Cannon Hill, Coorparoo, Hawthorne, Hemmant, Lytton, Norman Park, Tingalpa, Wynnum West, Port of Brisbane

Regional Update:

- Officers continue to target low lying and identified flood areas with letter box distributions.
- Original target of 1165 homes has been revised to 1231 as officers add known hot spots to the list.
- 40 cars identified and flagged with letters

Significant Events:

- Traffic is hampering officer efforts to get to suburban areas as significant number of vehicles on road exit the City
- Road Closures:
 - Formosa Rd between Stanborough Rd and Dairy Swamp Rd, Gumdale
 - Manly Rd between New Cleveland Rd and Castlereagh St, Manly
 - Ropley Rd, Wynnum West

Officers will continue with information distribution activities until contact is made with all residents potentially affected by flooding.

- Brisbane River and Moreton Bay have been closed to boating traffic as of 2400 resulting in no boat access to Moreton Island. All emergencies on Moreton Island will need to be answered by helicopter.

FUTURE OPERATIONS AND ACTIVITIES:

ISSUES:

Resources

- Sandbags have been made available from Council depots at six locations, in addition to local collection points being established at various suburban locations. Stocks are being replenished, with approx 53,000 distributed.

Evacuation

- Campers on Moreton Island have been relocated to Tangalooma Resort. Moreton Island SES Group have experienced problems with mobile telephone communications, and have undertaken sandbagging operations at Cowan Cowan and Bulwer townships.
-

ADMINISTRATION:

-
- Nil to report

OVERALL ASSESSMENT:

- 72 hr planning is being undertaken with consideration to the projected Thursday tidal and river peak.

See Annex A for detailed report of predicted affects.

Annex A to SITREP No: 11**Date:****11.01.1011****Period:****To: 200 hrs****0800 hrs**

POTENTIAL AREAS AFFECTED - predicted streets affected by a Brisbane River Flood of 12000 cumec peak flow.

Electricity	Possible power outage to the CBD at 0700 hours. ENERGEX to confirm Working with ENERGEX to ascertain the impacts on the CBD
Water Supply	QUU advise water booster and sewerage pumps stations are operating normally. No further advice available as to outstanding jobs logged for sewer surcharge. QUU are providing regional support by way of distribution of bottled water to the Toowoomba region.
Sewerage	Treatment plants may be affected by rising flood waters. No further information available at this time. QUU are meeting to discuss.
Gas	No issue
Transport	Current road closures: •
Hospitals/Schools etc	No issue
Public Services	Evacuation centres have been established, with the evacuation centre opened at the RNA showgrounds.
Properties/Buildings	171 George street basement are at risk of flood, the air-conditioning system will be turned off and the switch boards isolated to limit any damage in this situation. Security will notify staff that the building is not open. Manager from MYPO has been notified and will contact staff himself. Planning underway for the possible closure of 266 George street due to potential flooding and power loss to the city grid. Alternative site at Green Square has been organised. Need to ascertain with ENERGEX the wider implications of the reduced power to the city centre on business and residents,.

STATUS REPORT

ITEM	COMMENTS
Supply Problems (Food, clothing, etc)	No issue
Equipment (Sandbags, lighting, etc)	All Council sandbagging locations experienced very high demand for sandbags throughout the day. Residents collecting sandbags experienced waits, at times, in

Labour (Volunteers, contractors, etc)

excess of four hours at the Newmarket and other Council collection points.

Stocks of sand for sandbags depleted at Newmarket at 1930, resulting in excess of 50 residents to be redirected to collection point at Brockman Street, Kedron. The Lord Mayor has directed Michael Corkhill A/ Chief of Staff to expedite deliveries of sand to all depots.

Staff are required across the various depots to be able to fill sand bags.

SES Moggill Group is isolated with members confined to the Karana Downs and Mt Crosby areas only. Some Moggill SES members are stranded in Bellbowrie or otherwise unable to return to their Group or home.

Members of the public continue to present themselves to SES offering to volunteer and assist, including offers of accommodation.

Volunteers from Surf Life Saving Qld assisted with sandbag production at Newmarket.

SES Western Group, located at Perrin Park Toowong, has been relocated to the Mt Coot-tha Botanical Gardens this evening. As a result Western Group is expected to be offline for part of the day as a consequence.

SES Southern Group, located at Rocklea, has relocated to City Fleet at Bradman Street, Acacia Ridge.

A deployment of Cairns SES volunteers is expected to arrive in Brisbane tomorrow. It is unknown if these volunteers will be utilised to assist Brisbane or will be further deployed elsewhere in South East Queensland. This decision is expected to be taken by EMQ tomorrow morning.

Media Issues

Media releases are being prepared concerning:

- Sandbags
- Evacuation centres
- Roads affected.

Political Issues

No issue

City Waste Issues

All cleansing operations in the mall have been suspended, except a small skeleton crew. All available staff have been tasked to sandbagging operations.

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone [REDACTED]
Fax [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME: January 2011 Flood Event**SITREP NUMBER:** 15**DATE:** 12/01/2011**PRIORITY:** Routine**PERIOD:** 0200hrs – 0600 hrs**EVENT TYPE** Flood

OPERATIONS AND ASSESSMENTS

Key points to note:

Predicted flood size ...

- Based on 12,000 series inundation maps an estimated 43,879 properties are likely to experience some flooding.
- 12,000 m³/s is about 5.5m AHD profile
- Using core lan data this equated to 38,043 residential and 5,836 commercial properties

Road closures

- There are now a large number of major and minor roads across the City that are closed – details are provided below.

Public Transport

- Major disruptions across the public transport network. Translink website has all updates.

Residents are waking up this morning to see water close to their homes. Locations to be included in next SITREP

CURRENT ACTIVITES:

- SES
-

The number of SES jobs received since 9am 11/1/11 (this includes calls for assistance and not Contact Centre information requests).

Total received - 224
Outstanding total - 56
Completed total - 168

- CARS

An additional 7,000 information sheets were printed overnight for distribution am on 12/1/11

- Contact Centre

Now operational at Carindale and Chermshire. No staff in Brisbane Square.

Currently physically moving phones from BSQ to the above two regions.

Most calls since the last SITREP are for SES assistance.

- BCW

Bridges tarping teams have ceased work over night and will recommence work in the morning.

Resourcing is not an issue; hundreds of volunteers are continuing to arrive at all depot locations.

Main stockpile sites for sand on Wednesday at Eagle Farm & Stafford. All other depots to continue to receive sand supplies as required.

Note: Expected delivery from time of order to time on site in approximately 90minutes

Used approximately 1000 tonne of sand overnight, expect 1000 tonne usage during Wednesday and 1000 tonne usage for Wednesday night.

200,000 extra sandbags have been ordered as at 05:00.

- LAS

Sandbagging has continued with large numbers of volunteers assisting at various depots across the City.

40 extra signs were made available late yesterday and are being installed at flooded locations. Another 40 signs will be made available today. More signs are on order and will be progressively placed around the city as they are manufactured to flooded areas.

ISSUES:

Resources

Nil to report

Evacuation

- The QEII manager has been contacted regarding the QEII stand up as an evacuation centre. Red Cross will have staff at the venue at approx 7:00-7:30am for an 8:00am
-

start. Lifeline, St John Ambulance, Salvation Army have also been contacted and will also have staff at the venue at approximately 7:00-7:30am.

Once the facility is confirmed as operational, the shift Incident Controller will be informed. A CSA to support the QEII evacuation centre has been developed by Krysten Booth.

- RNA Showgrounds is operational with 197 community members in attendance. There are 500 beds already in place, and an additional 3,000 are on order. These extra beds will be distributed between RNA and QEII and more beds will be ordered as required.

ADMINISTRATION:

- Nil to report

OVERALL ASSESSMENT:

- Based on 12000 series inundation maps an estimated 43,879 properties are likely to experience some flooding.
- 12000 m³/s is about 5.5m AHD profile
- Using core lan data this equated to 38043 residential and 5836 commercial properties
- At 2311hrs FIC confirmed the following
- Remodelling will not occur until BOM provide revised river height predictions at 08:00 on 12/1/11.

Property status	Property Group	Property count	People
Flooded	Commercial	3499	0
Flooded	Other	1182	0
Flooded	Residential	19601	46115
Partially Flooded	Commercial	2243	0
Partially Flooded	Other	1097	0
Partially Flooded	Residential	11944	27542

- This information is calculated by overlaying the inundation maps over core lan data. Where the property falls fully inside the inundation zone it is considered fully impacted. Where the property is divided inside and outside the inundate it is considered partially flooded. This information is generated using computer simulation and can be replicated with different inundation levels. As with any computer generated information minor errors may occur however this is considered the best available.

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	16
DATE:	12/01/2011	PRIORITY:	Routine
PERIOD:	0600hrs – 1530 hrs		
EVENT TYPE	Flood		

OPERATIONS AND ASSESSMENTS

Final prediction of flood peak as advised by the BoM is 5.5 m AHD at the Brisbane City Gauge on Thursday 13/1/2011. Peak will arrive at around 4am Thursday and last for around 12 hours before beginning to fall.

Predicted peak discharge at Brisbane City gauge is 9,500 m³/s at the peak on Thursday. High tides on Thursday are at approximately 4am and 4pm. However, as per LDMG direction, planning has continued for an alternative scenario peak of 12,000 m³/s.

Based on the 9,500m³/s peak, the total flooded properties is now estimated at approximately 23,300 including 18,776 residential properties. The above count is for property flooding not house flooding. Based on a 12,000m³/s scenario, the total flooded properties is estimated at approximately 47,355 including 40,185 residential properties.

Residential includes anywhere that houses people so includes hospitals and nursing homes, units, etc. One hospital only counts as one property. Commercial includes shops, industrial, offices - anywhere with a building but not where people residing. It does not include vacant land or structures, this is in "other".

CURRENT ACTIVITES:

- **Availability of Sandbags – 8 locations**
More than 67,100 Sandbags have been distributed from the following locations by BCW:
 - Darra Works Depot
-

- Morningside Works Depot
- Newmarket (SES) Depot
- Zillmere Works Depot
- Mt Cootha Botanical Gardens
- Lathe Street Depot
- Green Square Close Depot
- Lennon Street, Stafford – Army in attendance

Redlands SES are also making sandbags available to Brisbane Residents from Wellington Street, Cleveland.

- **Customer Contact Centre**

Grade of Service - 61% responded to within 20secs
Offered - 8473
Answered - 6088

Of these SES comprises:

SL - 74%
Offered - 1908
Answered - 1699

Move from BSQ to Regional offices:

At 2.30pm there are:

86 consultants logged into the General Queue (BCC)
21 consultants logged into the Spec Queue

Indooroopilly centre is closed after a second power outage and 6 staff have been relocated. Remaining staff are situated at Chermside and Carindale with the view to continue at these locations until Friday.

ISSUES:

Resources

Nil to report

Evacuation

- **Evacuation Centres**

Brisbane City Council Centres:

RNA - 305 evacuees

QE11 105 evacuees

ITEM	COMMENTS

Impact Area and Scale

The impact area is projected to exceed the 1974 flood event.
The flood reading at the Port Office Gauge, Kangaroo Point at 3:00pm exceeded 4m AHD.

Communications

Motorola is taking steps to ensure the secure radio network is able to function normally as long as possible, however please be advised should Waterfront Place lose mains power then that network may go into automatic fallback mode that will result in localized communication from each radio tower area only. Wide area communications may not be possible in this fall back mode. A further communication will be advised should such an event occur.

Next update will be around 1800 hrs Brisbane time.

Some Optus site outages have been reported by Optus at Milton, Manly West and Salisbury.

Electricity

The following CBD sites will be without power by 4:00pm Wednesday:

Address	Building Name
126 Margaret St, Brisbane	Fletcher Watts
42 Albert St, Brisbane	Cnr Albert and Margaret
53 Albert St, Brisbane	Cnr Margaret St

	Water Front Place

Water Supply

- 4 water pump stations without power (Pullenvale, Seventeen Mile Rocks, Archerfield and Bellbowrie)
 - 1,830 customers without water. Further water supply outages expected due to power shutdowns.

Sewerage

Wastewater
 - 56 sewer pump stations flooded or without power
 - 3 major wastewater treatment plants flooded (Karana Downs, Oxley, Fairfield)
No impact on residents

Based on predicted Brisbane River peak, the following impacts are forecast:
 • 91 sewer pump stations to be flooded
 • 4 major wastewater treatment plants expected to be flooded and not operating (Karana Downs, Oxley, Fairfield, Wacol)
Minimal impact on residents

Gas

No issue

Transport

Current road closures:
 It is predicted (based on 9,500m³/s) that 1624 roads are listed to be affected.

Roads in the following suburbs are currently experiencing flooding and may be affected and closed for several days: Albion, Ascot, Auchenflower, Bardon, Bellbowrie, Brisbane City, Brookfield, Clayfield, East Brisbane, Fairfield, Fig Tree Pocket, Graceville, Jindalee, Karana Downs, Larapinta, Manly, Milton, Moorooka, Morningside, New Farm, Newstead, Nundah, Oxley, Pullenvale, Rocklea, Salisbury, Sherwood, South Brisbane, Sumner, Toowong, West End, Westlake, Windsor, Woolloongabba and Yeronga.

Major roads affected include Hale Street inbound towards Coronation Drive and parts of Coronation Drive, Ipswich Motorway at Oxley, Beaudesert Road between Granard Road and Muriel Avenue, Salisbury, Brunswick Street between Merthyr Road and Sydney Street, New Farm, and Centenary Highway, Jindalee.

Public Transport:
 Ferry and CityCat Services have been suspended and trains are operating on reduced frequency timetables. Some services are interrupted, including the Ipswich line, which is terminating at Darra Station.

Melbourne Street Busway Tunnel flooded earlier this morning causing a partial closure of the South East Busway with diversions in place. Bus services into the CBD have since been suspended.

**Hospitals/Schools
etc**

The evacuation of a nursing home at Rocklea was handled by Queensland Health and the Queensland Ambulance Service. A number of the residents are considered high dependency.

Education Qld have said that they will open school gates for cars to park in. RRG were able to provide this advice to residents.

Public Services

- Volunteering QLD are coordinating and registering all spontaneous volunteers:

Those interested in volunteering should either ring: 07 30027600 or register online:
<http://www.volunteeringqld.org.au/home/>

- Libraries closed:
 - City Archives
 - Brisbane Square Library closed today and tomorrow (Thursday)
 - Bulimba Library is closed
 - Coopers Plains Library will close early
 - Corinda Library closed today
 - Fairfield Library closed today
 - Indooroopilly Library is closed
 - Mobile Library closed today and tomorrow (Thursday)
 - Mt Ommaney Library closed
 - New Farm Library closed today
 - Stones Corner Library is closing
 - Toowong Library closed today and tomorrow (Thursday)
 - West End library closed today
- The BCC Wildlife ambulance is still operational and is capable of responding to all call outs - flooding permitting.
- Animal Shelters have a management plan in place.

Properties/Buildings

- Floating River Walk
The walk along the riverside is in danger of coming free from the moorings when the river levels exceeds 5m AHD.

The walkway is suffering damage but is currently stable. The structure would not be able to be secured if it floats clear or breaks away from its mooring. The CEO has directed that the structure be broken up to mitigate possible subsequent damage to other assets, and has initiated this action.

- The Goodwill Bridge
An inspection of the Goodwill Bridge has been undertaken. The bridge is currently closed to pedestrians. The bridge is safe. It has debris trapped on 2 approach piers (QUT end) but it is unsafe to attempt a dislodge exercise. The Drift restaurant has hit the bridge without an issue.

Concerns have been raised by Mr Ross Pritchard, Deputy Chief Engineer (Structures), from the Department of Transport and Main Roads that the approach spans are not designed for ship impact, ie the bridge could not withstand a hit from "The Island" if it becomes loose.

STATUS REPORT

ITEM	COMMENTS
Supply Problems (Food, clothing, etc)	A number of offers have been received from various organisations offering food and water supplies to the evacuation centres. These offers of assistance are being considered on an as-needs basis.
Equipment (Sandbags, lighting, etc)	50,000 have been provided by State Gov. Another 75,000 have been requested. 100,000 were obtained from Council stores earlier this morning. There appears to be sufficient supplies of sandbags.
Labour (Volunteers, contractors, etc)	Volunteers have been turned away from sandbag distribution sites. Volunteering QLD has experienced high call volumes. Media outlets and the QPS have incorrectly given out an internal telephone number within the LDCC as an alternative to the Volunteering QLD telephone number. Each bulletin results in a flow of telephone calls from members of the public offering assistance.
Media Issues	<ul style="list-style-type: none">• Approved and Distributed releases:<ul style="list-style-type: none">-QEII evacuation centre activated-Brisbane water and sewerage treatment plants operating as normal-CityGlider services cancelled due to flooding-Council closes customer services at Brisbane Square-Roads affected by flooding: 10am update-Sandbag volunteers no longer required at Council depots-Waste services suspended-More libraries close-Council to provide 2000 more beds to evacuation centres-Disruptions to bus services due to floods-Evacuation centres activated in Jamboree ward <p>AWAITING APPROVAL AND DISTRIBUTION:</p> <ul style="list-style-type: none">- BYO to evacuation centres- CBD residents urged to find alternative accommodation- Untreated sewage to enter floodwaters
Political Issues	No known issues
City Waste Issues	<hr/> <p>Collection services have been suspended. Services are scheduled to be resumed Monday. Priority collection will be standard waste.</p> <p>150 bulk bins and 30 roll-on/roll-off bins will be available to the public once flood waters have subsided. 1 skip-truck and 30 skip-bins will be provided by Subloo on an as-needs basis.</p> <p>All transfer stations will be open to the public for free tipping until further notice. Emergency collections can be arranged through Council's Customer Contact Centre.</p>

External Stakeholder Issues
Internal Work Unit Issues

No issue

- The reporting system for the mobile scheduling dispatch project is not providing accurate reports. Information Services Branch has been tasked with running repairs to the system as a priority.

Regional Operations:

- North - Operating business as usual, unlikely that flooding will affect (26 staff in attendance)
- South – Operating business as usual, unlikely that flooding will affect (34 staff in attendance)
- Central - Operating business as usual, unlikely that flooding will affect (16 staff in attendance) No CRO staff available.
- East – Operating business as usual, unlikely that flooding will affect (34 staff in attendance)
- West – power outage but will not restrict duties, Officers have mobile capability and access to fleet. Officers that are unable to attend Indooroopilly have relocated to other RBC. (13 staff in attendance)

No work requests have been received today as **ellipse** - the system through which the Customer Contact Centre allocate jobs to LAS - has not been operational. Faxing or calling through urgent requests.

Ellipse outage - increase in Ellipse capacity by upgrading RAM to database server. To be completed by COB Wednesday.

Evacuations REPORT

YERONGA STATE SCHOOL – Melinda [REDACTED]

Address: 122 Park Rd, Yeronga

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]
Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	17
DATE:	12/01/2011	PRIORITY:	Routine
PERIOD:	1530 – 2200 hrs		
EVENT TYPE	Flood		

OPERATIONS AND ASSESSMENTS

The primary focus is accommodating residents who have been evacuated from their homes. Planning has begun for the post event response.

Latest prediction of flood peak as advised by the BoM is 5.2 m AHD at the Brisbane City Gauge on Thursday 13/1/2011. Peak will arrive at around 4am Thursday and last for around 12 hours before beginning to fall. Predicted peak discharge at Brisbane City gauge is 9,500 m³/s at the peak on Thursday. High tides on Thursday are at approximately 4am and 4pm. The total flooded properties are now estimated at approximately 18515 including 14682 residential properties. The above count is for property flooding not house flooding.

CURRENT ACTIVITIES:

- **LAS**
 - LAS west 31 volunteers and LAS staff have bagged and distributed 1,150 sand bags to residents in the Western region between 6 and 9PM.
 - LAS south have a Bagging and Distribution point at Shamrock Road, Darra and are bringing on board another Bagging point at Tarragindi Road Reservoir starting operations from 7am tomorrow 13/1/11. Traffic Management has been engaged to ensure minimal delays for residents picking up sand bags.
 - Several Operational staff assisting ERG South Officer with Road Closures, placement of signage/traffic management.
 - ERG South Officer has been called to Road Closures at King Avenue, Inala Avenue and Learoyd Road Inala.
 - SES is concentrating their efforts on rescue operations. There have been no tarping or sandbagging requests logged with SES since 8:00pm 11/01/11.
 - LAS has suspended toilet cleaning services in parks in all affected areas.
 - Request to LAS to empty rubbish bins around Kangaroo Point cliffs as this area is being utilised by media and is high profile. Lord Mayor Request.
-

-
- LAS continuing sandbagging and will limit during the night and start again tomorrow morning.
 - **Customer Contact Centre**
GOS for the day is 68.05%

They have been offered 13145 calls & answered 10107

As at 9pm, there is no queue. Wait times have been approx 0-3mins since 1530 hrs

Average Handling Time for the day is currently 241 seconds

CARS

NORTH

Scheduled Inspections: 375

Completion Rate: 100%

Suburbs Inspected: Albion

- Additional letter drops conducted within areas that are at risk of flooding.
- Approximately 80-100 residents have been spoken to regarding flood risk
- Night patrols to continue patrolling and conducting Rapid Assessments within the Northern area to inspect areas of concern

SOUTH

Completion Rate: 80 - 90% of suburbs accessed

No. letterbox drops : 1747 completed

No. streets visited : 323 streets visited

Suburbs Accessed: Oxley, Moorooka, Durack, Yeronga, Corinda, Rocklea, Archerfield, Wacol, Goodna, Fairfield, Graceville, Acacia Ridge

- Unable to access all suburbs in the south region due to road closures and flooding inundation.
- Mobile phone communication limited still

CENTRAL

Scheduled Inspections: CBD and surrounding area monitoring

The letter drop task has ceased due to inability to access flooded areas.

- Reports received regarding a number of people stuck in the lifts at Oaks City Apartments - 79 Albert Street, Brisbane due to electricity being turned off. This has been reported to LDCC.
- RNA Evacuation Centre audit completed. The Salvation Army is running the kitchen, half of the staff are food safety supervisors, temperatures are all being managed, no issues identified.
- There is also an area where people can bring their pets.
- Staff located in CBD and surrounding suburbs monitoring and assessing flooding.
- Preparation for Thursday 13/1 property assessment commenced.

Predicted Issues

- Rapid Assessment Teams (RAT) will start assessing damaged property including infrastructure.
-

-
- Forward incidents where people have not left their properties and need assistance to vacate properties to go to LDCC.

EAST

Scheduled Street Drops – 246

Completion Rate: 52%

Suburbs Inspected: Norman Park, Bulimba, Balmoral, Hemmant, Wynnum West, Cannon Hill, Hawthorne, Morningside, Norman Park, Seven Hills

- Officers deployed to street drop letters. 2000 additional letters and details of evac centres to be made available to residents
- Officers are actively engaging with community – doorknocks and face to face as well as letterbox dropping
- Maps prepared for early morning shift for identification of levels and damage extent after 4.30am flood event
- Power is out at Stones Corner shops, including food businesses, however, it is not flooded at this time.
- East Region have 3 crews patrolling key areas in Norman Park, Coorparoo, Hawthorne, Hemmant, and Manly to report back on issues.
- Officers will continue with assessment and community engagement activities through out the night and attempt to contact residents potentially affected by flooding.
- Officers will also be attempting to visit smaller evacuation centres (in schools and churches) to see if they require any additional support from Council.

ISSUES:

Resources

Nil to report

Evacuation

- **Evacuation Centres**

RNA and QE2 have capacity to accommodate more people. All Evacuation centres are being monitored regularly. Additional centre's are on standby.

Residents evacuating are able to take their pets to the RNA evacuation centre and the ANZ stadium evacuation centre. Both Centres have basic supplies for animals and staff rostered 24 hours.

ADMINISTRATION:

- Nil to report

OVERALL ASSESSMENT:

- The number of streets affected has steadily increased.

See Annex A for detailed report of predicted affects.

Annex A to SITREP No: 15

Date: 12.01.1011
Period: To: 1530hrs 2200 hrs

STATUS REPORT

ITEM	COMMENTS																		
<p>Impact Area and Scale</p>	<p>All roads West and North of Brisbane are currently impacted. Ctrl click on Road closures (http://highload.131940.qld.gov.au/) for an up to date list.</p> <p>Bridge closures</p> <ul style="list-style-type: none"> • Victoria Bridge • William Jolly Bridge • Go Between Bridge • Captain Cook Bridge / Riverside Expressway westbound reduced to one lane. All traffic being detoured via the Elizabeth St ramp until further notice. TMR engineers are undertaking inspection of pylons due to the amount of debris against the structure. • The Margaret St off ramp westbound closed. 																		
<p>Communications</p>	<p>No traffic can access Hale St, Coronation Dr and the Inner City Bypass. Telstra - power cuts have affected services with mobile phone towers now operating on battery reserve power. Delays in repairing service faults are expected as floodwaters rise.</p>

Evacuations REPORT

RNA

Approx 550 people
400 pillows are being delivered tonight
Approx. 3,000 blow up mattresses on site
Site being used for storage for additional resources

QE2

Approx 200 people and increasing
Seeking lifts for people with disabilities and additional pillows
They will need more bottled water if numbers increase.

Smaller sites:

- Yeronga State School lost power. 20 People are being evacuated to QE2
- Anglican Church in Jamboree Ward - 4 people
- Kenmore - approx 10 people at the Library
- RFA for Mt Crosby for potential air transport of food and supplies
- Cerebral Palsy League have two centres available in Ashgrove and Windsor that can take people with mobility issues – contact Sandra Anderson [REDACTED]

Over 30 additional sites are on stand by for immediate action. This will give have a capacity of approx 13,000.

We are still waiting on confirmation of additional 11,000 beds from the State. If possible 5,000 will be delivered tonight (2,500 to RNA and 2,500 to QE2).

GIS team are organising maps detailing accessible routes to both centres

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]
Fax: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME: January 2011 Flood Event**SITREP NUMBER:** 14**DATE:** 12/01/2011**PRIORITY:** Routine**PERIOD:** 2200hrs – 0200 hrs**EVENT TYPE** Flood

OPERATIONS AND ASSESSMENTS

- Modelling and preparation is well under way in preparation for the higher flood levels.
 - Mapping for the 1200 has been completed
-

CURRENT ACTIVITES:**BCW**

- Bridges tarping teams have ceased work over night and will recommence work in the morning.
- Sand supply is keeping up with demand, additional 20,000 bags sourced from EMQ at Midnight. Sufficient supplies to last overnight. Resourcing is not an issue; hundreds of volunteers are continuing to arrive at all depot locations. Further deliveries arranged for Wednesday morning

Contact Centre

GOS for 24 hour period 11/1/10 - 39.74% Average Handling Time 11/1/10 - 229 secs. Calls have reduced in the last hour.

As at 1am, 3 calls in queue with a wait time of less than 1 minute.

Systems now down for change to Holland Park Server.

Calls still mostly regarding flood levels & whether residents need to evacuate,

ISB will be migrating FEA (estimated 4 hours), Ellipse (estimated 4 hours) and CSD/WebCMS (estimated 1 hour), with plans for these applications to be operational again at Holland Park (or rolled back and re-operational at BSQ) from 5.00am Wednesday, in readiness for the increase in calls from that time. Contact Centre has been advised of the relevant system outages.

Note that any calls to Contact Centre in the period during the migration (midnight - 4/5am Wednesday) will be handled manually, and any flood-related jobs will therefore NOT be entered into the Mobile Scheduling and Dispatch system. Please let me know if you have any questions or require additional information.

LAS

LAS North have continued to bag sand and distribute to the public from the LAS Operations Depot at Lathe Street, Virginia. Initial issues regarding a continuous supply of sand have been resolved.

LAS Staff were involved in the rescue of Kangaroos who had jumped onto the Gateway Motorway in an effort to escape the chest high floodwaters that had covered their habitat in the Tinch Tamba Wetlands at Bald Hills.

The Region is running short of 'Road Closed' signs and 'Water over Road' signs. If the requirement increases we may need to engage a traffic control provider to sign additional road closures.

R.I.M.T. Based at Carindale Regional Centre

Shift change for RIMT conducted at 23:30.

Present Incident Controller (Craig Hardie ph [REDACTED] [REDACTED] [REDACTED] . Dennis Hourigan. Noel Lawrence. Michael Hinze.

Operations are being conducted out of Jean Howie Drive (LAS Parks Operations East Depot):

Present on site are Operations Co-Ordinator and 6 LAS Operations Staff and approx 60 volunteers as of 00:30hours. Earlier on in the evening volunteer numbers had been in excess of 100.

Sandbagging is being conducted at Balmoral Depot with various trucks shipping in loads of sand. Council Field Officers are assisting with the loading of 'Class 22' vehicles and being directed to Hawthorne Park for offload.

Earlier demand for sandbags has subsided, possibly due to time of night but are still being collected. Operations estimate that approx 7000 sandbags have been bagged and distributed as of 01:00am 12/01/2011 and will continue to bag up as long as materials continue to be delivered to Balmoral.

There have been requests for the following from the operations depot at Balmoral.

- Bottled water. (50+ volunteers with limited access to drinking water)
- Mobile flood light trailer. (Balmoral is poorly lit and not set up for night operations)

FUTURE OPERATIONS AND ACTIVITIES:

Resources

Nil to report

Evacuation

- The QEII evacuation centre has been approved for opening. Red Cross advise that they planning for an opening in the morning. They will confirm with LDCC at approximately 0800 hrs.

ADMINISTRATION:

- Nil to report

OVERALL ASSESSMENT:

- Based on 12000 series inundation maps an estimated 43879 properties are likely to experience some flooding.
- 12000 m³/s is about 5.5m AHD profile
- Using core lan data this equated to 38043 residential and 5836 commercial properties
- At 2311hrs FIC confirmed the following

Property status	Property Group	Property count	People
Flooded	Commercial	3499	0
Flooded	Other	1182	0
Flooded	Residential	19601	46115
Partially Flooded	Commercial	2243	0
Partially Flooded	Other	1097	0
Partially Flooded	Residential	11944	27542

- This information is calculated by overlaying the inundation maps over core lan data. Where the property falls fully inside the inundation zone it is considered fully impacted. Where the property is divided inside and outside the inundate it is considered partially flooded. This information is generated using computer simulation and can be replicated with different inundation levels. As with any computer generated information minor errors may occur however this is considered the best available.

See Annex A for detailed report of predicted affects.

Annex A to SITREP No: 14**Date:**
Period:**12.01.1011**

AREAS AFFECTED

ITEM	COMMENTS
Impact Area and Scale	<p>Water has risen through the Golf Course and has reached the rear of 46 Westlake Drive and many people are now leaving their houses.</p> <p>QFRS are requesting Police assistance in the Oxley suburbs re evacuations particularly around the Colwel Street area.</p>
Communications	<p>A revised handout has been developed for residents removing Hawthorne Park Depot from the list.</p>
Electricity	<p>Residents were informed through a CSA that they could register with Volunteer QLD if they wished to assist. They were asked residents not to go to Council depots to volunteer to fill sandbags. Residents encouraged to assist neighbours, family and friends first. They</p> <p>ENERGEX advise that a number of streets in the CBD will have power cut commencing at 0800 hrs prior to any flooding. ENERGEX have provided a list of streets that are likely to be affected. A CSA will be drafted to support the ENERGEX response and encourage residents in these locations to seek alternate accommodation.</p> <p>Zeon network is currently running normally, with the exception of loss of two sites in western Brisbane - Mt Stradbroke and Esk likely to due lightning. These sites are outside normal BCC operational area.</p> <p>The Waterfront Place building is the location of the Zeon switching core and without power then BCC Zeon communications will be impacted. The Waterfront Place building has its own on site generator backup, however this has limitations.</p>
Water Supply	<p>No issue</p>
Sewerage	<p>No issue</p>
Gas	<p>No issue</p>
Transport	<p>Current road closures:</p> <p>80 roads are currently closed across Brisbane Metropolitan area as of 12 midnight 12/01/11</p> <ul style="list-style-type: none">• There is 2 feet of water over road and rising, inbound lanes of Centenary Motorway 500m South of Jindalee Exit have been closed by Police.• water is over Yalabee Road Jindalee cutting off a detour route for the inbound lanes of Centenary Motorway as of 0050hrs.

	<p>Kendall Street Oxley has 3 feet water over and rising.</p> <p>Noble Street and Fairfield Road intersection has been closed and Brisbane Corso has been closed adjacent to Stimpson Street.</p> <p>Beaudesert Road, Salisbury between Granard Rd and Evans Rd inbound and outbound closed</p> <p>Public Transport closures:</p> <p>All CityCats and CityFerry services will not be running.</p>
Hospitals/Schools etc	No issue
Public Services	No issues
Properties/Buildings	<p>The water is now entering the depot site at Perrin Park 12.15am Council Officers will ferry goods and equipment from Perrin Park to Mt Cootha until 6.00am or lesser time depending on the flooding situation at Perrin Park.</p> <p>71 George Street City Property has advised that power will be cut to 171 George Street from Wednesday 12th January morning. The www.ourbrisbane.com web site and the online payments gateways, which are housed in this building, will be offline. Contact Centre has been advised.</p> <p>West End Repository It is envisaged that this facility will be affected by floodwater, CBMS has organised some trucks and staff to arrive on site at 7.30am Wednesday to meet ISB staff, collect the archives and take them to Acacia Ridge.</p> <p>Data Centres Council's ICT DR plan has been initiated, with the migration of the Production instances of the relevant Priority 1 applications from BSQ to Holland Park Data Centre commencing shortly after midnight early Wednesday morning. Planning and migration of Priority 2 systems and migration of some additional Priority 1 infrastructure to the Holland Park Data Centre will continue from Wednesday day and Wed/Thu night into Thursday day.</p> <p>City Property will be on site at Fairfield Gardens Ward office at 7.30 to commence removal of materials from the ward office and the library. The IT Team will be there around 9.30 to remove all IT equipment.</p> <p>Ward offices that may be impacted</p> <p>Bracken Ridge - very slight possibility of overland flow. Ward Office staff will monitor and advise tomorrow afternoon if they feel that further action is warranted. NOTE: The roof is leaking - again - this should be addressed once and for all and not spot repairs as been the habit to date.</p> <p>Deagon - very slight possibility - Cr Newton will monitor and advise</p>

tomorrow afternoon if she feels further action is warranted.

Enoggera - slight overland flow on Samford Road. Don't think that any action is warranted in this case. Have left a message for Cr Wyndham to call me back in this regard.

Hamilton - overland flow along Racecourse Road. Will have the ward office assess and advise tomorrow afternoon if they require further action.

STATUS REPORT

ITEM	COMMENTS
Supply Problems (Food, clothing, etc)	No issue
Equipment (Sandbags, lighting, etc)	<ul style="list-style-type: none"> Hawthorne Park has been closed for sandbag collection due to the number of fights occurring. 20 LAS have bagged 80M3 of sand between 1500 h and 2200 h Tuesday 11 Jan 2011. LAS Ops staff were relieved as at 2200 hrs by civilian volunteers supervised by three LAS staff. As at 1100 h LAS North have approx 4,000 sand bags available to the public. A magnificent effort by staff and volunteers. Sandbagging will resume at Mt Cootha @ 6.00am - 12/01/2011
Labour (Volunteers, contractors, etc)	There are still 25 volunteers sandbagging at Perrin Park. They will continue for another 30 - 60 minutes - sandbagging will then cease and residents will then need to be redirected to other depots to collect sandbags.

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]
Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	18
DATE:	13/01/2011	PRIORITY:	Routine
PERIOD:	2200 – 0200 hrs		
EVENT TYPE	Flood		

Based on the latest BOM Update (13/1/11 @12.27AM): the current Brisbane City Gauge reading is 4.36m and rising slowly with the high tide. The latest BOM advice indicates a peak at the city gauge under 5m AHD.

FIC will monitor city gauge and provide the latest advice from the BOM on the city gauge as they become available.

BOM also indicated that at Jindalee, a peak of 13 metres was observed at about 7pm Wednesday.

The revised number of effected properties from this reduced peak will be known after 4am.

Current predictions are that the following low lying suburbs which were the first to flood such as Paddington/ Rosalie/ Auchenflower/ Milton will be the last to recede due to their downstream location.

Current predictions are that water levels will begin to recede generally in the most upstream suburbs first, including:

- Sumner
- Wacol
- Bellbowrie
- Pullenvale
- Westlake
- Middle Park
- Riverhills
- Jindalee
- Sinnamon Park
- Brookfield
- Kenmore

Followed by:

-
- Seventeen Mile Rocks
 - Fig Tree Pocket
 - Chelmer
 - Suburbs adjacent to Oxley Creek (Salisbury, parts of Rocklea, Sherwood, Archerfield, Oxley, Acacia Ridge)

FIC expects flood levels to return to those experienced during king tides by Sunday, however king tide-type flooding may persist into the following week. Further clarification will be provided over the next few days.

OPERATIONS AND ASSESSMENTS

CURRENT ACTIVITIES:

- Using the FIC information above forward planning are mapping the recovery response
- The Lord Mayor has issued a call for volunteers to notify him of individuals and organisations willingness to assist in cleanup and recovery. Offers have been received in the Lord Mayors office and being forwarded to the LDCC for action. These are being logged so they can be matched with priority works in clean up and recovery.
- **LAS**
- New Bagging point at Tarragindi Road Reservoir and this will be available as a Distribution point for the public from 7am today 13/1/11.
- West Mt Coot-tha volunteers have been stood down as an adequate supplies of sand bags are now available. LAS staff and volunteers have provided 490 bags between 9PM and 1:00AM. LAS staff continue to supply when required.
- LAS East operations are being conducted out of Jean Howie Drive (LAS Parks Operations East Depot) Present on site are 11 LAS Operations Staff plus approximately 4 volunteers. Filling sandbags continues throughout the evening and delivered to Hawthorne Park, Hawthorne. There is still a constant stream of residents picking up bags at Hawthorne Park and loading is being done by volunteers in an orderly fashion. Filling sandbags has ceased until 4am as there is a surplus at these locations at this point in time.
- Two portable floodlight units were delivered to Balmoral Depot and Hawthorne Park and working appropriately.
- **Customer Contact Centre**
The GOS for 12/1/11 was 67.05%
The Contact Centre were offered 13811 calls & answered 10585
As at 1am, there is no queue. Wait times have been approx 0-2 mins since the last SITREP
Average Handling Time for 12/1/11 was 242 seconds

ISSUES:

Transport	No new issues
Hospitals/Schools etc	No issue
Public Services	No new issues
Properties/Buildings	Portions of the Riverwalk have broken free and have floated down the river. Green Square is closed, no further information is available at this stage.

ITEM	COMMENTS
Supply Problems (Food, clothing, etc)	RFA for Mt Crosby for potential air transport of food and supplies (including medical) this has been escalated to DDC
Equipment (Sandbags, lighting, etc)	Sandbag production is on hold pending high tide level impacts. No request for sandbagging has been received from LDCC, SES, LAS or Depots. No tasking received as yet. All depots have sand supplies if more sandbags are required. Expected delivery of additional sand from time of order to time on site is approximately 90minutes.
Labour (Volunteers, contractors, etc)	Volunteers are not required for sandbagging and have been asked to call back after 4am Thursday 13/01/11 pending high tide level impacts.
Media Issues	CSA was issued regarding residents taking proper precautions with the Brisbane river peak approaching
Political Issues	No known issues
City Waste Issues	No new issues
External Stakeholder Issues	No issue
Internal Work Unit Issues	No issues

Evacuations REPORT

Update on Evacuations Centres:

RNA - BCC rep on site

647 registered evacuees

(10pm - 6am Mandie Reynolds [REDACTED])

QE2 - BCC Rep onsite

323 evacuees registered at the moment.

There are approx 50 mattresses blown up and available now and 275 mattresses in boxes.

(10pm - 6am Marnie Alefosio [REDACTED])

Police have attended both centres to deal with some minor disturbances

Smaller sites:

There are 16 people accommodated across

Update of smaller sites:

Good News Lutheran Church: 12 registered

Anglican Church in Jamboree Ward has 3 people

Kenmore has 1 person at the Library

- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	19
DATE:	13/01/2011	PRIORITY:	Routine
PERIOD:	0200 – 0600 hrs		
EVENT TYPE	Flood		

OPERATIONS AND ASSESSMENTS

The latest prediction of the flood peak based on advice from the BoM is 4.6m at the Brisbane City Gauge. The peak at the city gauge is yet to be officially declared and will take some time to confirm; this is below the 1974 flood peak of 5.45m.

Based on the BoM advice, the estimate of total flooded properties have been revised down from approximately 19,000 to 15,000.

Current predictions are that the following low lying suburbs which were the first to flood such as Paddington/ Rosalie/ Auchenflower/ Milton will be the last to recede due to their downstream location.

Current predictions are that water levels will begin to recede generally in the most upstream suburbs first, including:

- Sumner
 - Wacol
 - Bellbowrie
 - Pullenvale
 - Westlake
 - Middle Park
 - Riverhills
 - Jindalee
 - Sinnamon Park
 - Brookfield
 - Kenmore
-

Followed by:

- Seventeen Mile Rocks
- Fig Tree Pocket
- Chelmer
- Suburbs adjacent to Oxley Creek (Salisbury, parts of Rocklea, Sherwood, Archerfield, Oxley, Acacia Ridge)

FIC expects flood levels to return to those experienced during king tides by Sunday, however king tide-type flooding may persist into the following week. Further clarification will be provided over the next few days.

CURRENT ACTIVITES:

Infrastructure update

Moggil Ferry is holding. ADF have secured the structure with a 1.5t chain. The Island boat is running under power and holding.

BCW report

Depot	Current Staffing Levels			Jobs Received	Jobs Completed	Sand Bags
	BCC	Volunteers	Total

TOTAL	65,700 in stock					
TOTAL	13,100 distributed from 0200hrs					
Bridges (Tarping)	N/A	N/A	N/A	N/A	N/A	N/A
Road Surfaces	5 Crews working with hot mix working until 8pm shutdown. Crews will start up again at 6am Thursday 13/1/11 with 6 x 2man crews hot mix supplied by Downer EDI at Strathpine. All flocons will start from Bracken Ridge depot and are focusing of pothole repairs in both North & East regions.					
Road Sweeper	9 Sweepers available (Not yet Tasked)					

There is sufficient stock on hand should additional sandbags be required.

Compliance and Regulatory Services (CARS)

NORTH

- Increase in flood levels don't appear to be as high as expected.
- Northy Street and surrounding residential area has not increased significantly from 3:30pm on Wednesday.
- Traffic Lights out on Bowen Bridge Road.
- Lights out on Butterfield Street.

SOUTH

- Issue with traffic control being remove from Paradise Rd Larapinta.
- Paradise Rd is being compromised by flood water and becoming a safety issue for the public. Traffic control will be returned.
- At this stage no Significant Events.

CENTRAL

Scheduled Inspections: CBD and surrounding suburb monitoring ongoing

Completion Rate: ongoing till further tasked

Suburbs Inspected: Brisbane City, New Farm, Fortitude Valley, Kangaroo Point, Newstead and Teneriffe.

Significant Events:

- Observations of floating boardwalk infrastructure damage restricted due to poor light and water volume.
- RRG in conjunction with QPS have been undertaking full or partial road closure in the CBD and Valley area.
- Warning signs have been placed in Elizabeth St, Edward St, Creek St, Cnr Chester and Ann St, Commercial Rd, Doggett St, Goodwin St and Darra St.
- RRG have deployed to the extreme Eastern, Western and Northern boundaries of Central Region. Access to Southern boundaries restricted by flooding.
- The riverwalk situated at end of Boundary St Brisbane City is currently being used by sightseers.

Issues

- QPS have been requested to manage crowds and congested traffic at River Tce, Kangaroo Point.

Current Operations

- Forward Observation Points (FOP) have been set up through the CBD and surrounding suburbs to monitor flooding by available staff and RRG.
- LAS on standby for tasking from FOP's.
- BELU and EH mapping of effected areas completed are now in sectors (previously known as My Zone maps).
- At first light LAS are recommencing sandbag operations in Victoria Park.
- RRG are attending to Riverwalk matter and will contact operation control with progress.

WEST

Sites in Milton, Auchenflower, Toowong, St Lucia and Taringa visited.

Other Activities:

- BCC witches hats placed on flood affected streets to prevent vehicle access to flood waters
 - Cnr Park and Bayliss St Auchenflower
 - Eagle Tce Auchenflower
 - Indooroopilly Rd Toowong, near Westerham st (Totally flooded)
- Followed up on other sites from previous shifts. Corner of Carmody Street and Mervyn Grove in St Lucia – witches hats not required

EAST

Suburbs Inspected: Norman Park, Bulimba, Balmoral, Hemmant, Wynnum West, Cannon Hill, Hawthorne, Morningside, Norman Park, Seven Hills

Regional Update:

- Officers deployed to street drop letters. 2000 additional letters and details of evac centres to be made available to residents
 - Officers are actively engaging with community – doorknocks and face to face as well as letterbox dropping
 - Maps prepared for early am shift for identification of levels and damage extent after 4.30am flood event
 - Forms and paperwork for RAF reporting ready for deployment
-

Local Assets Services (LAS)

Demand for sand bags has dramatically reduced overnight at all LAS locations. All sites now have sand bags available.

CARS and LAS are continuing to maintain 24 hour presence manning the RIMT.

RECOVERY

Work around Council's recovery response is underway. Factors considered include:

- Resourcing
- Electricity
- Road rehabilitation including signs and lines
- Street sweeping and cleansing
- Urban cleansing
- Waste water and stormwater infrastructure repairs
- Other infrastructure

The Forward Planning Group is continuing to use the FIC information provided to map the recovery response.

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]
Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	20
DATE:	13/01/2011	PRIORITY:	Routine
PERIOD:	0600 – 1530 hrs		
EVENT TYPE	Flood		

OPERATIONS AND ASSESSMENTS

The observed peak flood height at the Brisbane City Gauge was 4.46 m AHD at 2:57 AM Thursday - 13/01/2011.

BoM advised that the reduced flood peak was primarily due to the changed (reduced) release strategy of flood waters from Wivenhoe Dam by SEQWater. SEQWater have advised that the releases from the Wivenhoe Dam were throttled back to 2500 m³/s to reduce the peak flood level in Brisbane. This was possible as no further rainfall was forecast in the Wivenhoe Dam catchment.

BoM has advised that the peak flood height at the Brisbane City gauge will reduce to the following levels:

- 4.2 m AHD at 4:00 PM, Thursday - 13/01/2011
- 3.2 m AHD at 5:00 AM, Friday - 14/01/2011

BoM have also advised that the estimated long term forecast is for the Brisbane City gauge to reduce to 2.0 m AHD in approximately 36 hours, (8:00 PM, Saturday 15/01/2011). They have advised that this river level will continue until approximately Wednesday 19/01/2011.

CURRENT ACTIVITIES/EMERGING ISSUES:

Fatalities

Queensland Police Services located the body of a man, believed to have died in flood waters, at Durrack.

Affected Property

- The total number of flooded properties for the peak at the Brisbane City Gauge at 2:57 AM Thursday 13/01/2011 was:
 - 11,676 residential properties; and
 - 2,436 commercial properties.
- By 4:00 PM, Thursday 13/01/2011, the total number of flooded properties has been estimated to be reduced to:
 - 5,455 residential properties (reduction of 6,221 properties); and
 - 1,409 commercial properties (reduction of 1027 properties).

Floating Riverwalk

At approximately 4am on Thursday 13 January, the downstream section of the riverwalk broke free and floated downstream. A 380m section washed away, with 400m remaining.

The remaining upstream section of the riverwalk is still intact but the upstream gangway has been damaged and has a pontoon from upriver against it. Chris Beckley, Acting Principal Engineer Structures from City Assets Branch has advised that if the river level continues to fall, the upstream section may remain intact and in place. However because the extent of any damage is unknown, there remains a possibility that this section may also break free as water levels exceed 4m.

Road surface rectification

Eagle Farm BCW depot is being prepared for the next phase of operations, asphaltting and road repair. Eagle Farm Asphalt Plant has commenced start-up phase for production of asphalt. The plant has not been operation over the Christmas period and requires 24hrs of preparation before being able to commence production.

This is in anticipation of a significant road repair program.

Aerial Photography

Aerial photography is being conducted to record water levels across the city and areas affected. Oxley sector has been completed, currently working on CBD sector.

ADMINISTRATION:

- Nil to report

OVERALL ASSESSMENT:

Moving into recovery and clean-up mode. Forward Planning and Operations Group has been tasked to commence clean up and recovery operations within 24hrs. The priority is for the sectorisation of the region to enable clearer division and application of resources.

- Total 1,457 streets affected across the city.
 - 940 of those streets will be flood free by 8:00am Friday 14th.
-

STATUS REPORT

ITEM	COMMENTS															
Impact Area and Scale	SEQ Water have reported that effective 12:00pm, the release from Wivenhoe Dam will be 3500 m3/s for the next 7 days. No indication at this stage as to predicted water levels. Further details anticipated in the 1800hrs BoM advice.															
Communications	<ul style="list-style-type: none"> • Customer Contact Centre <p>Grade of Service - 98% responded to within 20secs</p> <p>- Offered - 5336</p> <p>- Answered - 4928</p> <p>Of these SES comprises:</p> <p>- Offered - 564</p> <p>- Answered - 509</p> <p>Grade of Service - 97%</p> • Telstra advise power cuts have affected services with mobile phone towers now operating on battery reserve power. Gas	No issue
Transport	<ul style="list-style-type: none"> The Ferry to Moreton Island has not been running since Tuesday and will not be running until possibly Saturday due to debris in the Brisbane River and into the mouth of Moreton Bay. Airport services at BAC are unaffected. Buses will be running as per Sunday's timetable tomorrow and will be increased frequency as conditions improve. Trains are running to a Christmas day timetable. All lines are open, except the Ipswich line which is not operational. From the CBD - Gold Coast and Beenleigh lines are terminating at Yeerongpilly. South Brisbane Station platform is closed, however trains services are running through. 29 bikes affected by the floods (primarily at QUT). 21 stations affected by floods, only 4 terminals totally immersed. 400 bourettes (bike mounts) are affected by floods, it is likely that the CPU card (controlling the card reader) is affected, but a 15 minute job to change out each card worst case (damage) scenario. It is anticipated that the majority of damage could be rectified in 10 - 20 working days. (estimate only at this stage, based on inspections completed)
Hospitals/Schools etc	Nil to report
Public Services	Nil to report
Properties/Buildings	<p>Information from City Malls Manager is that there is 90% coverage with the CitySafe Cameras. 4 cameras were lost in the Riverside area covering the bike paths, 4 in the Alice Street area as a result of power loss and another 4 in the valley. There is 100% coverage across main Brisbane areas such as the City and Valley Malls, Central Station and King George Square.</p> <p>This information has also been provided to QPS.</p>

ITEM	COMMENTS
Supply Problems (Food, clothing, etc)	<p>Requests for water, toiletries, footwear, underwear, special needs beds and a wheel chair were received early this morning. Supplies were scheduled to be delivered to the RNA and QEII evacuation centres by 2:30pm.</p> <p>A request was also received from Uniting Church, Moggill for food supplies, water and toiletries to supply the local community.</p> <p>Requests for medication have also been received.</p>
Equipment (Sandbags, lighting, etc)	<p>65,000 sand bags are ready to go 100,000 empty bags in stock</p> <p>Sandbags are still being collected from various locations, however demand has significantly reduced.</p>

Labour (Volunteers, contractors, etc)

The coordination of volunteers for the recovery efforts has begun.

Media Issues

There are four fact sheets. One each for:

- Residents (advice on being safe while cleaning up)
- Businesses (advice on being safe while cleaning up)
- People in evacuation centre (advice about people returning home)
- People in the community wanting to volunteer

Political Issues

No known issues

City Waste Issues

7 waste trucks on north side picking up day of service refuse.

All units will be available for Friday to pick up refuse waste only, depending on drivers.

Bulk bins for food and general flood waste have been organised and are ready to be actioned.

Collection sites in flood areas have been identified. Sites on Council property will be able to be used as soon as required, sites on private property will need approval from owners to be used.

Scripting is being prepared for Monday service to notify residents what their options will be.

External Stakeholder Issues

No issue

Internal Work Unit Issues

- Regions (CARS 24hr staffing roster has been implemented in all regions)
- LAS South have a Bagging and Distribution point at Shamrock Rd, Darra and are bringing on board another Bagging point at Tarragindi Road Reservoir starting operations from 7am tomorrow 13/1. Traffic Mgmt has been engaged to ensure minimal delays for residents picking up sandbags.
- Several Operational staff assisting ERG South/officer with Road Closures, placement of signage / traffic mgmt.
- LAS has suspended toilet cleaning services in parks in all affected areas.

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]
Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	21
DATE:	13/01/2011	PRIORITY:	Routine
PERIOD:	1530 – 2200 hrs		
EVENT TYPE	Flood		

OPERATIONS AND ASSESSMENTS

BCC have interpreted the latest available information from the BOM to supply information for BCC's recovery planning. BCC have adopted a level of 2.8m at 8am. This modelling predicts that 1203 properties (771 residential, 300 commercial and 132 other) will still be flooded at 8am Friday 14 January 2011. At this time a further 9,500 properties will also be partially flooded.

CURRENT ACTIVITIES/EMERGING ISSUES:

Future Planning

Operational planning is continuing sectoring of the city is complete; maps are being distributed on a priority basis with field teams receiving highest priority. Rapid Damage Assessment teams to be deployed from 1300 hrs which consists of

- 20 teams of two QFRS officers per team
- SES on foot
- BCW/ LAS RIMT working in their regions
- ADF will be deployed at 0730 hrs consisting of the
 - 2nd combat engineer regiment – heavy machinery and equipment
 - 9th Battalion royal QLD regiment – infantry shovels and brooms

Concept of Operations

-
- Clear major thoroughfares
 - Clear secondary suburban streets
 - Distribution of circulars
 - Clean up of waste
 - Mapped and identified sites for bulk bins starting 0700 hrs – progressive roll outs
 - 2-3 general
 - 1 food
 - Hazardous waste is being monitored
 - Debris site sites for BCC contractors will be organised by region
 - Trucks arranged
 - Organising contractors task force to coordinate contractors
 - Aerial survey of river flow has commenced - continuing
-

ADMINISTRATION:

- Nil to report

OVERALL ASSESSMENT:

River height has been falling since 0400 hrs (currently – 2.96 m at city gauge) and is predicted to consistently fall until 1600 hrs Friday when tidal influence will again start to impact on river heights.

Planning well underway for the recovery phase this will commence tomorrow. This will involve QFRS, SES, BCW/LAS, ADF. Planning for volunteer assistance is a high priority and has commenced.

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	22
DATE:	14/01/2011	PRIORITY:	Routine
PERIOD:	2200 - 0200hrs		
EVENT TYPE	Flood		

A Recovery Forecast #3 has been prepared for Saturday 15/01/2011, 8:00 AM. The Recovery Report #3 is relative to predicted peak flood as advised by the BoM being 4.50 m AHD at the Brisbane City Gauge on Thursday 13/1/2011.

The total number of **flood affected properties** for Recovery Forecast #3 is estimated at:

- Approx. 5,930 (3,352 residential properties) **of which**
 - 5,755 are partially flooded (3,303 residential properties) and
 - 171 are still completely flooded (49 residential).

For Recovery Report #3 the total number of **properties recovered** since the peak of 4.5m AHD is estimated at 27,092 (22,611 residential properties). This is an increase of 4775 properties (3,686 residential) from Recovery Report #2.

The above counts are for property flooding not house flooding.

Residential includes anywhere that houses people this may include hospitals and nursing homes, units, etc. One hospital counts as one property. Commercial includes shops, industrial, offices - anywhere with a building but not where people residing. It does not include vacant land or structures, this is in other.

OPERATIONS AND ASSESSMENTS

CURRENT ACTIVITIES/EMERGING ISSUES:

CARS staff are currently:

- Monitoring of water levels in CBD and inundate suburbs.
 - Continued servicing of evacuation centres as required.
 - Engaging with flood impacted residents.
-

Darra has been inspected today - Homes in the "Centenary Village" estate at Darra have been under water and residents need help with the cleanup. Water has already receded and work can begin immediately. Streets include Kokoda, Markham, Wau Rd, Owen Stanley Pl. Sumner needs to be included - residential area of Drovers Place, has had homes inundated. They need to be included in the cleanup schedule as soon as possible.

As of 0100hrs 6 single officer QPS units will be making patrols with an ADF member of the flood affected areas within the Mt Ommaney and Sherwood Divisions.

Future Planning

Planning is well underway for the recovery phase.

Concept of Operations

The RIM Team have been tasked to commence assessment and cleansing of major and critical roads to allow access into flood affected areas. The focus will be on opening up major arterials to ensure essential services can return to normal operations. The Australian Defence Force will be assisting with the clean up of these flood affected areas.

ADMINISTRATION:

Flood Predictions

Current river level as at 0600hrs, is 2.71m.

Based on the 0800hrs 13/01/2011 BOM forecast, analysis indicates at Friday 14/01/2011, 8:00 AM the total number of flood affected properties is likely to be:

- 10,701 properties (7,038 residential properties) of which
 - 9,498 are partially flooded (6,267 residential properties) and
 - 1,203 are completely flooded (771 residential).

By Saturday 15/01/2011, 8:00 AM current analysis indicates the total number of flood affected properties is likely to fall to:

- 5,930 properties (3,352 residential properties) of which
 - 5,755 are partially flooded (3,303 residential) properties) and
 - 171 are still completely flooded (49 residential).

Please note, the above prediction for Friday is based on a height of 3.2m and the prediction for Saturday was based on a height of 2.4m. The actual height at 0600hrs, was 2.71m. Updated figures will be provided in the next SITREP.

Figure 1 below details the top 12 suburbs with flooded properties. Please refer to Annexure B for a complete list of flooded suburbs within Brisbane city.

Suburb	Total Flooded Properties

OPERATIONS AND ASSESSMENTS

CURRENT ACTIVITIES/EMERGING ISSUES:

Future Planning

Planning is well underway for the recovery phase. The Recovery Plan has been developed and will be presented at LDMG for endorsement this morning.

Concept of Operations

The RIM Team have been tasked to commence assessment and cleansing of major and critical roads to allow access into flood affected areas. The focus will be on opening up major arterials to ensure essential services can return to normal operations. The Australian Defence Force will be assisting with the clean up of these flood affected areas.

QPS information

An allegation of stealing was received by QPS at RNA Evacuation Centre. Police attended at approximately at 0530hrs and located one person who is assisting Police with enquiries. A further update will be provided.

Looting has been identified in the Coopers Plains and Archerfield areas. An increased Police presence in the area.

Work REPORT

CARS Update:

Scheduled Inspections: CBD and surrounding suburb monitoring ongoing
Suburbs Inspected: Brisbane City

Regional Update

Below is a summary of the field staff activities and observations as of 0430 hrs.

- Minimal change to water levels reported from previous 0030 report.
- Areas patrolled include Teneriffe, Albion and Kingsford Smith Drive.
- Provision of further flood information packages to evacuation centres.

Current Operations

- Ongoing monitoring of water levels in CBD and inundated suburbs.
- Continued servicing of evacuation centres as required.
- Officer engagement with public to provide assistance and support.
- Rapid Damage Assessment reporting to recommence at 0600 with support from QFRS & SES in each of the regions.

RIMT UPDATE

LAS received advice from a QUU employee that they will need to access the treatment plant at Dunn Rd Rocklea to ensure plant can be returned to an operational state. Teams required urgently when flood water recedes to clean debris and allow access into sewer plant.

Police are at corner of Musgrave Rd and Boundary Rd Coopers Plains due to the presence of looters with baseball bats. Extra Police have been deployed. Staffs in the field have been advised to be cautious if they are around those areas.

Blackwoods (Council supplier for clean up equipment) have been contacted by Council and advise that they will be open Saturday and Sunday for Council access.

A list of affected food premises has been collated and distributed to RMIT for action by EHOs (Environmental Health officers).

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]
Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	24
DATE:	14/01/2011	PRIORITY:	Routine
PERIOD:	0200hrs – 1530hrs		
EVENT TYPE	Flood Event		

Flood Affects

At 8am Friday 14th, the Bureau of Meteorology advised the expected peak level will be between 2.2m-2.4m with the high tide Sunday.

Summary of Recovery report 3 for 0800, Sat 15/1/11

The total number of flood affected properties at 8:00am on Saturday 15th is estimated:

- approximately 5,926 (3,352 residential properties) of which
 - 5,755 are partially flooded (3,303 residential properties) and
 - 171 are still completely flooded (49 residential).

As at 8:00am this morning, the total number of properties recovered since the peak of 4.5m AHD was estimated at 22,317 (18,925 residential properties).

OPERATIONS AND ASSESSMENTS

RECOVERY MOBILISATION:

Clearing transport routes:

Priority road clearing at the following locations:

- Coronation Drive
 - Moggill Road
 - Ipswich Motorway
 - Centenary Highway
 - Milton Road
 - Melbourne St Busway
 - Pumping out of water from the ICB tunnel being undertaken so ICB can be opened SAP
-

Waste collection

In addition to regular waste collections, Council has been strategically placing skips at various locations across the city, including:

Alderley – 4 bulk bins
Chapel Hill – 3 locations, with 12 bins in total
Chelmer – 4 bins
Graceville – 2 locations, with 8 bulk bins
Tennyson – 4 bulk bins
Taringa – 4 bulk bins
Yeronga – 4 bulk bins
Wilston – 2 locations, with 8 bulk bins
Windsor – 4 bulk bins

Emergency waste disposal sites have been identified at more than 180 locations throughout Brisbane. Bins are being emptied on site daily, and as required. City Waste Services have five teams of two people in each region to monitor and assess any requests for additional bulk bins to be placed at separate locations that have not already been identified as suitable locations.

The bins are predominantly available for the disposal of perishable items. General household items are being collected via kerbside collection. Residents need to separate hazardous waste on their kerbside. Ten trucks are servicing all of Brisbane on a continuous basis.

Volunteers

It is anticipated that an approximate total of 6,000 volunteers can be expected at the four assembly locations across the city. The assembly locations are being considered with accessibility to public transport a key consideration.

The volunteers will be registered at the assembly locations and volunteers will be set down at various suburban rally points. There will be buses from the assembly location to the suburban rally points.

Volunteers are being asked to provide their own personal protective equipment if possible, including:

- Enclosed Shoes
- Gloves
- Sunscreen
- Hat
- Water
- Food

Shuttles will run between the suburban rally-points and the four assembly areas, on a four hourly basis, starting from 7:00am through to 5:00pm. Volunteers can choose the length of their shift.

ADF

The army is deployed within sectors across the city, three Companies north of the river and two Companies south of the river. Key tasks being undertaken by around 600 soldiers include:

- Damage assessment
 - Route clearance
 - Debris removal
 - Transport infrastructure assessment
 - Search and clearance in building, as required
-

- Transporting food stuffs and provisions, as required.

Tasks undertaken

- Mud has been cleared from the south end of the Go Between Bridge, opening up several lanes.
- The corner of Boundary and Mollisson Street has been cleared and debris is being cleared from the kerb areas.
- Clearing of Dublin Street and Wharf Street.
- Water remains on Fairfield Road between Ashby and Dublin Road,
- Setting up a laundry service at RNA Showgrounds.
- Conducting damage assessment, with a view to undertaking work to clear Moggill Road.

Future Tasking

- Soldiers will continue clearing main arterial roads and will utilise Council and Army equipment to remove large volumes of mud and debris.

ADMINISTRATION:

- Nil to report

OVERALL ASSESSMENT:

The river peaked at 4.5 and is predicted to peak at 2.2 - 2.4 metres during the high tide on Sunday. It is projected that within 60 hours of the peak, 97% of Brisbane's properties will be recovered.

Status REPORT

ITEM	COMMENTS
<p>Impact Area and Scale</p>	<p>As of 8:00am this morning approximately 1,203 properties across the city remained flood affected. Evacuations REPORT

Red Cross are coordinating both Council evacuation sites with all support services in attendance. LDCC and Contact Centre are coordinating any further "Offers of Assistance".

QEII - 419 registered

- Dept of communities has set up a temporary recovery centre
 - No incidents of note overnight
 - Some people are leaving to see if they can return home yet
 - Donations are still being dropped off but only linen is being accepted- all others being referred to local charities
- Council contact Sharyn Watson [REDACTED] 6am to 2 pm

RNA - 994 registered

- A very small number of incidents overnight involving minor theft, drugs and inappropriate behaviour - police attended and removed people including one to RBH
 - Expecting some people to move out today
 - People are keen to be advised when they can return to specific areas
 - Dept of Communities has set up a temporary recovery centre
- Council contact Chris Salter [REDACTED] 6 am to 2 pm

Metro Church - This is no longer an evacuation centre.

- residents are now visiting their homes to salvage and clean

Good News Lutheran Church - This is no longer an evacuation centre

- local host families have taken in residents who were staying o/night

Kedron Wavell Services Club - This is no longer an evacuation centre

- was being used as an interim centre for transporting residents to RNA
- no residents stayed overnight
- tea, coffee, food available.

Hillsong Church - This is no longer an evacuation centre.

- had 60-80 people over a couple of nights

St Catherine's Anglican Church - This is no longer an evacuation centre

- No longer needed as an evacuation centre.
- Councillor Bourke has contacted Rev Tania as the location is going to be used as a place to coordinate recovery for badly nearby effected areas (e.g. Westlake).
- food, tea and coffee, counselling, bedding etc available.

Good News Lutheran School - This is no longer an evacuation centre

All families have been re homed within host families in the parish. They will continue to help people if they turn up.

Yeronga State School - This is no longer an evacuation centre

Wed, 12 Jan 2010 Had power cut - relocated all evacuees (20-25) to the QEII Evacuation Centre.

Focus is on recovery planning, food drops and volunteer mobilisation.

OPERATIONS AND ASSESSMENTS

RECOVERY MOBILISATION:

Volunteers

The Volunteer taskforce have prepared for the volunteer clean up tomorrow at the following sites:

- Macgregor State High School parking at Eight Mile Plains bus station or Upper Mt Gravatt park n ride
- Boondall Entertainment Centre
- Doomben Race Course
- Mt Coot tha Botanical Gardens

There are at least 6000 volunteers expected to attend tomorrow. A Councillor will be present at each site. Registration commences at 0700 hrs and Council officers will register each volunteer.

The first shift will begin at 0730 hrs and the second shift will begin at 1300 hrs.

Buses have been organised to transport volunteers from the four sites to the forty "Drop zones" to perform the work.

Volunteers have been asked to come self sufficient with their own food, water and Personal Protective Equipment. Council is supplying a limited number of gloves, hats, sunscreen, water bottles, gum boots, respiratory masks and shovels.

FOG

RMIT

Tasks have been allocated within all sectors including:

- Damage assessment
- Road clearance
- Debris removal
- Street and bridge sweeping and cleansing

ADF

2nd Combat Engineer Regiment

9th Royal Qld Regiments

Deployment of assets and tasks completed:

- Damage assessment
- Engineering reconnaissance
- Road clearance
- Debris removal

Future tasks

- Damage assessment
- Engineering reconnaissance
- Road clearance
- Debris removal
- Street sweeping
- Bulk bin placement
- Identify further debris locations

DIG

- Revised Brisbane River Flood Peak & Inundation by affected region, sector & SLA for 15 January 2011
- Delivering map packages to internal & external stakeholders
- Collated and preparing document for weekend volunteers and affected suburban areas
- Evacuation centres update - 1314 registered at RNA & 381 registered at QEII
- Following up on supplies - Monday 17 January - 6 pallets of Jumbo toilet paper picked up from the Stafford Depot to QEII & 4 pallets of Jumbo toilet paper picked up from the Stafford Depot to RNA

CARS

Compliance and Regulatory Services are carrying out rapid street inspections of flood affected areas across the City and reporting any impediments to reopening streets. To date, 60% of flood streets have been inspected

Evacuations REPORT

Food drops have been completed to Moggill Uniting Church and Mt Crosby State School.

Mt Crosby has received a second food drop at 2100 hrs by road to the Moggill Uniting Church. All supplies are being distributed in an orderly manner and are expected to be completed by 2300 hrs.

The DDCC have advised that an aviation survey is being conducted of the Bellbowrie and Moggill areas to identify any isolated locations where food drops may be required. Further consultation between LDCC and DDCC will be conducted concerning this.

The State Department of Communities will be operating Recovery Centres as of 0900hrs on 15/01/11. These centres will be state run operations and the contact for Dept Communities is Merrick Ilett [REDACTED] or Merrick.Ilett@communities.qld.gov.au.

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME: January 2011 Flood Event**SITREP NUMBER:** 26**DATE:** 15/01/2011**PRIORITY:** Routine**PERIOD:** 2200 – 0200hrs**EVENT TYPE** Flood Event

Discharges from the Wivenhoe dam have now been reduced to a consistent level in line with dam operations. This will continue until at least Sunday. In addition the river is now fluctuating with the tide at a level of 2.4 at the City gauge. This level is being used for recovery purposes from 0800 hrs Saturday until 0800 hrs Sunday 16/01/2008.

OPERATIONS AND ASSESSMENTS

RECOVERY MOBILISATION:

Council has requested the assistance of the NSW Rural Fire Service to assist in the clean up of flood affected areas. The NSW Rural Fire Service is organised and well equipped to clean residential properties.

Two 8 tonne trucks with swings, chains and lifts will be deployed to Ipswich Road to help clear large heavy debris from approximately 0800 hours.

Environmental health teams will be deployed into flood effected areas Saturday morning to liaise with food business owners to regarding clean up requirements. This continues from the work that started Friday afternoon.

Volunteers

Fact sheets for volunteers have been put onto the Council website.

The “drop zones” have been identified.

An early assessment will be made about the numbers of volunteers who come to the four registration sites. A media announcement will be made if the number of volunteers exceeds the number that can be used at this time.

FOG

The Maritime Safety Authority has offered to mobilise a contractor to remove the sections of the River walk beached on Nudgee beach. Council has accepted this offer.

Sherwood Road leading to the Rocklea Markets has been cleared to permit access to the markets to commence trading tomorrow afternoon. Environmental health officers will be deployed to the markets to conduct health inspections to ensure the markets are safe to operate.

Whilst clearing Sherwood Road, officers noticed looting occurring and notified QPS.

DIG

- Damage Assessment & Rapid Assessment consolidated into spreadsheets from information received. As of 15 January, regions will be entering spreadsheets and then sending to DIG to generate rapid assessment reports
- ENERGEX Outages - mapped/completed
- Debris Sites Internal - mapped/completed
- Food Outlet mapping sent to stakeholders

CARS CITY WIDE

Suburbs Inspected: Brisbane City, South Bank, Milton, Jindalee, Graceville, Oxley.

Field staff activities and observations as of 00:30 hrs:

- Engagement with residents at Graceville (Nadine Street & Verner Road East) in regard to proposed curb side collection for area. Large volumes of flood damaged materials accumulating on footpath from clean up work.
- Investigation of petrochemical odour complaint for BP Service Station at Oxley.
- Extensive clean up work in progress by QFRS at south Bank.

Predicted Issue:

- No serious issues anticipated at this juncture.

Current Operations

- Ongoing patrols of inundated residential areas.
- Servicing of evacuation centres as required.
- Officer engagement with public to provide assistance and support.

ADMINISTRATION:

- Nil to report

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	27
DATE:	15/01/2011	PRIORITY:	Routine
PERIOD:	0200 - 0600 hrs		
EVENT TYPE	Flood Event		

MAJOR ROADS REOPENED

- Brisbane City Council staff have advised that Ipswich Road will be reopened from 0600 15 January.
- Access to the Rocklea Markets is now available from Sherwood Road via Ipswich Road.
- Inner-City Bypass at Breakfast Creek Tunnel reopened at 0515, speed limit reduced to 40 kph with no lighting within the tunnel.

FLOOD PREDICTIONS

As at 0800 Saturday 15 January 2011, current analysis indicates the total number of flood affected properties is likely to fall to:

- 5,930 properties (3,352 residential properties) of which
 - 5,755 are partially flooded (3,303 residential) properties) and
 - 171 are still completely flooded (49 residential).

OPERATIONS AND ASSESSMENTS

RECOVERY MOBILISATION:

Environmental Health Teams have been deployed to inspect 201 flood-affected food premises identified via our DIG. Of these 201 properties, 90 were inspected as of 14 January 2011, it is anticipated that the remaining properties will be inspected by approximately 1200 hours, 15 January 2011.

VOLUNTEERS

Fact sheets for volunteers have been put onto the Council website.

The "drop zones" have been identified.

An early assessment will be made about the numbers of volunteers who come to the four registration sites. A media announcement will be made if the number of volunteers exceeds the number that can be used at this time.

Information from Crisis Communications is that they have contacted community organisations and have sufficient food and drink for the 4 assembly point locations. Further offers of assistance will be sent to Vanessa Fabre, Manager Inclusive Communities to acknowledge and action when necessary.

120 Volunteer Coordinators packs have been delivered to the 4 assembly point locations. These packs included UBD's, general stationery, maps and registration forms.

FOG

Nil to Report in this SITREP.

DIG

- Damage Assessment & Rapid Assessment consolidated into spreadsheets from information received. As of 15 January, regions will be entering spreadsheets and then sending to DIG to generate rapid assessment reports.

Region: South

TASK:-

- Conduct Rapid assessments for Sectors
- Inspections of flood affected properties

Scheduled Inspections:

Sector	Suburbs
A	Graceville, Chelmer
B	Sherwood, Corinda
C	Oxley
F	Wacol, Riverhills, Darra, Sumner
G	Willawong, Acacia Ridge, Durack
H	Archerfield, Rocklea
I	Fairfield, Yeerongpilly, Yeronga

Regional Update:

5 of 7 sectors completed for Rapid assessment Task
EHO food premise inspections completed now moving into direction phase

Issues: Sector I

Officers have advised today that area is congested with parked cars and people, would make access for essential vehicles (backhoes, tippers etc) limited.

Victoria street Fairfield, King Arthur Tce, Lancelot street and surrounding streets near Tennis Centre, Tennyson - no backhoes or tippers in the area. No clearing of rubbish from street has commenced as yet. Rubbish is being placed on the footways.

Issues: Sector H

Marshall Road Rocklea, service road still flooded in several areas.

Gill & Co Timber yard still has 6-8" of water over the roadway.

Cambridge, Inskip & Melbourne Streets Rocklea, water over roadway and cannot access some areas.

Ipswich Road service road outbound lots of debris on footway areas.

From Ipswich Road service road looking to Franklin St it is flooded and cannot access.

People and parked cars are making access to all areas difficult.

ENVIRONMENTAL HEALTH

CARS assessment of food premises impacted by the flood:

Impacted properties:	201 (possibly 50 additional to be confirmed)
Inspections conducted:	181
Follow up inspections to be conducted:	110 (not including 50 additional identified)
This information including those premises that can commence trading will be provided prior to the 10.00am LDMG meeting tomorrow.	

MARKETING AND COMMUNICATIONS

CSA's issued

- Informing residents that volunteering tomorrow will involve heavy lifting.
- Providing information on disposal of sandbags.
- Reminding residents not to park in flood affected streets.
- Informing residents of roads closed tomorrow as part of cleanup.
- Reminding residents to be careful on river and creek banks as the flood waters recede.
- Council calling for small tip truck (owner operated) to assist with volunteer cleanup taskforce tomorrow.
- Putting together a fact sheet for distribution to volunteers tomorrow on tips for heavy lifting.

VOLUNTEER RESPONSE

No further updates

EVACUATIONS CENTER UPDATE

- **RNA**
392 evacuees
- **QE2**
220 evacuees (No change)

VACCINATION UNITS

Four Assembly Locations: Boondall, MacGregor, Doomben and Mt Cootha.

- Sunday Vaccination clinics (ADT - Tetanus) will operate from 7.30am and conclude by 4.00pm (depending on demand).
- Over 600 vaccinations were given today across the 4 centres.

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	28
DATE:	15/01/2011	PRIORITY:	Routine
PERIOD:	0600 – 1530hrs		
EVENT TYPE	Flood Event		

FLOOD PREDICTIONS

No change from 0600hrs SITREP.

As at 0800hrs Saturday 15 January 2011, current analysis indicates the total number of flood affected properties is likely to fall to:

- 5,930 properties (3,352 residential properties) of which
 - 5,755 are partially flooded (3,303 residential) properties) and
 - 171 are still completely flooded (49 residential).

UPDATE ON IPSWICH MOTORWAY

- **Eastbound from Centenary Highway to Granard Road:**
Douglas Street on/off ramps are open
Oxley/Blunder Road on/off ramps are closed
Granard Road on/off ramp is open.
- **Westbound on the Ipswich Motorway from Granard Road:**
Randolph Street off ramp is closed.
- **Eastbound on the Ipswich Motorway:**
Donaldson Road on/off ramps closed
Suscatand Street on/off ramps closed
Boundary Road on/off ramps closed.
- **Update on Coronation Drive**
Open in both directions with limitations
Risk of bank stability
Water needs to subside sufficiently below the Bicentennial Bikeway to allow initial assessment.

FORWARD PLANNING GROUP

Looking over the horizon

Determining likely issues in the following periods

- 0 – 72 hrs (0 = Saturday 15/01/2011)
- 72 hrs – 1 week
- 1 – 2 weeks
- 2 – 4 weeks
- Business As usual

Established a sub-cell for Recovery Planning

Transferring information on resources offered to BCC from FPG database to regions to ensure that resources are utilised.

OPERATIONS AND ASSESSMENTS

VOLUNTEER RESPONSE

NUMBERS REGISTERED

- Doomben - 2,100 (are taking registrations for Sunday)
- Boondall - 3,700 estimated
- McGregor - 3,473 (turned away 200)
- Mt Cootha - 2,600 today +500 registered for Sunday

Numbers were double than what was expected for whole weekend. Many more volunteers turned up in addition to those registered.

ISSUES

- Identification of sites requiring priority attention and the fact that greater demand came from the south west.
- Process for registering was fast and smooth.
- Needed more Staff to be with each bus being deployed to a site.
- Additional staff calls were made during the day and had to use VQ and Lions volunteers.
- Sending people to areas that had already been cleaned and time delay in intel.
- Collecting the volunteers safely at end of shift as the locations were increased and were beyond their region.
- Grid lock of areas like western suburbs due to road closures, site seers and informal volunteering and this made it difficult to get buses through.
- Police and Army presence in areas ie need for better coordination.

COORDINATION AND LOGISTICS

- Volunteers were deployed to approximately 198 streets today
- Significant traffic congestion delayed deployment and collection of volunteers. It is crucial for waste to be collected and a CSA has been drafted for distribution today, detailing the need for residents to stay off the roads so that rubbish trucks can access areas.
- Sequential approach to clean up was requested by LDMG at this morning's meeting. This approach was trialled in West End and saw volunteers and home owners undertaking light cleaning, which would then be followed by SES workers undertaking larger scale clean up. It was noted that by the time SES workers entered sites, the properties were very clean due to the efforts of volunteers and that they were very well equipped. This will be noted when planning for tomorrow's clean up.

UPDATE ON CLEAN UP

- 198 streets cleaned
 - North – 85
 - South – 107

- Central – 78
- West – 68 (excluding all Bellbowrie streets)
- East – 62

- 288 streets outstanding

INTEL FOR VOLUNTEER RESPONSE

- RATs (Rapid Assessment Teams) will be undertaking assessments of the city until dark today to identify areas still requiring clean up after today's effort. This data will be used to assist with tomorrow's volunteer clean up response.

WORK AREA UPDATES

CITY WASTE

- Currently there are 172 bins in place around the city
- More than 180 bins will be rolled out over the coming days as appropriate sites are identified by field officers. Bins will be located in areas of inundation and/or power outage.
- Currently 5 x teams in each zone identifying new locations, monitoring the speed at which bins are being filled, educating the public on the location of skips
- The bins are to be used for foodstuffs and perishable goods only

Please refer to Annexure A for a current list of bin locations as at 14:00hrs

Free tipping

Residents can also dispose of waste for free at Council's transfer stations. All transfer stations are open from 6am-9pm until further notice.

Kerbside collections

Kerbside collections in flood affected areas have commenced all day and will continue.

Disposal

- All transfer stations remain open and free of charge
- Trucks disposing of rubbish are being directed to the Rochdale Landfill to assist with traffic congestion.

ADF

SOUTH OF THE RIVER

350 Soldiers are operating in the following areas:

SECTOR	SUBURBS
Sector A	Chelmer
	Graceville
Sector I	Yeronga
	Fairfield
Sector J	West End
	Highgate Hill
	Dutton Park
Sector H	Rocklea (To be commenced 16/01/2011)
Sector E	Westlake
	Mount Ommaney
	Jindalee
Sector D	Seventeen Mile Rocks

NORTH OF THE RIVER

450 soldiers are operating in the following areas:

SECTOR	SUBURBS
Sector Q	Toowong
	Paddington
	Milton
Sector R	Indooroopilly
	St Lucia
	Taringa
Sector T	Moggill
	Bellbowrie
Sector S	Pinjarra Hills
	Kenmore
	Figtree Pocket

Tasking in all sectors continues to be:

- Route clearance of major and secondary arterials
- Debris clearance
- Heavy recovery tasks

ENVIRONMENTAL HEALTH

- CARS EHOs have completed preliminary assessments of the flood inundation of food premises:
 - 223 premises identified at this time as potentially been affected by flood inundation, however, many more are being identified in field as GIS mapping is not accurate CARS is returning to data from the DART system to identify differing data
 - Of the 223 food businesses, all have been visited by EHOs (140 inspected today)
 - 88 unable to operate due to flooding inundation and as such will require significant investigation and assessment prior to recommencement of trade
- CARS recovery planning and advice for the forward planning group has commenced. For example:
 - 249 Flammable and Combustible Liquids (FCLs) storage premises have been identified in flood effected areas. QFRS are assisting with preliminary inspections for any critical safety issues and Council EHOs will conduct preliminary inspections for flood inundation levels tomorrow.
- CARS has developed a preliminary risk assessment for Environmental Health and Built Environment issues and is planning workload and requirements for recovery to be approved by the LDCC (example of EH assessments attached)
- CARS has developed a strategy for response to flood damaged premises to be presented to the forward planning group for decision and approval by LDCC this afternoon

BCW

- All depots have sand supplies if more sandbags are required.

Status of high value volunteered services

- Unity Water Provided 2 jet rodder / euction type units 14:00 today, successfully deployed to BCW Central Team successfully cleaning Coronation Drive stormwater gullies and Milton Road gullies, 3rd unit being actively sourced. 1 x units will return 15.1.11.
- Gold Coast City Council will be supplying 1 or more water trucks / flusher units for general street flushing and cleansing, 2 x road sweepers, 1 x water flusher
- Redlands City Council will be sending 6 backhoes; 7 trucks; 7 water tankers plus multiple sundry equipment including bob cats and trailers, majority resources will be delivered and installed this afternoon. Teams will be working in the RIMT South Region this evening under BCW deployment and supervision.
- Logan City Council will be sending: loader, backhoe, 3 truck/dogs, 2 small trucks, 4 traffic ctrl teams, labour, bob-cat and supervision.
- Staff
Total BCC Staff – 293
Total Volunteer with Plant – 20
- Fleet
66 trucks all various sizes
Excavators/Combos – 35
Bobcats – 14
Water trucks – 14
Vacuum Trucks – 8
Call through TaskForce – 28 (Total) 3 (Completed) 25 (In Progress)
- Breakdown of jobs received (as at 0800hrs. To be updated at 0230hrs)
1 x Landslide
4 x Clean Culverts/Table Drains
1 x Clean Bikeway
23 x Removal silt/Debris and clean areas.

MARKETING AND COMMUNICATIONS

CSA's issued

- Large bodied trucks to go to Rochedale
- Morning update
- Roads reopening
- Volunteer Centre updates
- Fire hydrants
- Volunteer Centre registrations are full
- Minimise Non-essential travel in flood affected areas

Fact sheets (in addition to those done in previous days)

- Evacuation centre update (to be with LDCC by 5pm)
- Skips in the suburbs (web)
- Mosquitoes and snakes (web)
- How you can help (web)
- Volunteering (web)
- Cleaning out your tank (web)

As well as producing more fact sheets, Marketing and Communications is also working on collateral such as posters and outdoor advertising for the coming days and weeks.

EVACUATIONS CENTER UPDATE

- **RNA**
379 evacuees
- **QE2**
220 evacuees

It is anticipated that this number will continue to reduce as residents return to their homes.

Vaccination Units

These units will be set up at each evacuation centre.

FOOD DROPS

- Mt Crosby food drops have discontinued due to 12t of food packs being delivered to this area, access roads open and no known isolated properties exist.

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Facsimile [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	30
DATE:	16/01/2011	PRIORITY:	Routine
PERIOD:	2200 – 0200 hrs		
EVENT TYPE	Flood Event		

Forward Planning – Sunday, 16 January 2011

- Volunteer Exercise: 4 drop off points nominated (locations to be confirmed by the LDCC before registration commences in morning):
 1. Guyatt Park: Sir Fred Schonell Drive/Bryce Street, St Lucia
 2. Graceville Memorial Park: Cnr Oxley & Plumridge St, Chelmer
 3. Moggill Primary School: Cnr Kangaroo Gully & Moggill Rd, Bellbowrie
 4. JF O’Grady Memorial Park: Cnr Home & Brougham St, Fairfield – first reserve location
 5. Middle Park Primary School: Sumner Rd – second reserve location
 6. New Farm Park: Brunswick St, New Farm – third reserve location
- Currently Rapid Assessment Teams are collating the list of tasks/jobs for each of the nominated areas, with a focus on kerbside collection. This list will be aligned with the above locations.
- A request has been submitted to DDCC for 2 x BCC officers to carry out an aerial review by helicopter on Sunday morning 8:30-9:30am and 11:30-12:30pm. Information will be provided to the LDCC in real time on any emerging issues, congestion or any areas with specific needs.

FIC Recovery Report Series 4# for 8.00AM Sunday 16 January 2011

Recovered Properties Anticipated by Sunday 16/01/2011 8:00:00 AM
(2.4 mAHD @ Brisbane City Gauge)

FLOOD_TYPE	Recovered Property Count Since Peak	People	Property Group
Flooded	11,627	27,528	Residential
Flooded	2,372	0	Commercial
Flooded	823	0	Other

Partially Flooded	10,984	25,220	Residential
Partially Flooded	1,031	0	Commercial
Partially Flooded	255	0	Other
Total Flooded	14,822	27,528	All
Total Partially Flooded	12,270	25,220	All

**Recovery Series 4 - Forecast for Sunday 16/01/2011 8:00:00 AM
(2.4 mAHD @ Brisbane City Gauge)**

FLOOD_TYPE	Flooded Property Count	People	Property Group
Flooded	49	111	Residential
Flooded	64	0	Commercial
Flooded	58	0	Other
Partially Flooded	3,303	7,677	Residential
Partially Flooded	1,446	0	Commercial
Partially Flooded	1,006	0	Other
Total Flooded	171	111	All
Total Partially Flooded	5,755	7,677	All

Predicted Peak Flood Level (4.5 mAHD @ Brisbane City Gauge)

FLOOD_TYPE	Flooded Property Count	People	Property Group
Flooded	11,676	27,639	Residential
Flooded	2,436	0	Commercial
Flooded	881	0	Other
Partially Flooded	14,287	32,897	Residential
Partially Flooded	2,477	0	Commercial
Partially Flooded	1,261	0	Other
Total Flooded	14,993	27,639	All
Total Partially Flooded	18,025	32,897	All

Note: The above data is based on flood model data that is not ground truthed. River flood levels are expected to fall below minor flood levels by Wednesday 19th of January 2011. The increase in recovered properties is expected to not increase until Wednesday 19th of January 2011.

 5. Middle Park – second reserve location, Primary School: Sumner Rd
 6. New Farm – third reserve location, New Farm Park: Brunswick St
- More suburbs will be selected throughout the morning so that once these six are complete, volunteers and resources will have information to move onto the next identified suburb.
 1. These maps and supporting documents are being delivered to the four volunteer meeting locations, plus the three coordination sites which are being managed by Brisbane Transport staff this morning. Tim Swift (Brisbane Transport on [REDACTED]) is coordinating this.
- Chris Mancini from Brisbane Transport is coordinating tipper trucks today. All tipper trucks have been directed to Boondall for briefing and direction.
 1. Refuelling of trucks will be supplied to volunteer trucks at Depot Rd, Bracken Ridge
- A request to SDDC for 2 x BCC officers to carry out an aerial review by helicopter on Sunday morning 8:30-9:30am and 11:30-12:30pm **has not been supported** by SDDC.
- RIMT are reporting to LDCC this morning at 07:30 on which roads have reopened overnight.

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	32
DATE:	16/01/2011	PRIORITY:	Routine
PERIOD:	0600hrs – 1530hrs		
EVENT TYPE	Flood Event		

Flood Predictions

High tide at the city gauge peaked at 1.96m at 7am this (Sunday) morning. BOM advise minor flood levels will gradually ease over the coming days, although there will be fluctuations with the high and low tide. Based on the BOM's forecast tomorrow morning at 8am we can expect levels at the city gauge similar to today. River levels at the city gauge should fall below minor by Wednesday corresponding with the projected reduction in outflows from the Wivenhoe Dam.

Minor tidal flooding occurred at Auchenflower this morning (Torwood and Vincent Streets). Floodwaters have now receded. This flooding may occur again.

Sunday Recovery Effort

- All tipper truck volunteer operators attended Boondall this morning for a briefing and direction regarding the planned schedule for Sunday recovery effort.

Registered Volunteers

- 142 buses in use
- 10,389 registered volunteers

Assembly Point	Registered volunteer numbers
Doomben	1773
Boondall	3391
McGregor	3260
Mt Coot-tha	1965
Total	10389

Summary of Events

- At 0700hrs, volunteers attended the established assembly sites.

- From this time, volunteers, trucks, coordinating staff (BT as lead agent), and resources were deployed via bus to the four identified priority areas:
 1. Sector P - St Lucia, - Guyatt Park: Sir Fred Schonell Drive/Bryce Street
 2. Sector A - Chelmer, - Graceville Memorial Park: Corner Oxley and Plumridge St
 3. Sector R - Bellbowrie, - Moggill Primary School: Corner Kangaroo Gully and Moggill Rd
 4. Sector I - Fairfield - JF O'Grady Memorial Park: Corner of Home and Brougham St) (this site was attended to by volunteers at approximately 0930hrs).
- At approximately 1030hrs the reserve sector sites of Middle Park Primary School, Sumner Road Sector E) and New Farm Park, New Farm (sector P) were also attended to for clean up. Due to the overwhelming response, a third site (Musgrave Park, West End) was identified and volunteers were dispatched to undertake clean up.
- 19 temporary disposal locations were identified and arranged to be used as transit locations for waste collected during the clean up. Throughout the morning, additional sites were identified to address volume of waste and also to assist with the turn around of vehicles. The temporary disposal locations will continue to change throughout the course of the day. *Refer to City Waste update.*
- By 1230hrs 60 BCW trucks, 12 bobcats and approximately 120 volunteer trucks had been deployed.

Intelligence and Logistics

- Locations and drop off points sourced for next wave of volunteers
 - Sector F – 22 Tigris St Riverhills
 - Sector O – Flynn Oval Park 71 Cartwright St Windsor
 - Sector Q – 128 Baroona Rd Milton
- List of affected properties and streets by sector provided to LAS and Operations
- Development of database for reporting of flood affected properties and street damage for future planning, trial reports to be run on sectors today.
- Development of operational regional map as requested by RIMT (South completed, remaining regions to be mapped by tomorrow).
- Development of maps highlighting affected stormwater network (next few hours).

Major Clean Up Sites

Rocklea Markets

Royal Queensland Regiment (RQR) is coordinating civilian volunteers cleaning and sanitising the Rocklea Markets. The focus of this PI has been to direct and coordinate the removal of debris and organic material from surrounding fence lines and the market areas.

Combined with approx 200 plant operators, it is anticipated that the Markets will be cleared and cleaned to an operational standard by 17 Jan 11.

The 9 RQR PI will finalise the clean up and sanitisation of the operational area of the markets this afternoon. This is likely to include the removal of a further 8 x truck loads of rubbish and organic material. Once cleared the PI will transition responsibility for their area of the markets back to the Market Management which is expected to occur late today.

Gully Cleaning

Gully cleaning of flood affected areas is required to be undertaken. There are time constraints relating to this as the work will need to be undertaken by mid afternoon Tuesday due to the chance of storms after this time. This allows for 2 by 12 hour shifts to complete the task. Total allocated work time 24 hours.

Size of Task - Initial estimate is that the flood impacted areas have approximately 4000 gullies. Planning will assume 4000 gullies to be cleared in 24 working hours

Preferred Method - Use all available educting combo units to complete task.

Resources required completing with in time frame - 30 to 40

Implementation - Resources will be tasked on a street by street basis with in flood impacted sectors as no individual gully list is available on Councils systems. Contractors/other agencies will be allocated specific packages of streets in priority order to complete. Contractors/other agencies to report back to LDCC on an hourly basis with streets completed

Current Activities - Transpacific (Council/QUU Contractor) have been advised to make all educting combo vehicles available for this activity. Advice is that they have 23 available. Currently sourcing other units from BCW, QUU and other contractors. Work is commencing this afternoon.

OPERATIONS AND ASSESSMENTS

WORK AREA UPDATES

ADF

- Currently Army has 800 soldiers operating mostly south of the Brisbane River. They are operating in the following sectors:
 - sector A (Chelmer and Graceville),
 - sector I (Yeronga and Fairfield)
 - sector H (Rocklea). In particular the Rocklea Markets
 - sector S (Pinjarra Hills, Kenmore and Figtree Pocket)
 - sector E (Westlake, Mount Ommaney, Jindalee and Seventeen Mile Rocks)
 - sector C (Oxley)

Tasking in all sectors continues to be:

- Route clearance of major and secondary arterials
- Debris clearance and kerb side clearance
- General logistic support to the local community as required

CITY WASTE

Bulk bins - Food waste

- Bulk bins continue to be rolled out to flood affected parts of Brisbane. Bins are continuing to roll into identified locations as Council can gain access.
- These bins are to be utilised for the disposal of food waste only. The immediate priority is to dispose of these items to help reduce any health risk associated with rotten goods.
- Other sites requesting bins will be assessed for serviceability and bins placed at these locations if possible.
- Requests for other sites should go through the Waste Officer in the LDCC to coordinate.
- Bulk bin sites are being itemised on Council's website on a regular basis.
- Residents are asked not to park cars in front of skip bins to ensure collection vehicles can access and service bins without delay.

Collections from Temp Disposal Locations

- CWS are working in conjunction with LAS in identifying sites, and utilising LAS and BCW plant equipment and other assets.
- LDCC CWS and LAS rep to be notified of locations to update master list accordingly.

City waste developing a scheduled plan for the collection of hazardous material.

RIMT

Region	Staff	Plant and equipment in use	Work completed	Work scheduled
Central			<p>Central have completed their RDAs. Officers have been deployed to support RAT and RDA task citywide.</p> <p>RRG are maintaining RAT activities Citywide. 			<p>Scheduled Inspections: Rapid Damage Assessment Inspections – East inundations complete (Sector L & M) Rapid Damage Assessment Inspections – 1 team deployed to assess Sector K areas west of Norman Creek</p> <p>Completion Rate: Expected completion by 6pm 16/1/11</p> <p>Regional Update: Audit of Rapid Damage Assessment inspections – 1 x 2man team to cross check all locations Skeleton crew of TSO staff in region – officers deployed to assist South Region</p>	<p>Continuing Bikeway clearing.</p> <p>A large amount of data entry is being completed relating to rapid assessments.</p>

ENVIRONMENTAL HEALTH

Initial tasking for today for CARS:

- Environmental Health Officers (EHOs) to continue preliminary inspections of food premises for flood inundation
- CARS CT to support RIMT operations however possible/requested
- All other issues to be forwarded through RIMTs and/or LDCC as per protocols

CARS CT field work actions today:

- CARS EHOs have completed preliminary assessments of the flood inundation of food premises:
 - 232 food business were suspected as being possibly effected and all have now been visited by Council's Environmental Health Officers (EHOs) with 91 found to have been inundated partially or fully.
 - Due to a mapping fault, EHOs were despatched to identify further food premises today which found numerous food premises, however, only a further 35 food premises were found to have been inundated
 - At this time there are a total of 126 food premises known to Council as having been either partially or fully inundated by flood waters. A further audit will be undertaken in due time as business complete cleaning and repairs.
 - Council's EHOs have completed several inspections of some food businesses that were only partially inundated and these have been cleared to operate

-
- Numerous food businesses that were only effected by power loss are being permitted to recommence trade under self-assessment provided potentially hazardous foods have been disposed of and basic hygiene checks completed

CARS CT planning group actions today:

- CARS CT recovery planning and advice for the forward planning group has continued including submission of a preliminary assessment of key issues
- CARS CT has refined the number of Flammable and Combustible Liquids (FCLs) storage premises suspected as being possibly effected to 114 and a sector based plan has been developed to inspect these premises for flood inundation (further audit will be undertaken of impacted premises)
- CARS CT has identified approximately 600 Environmentally Relevant Activities (ERAs) in the suburbs effected by flooding but only some of these are suspected as being possibly effected by flood inundation. Data cleansing is being undertaken to reduce the number to only those in the flooded sectors and inspections will occur to confirm the number of inundated business (further audit will be undertaken of inundated premises)
- CARS CT has continued to refine the preliminary risk assessment for Environmental Health and Built Environment issues
- CARS CT has also continued further advanced planning for built environment recovery issues

MARKETING AND COMMUNICATIONS

- A strategy using social media has been developed for consideration. This strategy looks to identify the most efficient way for the community to notify Council that their property still requires clean up support.
- M&C is currently in the process of developing a 'thank-you' email or sms to be sent to all volunteers who have assisted with the recovery effort. Resources to undertake task is currently being sourced.
- **CSAs prepared today**
 - Use Milton Road
 - Information on Recovery Centres
 - Calling for light pick-up trucks
 - Waste CSA services
 - Volunteer updates
 - Keep silt moist
- **Fact sheets**
 - Hygiene
 - Your welfare
 - Sandbagging
 - Bulk bin collection
- **Newsletter**

A newsletter to be letterbox dropped and distributed at evacuation centres and recovery centres has been prepared and distribution will begin this afternoon. This will be produced daily until no longer required.
- **Poster**

5000 posters printed on most important things people need to know about flood clean-up. Being distributed this afternoon

EVACUATIONS CENTER UPDATE

- **QE2**

200 evacuees currently will increase this evening
- **RNA**

277 evacuees currently will increase this evening

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	33
DATE:	16/01/2011	PRIORITY:	Routine
PERIOD:	1530hrs – 2200hrs		
EVENT TYPE	Flood Event		

Flood Predictions

The BoM have advised that the high tide on Friday 21st will be 1.39-1.40m at the Brisbane City Gauge. The anomaly is 0. Wivenhoe discharges should be through the river by that stage. Accordingly we are expecting the usual impacts of a regular high tide in Brisbane.

As at 0800 Monday 17th January 2011, current analysis indicates that 95 properties will be completely flooded (including 19 Residential) and 4400 partially flooded (including 2472 residential).

Sunday Recovery Effort

Rocklea Markets

From 6pm this evening, fresh fruit and vegetables commenced rolling into the Rocklea markets. The Markets are open as a DISTRIBUTION CENTRE only and the operations will be 24 hours per day.

Volunteering Feedback

West RIMT

- Initial delays in deploying volunteers through lack of trucks on the street for volunteers to load materials in.
- Some volunteers waited 1-2 hours for deployment
- Most successful activity was to have teams of volunteers walking the streets checking with each resident what help was required. This information was relayed to the coordination area then teams of volunteers were deployed.

-
- The Graceville State Primary School had also established a volunteering effort through the P&C.
 - The Council volunteers worked with this group to ensure that duplication of effort did not occur.
 - By approximately 11.00am, all volunteers were deployed and actively assisting residents.
 - The Army has also been in the area and liaison with them and the school occurred to ensure that volunteers were not in areas occupied by the Army. All intelligence of the requirements of the area was centralised to the school coordination area. There has not been an assessment of what level of work was achieved by the volunteers by the end of the day.

Issues that arose:

The issues arising from today's clean up effort are:

* **Traffic control and road closures.** Army, Council and private trucks were not able to efficiently access the clean up areas due to traffic parked on both sides of streets. Consideration needs to be made for total closures for areas where the trucks are needing to access and restriction of parking on the main routes to the temporary drop off areas.

* **Waste contractors to remove the waste.** The local waste areas filled quickly which impacted the turn around time for the trucks. The Army has been advised that Council parks can be utilised as temporary storage areas to expedite the clean up, following advice from Brett Turville of the LDCC. The school has contacts with Michael Wright of Theiss and Theiss were also deployed by the school today to assist with rubbish collection. The school advise that Theiss are also available to further assist with carting waste from the temporary sites to the landfill site.

* **Asbestos.** Several homes have damaged asbestos sheeting or asbestos for removal. Professional removal contractor were on site today and the coordination centre is recording which homes need assistance with assessment or removal.

* **Power.** Most residents are without power, which means only equipment with generators can be deployed. This evening's news reported that power should be restored this evening which will assist with the clean up effort.

* **Coordination.** The school is happy to provide access to their registered list of volunteers tomorrow, however, many of their organisers and coordinators won't be available.

Plan for Monday 17 January

- Council to assist in providing basic logistical supplies for volunteers (estimate 100) consisting of Water and basic PPE equipment (including gloves).
- The coordination effort will occur from the school. Andrea Kenafake () is the Council contact and will coordinate with the school and the Army on site. The Coordination team will arrive at 7.30am. Several volunteers will arrive at 8am and others may be deployed once assessment of the needs of the area has occurred.
- The latest information from the Army is that they will likely concentrate on the area bordered by Long St East, Strickland Tce and Strong Ave. This is still to be confirmed by the Army.

ITEM	COMMENTS
Public Services	Pest services will be deployed on Monday to control flies around skip bin locations.
Properties/Buildings	<p>This afternoon an inspection was undertaken of BCC River infrastructure from Queensland University to Brett's Wharf, Hamilton in particular to find out if any pontoons from the Floating Riverwalk were lodged along the way.</p> <p>The inspection was undertaken by Gavin Blakey, Chris Beckley (both from City Assets), Isaac Scot and Darryl Lane (both from BCW). As reported previously there are 4 of 5 pontoons lodged against the fixed downstream end of the floating riverwalk. Given that the water levels are generally falling the pontoons are expected to stay in place and are unlikely to float into the river.</p> <p>No other floating riverwalk pontoons were sighted. The Water Police who took us on the inspection said that they had not sighted any floating riverwalk in the section between Brett's Wharf and the river mouth. They had previously spotted pontoons from the floating riverwalk in Moreton Bay and that most had washed north (e.g. Nudgee Beach). This morning Chris Beckley spotted a floating riverwalk pontoon on the beach near the pier in Redcliffe.</p> <p>Maritime Safety Qld (MSQ) engaged a contractor to remove the floating riverwalk pontoons from Nudgee Beach yesterday.</p> <p>Generally the bikeways along the river are in good condition with only minor damage.</p>
Supply Problems (Food, clothing, etc)	No new issues
Equipment (Sandbags, lighting, etc)	Nil to report
Labour (Volunteers, contractors, etc)	Nil to report

- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	34
DATE:	17/01/2011	PRIORITY:	Routine
PERIOD:	2200hrs – 0200hrs		
EVENT TYPE	Flood Event		

Flood Predictions

Expectation of the usual impacts of a regular high tide in Brisbane. As at 8:00am Monday 17th January 2011, current analysis indicates that 19 residential properties will be re-flooded or will continue to flood as a result of the high tide. These properties include 16 in Auchenflower, 1 in East Brisbane, 1 in Milton and 1 Sherwood.

This will be 'ground truthed' by Rapid Response Group at 8:00am tomorrow morning.

OPERATIONS AND ASSESSMENTS

WORK AREA UPDATES

REOPENING OF ROCKLEA MARKETS

The reinstatement of the traffic signals at the intersection of Sherwood Road and Fairfield Roads has been urgently requested as the markets have indicated that there will be high volumes of trucks arriving to deliver produce.

ENERGEX previously advised that a generator would be deployed to provide power to these traffic lights by 1am. After being inspected by an ENERGEX crew, the site was found to have flood damage preventing ENERGEX from safely energising the lights with the large generator being deployed to the Markets, as previously planned.

Council will deploy a generator to power the traffic lights soon as possible.

Traffic control arrangements will be in place until the traffic lights are operational.

EVACUATION CENTRES

Planning is underway to finalise operations at the evacuation centres. The following information is currently available on Council's evacuation centres:

QEII – 135 evacuees

RNA Showgrounds - 230 evacuees

HAZARDOUS WASTE

14-Jan	Beaudesert Road	Rocklea	Outbound lane near Tramore St - Rapid Response request additional assistance to clean debris from Beaudesert Rd, items such as large truck tyres, 44 gallon drum (feels full, possibly oil)
15-Jan	Brougham Street	Fairfield	Corner Turner Avenue - found 2L container of cyanide has been sealed and placed in an overpack - police are onsite will wait on site until Council arrive to remove it. QFRS incident number 5650
15-Jan	Warathan Ave Cnr Chanter Street	Graceville	Asbestos dumped on footpath
15-Jan	Forge Close	Sumner	Flood material: this property is in an industrial estate. the flood caused tankers to overturn etc thus causing spillage of diesel, oil and other hazardous waste materials. the owners of these properties have cleansed the yards; leaving the piles of these materials on the footpath. customer concerned of a large environmental disaster if there is rain.
13-Jan	Penaton Street	Corinda	Crude oil leaking from 44 gallon drums. Eastern side of road
16-Jan	86 Blunder Road	Oxley	Goods dropped in front of Freedom Express Servo
16-Jan	177 & 192 Graceville Avenue	Chermside	Asbestos dumped on footpath

RAPID ASSESSMENT OF GRACEVILLE

RRG completed the following estimate to assist with coordination at Graceville.

Roads	Number of truck loads and front end loaders required
Chelmer East / Appell St	40 truck loads

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	35
DATE:	17/01/2011	PRIORITY:	Routine
PERIOD:	0200hrs – 0600hrs		
EVENT TYPE	Flood Event		

Flood Predictions

Expectation of the usual impacts of a regular high tide in Brisbane. As at 8:00am Monday 17th January 2011, current analysis indicates that 19 residential properties will be re-flooded or will continue to flood as a result of the high tide. These properties include 16 in Auchenflower, 1 in East Brisbane, 1 in Milton and 1 in Sherwood.

This will be 'ground truthed' by Rapid Response Group at 8:00am this morning.

OPERATIONS AND ASSESSMENTS

WORK AREA UPDATES

REOPENING OF ROCKLEA MARKETS

An inspection of the traffic signal box on the corner of Martin Taylor Dr and Sherwood Road has identified that it has significant damage. The traffic signals at this intersection are expected to be operational by 12 noon today.

Traffic control arrangements will be in place until the traffic lights are operational.

COMMUNITY NEWSLETTER #1

Newsletters have been printed. Distribution will commence Monday 17 January to identified flood affected properties.

EDUCTING OF GULLY GRATES

Further sites for gully box educting have been sent to Transpacific this morning. A report from Transpacific is due on the locations and numbers educted so far and will be reported in the next SITREP.

EVACUATION CENTRES

Planning is underway to finalise operations at the evacuation centres. The following information is currently available on Council's evacuation centres:

QEII – 135 evacuees

RNA Showgrounds - 230 evacuees

RAPID ASSESSMENT OF GRACEVILLE

The below table has been distributed to RIMT South for their information and action.

Roads	Number of truck loads and front end loaders required
Chelmer East / Appell St	40 truck loads
Crawford St	1 truck load
Oxley	12 truck loads
Plum Ridge	12 truck loads & 2 front end loaders required
Morley/Sutton	26 truck loads
Laurel Ave	2 truck loads required
Longman Tce	9 truck loads required

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	36
DATE:	17/01/2011	PRIORITY:	Routine
PERIOD:	0600hrs – 1530hrs		
EVENT TYPE	Flood		

OPERATIONS AND ASSESSMENTS

Flood Predictions

The observed peak flood height at the Brisbane City Gauge was 2.1 m AHD at 7:39 AM Monday - 17/01/2011. SEQWater are about to commence the closing sequence this afternoon. The intention is to have no Wivenhoe impact on the king tide on Friday 21 January 2011. During Friday morning's king tide; water levels at the Brisbane City Gauge will peak between 1.5 and 1.6 m AHD. The effect of the oceanic anomaly on tidal level is approximately less than 0.05m.

Volunteers

Volunteers continued to attend the designated assembly locations to assist with the flood recovery area. Council staff were based at each location to assist residents. Residents were directed to assist a volunteer group (coordinated by Council) that had identified a number of locations in the western suburbs requiring clean up.

Brisbane City Council in partnership with Queensland Health conducted vaccination clinics over the weekend at the four Volunteer Assembly centres (Boondall, Macgregor, Doomben and Mt Co-otha). These clinics offered free ADT vaccinations (tetanus) for volunteers.

These clinics were staffed by nurse immunisers and program support from both Brisbane City Council and Queensland Health. (Refer to Vaccinations CSA)

Queensland Health will be setting up a number of mobile dental vans as vaccination clinics in affected areas. This will be rolled out across Brisbane at specific neighbourhood locations.

	Saturday	Sunday
Boondall Entertainment Centre	198	411
McGregor State High School	314	495
Doomben Race Course	54	241
Mt Cootha Botanical Gardens	35	187
Sub Total	601	1334
Total		1935

Volunteer Centre Vaccinations Total – ADT (Adult Diphtheria & Tetanus)

Evacuation Centres

Currently 120 evacuees at QEII (animal shelter remains open and 150 evacuees (animal shelter closed at midday as there were no animals to house).

Flood Newsletters

2 x Flood newsletters have been developed and are in the process of being distributed to evacuation centres, recovery centres and properties.

Forward Planning Group

Planning for Recovery Taskforce Groups (Community and Housing, Infrastructure, Economic, Environmental) to be stood up in the near future.

Work is underway to define the framework for recovery.

Ongoing management of volunteers

As of 1.30pm the following applies:

- 1541 offers received in relation to plant/equipment etc
- 164 High Profile offers have been received
- 308 Trades offers received.
- Forward Planning are also continuing to manage major corporation donations.

WORK AREA UPDATES AND MAJOR CLEAN UPS

GULLY EDUCATION

- 10 Units currently operating across the city (two provider groups – Transpacific and Barry Brothers)
- 24hr service is being provided to meet demand
- Currently 2 sectors (sectors K – City, Camp Hill, Coorparoo, East Brisbane, Greenslopes, Kangaroo Point, Norman Park, Woolloongabba – and Sector L – Balmoral, Bulimba, Hawthorne, Morningside, Norman Park) have been cleared (100%)
- To date, more than 1,000 gullies have been serviced

BCW (Status update as at 0800hrs)

Sector K kerbside cleanup 95% complete. Sector L kerbside cleanup 95% complete. Sector M kerbside cleanup 100% complete. Multiple sweeps of all affected roads completed but residents continue to place more on kerbs. Temp dump sites being cleared to Murarrie. Bikeway cleanups continuing 1.6km today in sector K Gully inspections and cleanout in flooded areas 100% complete. 6 EHO's dispatched to conduct high risk audits in west and central regions. 8:00 am	Completion of kerbside cleanup. 27 more LAS staff to South on Tuesday onwards. Continuing data entry of Rapid Assessments. Assist other regions with Rapid Assessments and specific audits of buildings and food premises. Assist other regions with environmental health issues. Transitioning to BCP for resumption of core service delivery.

Region	Staff	Plant and equipment in use	Work completed	Work scheduled
			patrols of low lying areas identified Hilton St, Norman Park had partial flooding. (Sector K)	
West	20 + RIMT + North Staff	75 x Trucks, 6 x Water Carts, 41 x Loading 4 x Water Truck	Suburb Assessments- Taringa, St Lucia. Rapid Assessment Forms have been completed.	Continue to conduct the small number of inspections and rapid assessments with two man teams deployed into the field. Continued investigation of the ██████ ██████ Farm. (Anticipated waste removal by COB today). EHO's investigating food businesses restocking shelves for sale with flood affected stock.
South	151 x LAS 56 x BCW 31 x CARS 470 x Army 225 x Corporate Volunteers (incl. 150 ABI Group) 65 x SES	110 x Tandems, 14 x Water Carts, 6 x Excavator, 2 x Drott 45 x Bobcats, 6 x Backhoes, 47 x Class 22/24 Trucks, 9 x Loaders, 4x Road Sweepers, 9 x Other plant & equip	Today - Estimated Approx 8000 m ³ of flood debris removed from streets throughout southern region by 6pm 100% of sector G roads now open. Sector G is 95% free of Debris Continued targeted removal of debris throughout sectors A,B,C,H and F.	Focus is on road networks throughout region with residential cleansing occurring in sectors A,B, C & F. Industrial area cleansing also occurring now in sectors, H and F

MARKETING AND COMMUNICATIONS

CSAs distributed

- 1. Council's volunteer coordination centre closed

CSAs developed for distribution

- Call for volunteers (groups 10 or more)
- Be patient (maintenance of parks etc)
- Storms coming
- Electrical/general safety reminder
- Vaccinations
- Pools advice

ADF

Currently Army has 800 soldiers operating mostly south of the Brisbane River. They are operating in the following sectors:

- Sector A (Chelmer and Graceville)
- Sector C (Oxley)
- Sector E (West Lake and Mount Ommaney)
- Sector R (Indooroopilly and St Lucia)
- Sector S (Kenmore and Figtree Pocket)
- Sector G (Durack and Willawong)
- Sector I (Yeronga)
- Sector H (Rocklea)
- Sector B (Corinda and Sherwood) - Army assets will deploy into this sector in the next 24h

The following sectors have been handed back to Council:

- Sector Q (Towong, Paddington and Milton)

- Sector T (Moggill and Bellbowrie)
- Sector J (West End, South Bank, Hillgate Hill and Dutton Park)

Tasking in all sectors continues to be:

- Route clearance of major and secondary arterials
- Debris clearance and curb side clearance
- General logistic support to the local community as required

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	37
DATE:	17/01/2011	PRIORITY:	Routine
PERIOD:	1530hrs – 2200hrs		
EVENT TYPE	Flood Event		

Flood Predictions

There is no change between the recovery map for Tuesday 18/01/2011 and recovery map for Monday 17/01/2011, as per previous Situation Reports.

Flood Information Centre will advise any changes in the recovery maps for Wednesday 19/01/2011 by Tuesday 18/01/2011, 4:00pm.

OPERATIONS AND ASSESSMENTS

Aerial Reconnaissance Report

Activity Overview

Two officers undertook aerial reconnaissance of the flood impacted areas immediately adjacent to the Brisbane River on 17 January 2011 between 16:45 and 18:30

The flight path joined the Brisbane River at Coronation Drive in the vicinity of the Wesley Hospital. The route followed the river upstream to Moggill Creek observing the north side of the river and then down stream to Oxford Street, Bulimba observing the south side of the river.

Summary of Observations

Evidence of significant activity was observed in all sectors adjacent to the river. Council and private trucks and machinery were observed working during the flight. While pockets of heavy household debris were evident, the majority of the area observed appeared to have had work done or some sort of rubbish removal pass complete.

While significant work remains to be done, it looked much cleaner than expected.

Specific Observations

1. Outlet of Toowong Creek blocked with significant amount of debris.
2. Macquarie, Hiron Street and vicinity of St Lucia - debris on footpaths
3. UQ significant damage
4. Witton, Kate, Twigg St and vicinity of Indooroopilly – significant amounts of debris in the streets
5. Streets adjacent to the river in Jindalee - significant amounts of debris in the streets
6. Chelmer and Graceville - significant amounts of debris in the streets particularly in the vicinity of Nardine Street Graceville
7. The Esplanade in Yeronga – Piles of rubbish on public land that appear to have come from residences
8. Verner Road in the vicinity of Cansdale Road - large quantity of debris adjacent to unit complex
9. West End, Hill End Terrace vicinity very clean
10. Riverside Drive in the vicinity of Hocking Street - water and silt on road. Should be left until water goes down after king tides
11. Hawthorne, Bulimba looked very clean

WORK AREA UPDATES

ENVIRONMENTAL HEALTH

A preliminary Environmental Health regulated activity recovery strategy is currently with CARS management for consideration. Significant advice/support has been provided to the LDCC, CARS FOG and field teams in relation to environmental health matters. Support has been provided to Rocklea Markets via the LDCC with regard to the provision of chlorine. CARS will continue to undertake further advanced planning for environmental health issues

Hazardous Waste Disposal

- Environmental Health Officers (EHOs) to commenced preliminary assessments of 113 Flammable and Combustible Liquids operations and approximately 500 Environmentally Relevant Activities

Food Disposal

- EHOs to continue identifying Food businesses that have been inundated
- Coordinating liaison with food businesses and arranging inspections by EHOs as needed for resumption of trade
- CARS EHOs have completed preliminary assessments of the flood inundation:
 - The number of inundated food premises has increased to 162, a further 36 premises were found today
 - Numerous food businesses have been approved to reopen including many which only lost power and several which only had minor flooding
 - At this time, 35 FCL sites have been confirmed as having been partially or fully inundated by flood waters
 - At this time, 31 ERAs have been found to have been partially or fully inundated by flood waters

VOLUNTEER MOBILISATION

10 x 10 people groups with full equipment of tray back trucks, 6 trailers, 45 utes and 4 high pressure units have been confirmed to work with the RMIT teams in south (and west). These groups are available from Tuesday to Friday. These people are fully trained.

8 SES crews of 10 people have been confirmed to be deployed as well.

Back up groups are being documented so if need be the ramp up volunteer efforts once we have the work schedule and the project management arrangements it requires to be planned tomorrow

EVACUATION CENTRES

RNA – 180 registered
QEII – 159 registered

Council is working with MICHA to finalise housing these evacuees. It is anticipated that RNA operations will cease on Wednesday 19th, however a clearer picture in relation to the operations of QEII will be come available after evacuees return to the centre tonight.

Emerging issue:

There is some indication that flood victims who had found temporary accommodation with family or friends are now looking for longer term accommodation.

Recovery Centres:

Council staff are now located at all 6 recovery centres, operating from 8:30am until 5:00pm, seven days.

- **Recovery Centre 1**
RNA Auditorium
- **Recovery Centre 2**
East Brisbane
- **Recovery Centre 3**
Fairfield/Yeronga
- **Recovery Centre 4**
Corinda
- **Recovery Centre 5**
Jamboree Heights Primary School
- **Recovery Centre 6**
Indooroopilly

IMMUNISATION

Council's immunisation team will be providing services at the recover centres on a rotating basis, as per the following schedule:

08.30am –
11.30am –
02.30pm –

The Department of Health is using its mobile dental vans to provide a service as requested. There is no fixed location for this service.

Leased Community Facilities

Many leased community facilities, both building and grounds have been damaged, Council is recording requests from individual clubs for assistance and also undertaking a complete audit of all facilities. Once the facilities have been assessed, Council will work with lessees to determine the best course of action.

Clubs are being advised that, where safe to do so, they may undertake clean-up operations.

Flood Predictions

Based on BoM advice, the levels on Thursday morning high tide (10am) will be similar to Friday. The Flood Information Centre will confirm the BoM tidal predictions for city gauge for Thursday and Friday by 8am today.

BOM advice for tidal levels at Brisbane Bar:

Thursday 20/1/2011 10am: 1.38m AHD
Friday 21/1/2011 11am: 1.39m AHD

OPERATIONS AND ASSESSMENTS

RIVERWALK

Council's Customer Contact Centre received a report from a resident that part of the Riverwalk located at New Farm had broken away and was loose in the river.

LDCC notified Maritime Safety Queensland, District Disaster Centre, Queensland Police Service (including Water Police) and Gavin Blakey, A/Manager, City Assets Branch who provided advice on the structural stability of the walkway. The report is being investigated.

Gavin Blakey contacted the resident and subsequently visited the site and reported that 1 – 2 pontoons are no longer in position. LDCC provided further advice to DDC and other authority on the situation. This situation will be monitored throughout the night.

VOLUNTEER MOBILISATION

Update on volunteer operations in Oxley

Reports from the local Councillor are that 80-90% of the suburb, or around 30 affected streets, have been cleared, with over 850 volunteers participating in the clean-up.

- St Johns Ambulance crew dealt with a number of minor issues.
- A local coordination centre is working very well and is staffed by around 30-40 local residents and teachers at the school. At this stage the operation is planned to continue until Friday.
- A creche has been established at Oxley Uniting Church for local to take their kids while cleaning is occurring

One of the key tasks volunteers undertook today was to visit elderly people in their homes and remove rotting food and meat. A number of homes only received power late this afternoon.

A number of businesses donated food today and volunteers made up hampers. This was a KEY need identified today. Basic groceries preferably done up in boxes, baked beans, crackers, toilet paper etc.

Update on volunteer operations in Graceville

A Council team worked with the Graceville State Primary school today to coordinate the volunteer effort for the Graceville community clean up. Approximately 400 volunteers registered to assist and all were deployed with very little waiting.

- Volunteer numbers were originally low, but requests for assistance were placed on social media and ABC radio. Social media was probably more effective with significant number of young people arriving to assist.
- Where utes and trailers were available, volunteers could be quickly deployed.
- The 4 traffic controllers requested presented on time and these officers assisted the army to limited access to roads being cleared and create one way traffic flow for the army and Council hire trucks to clear the heavily impacted streets.

Flood Predictions

The Flood Information Centre will confirm the BoM tidal predictions for city gauge for Thursday and Friday. This update will be provided in the 1530 SitRep report.

Current BoM advice for tidal levels at Brisbane Bar:

Thursday 20/1/2011 10am: 1.38m AHD
Friday 21/1/2011 11am: 1.39m AHD

OPERATIONS AND ASSESSMENTS

RIVERWALK

District Disaster Centre (DDC) and Maritime Safety Queensland (MSQ) have been provided with the additional information received from Gavin Blakey A/Manager, City Assets Branch. MSQ have since advised that they would not be trying to locate these pontoons during night time. MSQ do not consider this issue to pose a significant risk.

The remaining sections of pontoon are high on the bank and are unlikely to dislodge from that location as the water continues to recede.

LDCC will follow up with them today on the actions they will take to find and secure the re-floated pontoons.

VOLUNTEER MOBILISATION

Update on volunteer operations in Oxley

Local Councillor requested a message be posted on Council's Twitter and Facebook pages requesting 100 – 150 volunteers. This message will be posted at 0600 18 January 2011.

Volunteers are asked to meet at Oxley State School Hall, cnr Colwel St and Oxley Rd, Oxley from 8am (till 6pm).

The local Councillor is specifically looking for volunteers with gurneys and generators.

Also required are small food hampers with non perishable goods preferably boxed. Goods to include tinned foods, toiletries, soft drink etc.

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Facsimile: [REDACTED]

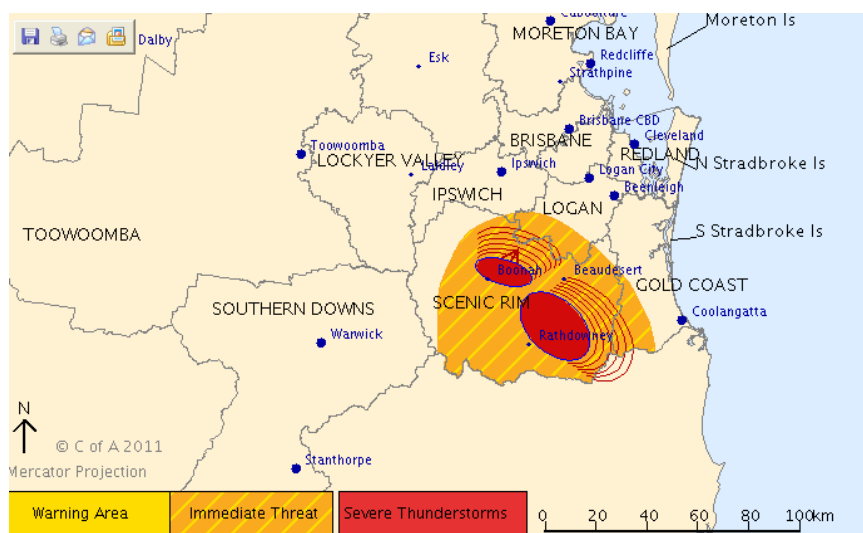

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	40
DATE:	18/01/2011	PRIORITY:	Routine
PERIOD:	0600hrs – 1530hrs		
EVENT TYPE	Flood Event		

Storm Warning

The Bureau of Meteorology warns that, at 2:00 pm, severe thunderstorms were detected on weather radar near Boonah, the area between Boonah and Beaudesert and Laravale. These thunderstorms are slow moving. They are forecast to affect the McPherson Range and the area south of Canungra by 2:30 pm and Beaudesert, Springbrook and Numinbah Valley by 3:00 pm.

Flood Predictions

SEQWater have confirmed with the FIC this morning that Somerset Dam is no longer discharging into Wivenhoe Dam. Wivenhoe Dam releases were held constant overnight at about 2,050 m³/s to assist water supply pumping at Lowood. Wivenhoe Dam will continue to discharge at 2,050 m³/s until 9:00 am this morning, when they will commence closing the flood gates, before final closure on Thursday morning 20/1/2011.

During Friday morning's king tide, water levels at the Brisbane Bar are predicted to reach 1.39m AHD. During Friday morning's king tide, water levels at the Brisbane City Gauge is expected to peak around 1.6m AHD. Today's effect of the oceanic anomaly on the tidal level is approximately less than 0.05m. The predicted impacts of the oceanic anomaly can change rapidly and its impact on Friday's king tide is currently unknown.

OPERATIONS AND ASSESSMENTS

RIVERWALK

- At 0812hrs City Assets advised the LDCC that one of the two sections of the riverwalk lodged at the Merthyr Road end had become dislodged. MSQ have been advised and are responding to the matter.

BRIDGE ASSESSMENTS

SCOUR SURVEYS

- Identified need for a scour survey of the X-River bridge piers. A suitable specification for the scour survey will be developed and LDCC will be advised of time lines and earliest investigation start date later this week.
- Request for assistance from MSQ or navy in relation to assessments to be undertaken of bridges.

PEST/MOSQUITO CONTROL

- Mosquito issues have been identified in the following areas:
 - Coastal Salt Marsh Wetlands
 - Salt Marsh Margin
 - Open Space Flooded Grassland
 - Permanent and semi-permanent ponding locations on Council controlled land
 - Private property mosquito breeding
- Fly control (household waste and waste food)
- Biting Midge
- High tide predicted for Friday (21/01/2011) is the next significant event and is expected to trigger a hatch out of salt marsh mosquitoes. A large aerial treatment maybe required. (Tides continue to exceed predicted heights)
- Monitoring/check points established at Wolton and Sandy Creeks in Wacol
- No evidence yet of mosquito breeding at these locations
- Monitoring/check points to be established prior to Friday 21 January 2011 at Oxley, Corinda, Rocklea, Fig Tree Pocket, Westlake, Riverhills, Mt Ommaney, Bellbowrie
- These locations still restricted by access (WH&S) and the ongoing clean up
- All bulk bins for food waste collection to receive first fly control treatment by 9am 18 January 2011, more than 170 bins at 65 locations
- Daily treatment to continue as required
- Aerial mosquito contractor on standby to treat floodwater in the South West suburbs as early as Thursday 20 January. Area estimated at 300 ha - landing zone to be established at Wacol.

VACCINATIONS

- **Recovery Centre Clinics**
ADT (tetanus vaccinations) will be offered at six recovery centres for the remainder of this week commencing today (Tuesday 18th). The Recovery Centres have been established at:
 - RNA Showgrounds
 - St Mary's Anglican Church, 455 Main St, Kangaroo Point
 - St Aidan's School, Corinda
 - Indooroopilly Catholic Church, Fairley St (entrance via Ward St)
 - Yeronga Primary School, Park Rd, Yeronga
 - Jamboree Heights State School, Beanland St, Jamboree Heights

WORK AREA UPDATES

FORWARD PLANNING

- Forward planning stakeholder meeting. Expected evacuation centre closures by Thursday 20 January 2011
- Continuing to manage major corporation donation commitments.
- Insurance taskforce established to assist with recovery effort coordination.
- CSA provided earlier today to seek out group volunteering. The contact centre is collating the information and we are creating a register of interest. Group volunteer register recorded 37 registrations.
- *Volunteer update*
 - Deployed over 100 volunteers (10/10people) with equipment to the RMIT managers – focus on kerbside clearing. This crew will be working the rest of the week.
 - Today's target is to provide a further 100 volunteers with equipment to deploy with RMIT.
 - Plan drafted to pilot the concept of "Adopt a Community Asset" in conjunction with Ward Councillors. This is to assist with the clean up of council community assets and leased sites affected.

ADF

- Currently Army has 800 soldiers operating mostly south of the Brisbane River. They are operating in the following sectors:
 - Sector A (Chelmer and Graceville)
 - Sector C (Oxley)
 - Sector R (Indooroopilly and St Lucia)
 - Sector S (Kenmore and Figtree Pocket)
 - Sector G (Durack and Willawong)
 - Sector I (Yeronga)
 - Sector H (Rocklea) - Recon only for second and third pass collection
 - Sector B (Corinda and Sherwood)
- ADF have confirmed first pass for the following sectors:
 - Sector C (Oxley)
 - Sector S (Kenmore and Figtree Pocket)
 - Sector G (Durack and Willawong)
 - Sector I (Yeronga)
 - Sector H (Rocklea)
 - Sector Q (Towong, Paddington and Milton)
 - Sector T (Moggill and Bellbowrie)
 - Sector J (West End, South Bank, Hillgate Hill and Dutton Park)
 - Sector E (West Lake and Mount Ommaney)
- ADF will achieve first pass in the next 24hrs in the following sectors:
 - Sector R (St Lucia)
 - Sector A (Graceville/Chelmer)
 - Sector B (Corinda/Sherwood) (24-48 hours)
- BCC controlled sectors requiring no ADF effort include:
 - Sector F
 - Sector D
 - Sector K
 - Sector O
 - Sector P
 - Sector L
 - Sector M
 - Sector N
- An aerial recon including hand held digital photography has been scheduled for this afternoon and daily this week. A request for assistance has been lodged with DDC for an ADF fixed wing photo run this afternoon.

EDUCATION OF GULLIES

- North, East and Central sectors have had the first run of gullies completed
- West will have first pass of worst affected sectors
- South education will be undertaken at a slower rate due to worst affected suburbs targeted in first pass
- All major outlets will be checked and cleared

RAPID ASSESSMENTS

- 5646 rapid damage assessments completed by BCC
- 3702 rapid damage assessments completed by QFRS
- Completing data validation check for geo-coding spatial purposes
- Created database for Streetscape Assessments (Street assessment for recovery)
- Prioritising affected streets for the Streetscape assessment

ROAD SURFACES (ALL SECTORS)	
Work area	All areas, mainly on yellow roads and as requested from LAS 2 Crews Paradise Rd Larapinta, with Grader Crew
Work Type	Potholes and re-sheeting areas damaged by floods. Priority One requests and damaged founds on main roads
	2 crews patrolling and patching Paradise Rd Larapinta 2 crews patrolling Progress Rd Wacol
	5 crews in south and west regions. 2 Crews North and East regions 9 PR01's rung through by LAS
	2 PR01's for LAS North – Boondall & Bridgeman Downs 4 PR01's for LAS East – Hemmant, Tingalpa, Wynnum 3 PR01's for LAS South – Forest Lake, Wacol
	Approx 550 p/holes 110m2 road sheeting crews on duty until approx 5pm.
DAY - BCC WORKFORCE	
Staff	14 x Crew Members, 2 x Supervisors with arrow board utes for traffic control.
BCW Fleet/Plant	5 Flocons
External Fleet/Plant	Hire Flocons H3 , H2
Material	40 ton t170 10mm a/c
ROAD CLEANSING SUMMARY	
Summary	14 Loads of debris removed, 120.5km's Swept
Work area	Westlakes, Jindalee, Mt Ommaney, Chelmer, Oxley, St Lucia, New Farm, West End, Fairfield, Bellbowrie, Burbank, Graceville, Sherwood, New farm, Indropilly, Toowong.
Work Type	Remove Sandbags, Clean Roads, Sweep Roads, Clear Debris
DAY & NIGHT - BCC WORKFORCE	
Staff	61
BCW Fleet/Plant	11 x Road Sweepers, 15 x 22 Class Trucks, 1 x Work Ute
External Fleet/Plant	4 X SRS Sweepers

BCW REGIONAL SUMMARY

NORTH

Summary	700m ³ Removed, 12 tasks completed. Sectors O and N have been cleaned.
Work area	Kedron Brook Bikeway, Stafford Depot, Albion Depot, Albion, Newstead, Chermshire, Darra, Stafford, Herston, Nudgee Beach, Nudgee, Wavell Heights, Sumner Park
Work Type	Clean Debris / Rubbish Removal, Fuel Distribution, Rubbish Stock Pile Management, Clean Gullies, Footpath Clean, Remove Sandbags, Clean Roads, Remove Rotting Food Products
NORTH DAY - BCC WORKFORCE	
Staff	38
BCW Fleet/Plant	4 x Flexi-tool pumps, 5 x Flexi-tool motors, 7 x Class 22 Tippers, 2 x Backhoe, 3 x Trailers, 5 x Utes, 1 x Generator, 4 x Chainsaws, 1 Bobcat
External Fleet/Plant	5 x 4T Tippers, 6 x Combo, 5 x Class 22 Trucks, 14 x Tandem Tippers, 2x Backhoe, 10 Traffic Controllers, 5 Traffic Control Vehicles, 5 x Tandem and Dog Trailers, 1 x 8t Tippers, 1 Excavator
Material	12t MRD2.1(Imported). Rubbish 1235m. Rotten Food Products 360m ³ .
SOUTH	
Summary	5,075 m ³ removed, 13 tasks completed Sectors F and H still in progress. Three other areas will be in South Sectors by Friday 20 th .
Work area	Darra, Sumner Park, Rocklea
Work Type	Kerbside Waste Clean-up, Removal of Seafood & food products,
SOUTH DAY - BCC WORKFORCE	
Staff	132
BCW Fleet/Plant	18 Excavators, 19 B/Cat, 10 B/Hoe, 108 Trucks.
External Fleet/Plant	Nil
Material	Nil
EAST (SECTORS L, M, K)	
Summary	111m ³ Removed, 13 Tasks Completed. All Sectors have had 2 passes and are clean. Occasional items are being placed on footpath.
Work area	Bulimba, Hwthrone, Hemmant, Rocklea, West End, Albion, Somner and Oxley
Work Type	Clean Debris / Rubbish Removal, Rubbish Stock Pile Management, Clean Gullies, Remove Sandbags, Clean Roads
EAST DAY - BCC WORKFORCE	
Staff	101
BCW Fleet/Plant	3 Back Hoes, 17 2 Tonne Site Vehicle
External Fleet/Plant	2 Combos, 10 Tandems, 4 Backhoes, 7 Bobcats, 4 Water Trucks, 1 Vac and Truck and 5 Traffic controllers and 3 Utes
Material	Nil
WEST SUMMARY	
Summary	13,650m ³ Removed, 18 tasks completed. Sectors R, S, T and Q completed 2nd run.
Work area	Mt Ommaney, Milton, Toowong, Indooroopilly, Auchenflower
Work Type	Removal of Household rubbish & silt, cleaning roads & rubbish, road and footpath cleaning, debris clearing
WEST DAY - BCC WORKFORCE	
Staff	68
BCW Fleet/Plant	91 x Trucks, 6 x Water Carts, 40 x Loading, 9 x Water Truck, 2 x Sweepers, 1 x Vac Truck
External Fleet/Plant	23 Traffic Control
Material	Nil
CENTRAL SUMMARY	
Summary	344 m ³ Removed, 8 tasks completed. Sectors K and J completed .1st run completed.
Work area	Milton, West End, Hamilton
Work Type	Clean Debris / Rubbish Removal

	Clean Roads
DAY - BCC WORKFORCE	
Staff	19
BCW Fleet/Plant	11 x Class 22, 2 x Ute, 1 x Class 17
External Fleet/Plant	21 x Tandems, 4 x Bob Cats, 6 x Excavators, 8 x Traffic Controllers with Utes, 2 x Vacuum Trucks, 2 x Road Sweepers
BCW TOTAL SUMMARY	
Staff	435
Volunteers	119
Volunteer Business	Logan City Council, Redlands City Council, ABI Group, Main Construction
m³ Removed	20,977
Loads of Waste Removal	119
Potholes Completed	550
m² of Road Repair	110m ²
KM's Swept	120.5

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	41
DATE:	18/01/2011	PRIORITY:	Routine
PERIOD:	1530 – 22000 hrs		
EVENT TYPE	Flood Event		

Predicted peak flood as advised by the BoM is 1.52 m AHD at the Brisbane City Gauge on Wednesday 19/1/2011. The total number of flood affected properties is currently estimated at:

- Approximately 2,982 (1,457 residential) of which:
 - 2,929 are partially flooded (1,457 residential) and
 - 53 are still completely flooded (0 residential).

The number of residential properties that would still be flooded at 08:00 hrs 19/01/2011 will be confirmed by Rapid Response Group. The total number of properties recovered since the peak of 4.5mAHD is estimated at 30,036 (24,506 residential properties). This is an increase of 1,513 properties (1,034 residential) from the previous Flood Information Centre Recovery Report. (Detail in Annex B)

OPERATIONS AND ASSESSMENTS

The SES received over 50 jobs this afternoon in relation to the storm. Job types include trees on homes, trees across roads, powerlines down and homes without power. Suburbs most affected were around Forest Lake and Inala. Crews have been dispatched tonight to undertake repairs. There were multiple calls in many streets including Wau St and Kokoda St which have been completed now. Duty Officer has reported SES will not be able to complete all jobs tonight but will have crews dispatched early tomorrow morning to complete any outstanding jobs. Some requests are still tricking in.

Disaster Management Operations Centre have been stood down for the night, all flood related tasking is to be referred to the Rapid Response Group Officers.

WORK AREA UPDATES

OPERATIONS

Earlier today a request was made to discharge 250m3 sludge of mud into the Brisbane River from the corner of Montague and Kurilpa Street of West End. Authority to discharge into the Brisbane River is the jurisdiction

of the Dept of Environment and Resource Management. DERM have advised that it is an offence to discharge this into the river.

EVACUATION AND RECOVERY CENTRES

- The RNA evacuation centre will close 5pm Wed Jan 19. A media release has been drafted and sent to LMO who have advised they will release tomorrow 19 Jan.
- The Department of Communities recovery centre at RNA will continue to assist residents.
- The QEII evacuation centre has 30 people remaining and will remain open.

SITREP

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	42
DATE:	19/01/2011	PRIORITY:	Routine
PERIOD:	2200 – 0200 hrs		
EVENT TYPE	Flood Event		

The Prime Minister will be visiting the JTF HQ located at Enoggera Barracks at 1000 hrs as part of her visit to the city. The Prime Minister will then move via two Sea King helicopters to Chelmer to visit the soldiers involved in the clean up effort.

SEQ Water has indicated that they will commence the closedown sequence of Wivenhoe prior to closing the flood gates on Thursday. They have requested information on the impacts this may have on the stability of Coronation Drive. The LDCC has asked Geo Tech to provide this information to the LDCC also.

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	44
DATE:	19/01/2011	PRIORITY:	Routine
PERIOD:	0600 – 1530 hrs		
EVENT TYPE	Flood Event		

Flood Effects

Flood Information Centre reports at 9.00 AM Wednesday - 19/01/2011 that the observed water level at the Brisbane City Gauge was 1.40m AHD and rising at 7.32 AM Wednesday 19/01/2011. High tide is at about 9.30 AM on Wednesday 19/01/2011 and expected to peak at around 1.65 m AHD.

SEQWater confirmed with the Flood Information Centre at 06:00 this morning that the radial gate close down sequence for Wivenhoe Dam recommenced at 21:45 last night (18/01/2011) and all gates will be closed by 1600 today (19/01/2011). Releases will continue through the regulator cone valve and possibly the Mini-Hydro to account for on-going base-flow once the radial gates are closed.

Wivenhoe Dam release flows are expected to be through the Brisbane River at the Brisbane City Gauge by 1800 Thursday 20/01/2011.

During Friday morning's king tide, water levels at the Brisbane City Gauge are expected to peak around 1.6 m AHD.

Today's effect of the oceanic anomaly on the tidal level is approximately less than 0.05m. The predicted impacts of the oceanic anomaly can change rapidly and its impact on Friday's king tide is currently unknown.

OPERATIONS AND ASSESSMENTS

Sandgate Foreshore

Council's crews continue to undertake clean up operations along the Sandgate Foreshore. Each new tide brings with it considerable debris from the bay. Current resources include:

- 2 excavators
- 1 pozi-track
- 1 bobcat
- 2 tandem trucks
- 10 Council workers
- Local volunteers assisting in sorting the debris.

Unexploded Munitions

Strickland Terrace and Long Street East, in Graceville is currently closed to all traffic by the Army and Police cordoned off. Members of the Army are looking for a possible hand grenade that was reported to be in dumped Rubbish.

Rocklea Area- Affected food businesses

A number of food businesses in the Rocklea area still have large volumes of food stored. Reports are that is food is rotting and needs to be disposed of as soon as possible. Resources are being deployed as a priority to have the food removed and intelligence is being gathered as to the potential food businesses that are affected. Information obtained so far has indicated breathing apparatus will be necessary for crew members as the stench is reportedly overwhelming. Properties within the following streets have been brought to Council's attention:

- All of Shoebury St, Rocklea;
Works are currently being undertaken on the whole street with trucks, tractors in current operation. Some premises were observed to have most of their rubbish already cleared. About 50 cubic metres of rubbish remain to be on the street.
 - 1 Shoebury - [REDACTED] - kebab meats and products - small amount in unsafe coldroom structure and footpath.
 - 5 Shoebury - [REDACTED] - meat, fruit and vege - very large amount in safe and unsafe structures, meat/extraneous on street.
 - 7 Shoebury - [REDACTED] - dairy and juice - moderate amount on footpath.
- 40 Suscatand Street, Rocklea ([REDACTED]) ;
 - Allegedly 100 tons of seafood are still stored inside a cold room (power not available yet) in a shed that cannot be accessed because of structural safety and breathing apparatus required.
 - The site is now unattended. Further visit needs to be made with an appointment with the business owner.
- 19 Macbarry Street, Rocklea (the address may have been mistaken with the one at 23 MacBerry Street);
 - The name of the place is [REDACTED]
 - It had 600t of both affected meat and fish. Council has helped them with removing the bulk of it.
 - Now about 25 tonnes of food are left because the forklift could not reach level four of the shelves. The special forklift had been under water and cannot be used now
- Spine Street, Sumner
 - No food premises or accumulation of food waste observed in the street
 - There is a warehouse storing Asian food at 23 Bullockhead Street. The name is also T&D Trading. Only small amount of meat, seafood and rice remained inside the property on the top shelf where it has to be reached by a forklift. The forklift's battery has gone flat and there was no power
 - Over a hundred bags of rice (@25kg) were on footpath
 - cleaning operation in progress

For those buildings that appear to have been structurally affected, Council will need to undertake a structural assessment before clean up crews can enter.

It is anticipated that operations will be required on a 24 hour basis until removal of all food items is complete.

MSQ Bridge Inspections

Maritime Services have advised that the LDCC and advised that inspections of the bridge pillons by divers would be commencing shortly, beginning with the Gateway bridges and then working upstream.

EMERGING ISSUES

Health issues

- Ponding of stagnant water on land that may or may not contain sewage. Queensland Health has fact sheets available providing information on the potential risks involving receding flood waters. Council's website will provide links to these fact sheets.
- Food businesses – An increasing number of food business are wanting to wash and sanitise sealed foods that have been submerged. There is no guarantee of the integrity of the food packaging, as such Environmental Health Officers are advising the food businesses to dispose of the food. As the businesses are being reported, Environmental Health Officers are being deployed to investigate and provide advice.

Mosquito and Pest Services

Issues:

Coastal Salt Marsh Wetlands and Salt Marsh Margin (Freshwater inundation adjacent salt marsh wetlands) – mosquitoes

- Small hatch out of salt marsh mosquitoes at south side monitoring points

Open Space Flooded Grassland – mosquitoes

- Monitoring/check points **established** at Wolton and Sandy Creeks in Wacol and now at Neata St Corinda - No evidence yet of mosquito breeding at these locations
- Monitoring/check points **still to be established** at Oxley, Rocklea, Fig Tree Pocket, Westlake, Riverhills, Mt Ommaney, Bellbowrie
- 300 ha of land adjoining Oxley Creek (17 properties) under flood water to be treated by air on Thursday 20 January (subject to weather conditions)

3000 permanent and semi-permanent ponding locations on Council controlled land – mosquitoes

- 3000 locations divided into 10 truck runs
- Routine operations - continuing daily

Private property mosquito breeding

- Starting preparing *Mozzie Control in Brisbane* ads for community newspapers.
- Advertisements directed at residents to take effective measures against mosquito breeding on private property

Fly Control (Household waste and waste food)

- Second of the daily treatment of all food waste bins completed

Today's pest control activity will include:

- Monitoring north side and south side salt marsh and salt marsh margin for *Aedes vigilax*, Brisbane's summer pest mosquito
- Monitoring flood water check points in south west suburbs
- Establishing more monitoring points at flood water localities
- Finalising arrangements with aerial contractor for treatment of flood water on Thursday
- Continuing fly control on bulk bins
- Monitoring and treating the permanent and semi permanent water ponding on Council controlled land

Upcoming issues:

- Planning for aerial treatment of salt marsh wetlands and salt marsh margins. Possible treatment of approx 2 000 ha on weekend or early next week.

ITEM	COMMENTS
Properties/Buildings	<p><u>Fairfield Library</u> The Fairfield Library was affected by the recent floods, with nearly a metre of water through the library. In anticipation of likely inundation of Fairfield Library, the stock, IT equipment and most of the furniture was quickly removed. There has been considerable damage to the fixtures, fittings, joinery and linings in the library, which will take some time to restore and replace.</p> <p>At a tenants' meeting at Fairfield Gardens Shopping Centre on Tuesday 18/1/11, a representative for Retail First (centre owners) advised that:</p> <ul style="list-style-type: none"> - they were committed to getting the centre trading as soon as possible - there is considerable work required to restore the centre - works will be done by centre management to the external walls and that this work would not be completed for approximately 5 weeks. The library is positioned in a corner of the shopping centre so is directly impacted by the work required to the external walls. - Council will then need to refit the library and reinstate the stored stock and equipment. <p>An early estimate is that the Fairfield Library will be closed at least 3-4 months – potentially longer for the sourcing of some materials such as carpet.</p>

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	45
DATE:	19/01/2011	PRIORITY:	Routine
PERIOD:	1530 - 2200 hrs		
EVENT TYPE	Flood Event		

Flood Effects

All gates were closed at Wivenhoe at 12:00 Wednesday, with the dam level at 66.89m AHD at 13:00. Following fish recovery and inspections, minor ongoing releases will be made through the centre gate to account for ongoing small inflows. It is intended to drain down to 95%, approximately 66.5 m AHD. Wivenhoe Dam peaked at 74.97 m AHD at 19:00 on Tuesday 11 January 2011 with a corresponding discharge of 7450 m³/s. The combined flood event volume in Somerset and Wivenhoe Dams is estimated to be in excess of 2.6 million mega litres.

Friday, 11:00am is predicted to be 1.66m AHD at the City Gauge. The Flood Information Centre is expecting similar levels for Thursday 10:00am and Saturday 11:30am. The tidal level will gradually decrease from Saturday onwards as the tide gradually decreases.

Based on the above forecast totally flooded properties are as follows:

- no residential properties
- 23 commercial properties
- 34 other

Partially flooded properties:

- 1696 residential properties
- 884 commercial properties
- 720 other

Tidal impacts

The tidal level on Friday at the City Gauge can be described as a highest astronomical tide (HAT). These tide events typically occur twice a year. With regard to comparisons to the tidal events prior to Christmas, the tide levels forecast to occur on Friday at the City Gauge are anticipated to be slightly lower as the oceanic anomaly is not as large based on current advice from the BoM.

The suburbs of Wynnum, Lota and Sandgate were not flooded during the Brisbane River flood last week, however they will be impacted by the high tides on Thursday, Friday and Saturday. The level of inundation

expected can be classified as minor localised flooding that typically occurs with king tides and should not be compared with the river flooding impacts that occurred last week.

OPERATIONS AND ASSESSMENTS

Aerial Assessments

Two Council officers and a volunteer photographer conducted an aerial assessment on Wednesday 19 January 2011 between 12 and 2pm. The flight path joined the Brisbane River downstream of the Sir Leo Hielscher Bridges and continued upstream along the river at height of approx 400ft. Areas of focus were the suburbs Fairfield/Yeronga, Chelmer/Graceville, Seventeen Mile Rocks, Jindalee, Westlake, Oxley and Rocklea. The aerial assessment concluded with an assessment of the floating River walk at Nudgee Beach.

All areas inspected (Sectors A, B, D, E, I, N, R and S) appeared to have work done or have at least one rubbish removal pass complete. All sectors were generally clean with little to no kerbside garbage present. Council and private trucks and machinery were observed working at the holding points of waste particularly in the suburbs of Tennyson, Graceville, Chelmer, Oxley and Rocklea (Sectors A,B,C,F and I).

Some specific observations include;

- Seventeen Mile Rocks and Jindalee generally clean
- There are pockets of waste at various locations along Oxley Creek in Oxley and Rocklea
- Waste seems to have been pushed into Oxley creek at 2141 Ipswich Road. This issue is being investigated.

Volunteering

Group Volunteers Register

- 77 groups had registered by 5.30pm today

Media opportunities

- Channel 7 plan to attend site at Graceville State School as volunteers continue to be deployed from there.

Kerbside Clean-Up - Group Volunteers working with RMIT and strike crews

- additional volunteer crews have been deployed to the RMIT and strike crews
- A list of resident requests for service has been given to RMIT teams so they can be informed on deployment of volunteers etc.
- 30 staff from Sunshine Coast with a tip trip are reporting to Graceville SS tomorrow they are also available for Friday and possibly next week.
- 30 Rio Tinto staff are reporting to Graceville SS and are available for Friday and possibly next week
- 100 Bio security staff from DEEDI
- 12 church group deployed to Graceville SS

Launch of the 'Adopt a Community Assets' project

- Toowong Pilot completed,
- City Property informed the planning group this afternoon that most of the community assets affected by flooding appear to have been cleared of debris and rubbish. They now require professional inspections and quotations on works.
- Options for expanding this is not determined

Trade Volunteering

- Project manager put in place to manage trade volunteering.
- LMO database and Volunteering Qld database are being used as a basis for creating the register, approx. 2,400 from VQ and 320 from LMO. 240 Calls have been made to seek extra information and current availability.

- 15 requests have been received from Contact Centre for assistance and 13 have been contacted.
- Volunteers with machinery will assist residents who have not received assistance.

Flood Newsletter Distribution - use of volunteers

- Letters will be distributed across the flood affected areas by volunteers coordinated by council liaison staff on Thursday.
- Central locations in each of the twenty sectors have been determined for volunteers to meet and receive the brochures and information about where to distribute them.
- Finalising staff, volunteer numbers and location data overnight for morning briefing.

Unexploded Munitions

The Army and Police closed Strickland Terrace and Long Street East, Graceville on the 19th January following a report that a possible hand grenade had been sited in dumped rubbish. Police and Army had removed a grenade by 1600 hrs. Whilst Army and Police personnel will continue to keep streets closed for cleansing purposes, LAS staff are permitted to enter to continue with flood recovery efforts.

Rocklea Area- Affected food businesses

A number of food businesses in the Rocklea area still have large volumes of food stored. Reports are that the food is rotting and needs to be disposed of as soon as possible. Previous advice indicated that the cleanup was going to continue over night. This is not the case. The works will cease tonight and recommence at 6.00 am.

MSQ Bridge Inspections

Navy divers are beginning inspections of the bridges starting with the Gateway and moving up stream. Due to the difficult conditions and poor visibility, it may be several weeks before a thorough inspection can be completed. At this stage divers are undertaking the best physical inspection that can be achieved in the conditions. Further information will be provided as it becomes available.

City Cycle

As of 1615 hrs 59 stations operational and 11 stations are non-operational. This represents over 84% of the network now operational. One of the QUT stations now operational and the other QUT station is still awaiting an ENERGEX connection. Station 82 at Brunswick St and Merthyr Road has been identified as "Major Repair" and therefore there may be some delay in getting this station operational again.

Evacuation Centres

There are no more animals at ANZ and no new admissions are expected.

EMERGING ISSUES

Mosquito and Pest Services

Flood water along Oxley Creek in the suburbs of Rocklea, Corinda and Oxley will be treated tomorrow, Thursday 20 January 2011, for mosquito control. The treatment area is approximately 300 ha.

Oil Scum on Brisbane River

For the last several hours there has been an apparent oil scum on the river city reach under Victoria Bridge viewable from level 23 Bne Sq. Maritime Safety QLD (MSQ) have been contacted and they will be surveying the site tomorrow.

Vision Site

A member of the public has contacted Council concerned about the stability of the area surrounding the Vision Construction site. Geotechnical Services and CARS staff are monitoring the site over the next few days; checking ground and building movement in the surrounding area.

FLOOD UPDATE

The Bureau of Meteorology, Brisbane issued a flood warning at 0106 hrs Thursday the 20th of January 2011.

Widespread rainfall totals of between 30mm to 80mm have been recorded with the thunderstorms during Wednesday afternoon and early evening. Fast stream rises are being recorded during Wednesday evening along Lockyer and Warrill Creeks and the Bremer River.

Major flooding is occurring in Laidley Creek, with minor to moderate flooding expected downstream along Lockyer Creek overnight. Minor flood levels are easing in Western Creek at Grandchester. Major flooding is occurring in the Bremer River at Spresters Bridge, with moderate flooding expected downstream between Rosewood and Walloon. Creek rises and minor flooding is expected overnight in Warrill Creek at Amberley. River levels further downstream in the Bremer River at Ipswich will remain well below minor flood level.

Stream rises and some minor flooding are also being recorded in some of the Ipswich and Brisbane Creeks, including Oxley, Woogaroo, Stable Swamp and Deebing Creeks, and in Cabbage Tree and Downfall Creeks and Kedron Brook.

Streams levels are expected to slowly ease overnight.

Following the earlier storm, a number of areas experienced local flooding. RRG are patrolling affected areas and responding to any issues that they find.

The Bureau of Meteorology, Brisbane cancelled severe thunderstorm warnings across QLD at 0010 hrs.

OPERATIONS AND ASSESSMENTS

QFRS have supplied information indicating that there is no significant increase in incidents associated with structural fires attended by officers in the Brisbane region since the flood event.

Flood Affects

High Tide occurred at 10:25 AM on Thursday 20/01/2011 at the Brisbane City Gauge. The recorded high tide level at the Brisbane City Gauge was 1.55 mAHD. The oceanic anomaly was zero.

High Tide forecast for Friday 21/01/2011 will be at about 11:15am at the Brisbane City Gauge. The predicted high tide level at the Brisbane City Gauge is 1.70 mAHD.

High Tide forecast for Saturday 22/01/2011 will be at about 11:30am at the Brisbane City Gauge. The predicted high tide level at the Brisbane City Gauge is 1.70 mAHD..

OPERATIONS AND ASSESSMENTS

Mobile Vaccination Clinics

Brisbane City Council in partnership with Queensland Health has vaccinated approximately 2500 Brisbane volunteers and residents since Saturday 15 January (this does not as yet include those vaccinated at the 3 Queensland Health mobile clinic/vans).

Recovery Centre Clinics (commenced on Tuesday 18th January)

Brisbane City Council has negotiated with Queensland Health to offer ADT (tetanus vaccinations) across Brisbane's six recovery centres for the remainder of this week and commenced on Tuesday 18th.

Clinics were conducted on Wednesday (19th) at:

Indooroopilly Catholic Church, Fairley St (entrance via Ward St) - 94 vaccinations
Jamboree Heights State School, Beanland St, Jamboree Heights - 146 vaccinations
St Aidan's School, Corinda - 89 vaccinations

TOTAL: 329 ADT Vaccinations

Today, (Thursday 20 January) clinics will be conducted at

8.30am - 10.00am - **Yeronga Primary School**, Park Rd, Yeronga
11.30am- 1.00pm - **St Mary's Anglican Church**, 455 Main St, Kangaroo Point
2.30pm - 4.00pm - **RNA Showgrounds**

Brisbane City Council is currently delivering these clinics at the recovery centres on a rotating schedule. Each location will be visited twice this week. Each clinic will be staffed with 3-4 nurse immunisers and a program support team member. They will operate for 1.5 hours for each clinic and will have the capacity to vaccinate up to 200 during each session.

Infant Clinic Vaccinations (progressing)

Brisbane City Council offers ADT (tetanus vaccinations) across Brisbane at Council's existing Free Infant Clinics for the remainder of this week from Monday 17th. Discussions have been carried out with Queensland Health regarding the continuation of offering ADT (tetanus vaccine) at Council's Infant Clinics. At this stage, ADT will continue to be offered at Infant Clinics next week until Thursday 27th January. These will be available free of charge for the following groups:

- those who missed the opportunity at the volunteer assembly centres
- residents whom were affected by the floods
- informal / unregistered volunteers helping out in their local neighbourhood or family/friends
- emergency workers.

On Wednesday 19th January, Council offered free tetanus vaccinations as part of it's free immunisation clinics located at Carindale and Chermside.

Sandgate Clinic - 9 vaccinations

Paddington Clinic - 6 vaccinations

Indooroopilly Clinic - 3 vaccinations

Mt Gravatt Clinic - 8 vaccinations

TOTAL: 26 ADT Vaccinations

Mobile Neighbourhood Vaccination Vans

Queensland Health have set up three mobile dental vans as vaccination clinics in affected areas. This will be rolled out across Brisbane at specific neighbourhood locations. Queensland Health will be the lead agency. Hours of operation will be 8.30am-12.30pm and 1.00pm-4.15pm (unless extended due to excessive demand). All three vans will move to new locations on Thursday.

Although not in Brisbane, I have included the Goodna location for residents whom may wish to access the van in the Western corridor. Clinics were conducted on Wednesday (19th) at:

Rocklea - Cnr Short St and Salisbury St - 110 vaccinations

Fairfield - Cnr Newcastle St and Ashby St - 94 vaccinations

Goodna - Cnr Woogaroo St and Layard St - 80 vaccinations

TOTAL : 284 ADT Vaccinations

Please be advised that the three mobile vaccination clinic/vans will be operating from the following locations today, Thursday 20th January:

- **Goodna**: Diggers Rest Park, Cnr of Queens St and Church St, Goodna
- **Fairfield**: Our Lady of Succour Church, Cnr of Victoria and Home Sts
- **Graceville**: Cnr of Graceville avenue and Luke Street.

Mosquito and Pest Services

Aerial treatment of wetland scheduled for Saturday afternoon after receding tide, this treatment may extend into Sunday. Arrangements have been finalised for aerial treatment of 300ha of land adjoining Oxley Creek (17 properties) under floodwater.

Ground Mosquito Control Program

- 3000 locations divided into 10 truck runs
- Routine operations - continuing daily

Fly Control

- Third of the daily treatment of all food waste bins completed

Today's activity will include:

- Monitoring north side and south side salt marsh and salt marsh margin for *Aedes vigilax*, Brisbane's summer pest mosquito
- Monitoring flood water check points in south west suburbs
- Establishing more monitoring points at flood water localities
- Aerial treatment of 300 ha (approx) floodwater along Oxley Creek. Landing zone for helicopter established at Bert St Clair Park at Graceville
- Continuing fly control on bulk bins
- Monitoring and treating the permanent and semi permanent water ponding on Council controlled land

Recovery Centres

- RNA Recovery Centre - 133 came through
- East Brisbane Recovery Centre - 96 came through
- Fairfield/Yeronga Recovery Centre – 357 came through, down again from the prior two days.
- Corinda Recovery Centre - approximately 200 plus people went through the centre
- Jamboree Heights Recovery Centre - 847 people were assisted
- Indooroopilly Recovery Centre - 94 vaccinations were administered for Tetanus & Adult Diphtheria
- Wacol Recovery Centre - 67 people came through, with fewer expected again today
 - centre will be closing by 5:00pm today; likely that it will be based at the Max Employment Centre in Goodna (to be confirmed by Department of Communities Recovery Centre)

Evacuation Centres

MICHA and MDA received funding from the Department of Communities yesterday to assist in finding accommodation for clients at both RNA and QEII.

- RNA - closed

- QEII - 43 people overnight – 10 people currently registered
 - expecting to close the centre by Friday 20th at noon, once all people are housed elsewhere.

Flood Recovery Fact Sheets

Earlier today 14 Council staff, assisted by 70 volunteers, dropped off fact sheets to flood effected properties across 14 sectors. Volunteers for the remaining 6 sectors could not be sourced. A further 20 Council staff undertook letter drops in these sectors.

- Total volume letters distributed = 9000
- A letter drop and poster distribution has been organised for Saturday.
- All volunteers will be registered and will have a safety induction.

There may be a need for a drop next Wednesday 26 January 2011.

Transport	<p><u>Traffic Signals Status</u> Working – 891 Temporary Power via generator- 4 Working, - No Comms - 2 Awaiting Power - 11 Cleaned - 145 Replaced Controller – 7</p> <p>Blunder and Boundary intersection was completed last night, changing the controller and lanterns by BCW with assistance from Roadtek.</p> <p>Cordelia & Russell controller change was completed by J.P. Richardson yesterday and is currently operational</p> <p>Merivale & Russell controller change was completed by CB Energy, with BCW standby being required to get the signals running.</p> <p>Baroona, Fernberg and Haig required controller to be finalised from last night, this work was scheduled for completion last night.</p> <p>Rocklea Markets intersections both have further lanterns that require replacing. Sovereign is scheduled to finish the western intersection by COB today. BCW were scheduled for the main Rocklea markets entrance tonight; however the rain overnight prevented this work. The large amounts of mud around the intersection makes it unsafe to walk around with ladders as staff are exposed to increased risks of slips and falls. It is for these reasons that the team leader has made a call to move to the Fairfield and Ashby intersection to make a start on the controller change under the gazebo.</p>

Supply Problems (Food, clothing, etc)	Nil to report		
Equipment (Sandbags, lighting, etc)	<u>Sandbags</u> There are sandbags in stock and available to residents at all depots (except Stafford). We have approximately 75,000 Sandbags in stock at Albion. Sandbag disposal signs shall be erected at all depots today 20/01/11, advising residents of sandbag disposal instructions.		
Labour (Volunteers, contractors, etc)	Community Services Branch will coordinate the group volunteers. These are to be groups of 10+. <ul style="list-style-type: none"> Community Services will place 2x support staff to assist with volunteer 		

ITEM	COMMENTS
	<p>groups in each REGIONAL Business CENTRE that requires assistance (at this stage SOUTH and WEST).</p> <ul style="list-style-type: none"> • 1 role will be Volunteer Liaison who will manage the registration and WHS Induction /Briefing of groups of volunteers. • 1 role will be Operations Liaison, who will coordinate/liaise with RIMT teams re: locations, skill matching groups with needs, and task allocation and directives. - Works Briefing. <p>The regions will remain in sectors and each volunteer group allocated area/s per sector. This will enable accurate capture of works completed as well.</p> <p>The following response and information needs to be provided to those who still present at Council centres wishing to volunteer:</p> <p><u>For Groups:</u> We are seeking people to register to volunteer as a group of 10 or more. This can be done through Council's Customer Contact Centre on 3403 8888. There is now groups register for volunteers that can be accessed through the contact centre. Please ensure your group is self sufficient and can supply their own food, drink, personal protective equipment and tools.</p> <p><u>In the instance that groups continue to arrive at Regional Business Centres:</u> In the case that you are able to link the group to a request or need of assistance that the group can provide at the time they attend the centre, please deploy or direct them to the area in need. It is our preference that the group registers through the abovementioned process however, they can then be appropriately matched to a request for assistance within the next few days.</p> <p><u>In the case of individuals attending and offering to volunteer:</u> Council is unable at this time to coordinate individuals at locations to assist, due to safety risks. (people near heavy machinery). If you do wish to assist, you are encouraged to contact your friends and family who may have been affected and offer your assistance to them, or contact your own local community group and offer to join their group efforts.</p>
Media Issues	<p><u>Community Service Announcements released:</u></p> <ul style="list-style-type: none"> • Streets in Albion closed due to flooding • Council venues operating again <p><u>Fact sheets approved:</u></p> <ul style="list-style-type: none"> • Drying out flood affected items • Cleaning up your premises • Volunteer info for registered groups and individuals • Libraries - support for flood affected communities
Political Issues	No known issues
City Waste Issues	<p>The following advice is provided by City Waste Services in response to ongoing reports of hazardous waste incorrectly disposed of.</p> <p><u>Hazardous Waste</u> Hazardous waste should NOT be put in wheelie bins or on the kerb for collection and should be reported through Council's Contact Centre. Please provide a contact number, material location, type, quantity, description. This can be emailed from the Contact Centre to 'Waste Waste' with 'Hazardous Waste' in the subject line. Examples of hazardous materials include:</p> <ul style="list-style-type: none"> • pesticides • herbicides • pool chemicals • fuel cans • gas cylinders • solvents • corrosives (acids/alkalis) • other packages of chemicals or unknown materials

ITEM	COMMENTS																																																																																										
	<p>Leaking hazardous material: Residents who find leaking chemicals or gas cylinders should stay clear and call '000'.</p> <p>Paint: As a guide, ten tins or less of paint can be put in general waste bins. More than ten tins or a combination of potentially hazardous chemicals should be reported through the Contact Centre for collection.</p> <p><u>Asbestos:</u> Avoid handling materials suspected to contain asbestos. If possible, keep the materials wet and covered in plastic. Do NOT put materials suspected to contain asbestos into bins or with items for kerbside collection. Please call the Contact Centre to organise collection. Council Officers aware of suspected asbestos waste for collection may email details through to 'Waste Waste' with 'Asbestos' in the subject line.</p> <p><u>Temporary Disposal Sites List Update:</u></p> <table border="1" data-bbox="464 703 1355 2087"> <thead> <tr> <th data-bbox="464 703 660 734">SUBURB</th> <th data-bbox="660 703 1139 734">STREET</th> <th data-bbox="1139 703 1355 734">STATUS</th> </tr> </thead> <tbody> <tr> <td data-bbox="464 734 660 766">Albion</td> <td data-bbox="660 734 1139 766">Fox Street Netball courts</td> <td data-bbox="1139 734 1355 766"></td> </tr> <tr> <td data-bbox="464 766 660 797">Anstead</td> <td data-bbox="660 766 1139 797">Anstead Bush Reserve</td> <td data-bbox="1139 766 1355 797"></td> </tr> <tr> <td data-bbox="464 797 660 981">Balmoral</td> <td data-bbox="660 797 1139 981">Balmoral Parks Depot - EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	49
DATE:	20/01/2011	PRIORITY:	Routine
PERIOD:	1530 - 2200 hrs		
EVENT TYPE	Flood Event		

Flood Affects

The Flood Information Centre was advised by BoM this afternoon that the Brisbane City Gauge has been damaged as a result of Brisbane River flood and it records the level 0.35m higher. BoM is going to send a technician to recalibrate the Gauge tomorrow. Further advice will be issued once the calibration is completed.

Tomorrows tide

A CSA has been approved and will be accessible on Council's website providing information to residents about the possible impact of the king tide for tomorrow. The King tide is expected to reach a peak of 1.7 metres AHD at around 10.30am.

The list of suburbs and streets that may be affected is:

- **Albion:** In the vicinity of Albion Park raceway at Albion, including Park, Amy, Agnes, Yulestar, Narial, Higgs, Hutchieson, Pedder, Bogan and Fox streets, Abbotsford Road and the intersection of Wallace Street and Sandgate Road, Breakfast Creek Road
- **Brisbane CBD:** Low lying parts of the Coronation Drive bikeway/pedestrian pathways and Southbank bikeway/pedestrian pathways
- **Deagon:** Finnie, Stockholm, Henderson
- **Hemmant:** Low lying land in the vicinity of Youngs Road
- **Lota:** Low lying land in the vicinity of the Esplanade and Bellevue Parade
- **Newstead:** In the vicinity of Edmondstone and Commercial roads and Ann, Ross, Waterloo, Argyle, Longlands, Austin, Byres and Durong streets
- **Sandgate:** Fourth to Nineteenth Avenue, Flinders Parade, Perkins Street
- **Windsor:** In the vicinity of Northey Street and its intersection with Bowen Bridge Road and Victoria, Bryden, Somerset, Edgar, Downey, Cullen, Nicholas streets and O'Doherty Lan **Bowen Hills:** Abbotsford Road (near Burrows Street)
- **Wynnum:** Wynnum Esplanade
- **East Brisbane:** Cambridge, Didswith, Hilton streets and Walter Avenue
- In parks or low lying land in Hemmant, Lota and Teneriffe and bikeways on Coronation Drive, South Bank and near the QUT CityCat terminal

- **Sandgate:** Fourth to Nineteenth Avenue, Flinders Parade and Perkins Street

Sand bags are available to residents if required.

OPERATIONS AND ASSESSMENTS

Status on Sector maps

Review indicates that no sector was set up for recovery action for suburb of Karana Downs. Confirmation from RIMT West indicates only a handful of streets were affected and that clean up has been completed. It is recommended that sector reporting remains unchanged.

Army Update

Last 24 Hours

The Army had 700 soldiers operating mostly south of the Brisbane River in the following sectors:

- Sector A (Chelmer and Graceville)
- Sector I (Yeronga)
- Sector H (Rocklea)
- Sector B (Corinda and Sherwood)

Army has handed back the following sectors to BCC:

- Sector Q (Towong, Paddington and Milton)
- Sector R (Indooroopilly and St Lucia)
- Sector S (Kenmore and Figtree Pocket)
- Sector T (Moggill and Bellbowrie)
- Sector J (West End, South Bank, Hillgate Hill and Dutton Park)
- Sector G (Durack and Willawong)
- Sector C (Oxley)
- Sector H (Rocklea)

Sectors that have achieved 1st pass:

- All sectors allocated to Army have achieved first pass. Any significant rubbish stockpiles will be dealt with by follow on ADF element together with BCC

Next 24 Hours

- Hand back Sectors A,H, I and B to BCC
- Transition from troop labour tasks to specialist engineering tasks (clearance of temporary tip sites and other requested tasks)
- Navy Survey continue of Brisbane river and major bridges
- Continued logistic support

Impact assessment data being forwarded from the DIG in the LDCC.
Recovery Planning Status Report		<ul style="list-style-type: none"> Process established for BCC Divisions to provide FPG with daily reports re: their forward planning / status. Data collection, cross-checking & mapping of this info is underway. Established a daily "Status Report - Flood Recovery Planning"
Office of the Lord Mayor and the Chief Executive Officer		<p>Additional resources are still being used to work through the offers - primarily on "recontacting" people we have tried to contact initially and either left messages or not been able to speak to.</p> <p>The figures as at 1.30pm today are:-</p> <ul style="list-style-type: none"> 1938 offers for plant/equipment (including high profile offers) are on hand - an increase of 5 from the SITREP yesterday. All of these have been contacted or attempted to contact. 357 offers are on hand from Tradesmen - an increase of 8 from yesterday. All of these have been contacted or attempted to contact. <p>2nd attempt to contact:</p> <ul style="list-style-type: none"> Plant/equipment/Tradesmen: 48 recalls have yet to be allocated but the remainder have been allocated and are being worked on. Unanswered recalls - unless the offer is substantial we are closing off the offer after the initial and second calls have been made.
Manage volunteer deployment and Volunteer Queensland liaison maintained.	<ul style="list-style-type: none"> Brisbane City Assets require more warning with regard to volunteer activities / plans. Weekend activities need to be communicated to depots by noon Friday. Information required re: Volunteer activity for this weekend. Tradies volunteering initiative has been misleading for some 	<p><u>Volunteers</u></p> <p>BCC has deployed 200 volunteers between Tuesday & Thursday this week.</p> <p>Volunteer distribution of newsletters to flood effected areas - Assisted with deployment of volunteers & ensure logistics and admin issues are finalised.</p> <p>Volunteer Trade Program - Assist with issues on trades matching,</p>

Tasks	Issues/Barriers	Activities
	<p>residents. The LDCC has edited the phone script to explain that Tradies don't 'volunteer' their services but do 'provide' a quote after being matched to a resident in need.</p> <ul style="list-style-type: none"> Volunteers are reporting getting sick. Recommendation: follow up with QLD health (Public Health). BCC Assets require advanced warning regarding Volunteer activities at the depots (especially for the weekend. Info required by Friday noon). 	<p>general volunteer coordination and with new issue on residents left behind from initial clean-up who require plant and equipment support to be matched to them.</p>

Next Steps/Emerging Issues:

- Social support / strategy needs to be developed to meet the needs of vulnerable residents. Refer to DOCs.
- Brisbane City Assets require more warning with regard to volunteer activities / plans. Weekend activities need to be communicated to depots by noon Friday.
- Friday 21 January King Tide upgrade. **Communication strategy / media release required.**
- Identifying priority of commercial (by type) property data. (Advised this will take 2 business days to collect & verify) refer to Economic Development and or CARS.

DIG

Have been working on Map requests per Sector

- CARS Streetscape assessment
- Flood level maps by Sector

Two and a volunteer photographer conducted an aerial assessment in McDermott Aviation's AS365 twin engine Dauphin Helicopter on **Thursday 20 January 2011 between 12.30 and 2.15pm**.

The focus of this aerial assessment was on the Moreton Bay area. The flight path followed the shoreline from Brighton to Manly and continued to Green Island, St Helena Island and the western shore of Moreton Island. Other areas that were assessed include Rocklea/Oxley and Hemmant/Tingalpa.

Summary of Observations

Flood debris was sighted on the shoreline at Nudgee Beach, Shorncliffe, Sandgate and Brighton. The rest of the Moreton Bay was generally clear of visible flood debris, including in the suburbs of Wynnum and Manly, Moreton Island and the smaller islands.

Rocklea and Oxley were reinspected today, with some progress observed. Many commercial buildings in these areas have stockpiles of waste/trash located within their property boundary.

The suburbs of Hemmant and Tingalpa were generally clear of any visible waste (Sector M).

Recovery Centres

The Wacol recovery Centre closed at 1600 hrs today and is moving to Max Employment Centre, Queen St Goodna from tomorrow. The Wacol Centre primarily saw clients from Ipswich. While the centre will now be operating in Ipswich there will be BCC material at the Goodna site, there will not be a BCC officer on site.

Evacuation Centres

The QEII will be dismantled Friday 21/1/11. There are 10 expensive electric beds and a large number of air beds to be transported to the new temporary store at Geebung.

OPERATIONS AND ASSESSMENTS

Volunteers

A CSA will be released Friday morning advising residents that they can adopt a park to assist with the preparation for the Australia day celebrations. Residents may volunteer to help clean designated flood affected parks or local park convenient to them. Tidying non flood affected parks will assist with flood recovery by allowing Council officers to focus on flood impacted areas.

DIG

DIG are conducting a comparison of properties immediately following the inundation with the same properties subsequent to the commencement of the recovery phase to show progress to date

RRG are carrying out a check of properties that are outside the operational sectors but appear on flood maps to ensure that no properties have been missed.

Status REPORT

ITEM	COMMENTS
Impact Area and Scale	<p>At 0119 hrs, RRG reported on an assessment of the area East of Sector H. A visual assessment indicates:</p> <ul style="list-style-type: none">• Marks on trees suggest that there may have been inundation of approximately 1 metre in the area;• Musgrave Rd, Beaudesert Rd, Richlands Ave, Meadow Ave, Boundary Rd, Sway St, Oban St, Alton St, Norbury St and Boyland Avenue appear to have been affected by inundation;• 139 Musgrave Rd, west of the train tracks has a small pile of material;• 816 Beaudesert Rd, 71 Richlands Ave and opp. 65 Meadows Ave have

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	52
DATE:	21/01/2011	PRIORITY:	Routine
PERIOD:	0600 – 1530hrs		
EVENT TYPE	Flood Event		

Today's High Tide

Flood Information Centre (FIC) has confirmed the actual height reached at today's high tide (1.75m AHD as compared to 1.55m AHD of yesterday). Extensive patrols were conducted of FIC mapping nominated and historically listed areas subjected to flooding by king tides. FINDINGS: Minimal water entered the roadway as a result of the king tide. There was no property damage to residential, business and/or Council assets. Doorkocks of potentially affected areas carried out and staff from RBH advised to move vehicles as a precautionary measure.

Major issues

Landslip – Radnor Street, Indooroopilly

- On Thursday 20 January 2011, Council identified a significant slip on the bank of Witton Creek and below the northern edge of the embankment under Radnor Street, Indooroopilly.
- The slip has resulted in a 2m high vertical drop under the armco railing along the edge of the bitumen on the northern side of the road.
- Traffic control and sandbags in place to ensure safety is maintained.
- Ongoing inspections of the site are being undertaken to identify any cracks in the bitumen (indicating a progressive slumping of the embankment).

OPERATIONS AND ASSESSMENTS

Pest/Mosquito Control

- Aerial treatment of wetland scheduled for Saturday afternoon after receding tide. Treatment may extend into Sunday.
- Aerial treatment of floodwater completed. A total of 200ha treated along Oxley Creek and on Indooroopilly Island.

Ground Mosquito Control Program

- Ground Mosquito Control Program
 - 3000 locations divided into 10 truck runs
 - Routine operations – continuing daily

- Fly Control
 - Fourth of the daily treatment of all food waste bins completed
 - 82 bins still deployed across city
- Current Activities:
 - Monitoring north side and south side salt marsh and salt marsh margin for *Aedes vigilax*, Brisbane's summer pest mosquito
 - Monitoring flood water check points in south west suburbs
 - Establishing more monitoring points at flood water localities
 - Continuing fly control on bulk bins
 - Monitoring and treating the permanent and semi permanent water ponding on Council controlled land

Forward Planning Group (FPG)

- Continuing to develop the draft concept and plan to support the establishment and operations of the Lord Mayor's Recovery Task Group.
- Continuing to cross check and verify flood event disaster data
- Continued profiling of potential risks & mitigation strategies around the Recovery Plan
- Second status ("Status Report - Flood Recovery Planning") report from all Divisions has been collated
- Continuing to manage volunteer deployment to assist with recovery clean up efforts.
- List of locations on Council's website however list may be amended as additional sites are located.

ADF Army

- General duty Army support (manual route and curb side clearance) is now transitioning to specialist plant support.
- In particular, Army plant assets are now assisting with the removal of a number of temporary waste sites as identified by Council.

Navy

- HMAS HUON, SHEPPARTON and PALUMA completed their second and final sweep (300m wide) of the Moreton Bay Main Shipping Channels.
- No obstacles were identified within shipping channels and the depths remain unchanged.
- The Deployable Geo-spatial Survey Team (DGST) completed survey operations between South Hamilton Reach Wharfs and Humbug Reach.
- All contacts and data located thus far are awaiting further analysis
- The Clearance Diving Team Detachment – Completed diving operations on Gateway Bridge and Captain Cook Bridge with no damage found to the Gateway however an obstacle was identified on the North (2nd) Pylon of the Captain Cook Bridge.

BCW (Brisbane City Works)

Intel received as at 0900hrs 21/01/2011

ROAD SURFACES (ALL SECTORS)	
Work area	Patrolling and patching locations in: Upper Brookfield, Upper Brookfield, Paradise Rd Larapinta, Toowong, St Lucia
Work Type	Potholes and re-sheeting areas damaged by floods. Priority One requests and damaged founds on main roads
	Only working in South, West and Central for flood related areas
	1 crew in South 2 crews in West 1 flood related PRO1 in South only – Paradise Rd Larapinta patrol and patch potholes and failures
	North and East back working 100% 'normal program' South, West, Central 50% 'normal program'
	Approx 95 p/holes 52 m ² road sheeting

DAY –WORKFORCE	
Staff	6 x Crew Members, 1 x Supervisors with arrow board utes for traffic control.
BCW Fleet/Plant	1 Flocon
External Fleet/Plant	H2, H4 – Suncoast hires
Material	5 ton t170 10mm a/c
ROAD/URBAN CLEANSING SUMMARY	
Summary	176.45 km's Swept
Work area	Newstead, CBD, Toowong, Milton, South Brisbane, West End, Chelmer, Graceville, Rocklea, Durack, Willawong, River Hills, Westlake Jindalee, St Lucia
Work Type	Remove Sandbags, Clean Roads, Sweep Roads, Clear Debris, Pressure Wash/Clean Bikeways, Pressure Wash/Clean Ferry Terminals
DAY & NIGHT –WORKFORCE	
Staff	68
BCW Fleet/Plant	10 x Road Sweepers, 13 x 22 Class Trucks, 3 x Work Ute
External Fleet/Plant	4 X SRS Sweepers 1 x Pressure Washers, 1 x Water Canon, 1 x Water Truck 1 x Bobcat
NORTH SUMMARY	
Summary	320 m ³ Removed 2 tasks completed Sectors O and N have been cleaned Reactive work completed as logged in North sectors 95% of staff are in South 5% in North
Work area	Rocklea, Sumner Park
Work Type	Clean Debris / Rubbish Removal, Fuel Distribution, Repair Road Damage (due to collapsed concrete pipeline 525mm diam. Hole approx 4mx1.5mx1.5md.) Restore Asphalt, Clean Gullies, Footpath Clean, Remove Sandbags, Clean Roads, Remove Rotting Food Products
DAY –WORKFORCE	
Staff	39
BCW Fleet/Plant	4 x Flexi-tool pumps, 5 x Flexi-tool motors, 7 x Class 22 Tippers, 2 x Backhoe, 3 x Trailers, 5 x Utes, 1 x Generator, 4 x Chainsaws, 2 Bobcat
External Fleet/Plant	5 x 4T Tippers, 9 x Combo, 5 x Class 22 Trucks, 12 x Tandem Tippers, 1x Backhoe , 2 x Bobcats, 10 Traffic Controllers, 5 Traffic Control Vehicles, 5 x Tandem and Dog Trailers, 1 x 8t Tippers, 2 Excavator
Material	12t MRD2.1 (Imported). Rubbish 740m ³ . Rotten Food Products 360m ³ .
SOUTH SUMMARY	
Summary	6,337 m ³ Removed, 29 tasks Completed Sectors F and H still in progress 85% Completed Majority of work remaining is in industrial areas of Rocklea and Darra-Sumner Park Evans and Peck survey carried out Thursday Still awaiting results.
Work area	Sector F – Spine St, Bullockhead St, Wolston St. Sector H – Shoebury St, Franklin St, Dunn Rd, Grindle Rd, Donaldson Rd
Work Type	Clean Debris / Rubbish Removal/Removal of spoiled food from warehouses.
DAY –WORKFORCE	
Staff	140
BCW Fleet/Plant	18 Excavators, 23 B/Cat, 6 B/Hoe, 115 Trucks.
External Fleet/Plant	Nil
Material	Nil
EAST SUMMARY(SECTORS, L M K)	
Summary	1,510 m ³ Removed from Streets 17 Tasks Completed. All Sectors have had 3 passes and are clean. Occasional items are being placed on footpath- Reactive work Carrying out drainage and roadway repairs to Forbes St West End duration of works approx 1 week. Pipe repairs in Hyde Rd Yeronga are ongoing. Remainder of teams in Southern Sectors

Work area	Bulimba, Hawthorne, Norman Park, East Brisbane, West End, Hemmant, Fairfield, Rocklea, Salisbury, Coopers Plains, Yeronga, Sumner
Work Type	Clean Debris / Rubbish Removal, Rubbish Stock Pile Management, Clean Gullies, Remove Sandbags, Clean Roads
EAST DAY –WORKFORCE	
Staff	68
BCW Fleet/Plant	2 backhoe, 7 Truck, 3 Tandem
External Fleet/Plant	22 tandems, 4 truck, 4 Combo, 8 Traffic Control, 2 Roller, 9 Bobcat, 3 Backhoe, 1 Water Truck, 1 Excavator
Material	Nil
WEST SUMMARY	
Summary	500 m ³ Removed 3 tasks completed Sectors E, R, S, T and Q completed 2 nd run. Sector Q – completing 5 th Run. Continuation of material being placed in Milton and Toowong areas. Crews have moved to southern sectors at Graceville
Work area	Mt Ommaney, Middle Park, Westlake, Jindalee, Fig Tree Pocket, Milton
Work Type	Removal of Household rubbish & silt, cleaning roads & rubbish, road and footpath cleaning, debris clearing
WEST DAY –WORKFORCE	
Staff	45
BCW Fleet/Plant	13 x Trucks, 9 x Water Carts, 11 x Loading, 0 x Vac Truck, 1 x Sweepers
External Fleet/Plant	10 Traffic Control
Material	Nil
CENTRAL SUMMARY	
Summary	1,015 m ³ Removed 6 tasks completed Sectors K & J completed 3 rd run. Continuing picking up material placed on footpath. Crews have moved to Southern sectors Logan City staff now reporting to P. Knight in southern sectors
Work area	New Farm, West End, Newstead, Kangaroo Point
Work Type	Clean Debris, Clean Roads / Rubbish Removal
DAY –WORKFORCE	
Staff	26
BCW Fleet/Plant	12 x Class 22, 3 x Ute
External Fleet/Plant	11 x Tandems, 5 x Bob Cats, 3 x Excavators, 1 x 8T truck, 1x 10T truck, 1 x 12T truck, 9 x Traffic Controllers with Utes
STRUCTURES SUMMARY	
Summary	130 m ³ Debris & Rubbish Removed
Work area	Botanical Gardens, Several footbridges around Brisbane, Walter Taylor Bridge
Work Type	Removal of debris and silt from footbridges, Inspection of Structures, Installation of traffic controls, Misc bridge damage repair activities
DAY & NIGHT –WORKFORCE	
Staff	25 (+ 20 on fatigue management break)
External Fleet/Plant	2 x combo; 1 x Bobcat; 1 x Water Cart; 1 x water blaster, BCW Boat
Total Staff	520
Volunteer Business	Logan City Council, Redlands City Council, ABI Group, Main Construction, Arc Construction, Roadtek
Total m³ removed	9, 812m ³
Total Potholes completed	95
Total m² of road repair	52m ²
Total km's	176.45km
Gullies cleaned	407

Regional Incident Management Teams (RIMT)

Region	Staff	Plant/equipment	Work completed	Work scheduled
East	59 x LAS 24 x CARS 14 x BCW 8 x CARS and 5 x LAS deployed to South and elsewhere.	3 x MR trucks 20 x Class 22 19 x light vehicles 4 x Tandems 2 x Backhoe 2 x Bobcats 2 x Pressure Cleaners	Sector K, L, M kerbside cleanup basically complete. Multiple sweeps of all affected roads completed – very small amounts still appearing on kerbs. 3 Temp dump sites now closed. Last of debris at Carindale gone by 18:00 tonight. Patrols occurring in Sectors L,M, K for illegal dumping/waste related matters. Com & Env Reg Officers rapid assessment of predicted inundation areas, no significant impacts. Between 10:30-11:30am. Molle Rd minor flooding, none at Wynnum, Wakerley, Carina or Bulimba. Aquarium Av 400mm near boat ramp, Hemmant & Tingalpa Clear. Balance of Team on core work	Continued scans to pickup final items in kerbside cleanup all of debris for pickup tomorrow. Normal operations are resuming over district. Arranging staff to assist with volunteers in parks tomorrow. CARS to assist other regions with Rapid Assessments and specific audits of buildings and food premises. Continue standby for tasking by RIMT/LDCC. Carry out normal business with remaining resources.
South	193 x LAS 160 x BCW 37 x CARS 215 x ADF 243 x corporate volunteers 81 x Redlands CC 8 x Logan CC	188 x Tandems 24 x Water Carts 23 x Excavator 7 x Drott 80 x Bobcats 21 x Backhoes 80 x Class 22/24 Trucks 11 x Loaders 4 x Road Sweepers 3 x Other plant & equip	Today - Estimated Approx 12 000 m ³ of flood debris removed from streets throughout southern region by 6pm (21/1/2011) Note: The above daily volume of debris does not include ADF effort to date, which is estimated at approx. 10 000 m ³ for the 21/1/2011. Second and third sweeps now in progress through most sectors	Additional street passes will continue through all Sectors throughout day. LAS resources will continue operations through the weekend. BCW resources will be at 50% capacity for each weekend day
North	10 x LAS to Foreshores 4 x crews to west	4 x Class 22 2 x Combo Tipper 2 x Bobcat 2 x Excavators	Ongoing Debris collection from Sandgate area.	Continue removal of Flood Debris from Sandgate/ Shorncliffe. Provide assistance to West Region. Remove waste from temp sites to landfill site
West		25 x loaders (ie. bobcats, excavators) 56 x trucks 3 x water trucks 13 x other	Sector D: 99% complete, Daily waste (m ³)= 80m ³ . Waste running total (m ³)= 640m ³ Sector E: 95% complete, Daily waste (m ³)= 84 m ³ . Waste running total (m ³)= 11,266m ³ Sector Q: 95% complete, Daily waste (m ³)= 268 m ³ . Waste running total (m ³)= 17,915m ³ Sector R: 90% complete, Daily waste (m ³)= 160m ³ . Waste running total (m ³)= 7,794m ³ Sector S: 90% complete, Daily waste (m ³)=26m ³ . Waste running total (m ³)=1,974m ³ Sector T: 90% complete, Daily waste (m ³)= m ³ . Waste running total (m ³)= 916m ³	Continue to work through received requests. QUU to clean up sewerage in coming days.
Central			Suburbs inspected: CBD, South and surrounding areas, continuing to sweep through affected areas, concentrating on parks, undertaking assessments of areas.	Continue to work through received requests.

Eduction of Gullies

- Prior to implementation of the gully eduction program, some 1000 gullies were cleared.
- Since the program was implemented, a further 5,216 gullies have been cleared.
- Barry Brothers, Transpacific and BCW continue to apply resources to the program.

Recovery/Evacuation Centres

Centre	Data
RNA Recovery Centre	86 attended
	40 vaccinations
East Brisbane Recovery Centre	113 attended
	58 vaccinations
Fairfield/Yeronga Recovery Centre	360 attended
	80 vaccinations
Jamboree Heights Recovery Centre	734 attended
RNA Evacuation Centre	closed
QEII Evacuation Centre	23 overnight
	Scheduled to close 1200hrs today, depending on rehousing of evacuees.

- Vaccinations – over weekend Queensland Health Vans will be located at Chelmer, Booval, St Lucia and Fig Tree Pocket.
- Council will offer Tetanus vaccination clinics at Corinda, South Brisbane, Yeronga and Jamboree Heights.

Status REPORT

ITEM	COMMENTS								
Impact Area and Scale	Bicentennial Bikeway remains closed Majority of bikeways affected include Teneriffe, Toowong, South Indooroopilly, Oxley, and Jindalee. Kedron Brook and Enoggera Cr also affected.								
Communications (media)	CSAs released for today <ul style="list-style-type: none"> • Volunteers encouraged to adopt a park this weekend • Brisbane residents urged to be alert ahead of today's king tide • Residents urged to register for trade assistance • Community groups and small businesses urged to ask for assistance

PERIOD:	1530 – 2200 hrs		
EVENT TYPE	Flood Event		

Wivenhoe Dam

(as per re-issued FIC Situation Report at 15:00 on Thursday 20 January 2011 from SEQWater)

All gates were closed at Wivenhoe at 12:00 on Wednesday 19 January 2011. The current lake level is just below FSL and rising slowly due to the overnight storm inflows. Operational releases will be made through the centre gate to account for ongoing small inflows and to assist town water supply requirements. A summary of the bridge status along the Brisbane River between Wivenhoe Dam and Moggill is as follows, with the exact timing of water coming clear of bridges depending on the fresh water in the Lockyer Creek (peak flow~250 m3/s) and any further rainfalls. Water is clear of Fernvale Bridge, Mt Crosby Weir Bridge and Burtons Bridge

Additional water in the Lockyer Creek is likely to keep Savages Crossing and Colleges Crossing inundated for at least today

It is not yet certain when water will be clear of Twin Bridges as this will depend on base flow draining requirements and a decision will be made on this later Friday.

FLOOD INFORMATION CENTRE (FIC)

Rainfall (from BCC Floodwise Report for Friday 21/01/2011 at 16:21 PM)

Over the last 24 hours an average of 7mm of rainfall has occurred with the highest falls of 23mm occurring in Ransome and 21mm in Wakerley. The lowest rainfall of 1mm occurred at Mt. Crosby.

In the last 6 hours only scattered Rain has occurred with the highest 6 hour rainfall of 1 occurring in Holland Park West

High Tide information

High Tide Level at Brisbane City gauge at 10.50 AM Friday 21/01/2011

High Tide occurred at 10:50 AM on Friday 21/01/2011 at the Brisbane City gauge. The actual high tide level at the Brisbane City gauge was 1.75 m AHD. The oceanic anomaly was less than 0.1.

Tide Level Forecast for Saturday 22/01/2011

High Tide will be at about 11:20am at the Brisbane City gauge. The predicted high tide level at the Brisbane City gauge is 1.70 m AHD.

Information on predicted high tide for Saturday:

The predicted high tide of 1.70 m AHD at the Brisbane City gauge, is 0.05 m lower than today's (Friday 21/01/2011) peak high tide and about 0.16 m lower than the king tides of 1.86 m AHD which occurred at the Brisbane City gauge on the 22/12/2010 and 23/12/2010.

Local Streets likely to be affected

Low lying streets around Albion, Windsor, Hemmant and Newstead may experience inundation. If further local rainfall occurs in the morning prior to the tidal peak, flooding in the areas above may be exacerbated at high tide.

As a safety measure Northey Street car park may need to be temporarily closed during the high tide.

The tidal level will gradually decrease from Saturday onwards as the tide gradually decreases. Normal king tide impacts are expected to occur along foreshore areas.

Major issues

Orphaned Chemicals, Stable Swamp Creek, Rocklea

QFRS investigated a 20000 L tank located in the frame of a 20 foot shipping container located in the flood plain adjoining Stable Swamp Creek, Rocklea. An aerial investigation confirmed the isotainer displays a Class 3 placard– Flammable liquid DG diamond and UN2053. It was not possible to assess the integrity of the isotainer or the status of its contents due to the condition of the ground. QFRS also noted significant numbers of what appeared to be chemical packages, comprising 205 L drums, IBCs (1000-3000 L) and other containers.

QFRS has recommended advising the LDMG to arrange appropriately equipped salvage contractors to conduct a complete survey of the area and remove the chemicals. This may require heavy-lift capability (helicopters, cranes) as vehicular access may be impractical.

An Environmental Health officer has attended and advised that this is a high (environmental) risk issue that should be prioritised for action. The officer further advised that the tank will require an assessment by an engineer or tank expert to check the integrity and contents of the tank, and to provide advice on the product, movement and making safe prior to attempting its removal. A heavy lift, long boom crane will likely be required to gain access.

Bicentennial bikeway

- CBMS are taking care of the live power issues.
- LAS West advised that they have organised class 22 trucks (BCW trucks) to remove rubbish from the Drift area.
- LAS are negotiating with the owner of Drift to ensure the bikeway is clear of the items not for collection prior to waste collection on Sunday.
- Hand rail maintenance will be carried out on the Sunday leaving a limited area to be cleaned when the level drops. This will allow the bikeway to open once the remaining area can be cleared and checked. It can't be confirmed that the bikeway will open for Monday morning due to inundation levels.

Coronation Drive

A depression near Cribb Street has been inspected by asphalt ops. They have put traffic control on the site for the night to exclude vehicles from the lane as the depression in the outside lane is deep. The repair will take around 4 hours and it is planned to begin at 7:00am. The repair will require two lanes to be closed. Asphalt Ops have notified the traffic management centre.

OPERATIONS AND ASSESSMENTS

Forward Planning Group (FPG)

- Continuing to develop the draft concept and plan to support the establishment and operations of the Lord Mayor's Recovery Task Group.
- Continuing to cross check and verify flood event disaster data
- Continued profiling of potential risks & mitigation strategies around the Recovery Plan
- Second status ("Status Report - Flood Recovery Planning") report from all Divisions has been collated
- Continuing to manage volunteer deployment to assist with recovery clean up efforts.
- List of locations on Council's website however list may be amended as additional sites are located.

Army Update:

The Army presence has reduced to small teams of specialist engineers. The following sectors have been handed back to BCC:

- Sector I (Yeronga)
- Sector H (Rocklea)
- Sector B (Corinda and Sherwood)
- Sector A (Chelmer and Graceville)
- Sector Q (Towong, Paddington and Milton)
- Sector R (Indooroopilly and St Lucia)
- Sector S (Kenmore and Figtree Pocket)
- Sector T (Moggill and Bellbowrie)
- Sector J (West End, South Bank, Highgate Hill and Dutton Park)
- Sector G (Durack and Willawong)
- Sector C (Oxley)
- Sector H (Rocklea)

Next 24 Hours

- specialist engineering tasks as requested by BCC across nominated sectors
- Support clearance of various temporary tip sites
- Navy Survey continue of Brisbane river and major bridges
- Continued logistic support

Aerial Assessments

Council officers and a volunteer photographer conducted an aerial assessment between 1230 and 1400 hrs today.

This assessment investigated the current status and operations of Brisbane's landfill site, waste transfer stations and the temporary disposal sites. The flight path (Figure 1) extended to the landfill site and transfer stations at Rochedale, Chandler and Willawong and continued to the suburbs of Darra, Oxley, Rocklea, Graceville, Chelmer and Fairfield. The Nudgee transfer station was also inspected.

Summary of Observations

The Rochedale landfill site has two active operational areas, the new cell already showing evidence of significant use. The transfer stations at Chandler, Willawong and Nudgee have now commenced operating their overflow areas and are also showing signs of above average activity. Significant operations are underway at most temporary disposal sites and these seem to be operating efficiently.

A Helicopter is booked to undertake another survey tomorrow.

BCW (Brisbane City Works)

A donation of cold fog machines and AUSSAN disinfectant from Nanoshield has been passed on to State's community recovery. This is suited for use inside of buildings that have been flood affected - such as schools, hospitals etc.

Recovery/Evacuation Centres

Evacuation Centres have closed, a final debrief has been planned for all stakeholders to discuss lessons learned.

Key Statistics since the 12/01/2011

RNA

Operated from 12/01 to 19/01
 Over 1650 people registered with Red Cross
 Approx 1450 people at the peak (night of Thursday 13/01)
 Over 250 households were rehoused

QE2

Operated from 12/01 to 21/01
 Over 700 people registered with Red Cross
 Approx 480 people at the peak (night of Thursday 13/01)
 Over 70 households were rehoused

Adopt a Park

- Twenty nine locations including parks and reserves have been identified
- Every park listed will be given a pack containing water, sun screen, first aid & sharps container and at least 1 SCIP.
- Eleven parks will have marquees, tables, chairs and porta loos.
- St John Ambulance will be located at number of parks and are available to respond to other areas if required
- There will be a Council officer at each location

Status REPORT

ITEM	COMMENTS
Impact Area and Scale	ERG investigated a report of land slippage along a section of the Orleigh park bike way. RRG responded and secured the area. ERG reported that a 15-20m long, 3-4m wide section of bike way and wall upstream from the yacht club, , has slipped into the river. Temporary fencing is being arranged. A section of the car park will be impacted by the fencing. City Design has been contacted and will organise a site inspection and assessment tomorrow. Two lanes of Coronation Drive have been closed

Today's High Tide

Flood Information Centre (FIC) advise that High Tide will be at about 1120 at the Brisbane City gauge. The predicted high tide level at the Brisbane City gauge is 1.70 m AHD.

No additional information regarding the high tide impacts has been provided by FIC since its last report of 1629, 21 January 2011.

Major issues

Coronation Drive, Milton

BCW have advised that the depression had increased in size to 6m x 5m but the asphalt surface was not compromised. The kerbside lane was still closed with traffic controllers in attendance.

A BCW team has being assembled to repair the depression commencing from 0615. Two outbound lanes will be closed during the repair. This repair will take several hours.

Ground penetrating radar inspection will occur this morning and results will be available within 2 hours of completion.

Visual inspection by BCW have identified a stormwater pipe within the area which may be the cause of the depression.

BMTMC and CRU are aware of the situation and LDCC will provide updates to these groups throughout the day.

Fig Tree Pocket

Land slip has occurred exposing a sewerage line at 24 Spinkbrae St, Fig Tree Pocket. QUU will be attending Saturday 22 January 2011 AM.

Orleigh Park, West End

Emergency Response Group (ERG) and Queensland Police Service (QPS) have attended and that there is approximately 30-40 m section of riverwall / bikewall has collapsed and fallen into Brisbane River. Temporary fencing has been organised for this site.

BCW inspection arranged for Saturday.

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	56
DATE:	22/01/2011	PRIORITY:	Routine
PERIOD:	0600 – 1530hrs		
EVENT TYPE	Flood Event		

Flood Information

Today's high tide level recorded at the City Gauge was 1.70m (AHD) at 11:41AM. Intermittent patrols were conducted of potentially affected areas. It was noted that Waterloo Street at Newstead had road coverage of approximately 150mm, at approximately 11:45hrs. A re-inspection was conducted 12:15hrs and the water began to subside. There was no damage due to the tide.

Adopt a Park Volunteer Scheme

- Today's Adopt a Park Volunteer Scheme saw volunteers attend to more than 28 flood affected parks and two bikeways in the city.
- It was estimated that approximately 400 volunteers assisted with the scheme.
- St Johns Ambulance was in attendance.
- All park clean ups are completed with the exception of Perrin Park due to sewerage concerns.

Sherwood Bus Depot, Sherwood

- Sherwood Bus Depot was closed at approximately at 1230pm in order for clean up of the site to commence. It is anticipated that this clean up will be completed by COB Tuesday. All relevant business units have been advised.

OPERATIONS AND ASSESSMENTS

Ongoing Investigations

Depression at Coronation Drive, Milton

At approximately 7am a ground penetration radar (GPR) was in place. An assessment (approximately 2 hours) was undertaken of the area. As at 9.00am Coronation Drive is safe and open to traffic. Asphalt laying is now complete. Analysis of ground penetrating radar results is occurring and will be provided once completed.

Bicentennial Bikeway / Drift Restaurant – Coronation Drive

LDCC advised that the bikeway is cleared of mud between Cribb and Land streets. This includes the underpasses near Cribb Street and Land Street. The majority of the bikeway has been swept and hosed and an onsite meeting is scheduled to occur at 1430hrs to scope the remaining areas to be washed tonight.

Over 50% of the rubbish in front of the Drift Restaurant removed and 50% of items the owner has stored in the underground car park relocated. As at 1345hrs, the owner had approximately 40 volunteers assisting with rubbish removal. Council is continuing to collect this rubbish that is dumped on the footpath. The owner has advised that he proposes to continue carrying out works next weekend. Council will erect temporary fencing on the river side of the timber bridge where the handrail has been damaged.

Fig Tree Pocket (QUU)

Early this morning a land slip occurred, exposing a sewerage line at 24 Spinkbrae St, Fig Tree Pocket. Exposed line plugged and temporary tankering (clearing lines 3 times a day) underway. QUU advise that it is anticipated that a temporary pumping station will be installed by Monday 24 January 2011. 4 x houses in affected area have been advised.

Land slippages

17 slips have been identified, with the majority occurring in the western region (15 slips). Geo-techs have been engaged and asked to report back on each site. Where necessary, signage and road closures/re-directions have been put in place. Repair and restorative deployment will commence once a full assessment of each site will be undertaken.

Cross-river water main (QUU)

Yesterday the Royal Australian Navy sounded Jindalee Water Main crossing. Divers investigated yesterday to assess the situation. Geospatial Support team deployed to undertake survey of area. Data anticipated to be processed later today. An update will be provided when this data is received.

Orleigh Park, West End

A site inspection of the slip was undertaken this morning. It is 20-25m in length and approximately 2m width. It was identified as a typical alluvial bank failure, with a very steep bag scarp. This type of failure has the potential to continue to fail given the right conditions. The site has been fenced, preventing access to the area. At approximately 1300hrs, an increase in slippage within the car park area was reported to LDCC. Temporary fencing will be inspected and extended to incorporate any additional encroachments.

Hazardous Materials – Industrial Areas

LDCC is aware of potential industrial areas where hazardous materials may be located within the city. The LDCC has escalated this issue to the DCC, with recommendations for a coordinated approach to hazard remediation clean up.

Mt Crosby Weir

Weir sustained damage during the flood event. Council is dealing with the road approaches to the weir and has offered to provide assistance in weir remediation as required.

WORK UNIT UPDATES

LDCC (Local Disaster Coordination Centre – BSQ)

- LDMG stood down at today's meeting
- Current Level 4 activation operations are scheduled to cease as at COB Tuesday 25 January 2011
- Level 3 operations (24hr roster continuing) will continue until COB Monday 31 January 2011
- CEO will review LDCC arrangements during the next week and amend as required
- Looking into orphan pontoon management and collection policy

ADF

- Continuing to support BCC in the removal of rubbish from temporary rubbish tips in Sector F, P, A
- Conducting opportunity rubbish removal with small teams in Sector H,I and A

Navy Update

- Continuing survey of the Shipping channel in Moreton Bay
- Continuing survey of the Brisbane river for significant obstacles and locating specified targets
- Continuing diving inspections of bridge piers

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	57
DATE:	22/01/2011	PRIORITY:	Routine
PERIOD:	1530 – 2200hrs		
EVENT TYPE	Flood Event		

Flood & Weather Information

BoM weather outlook for Sunday (23/01/2011) - mostly fine. Possible shower, chiefly morning.

Wivenhoe Dam Operations (as per re-issued FOC Situation Report at 15:00 on Thursday 20 January 2011 from SEQWater). All gates were closed at Wivenhoe at 12:00 on Wednesday 19 January 2011. Somerset and Wivenhoe dams have reverted to normal Seqwater operations. Remote monitoring has reverted to the On Call Duty Engineer from Friday 21 January 2011.

Information on observed high tide for Saturday (22/01/2011) - The observed high tide water level was 1.70 m AHD at the Brisbane City gauge at approximately 11:41AM. The recorded level was 0.05m lower than Friday's high tide.

Tide Level Forecast for Sunday (23/01/2011) - High Tide prediction for Sunday at the Brisbane City gauge is expected to be 1.65m AHD approximately at 12:35PM. NOTE: The tidal water level will gradually decrease from Saturday onwards as the tide gradually decreases.

OPERATIONS AND ASSESSMENTS

Aerial Assessment

Council officers and a volunteer photographer conducted an aerial assessment on Saturday 22 January 2011 between 11:30hrs and 13:00hrs. The aerial assessment was to ascertain the status of volunteer efforts in parks and also provide a progress update on the work already complete. The secondary task of the aerial assessment was to investigate debris grounded on private property adjacent to the river. The flight path (Figure 1) extended down the Brisbane River to cover each bank and included Rocklea and surrounding areas near Archerfield.

Minor flooding was observed in low-lying areas from king tide inflow into areas up and down the length of river. Damage has occurred on either side of the Brisbane River from Bulimba to Moggill with damage ranging from minor to significant to pontoons and trees along the river banks. Many areas towards the CBD have been cleared with work in progress for many of the bikeways and pathways. The river only has minor floating debris with water police in attendance.

At the time of observations, volunteers were witnessed to be working at various locations with minimal numbers in parks. BCC was found to be working in a number of locations progressing with cleanup including the removal of rubbish from temporary dumping sites. Only a minimal amount of locations have rubbish that has not been removed as yet.

Street Assessment Summary

This data is based on a drive through assessment, conducted on Saturday 22nd January 2011, by Compliance and Regulatory Services staff, of 543 effected streets in 7 selected sectors of the 20 effected sectors across Brisbane.

Sectors P, Q, R, I, J, H, A (of sectors A – T) were assessed.

The primary assessment is based on classifying streets into four categories, as follows.

Status	Definition
Active	Work is being conducted at the street and there are more than 2 truck loads (4m ³) of rubbish for removal.
Monitoring	Work has slowed and/or stopped. Rubbish less than 2 truck loads within the street for removal.
Inactive	The street is clear with no rubbish and no further action is required within the street, inspections will continue
Finalised	Patrols are no longer required/business as usual

Note: At this stage in the clean up operation no streets have been classified as "finalised" so all data is based on the first 3 status types only.

Streets by Status as at 22nd January 2011

Status	Number of Streets	Percentage
Active	43	8%
Monitoring	227	42%
Inactive	273	50%
Total	543	100%

PERIOD:	2200 – 0200 hrs		
EVENT TYPE	Flood Event		

Major issues

Coronation Drive

L1 outbound from Cribb Street will remain closed and traffic controllers will remain on site. Traffic Control has been directed to monitor L1 and L2 and contact Council immediately of any change of conditions. Ground penetrating radar imaging will be on site at 0600 hrs to determine the extent of damage to the road.

Stable Swamp Creek, Rocklea

QFRS and LDCC to review and develop a multi agency action plan to address the 20000 L isotainer and other possible chemical packages in the flood plain adjoining Stable Swamp Creek, Rocklea.

Orleigh Park West End

Sixty meters of temporary fencing has been placed around the bike path and river walk affected by slippage.

OPERATIONS AND ASSESSMENTS

Intelligence

- Maps completed
- Maps for Detailing Temporary Disposal Sites
- Maps for Aerial Inspection
- Maps detailing bus stops affected by flood
- Maps detailing 29 "Adopt-a-Park" Parks including top 11 prepared.

StreetScape

The Streetscape database was created from Rapid Damage Assessment forms logged by Council officers in the field after the flood event. This data was entered into a spreadsheet by Council officers both at Green Square and in the LDCC. It was compiled and cleansed into a format able to be used by GIS. GIS used this

information to plot streets checked compiling a visual reference map of streets that needed further cleaning work or rubbish removal. Data gathered by Council officers was imported into the Streetscape database.

The Streetscape database can compile and interrogate information collected by field officers providing an effective tool to assist with the management of continual passes of those streets that needed to be cleared, cleaned or rubbish collected. Additionally, street validations of flood affected streets occurred, from the GIS database, preventing incorrect or erroneous data from being entered by Council officers.

Streetscape is being used to schedule and track Council officer movements, managing resources effectively in the clean up. It is also being used at Green Square allowing field officers to place information straight into Streetscape providing more up-to-date information and cutting down on the need for data cleansing.

GIS has since used this data to plot and track streets on reference maps as they have been cleaned and rubbish removed providing a visual reference of work completed and work yet to do.

Adopt a Park

Preparations for the volunteer clean up effort at the identified locations are complete. Council may be able to redirect volunteers to other suitable locations should the volunteer response exceed requirements. The decision to redirect volunteers will depend on the suitability of other locations based on work required, available resources and safety of volunteers.

Locations that have been identified are:

Park Name	Suburb	Park Name	Suburb
Booker Place Park	Bellbowrie	Dumbarton Drive Park	Kenmore

Flood & Weather Information

Tide Level Forecast for Sunday (23/01/2011) - High Tide prediction for Sunday at the Brisbane City gauge is expected to be 1.65m AHD approximately at 1235.

NOTE: The tidal water level will gradually decrease from Saturday onwards as the tide gradually decreases.

WORK UNIT UPDATES

Aerial Assessment

Another aerial assessment is scheduled for 1100 today, with the passenger list including a representative from the Department of Environment and Resource Management.

Compliance and Regulatory Services Update

CaRS branch carried out street assessments in sectors P, Q, R, J, I, A and H. Staff from all regions assisted with completing these street assessments.

SECTOR	SUBURBS	REGION
A	CHELMER, GRACEVILLE	S
H	ARCHERFIELD, COOPERS PLAINS, ROCKLEA	S
I	FAIRFIELD, TENNYSON, YEERONGPILLY, YERONGA	S
J	SOUTH BRISBANE, WEST END	C
P	BRISBANE, VALLEY, NEW FARM, NEWSTEAD, NEW FARM	C
Q	AUCHENFLOWER, MILTON, PADDINGTON, TOOWONG	W

Predicted Issues

- Food businesses continuing to wash sealed goods, eg cans, water bottles etc, and wanting to restock shelves with this and sell to the public. EHO's have advised food businesses that this does not meet with food safety requirements.
- Expected rise in number of building complaints as water levels drop and premises are cleaned and residents return.
- Requests for inspections of food premises wanting to re-open are likely to increase.

Current Operations

- EHO's are undertaking site visits to premises with Environmentally Relevant Activities and Flammable Combustible Liquid over the weekend.

Victoria Flood Event Assistance

BCC is in discussions with Victorian State Government and SES Victoria regarding the use of 50,000 sandbags in reserve at BCW Stafford depot.

Flood & Weather Information

Tide Level Forecast for Sunday (23/01/2011) - High Tide prediction for Sunday at the Brisbane City gauge is expected to be 1.65m AHD approximately at 1235.

NOTE: The tidal water level will gradually decrease from Saturday onwards as the tide gradually decreases.

No additional information regarding the high tide impacts has been provided by FIC since its last report of 1826, 22 January 2011. FIC update will be available in 1530 SITREP after the high tide.

Major Issues

Orphaned Chemicals, Stable Swamp Creek, Rocklea

As reported in 21 January 2011 2200 SITREP, QFRS were investigating a 20000 L tank located in the frame of a 20 foot shipping container located in the flood plain adjoining Stable Swamp Creek, Rocklea. An aerial investigation confirmed the isotainer displays a Class 3 placard– Flammable liquid DG diamond and UN2053. It was not possible to assess the integrity of the isotainer or the status of its contents due to the condition of the ground. QFRS also noted significant numbers of what appeared to be chemical packages, comprising 205 L drums, IBCs (1000-3000 L) and other containers.

A BCC Environmental Health officer attended and advised that this is a high (environmental) risk issue that should be prioritised for action. DERM has taken over the investigation of this issue and will remain lead agent during the investigation.

BCC Local Disaster Coordination Centre SITUATION REPORT

Phone: [REDACTED]

Facsimile: [REDACTED]

TO:

- Brisbane City Local Disaster Management Group
- Lord Mayor
- Chief Executive Officer
- Disaster District Coordinator
- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	60
DATE:	23/01/2011	PRIORITY:	Routine
PERIOD:	0600 – 1530hrs		
EVENT TYPE	Flood Event		

Flood and Weather Information

FIC Situation Report issued at 1:00 PM Sunday - 23/01/2011.

Tide Level for Sunday (23/01/2011)

- High Tide observed for Sunday at the Brisbane City gauge was 1.80 mAHD at approximately 12:29 PM. The recorded level was 0.05m higher than Friday's high tide and 0.10m higher than Saturday's high tide levels.
- High Tide was listed as at 12:35pm. Citywide Services staff attended known flooding areas and conducted patrols through the surrounding streets. All streets reported high water, however in majority of cases did not cover roads (with the exceptions of Waterloo St and Northey St – both closed during duration of the high tide). All roads returned to normal clear conditions.

Tide Level Forecast for Monday (24/01/2011)

- High Tide predicted for Monday at the Brisbane City gauge is expected to be approximately around 1.5m AHD at 1:20PM. Low lying streets around Albion, Windsor, Hemmant and Newstead may experience some tidal inundation. If further rainfall occurs in the morning prior to the tidal peak, flooding in the areas above may be exacerbated with any local rain at the time of high tide.
- Normal king tide impacts are expected to occur along foreshore areas.

OPERATIONS AND ASSESSMENTS

Aerial Assessment

- From the assessment of 23 January 2011, it was noted that the majority of streets (kerbside) are clean, and little flood waste was identified along streets.
- Estimated 97-98% clean in the areas that were viewed (suburbs included: Paddington, Milton, Toowong, Taringa, St Lucia, Indooroopilly, Fig Tree Pocket, Kenmore, Jindalee, Mt Ommaney, Westlake, Bellbowrie, Wacol, Oxley, Rocklea, Chelmer, Graceville, Yeronga, Fairfield, West End, South Brisbane, Fortitude Valley, New Farm, Newstead)

Assistance to Lockyer Valley Council

- Council is providing assistance to Lockyer Valley Council. Assistance includes:
- 100+ x mixed road signs
- 2 x Evolution traffic controllers
- 3 x BCW Delivery Managers/Works Supervisors (deployed today 23/01/2011)
- 4 x administration staff (deployed 24/01/2011)
 - 2 x human resources staff
 - 2 x administrative support staff

Bicentennial Bikeway / ██████████ - Coronation Drive

BCW and LAS will complete the clearing of the bikeway by COB Sunday 23 January 2011. CBMS have been tasked with a final sweep of electrical infrastructure to ensure the area is safe. ██████████ has been assigned an area adjacent to the bikeway for temporary storage of deconstruction material. This will not impact on the bikeway and has been clearly delineated for safety. It is anticipated that the bikeway will be open and fully operational at first light tomorrow morning (24 January 2011). Appropriate signage will be erected at each end tomorrow afternoon, advising that there is no lighting along the bikeway. Lighting restoration to be confirmed with CBMS.

██████████ – removal of seafood

██████████, located at 40 Suscatand Street, Rocklea, has 40 pallets of seafood which had not been refrigerated since the flood. Due to structural concerns with the warehouse, delays in removal of the seafood were experienced. BCW currently have a specialist demolition crew and a team (9 crews) tasked to clear the structures and food waste. Machinery to demolish the cold room at T & D trading will be sent from Shoebury St to Suscatand St at around 5:00pm Sunday with the machinery for unloading the cold rooms will follow. Unloading the cold rooms at Suscatand will continue at 600hrs on Monday.

Land slips

Site Location	Region	Current Status
Priors Pocket Road, Moggill	West	Geotechnical assessment undertaken.
Koorungal Drive, Jindalee	West	Geotechnical assessment undertaken.
Botticelli Street, Fig Tree Pocket	West	Geotechnical assessment undertaken.
Needham Street, Fig Tree Pocket	West	Geotechnical assessment and liaison with property owners undertaken.
Spinkbrae Street, Fig Tree Pocket	West	Site is assessed on an ongoing basis. QUU have arranged for exposed line plugged and temporary tankering (clearing lines 3 times a day) underway. Longer term solution to be implemented by QUU.
Mandalay Park, Fig Tree Pocket	West	Geotechnical assessment and liaison with property owners undertaken.
Timaroo Close, Westlake	West	Geotechnical assessment undertaken.
Westlake Drive, Westlake	West	Geotechnical assessment undertaken.
Wendoree Crescent, Westlake	West	Geotechnical assessment undertaken.
Radnor Street, Indooroopilly	West	Road remains closed until subsidation allows access and repair/restoration.
Atkinson Drive, Karana Downs	West	Geotechnical assessment undertaken.
Illawong Way, Karana Downs	West	Geotechnical assessment undertaken.
Birkin Road, (Booker Park end) Bellowbowrie / Riverhills	West	Geotechnical assessment undertaken.
Meirs Road, Indooroopilly	West	Road remains closed until subsidation allows access and repair/restoration.
Hawkesbury Road, Bellbowrie	West	Geotechnical assessment undertaken.
Bicentennial Bikeway, Milton (Land Street)	Central	As per Coronation Drive update on page 1. Bikeway anticipated to be open and operational tomorrow (24/01/2011).
Orleigh Park Bikeway, West End	Central	Temporary fencing, diversion and signage are in place to maintain safety.
Clydesdale Street, Sumner Park	South	Monitoring of this site continues. Issue was first identified two years ago. Strategies in place.

Note: all identified slip sites have been assessed with a geotechnical officer engaged and tasked where necessary. Appropriate road closures, detours, and signage are in place. Rectification and repair will occur when appropriate and possible. Landslip sites were also included in areas covered in today's fly-over. Results will be forwarded to RRG to undertake re-assessments 24/01/2011.

WORK UNIT UPDATES

Environmental Health – CARS

14 EHOs (8 South, 2 Central, 3 West, 1 East) based across the city are currently

- Assessing business that are open;
- undertaking inspections of each site (including food premises and those with flammable and combustible materials); and
- Responding to other environmental issues.

City Waste - Temporary Disposal Sites

Temporary Disposal Site	Status	Comments
Monier Road, Darra	Closed and being cleared	ADF are managing
Counihan Street, Rocks Riverside Park	Closed and cleared	
Jennifer Street, 17 Mile Rocks	Closed	Crews booked for Monday to undertake clearing.
Mt Coot-tha Gardens, Mt Coot-tha	Closed	Inspection to be undertaken today
Helipad, Sir Samuel Griffiths Drive, Mt Coot-tha	Closed and being cleared	Bulk bins ordered for site
Green Hill Reservoir, Russell Tce, Chapel Hill	Closed and cleared	
Slaughter Falls and Simpson Picnic Grounds, Mt Coot-tha	Closed and cleared	
Guyatt Park, Macquarie Street, St Lucia	Closed and cleared	
Meirs Road, Indooroopilly	Closed	Awaiting clearing (road failure needs to be remedied prior to waste removal)
Robertson Park, Indooroopilly Road, Indooroopilly	Site closed and cleared	
Cubberla creek Reserve	Closed	Inspection to be undertaken today
Mactier Street, Fig Tree Pocket	Closed and being cleared	
Hawkesbury Road, Anstead	Closed	Crews booked for Monday to clear
Bellbowie Shopping Centre	Closed and cleared of public waste	
Lions Park, Birkin Road, Bellbowrie	Closed	Crews booked for Monday to clear
Illawong Way, Karana Downs	Closed and cleared	

As at 1309hrs, the following sites remain open for temporary disposal:

- Telegraph Road (LAS yard), Bracken Ridge
- Nudgee Road, (old landfill site), Nudgee
- 295 Archerfield Road, Richlands
- Curlew Street Carpark, Shorncliffe

ADF

- Ongoing support Council in the removal of rubbish from temporary rubbish tips in Sector O and C
- Commenced tree removal in Sector E and Karana Downs
- Conducting opportunity rubbish removal with small teams in various sectors

Navy Update:

- Continuing survey of the Shipping channel in Moreton Bay
- Continuing survey of the Brisbane river for significant obstacles and locating specified targets
- Continuing diving inspections of bridge piers

Disaster Intelligence Group (DIG)

- Building and preparing reports from the Property Damage and Streetscape databases continues
- Analysing and improving the Street Assessment Summary Report
- Information requests from FP Group complete (these requests will be spatially displayed)
- Today's Helicopter flight (commenced 1300hrs); today's flight will concentrate on illegal dumping and landslip sites

- Regional Manager EMQ

EVENT NAME:	January 2011 Flood Event	SITREP NUMBER:	61
DATE:	23/01/2011	PRIORITY:	Routine
PERIOD:	1530 – 2200hrs		
EVENT TYPE	Flood Event		

Flood and Weather Information

FIC Situation Report issued at 1:00 PM Sunday - 23/01/2011.

Tide Level for Sunday (23/01/2011)

- High Tide observed for Sunday at the Brisbane City gauge was 1.80 mAHD at approximately 12:29 PM. The recorded level was 0.05m higher than Friday's high tide and 0.10m higher than Saturday's high tide levels.
- High Tide was listed as at 12:35pm. Citywide Services staff attended known flooding areas and conducted patrols through the surrounding streets. All streets reported high water, however in majority of cases did not cover roads (with the exceptions of Waterloo St and Northey St – both closed during duration of the high tide). All roads returned to normal clear conditions.

Tide Level Forecast for Monday (24/01/2011)

- High Tide predicted for Monday at the Brisbane City gauge is expected to be approximately around 1.5m AHD at 1:20PM. Low lying streets around Albion, Windsor, Hemmant and Newstead may experience some tidal inundation. If further rainfall occurs in the morning prior to the tidal peak, flooding in the areas above may be exacerbated with any local rain at the time of high tide.
- Normal king tide impacts are expected to occur along foreshore areas.

OPERATIONS AND ASSESSMENTS

Aerial Assessment

Council officers and a representative from the Department of Environment and Resource Management, along with a volunteer photographer conducted an aerial assessment in on Sunday 23 January 2011 between 11:30hrs and 13:00hrs.

The aerial assessment was to visually confirm Street Assessments completed as at 22 January 2011, update Council temporary rubbish dumps and investigate issues of illegal dumping. The secondary task of the aerial assessment was to investigate reports of subsidence in Moggill, Jindalee, Fig Tree Pocket, Westlake, Indooroopilly, Bellbowrie, Sumner Park and West End. The flight path (Figure 1) extended down the Brisbane River 500m inland from the river bank to cover sectors A, H, I, J, P, Q and R.

Subsidence was identified along the Brisbane River in the vicinity of Moggill, Jindalee, Fig Tree Pocket, Westlake, Indooroopilly, Bellbowrie, Sumner Park and West End. Additional debris was found in varying points in the Brisbane River that were not evident in the aerial assessment conducted on 22 January 2011.

Significant progress has been made to flood affected suburbs. All areas observed were clean with no need for additional kerbside collection except for Rocklea and areas of Oxley. At 2141 Ipswich Road, Rocklea (Stable Swamp Creek) illegal dumping of waste has been identified and pictures were taken.

Vaccinations

Clinics were held today at the following centres:

- St Aidans School, Corinda - 104 vaccinations (& 1 adacel)
- Jamboree Heights State School, Jamboree Heights -128 vaccinations (& 8 adacel)

Following discussions with Queensland Health, tetanus vaccinations will continue to be offered at four recovery centre locations on Monday and Tuesday as per the following schedule:

Monday 24/1/2011

9.00am - 11.00am - Yeronga Primary School, Park Road, Yeronga

1.00pm - 3.00pm - Uniting Church, 11 Sussex St, South Brisbane

Tuesday 25/1/2011

9.00am - 11.00am - St Aidans School, Cnr Kathleen St & Aidans Way, Corinda

1.00pm - 3.00pm - Jamboree Heights State School, Beanland St, Jamboree Heights

WORK UNIT UPDATES

Street Assessments

RRG and regional staff have now completed all 1,012 street assessments.

The following data is based on drive through streetscape assessments, conducted up to and including Sunday 23rd January 2011, by CARS staff, of affected streets in the 20 affected sectors across Brisbane.

The primary assessment is based on classifying streets into four categories, as follows.

Status	Definition
Active	Work is being conducted at the street and there are more than 2 truck loads (4m ³) of rubbish for removal.
Monitoring	Work has slowed and/or stopped. Rubbish less than 2 truck loads within the street for removal.
Inactive	The street is clear with no rubbish and no further action is required within the street, inspections will continue
Finalised	Patrols are no longer required/business as usual

Note: At this stage in the clean up operation no streets have been classified as "finalised" so all data is based on the first 3 status types only.

Key data from these assessments is summarised in tables and graphs below:

Streets by Status 23 January 2011

Status	Number of Streets	Percentage	Change since yesterday
Active	36	5%	-3%
Monitoring	275	36%	-6%
Inactive	448	59%	+9%
Total	759	100%	0%

Focus for Monday 24th January 2001

The focus for kerbside collection for Monday 24th January should be based on the following:

- Sectors of A, D, E, F, H, I, J, P and T
- Suburbs of Rocklea, Westlake, Darra, Sinnamon Park, West End, Bellbowrie, Fairfield, Chelmer, Indooroopilly, Jindalee, Milton, Riverhills and St Lucia

EVENT TYPE	Flood Event		

FIC Situation Report issued at 1400 hrs Monday - 24/01/2011.

BoM weather outlook for Tuesday (25/01/2011)

- Fine, Minimum 20 Maximum 31

Wivenhoe Dam Operations

All gates were closed at Wivenhoe at 12:00 on Wednesday 19 January 2011. Somerset and Wivenhoe dams have reverted to normal SEQwater operations. Remote monitoring has reverted to the On Call Duty Engineer from Friday 21 January 2011.

Rainfall (from BCC Floodwise Report on Monday 24/01/2011 at 12:43PM)

- Over the last 24 hours scattered Rain has occurred with the highest fall of 5mm occurring in Carindale

Tide Level for Monday (24/01/2011)

High Tide observed for Monday at the Brisbane City gauge was 1.41 mAHD at approximately 1:05 PM.

Tide Level Forecast for Tuesday (25/01/2011)

High Tide predicted for Tuesday at the Brisbane City gauge is expected to be approximately around 1.15m AHD at 2:05PM.

Please be advised that Sunday's (23/01/2011) high tide level at the Brisbane City Gauge was actually 1.61 mAHD and not 1.80 mAHD as recorded by the gauge. The BoM has advised that these changes are due to a malfunction of the Brisbane City Gauge.

Major issues

Australia Day preparations

All parks in Central zone with the exception of Lower River Terrace, Woolloongabba Rotary Park and Orleigh Park will be open.

Due to unfavourable weather conditions, grass in all parks has grown exceptionally long and the recent cut has resulted in some furrows.

Council will relax noise restrictions on the Australia Day Public holiday in flood affected areas to allow for a continuation of flood recovery efforts. A CSA will inform the public that a relaxation will apply to flood recovery efforts, within reason.

Bicentennial Bikeway

Bicentennial Bikeway will be closed from 0700 hrs – 1000 hrs Tuesday the 25th of January, for a storm water inspection by the pipe survey crew. This is to further investigate the depression in Coronation Drive near Cribb Street.

Watson road

The Minister's Office of the Department of Education contacted LDCC re flood affected debris dumped at what they believed was an "unofficial" site behind the Watson Road State School.

- City Waste Services confirmed the site is a registered existing dump site for normal refuse collection.
- The site has been tasked to receive flood-damaged/destroyed furniture and possessions during the clean-up phase. This ceased on Saturday 22/1/11.
- Council's CWS will coordinate the removal of flood debris to a permanent location.
- The risk assessment of identified hazards is deemed LOW (green).
- The office of Minister for DERM and Director General DERM is aware of the matter.
- EPA have performed regular site inspections to monitor the site. Matter has been resolved and is under continual monitoring by EPA.

Oxley Creek

An aerial inspection of the affected area is taking place this afternoon.

LAS and CARS officers will accompany officers from DERM to assess and identify the location and type of hazardous materials at Oxley Creek. The trip will be facilitated by the ADF using specialised equipment. The purpose of the trip is to ensure that the appropriate agencies are tasked with removing potentially hazardous material. DERM is the lead agency.

OPERATIONS AND ASSESSMENTS

Pest/Mosquito Control

- **Coastal Salt Marsh Wetlands and Salt Marsh Margin**
 - High tide of 2.65 m predicted on Friday 21/1/11, actual 2.80 m on north side and 2.76 m on south side (highest tide in this cycle by 5 cm)
 - Aerial treatment of wetland commenced Saturday afternoon and completed Sunday morning
 - Total of 2 100 ha treated including 200 ha on private land
- **Ground Mosquito Control Program**
 - One team (2 staff) worked on Brisbane Airport land – Saturday (contracted by BAC)
 - Three teams (6 staff) worked in the western suburbs treating flooded water in parkland and on land near the river and tidal creeks – Saturday and Sunday
- **Fly Control**
 - Weekend treatment of all food waste bins completed - 67 bins and 1 collection point still deployed across city
- **Complaints**
 - Small increase in complaint numbers but still within expected levels for January.

- **Today - 24 January 2011**

- Follow up inspection of north and south side salt marsh and salt marsh margin to monitor efficacy of weekend treatment
- Monitoring flood water check points in south west suburbs
- Continuing fly control on bulk bins
- Monitoring and treating the permanent and semi permanent water ponding on Council controlled land
- Treating floodwater in parkland and land near the tidal creeks

- **Fire Ants**

The Department of Primary Industries has extended the relaxation to the restriction of materials from Fire Ant affected areas. The following restrictions must be adhered to:

- The restricted item is waste material that has resulted from flood inundation or flood damage to a person's property.
- The item is disposed of through a regulated waste disposal system.
- The item shows no obvious or apparent visual signs of fire ant infestation

ADF

Army Update:

- Continuing to support BCC in the removal of rubbish from temporary rubbish tips in Sector O (Fox Street, Albion) and C (Monier Road, Darra)
- Jindalee Boat Ramp cleared of trees - However further work is required by BCC for the remainder of the park area. In particular bank stabilisation.
- Karana Downs, Kookaburra Park minor tree clearing works commenced.
- Oxley Creek Recon Report complete.
- Graceville Sea Scout Hall and pontoon recon complete. No further action by Army.
- Graceville Kindergarten recon complete. No further action by Army.

Navy Update:

- HMAS HUON will continue to survey the Moreton Bay anchorages and approaches
- HMAS SHEPPARTON and PALUMA are expected to continue river survey operations IVO Hamilton and Captain Cook Bridge
- The naval Clearance Diving Team will proceed with diving operations on significant contacts that were identified by DGST surveys.

BCW (Brisbane City Works)

- Proprietor from 40 Suscatand phoned about cleanout of his cold storage area. A team commenced at 6am today. Proprietor has given permission for part of his cold room to be removed to assist the operation.
- Bicentennial Bikeway closure signage has been produced and will be erected this afternoon.

Eduction of Gullies

- Transpacific, Brisbane City Works (BCW) and Barry Brother's have been tasked with educting gullies.
- It is anticipated all gullies will have been educted by Tuesday evening 25th January 2011.
- There are 6 suburbs with eduction in progress.
- Eduction will continue on a request and response basis after eduction completed as required.

DIG

- Clean up of the property damage database continues
- Once database is cleaned, DIG will provide RRG a list of the remaining properties to assess
- Today's helicopter flight will focus on capturing aerial photographs and assessment of parks and community facilities as well as creeks and gullies especially Oxley Creek
- Requested RRG to assess Port-a-loo locations, verifying if they are still required at these locations

Street Assessments

RRG and regional staff have now assessed 1662 streets. All priority streets have been assessed and there are 138 streets yet to be assessed, all streets will have an assessment by tomorrow.

Streets by Status

Status	Total	Percentage
Active	91	5.48%
Finalised	1	0.06%
Inactive	1065	64.08%
Monitoring	505	30.39%
Grand Total	1662	100.00%

Recovery Centres

All seven Recovery Centres are still operating with no issues.

OPERATIONS AND ASSESSMENTS

Aerial Assessment

An aerial assessment was conducted on Monday 24 January 2011 between 14:00hrs and 15:00hrs. The purpose of this report is to complete a visual assessment of the parks around Brisbane to ascertain if they are usable for Australia Day celebrations. The secondary purpose of this report is to investigate key waste disposal sites.

The following parks have sustained major damage and will remain closed for Australia Day:

- Faulkner Park, Graceville
- Perrin Park, Toowong
- Woolloongabba Rotary Park, East Brisbane
- River Terrace Park, Kangaroo Point
- Orleigh Park, West End
- Nixon Park, Oxley
- Fairfield Park, Fairfield
- Graceville Riverside Parklands, Graceville
- Brisbane Corso Park, Yeronga
- Jindalee Boat Ramp Park, Jindalee
- Rocks Riverside Park, Seventeen Mile Rocks
- Anstead Bushland Reserve, Anstead
- Kookaburra Park West, Karana Downs
- Fig Tree Pocket Riverside Reserve, Fig Tree Pocket
- Sir John Chandler Park, Indooroopilly
- Mt Crosby Sport Ground, Mt Crosby

A Community Service Announcement has been prepared but not yet approved.

Streetscape Assessment

This data is based on drive through streetscape assessments, conducted up to and including Monday 24th January 2011, of affected streets in the 20 affected sectors across Brisbane. The following data is on the total streets assessed, by most recent status (not the number of assessments).

The primary assessment is based on classifying streets into four categories, as follows:

Status	Definition
Active	Work is being conducted at the street and there are more than 2 truck loads (4m ³) of rubbish for removal.
Monitoring	Work has slowed and/or stopped. Rubbish less than 2 truck loads within the street for removal.
Inactive	The street is clear with no rubbish and no further action is required within the street, inspections will continue.
Finalised	Patrols are no longer required/business as usual.

Note: The status 'Finalised' is determined by the Field Operations Team within the LDCC, based on information collated from BCC and external agencies.

Focus for Tuesday 25th January 2011

The focus will be to coordinate the restoration of affected parks and community facilities, ensuring the safety of the community, in time for the Australia Day festivities.

Key data from the current assessments is summarised in tables and graphs below:

Street Assessments by Status

Status	Number of Streets Assessed 24 January 2011	Total Number of Streets Assessed
Active	5	78
Finalised	0	1
Inactive	402	1,118
Monitoring	64	516
Total	471	1,713

Please note that operations have assessed more streets than initially recognised through flood mapping.

CityCat Terminal Salvage Work

A barge owned by 'Smith Bridge' has been engaged by Council's City Design Branch to carry out salvage works at CityCat terminals along the river. Work will commence at UQ, working its way down the river over the next few weeks.

Disaster Declaration Expiry

The Declaration of a Disaster Situation made by the Premier expired today at 1000 hours today. Now that the Declaration has expired any action by Council workers that results in unintended damage to a residents property will not be covered under the Disaster management Act 2003 (QLD). Council workers and volunteers will be covered under Council's normal Liability insurance. Council workers and volunteers must obtain permission before entering private property and must only carry our Council authorised works.

LDCC transitioning from level 4 to Level 3

- Transition to Level 3 until 1700hrs on Monday 31 January 2011.
- SITREP's will now be sent out at 0600hrs and 1530hrs effective immediately. Evening and overnight activity will be reported in the daily 0600hrs SITREP.
- LDCC to continue 24 hrs, with reduced staffing (2) from 2000 to 0700 hrs
- Outstanding tasks to be completed by relevant work units with contacts provided to LDCC.
- Work units have been requested to provide rosters and contact details to LDCC, including for tomorrow (Wednesday January 26), for ongoing and new flood related tasks.
- List of ongoing/outstanding actions to be developed by LDCC by 1700 hrs today.
- Most work units transitioning to business as usual arrangements, including on call arrangements.

Flood Recovery

A central FaCS coordination group, reporting to the Manager of Local Asset Services, will identify, task, track and report flood recovery priorities and actions.

There will be representatives from areas across Council including:

- Brisbane City Works
- City Waste Services
- Compliance and Regulatory Services
- Community Services
- Local Asset Services 'Roads'
- Local Asset Services 'Parks'

Major issues

Kholo Bridge

Kholo Bridge was reopened without Council authorisation yesterday. RMIT West sent an urgent request to City Assets to inspect the structure. Road closure barriers are in place however motorists are driving around them.

Various media outlets have been incorrectly advising motorists that the road is open. Media has released a CSA advising that the road is closed.

Bicentennial Bikeway

A survey of the storm water pipe in the vicinity of the recent depression along Coronation Drive was completed this morning:

- Bikeway was closed during the survey and has since been reopened
- The survey was of a brick drain which was in reasonably good condition. It did not provide any answers to the subsidence which has occurred in the area.
- QUU Call Centre has been asked to investigate if the subsidence is linked to a sanitary sewer in the vicinity.
- The report is being prepared for distribution

Eduction Delay

Eduction work has been delayed 12hrs following a fuel tanker roll over at Middle Road, Logan. The contractor was required to respond to this spill.

OPERATIONS AND ASSESSMENTS

Pest/Mosquito Control

Coastal Salt Marsh Wetlands and Salt Marsh Margin

- Good results from weekend treatment observed on both north and south side locations
- Some small areas (such as under heavy mangrove cover) identified with moderate mosquito larvae numbers
- Quad bike team to treat these locations

Ground Mosquito Control Program

- Ground teams report light to moderate breeding in routine inspection and treatment locations
- Flooded creeks in the western suburbs are returning to normal flow patterns

Fly Control

- Daily treatment of all food waste bins completed – now only 50 bins and 1 collection point deployed across city

Today - 25 January 2011

- Monitoring flood water check points in south west suburbs
- Continuing fly control on bulk bins
- Monitoring and treating the permanent and semi permanent water ponding on Council controlled land

ADF

Army Update:

- Army Engineer plant assets will complete tasking regarding the removal of rubbish from temporary rubbish tips in Sector O (Fox Street, Albion) and C (Monier Road, Darra) today.

- Karana Downs, Kookaburra Park minor tree clearing works will cease at COB today.

ADF - Army support post transition from Level 4 to Level 3:

Army assets will finalise BCC tasking and return to Enoggera Barracks at 1800 hours on Tuesday 25 Jan 11. These assets will subsequently redeploy to the Grantham and Lockyer Valley regions for priority tasking.

Navy Update:

- HMAS SHEPPARTON and PALUMA conducted river survey operations between Gateway and Captain Cook Bridge.
- HMAS HUON conducted survey tasking in Moreton Bay anchorages and approaches.
- The Deployable Geo-spatial Survey Team (DGST) conducted
 - Obstacle and Target identification between Chelmer to Sherwood Reach
 - Target identification and depth survey between the Captain Cook Bridge and Hale St.
 - Visual inspection of Oxley Creek as far as Railway Bridge (1km upstream).
- The Clearance Diving Team Detachment has completed all bridge tasking.

BCW (Brisbane City Works)

The BCW Response Task Force Headquarters will close at 5pm, today - normal business processes apply from Wednesday 26 January 2011.

BCW TOTAL SUMMARY	
Total m3 Removed	114,903 m3
Total Potholes Completed	2,417
Total m2 of Road Repair	544.5 m2
Total KM's Swept	2,278.5 km's
Total Gullies Cleaned	1,656

STRUCTURES SUMMARY	
Summary	380 m3 Debris & Rubbish Removed
Work area	Go Between bridge, Kholo Bridge, Several footbridges around Brisbane, Walter Taylor Bridge, Coronation Drive, Floating River park
Work Type	Removal of Debris and silt from footbridges, Inspection of Structures, Installation of traffic controls, Misc bridge damage repair activities

DIG

The RRG are completing street and property assessments today, Thursday and Monday. RRG are also using hand held devices to complete these assessments, therefore the need for analyst staffing within the DIG has reduced.

DIG will receive the data collected from RRG at 4pm the day of assessments. DIG will be reduced to a team leader and an analyst starting at 4pm on the day of assessments to prepare the databases and reports required.

Vaccinations

Since 15th January, Council has vaccinated over 3450 residents and volunteers.

Queensland Health is operating mobile vans this week; they may relocate to recovery centres.

Recovery Centres

ADT (Adult Diphtheria and Tetanus) were available at the St Aidans and Jamboree Heights State School recovery centres.

Infant Clinic Vaccinations (progressing)

ADT will be available free of charge until Thursday 27th January for:

- volunteers registered and unregistered
- residents affected by the floods
- emergency workers.

FIC

BoM weather outlook for Wednesday: (26/01/2011)

Fine, Minimum 22 Maximum 33.

Tide Level Forecast for Wednesday (26/01/2011)

High Tide predicted for Wednesday at the Brisbane City gauge is expected to be approximately around 1.1 mAHD at 2:56AM.

OPERATIONS AND ASSESSMENTS

Assistance from City of Sydney

Four Environmental Health Officers from City of Sydney are working with Council this week and have deployed in South Region.

Plant and support staff arrived from Sydney at approximately 1330hrs yesterday. They were briefed at Lennon St, Stafford and are being deployed into Sectors Q & R this morning.

Streetscape Assessment Summary

The data is based on drive through streetscape assessments, conducted up to and including Tuesday 25th January 2011, of affected streets in the 20 affected sectors across Brisbane. Assessments are now completed via the Trimble hand held devices.

The primary assessment is based on classifying streets into four categories, as follows:

Status	Definition
Active	Work is being conducted at the street and there are more than 2 truck loads (4m ³) of rubbish for removal.
Monitoring	Work has slowed and/or stopped. Rubbish less than 2 truck loads within the street for removal.

Inactive	The street is clear with no rubbish and no further action is required within the street, inspections will continue.
Finalised	Patrols are no longer required/business as usual.

Note: The status 'Finalised' is determined by the Field Operations Team within the LDCC, based on information collated from BCC and external agencies.

Key data from the current assessments is summarised in the table below:

Street Assessment Volume by Status

Status	Number of Streets Assessed 25 th January 2011	Total Number of Streets Assessed
Active	17	79
Finalised	0	1
Inactive	99	1212
Monitoring	14	515
Total	{ =sum(b2:b5) \# "#,##0" * MERGEFORMAT }	{ =sum(c2:c5) \# "#,##0" * MERGEFORMAT }

Please note that operations have assessed more streets than initially recognised through flood mapping.

OPERATIONS AND ASSESSMENTS

East RIMT	Nil to report			
West RIMT	Nil to report			

Rapid Response Group

RRG conducted overnight patrols through a number of suburbs within flood affected sectors.

Suburbs patrolled:

Moorooka	Milton	West End
Rocklea	Toowong	South Brisbane
Archerfield	Fairfield	Brisbane
Coopers Plains	Yeronga	
Auchenflower	Yeerongpilly	

Rocklea industrial area was the heaviest of all suburbs for rubbish collection.

All streets toured were clean and open, small amounts of rubbish were sighted on footpaths. RRG will review again during the next street assessments.

RRG will undertake extensive street assessment today, personnel from other areas will assist.

OPERATIONS AND ASSESSMENTS

BOM

Bureau of Meteorology Tropical Cyclone Warning Centre Summary (28/01/2011)

Tropical Cyclone Anthony, Category 1, has redeveloped this morning and is moving in a north northeasterly direction. Tropical Cyclone Anthony is expected to adopt more of a north northwesterly track this afternoon and evening before becoming slow moving and intensifying further on Saturday.

FIC

Rainfall (from BCC Floodwise Report on Friday 28/01/2011 at 3:00PM)
No rainfall has been recorded in Brisbane catchment over the last 24 hours

Tide Levels for Friday (28/01/2011)

The low tide for Friday at the Brisbane City gauge was -0.29 mAHD at 11:26 am.

Insurance

Information from the Insurance Council of Australia

The insurance industry has received approximately 38,460 claims with an estimated value of \$1.51 billion. Further claims are anticipated as policy holders complete their cleanup and lodge claims.

To date:

Geographical Area

- 53% of claims are from the Brisbane area,
- 17% of claims are from the Lockyer Valley,
- 30% of claims are from regional Queensland.

Type of Claim

- 46% of all claims relate to residential properties
- 25% of all claims are for residential contents,
- 10% of all claims are for Commercial Property

- 11% of all claims are for Commercial and Domestic Vehicles
- 8% of claims are for other classes, including business interruption

Significantly damaged insured residential property:

- 1810 CAT A Unliveable Properties
- 1228 CAT B Liveable properties, which will need to be vacated during repair
- The regional breakdown for CAT A & B is the same, 70% in Brisbane, 14% in the Lockyer Valley, and 16% in Regional QLD.
- ICA will provide a monthly update on the clearance rate of CAT A and B properties.

Approximately 65% of all industry claims have had an initial assessment carried out, with many insurers reporting up to 90% completion in some areas. Delays in processing may occur due to a shortage of Hydrologists.

Kholo Bridge

BCW has undertaken some work on the bridge and approaches. City Assets has inspected the works and is now satisfied that the road and bridge is in a satisfactory condition for use and the bridge is now open.

OPERATIONS AND ASSESSMENTS

Bureau of Meteorology

Forecast for Sunday

- A shower or two
- Min 21
- Max 29

Tropical Cyclone Anthony is currently slow moving. Anthony is expected to turn to the southwest today and is forecast to intensify slightly as it approaches the Queensland coast. Damaging winds are expected to develop about coastal and island communities between Innisfail and St Lawrence late on Sunday.

Wivenhoe Dam Operations (as per re-issued FIC Situation Report at 15:00 on Thursday 20 January 2011 from SEQWater) All gates were closed at Wivenhoe at 12:00 on Wednesday 19 January 2011. Somerset and Wivenhoe dams have reverted to normal Seqwater operations. Remote monitoring has reverted to the On Call Duty Engineer from Friday 21 January 2011.

Tide Levels for Saturday at the Brisbane City gauge was 1.16 mAHD at 6.08am.

Tide Level Forecast for Sunday at the Brisbane City gauge is expected to be approximately 1.2 mAHD at 7:37 am.

City of Sydney

City of Sydney is sending a second deployment of four Environmental Health Officers to assist with inundation inspections; they will be working in the Southern Region.

Lockyer

Since Sunday 23 January 2011, the Council contingent consists of:

- Logistics (LDMG)
- Administration and support (LDMG)
- HR support to LVRC
- BCW crews, working in Grantham and area as required
- Administration and support (Office of the CEO)

Key events and issues

- LVRC is transitioning to recovery phase. An officer has been appointed to manage the recovery.
- Staff from SES/disaster management in other states and Qld councils have left.
- All seconded staff should leave by the end of the second week in February. The timeline will be finalised once the recovery manager is in place.
- Temporary office accommodation is in place.
- LVRC have produced an implementation plan including 4 subcommittees based on the EMQ/LGAQ disaster models.
- The first of these subcommittees met on Friday 28/1.

Work area updates

BCW

- The Lockyer Valley Regional Council CEO requested that BCW stay on into next week, beyond their initial Sunday end date. Three staff members will stay on until next week.
- Met with Army, deployed extra fleet resources to work with their teams.
- Attended Local Coordination Meeting. Main issues were community issues including entry to unsafe properties by residents, placing caravans on properties etc.

ADF

- Army intend to continue clean up until 3rd of February.
- Clean up operation still continues to make good progress. Waste material coming out of properties continues to reduce.

Logistics and Procurement

- Beginning to establish processes and procedures for the purchase/lease/rental of equipment needed as part of the recovery processes.
- Co-ordinating a purchasing cell.
- Temporary office accommodation co-located with the engineering contract staff.
- Still awaiting arrival and confirmation of available units.
- BCC staff have accommodation for the week beginning 31/1/11 in Toowoomba.

Parking for CBD residents

There is significant residential parking pressure in Macrossan and Howard Streets due to about 400 parking spaces in the two Admiralty Towers being closed from the recent flooding. It is expected to take over a month before the car parks are open.

CARS are providing a permit slip to the towers to give to residents and visitors which will relax the parking regulations along Howard and Macrossan Streets allowing residents to park on the footpath and next to the yellow line.

Footpath parking must allow room for pedestrian traffic. All parking must not block driveways or be dangerous for other road users. This relaxation will expire on 14 February 2011 in line with the interim parking policy, however further relaxation may be necessary.

OPERATIONS AND ASSESSMENTS

Beach Closure

Closure of Shorncliffe, Nudgee, Sandgate and Brighton Beaches – signs advising closure erected at beach access areas and boat ramps from Houghton Highway south to Nudgee Beach.

Queensland Health advised that people should avoid entering the water in Cabbage Tree Creek, Shorncliffe and Nudgee Beach.

DERM testing in Cabbage Tree Creek has shown elevated levels of enterococci (Enterococci are Gram positive bacteria inhabiting the gastrointestinal tract in humans. They are not highly pathogenic organisms. Extract from Queensland Health Infection Control Guidelines (Nov 2001)).

QLD Govt media release planned for 5.30am Sun 30 Jan 2011 to advise public.
Council media release planned for 7.30/8.00am to confirm Shorncliffe, Nudgee, Sandgate and Brighton Beaches are closed based on QLD Govt advice, and directing queries to QLD Govt.

(CaRS) to commence water tests on Sandgate and Brighton Beaches at 7am, Sunday 30 Jan 2011.

BOM – weather predictions

Sunday: mostly fine, chance of a shower or two. Mostly moderate E to SE winds.

City: Max 29

Bayside: Max 28

Monday: mostly fine, possible shower. Min 22. Max 30.

Tropical Cyclone Anthony: A Cyclone WARNING is now current for coastal and island communities from Cardwell to Sarina. At 1:00 pm EST Tropical Cyclone Anthony, Category 2 was estimated to be 360 kilometres east of Townsville and 245 kilometres east northeast of Bowen.

Tropical Cyclone Anthony is currently moving southwest and is expected to continue moving in this direction. It is slowly intensifying as it approaches the Queensland coast.

DESTRUCTIVE WIND GUSTS are expected to develop about coastal and island communities close to the cyclone centre as it approaches the coast late tonight.

DAMAGING WIND GUSTS are expected to develop about island communities this afternoon and over coastal parts between Cardwell and Sarina this evening and continuing overnight.

Beach Closure

BCC water sampling is now complete. Samples were taken at Sandgate (beach and stormwater outlet), Shorncliffe (beach and stormwater outlet), Cabbage Tree Creek and Nudgee beach. Samples have been taken to Queensland Health for analysis. Enterococci results should be available between 12-24hrs. Beach closure signage remains in place at the four locations.

Lockyer Valley

Extra fleet resources organised to work with the Army

Bulk debris in creek to be searched and then bulked out to dump - long reach excavator to be sourced

Debris removal to be completed (including removal from rail easement)

Ex Tropical Cyclone Anthony

Tropical Cyclone Anthony crossed the coast near Bowen just before 10pm EST Sunday and has now weakened into a tropical low. The low will continue to weaken as it moves further inland towards the southwest.

Tropical Cyclone Yasi (as reported by the World Meteorological Organisation)

Tropical cyclone Yasi is currently a Category 1 cyclone with a centre 987hpa. Yasi is located off Vanuatu and Fiji and is moving West-southwest at about 10 knots. The cyclone intensifying and is expected to hit the Queensland coast in the coming days.

Beach Closure

Permanent signage between Brighton to Shorncliffe including Nudgee Beach, has replaced temporary signage. A total of five personnel and five vehicles remained within the following areas providing Community liaison, Nudgee Beach x 1 Officer, between Brighton and Shorncliffe x 4 Officers. All Officers were advised to remain in location until last light.

Patrols continued over night, RRG crews report some signage placed at the Northern Beaches has been removed and taken and others have been torn down and discarded along the street. No evidence to indicate who or when this was done.

Tropical Cyclone Yasi

Issued at 1:52pm EST on Tuesday the 1st of February 2011 by the Bureau of Meteorology, Brisbane

Yasi is expected to slowly intensify overnight as it moves westwards over the Coral Sea and is expected to turn on a more west-south-westerly direction in the next 12 hours.

Damaging winds with gusts to 90 km/hr are expected to develop on the islands during Wednesday morning, then extend onto the coast during the day, and further inland across southern Cape York Peninsula and north of Charters Towers overnight.

Between Cooktown and Townsville these winds will become DESTRUCTIVE with gusts in excess of 125km/hr late Wednesday afternoon.

As the centre approaches the coast sea levels will rise above the normal tide with damaging waves and flooding of low lying areas near the shoreline.

Flooding rains will develop from Cooktown to Sarina during Wednesday afternoon and then extend inland overnight.

Lockyer Valley BCC support

- BCW's on the ground presence has been extended until mid to end next week approved by LVRC CEO, BCC's Disaster Management Manager, BCW manager. DDC advised through LDMG channels.
- Continuing to remove debris from railway easement
- Clean up effort continues around the township with no significant change in Staffing / Fleet Levels.

Beach Closures

Preliminary tests indicate that affected beaches will need to remain closed due to public health concerns. More detailed results are expected over the next few days. Council will continue to monitor situation to provide estimated duration of closure. A CARS officer has been appointed to oversee the Beach conditions. Signs are being made advising community of situation.

Streetscape Assessment Summary

Data is based on drive through streetscape assessments of flood affected streets, conducted up to and including Monday 31 January 2011.

The status 'Finalised' is based on information collated from BCC and external agencies

Street Assessment by Status

Status	Definition
Active	Work is being conducted at the street and there are more than 2 truck loads (4m ³) of rubbish for removal.
Monitoring	Work has slowed and/or stopped. Rubbish less than 2 truck loads within the street for removal.
Inactive	The street is clear with no rubbish and no further action is required within the street, inspections will continue.
Finalised	Patrols are no longer required/ business as usual.
Status	Number of Streets Assessed as at 31st January 2011
Active	17
Finalised	
Inactive	915
Monitoring	475
Total	1407

BOM – weather predictions for Brisbane issued at 4:50 am EST on 2/2/2011

Forecast for Wednesday

Cloudy with some drizzle during the morning. Only a shower or two during the afternoon and evening. Light to moderate E to NE winds. City: Max 31

Forecast for Thursday

Early drizzle Min 24 Max 31

Forecast for Friday

Mostly fine, chance of a shower Min 24 Max 32

Tropical Cyclone Yasi (selected key updates from BOM issued at 5:01am)

At 4:00 am EST 2/2/2011 Severe Tropical Cyclone Yasi, Category 5 was estimated to be 650 kilometres east northeast of Cairns and 650 kilometres northeast of Townsville moving west southwest at 30 kilometres per hour.

Yasi is a large and very powerful tropical cyclone and poses an extremely serious threat to life and property within the warning area, especially between Port Douglas and Townsville.

This impact is likely to be more life threatening than any experienced during recent generations.

The Cyclone has now reached CATEGORY 5 and will continue to move in a west-southwesterly direction during today.

Coastal residents within the warning, and particularly between Port Douglas and Townsville are specifically warned of an EXTREMELY DANGEROUS sea level rise [i.e. storm tide] as the cyclone approaches and crosses the coast. The sea is likely to steadily rise up to a level which will be VERY DANGEROUSLY above the normal tide, with EXTREMELY DAMAGING WAVES, strong currents and flooding of low-lying areas extending some way inland. People living in areas likely to be affected by this flooding should take measures

to protect their property as much as possible, and be prepared to follow instructions regarding evacuation of the area if advised to do so by authorities.

DAMAGING WINDS with gusts to 90 km/hr are expected to develop on coastal islands later this morning, then extend onto the coast during the day, and further inland across the northern tropical interior overnight.

Between Cooktown and Ingham these winds will become DESTRUCTIVE with gusts in excess of 125km/hr during the afternoon and VERY DESTRUCTIVE with gusts above 280 km/hr between Port Douglas and Cardwell during the evening as the cyclone approaches. These VERY DESTRUCTIVE winds can also occur on the seaward side of hills to the north of the cyclone and are also forecast to reach the Atherton Tablelands.

FLOODING RAINS will develop from Cooktown to Sarina during the afternoon and then extend inland overnight.

People between Cape Melville and Sarina, extending inland to Croydon and Hughenden should complete preparations quickly and be prepared to shelter in a safe place.

Details of Severe Tropical Cyclone Yasi at 4:00 am EST:

- .Centre located near..... 15.7 degrees South 151.7 degrees East
- .Location accuracy..... within 20 kilometres
- .Recent movement..... towards the west southwest at 30 kilometres per hour
- .Wind gusts near centre... 295 kilometres per hour
- .Severity category..... 5
- .Central pressure..... 924 hecto pascals

The next advice will be issued by the Bureau of Meteorology by 8:00 am EST Wednesday 02 February.

Status of Brisbane District Disaster Management Group (BDDMG)

Brisbane DDC will provide SITREP's twice daily to all Brisbane DDMG members. It was agreed that the Brisbane DDMG will meet daily at 14:30 until further notice from the DDC. The SDCC is activated in preparation. The Brisbane DDCC is not activated.

Call Centre Report

1 February 3.30pm to midnight

Total calls answered - 1289
SES calls answered - 40

2 February midnight to 5.00am

Total calls answered - 20
SES calls answered - 2

Staffing at 5.00am - 3 staff

Types of calls since midnight have been general, however some of the SES calls were ones that had been diverted or overflowed from the SES number from places like Mackay and Cairns.

Tropical Cyclone Yasi (Issued at 3:00 pm EST Wednesday 2 February 2011)

BOM has commenced hourly updates for Tropical Cyclone Yasi

Tropical Cyclone Yasi, CATEGORY 5, will continue to move in a west-southwesterly direction. The cyclone is expected to cross the coast between Innisfail and Cardwell close to midnight.

Coastal residents within the warning area, and particularly between Cairns and Proserpine including the Whitsundays, are specifically warned of an **EXTREMELY DANGEROUS SEA LEVEL RISE** [i.e. storm tide] as the cyclone approaches, crosses the coast and moves inland. The sea is likely to steadily rise up to a level which will be **VERY DANGEROUSLY** above the normal tide, with **EXTREMELY DAMAGING WAVES**, **STRONG CURRENTS** and **FLOODING** of low-lying areas extending some way inland..

DAMAGING WINDS with gusts to 90 km/hr are currently affecting the coast and islands, and are forecast to spread into the tropical interior overnight and west to Julia Creek during Thursday.

Between Port Douglas and Ayr these winds will become **DESTRUCTIVE** with gusts in excess of 125 km/hr developing during this afternoon and early evening, spreading into the tropical interior overnight. **VERY DESTRUCTIVE** winds with gusts up to 290 km/hr are expected to develop between Cairns and Ingham during the evening as the cyclone approaches and crosses the coast. These **VERY DESTRUCTIVE** winds will also occur north of the cyclone and affect the Atherton Tablelands.

Due to the large size of the cyclone, people in the path of the **VERY DESTRUCTIVE WINDS** are likely to experience these conditions for about 3 to 4 hours.

FLOODING RAINS will develop from Cooktown to Sarina during the afternoon and then extend inland overnight.

Further information regarding Tropical Cyclone Yasi

10,680 people have taken residence in relief shelters

A storm surge estimated at 6.5m will impact Cardwell

Lockyer Valley

After community meeting at Grantham, BCC's Brisbane City Works (BCW) has been requested to stay until next Friday 11 February 2011. This request has been made by the Lockyer Valley CEO and has been approved by Jason Cameron, BCC Disaster Operations Manager. DDC will be advised of amendment through LDMG at Lockyer Valley Regional Council (LVRC).

Key BCC Actions

- Advance requirements planning for Road and Asset - Rebuild stage.
- Sourcing goods and services for rebuild stage
- Assisting in volunteer day preparations.
- Meeting held with ADF major, Neil Polglase (LDMG – Local Disaster Coordinator) and a QPS representative in relation to how future tasking of work will be managed and handed over to LVRC
- QR to meet on site tomorrow to further coordinate removal of debris from rail easement

Brisbane

Flood Newsletter 7 distributed to all sectors on Wednesday 2 Feb 2011.

Beach Closure

Nudgee, Shorncliffe, Brighton and Sandgate beaches remained closed. Testing results due from Queensland Health late Wednesday afternoon when closures will again be reviewed.

RRG will continue to monitor these locations.

Precautionary testing of Wynnum wading pool also undertaken and results still pending.

Rapid Response Group

Central Parking officers are conducting patrols of the active streets and uploading the data to the streetscape database.

CARS officers have commenced inspections for flood affected premises with pools to ensure safe pool fencing. Approximately 800 of the 1600 inspections have been conducted.

Illegal dumping is being identified in some areas. Offenders are being advised that only flood affected materials from flood affected premises is allowed and to remove the material from the kerbside.

Telephone: [REDACTED]

Mobile: [REDACTED]

E-mail: [REDACTED]

Beach Closure

All beaches are to remain closed. Council is creating a series of new warning signs for these locations and at high risk locations adjacent to Oxley Creek.

An investigation is currently underway in relation to the sampling results at Shorncliffe that suggest contamination of the Shorncliffe foreshore area with sewage. State FSS and Council SAS lab microbiologists are continuing to advise.

CARS

- City of Sydney EHO's are assisting with conducting food premises inspections.
- Officers are continuing the streetscape assessments and property assessments across all flood affected areas.
- BCC EHO's are continuing ERA, Food & FCL inspections for flood affected premises.

Status Report

Weather Forecast

Rainfall

Over the last 24 hours scattered rainfall has occurred with the highest falls of 3 mm occurring in East Brisbane.

BoM weather outlook for the rest of Friday:

Mostly fine, chance of a shower

City: Max 32

Bayside: Max 31

BoM weather outlook for Saturday:

A shower or two

Minimum 23 and Maximum 32 degrees.

Today's Highest Recorded Tide Level

The recorded high tide for Friday at the Brisbane Bar was 1.21 mAHD at 9:55am.

Please note: The SEQWater gauge at the Brisbane City has been malfunctioning since Monday (31/01/2011) afternoon. Hence no recorded level for Brisbane City gauge is available.

Tide Level Forecast for Saturday

The high tide predicted for Saturday at the Brisbane City gauge is expected to be approximately 1.31 mAHD at 11:29am.

Please note: The SEQWater gauge at the Brisbane City has been malfunctioning since Monday (31/01/2011) afternoon. Hence this tide level prediction is based on the best assumption and should be considered with caution.

OPERATIONS AND ASSESSMENTS

Beaches

Nudgee Beach is being re-opened as of the afternoon, 4 February 2011. Other beaches currently closed, including Sandgate, Shorncliffe and Brighton beaches, remain closed until further notice and further testing has been completed. The beaches were closed last weekend following state government health warnings about water quality.

River Debris

Maritime Safety Queensland (MSQ) has raised an issue regarding large trees that have been dislodged from the banks upstream or on parts of land that have slipped into the river (eg. Jindalee and upstream), posing a potential major debris issue in the future.

Officers from MSQ have inspected the river. No further advice has yet been received.

Airborne Asbestos Monitoring

Airborne asbestos monitoring was conducted on 3 February 2011 at Willawong Landfill. All monitoring results are below the relevant guidelines. The second and final monitoring event will be Thursday 10th February 2011.

ITEM	COMMENTS
Political Issues	No known issues
City Waste Issues	Although kerbside collection for the floods ceased at the end of January, LAS have reported that their regions, in particular South and West, continue to collect large quantities of materials from the kerbside in areas that were inundated. Residents are to be advised that kerbside collections of flood affected items have now ceased and residents will need to take their items to transfers stations which are still free until 6 February.

Beaches

Signage, advising the closure of Nudgee Beach, has now been removed. The beach has been re-opened. Other beaches currently closed, including Sandgate, Shorncliffe and Brighton beaches, remain closed until further notice and further testing has been completed. The beaches were closed last weekend following state government health warnings about water quality.

River Debris

Further to the previous situation report, Council is liaising with Maritime Safety Queensland with regard to large trees in the Brisbane River at Jindalee and further upstream.

Bureau of Meteorology Warnings

CURRENTLY THERE IS NO STORM WARNING FOR BRISBANE.

OPERATIONS AND ASSESSMENTS

Regional Operations

	Personnel Deployed	Plant and Equipment Deployed	Work Completed
South	59 – LAS (which includes 28 Contract Staff) BCW – 10 Totaling - 69 Personnel	10 x Excavators 29 x Trucks 2 x Backhoe 1 x Front End Loader 15 x 22/24 Class Arb truck 1x Drott 3x Ute	Today - Estimated Approx 1235 m3 of flood debris removed from streets throughout southern region by 12pm (08/02/2011) Although our quantities appear to be lower than what you expect from the resources in the field the current environment is one made up of random sites each of which requires separate travelling time & establishment (setting up)
West	LAS x 12 Traffic control x 2 <u>Lower staff and machinery numbers today due to rain.</u>	8 x trucks (5, 10 ton, truck and dog Transpacific sucker truck) 4 x excavators (13, 15, 26, 32 ton) 1 x bobcats 2 x pozitracs 4 x 1 ton utes 1 x Drott	Estimated total flood debris collected (silt, mud, debris & rubbish) from 1300hrs Monday 7/2 to 1300hrs Tuesday 8/2 approx. 422m3.

Brisbane City Works (BCW)

- Attended daily 6.00am meeting with Army to pin point where we are all working for the day and to share Intel and resources.
- ADF to stand down tomorrow Wednesday 9 February 2011.
- All works in Helidon ceased due to rain overnight and early morning. Trucks were diverted to Grantham to remove debris stockpile from main street (removed and street clean).
- Handover with LVRC undertaken.
- Attended Local Coordination Meeting. No major on site issues. Most of the ongoing issues are community issues.
- Continued removing rubbish / debris from area next to railway easement.
- Tasked various clean up jobs to contractors.
- Main road through Grantham opened due to traffic incident yesterday afternoon. Road to remain open with local traffic management plan is in place.

Rapid Response Group (RRG)**Monitor Rocky Waterholes Creek for nearby flooding**

- Patrols conducted of Rocklea residential and industrial
- One (1) outbound lane off Fairfield Rd has approx 50mm coverage of water, leaving one (1) outbound lane still clear. Affected area opposite No. 958-993 Storage Shed to opposite No.945. LAS advised to attend to erect signage.
- Boobook St, Rocklea patrolled. To be monitored. Water just encroaching from parkland onto the roadway 1015hrs. Reinspected at 1100hrs no further encroachment within the street. No concerns for damage to residential homes or council assets

Compliance and Regulatory Services (CARS)

- Cabbage Tree Creek and Sandgate Beach to remain closed until the results of further sampling is undertaken. Shorncliffe Beach to remain closed due to high levels of contamination in the water sample results. – No further update.
- CARS are arranging signage to be erected at key locations along Oxley Creek due high readings of sewerage in the creek. No further update.
- ██████████ business premises at Archerfield. Sample results revealed (1) A quarter of the washed samples indicative of faecal contamination on the package surfaces and (2) None of the contents (food) of the samples carried any common food poisoning organisms. It has been noted that the sample size was far too small for any meaningful extrapolation. ██████████ are not prepared to dispose of nuts as that would cost \$1.4 million and they may not be insured. Council has issued an Improvement Notice to ██████████ to demonstrate how they will exercise due diligence in ensuring the flood affected food is safe before releasing its product to the market.
- Built Environment Officers are still carrying out inspections for flood affected premises with pools to ensure safe pool fencing – 1047 of 1682 assessed.
- Food Flood affected premises assessed – 145 of 271.

Transport	<p>Pavement failure – Margaret St (City) between Edward & Felix</p> <ul style="list-style-type: none"> • RRG in attendance with QUU. • Margaret Street is down to two lanes between Edward and Felix Streets. The foot paths are open and the road is accessible to local traffic only. Asphalt truck attending at 2am to repair. • There is a hole 2m x 1m x 2 m deep in the middle of the roadway. The cause of the subsidence is unknown (storm water has been ruled out). • Dial before you dig (dbyd) has been completed, enabling excavation to proceed with confidence. • BCW (Drainage) will take possession of the site at approx 18:00 today and begin to set up for a full closure (local traffic excepted) at 19:00 with traffic control of Margaret St between Edward and Felix and Felix between Margaret and Mary St. <p>CURRENT ACTION:</p> <ul style="list-style-type: none"> • Excavate remaining in left hand lane which has cavity underneath and attempt to determine cause (if possible) and then backfill and asphalt. <p>OUTLOOK:</p> <ul style="list-style-type: none"> • Previous experience with these types of incidents is that it is unlikely an exact cause will now be unearthed given that the stormwater has been ruled out and the sewer is an unlikely cause.

ITEM	COMMENTS
	<ul style="list-style-type: none"> On this basis backfilling with lean mix concrete and asphalt top will provide a permanent solution (at this location) It cannot be ruled out that there will not be similar incidents. There is no current reason why the road will not be returned to full service without restrictions by the end of the night. A completion time cannot be provided at this stage. An update for LDCC is planned for approximately 21:30 <p>FUTURE ACTIONS:</p> <ul style="list-style-type: none"> There has been some discussion of conducting a ground penetrating radar survey of the area to attempt to locate any other similar but not yet evident defects. There is some history of similar defects in the lower end of the CBD. Technical feasibility discussions are proceeding with an external service provider. <p>POINT OF CONTACT:</p> <ul style="list-style-type: none"> At this stage I will remain POC. As the LAS Roads duty Officer. I intend to visit the site at about 21:00 to monitor progress.

Pavement Failure – Margaret St (City) between Edward and Felix streets

The road was repaired by 0345 hrs this morning (09/02/2011). At 0500 hrs, RRG reported that the road was open. The sink hole measured approximately 6 x 3 meters wide with exposed pipes at 2200 hrs. A damaged earthenware pipe was located under the sink hole; a replacement was been located and the pipe repaired.

Tide Level Forecast for Friday (11/02/2011)

The high tide predicted for Friday at the Brisbane City gauge is expected to be approximately 0.87 mAHD at 3:08am.

Bureau of Meteorology Warnings

CURRENTLY THERE IS NO STORM WARNING FOR BRISBANE.

OPERATIONS AND ASSESSMENTS

Compliance and Regulatory Services

Beaches –

Cabbage Tree Creek and Sandgate Beach to remain closed as results of testing taken on 7 February reveal elevated levels of contamination. Further samples have been taken on 9 February 2011. CARS Environmental Health Officer's continue to consult with microbiologists from Council's SAS labs.

Signage at Oxley Creek –

CARS is arranging signage to be erected at key locations along Oxley Creek due high readings of sewerage in the creek.

██████████ –

No further update. ██████████ business premises at Archerfield. Sample results revealed (1) A quarter of the washed samples indicative of faecal contamination on the package surfaces and (2) None of the contents (food) of the samples carried any common food poisoning organisms. It has been noted that the sample size was far too small for any meaningful extrapolation. ██████████ are not prepared to dispose of nuts as that would cost \$1.4 million and they may not be insured. Council has issued an Improvement Notice to ██████████ to demonstrate how they will exercise due diligence in ensuring the flood affected food is safe before releasing its product to the market.

Pool fencing inspections –

No further update. Built Environment Officers have completed all 1682 pool fencing inspections for flood affected premises. Officers identified 88 premises with safety issues their pool fencing. Correspondence is being drafted to those owners to address the issues.

The recorded high tide for Friday at the Brisbane City was 1.01 mAHD at 2:29am.

Tide Level Forecast for Saturday (12/02/2011)

The high tide predicted for Saturday at the Brisbane City gauge is expected to be approximately 0.87 mAHD at 4:20am.

Bureau of Meteorology Warnings

CURRENTLY THERE IS NO STORM WARNING FOR BRISBANE.

Northern Beaches

Results from testing along the northern beaches have indicated that Brighton beach is safe to reopen. Sandgate beach north of Second Street is also safe to reopen. Shorncliffe beach and Cabbage Tree Creek area will remain closed.

CityCats and City Ferries

Following the flood recovery effort, 15 CityCat and CityFerry terminals will be reopened on Monday 14 February 2011 operating partial services, seven days a week.

CityCat, cross-river and inner-city ferry services will all be operating, using available terminals, with service frequencies similar to pre-flood services.

The remaining damaged terminals are being repaired so full service can be restored as soon as possible.

Lockyer Valley

Logistics

Ongoing as per SITREP 11, in particular

- Urgent revision of housing locations for external resources as selected site now unavailable. Logistics officer and Director - Corporate Governance attempting to locate new site as soon as possible.
- Sourcing site location for Global Care (charity organisation assisting with volunteer process).

Administration

- BCC deployed administrative support to return Monday 14 February 2011.

CEO's office

Ongoing as per SITREP 11, in particular

- Ongoing support to staff undertaking volunteer /request for assistance processes
- Major contributions with Director – Finance & Information Services and Director – Corporate Governance
- Ongoing support to the Recovery Group
- Meeting with Global Care in relation to volunteer process
- Liaising with contact centre with regard to scripting changes
- CEO schedule management.

The recorded high tide for Friday at the Brisbane City was 1.01 mAHD at 2:29am.

Tide Level Forecast for Saturday (12/02/2011)

The high tide predicted for Saturday at the Brisbane City gauge is expected to be approximately 0.87 mAHD at 4:20am.

Bureau of Meteorology Warnings

CURRENTLY THERE IS NO STORM WARNING FOR BRISBANE.

Northern Beaches

Results from testing along the northern beaches have indicated that Brighton beach is safe to reopen. Sandgate beach north of Second Street is also safe to reopen. Shorncliffe beach and Cabbage Tree Creek area will remain closed.

CityCats and City Ferries

Following the flood recovery effort, 15 CityCat and CityFerry terminals will be reopened on Monday 14 February 2011 operating partial services, seven days a week.

CityCat, cross-river and inner-city ferry services will all be operating, using available terminals, with service frequencies similar to pre-flood services.

The remaining damaged terminals are being repaired so full service can be restored as soon as possible.

Emerging Issues / Threats

QPS Media: Sink Hole Fortitude Valley

>>> <Police.Mediaoutgoingmail@police.qld.gov.au> 4/03/2011 8:40 am >>>

Update – Sink hole in Fortitude Valley.

Following earlier report of two sink holes in the Fortitude Valley area: Police have received reports of a gas smell coming from this location. Traffic is being diverted from the area and diversions are being put in place at St Pauls Terrace and Brooks and Anne Streets.

Motorists are asked to avoid the area due to traffic congestion.

QPS Media: Traffic hazard, Fortitude Valley

>>> <Police.Mediaoutgoingmail@police.qld.gov.au> 4/03/2011 8:13 am >>>

Motorists are asked to avoid the intersection of Brooks and Wickham Street, Fortitude Valley due to a traffic hazard.

There is a sink-hole in the left hand lane of Brooks Street going towards Anne Street and one in the left hand land of Wickham Street heading outbound towards Breakfast Creek, which is causing significant traffic congestion in the area.

Police are currently in the area directing traffic. Motorists are asked to avoid the area if possible.
