3 Update from 3 June 2010 Commission Meeting Optimising the Yield for the Brisbane River System.	Confirm that John Mulhern has been appointed to the Technical Panel Items outstanding from 3 June i) A paper detailing the status and scope of this project will be submitted to July Commission meeting. (ii) The paper will include all options that have been identified and a justification why raising the dam level will only marginally increase yield. (iii) It was agreed that the Steering Committee should be convened as quickly as possible to discuss and confirm this issue. (iv) Peter Sommer will discuss the paper with Karen Waldman once it is prepared. Paper titled 'Optimising Yield for the Brisbane River System' was presented to 5 August 2010 Commission Meeting. (i) The Project Plan is to be amended (page 6 – assessment matrix and page 8 – project costs) (ii) Ms Waldman is to ensure that the comment at page 11 of the Progress Report dealing with 'pricing' is reviewed and 'signed off' by Water Reform.	Tad Bagdon	7 September 2010	In Progress	The Paper, Project Plan and Progress Report are to be amended and resubmitted to the September Commission meeting.
