PLEASE RETURN WHITE PAGES

- Have you ever been advised of a flood management plan?

NO.

- Have you ever been asked to be on or involved with a Floodplain Advisory Committee?

NO.

- What do you feel could have been done to make your area safer:-

- Before the flood - recognising that there was potential for flash flooding and evacuating those who may be at risk.
- During the flood

- After the flood - would have liked more specific updates on power / water / phone - I didn't know whether to stay or leave my house.

- Other Questions or Statements.

* Do not build in areas prone to flooding (housing)

* Withcott will always be prone to flash flooding which may be hard to predict however the signs were there that this may occur ie. continual heavy rain - the area was waterlogged - I think more could have been done to warn and help residents in our area, murphys ck. etc. BEFORE it happened.

Ensure the questionnaire is filled out.

PLEASE RETURN WHITE PAGES.

- Do we need an early warning system for floods? YES

I think there is a need to recognise when there is potential for flash flooding to occur in our area (withcott) and this should be made very clear to communities if there is a situation/conditions where this may occur

- Have you ever been involved in a local meeting about flood early warning system?

NO.

- Would an early warning system work?

For some communities it may have given them the couple of minutes needed to evacuate.

- Had you been advised by Council, or State Government, the highest flood levels in your area?

NO.

- Had you ever received evacuation information for flood / landslides / fires?

NO.

Please turn over.
