PLEASE RETURN WHITE PAGES

- Have you ever been advised of a flood management plan?

No

- Have you ever been asked to be on or involved with a Floodplain Advisory Committee?

No - I would be happy to be part of this process to ensure the safety of myself and my family in the next event.

- What do you feel could have been done to make your area safer:-
- Before the flood - checking of all drains and waterways
- don't allow places to be built in flood areas
- During the flood
- This would be a good time to have a system in place to contact people.
- After the flood
Volunteer coordination so that those of us that ~~had~~ wanted to help knew where to go.
- Other Questions or Statements.

- Ensure the questionnaire is filled out.
- Complete cover sheet for submission.
- Return this form with your submission.

PLEASE RETURN WHITE PAGES.

- Do we need an early warning system for floods?

I don't believe it would have made any difference to those in the Lockyer Valley and therefore believe that it would be a waste of money.

- Have you ever been involved in a local meeting about flood early warning system?

No

- Would an early warning system work?

I believe it would be a waste of money unless it can really for-warn people. No use doing it if it is just a cosmetic "assurance" and not a real solution.

- Had you been advised by Council, or State Government, the highest flood levels in your area?

No

- Had you ever received evacuation information for flood / landslides / fires?

No - This would be great to know and better to put efforts into this than a warning system that would probably not work.

Please turn over.
