

KENMORE 4069

9th March, 2010

Dear Sirs,

Re Queensland Floods Commission of Inquiry - Communications;

I am writing regarding a flaw in getting out information to the community.

Our home was in an area where power was cut for a couple of days.

No power meant

- **our digital phones did not work;**
- **we were unable to recharge our mobile phones;**
- **we listened to transistor radio broadcasts which constantly advised us to go to www.---- to get updates on floods. This does not work if there is no power to operate the computer.**

Fortunately, we had kept an old analogue phone so we were not left completely in the dark.

Thank you.

Yours sincerely,

Mrs. Roberta M Greaves
