PLEASE RETURN WHITE PAGES.

- Do we need an early warning system for floods?

Yes I think we do, something that reaches everyone. A T.V. warning at 3pm is not going to reach many people. Perhaps a combination of TV, Radio, text msg, and a loud sounding Alarm in all towns.

- Have you ever been involved in a local meeting about flood early warning system?

No.

- Would an early warning system work?

As above - it needs to be something that reaches as many people as possible. ie people at school, work, home etc some kind of loud siren such as the rural fire Alarm.

- Had you been advised by Council, or State Government, the highest flood levels in your area?

No

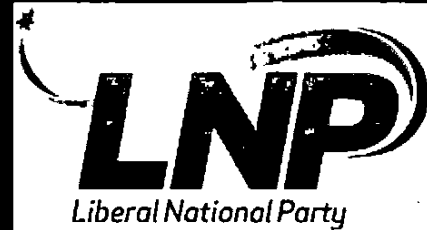

- Had you ever received evacuation information for flood / landslides / fires?

NO

Please turn over.

PLEASE RETURN WHITE PAGES

- Have you ever been advised of a flood management plan?

No

- Have you ever been asked to be on or involved with a Floodplain Advisory Committee?

No

- What do you feel could have been done to make your area safer:-
- Before the flood - A better way of alerting people to get to higher ground.
- During the flood - Better communication, ie stay indoors or move to higher ground? Road closures, safe drinking water etc
- After the flood
as above - Better communication

- Other Questions or Statements.

I would like to say that many of the services assisting in the recovery work were outstanding ie Centrelink Dept of Communities, Red Cross, Lifeline, SES etc. It makes you proud to be on Australian and Queenslanders!!

Ensure the questionnaire is filled out.
