Q'LD FLOODS COMMISSION OF INQUIRY

IN 1965 I STUDIED PHYSICAL GEOGRAPHY & CLIMATOLOGY
AT NIGHT SCHOOL IN MELBOURNE.

EVER SINCE, I HAVE HAD AN INTEREST IN THESE
SUBJECTS.

DURING 2010, I PHONED THE PREMIERS' OFFICE 4 TIMES
WARNING THEM OF IMMINENT FLOODS FOR THE COMING SUMMER.

APRIL WAS THE 1ST CALL & NOVEMBER WAS THE LAST.

I ADVISED THEM THAT THE WIVENHOE DAM WAS TO
BE AT NO MORE THAN 40%. NEVER ANY MORE. THE LAST
CALL IN NOVEMBER, I SAID THAT IF BRISBANE FLOODS IT WOULD BE
ON THE HON. PREMIERS HEAD. I THINK SHE WAS EMOTIONAL
BECAUSE OF HER STUFFUP, & WHAT HAPPENED TO SO MANY GOOD
PEOPLE WHICH COULD OR WOULD NOT HAVE HAPPENED IF SHE
HAD LISTENED TO PEOPLE ^{WITH EXPERIENCE INCL. WEATHER BUREAU} NOT BEING ROUGH. THEY ARE AT
PRESENT TAKING IT DOWN TO 75% WHICH WILL INCONVENIENCE PEOPLE
AGAIN. THE DAM SHOULD BE PROGRAMMED TO 40% INSTEAD OF
BULK DISCHARGE.

YOURS FAITHFULLY
