Colin

As discussed, for the gathering tomorrow, could you please consider that the Manual describes reasonable discretion as:

"If in the opinion of the Senior Flood Operations Engineer, it is necessary to **depart from the procedures set out in this Manual** to meet the flood mitigation objectives"

The question being "Was there a clear departure from the procedures of the Manual or was the Manual silent on the issue?"

Please contact me if this doesn't make sense.

Thank-you.
