		Australian Government
		\$4,738,080.00

## All Programs - All Local Government Applications Received - Acquisition of Properties in Flood-Prone Areas

ID	Funding Year	Program	Organisation	Study Title	Project Type	Categories	Project Description	Project Outcome	Status	Applicant Proposed / Approved Funds	State Government Proposed / Approved Funds	Australian Government Proposed / Approved Funds	Other Proposed / Approved Funds	TOTAL Proposed / Approved Funds	Combined State and Australian Government Funds	Comments
1189	2007-08	Natural Disaster Mitigation Program	Ipswich Rivers Improvement Trust	Reduction of Flood Vulnerability in High Risk Areas at Goodna - Woogaroo Creek	Works/Construction	Other	The project seeks to purchase land and houses in Parker Street, Mill Street and Enid Street in Goodna which are at the highest risk of flooding from the adjacent Woogaroo Creek. The intention is to seek to purchase these properties on a voluntary basis. Purchased properties would then be demolished and the land cleared. Depending on the number of purchases achieved the Trust would enhance these areas as public open space.	Reduction in risk to life and property from future local floods in Woogaroo Creek and from Brisbane River floods. Reduction in social costs of future floods in the area. Evaluation of project with a view to extension to other areas of Ipswich at high risk of flooding.	Unsuccessful	\$550,000.00	\$550,000.00	\$550,000.00	\$0.00	\$1,650,000.00	\$1,100,000.00	The project was deemed unsuccessful due to the program being oversubscribed and the funding allocation being met with higher priority projects.
1629	2008-09	Natural Disaster Mitigation Program	Ipswich Rivers Improvement Trust	Purchase and removal of houses in high flood risk areas - Woogaroo Creek	Works/Construction	Other	The project seeks to purchase land and houses in Parker Street, Mill Street and Enid Street in Goodna which are at the highest risk of flooding from the adjacent Woogaroo Creek. The intention is to seek to purchase these properties on a voluntary basis. Purchased properties would then be demolished and the land cleared. Depending on the number of purchases achieved Council would enhance these areas as public open space.	Reduction in risk to life and property from future local floods in Woogaroo Creek and from Brisbane River floods. Reduction in social costs of future floods in the area. Evaluation of project with a view to extension to other areas of Ipswich at high risk of flooding.	Finalised	\$550,000.00	\$550,000.00	\$550,000.00	\$0.00	\$1,650,000.00	\$1,100,000.00	Nil
1827	2009-10	Natural Disaster Resilience Program	Ipswich Rivers Improvement Trust	Purchase and Removal of Houses in High Flood Risk Areas - Woogaroo Creek Stage 2	Works/Construction	Other	The project seeks to increase the resilience of part of Goodna which is highly susceptible to flooding by voluntary purchase and subsequent demolition of some of the highest risk properties.	Reduces the populations risk from flooding in Woogaroo Creek in both local and regional floods. Will reduce demand on emergency services during flood events. Will provide guidance as to whether this approach should be applied to other areas of high flood risk.	Ineligible	\$575,000.00	\$550,000.00	\$550,000.00	\$0.00	\$1,675,000.00	\$1,100,000.00	The project was deemed in eligible as the project focuses on a small element of the community and does not identify how it contributes to the resilience of the whole community. Further, the project does not include a volunteer element; a requirement of the guidelines for NDRP Round 1 funding.
2124	2010-11	Natural Disaster Resilience Program	Ipswich Rivers Improvement Trust	Purchase and removal of houses in high flood risk areas - Woogaroo Creek 2010-11	Works/Construction	Other	The project seeks to increase the resilience of part of Goodna, which is highly susceptible to flooding by voluntary purchase and subsequent demolition of some of the highest risk properties.	Purchase of Houses; Demolition and site clearance. The implementation of this project will provide a reminder to all the residents of the hazards of flooding as well as removing high hazard residences. This work supports previous work the Trust has already implemented, for example an evacuation plan for this area, which has been given to Ipswich City Council for use by the local SES.	Unsuccessful	\$550,000.00	\$550,000.00	\$550,000.00	\$0.00	\$1,650,000.00	\$1,100,000.00	The project was deemed unsuccessful as the project does not meet the objectives and the priorities of the NDRP.
2395	2011-12	Natural Disaster Resilience Program	Ipswich Rivers Improvement Trust	Purchase and removal of houses in high flood risk areas-Woogaroo Creek	Works/Construction	Other	The project, which commenced in 2008-09 under NDMP funding, is to purchase land and houses in Parker Street, Mill Street and Enid Street in Goodna which are at the highest risk of flooding from the adjacent Woogaroo Creek, on a voluntary purchase basis with subsequent demolition and site clean-up. Depending on the number of purchases achieved Ipswich City Council may enhance these areas as public open space.	The implementation of the project will result in a reduction in both physical flood damage and to social impacts of flooding in this area, thereby resulting in a reduced demand for emergency response and recovery services during floods in this locality.	Unsuccessful	\$595,513.00	\$595,513.00	\$595,513.00	\$0.00	\$1,786,539.00	\$1,191,026.00	The project was deemed unsuccessful due to the program being oversubscribed and the funding allocation being met with higher priority projects.
