QFCI

Date:

9/2/12 JM

Exhibit Number:

1121

I can confirm that the questions you pose are identical to those asked in my letter of commission from Seqwater for my review. Furthermore, they are the questions that I addressed in my report forwarded to you last week.

I can also confirm that the final version of your report, received by me, does not cause me to change any conclusion or finding in my response.

Yours faithfully

Brian Shannon

Subject: Reports

Gentlemen

I apologise this advice did not come out with the reports last week as expected.

However, as discussed last week, and as previously advised by John Tibaldi, we request you confine your review to answering the following questions at this time:

1. The January 2011 Flood Event occurred between 6 January 2011 and 19 January 2011. Was the release of water from Wivenhoe Dam and Somerset Dam during the January 2011 Flood Event in accordance with The Manual of Operational Procedures for Flood Mitigation at Wivenhoe Dam and Somerset Dam (Revision 7)?
2. Based on the information contained in the draft Report, were there any aspects relating to the operation of Wivenhoe Dam and the operation of Somerset Dam during the January 2011 Flood Event **not** in accordance with The Manual of Operational Procedures for Flood Mitigation at Wivenhoe Dam and Somerset Dam (Revision 7)?

There may be other tasks we require help with but at this stage the answers to the above are required ASAP this week. The comments will be included in our submission to the Commission of Inquiry which will be lodged on Friday 11 March 2011. Therefore latest comments should be presented to us no later than by COB Thursday 2011.

Email response is fine

Please discuss any technical questions you may have with John Tibaldi on [REDACTED]

Regards

Jim Pruss
