

STATEMENT OF WITNESS

Prepared by: Legal Services Unit

Date: 23/03/2011

Name of Witness: *Bruce Thomas Grady*

Address of Witness: Emergency Services Complex, Cnr Park and Kedron Park Road, Kedron

Occupation: Public Servant

Position: Assistant Director-General (Emergency Management Queensland)

Telephone: [REDACTED]

I, Bruce Thomas Grady, Assistant Director-General (Emergency Management Queensland) for the Department of Community Safety state:

1. I have undertaken a range of Senior and Executive management positions within the Queensland Government since 1994. I joined Emergency Management Queensland in March 2006 as part of the Queensland Government's Executive Mobility Program and during this time I led the lessons learned review into Tropical Cyclone Larry. I have held the roles of Deputy Executive Director and Deputy Chief Officer within Emergency Management Queensland where my focus was on policy development, planning and operational response. I acted in the role of Chief Officer, Emergency Management Queensland from December 2009 to November 2010. In November 2011 I was appointed as Assistant Director-General, Emergency Management Queensland.
2. I have been provided with a copy of an information notice from the Queensland Floods Commission ("the Commission") of Inquiry dated 18 March 2011. I note that the notice requests a written statement in response to the thirteen questions outlined in the notice in addition to further general information regarding those aspects of the DCS submission to the Commission as they relate to EMQ.

General Information Regarding EMQ

3. To facilitate a comprehensive response to the questions posed by the Commission (and matters relating EMQ generally) I provide the following introductory information regarding EMQ.
4. EMQ has a total staff establishment of 262 being:
 - 71 staff attached to EMQ Helicopter Rescue (bases at Archerfield, Cairns and Townsville)
 - 109 staff located in Regional or Area Offices (across seven regions with regional Offices based at Brisbane, Ormeau, Toowoomba, Sunshine Coast, Rockhampton, Townsville, and Cairns; additional area offices at Mt Isa, Mackay, Longreach, Maryborough and Roma)

This is page 1 of a statement comprising 5 page/s.

Witness (Bruce Thomas Grady): [REDACTED]

**JPI/Solicitor/Commissioner for
Declarations:** [REDACTED]

- 82 staff located at the Emergency Services complex at Kedron
5. EMQ has a total budget (2010/2011) of \$79.2M comprised of :
 - \$25M for EMQ Helicopter Rescue
 - \$14.3M for grants administered for State and or State/Commonwealth grants programs to assist disaster management and volunteer organisations.
 - \$6.4M for direct support to the SES (training and equipment)
 - \$33.5M for permanent staff and supplies and services to support disaster management and volunteers.
 6. The Disaster Management Review 2009 and the subsequent amendments to the *Disaster Management Act 2003* (effective 1 November 2010) has resulted in a significant shift in focus for EMQ.
 7. Previously the Executive Director EMQ undertook the role of Executive Officer to the State Disaster Management Group and EMQ had primary responsibility for delivering the State's response role in the response phase of disaster events. These roles have moved from EMQ, primarily to the QPS, with the introduction of the amendments to the *Disaster Management Act 2003*.
 8. To respond to the change EMQ reviewed its organisational structure and purpose and is now focused on:
 - i) ensuring continuous improvement of the disaster management arrangements in Queensland;
 - ii) the monitoring of performance and compliance with policy and plans by State, District and Local Disaster Management Groups;
 - iii) managing arrangements with the Commonwealth about disaster management;
 - iv) reporting to the State Disaster Management Group;
 - v) providing disaster management training and providing advice and support to State, District and Local Disaster Management Groups.

More detail of EMQ's services and support is outlined in the attachment "BG1".

9. EMQ and the Queensland Police Service (QPS) worked collaboratively to determine and document the roles, responsibilities and operational doctrine that would guide the practical response arrangements under the new legislation.
10. EMQ and QPS also undertook a comprehensive program of regional engagement with local government, EMQ and QPS staff to explain the proposed changes.

Details of the planning and preparation functions undertaken during 2010

11. I have collated the relevant data of EMQ's attendance at Local Disaster Management Group meetings and participation in the review of the disaster management plans at various shire Councils into the attached schedule "BG-2".
12. I have collated the relevant data of EMQ's attendance at District Disaster Management Group meetings and participation in the review of disaster management plans of the Brisbane, Bundaberg, Dalby, Gladstone, Gympie, Ipswich, Longreach, Mackay, Maryborough, Redcliffe, Rockhampton, Roma, Toowoomba and Warwick Disaster District and their corresponding local government areas (including, but not limited to, Exercise ORKO): into the attached schedule, "BG-3".
13. I have collated the relevant data of the conduct of disaster management training and exercises in the Brisbane, Bundaberg, Dalby, Gladstone, Gympie, Ipswich, Longreach, Mackay, Maryborough, Redcliffe, Rockhampton, Roma, Toowoomba and Warwick Disaster District and their corresponding local government areas (including, but not limited to, Exercise ORKO):into the attached schedule, "BG-3".

This is page 2 of a statement comprising 5 page/s.

Witness (Bruce Thomas Grady):

**JP/Solicitor/Commissioner for
Declarations:**

14. I have collated the relevant data of measures taken to ensure continuing preparedness and capability through the provision of training and equipment in various local government areas into the attached schedule "BG-4".
15. I have collated the relevant data in relation to the 2010 series Pre-Season Flood and Cyclone Workshops held in Charleville, St George, Mackay, Beenleigh, Gladstone, Rockhampton and Gympie including dates on which each workshop was conducted; a summary of the information disclosed on each occasion; and an institutional breakdown of the attendees at each workshop into the attached schedule "BG-5".
16. I have collated the relevant data in relation to the second round of consultation sessions regarding the proposed changes to the *Disaster Management Act 2003* conducted during July – August 2010 in Mackay, Brisbane, Maryborough, Emerald, Rockhampton, Charleville, Roma, Toowoomba and Beenleigh, including the dates on which each session was conducted; an overview of the matter addressed at the sessions; and an institutional breakdown of the attendees at each session into the attached schedule "BG-6".
17. I have collated the relevant data in relation to Exercise ORKO including an institutional breakdown of the participants in the Exercise; a summary of any review conducted in the Exercise; a summary of any identified outcomes or areas for improvement as a result of the Exercise into the attached schedule "BG-7".
18. I have collated the relevant data in relation to the Commonwealth's Pre-Season Operational Briefing for disaster managers held on 12 November 2010 including the location of the briefing and whether remote conferencing formed part of its format; an overview of the information presented at the Briefing; an institutional breakdown of the attendees at the Briefing; any steps taken to disseminate the information to relevant stakeholders (including those local government areas which were ultimately flood affected) not in attendance at the Briefing into the attached schedule "BG-8".
19. I have collated the relevant data in relation to the community test of Emergency Alert Version 2 conducted in the Esk area including the date/s on which the test was/were conducted; the method/s for determining the success rates for the test; and the details of any community feedback concerning the test and/or the operation of the Emergency Alert system into the attached schedule "BG-9".
20. I have collated the relevant data in relation to Exercise BONSAI including the date on which the Exercise was conducted including an overview of the form which the Exercise took and the participants involved; and any identified outcomes or areas for improvement as a result of the conduct of the Exercise into the attached schedule "BG-10".

Details relating to 2010/2011 Flood events

21. I have collated the relevant data of both the utilisation and adequacy of disaster store caches placed at Beenleigh, Rockhampton and Maryborough, and the appropriateness of their various locations during the 2010/2011 flood events into the attached schedule "BG-11".
22. The role of State Recovery Coordinator (SRC) was approved to deal with the long-term recovery from disaster events that had occurred up to 29 December 2011. The early focus of the role was in establishing the structure, governance and priorities for the longer term recovery effort.
23. The SRC secured premises for the recovery effort at 200 Mary Street, Brisbane from 7 January 2011. A small team was established to commence the following tasks:
 - i) engagement with local government and the establishment of local recovery committees;
 - ii) the collection and management of data around damage to property and business;
 - iii) the development of reporting tools;

This is page 3 of a statement comprising 5 page/s.

Witness (Bruce Thomas Grady):

**JP/Solicitor/Commissioner for-
Declarations:**

- iv) the management of offers of assistance from the public and business sector;
 - v) the development of an ICT environment to support recovery operations;
 - vi) the identification of liaison officers from those agencies with a direct role in recovery efforts (including DEEDI, DoC, DPW, Transport and Main Roads, DERM).
24. Additional areas of regional Queensland were affected by flooding with additional property and infrastructure damage after 29 December 2010. As a result, on 5 January 2011 the Queensland Government appointed Major General Mick Slater to lead the Queensland Flood Recovery Task Force.
 25. Following the flooding events in the Lockyer Valley, Ipswich and Brisbane from 10 January to 13 January 2011 the Queensland Reconstruction Authority was established. The responsibilities of the SRC were then transitioned to the QRA during the period to 21 January 2011.
 26. I have collated the relevant details of the particular challenges presented by the resupply of the cities of Mackay and Rockhampton and the manner in which these challenges were managed within the disaster management framework, and an assessment of both the adequacy of the resources for these operations and any possible areas for improvement into the attached schedule "BG-12".
 27. Operational details of the evacuation centres established during the floods are not available to EMQ. The establishment of evacuation centres is managed by each local government as an element of their disaster management planning.
 28. EMQ usually undertakes a post event review of the performance of each local and district group activated during a disaster however because of the ongoing operational requirements following TC Yasi (including further heavy rainfall and flooding events), the efforts required to prepare data for the Commission of Inquiry, and the continuing workloads on local governments it has not been practical or reasonable to commence these tasks.
 29. I have collated the relevant details of the current progress in the acquisition of Digital Elevation Model data for both 'coastal communities' and 'inland flood towns' and the availability and utilisation of this data by relevant stakeholders, including local government areas into the attached schedule "BG-13".
 30. I have collated the relevant details of the operational deployment and tasking of EMQ personnel and equipment in connection with the Toowoomba and Lockyer Valley flash flooding events of January 2011 into the attached schedule "BG-14".
 31. I make this statement of my own free will believing its contents to be true and correct.

This is page 4 of a statement comprising 5 page/s.

Witness (Bruce Thomas Grady):

**JP/Solicitor/Commissioner for
Declarations:**

Justices Act 1886

I acknowledge by virtue of Section 110A (6) (c) (ii) of the Justices Act 1886 that:

- (1) This written statement by me dated 18/10/2010 and contained in the pages numbered 1 to 8 is true to the best of my knowledge and belief; and
- (2) I make it knowing that, if it were admitted as evidence, I may be liable to prosecution for stating anything that I know is false.

..... Signature

Signed at Brisbane this 24 day of March 2011

Preface

The Emergency Management Queensland (EMQ) Guidelines were updated after the Disaster Management and Other Legislation Amendment Bill, 2010 was adopted by parliament on October 5, 2010. The disaster management review was initiated from recommendations in the Report on a Review of Disaster Management Legislation and Policy (Sullivan and the Consultancy Bureau, 2009).

The Disaster Management and Other Legislation Bill, 2010 will be incorporated into the *Disaster Management Act 2003* (the Act) as an amendment to the Act.

Purpose

The purpose of the Guidelines is to detail the role of EMQ in developing, maintaining, monitoring and continuously improving the State's disaster management arrangements and systems.

Structure

EMQ is an agency of the Department of Community Safety (DCS) which comprises the following:

- State Headquarters (Kedron);
- Seven Region and 12 area offices; and
- Three Helicopter Rescue air bases.

To fulfil the obligations of DCS under the Act, EMQ is responsible for providing the following services:

- A. Disaster Management;
- B. Volunteer Management (including grant and subsidy management and administration);
- C. Disaster Management Funding; and
- D. Additional responsibilities during disaster operations.

A. Disaster Management

EMQ is required to undertake the following tasks and responsibilities, in accordance with the functions of the Chief Executive, as outlined in *Disaster Management Act 2003*, s16(A).

1. Review and assess the effectiveness of disaster management by the State including the State disaster management plan and its implementation, through:

- coordinating the development and annual review of the State disaster management plan (SDMP), including ensuring adequate consultation with agencies and adequate distribution to agencies that have a role in the SDMP;
- ensuring district and local groups reflect the arrangements within the SDMP in district and local plans;
- ensuring exercises are held to test the arrangements in the plan and to trigger updates of the plan and recommendations for improvement of the plan or supporting guidelines are incorporated into the plan and/or guidelines during annual review;
- conducting post-disaster assessments to: determine lessons learned, and develop findings and recommendations for improvement, which will inform disaster management plans, guidelines and policy;
- supporting the conduct of research projects to ensure the most current science is being applied to disaster management; and
- contributing to the assessment of projects under the Natural Disaster Resilience Program (NDRP), to ensure the continual enhancement of community resilience.

2. Ensure that disaster management and disaster operations within the State are consistent with the Queensland disaster management Strategic Policy Framework (SPF), SDMP and guidelines, through:

- coordinating the review of the SDMP on an annual basis and SPF on a bi-annual basis;
- participating in state, district and local groups and related sub-committees to ensure consistency throughout all sectors of the disaster management community;
- developing and maintaining disaster management guidelines, as required and upon direction by the State group; and
- ensuring that when conducting planning reviews, exercises and post-disaster assessments, that disaster management arrangements and disaster operations are planned for and delivered in accordance with the SPF, SDMP and guidelines.

3. Establish and maintain arrangements between the State and Commonwealth about matters relating to effective disaster management, through:

- representing Queensland in appropriate National level committees and groups;
- organising the participation of Queensland's disaster management stakeholders in the review and subsequent exercising of relevant National plans and arrangements;

- ensuring the SDMP acknowledges and links to relevant National plans and arrangements;
 - providing assistance and support to hazard specific primary agencies and functional lead agencies, to ensure Queensland's hazard specific and functional plans acknowledge link to relevant National plans and arrangements;
 - promoting NDRP throughout Queensland and advising on and assisting with applications; and
 - providing NDRRA training and advice and assist with applications.
- 4. Regularly report to the State group: the effectiveness of disaster management by the State; and the implementation of the SDMP, through:**
- reporting on the outcome of the annual SDMP review;
 - reporting on exercise outcomes and the implementation of recommendations at the State level;
 - reporting on the findings and recommendations of post-disaster assessments and the implementation of improvements and enhancements to disaster management plans, guidelines and policy; and
 - reporting on the findings of research projects and the implementation of any agreed recommendations.
- 5. Regularly review and assess the effectiveness of disaster management by district groups and local groups, including district and local disaster management plans, through:**
- undertaking a biannual assessment of district and local plans and completing a Planning Assessment Report for each plan, including assessment recommendations;
 - working with district and local groups to assist in the implementation of agreed recommendations from the Planning Assessment Report;
 - participating in the review of district plans by providing agency relevant input in the development of the plan, and assessing technical aspects of the plan¹;
 - participating in the review of local plans by providing input in the development of the plan, and assessing technical aspects of the plan;
 - coordinating and ensuring local and district exercises are conducted on a regular basis;
 - ensuring exercise outcome reports are developed and distributed;
 - supporting district and local groups to ensure agreed exercise outcome recommendations are implemented;
-
- conducting post-disaster assessments of events within the district and local areas²;

¹ As Regional EMQ officers will be a significant contributor in the development and review of district and local plans, the assessment of plans will be undertaken in conjunction with an EMQ officer external to the respective Region.

- reporting on the findings and recommendations of post-disaster assessments and the implementation of improvements and enhancements to disaster management plans and arrangements at the district and local level; and
- supporting district and local groups to ensure agreed post-disaster assessment findings and recommendations are implemented.

6. Ensure that persons performing functions under the Act, are appropriately trained, through:

- developing a disaster management training framework to provide disaster management stakeholders with a training pathway, ensuring the effective performance of their functions under the Act;
- developing training packages to support the disaster management training framework;
- providing support and assistance to State, district and local groups to undertake a training needs analysis, so that an annual training program can be developed for State, district and local levels;
- delivering training in accordance with the disaster management training framework to disaster management stakeholders at State, district and local levels;
- developing induction packages for new members of state, district and local groups for delivery by the disaster coordinator of each respective group; and
- coordinating and ensuring disaster management exercises are conducted at State, district and local levels to test plans and assess the level and numbers of trained personnel.³

7. Provision of advice and support to the State, district and local groups in relation to disaster management and disaster operations, through:

- participating as an active member of state, district and local groups, and related sub-committees; and
- providing advice on: contemporary disaster management practices; outcomes of state, national and international post disaster assessments; and disaster research findings.

² As Regional EMQ officers will be involved in disaster operations the conduct of post-disaster assessment will be undertaken by an EMQ officer not directly involved to the response and recovery operations nor the day to day delivery of EMQ functions within that Region.

³ To ensure the effective exercising of EMQ officers, exercises will be coordinated and undertaken by EMQ officers external to the respective Region.

B. Volunteer Management

EMQ maintains a role in the management of disaster management volunteers. This is through leading, directing and coordinating State-wide services to enhance volunteer outcomes, through the development of policies and strategic frameworks to support volunteers.

EMQ also administers the Government support to the Volunteer Marine Rescue Association of Queensland (VMRAQ), Australian Volunteer Coast Guard Association (AVCGA), Surf Lifesaving Queensland (SLSQ) and the Royal Surf Life Saving Society (RLSS).

1. State Emergency Service

EMQ is required to undertake the following tasks and responsibilities, in accordance with the functions of the Chief Executive, as outlined in *Disaster Management Act 2003*, s83(a), (b) and (c). These include:

- establishing management and support services for the SES (s83[a]) through:
 - managing recruitment and selection processes;
 - managing resources and equipment for SES Units;
 - improving communication systems; and
 - providing counselling and a support program called Embrace to increase SES members' resilience before, during and after stressful events or critical incidents.
- Developing and implementing policies and strategic frameworks to help the SES perform its function effectively and efficiently (including policies about training for SES members) (s83[b]) through:
 - actively engaging with local governments for agreements on roles and responsibilities;
 - developing and maintaining SES Operations Doctrine; and
 - ensuring SES volunteers are trained to ensure the effective performance of the approved functions and activities of the SES.
- ensuring the Local Controller of a SES Unit performs the controller's functions (s83[c]) through:
 - providing adequate training so that the person appointed can perform the Local Controller functions;
 - ensuring the Local Controller complies with relevant legislation and SES Operations Doctrine, and;
 - performing an annual performance review.
- the SES safely and efficiently performs its functions through:
 - managing, supporting and coordinating SES activities;
 - ensuring SES members comply with relevant legislation and SES Operations Doctrine,
 - ensuring adequate training programs are developed, implemented and evaluated;
 - ensuring training competency is maintained and monitored;
 - ensuring the health and safety of SES members;

- providing adequate resources and equipment (including personal protective equipment) to ensure the SES Units effectively perform their functions and activities as per the *Disaster Management Act 2003*; and
- managing and administering grant and subsidy programs to assist SES Units in performing their functions.

2. Emergency Service Units

The Chief Executive, as outlined in *Disaster Management Act 2003*, s89 may establish Emergency Service Units with functions including: performing an SES function; or fire fighting or fire prevention.

EMQ in accordance with the functions of Director General DCS have the responsibility for:

- establishing management and support services for the unit (s92[a]) through:
 - managing equipment supplies for the SES capability
 - providing EMbrace support service to volunteers
- developing policies to help the unit perform its function effectively and efficiently (including policies about training for the unit) (s92[b]).

3. Volunteer Agencies and Associations

EMQ provides support to a number of volunteer agencies and associations that assist with disaster management in Queensland. These include:

- a. Volunteer Marine Rescue Association Queensland (VMRAQ);
- b. Australian Volunteer Coast Guard Association (AVCGA);
- c. Surf Life Saving Queensland (SLSQ); and
- d. Royal Life Saving Society (RLSS)

EMQ manages government support to these agencies above through providing:

- service agreements for the provision of annual funding, which outlines the services to be provided in exchange for Government funding (funding is limited to operational costs directly associated with service delivery);
- additional funding, grants and/or donations, or the administration of these, in addition to the annual payments to enhance specific elements of service delivery (e.g. Election Commitments); and
- The Secretariat for the Queensland Volunteer Marine Rescue Committee (QVMRC), which included representatives from VMRAQ, AVCGA and SLSQ.
- Regional implementation and coordination of Memorandum of Understanding between EMQ and volunteer agencies and associations.

C. Disaster Management Funding

EMQ has an administrative function to deliver National disaster management funding arrangements at the state level, and administer State programs. Disaster management funding covers the following:

1. Natural Disaster Relief and Recovery Arrangements (NDRRA);

NDRRA is an activation of a set of financial administrative arrangements, for funding to communities affected by eligible natural disaster events. NDRRA can be activated independent of a declaration of a disaster situation.

NDRRA eligible natural disasters include: Bushfire, Cyclone, Earthquake, Flood, Landslide, Meteor Strike, Storm, Storm Surge, Tornado and Tsunami. Terrorist events are eligible as an interim measure.

The Commonwealth/State NDRRA are able to be activated when the small disaster criterion of \$240,000 is exceeded for whole of the State disaster expenditure.

The Minister for Police, Corrective Services and Emergency Services is responsible for activating and coordinating the delivery of NDRRA assistance measures.

EMQ manages the administration, implementation and coordination of NDRRA on a Whole-of-Government basis.

2. State Disaster Relief Arrangements (SDRA); and

SDRA addresses personal hardship and community response needs for events where NDRRA is unable to be activated. SDRA relief measures for Personal Hardship and Counter Disaster Operations are the same relief measures that are activated under NDRRA, but are funded by the State government and not the Commonwealth government.

SDRA is able to be activated when Department of Communities identifies at least one case of genuine personal hardship and distress (i.e. meets criteria for contents replacement and building repair/replacement grant assistance).

The Minister for Emergency Services (supported by EMQ) is responsible for activating and coordinating the delivery of SDRA assistance measures.

EMQ manages the administration, implementation and coordination of SDRA on a Whole-of-Government basis.

3. Natural Disaster Resilience Program (NDRP)

NDRP is a four year disaster mitigation and community resilience competitive grant program funded through shared contributions of the Australian Government, the Queensland Government, and eligible applicants.

The vision of the NDRP is "to reduce Queensland communities' vulnerability to natural hazards by supporting regional councils and other stakeholders to build community resilience."

This vision is supported by the following broad objectives: reduce community vulnerability to natural hazards; support local governments and others to build community resilience and increase self-reliance; promote innovation through a focus on building partnerships between sectors, support volunteering, encourage a regional or catchment area approach to mitigation, and potential impacts due to climate change; and ensure that NDRP funding is utilised in an efficient way.

EMQ administers NDRP, with the Australian Government and is responsible for regional delivery and coordination of the program.

D. Additional responsibilities during disaster operations

In addition to the legislative and administrative roles above, EMQ is tasked with specific responsibilities to support disaster operations at State, district and local levels. EMQ's role in disaster operations includes the following:

1. Ensure the availability, maintenance and operation of the State Disaster Co-ordination Centre (SDCC), through:

- maintaining a 24/7 Watch Desk Officer (WDO) position at the SDCC to provide situational awareness of potential disaster events and report to the SDMG about disaster management of the State;
- maintaining a 24/7 State Duty Manager to support the WDO with advice and guidance in conducting their role;
- providing an Executive Manager to supervise the availability, maintenance and operation of the SDCC;
- coordinating and delivering SDCC training to officers across State government agencies to ensure the SDCC is appropriately staffed during a disaster event; and
- reporting to the State group on SDCC activations and preparedness activities.

2. Manage re-supply operations, through:

- assisting local groups to coordinate resupply requests;
- endorsing re-supply requests at the district/regional level;
- providing approval, through the Assistant Director-General, EMQ, for re-supply requests at the State level.
- providing approval, through the Regional Director, EMQ, for re-supply requests at the Regional level;
- coordinating transport arrangements for approved resupply requests (at the level where appropriate resources are available); and
- supporting local groups to coordinate the receipt and delivery of resupply at the local level.

3. Coordinate, support and manage the provision of State Emergency Service (SES) resources, through:

- coordinating SES deployments across local government and district boundaries in consultation with respective local governments.

4. Contribute to Recovery Operations, through:

- performing the role of State Recovery Coordinator, when requested by the State group; and
- participating in and supporting recovery operations at the State, district and local levels.

5. Provide a conduit to, and support the deployment of, corrective service resources to assist in disaster operations, through:

- ensuring contact lists in the SDCC and at Regions are maintained and include the appropriate contact for corrective services

- provide communication link between agency seeking the resources of corrective services
- 6. Coordinate, support and manage the helicopter rescue service, through:**
- coordinating the deployment of helicopters for rescue and recovery operations on a priority basis
- 7. coordinate requests for use of Emergency Alert through:**
- endorsing requests at a Regional level through the Regional Director, EMQ
 - approving requests through the State Disaster Coordinator or Assistant Director General EMQ if a SDC is not appointed.
- 8. coordinate requests for Commonwealth assistance through:**
- endorsing requests at a Regional level through the Regional Director, EMQ
 - approving requests through the State Disaster Coordinator or Assistant Director General EMQ if a SDC is not appointed.
- 9. Following an eligible event EMQ will:**
- consult with administrative authorities to obtain initial damage estimates on eligible relief measures;
 - If it is determined that damage estimates exceed the small disaster criterion of \$240,000, advise the minister for police, corrective services and emergency services that it is appropriate to activate NDRRA for specific relief measures only (subsequent measures may be activated to assist individuals and communities affected by disaster events); or
 - if damage estimates on eligible relief measures does not reach or exceed \$240,000, and at least one case of personal hardship is identified by the Department of Communities as a direct result of a disaster event, advise the minister for police, corrective services and emergency services that it is appropriate to activate SDRA and indicate the specific date range and geographic boundary to which SDRA relief measures should apply.

Southern Downs					
Toowoomba					
Western Downs					
Woorabinda					

Please note: SES Training courses shown may be used for more than one purpose (i.e. training students and training instructors) and may have taken place in separate locations on some dates – effectively resulting in more than one course. This is the minimum number of courses run.

SES Equipment is essentially provided when EMQ authorise its issue. The issuing is a process that involves other parties. Delivery times will vary due to a range of local factors, including the capacity of a volunteer organisation to have individuals available to collect the items.

SES Equipment Issued - Barcaldine SES Unit

SES Get Ready Guide

www.emergency.qld.gov.au/emq/css/beprepared.asp

Step 1 – Prepare your Household Emergency Plan

Having an Emergency Plan is an important step towards preparing your household to prepare for, survive and cope with emergencies.

www.disaster.qld.gov.au

Involving all household members in developing your emergency plan means that everyone will know:

- potential risks and impacts
- what to do to prepare
- how to stay in contact with each other
- who to contact in an emergency, and
- actions to take during a cyclone, storm, flood or tsunami.

Here are four steps to assist you to develop your Emergency Plan:

1. Research hazards and disaster management arrangements in your community:

- Check with council if your area is prone to cyclone, storm, flood or tsunami
- Ask about local emergency plans, evacuation zones and nominated evacuation routes for where you live and work
- Ask about details in emergency and evacuation plans at your workplace, school and childcare provider. Provide them with your household emergency contact details
- Find out what sort of support is available to your household via council and local support agencies (if required)

2. Discuss possible scenarios and responses with your household:

- What might happen in a cyclone, storm, flood or tsunami?
- What would you all do in the event of each emergency?
- Where might you be when an emergency occurs? (Home, school, work etc.)
- How will you stay in contact?
- Where would you go if you need to evacuate?
- Are there medical conditions or special needs of household members that require specific consideration?
- What preparations are required for your pets?

3. Record details on your Emergency Plan:

- Two out of town emergency contacts in case you and your family become separated
- Two emergency meeting places in case you cannot return home or you need to evacuate. One in your neighbourhood and another further inland and on higher ground that everyone can easily get to
- Information on the council evacuation zone you live in and nominated evacuation routes for your area
- All householder contact phone numbers
- Specific medical conditions, essential medications and dosage
- Details for your pets – description, veterinarian contact details and medications
- All tasks required prior to evacuating (storing electrical items off the ground, switching off main supplies, sandbagging drains etc.)

4. Ensure everyone is prepared:

- Teach children how and when to call Triple Zero (000) in an emergency (use 112 from mobile phones)
- Ensure householders have current First Aid certification
- Ensure everyone knows where, how and when to turn off the main power, water and gas supply in case of emergency and evacuation

Practice your emergency plan every three months to ensure everyone remembers actions required.

Display your Emergency Plan and Emergency Contact Information on the fridge, provide copies to household members, relevant friends, family and neighbours and keep a copy in your Emergency Kit.

Step 1 – Prepare your Household Emergency Plan

Step 2 – Prepare an Emergency Kit and Evacuation Kit

Evacuation Kit

If you live in a low-lying coastal area or an area prone to flooding, preparing an evacuation kit now can save you time and stress in the event of cyclone, storm tide or flood.

Recommended items include:

- Multiple changes of clothes for everyone, stored in watertight plastic bags
- Pillows, sleeping bags and blankets
- Valuables, photos (prints, compact disks, USB, data cards) and mementos in waterproof plastic bags
- Extra essential medications and repeat prescriptions
- Extra toiletry and sanitary supplies
- Books and games for children
- Extra baby food, formula and nappies (if required)
- Extra money as cash (ATM's may be inoperable if power supplies are impacted)
- Mobile phone, spare battery and charger

www.disaster.qld.gov.au

Emergency Kit

Your Emergency Kit includes provisions for your essential needs in the event of an emergency. Include items that you require for several days disruption to essential services, power and water supplies. Keep your kit in a waterproof storage container and store in an easy to access location. Check your kit every three months to stock up and rotate supplies to ensure provisions are fresh and safe to use.

Food and water for at least three days:

- 10 litres of water per person as 3 days supply
- Non-perishable food
- Can opener, cutlery and cooking equipment

Medical and sanitation supplies:

- First Aid Kit and manual
- Essential medications, prescriptions and dosage
- Toilet paper and personal hygiene items
- Toiletries – toothbrush, toothpaste, soap, shampoo etc

Light:

- Battery or wind-up torch and lantern (extra batteries)

Communications:

- Battery powered or wind-up radio (extra batteries)
- Traditional wired landline telephone (to use without power)
- Fully charged mobile phone and charger
- Prepaid phone cards and coins for phone booth calls

Clothing and footwear:

- Change of warm protective clothes and shoes for everyone
- Garden and rubber gloves

Tools and supplies:

- Plastic garbage bags, ties
- Utility knife and duct/masking tape
- Basic toolkit and supplies

Miscellaneous items:

- Specific items for infants, elderly or people with special needs
- Spare house and car keys
- Pet food, water and medications
- Cash to use in case of disruption to ATM power supply

Important documents:

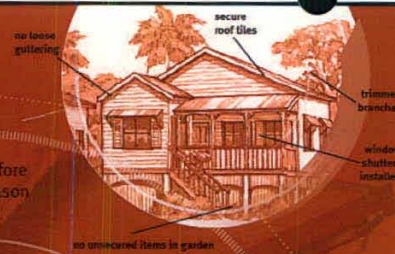

- Insurance papers for house, contents and vehicle
- Inventory of household goods
- Wills, life insurance, house deeds and banking documents
- Passports, Birth and marriage certificates
- Medicare, pension cards and immunisation records
- Household Emergency Plan with emergency contact phone numbers

Step 2 – Prepare an Emergency Kit and Evacuation Kit

Step 3 – Prepare your Home

The best time to commence preparations for your home is before cyclone, storm and monsoon season (September / October each year)

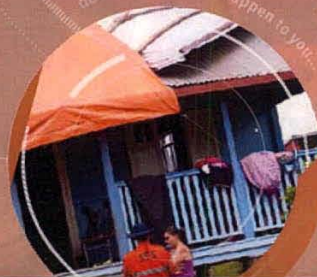

General Home Maintenance:

- Check the condition of your roof, repair loose tiles, eaves and roof screws
- Keep gutters and downpipes clear so water can drain away quickly
- Trim trees and overhanging branches close to the house to prevent damage to your roof due to trees falling
- Check and fix any corrosion, rotten timber, termite infestations and loose fittings
- Keep loose items around your property and garden secure to minimise damage in high winds (such as garden furniture and implements)

www.disaster.qld.gov.au

General Home Preparations:

- Ensure your home, contents and car insurance is current and adequate. Check your policy includes debris clean up and removal
- Identify the strongest room in the house, in case you need to shelter in place during severe storm or cyclone
- Identify where and how to turn off the main supply for water, power and gas
- Purchase essentials to have on hand such as emergency water storage containers, spare fuel supply for vehicle (ensure you store it safely), masking tape and plastic bags to tape up damaged windows, hessian bags and sand for sandbagging indoor drains to prevent sewerage back-flow in flood

If you live in a flood-prone area:

- Store all poisons and garden chemicals well above ground level
- Identify which indoor items you will need to raise or empty if flood threatens
- Consider alternatives to carpet floor coverings and relocating electrical sockets and power-points to well above previous flood levels

If you live in a cyclone / severe storm-prone area:

- Arrange a professional builder to check your building and identify ways you can increase the structural security of your home to withstand high winds
- Fit windows with shutters or metal screens for added protection during high winds

Final home preparations:

when warnings are issued for cyclone or severe storm

- Disconnect electrical appliances and all external television and radio aerials
- Secure outdoor furniture and garden items
- Fill buckets and bath with clean water in case of interruptions to water supply
- Close windows with shutters or tape windows with strong tape and draw curtains
- Park vehicles under cover, away from trees and powerlines
- Turn off electricity and gas main supplies if instructed by emergency authorities
- Check all household members are safe and sheltering in the strongest room in the house
- Take your Emergency Kit with you whilst you shelter in place
- Stay tuned into warnings by listening to local radio for updates on the event and further safety messages

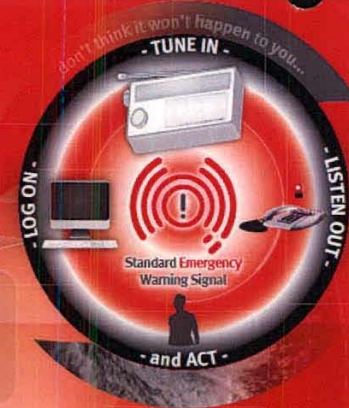

when warnings are issued for flood:

- Disconnect electrical appliances
- Move outdoor equipment, garbage, chemicals and poisons to higher location
- Empty and raise items such as freezers and refrigerators
- Stack or move furniture, valuables and electrical items off-site
- Sandbag internal drains and toilets to prevent sewage backflow
- Move livestock, plant and feed to higher ground

Step 3 – Prepare your Home

Step 4 – Tune into Warnings!

Ensure everyone knows how to
Tune In, Log On, Listen Out and Act:

When warnings are issued you may be directed to:

- finalise preparations
- secure items around your home
- activate your Emergency Plan
- shelter in place, or
- commence evacuation to your predetermined safer location

Tune in:

- Tune your battery powered radio to your local ABC radio station or your local commercial radio station to listen for weather and warning updates
- Find your local ABC radio frequency at: www.abc.net.au/local
- Turn your television to your local station to watch and listen for warning updates

Log on:

- To the Bureau of Meteorology www.bom.gov.au for weather warnings
- To the Queensland Disaster Management Services website www.disaster.qld.gov.au for information on disaster events
- To your local council website for information on local emergency management plans and local evacuation arrangements

Listen out:

- For the Standard Emergency Warning Signal (SEWS). This is a warning siren sound used at the beginning of serious warnings on radio and television
- For Emergency Alert voice messages to your landline and text messages to your mobile. These alerts may be used by authorities to warn communities about bushfires and severe weather events
- For sirens and loud-hailer announcements that Emergency Services may use in certain circumstances
- For Emergency Services personnel who may door-knock your local area to pass on warnings
- For more information on Weather Warnings phone:

QLD Tropical Cyclone Warnings:	1300 659 312
QLD Land Weather and Flood Warnings:	1300 659 319
QLD Coastal Marine Warnings:	1300 360 427
Australian Tsunami Threat Information:	(1300 TSUNAMI)
	1300 878 6264
QLD General Warnings (if all costs apply)	1900 969 922

Act:

- Act quickly on the advice provided
- Ensure all householders are aware of the warning and advice provided
- Check on neighbours and friends who may need special assistance
- Activate your Emergency Plan
- Locate and collect your Emergency Kit
- Activate your evacuation arrangements if required

The Standard Emergency Warning Signal (SEWS) is a warning siren sound used throughout Australia for emergency events of major significance such as severe cyclone, bushfire, flood and storm.

When you hear the SEWS on radio, television or over the phone via Emergency Alerts, pay careful attention to the message that follows and act immediately on the advice given.

EMERGENCY ALERT. BE WARNED. BE INFORMED.

Emergency Alert is a telephone warning system that authorities can use to provide warnings to communities.

Emergency Alert can be used to send voice alerts via landline telephones based on the location of the handset, and text alerts to mobile phones based on the billing address.

If you receive an Emergency Alert, you need to listen carefully to the advice provided and act immediately.

For further information on Emergency Alerts issued in Queensland visit

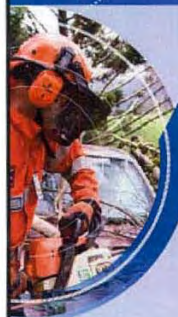

www.disaster.qld.gov.au

Step 4 – Tune into Warnings!

Safety Tips for cyclone and severe storm

Severe Storm

There are two types of severe storms: thunderstorms and land gales. Thunderstorms can produce hail, wind and lightning, which can cause death, injury and damage to property. Land gales are gale force winds that occur over the land.

When you hear a severe storm warning:

- Stay tuned into Warnings! Keep listening to your local radio station for severe storm advice and warnings.
- Shelter and secure animals.
- Secure outdoor furniture and garden items.
- Park vehicles under solid shelter or cover with firmly tied tarpaulins/blankets.
- Secure all external doors and windows and draw curtains.
- Safeguard your pets.
- Keep valuables, medications, spare clothing in plastic bags and your emergency kit handy.
- Disconnect all electrical items, external TV / radio aerials, and computer modems.

During a severe storm:

- Stay tuned into Warnings! Keep listening to your radio for severe storm updates.
- Activate your Emergency Plan.
- Stay inside and shelter well clear of windows, doors and skylights.
- If the building starts to break up, shelter in the strongest part (cellar, internal room, hallway or built-in wardrobe) under a mattress, doona or a strong table or bench.
- If outdoors, seek solid enclosed shelter.
- If driving, stop clear of trees, power lines and streams.

www.disaster.qld.gov.au

Cyclone

A cyclone is a violent storm, with high winds rotating around a calm centre, that can produce winds in excess of 200 km/h. These winds cause extensive damage to property and turn debris into dangerous missiles. Cyclones also bring flooding rains, which cause further damage to property, and increase the risk of drowning. Cyclones can also bring about storm tide, which is a rapid rise in sea level that moves inland very quickly. Storm tide can damage buildings, cut off evacuation routes and be the cause of injuries and sometimes death.

A **Cyclone Watch** is issued by the Bureau of Meteorology when gales or stronger winds associated with a cyclone are expected to hit within 24 to 48 hours. A **Cyclone Warning** is issued by the Bureau when gales or stronger winds are expected to hit within 24 hours.

When you hear a cyclone warning:

- Stay tuned into Warnings!
- Activate your Emergency Plan.
- Turn off all electricity, gas and water and unplug all appliances.
- Safeguard your pets.
- Keep your Emergency Kit close at hand.
- Bring your family into the strongest part of the house.
- Keep listening to the radio for cyclone updates and remain indoors until advised.
- If the building begins to break up, immediately seek shelter under a strong table or bench or under a heavy mattress.

If you need to evacuate:

- Stay tuned into Warnings!
- Activate your Emergency Plan and evacuation arrangements.
- Seek shelter at your predetermined evacuation location (with friends or family who are further inland or on higher ground).
- Turn off all electricity, gas and water main supplies, unplug all appliances and lock your doors.
- Ensure all family members are wearing strong shoes and suitable clothing.
- Take your Emergency Kit and your Evacuation Kit and commence your evacuation arrangements.
- If you are visiting or holidaying in Queensland and do not have family or friends to shelter with, contact your accommodation manager immediately to identify options for evacuation.
- Call your out of town contact before you leave and once you arrive at your evacuation location.

BEWARE THE CALM EYE OF THE CYCLONE

Some people venture outdoors during the eye of the cyclone, mistakenly believing that the cyclone has passed. Stay inside until you have received official advice that it is safe to go outside.

Safety Tips for Flood and Tsunami

Flood

A flood is retention of water in the landscape due to excess rain that occurs in low-lying areas and/or near watercourses that can lead to water overflow. Flash floods can occur when a storm moves slowly, so that a small area receives most of the rain, but the drainage and runoff characteristics on the ground can also determine the area of greatest impact. There may be little or no warning for flash flood so be aware of weather patterns, stay away from water courses and drains and act quickly.

When you hear a flood warning:

- Stay tuned into Warnings! Keep listening to your local radio station for flood advice and updates
- Activate your Emergency Plan
- Safeguard your pets
- Move vehicles, outdoor equipment, garbage, chemicals and poisons to higher locations
- Ensure you seal indoor drains to prevent sewage back-flow
- Ensure you have extra sandbags for the toilet bowl and all laundry / bathroom drain holes to prevent sewage back-flow
- Plan which indoor items you will raise or empty if water threatens your home (e.g. freezers and refrigerators), and
- Check your Emergency Kit is fully stocked

If you need to evacuate:

- Stay tuned into Warnings!
- Take your Emergency Kit and Evacuation Kit and commence your evacuation arrangements
- Raise furniture, clothing and valuables on to beds, tables and into roof spaces
- Empty freezers and refrigerators, leaving doors open
- Turn off power, water and gas main supplies
- Lock your home and take recommended evacuation routes for your area
- Don't drive in water of unknown depth and current
- Call your out of town contact before you leave and once you arrive at your evacuation location

During a flood:

- Don't allow children to play in, or near flood waters
- Avoid entering floodwater.
- If you must enter floodwater, wear solid shoes and check depth and current with a stick
- Don't drive through floodwater
- Stay away from drains, culverts and water over knee-deep
- Don't use gas or electrical appliances which have been in flood water until checked for safety
- Don't eat food which has been in flood waters, and
- Boil tap water until supplies have been declared safe

www.disaster.qld.gov.au

Tsunami

A tsunami is a series of powerful, fast moving waves produced during large scale ocean disturbance. A tsunami can occur with very little warning and are caused by a variety of events such as: earthquakes, volcanic eruptions, explosions, or land slides. The effects of a tsunami may last for several hours or even days. Because of the limited warning time for a tsunami, it is very important for you to plan and prepare your family or household in advance.

A tsunami is different from regular ocean waves in several ways:

- Regular ocean waves move in the water from the surface down to around 350m deep, but a tsunami moves in the water all the way to the seafloor
- The volume of water that is moved by a tsunami is significantly more than that moved by regular ocean waves
- As tsunamis are a series of waves, there is often more than one wave and the first wave may not be the largest
- As a tsunami reaches the shore, it may appear as a rapidly rising or falling tide
- Even a small tsunami can be very dangerous to swimmers and mariners

The impact of a tsunami may be limited to the foreshore and local waters (known as a marine threat) or may extend beyond the foreshore (known as a land threat).

It is important you stay tuned into warnings so that you and your family can take appropriate action.

Image courtesy of Anders Grønhøj 2004

You may be advised to do any or all of the following when a tsunami warning has been issued:

- Get out of the water and move away from the immediate water's edge of harbours, coastal estuaries, rock platforms and beaches
- If you are on a boat or ship in a harbour, estuary or shallow water close to shore and there is sufficient time, return to land, secure your vessel and move to higher ground
- If you are on a ship or boat at sea, move to deep water (open ocean) well offshore and remain there until further advised
- Stay tuned into Warnings! Keep listening to your local radio station for further information and follow advice from emergency services
- Make the following preparations if you are advised to evacuate:
 - Lock your home and follow recommended evacuation routes for your area
 - Take your Emergency Kit and Evacuation Kit with you, and activate your evacuation arrangements
- It will be in your own interests to walk to safety if possible to avoid traffic jams
- If you are unable to leave the area, take shelter in the upper level of a sturdy brick or concrete multi-storey building and stay there until advised that it is safe to leave (homes and small buildings are not designed to withstand tsunami forces)
- Wait for the all-clear before returning to your home or to port

When you hear a Tsunami Warning:
Phone 1300 TSUNAMI (1300 878 6264)
for specific and current warning information.

We're there to help you

Step 1. Be informed
Personal assessment worksheet

Know your needs and capabilities

		Yes	No
Daily living	Do you need assistance with personal care, such as bathing and grooming?		
	Do you use adaptive equipment to help you get dressed?		
	Do you use special utensils that help you prepare or eat food independently?		
	Do you need to use equipment that runs on electricity, such as dialysis, electrical lifts etc?		
Communications	Do you need assistance to communicate with others?		
	Does your ability to communicate with others diminish when you are under stress?		
	Will your ability to communicate be affected by loss of power or phone lines?		
	Do you speak another language, e.g. Auslan?		
Getting around	Do you need assistance or adaptive equipment (eg. cane or walking frame) to walk?		
	Do you use a specially equipped vehicle or accessible transportation?		
	Do you need assistance to get groceries, medications and medical supplies?		
Evacuating	Do you need help to leave your home or office?		
	Do you need assistance to speak or call for help?		
	If yes, what is the best way to communicate with you? (writing notes, pointing to letters, words or pictures)		
	Do you need assistance in hearing?		
	Are you able to hear a siren?		
	Do you need assistance in seeing?		
	If yes, do you have a service animal?		
Write here other information you think could be useful

Step 3. Get an emergency kit

Basic emergency kit

Use this checklist to prepare your kit. If you need to keep an item elsewhere in your house. Make sure it's somewhere handy and mark its location on your plan.

Stay kit

Go kit

Tick		Tick
Sturdy container		Backpack
Reflective tape or stickers		Two torches
Gloves		Batteries
Old landline phone		First aid kit
Mobile phone battery		Medication
Cutlery and pocket knife		Toiletries
Candles and matches/glow sticks		Battery-operated radio
Sturdy boots		Phone charger or a phone card
Wide-brimmed hat		Money
Gardening gloves		Pack of cards/game
Three litres of water per person, per day		Change of clothes
14 days' food to stay in your home		Sunscreen
Camping stove or BBQ		Pocket knife and cutlery
Alcohol wipes		Three days' food ready-to-go
Antibacterial gel		Pet food, water, collars and carrier
Toilet paper		Blankets/sleeping bag
		Pencils and paper
		Important documents
		Items of value
		Household emergency plan (this booklet)

From emergency REDPlan - Household preparedness
for people with a disability, their families and carers

Available in 11 Languages

Prepare your home

We enjoy a wonderful climate and lifestyle in Queensland. However, natural hazards such as cyclones, storm, and flood are an inevitable part of our environment. History has shown that we cannot afford to be complacent about the dangers they present.

1. Identify which rooms in the strongest part of the house, in case you need to shelter in your home during severe storm or cyclone. Identify this would be the smallest room in the house, with the least windows.

2. If you live in an area prone to cyclone or severe storm:

- Fit windows with shutters or cyclone screens for added protection during high winds and
- Close windows with shutters or tape windows in a case-closing pattern using strong tape and draw curtains.
- Pack your car under cover, away from trees, power lines and structures.

Prepare your Household Emergency Plan

We enjoy a wonderful climate and lifestyle in Queensland. However, natural hazards such as cyclones, storm, and flood are an inevitable part of our environment. History has shown that we cannot afford to be complacent about the dangers they present.

1. Review familiar with weather warnings issued by the Bureau of Meteorology (bom.gov.au and phone services).

2. Discuss possible scenarios and responses with your household.

3. Review important details on your Emergency Plan, such as:

- Emergency and related phone numbers: Triple Zero (000), 133 (see 000), medical services, local council, electricity and other service providers, insurance providers.
- When to turn off the main power, water and gas supply in case of evacuation.
- Display your Emergency Plan in the house or household notice board, provide copies to household members, relevant friends, family and neighbours and keep a copy in your Emergency Kit.

Prepare your household for evacuation

We enjoy a wonderful climate and lifestyle in Queensland. However, natural hazards such as cyclones, storm, and flood are an inevitable part of our environment. History has shown that we cannot afford to be complacent about the dangers they present.

1. Review evacuation details on your Household Emergency Plan.

2. Identify a safe place to evacuate to if storm surge or floods are threatening.

- Family or friends who live in secure accommodation that is further.

Checklist for Evacuation

- ☐ Has official advice been given to evacuate?
- ☐ Do you know where you will be evacuating to?
- ☐ Have you packed important documents and valuables?
- ☐ Have you turned off all the power, gas and water mains in your home?

Prepare your Household Emergency Kit

We enjoy a wonderful climate and lifestyle in Queensland. However, natural hazards such as cyclones, storm, and flood are an inevitable part of our environment. History has shown that we cannot afford to be complacent about the dangers they present.

Items to include in your Emergency Kit at all times:

Food and water

- Range of non-perishable food items
- Bottled water

Ministrations items

- Special items for infants (supplies, formula etc)
- Special items needed by elderly or people with special needs
- Spare house and car keys

Tune into Warnings!

We enjoy a wonderful climate and lifestyle in Queensland. However, natural hazards such as cyclones, storm, flood and tsunami are an inevitable part of our environment. Recent events have shown us that we cannot afford to be complacent about the dangers they present.

Do Not Act:

- Bureau of Meteorology website for weather updates, weather warnings and tsunami warning information: www.bom.gov.au
- Queensland Disaster Management Services website for information on preparing Emergency Alerts issued and current
- Deliver your Household Emergency Plan

Do Not Act:

- Act immediately on the advice provided.
- Evacuate all householders and anyone of the working and advice provided. Check on neighbours and friends who may need special assistance.
- Deliver your Household Emergency Plan

Prepare your Pet Emergency Plan

We enjoy a wonderful climate and lifestyle in Queensland. However, natural hazards such as cyclones, storm and flood are an inevitable part of our environment. History has shown that we cannot afford to be complacent about the dangers they present.

Be prepared

If considering moving animals to a safe place, do so early to avoid emergency risk. It may not be possible to take your pet with you to a temporary evacuation shelter - plan ahead and be prepared.

Trained assistance dogs

In most cases, trained assistance dogs will be allowed to stay in emergency shelters with their owners. Those that are accepted may require proper identification and proof of vaccination. Check with local council for more information.

Pet Emergency Kit

Ensure your Pet Emergency Kit is easily accessible and includes:

- Pet medications (up to 100 days)
- Pet medical and vaccination records and veterinarian details

Prepare your pets

http://www.emergency.qld.gov.au/emq/css/pdf/pets_emergency_plan.pdf

We enjoy a wonderful climate and lifestyle in Queensland. However, natural hazards such as cyclone, storm and flood are an inevitable part of our environment. History has shown that we cannot afford to be complacent about the dangers they present.

Take the time now to prepare for emergencies and:

- Prepare your Home,
- Prepare your Pets Emergency Plan and Pet Emergency Kit,
- Prepare your Household Emergency Plan,
- Prepare your Household for Evacuation and your Evacuation Kit, and
- Tune into Warnings.

Just as we need to prepare our family and our home for times of emergency or disaster, we also need to prepare our pets. Your pets are part of your household, by taking time to prepare now you can improve the safety and well being of your family pets by ensuring their needs are included in your household preparedness planning.

Although individual needs will vary, you need to decide on the best plan for your circumstances and region.

Check with your local council and other agencies on possible hazards, local emergency plans and what arrangements are in place regarding temporary animal shelters during times of major emergencies or disasters.

Prepare your Pet Emergency Plan

Be prepared

If considering moving animals to a safer place, do so early to avoid unnecessary risk. It may not be possible to take your pet with you to a temporary evacuation shelter - plan ahead and be prepared.

- Secure animals inside before an emergency event, so that they do not take flight or run away.
- Use a secure pet carrier/cage, leash or harness to move any animals to safety.
- Ensure all vaccinations remain current.
- It may be possible for your pet to be boarded in a safe environment away from the emergency zone.
- If you are able to house your animal in a temporary foster home, ensure your pet's medical and feeding information, food, medicine and other supplies accompany them to the foster home.
- Ensure all pets are properly identified. Remember - during times of disaster, telephones may not be available and it is important any registered method includes your current address.
- Have a current photograph. This may assist in easily identifying you as the legal owner.

Trained assistance dogs

In most cases, trained assistance dogs will be allowed to stay in emergency shelters with their owners. Those that are accepted may require proper identification and proof of vaccination. Check with local council for more information.

What if your pet is not a dog or cat?

Although the majority of household's companion pets are commonly dogs, cats and birds, the suggested information can be applied to all household pet emergency planning.

Should your companion pet not fall within this category, e.g. aquariums, reptiles, small livestock (pigs, fowls, goats, horses, cattle, sheep), it is suggested you contact specialised agencies, e.g. Queensland Primary Industry and Fisheries (livestock), the RSPCA, your animal's veterinarian or local pet shop for specialised advice in planning for emergencies.

ALWAYS ENSURE

- Your pet has access to plenty of food and fresh water.
- Your pet has shelter and bedding.
- All animals under your care can be properly and easily identified.
- You have telephone numbers for your veterinarian/local animal welfare agency included in your household emergency kit.
- You never leave an animal tied-up or chained without shelter and bedding.
- You never leave an animal in a motor vehicle.

This brochure is for information only and is provided in good faith. The Department of Community Safety, Emergency Management Queensland and the State Emergency Service are under no liability to any person in respect of any loss or damage (including consequential loss or damage) which may be suffered or incurred, or which may arise directly or indirectly, in respect of reliance by any person on the information contained in this brochure.

Pet Emergency Kit

Ensure your Pet Emergency Kit is easily accessible and includes:

- Pet medications (for up to two weeks), medical and vaccination records and veterinarian details.
- Sufficient food (including treats) and water (e.g. bottled) for each animal - for up to a two week period. Don't forget the can opener if you have tinned food.
- A familiar pet blanket or bedding, toys, grooming equipment.
- A secure pet carrier, leash or harness to move any animals to safety.
- Consider your animal's sanitation needs, which is important for their (and your) health, e.g. newspaper, paper towels disinfectant, rubbish bags.
- Birds must eat daily - put special food and water dispensers in bird cages and have a cover for the cage.
- Important telephone numbers, e.g. your veterinarian, pet information and advisory services.
- Details of identification methods.
- A current photograph for identification purposes.

What defines a heatwave?

A heatwave can be **defined** as a prolonged period of excessive heat. In Australia excessive heat can vary from 37°C to 42°C. A heatwave occurs when there are a number of consecutive days with above average temperature, often combined with high humidity. This unusual and uncomfortable hot weather can impact on human and animal health and cause disruption to community infrastructure such as power supply, public transport and services.

[Back to top](#)

Who is vulnerable to the affects of a heatwave?

Although **everyone is vulnerable** to the affects of a heatwave, those most at risk are:

- Babies And Children** under four years;
- Seniors** and older people living alone;
- Pregnant women, breast feeding mothers and infants;
- People taking medications that may interfere with the body's ability to regulate temperature;
- Anyone with:
 - a chronic or mental illness;
 - health conditions that may impair sweating;
 - limited or poor mobility; and
 - excess body weight (overweight).
- People who undertake vigorous **exercise** during a heatwave (including animals) are also susceptible to its effects.

Job factors – home and the workplace

Whether you are at home or in the workplace, heat related illness can be caused through a combination of **job factors** such as:

- The level of your exertion and inadequate rest periods;
- Environmental factors such as humidity and radiant heat; and
- Worker factors such as **hydration** and inappropriate clothing.

During periods of prolonged hot weather the **Queensland Ambulance Service** paramedics see an increase in emergency calls from people suffering heat related illnesses. Whilst the very young and the elderly are most at risk, **anyone can be affected**.

Heat related illness occurs when body temperature increases through absorbing more heat than can be dispelled. This may develop slowly over a day or two of very hot weather. Prompt action can avoid the serious, or even fatal, consequences of fully developed heat stroke.

- In a severe heatwave you may get dehydrated and your body may overheat, leading to a heat related illness.
- A heat related illness can result in irreversible damage to your body, including the brain, or even death.
- A heat related illness can develop if heat exhaustion is left untreated, but it can also occur suddenly and without warning.

Flood Management Resources

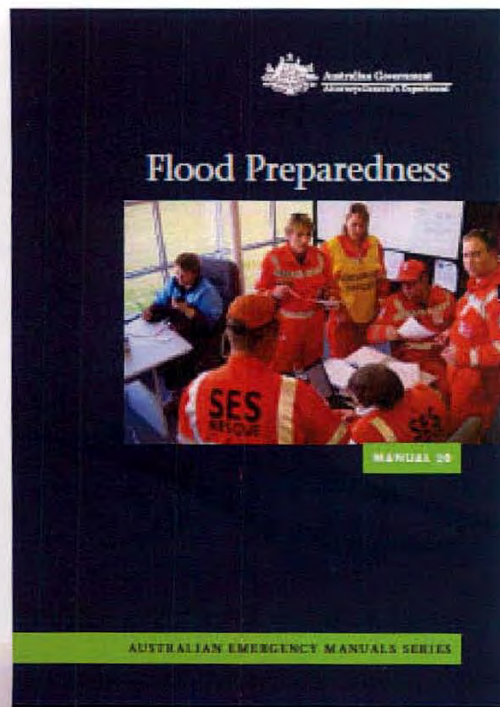

Manuals

EMA Flood Manuals

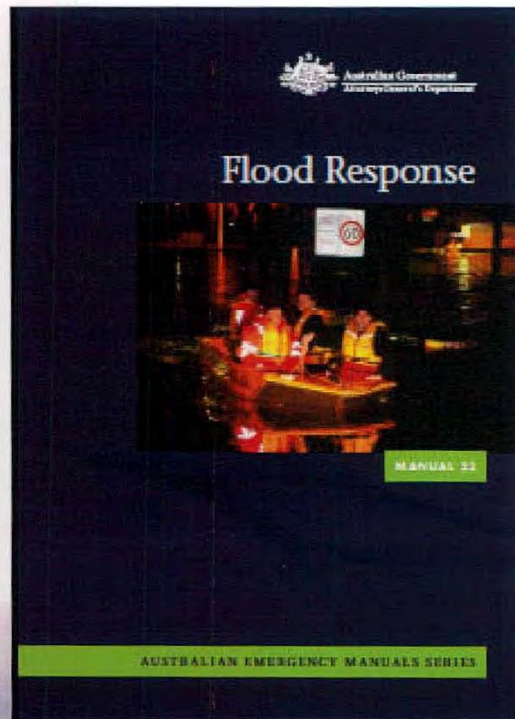

- Part of the Australian Emergency Manuals Series
- Released in May 2010
- Four manuals now, one to come
- Available online – EMA website

Flood Preparedness

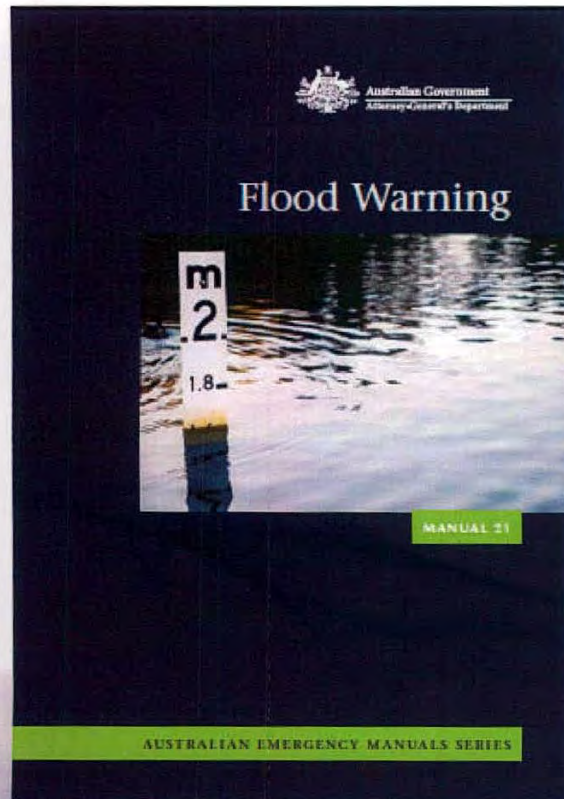

- Flood intelligence
- Plans as *statements of intent*
- Special environments e.g. caravan parks & around levees

Flood Response

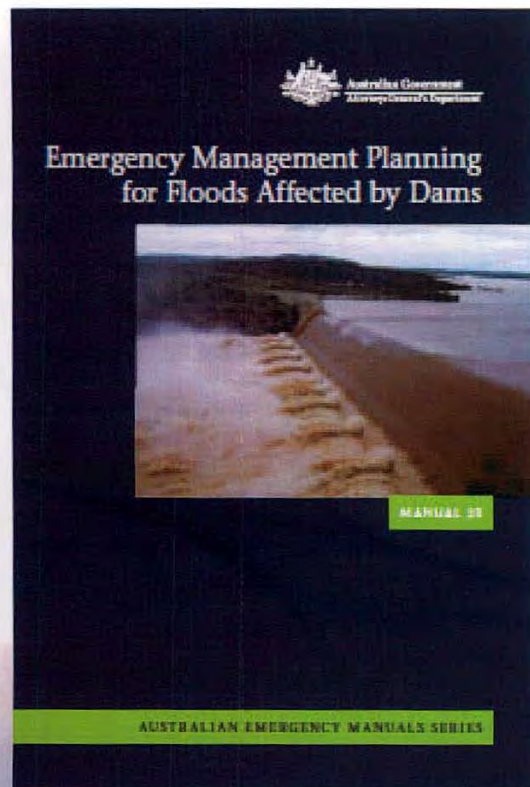

- Operational aspects & response strategies
- Coordinating property protection & evacuation
- Transitioning from response to recovery

Flood Warning

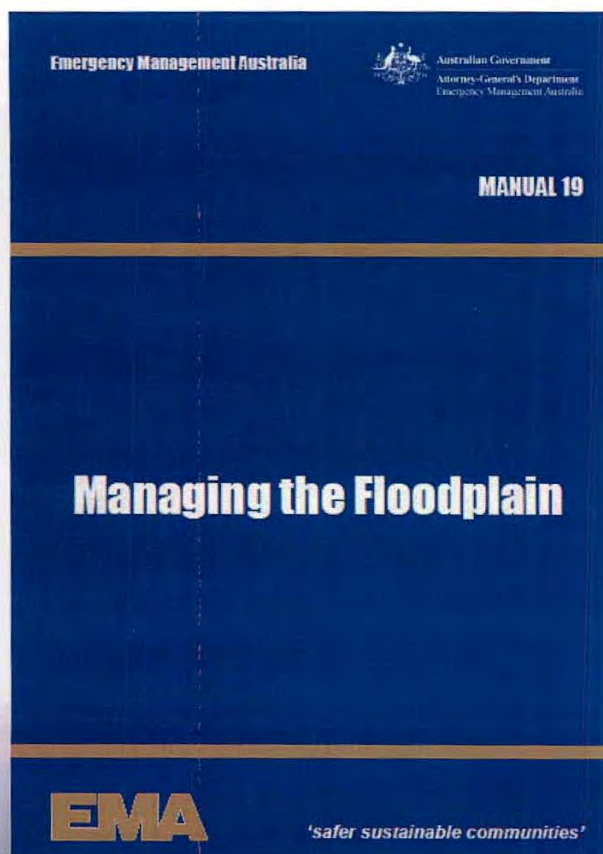

- Total flood warning system
- Linking predictions to impacts
- Constructing messages
- Getting the message out e.g. using new technology such as EA, social networking etc

Planning for Floods Affected by Dams

- Ensuring communities are aware
- Emergency action plans
- Difference between riverine & dam floods

EMA Flood Manuals

- TBC 2010
- Integration of land use planning and flood risk management

Australian Emergency Manual Series

The Australian Emergency Manuals series (AEMs) has been developed to assist in the management and delivery of support services in a disaster context. The principles, strategies and actions within the AEMs have been compiled by practitioners and managers with extensive service delivery experience in a range of disaster events.

This series has been developed by a national consultative committee representing a range of State and Territory agencies and is sponsored by the Attorney-General's Department. Each title within the series is reviewed on a regular basis.

Queensland Evacuation Guidelines

For Disaster Management Groups

Aim of Project

- Development of guidelines that can be implemented across the state.
- Creation of a disaster management tool
- All hazards
- Supported by Community Engagement

Phase One of the Project

- Storm tide evacuation zones
- Trial framework – Reference Group, all councils
- Three trial sites –
 - Cairns / Cassowary Coast;
 - Bundaberg / Hervey Bay;
 - Gold Coast

Phase One of the Project

- Development of evacuation zone maps
- Development of evacuation sub plan based on the guidelines
- LDMG sign off
- Completed 30 June 2010

Public- Evacuation Maps

LEGEND Evacuation Zones

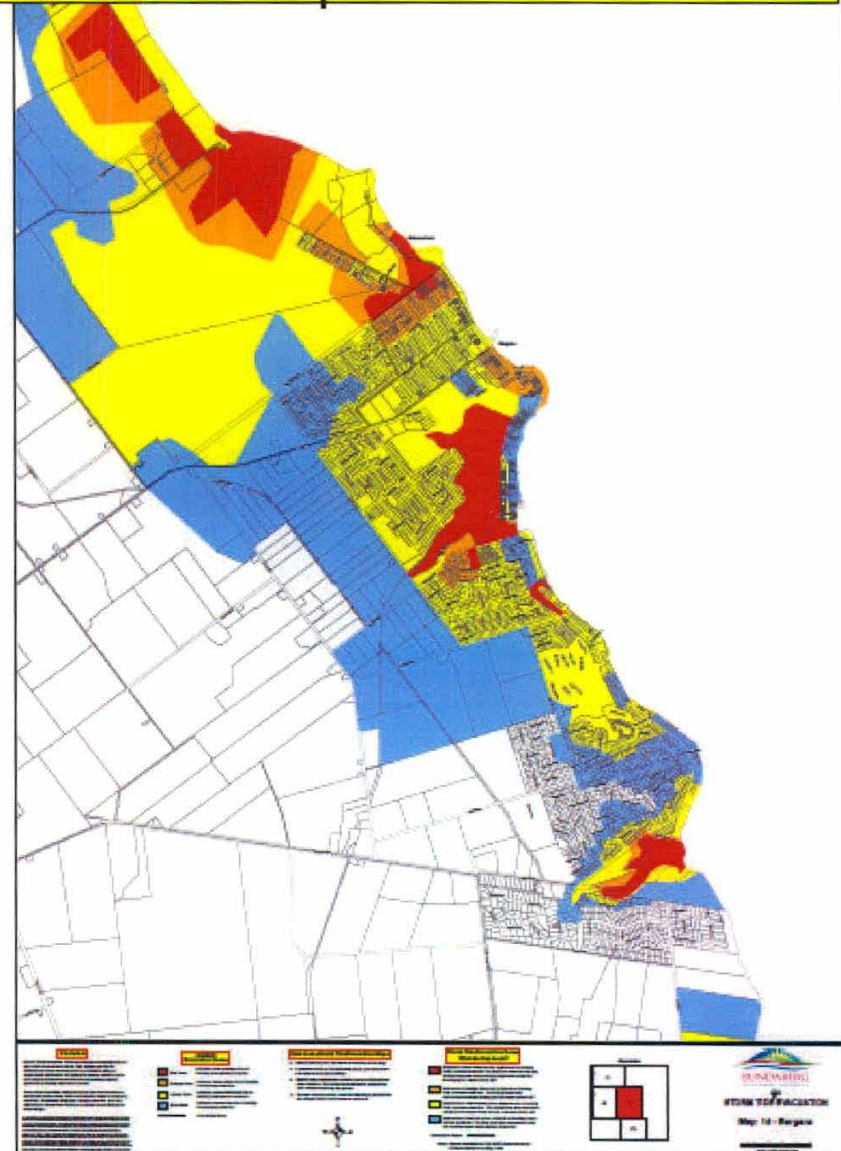

- Red Zone** Indicates areas at highest risk of flooding from cyclone storm tide.
- Orange Zone** Indicates areas at high risk of flooding from cyclone storm tide.
- Yellow Zone** Indicates areas at moderate risk of flooding from cyclone storm tide.
- Blue Zone** Indicates areas at low risk of flooding from cyclone storm tide.
- Evacuation Route**

Storm Tide Evacuation Zones What do they mean?

- Residents in Red Zone** face the highest risk of flooding from a cyclone storm tide. The Red Zone includes low-lying coastal areas and areas that may experience storm tide flooding up to 1 metre above HAT
- Residents in Orange Zone** face a high risk of flooding from a cyclone storm tide. The Orange Zone may experience storm tide flooding up to 2 metres above HAT
- Residents in Yellow Zone** face a moderate risk of flooding from a cyclone storm tide. The Yellow Zone may experience storm tide flooding at levels up to 2 - 4 metres above HAT
- Residents in Blue Zone** face a low risk of flooding from a cyclone storm tide. The Blue Zone may experience storm tide flooding higher than 4 metres above HAT

Evacuation Route

Note: Highest Astronomical Tide (HAT) levels are similar to levels referred to as King Tides

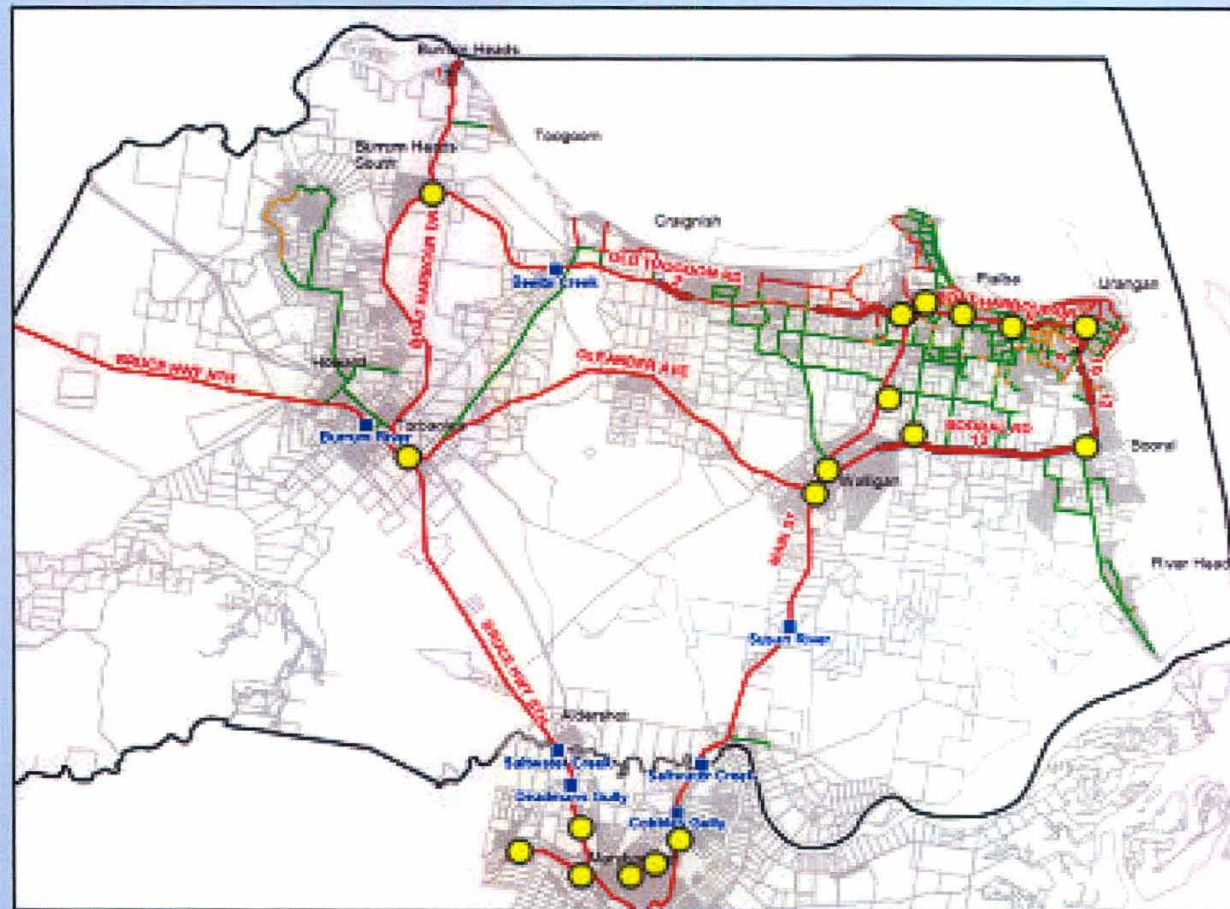

Emergency Services- Evacuation Maps

Route Distance 69 km				
Zone	Enhance	Normal	Delayed	Blocked
Red	1h 35m	2h 05m	4h 05m	15h 40m
Orange	1h 35m	2h 05m	4h 05m	15h 40m
Yellow	3h 05m	4h 05m	7h 45m	27h 40m

Vehicles	182	185	1380	510	2257
Dwellings	190	192	1410	530	2322
Dogs (Total)	7	70	484	252	813
Dogs (Dangerous)	0	1	2	1	4
Evac Time Normal Rate	2h 05m	2h 45m	4h 05m	2h 35m	5h 30m

Hervey Bay Storm Tide Evacuation Traffic Management Plan

Phase Two of the Project

- Validation of plans in trial sites
- Exercises
- Draft Guidelines, Sub Plan Template and Storm Tide Framework distributed for comment

Phase Two of the Project

- Development and trial of Riverine Flood Framework – all hazards
- Final version of Evacuation Guidelines
- Completion December 2011

Phase Three of Project

- Approval of Guidelines, Sub Plan and Frameworks by SDMG
- Publication of “**Queensland Evacuation Guidelines**”
- Regional Workshops for all LDMGs

Phase Three of Project

- Regional Training for all council officers
- Roll out of community engagement material
- State wide implementation
- Completion June 2013

Department of Community Safety

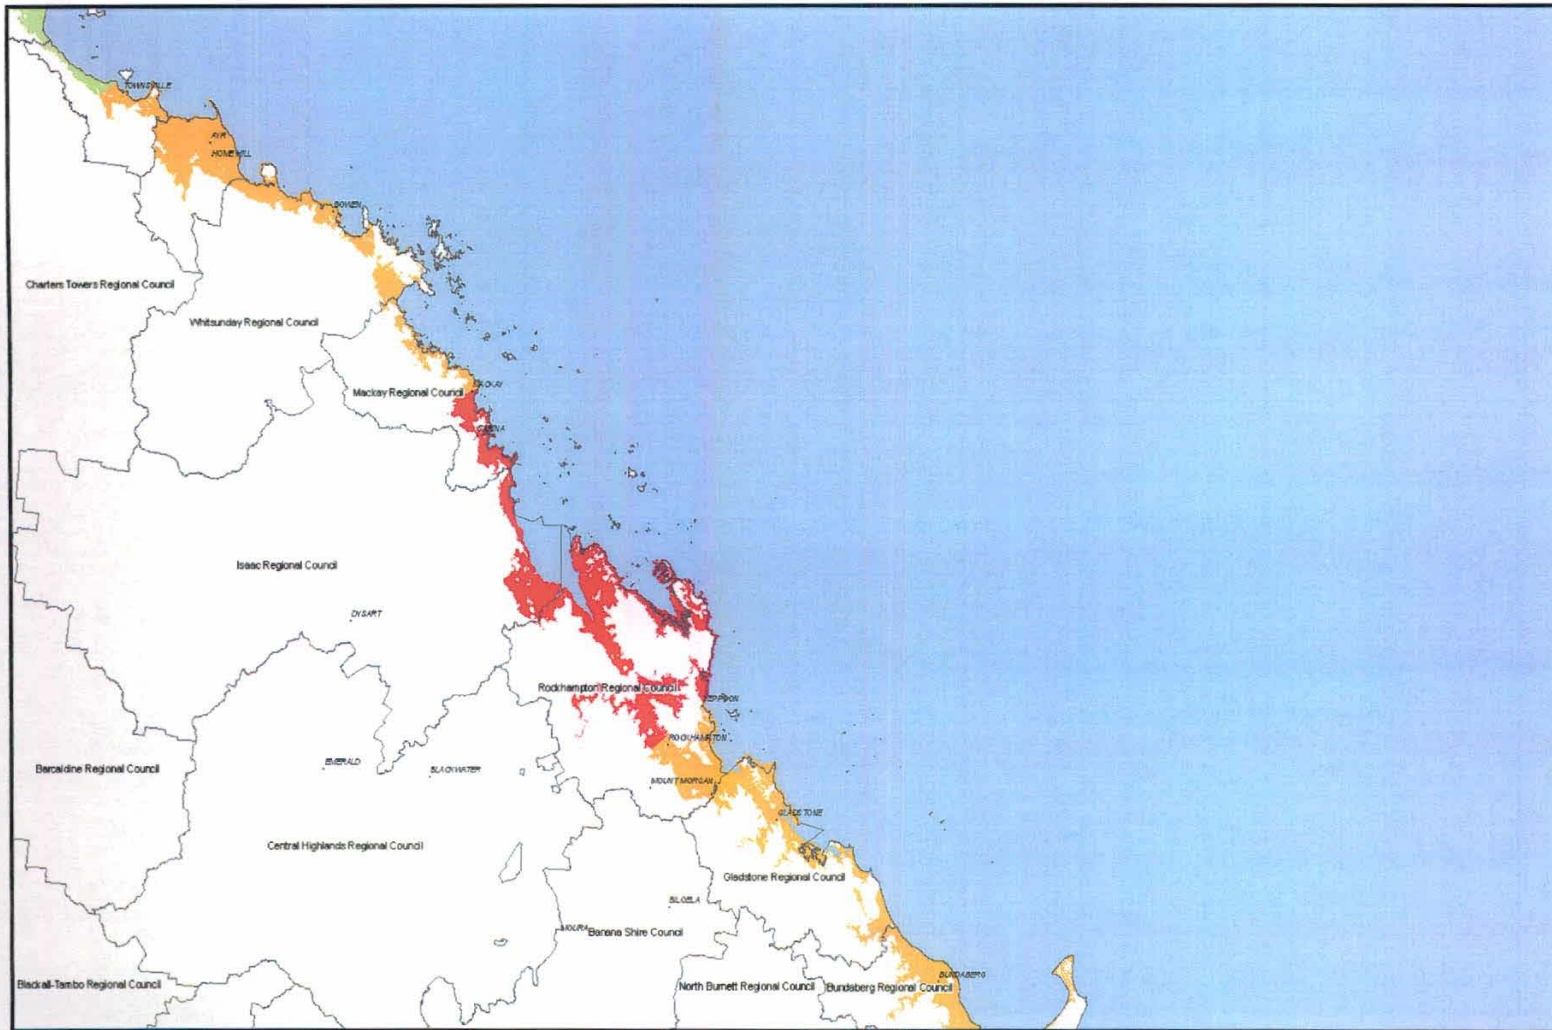

Tsunami Hazard along the Central Qld Coast

An Update

What we know

- 2008 PTHA at the 100m depth contour
- The majority of the offshore hazard is sourced from the subduction zones closest to Australia, i.e. eastern Indonesia, particularly Java and Sumatra, and the southwest Pacific near New Zealand, New Hebrides and the Solomon Islands

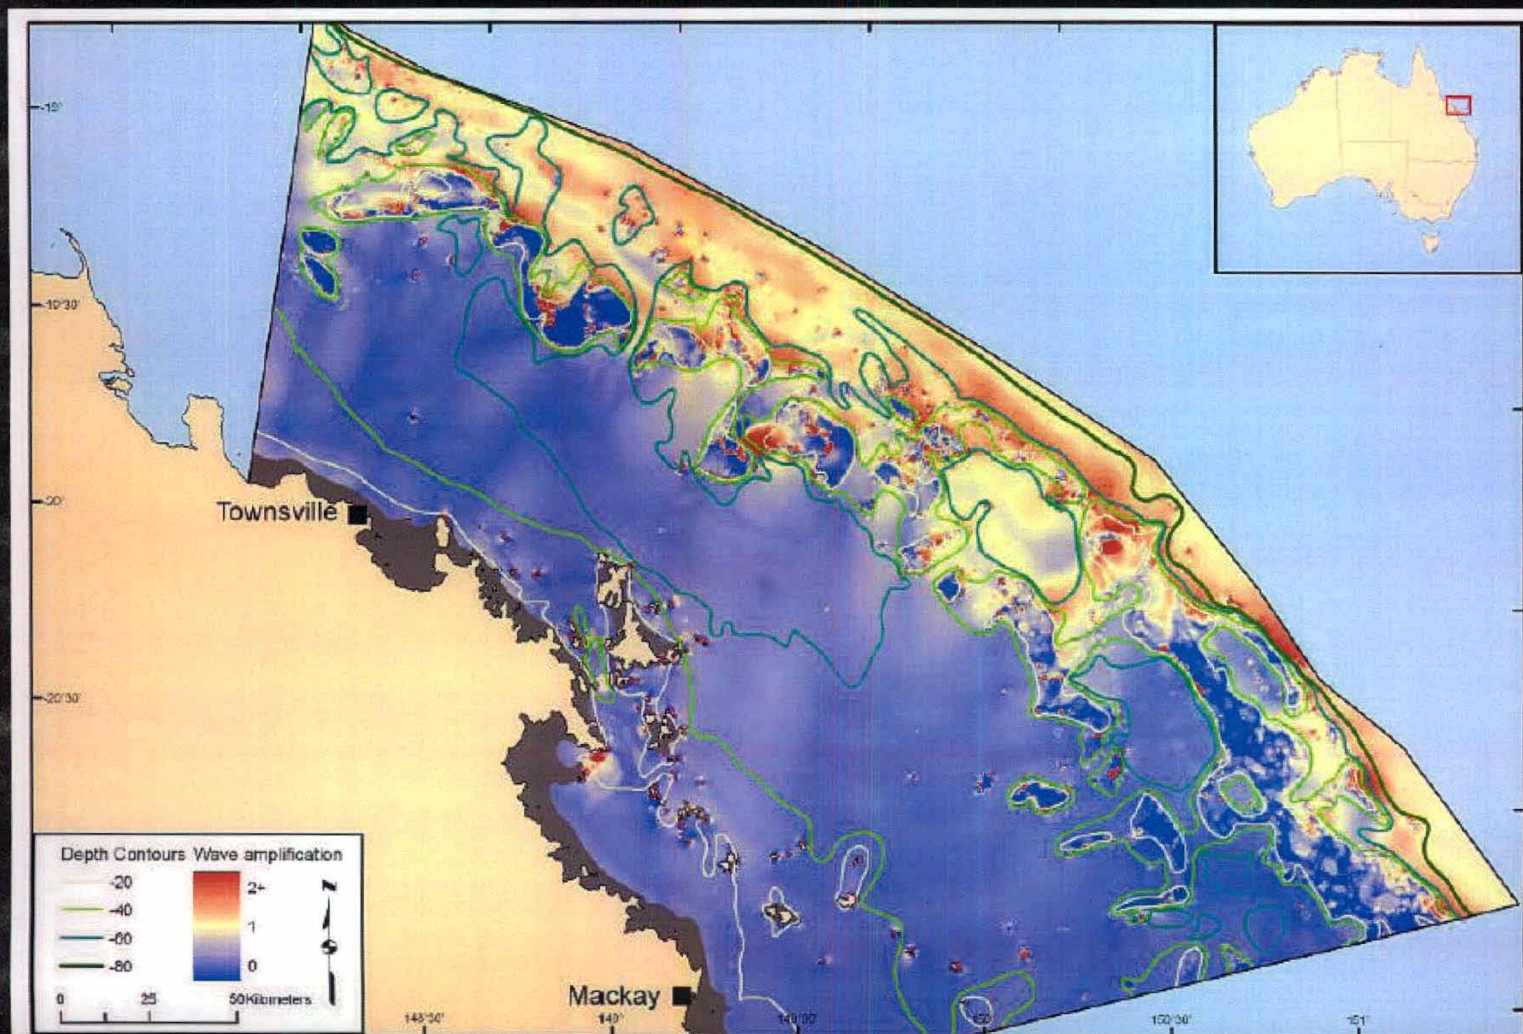

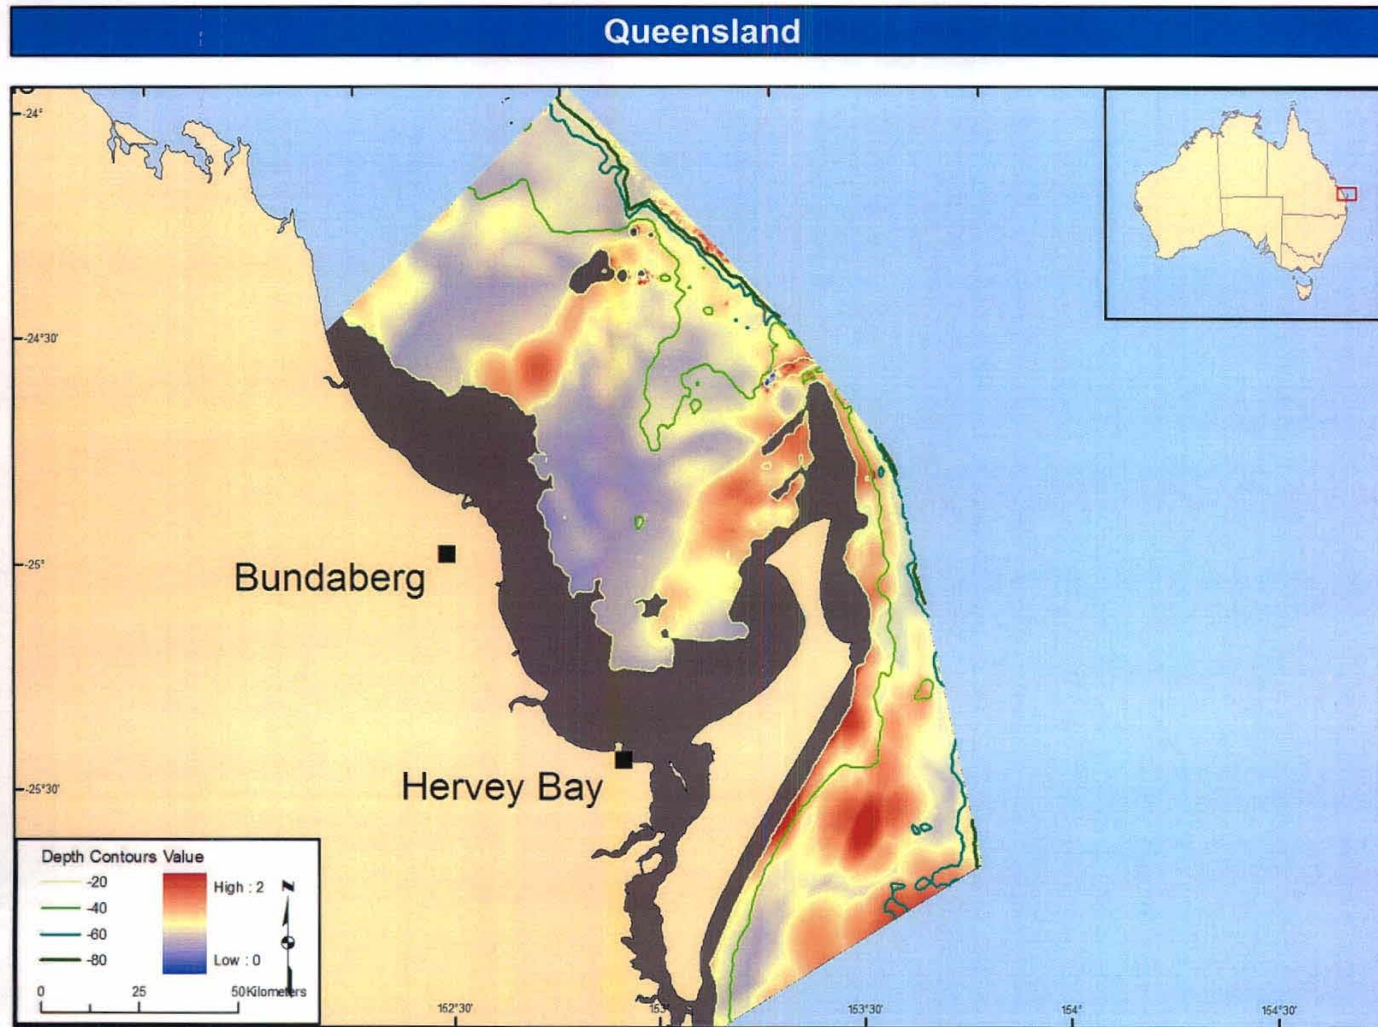

Nearshore tsunami hazard assessment for Australia

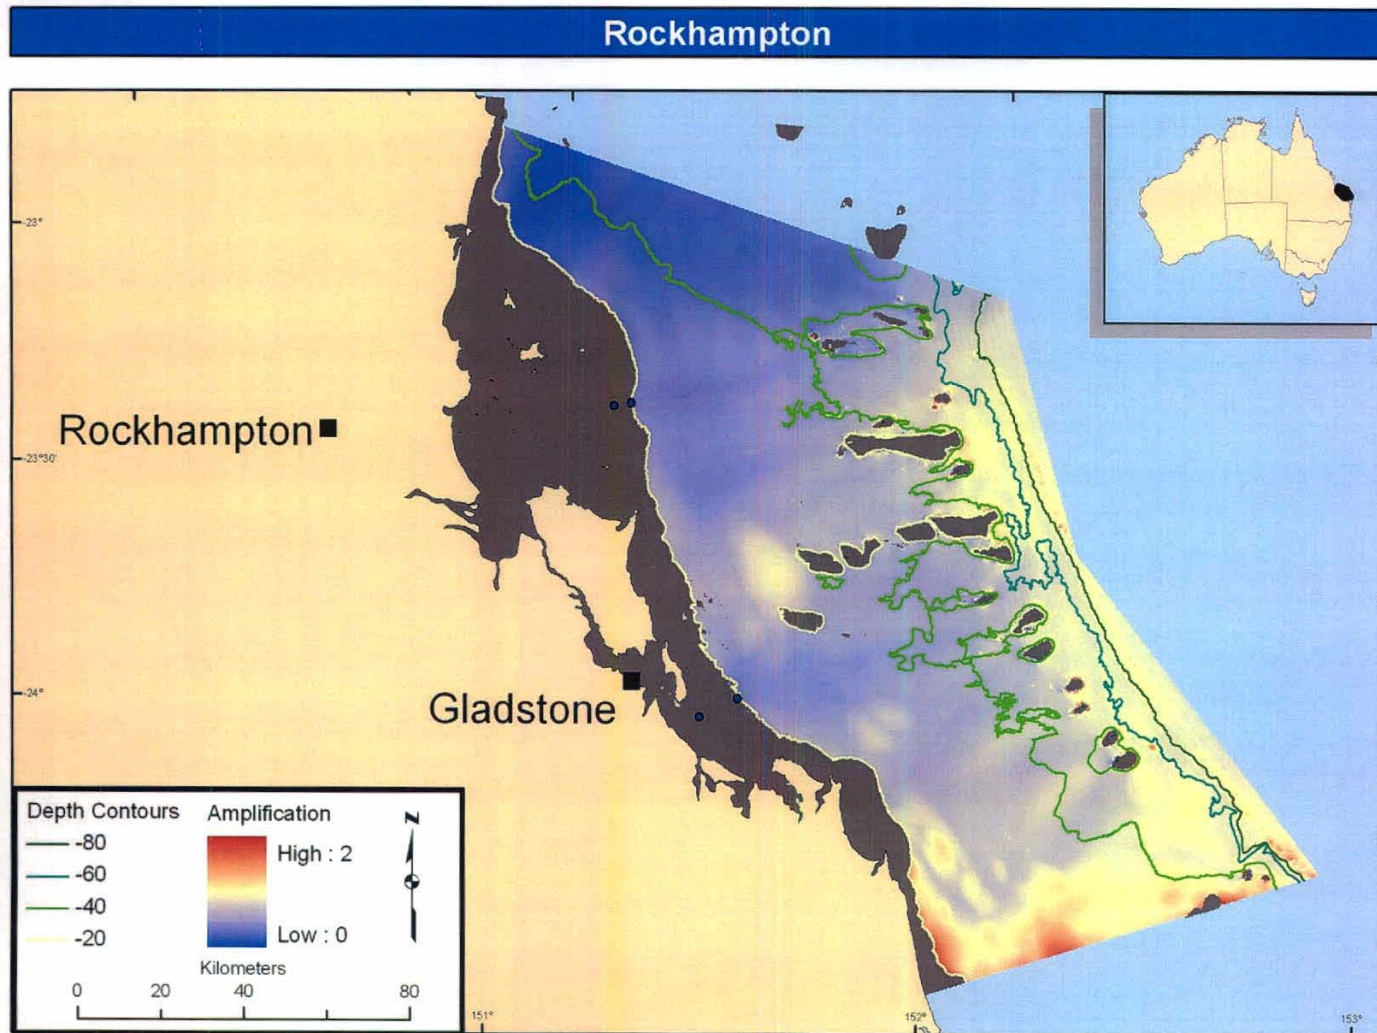

- Assessment of the nearshore (defined at 20 m water depth) tsunami hazard for Australia
- Estimating the amplification factor that can be applied to convert the deep water hazard to the nearshore tsunami hazard

Amplification Factor

Community	Amplification Factor
Badu Island	0.1
Bamaga	0.1
Weipa	<0.1-0.3
Lockhart River	0.1
Aurukun	<0.1-0.3
Cooktown	0.1
Cairns	0.2-0.5
Lucinda	0.3-0.5
Karumba	<0.1-0.1
Innisfail	0.2-0.3
Townsville	0.2-0.6
Mackay	0.3-0.4
Rockhampton	0.4-0.6
Gladstone	0.4-0.7
Bundaberg	0.6-0.9
Hervey Bay	0.6-0.8
Brisbane	0.2-0.4
Gold Coast	1.3-2.1

What does it show?

- The hazard mostly decreases for communities within Queensland due to the GBR & wide continental shelves that act to attenuate the tsunami.
- These hazard maps cannot be used directly to infer inundation extents, run-ups, damage or other onshore phenomena.
- Can be used to prioritise communities for further studies

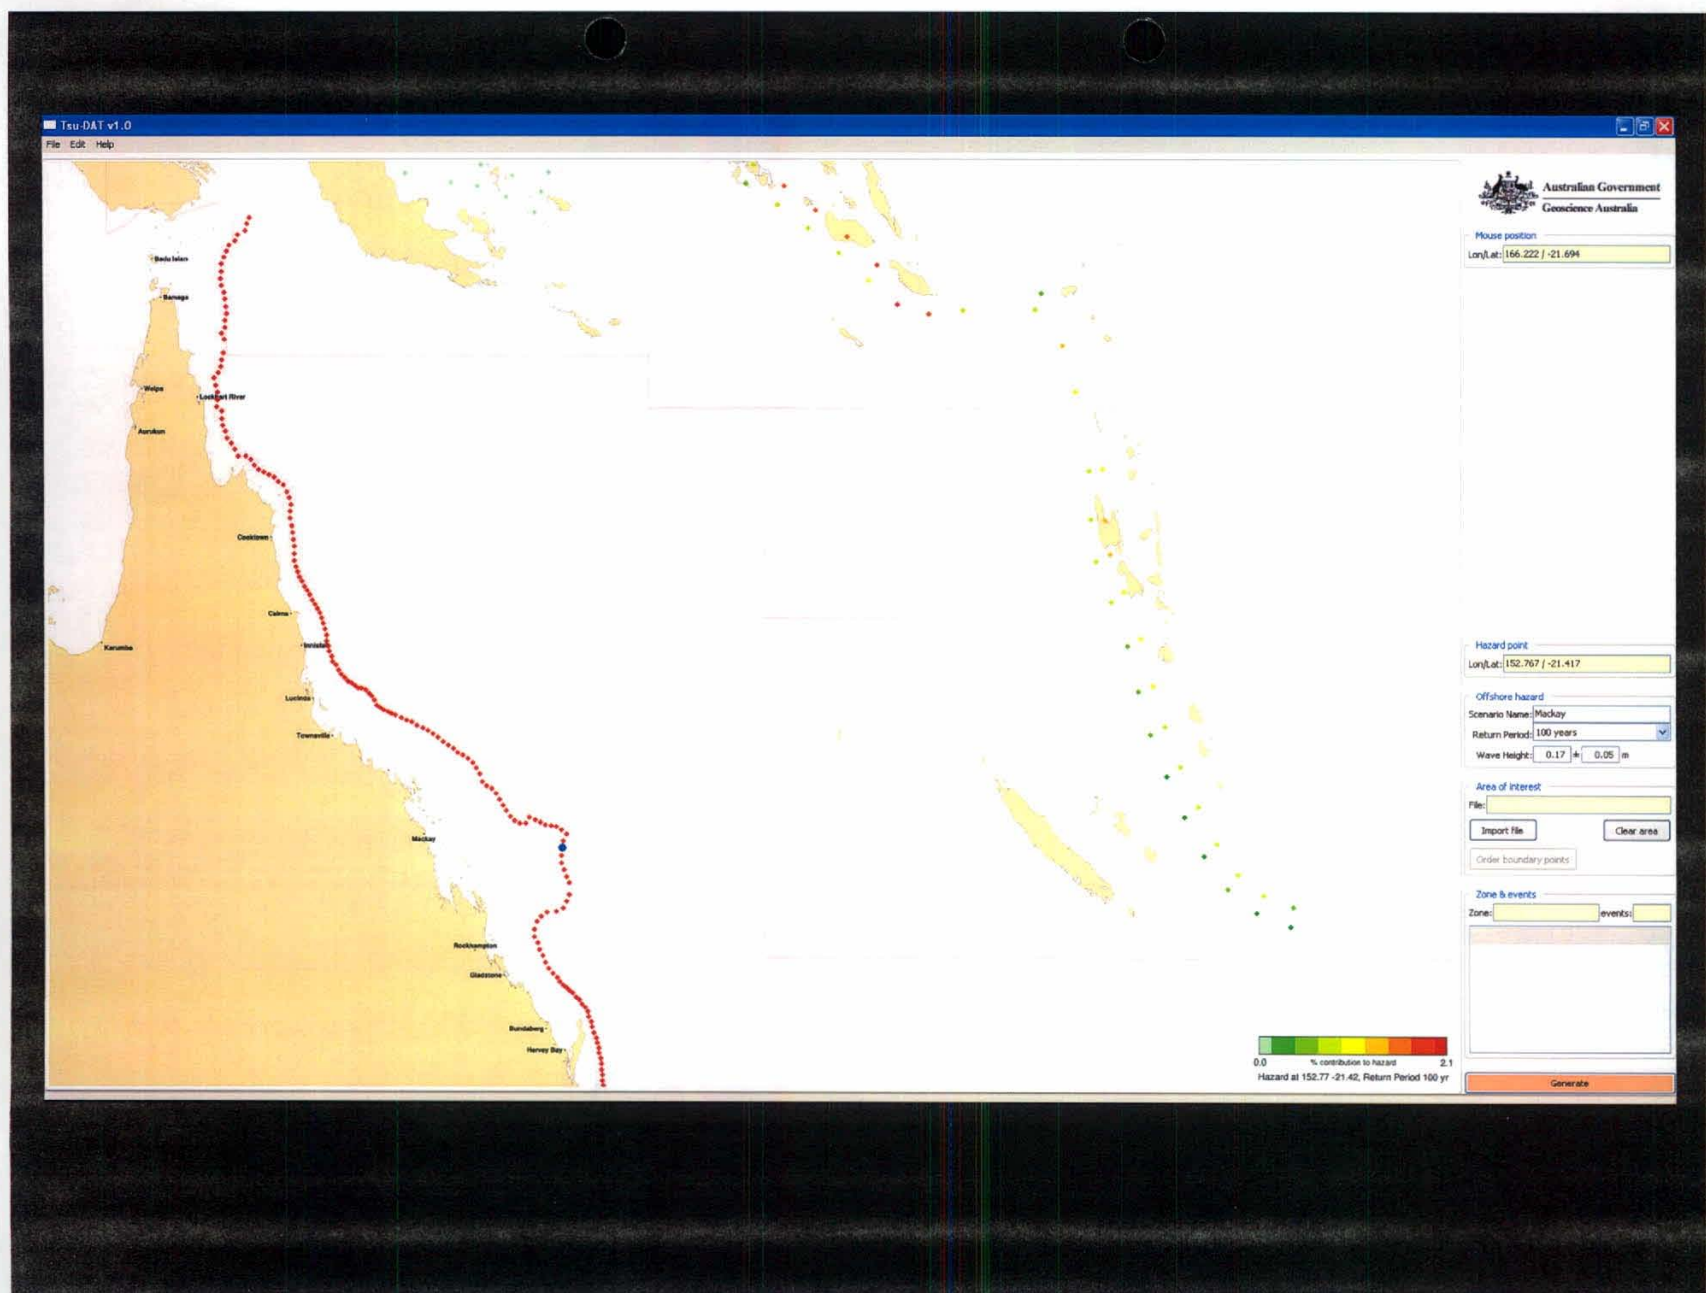

Tsu-DAT 1.0

Tsu-DAT 1.0

- All of the scenarios GA developed and used to do the assessments
- It is expected that Tsu-DAT will be used in two key ways:
 1. understanding the hazard for an area of interest; &
 2. generating tsunami waveform data for input to a detailed inundation model.

Tsu-DAT 1.0

- The Tsu-DAT allows users to choose representative events of tsunami hazard to be modelled for their area of interest when suitable elevation data is available
- The output for each selected tsunami event will be:
 - A tsunami waveform at each hazard point in your area of interest.
 - A list of all the subfaults for your selected event.

Minimum Earthquake Magnitudes

Minimum Earthquake Magnitudes

- List of the minimum earthquake magnitudes that would cause various tsunami threat levels from all potential source regions
- Modelling shows an earthquake has to be at least of magnitude 8.7 and in many places 9.0 or more to cause a land inundation on the Queensland coast.

Minimum Earthquake Magnitudes

QTCCC Oct 2010 Bureau Update

Rockhampton Bushfires October 2009

Tsunami Travel Times

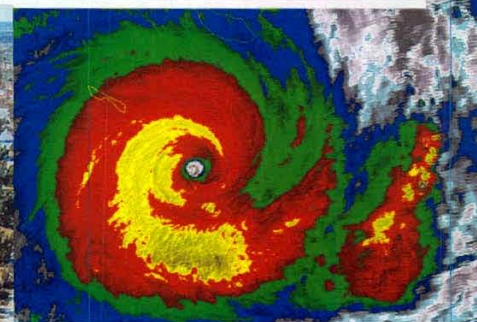

THE BIG WET 2010

It's one of Mother Nature's cruel ironies. While in recent years we have prayed for rain, the recent torrential downpours have delivered equal doses of optimism and misery. To some, massive flooding and burst river banks are liquid gold. To others, the flooding waters have provided nothing more than destruction and misery. The heavens opened and prayers were answered and hearts were broken.

La Niña event expected to continue through 2010

Issued on Wednesday 29 September 2010 | Product Code IDCKGEWW00

A La Niña remains well-established in the Pacific. Given the current strength of the event and the outlook from long-range models surveyed by the Bureau, this La Niña is expected to persist into at least early 2011.

All indicators remain firmly at La Niña levels. The central Pacific Ocean is cooler than the long-term mean both at and below the surface, the Southern Oscillation Index (SOI) remains strongly positive, trade winds are stronger than normal and cloudiness over the central tropical Pacific continues to be suppressed. Such consistent signals indicate the tropical atmosphere and ocean are now clearly reinforcing each other.

La Niña periods are generally associated with above normal rainfall during the second half of the year across large parts of Australia, most notably eastern and northern regions. Night time temperatures are historically warmer than average and Tropical Cyclone occurrence for northern Australia is typically higher than normal during the cyclone season (November-April).

A negative IOD event is also underway in the Indian Ocean. Negative IOD events often coincide with La Niña events, and are often, but not always, associated with above average rainfall over large areas of southern Australia during spring. IOD events generally decay in the months of November and December with the onset of the Australian monsoon.

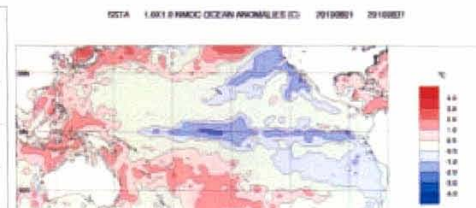

Next update expected by 13 October 2010 | [print version](#)

[Sea surface](#) | [Sea sub-surface](#) | [SOI](#) | [Trade winds](#) | [Cloudiness](#) | [Computer Models](#) | [Indian Ocean](#)

Monthly sea surface temperatures:

The central and eastern tropical Pacific Ocean cooled during August and has continued to cool during September. This area of ocean has been steadily cooling since January 2010. The sea surface temperature (SST) anomaly map for August shows cool anomalies, more than 1°C cooler than normal, extending along the equator east of 160°E. The map shows a region of water in the central Pacific that was more than 2°C cooler than normal. Warm anomalies exceeding +1°C remain in the Maritime Continent region.

Index	Jul	Aug	Temperature change
Nino 3	-0.7	-0.8	0.1°C cooler
Nino 3.4	-0.9	-1.1	0.2°C cooler
Nino 4	-0.4	-0.9	0.5°C cooler

Madden-Julian Oscillation

Product Code IDCKGEW00

The Madden-Julian Oscillation (MJO) is the strongest fluctuation explaining tropical weather variations on weekly to monthly timescales. The MJO can be characterised as an eastward moving "pulse" of cloudiness moving around the globe along the equator. This pulse reoccurs roughly every 30 to 60 days.

The MJO affects the entire tropical atmosphere but is most evident in the Indian and western Pacific Oceans. The MJO influences the timing and development of many monsoon patterns including the Australian and Indian Monsoons. Tropical cyclones are also more likely to develop within the MJO's cloudiness pulse.

The MJO involves variations in wind, cloudiness, and rainfall. Because most tropical rainfall is convective, and convective cloud tops are very cold (emitting little longwave radiation), the MJO can be monitored in outgoing longwave radiation (OLR).

Season Outlook

Unusually wet dry season in lead up to wet season

Rainfall quickly turning to runoff

La Nina pattern firmly established

Increased likelihood of wetter than average conditions

Increased likelihood early onset of monsoon and TC development

Average 4 Cyclones in region (ranging from 0 to 9).

Landfall of severe tropical cyclone on the Queensland coast is more likely than not

Australian Government

Bureau of Meteorology

Bureau's Outlook

Seasonal Outlook 2010-11 for Queensland and the Coral Sea Region

Summary: La Nina boosts the odds of Queensland having an active cyclone season.

Queensland may experience above average tropical cyclone activity this coming season, with up to six cyclones developing in the Coral Sea. It is also likely to be wetter than normal in most parts.

The Bureau of Meteorology's Queensland Regional Director, Jim Davidson, said this is because we're now in a La Nina climate phase, which he expects will remain the dominating influence through the Spring and Summer months.

La Nina events are usually associated with above normal rainfall across much of Queensland and enhanced tropical cyclone activity in the Coral Sea.

Mr Davidson said "What this translates to is where historically we could expect an average of four cyclones a season in the Coral Sea, we now expect the number to be potentially higher, but the number of cyclones actually making landfall can be quite variable from season to season."

"However, under these conditions, we have a good chance of a cyclone crossing the coast before the year is out," he said.

Mr Davidson urged Queenslanders to "prepare early not only for cyclones but also for floods as we have already experienced record September rainfalls across the state."

"Preparation is the key to safety, and we encourage communities to factor in the possibility of a destructive cyclone or major flood into their pre-season planning," said Mr Davidson.

The annual pre-season public awareness campaign gets underway in Mackay late in the week, with workshops to be held in a number of provincial centres during October. It will be conducted in partnership with the Queensland Departments of Community Safety and Environment and Resource Management and ABC Local Radio Queensland.

Annex 4

Exercise ORKO

Details of participants	Summary of the review of the exercise	Summary of the identified outcomes or areas for improvement
<ul style="list-style-type: none"> • Toowoomba Regional Council • Goondiwindi Regional Council • Western Downs Regional Council • Lockyer Valley Regional Council • Southern Downs Regional Council • Toowoomba DDMG • Warwick DDMG • Dalby DDMG • Queensland Police Service • Department of Infrastructure and Planning • Department of Communities • Department of Communities – Sport and Rec • Department of Transport and Main Roads • Q Health • Queensland Fire and Rescue Services • Emergency Management Queensland • Queensland Urban Utilities • Department of Employment, Economic Development and 	<p>Exercise Orko was the second of seven planned disaster management exercises which ran in Emergency Management Queensland's (EMQ) South West Region (SWR) as part of the 2009-2010 Ministerial Portfolio priority to "develop and deliver an Enhanced Exercise Regime for District Disaster Management Groups (DDMG) and Local Disaster Management Groups (LDMG)", funding was provided under the Election Commitment 2009 'Supporting our Heroes' commitment to June 2014.</p> <p>The exercise was designed around a hypothetical but realistic extreme weather event affecting 3 Disaster Districts and 5 Local Governments of South Western Queensland from Tuesday 2, to Thursday 4, November 2010. Distribution of messages and warnings began from Sunday, 31 October 2010 and worked through key considerations drawing upon the concepts and principles of disaster management to respond to the impact of an extreme weather event.</p> <p>The original objectives for Exercise Orko were to:</p> <ul style="list-style-type: none"> • Trigger the activation of disaster management arrangements in response to major flooding / storm event; • Exercise whole-of-government disaster management relationships at local, district and state level; • Exercise LDMG evacuation plans; • Exercise emergency call centre capacity to deal with high volume calls; • Enable members of disaster management groups to actively engage in the business of the group. • Exercise re-supply arrangements for the region; • Exercise the establishment of a recovery transition 	<p>Exercise Orko Portal Feedback</p> <p>Overall the response to the Exercise Orko Portal was very positive, with all participants commenting on the real time updates available through the use of this media. Feedback received indicated that use of a tailored portal for each LDMG/DDMG during a real event would be a significant benefit to all LDMG/DDMG members. The portal offers a point of truth for a range of information, including up to date contact lists, weather/river data, relevant website links, offers of assistance and a place to store and access up to date sitreps, media releases and other relevant information. Negative feedback received regarding the portal generally concerned gaining access. This was largely due to the majority of participants either trying to gain access just prior to commencement of the exercise or not testing their access prior to commencement of the exercise. This of course placed significant pressure on limited IT support services assisting with the exercise.</p> <p>EMQ South West Region has made significant progress in the adaption and design of the portal for the use of each Disaster Management Group, in future events/ operations and exercises.</p> <p>Agency specific feedback received</p> <ul style="list-style-type: none"> • Transport Main Roads. Lack of consultation as a support agency, maybe due to relative infancy in Disaster Management. Would like to have been involved more. • Queensland Police Service. Disappointing some agencies didn't participate. Training for administrative positions required. • Queensland Ambulance Service. Due to problems at

<p>Innovation (DEEDI)</p> <ul style="list-style-type: none"> • Animal Biosecurity and Welfare • Red Cross • Department of Environment and Resource Management 	<p>strategy.</p> <ul style="list-style-type: none"> • Evaluate the communication flow between disaster management groups. <p>Exercise Orko was conducted during day light hours only, in real time and was targeted at the following Disaster Management Groups (DDMGs):</p> <p>District Disaster Management Groups Local Management Groups</p> <ul style="list-style-type: none"> • Toowoomba • Warwick • Lockyer Valley • Dalby • Western Downs • Southern Downs • Goondiwindi <p>In the days leading up to the exercise, Bureau of Meteorology (BoM) weather bulletins/warnings were issued to engage the above LDMGs and DDMGs and trigger preparedness planning activities. Once the exercise began, the various disaster management groups worked through the operational issues associated with the before, during and after phases of the event. Agency involvement was as requested by the relevant DDC or Local Government.</p> <p>BoM bulletins, warnings and weather summaries continued to be issued for the duration of the exercise. Information regarding river heights and other relevant information was also provided by BoM.</p> <p>Information serials were injected into the exercise by a variety of means including phone, email, fax, maps, reports and face to face briefings;</p> <p>The exercise also incorporated a scenario to test the capacity of LDMG's call centres; volumes of serials were determined in consultation with Local Government.</p> <p>Participants were expected to respond as they would in a real event using their disaster management plans, standard operating procedures, supporting documentation and local knowledge.</p> <p>Accordingly participants scheduled and hosted meetings as required during the exercise to simulate the information sharing arrangements</p>	<p>Toowoomba Regional Council, serials were not sent to relevant agencies. Need more serials. Dalby needed workload data for the day. More information on road closures to be communicated.</p> <ul style="list-style-type: none"> • DEEDI. No serials received. Felt they would have benefited from a list of acronyms and their meanings. <p>DDC Feedback – New DM Arrangements</p> <p>Declaration of a disaster situation</p> <p>When asked about declaration of a disaster situation, 1 DDC felt that due to evacuations being voluntary and the level of damage not being overly significant, that a declaration of a disaster situation would not be warranted.</p> <p>Following a scenario given to all 3 DDCs triggering the need to rapidly declare a disaster situation, the following responses were received by Excon:</p> <p>DDC - Dalby</p> <p>"As the DDC I would consult with the members of the DDMG and LDMGs as per legislative requirements. I would declare a Disaster Situation verbally however would complete the Form DM2 – Declaration of a Disaster Situation ASAP and forward to the SDCC for approval by the Minister for the declaration of a disaster situation. This would remain in force for 7 days unless revoked sooner."</p> <p>DDC – Warwick</p> <p>"Invoke the Public Safety Preservation Act powers and then make application for the Declaration of Disaster. Once that is approved then revoke the PSPA."</p> <p>DDC – Toowoomba</p> <p>"As this matter highlighted the urgency of the situation the recent amendments to the Act, specifically Section 65, outlines that an oral declaration can be made and this must be recorded in the approved form and forwarded for ratification by virtue of that section as reasonably practical thereafter. However, given the situation I am not overly convinced, given the limited information, that a declaration is warranted at this time. Section 64 of the Act specifically</p>
--	---	--

	<p>that would take place during a real event (e.g. DDMG/LDMG meetings and briefings etc.).</p> <p>Exercise Control (Excon) coordinated teleconferences as required to simulate broader information sharing arrangements. If an extreme weather event of this magnitude were to occur, it would require considerable input from the State; therefore Exercise Control staff notionally activated a pseudo State Disaster Coordination Centre (SDCC) which responded accordingly throughout the exercise.</p> <p>A special media component was worked into the exercise with the assistance of the University of Southern Queensland's Public Information Team. This team is set up as a sub group of the Toowoomba District Disaster Management Group to provide media and crisis communication support in times of disaster. EMQ Media facilitated the pseudo media team and coordinated a series of media interviews with participating Disaster Management Groups.</p> <p>A time jump following the response phase allowed participants the opportunity to work through recovery phase issues during a special recovery workshop held on the last day of the exercise which saw a turn out of over 60 participants. The Recovery Workshop focused on recovery issues to be considered in the context of exercise Orko, the four pillars of recovery and the DM Amendment Bill 2010. Further information provided in section 2, Exercise Development and Running, Recovery Workshop.</p> <p>A State Emergency Service (SES) RFA Online, call centre exercise was run for the Toowoomba and Warwick Groups of the State Emergency Services on the Tuesday night of the exercise. As this was a desktop exercise only, teams did not deploy into the field for operations. The objectives of the exercise were:</p> <ul style="list-style-type: none"> • To exercise the call centre management operations of two of the largest SES groups in the South West Region • As a learning and competency maintenance activity for RFA Online entry within the groups • To generate data for use by respective Local Governments during the exercise • To check, test and maintain all SES equipment required to respond to an storm/flood event <p>A SES RFA Call Centre Data Extract graph can be found in Annex I.</p> <p>It was stressed that all exercises should be viewed as a learning experience and therefore participants were encouraged to seek advice and ask questions if unsure of the information being provided</p>	<p>outlines that a declaration is for the purpose of utilising extraordinary powers in relation to incidents and there is nothing to suggest that those powers would be required at this time."</p> <p>Amalgamation of District Boundaries</p> <p>When asked to consider and discuss the potential amalgamation of district boundaries for a severe event, the 3 DDCs shared the following feedback:</p> <ul style="list-style-type: none"> • It would be preferable to maintain the existing three district boundaries and NOT amalgamate into one super district. The reason being is due to the sheer geographic area covered by the three districts and the perceived level of comfort, in being able to successfully manage the event using existing boundary arrangements. • If forced to amalgamate, the consensus indicated that the DDC appointed would be the one in charge of the district that was worst effected by the event and in most need of support. Interestingly, the DDCs felt it was important that the other 2 DDCs would be asked to be members of the Amalgamated District Group to provide local knowledge guidance and advice during the event. • All 3 x DDCs stressed that if the State Disaster Coordinator wanted to amalgamate district boundaries, he or she should firstly consult with the DDCs to hear their point of view and preferred boundary arrangements prior to making the decision to amalgamate. • All 3 x DDCs stressed that boundary decisions should reflect the shared consensus of the DDCs as opposed to being told a decision was made without consultation. <p>District Disaster Coordination Feedback</p> <p>Toowoomba District Disaster Management Group</p> <ul style="list-style-type: none"> • Lockyer Valley LDCC <ul style="list-style-type: none"> ◦ Good communication ◦ Lots of questions ◦ Some requests could have been actioned locally and coaching was provided • Toowoomba Regional Council had no contact with
--	--	--

	<p>or action to be taken.</p> <p><i>In summary Exercise Orko gave LDMGs the opportunity to:</i></p> <ul style="list-style-type: none"> • activate the Local Disaster Management Plan as required; • respond to serials issued by Exercise Control via phone, fax and email; • provide the DDMG and Exercise Control with a minimum of two Situation Reports, within a timeframe identified by exercise control; • activate the Coordination Centre for the duration of the exercise; • prepare all relevant paperwork that would usually be completed during a disaster event including requests for assistance; • respond to requests for information and conduct interviews with media; • participate in an initial exercise briefing and conduct a hot debrief on the day; • prepare a post exercise report; and • prepare warnings and public messages as required. <p><i>In Summary Exercise Orko gave DDMGs the opportunity to:</i></p> <ul style="list-style-type: none"> • respond to serials issued by Exercise Control via phone, fax and email including requests from the LDMG, SDCC and 'the media'; • provide the SDCC and Exercise Control with a minimum of two Situation Reports; • prepare all relevant paperwork that would usually be completed during a disaster event including a "Declaration of Disaster Situation" and requests for assistance including re-supply operations; • respond to requests for information and conduct interviews with local, national and international media; • participate in an initial exercise briefing and conduct a debrief on the final day; • prepare a post exercise report. <p>Overall the exercise which included 83 registered participants (Note – This figure does not include many additional disaster coordination centre staff as many Local Governments and DDCs elected to register once on behalf of the group) was a success with positive feedback received from all participants. The exercise was written to satisfy all objectives and these were met a varying levels in each</p>	<p>DDC</p> <ul style="list-style-type: none"> • More contact required between LDMG and DDC with more frequency • The physical resource requirements of actual DCC <p>Warwick District Disaster Management Group</p> <ul style="list-style-type: none"> • The District Disaster Coordination centre (DDCC) was well set up including; <ul style="list-style-type: none"> ◦ Contact lists and boards ◦ Forms and Boards ◦ Record keeping requirement and flow of information process were working effectively. • DDCC did not receive a lot of RFAs or information from the LDMG, which resulted in the intended level of impact not being reached or realised. Indicating the LDMG may not have realised the full potential/consequences of some scenarios. • Serial Number 215 – Leslie Dam Active Recreation Centre. The DDCC went to great length to research, quantify and appropriately deal with the potential evacuation and accommodation of Students from facility. Numerous phone calls were made to a range of agencies to ascertain solutions and possible outcomes to 'what if' scenarios etc. The outcome reached exceeded what was expected from exercise writers. • Effective communication with other agencies. • Sign-on sheets were effectively used throughout the exercise. • Staffing of the DDCC was appropriate given the experienced level of workload, however if the intended level of disaster was realised throughout the exercise this may have needed revising. • The experience of the DDC was evident throughout the event, as a number of considerations were pre-empted throughout the exercise. <p>Dalby District Disaster Management Group</p> <ul style="list-style-type: none"> • There was good communication with Dalby LDMG, they were sending RFAs to the DDC, however not all of these were DDMG matters; advice was given to local government on these RFAs. • DDMG members did not meet during the exercise;
--	---	--

	<p>Disaster Management Group (DMG) as per their level of buy in – NOTE – Further information on participant "buy in" can be found in the Exercise Development Package section of this report.</p> <p>Each DMG had the opportunity to test their plans and identified areas for improvement and additional training required for future operations. A summary feedback report for each participating DMG can be found in section 4 Feedback, of this report.</p> <p>It should also be noted that Exercise Orko received unprecedented media coverage during the exercise. With stories on major networks including Channels Seven, Ten and Win local news and radio broadcasts. There were also a number of articles in local newspapers, where Local Governments had distributed Media Releases regarding the event.</p>	<p>however they were available to the DDC by phone if required.</p> <ul style="list-style-type: none"> • DDCC set up an Incident Management Team (IMT) which performed well during the exercise. • DDC dialled into the pseudo SDCC teleconferences on his own, information was passed to the DDCC IMT, however there was no advice/briefings given to the rest of the DDMG regarding anything on the teleconferences to the best of the EMQ advisors knowledge. <p>District Disaster Participation by Agencies</p> <ul style="list-style-type: none"> • It was noted during the feedback that the DDMGs did not "bother" the agencies and call them together for a briefing or to call the DDMG members together to sit or provide input into the DDCC. The DDMGs did not undertake a meeting during the exercise. • The feedback noted that one DDC kept his members very well informed through out the exercise through very regular contact but they felt they would have benefited by actually seeing the room working and how they could participate during a real event. • Quite a few of the agencies noted that they did not receive a request as they were expecting to be involved in the serials and as a result they felt "left out" of the exercise. It was also noted that some of these agencies had not registered for the exercise, so for theses no agency specific serials were developed, however in some cases serials had been developed in consultation with the relevant agency and directed to the LDMG, unfortunately they did not get passed to DDMG level. • Agencies were continually provided information leading up to the exercise including the distribution of the weather information and the general and administration instructions. • All agencies at DDMG level were notified of the registration process through a scheduled DDMG meeting prior to the exercise, but very few outside the members who sat on the LDMG and DDMG actually registered. • Feedback suggests that the agencies need to be specifically invited and their involvement noted on the admin instructions so the LDMG and DDMG are
--	--	---

		<p>aware of the level of participation agreed to by each of the agencies and so the feeling of being a "bother" is managed accordingly.</p> <ul style="list-style-type: none"> • LDMGs identified that after recent Government amalgamations meant that new regional boundaries were much larger and introduced additional complications. • DDCs did identify that recent Government amalgamations meant that whilst each agency was represented the functional arrangements still to be maintained even if that meant multiple representatives from each Government agency was required. <p>Local Government Feedback</p> <p>Toowoomba Regional Council (TRC)</p> <ul style="list-style-type: none"> • Exercise Orko was held on 2 to 4 November, 2010. The TRC DCC Staff were activated for a period of five hours. Main aim was to test software and the communication links between TRC and outside agencies. The exercise raised a number of issues for the DCC which were previously identified in Ex Ember. Exercise Ember was a fire based exercise conducted on the November 20, conducted by TRC to test the Pathway electronic software management system. • Toowoomba LDCC received a total of 197 serials including 56 serials input by email and the remainder were phoned through the Call Centre staff. The email account used for this exercise was a personal account and this remained unchecked for approximately 2 ½ hours. The 1200 hrs sitrep identified that as of 1130 hrs, of the 42 requests received, a total of 7 of the requests had been completed. Data in the sitrep was very basic and for most sections, no detail was provided at all. Emails received between 1130 and 1230 were responded to, however this was a token response only, with no consultation with other agencies identified. • As part of this exercise TRC staff evaluated the collection of data and the inputting of this data into the council data management system. A series of
--	--	--

		<p>bottlenecks were identified in the collation and logging of jobs against their GIS database and the displaying of this data on the maps. This was one of the key testing points of the exercise for TRC and will lead to further changes to the GIS interface with pathway.</p> <ul style="list-style-type: none"> • No contact was made from the council to the DDC during the exercise. The DDC identified this as an issue to address at a later date. • LDMG members from agencies whilst they were involved in the exercise did not receive any requests for assistance and their agency information was not included into the sitreps. Agencies generated their own requests internally, to stimulate activity in the LDCC and generate information flow. QFRS and QAS worked together to generate requests that should have come back to themselves and didn't. • There were significant issues raised with the layout of the room, and these had also been identified in Exercise Ember in the previous few weeks. It was noted that there had been plans instigated to move the LDCC into another facility, into the new Customer Service Centre. • At the LDMG conducted on November 11, it has been agreed by the LDMG that Exercise Orko will be conducted again, on a reduced scale in the new location. <p>Southern Downs Regional Council (SDRC)</p> <ul style="list-style-type: none"> • As part of the exercise Southern Downs staff identified a series of key learnings from the exercise and that the debrief was extremely positive. The exercise was extremely beneficial for all staff involved. • Key areas to concentrate on included roles and responsibilities of staff, electronic job management software, determining key contacts for some government departments, ability to split resources across both sides of the river, further discussions about key infrastructure, and mapping requirements. • As part of the debrief further training had been identified and scheduled for early to mid January starting with newly introduced LDC training and
--	--	---

		<p>coordination centre training.</p> <ul style="list-style-type: none"> • It must be recognised that SDRC is a relatively small Regional Council and the commitment and number of staff involved in the exercise was a major commitment on behalf of council. Their enthusiasm both prior to and during Exercise Orko was exceptional. • A total of 158 requests were received, 49 of these were by email. Sitreps were quite detailed and provided strategic information showing good planning, foresight and information management. • Responses to serials were faxed back to the pseudo SDCC along with further communication including use of processes and liaising and consulting conversations that would have taken place should this have been a real event. <p>Lockyer Valley Regional Council</p> <ul style="list-style-type: none"> • As part of the exercise Lockyer Valley staff identified a series of key learnings from the exercise and that the debrief was extremely positive. The exercise was extremely beneficial for all staff involved. This has been reinforced during LDMG meetings and throughout recent events. • Major learning from the exercise was the staffing levels required to manage a disaster and the need for significant human resources. During the exercise, additional staff were "dragged in" to the exercise and the impact on normal business during a disaster situation was identified. • As part of the exercise 59 requests were received with 14 of those being via email. • It was identified during the planning phase that Lockyer Valley being a very small regional council would have a very low capacity for participating staff. Although the staffing numbers were very low, LVRC were committed to the exercise and approached the exercise whole heartedly. It was also identified that recent staff changes had left the council "very light on" as far as disaster management trained/prepared staff went, however they did use the exercise as a learning environment and stated the exercise was very beneficial.
--	--	---

		<ul style="list-style-type: none">• Situation Reports were very detailed and showed strategic thinking and detailed investigations of additional data from various sources. 3 sitreps had been produced with updated data in each.• Good linkage with agencies was identified through the sitreps.• LVRC responded to Excon seeking further information on serials that they felt was necessary to correctly action them.• Good communication was observed between the council and the DDC. The DDC made comment after the exercise that their enthusiasm was encouraging and that at times requests to the DDC could have been handled by the LDMG however coaching was provided. <p>Goondiwindi Regional Council</p> <ul style="list-style-type: none">• As part of the exercise Goondiwindi staff identified a series of key learnings from the exercise and that the debrief was extremely positive. The exercise was extremely beneficial for all staff involved.• As part of the exercise 59 requests were sent with 26 of those being via email.• Some BoM serials were adjusted during the exercise to ensure the peak of flood water occurred during the Wednesday morning of the exercise, as council identified early Tuesday that the town levee would have been breached prior to running the Wednesday morning serials.• A lack of town specific "on the ground information/intelligence" highlighted the need for a identified point of contact in the following towns: Texas, Talwood, Bungunya. It was also discussed that some of the small towns and districts may require a "Flood Warden" as a point of contact and that QFRS Rural Operations were investigating using their Fire Wardens as a dual role.• There was quite a bit of discussion on whether there was a need to set up a Local Emergency Coordination Committee in Inglewood. This became evident when a number of serials were set in Inglewood. The LDCC had no single point of contact in Inglewood to gain information or contact a specific
--	--	---

		<p>agency to relay information. It was decided to pursue the idea of making the Council Office Manager the point of contact and set up meetings with the combined local emergency service representatives, to discuss how this would work in a real incident.</p> <ul style="list-style-type: none"> • The need for evacuation centres in Inglewood and Goondiwindi was identified and although this had been discussed on previous occasions, specific sites had been considered, but not properly identified. The showgrounds in Goondiwindi would be assessed for suitability and a site in Inglewood would be investigated. • The room used for the LDCC was not suitable and it was decided that the old council chambers would be more suitable and would be set-up for this purpose. • The need for more GRC staff in the LDCC was identified and it was decided to train more administration staff in working in an emergency operations centre. • The use of the emergency alert system was discussed and it was agreed that it would work well, if used in a real event. • It was mentioned that cross border emergency response issues had arisen during the exercise and that these issues had been discussed at previous LDMG meetings but they may need an MOU. • The need for flood boat operators within GRC SES Units was highlighted by the exercise and it was being addressed by an SES Flood boat Operator course to be run in Goondiwindi early in the New Year. <p>Western Downs Regional Council</p> <ul style="list-style-type: none"> • As part of the exercise Western Downs staff identified a series of key learnings from the exercise and that the debrief was extremely positive. The exercise was extremely beneficial for all staff involved. • As part of the exercise 126 requests were received with 48 of those being via email. • LDCC Room was soon found to be too congested and an adjoining office was brought into play for LDMG Meetings and agency specific discussions –
--	--	--

		<p>this worked well and will be adopted in a real situation including the use of some other ancillary private offices.</p> <ul style="list-style-type: none"> • The council offices building at Wood Street was seen as very suitable for the purpose of an LDCC, with some improvements to the identified room, which would be undertaken by council. • It soon became apparent of the need for specific roles for LDCC participants, particularly call centre operators. It was agreed that council administration staff would be canvassed as to their willingness and availability to take on LDCC roles during a real event. • Lack of trained SES members was evident and a membership drive was advocated, as well as additional training for current members. • Some contacts for agencies were not current and this was to be updated through LDMGs normal processes. • A problem with the Queensland Police Service email system caused delays in requests for assistance from the LDCC to the DDC. This problem was identified and was to be addressed. • Key agency liaison officers need to be in the LDCC to give on the spot advice on agency personnel, expertise and equipment availability. • Some communication problems between outlying council communities such as Chinchilla and Tara were apparent especially with regard to gaining current on ground information. The need to have operational LECCs as part of the WDRC Disaster Management Plan was identified. • Need for Evacuation Centres and managers was identified and Red Cross was to be approached in regards to assisting with this issue. • Final discussions agreed that there would need to be future training and preparations to improve the readiness of WDRC to respond to emergency incidents and that Exercise Orko had highlighted this need. <p>Overall Feedback Overall feed back through hot debrief notes conducted on Thursday November 4, showed multiple responses</p>
--	--	---

		<p>identifying the following topics:</p> <ul style="list-style-type: none"> • Further Disaster management Training such as roles and responsibilities, call centre and Admin staff. • Need for more human resources to be allocated during disasters • Need for more detailed information such as flood mapping and the relevance of information received from BOM and the consequences of the information. • Media component was beneficial and was a good test of the media communications plans. • Identified the need for further development of SOPs or sub plans. • Opportunities for networking a big bonus. <p>Feedback from comments (Lockyer Valley, Western Downs, Southern Downs and Goondiwindi), continues to be extremely positive. These councils have indicated the exercise was very beneficial; it enabled them to be better prepared for the events that occurred in December 2010 and January 2011. Whilst the short time frame between the exercise and flooding event was not sufficient to implement all learnings, feedback has indicated the immense benefit of this exercise.</p> <p>Recovery Workshop</p> <p>The recovery workshop component of the exercise in excess of 60 participants in attendance, including 2 of the 3 DDCs that participated in the exercise, it was presented by EMQs Shane Wood and Libby Davis and focused on recovery issues to be considered in the context of exercise Orko, the four pillars of recovery and the DM Amendment Bill 2010. To facilitate these objectives a time jump from the response phase to the recovery phase of Exercise Orko was conducted, with the following expected outcomes:</p> <ul style="list-style-type: none"> • Well defined transition objectives • Well defined recovery scope • Identification, analysis and evaluation of residual risks • Identification and prioritisation of treatment options
--	--	---

		<ul style="list-style-type: none">• Establishment of a management strategy• Development of a Recovery Strategy and Plan• Identify a way forward to build future resilience <p>The afternoon saw syndicate style workshop components aimed at ensuring LDMGs left with essential information required to scope out a Recovery Group Structure/Strategy, or amend an existing structure or plan as required. The agenda/ schedule for the Recovery workshop can be found in Annex B.</p> <p>As a direct outcome of the recovery workshop the State Recovery Template (often referred to as the Hinchinbrook Recovery Model) was updated with additional recovery information identified during the syndicate sessions of the workshop. Cultural heritage and Natural Habitats are just two examples of some of the valuable additional considerations added to the model for use in future events. There were significant changes to financial responsibility throughout the model, including providing cost analysis, sourcing and applying for funding (NDRRA etc.) and ensuring compliance to any relevant provisions when applying for said funding.</p>

Exercise Orko

EMQ South Western Region: 2-4 November 2010

Final Report

Prepared by: South Western Region – Emergency Management Queensland 2010

EXERCISE ORKO – FINAL SUMMARY REPORT

1. EXECUTIVE SUMMARY

Exercise Orko was the second of seven planned disaster management exercises which ran in Emergency Management Queensland's (EMQ) South West Region (SWR) as part of the 2009-2010 Ministerial Portfolio priority to "*develop and deliver an Enhanced Exercise Regime for District Disaster Management Groups (DDMG) and Local Disaster Management Groups (LDMG)*", funding was provided under the Election Commitment 2009 '*Supporting our Heroes*' commitment to June 2014.

The exercise was designed around a hypothetical but realistic extreme weather event affecting 3 Disaster Districts and 5 Local Governments of South Western Queensland from Tuesday 2, to Thursday 4, November 2010. Distribution of messages and warnings began from Sunday, 31 October 2010 and worked through key considerations drawing upon the concepts and principles of disaster management to respond to the impact of an extreme weather event.

The original objectives for Exercise Orko were to:

- Trigger the activation of disaster management arrangements in response to major flooding / storm event;
- Exercise whole-of-government disaster management relationships at local, district and state level;
- Exercise LDMG evacuation plans;
- Exercise emergency call centre capacity to deal with high volume calls;
- Enable members of disaster management groups to actively engage in the business of the group.
- Exercise re-supply arrangements for the region;
- Exercise the establishment of a recovery transition strategy.
- Evaluate the communication flow between disaster management groups.

Exercise *Orko* was conducted during day light hours only, in real time and was targeted at the following Disaster Management Groups (DMGs):

<i>District Disaster Management Groups</i>	<i>Local Disaster Management Groups</i>
<ul style="list-style-type: none"> • Toowoomba • Warwick • Dalby 	<ul style="list-style-type: none"> • Toowoomba • Lockyer Valley • Western Downs • Southern Downs • Goondiwindi

In the days leading up to the exercise, Bureau of Meteorology (BoM) weather bulletins/warnings were issued to engage the above LDMGs and DDMGs and trigger preparedness planning activities. Once the exercise began, the various disaster management groups worked through the operational issues associated with the before, during and after phases of the event. Agency involvement was as requested by the relevant DDC or Local Government.

BoM bulletins, warnings and weather summaries continued to be issued for the duration of the exercise. Information regarding river heights and other relevant information was also provided by BoM.

Information serials were injected into the exercise by a variety of means including phone, email, fax, maps, reports and face to face briefings;

The exercise also incorporated a scenario to test the capacity of LDMG's call centres; volumes of serials were determined in consultation with Local Government.

Participants were expected to respond as they would in a real event using their disaster management plans, standard operating procedures, supporting documentation and local knowledge.

Accordingly participants scheduled and hosted meetings as required during the exercise to simulate the information sharing arrangements that would take place during a real event (e.g. DDMG/LDMG meetings and briefings etc.).

Exercise Control (Excon) coordinated teleconferences as required to simulate broader information sharing arrangements. If an extreme weather event of this magnitude were to occur, it would require considerable input from the State; therefore Exercise Control staff notionally activated a pseudo State Disaster Coordination Centre (SDCC) which responded accordingly throughout the exercise.

A special media component was worked into the exercise with the assistance of the University of Southern Queensland's Public Information Team. This team is set up as a sub group of the Toowoomba District Disaster Management Group to provide media and crisis communication support in times of disaster. EMQ Media facilitated the pseudo media team and coordinated a series of media interviews with participating Disaster Management Groups.

A time jump following the response phase allowed participants the opportunity to work through recovery phase issues during a special recovery workshop held on the last day of the exercise which saw a turn out of over 60 participants. The Recovery Workshop focused on recovery issues to be considered in the context of exercise Orko, the four pillars of recovery and the DM Amendment Bill 2010. Further information provided in section 2, Exercise Development and Running, Recovery Workshop.

A State Emergency Service (SES) RFA Online, call centre exercise was run for the Toowoomba and Warwick Groups of the State Emergency Services on the Tuesday night of the exercise. As this was a desktop exercise only, teams did not deploy into the field for operations. The objectives of the exercise were:

- To exercise the call centre management operations of two of the largest SES groups in the South West Region
- As a learning and competency maintenance activity for RFA Online entry within the groups
- To generate data for use by respective Local Governments during the exercise
- To check, test and maintain all SES equipment required to respond to an storm/flood event

A SES RFA Call Centre Data Extract graph can be found in Annex I.

It was stressed that all exercises should be viewed as a learning experience and therefore participants were encouraged to seek advice and ask questions if unsure of the information being provided or action to be taken.

In summary Exercise Orko gave LDMGs the opportunity to:

- activate the Local Disaster Management Plan as required;
- respond to serials issued by Exercise Control via phone, fax and email;
- provide the DDMG and Exercise Control with a minimum of two Situation Reports, within a timeframe identified by exercise control;
- activate the Coordination Centre for the duration of the exercise;
- prepare all relevant paperwork that would usually be completed during a disaster event including requests for assistance;
- respond to requests for information and conduct interviews with media;
- participate in an initial exercise briefing and conduct a hot debrief on the day;
- prepare a post exercise report; and
- prepare warnings and public messages as required.

In Summary Exercise Orko gave DDMGs the opportunity to:

- respond to serials issued by Exercise Control via phone, fax and email including requests from the LDMG, SDCC and 'the media';
- provide the SDCC and Exercise Control with a minimum of two Situation Reports;
- prepare all relevant paperwork that would usually be completed during a disaster event including a "Declaration of Disaster Situation" and requests for assistance including re-supply operations;
- respond to requests for information and conduct interviews with local, national and international media;
- participate in an initial exercise briefing and conduct a debrief on the final day;
- prepare a post exercise report.

Overall the exercise which included 83 registered participants (Note – This figure does not include many additional disaster coordination centre staff as many Local Governments and DDCs elected to register once on behalf of the group) was a success with positive feedback received from all participants. The exercise was written to satisfy all objectives and these were met a varying levels in each Disaster Management Group (DMG) as per their level of buy in – **NOTE** – Further information on participant "buy in" can be found in the Exercise Development Package section of this report.

Each DMG had the opportunity to test their plans and identified areas for improvement and additional training required for future operations. A summary feedback report for each participating DMG can be found in section 4 Feedback, of this report.

It should also be noted that Exercise Orko received unprecedented media coverage during the exercise. With stories on major networks including Channels Seven, Ten and Win local news and radio broadcasts. There were also a number of articles in local newspapers, where Local Governments had distributed Media Releases regarding the event.

2. EXERCISE DEVELOPMENT AND RUNNING

General Development and Running

In addition to the information noted in the Executive Summary of this report, following is further information on the development of Exercise Orko. The template generated for Exercise Orko will be used when generating future exercises for use throughout the South Western Region.

The initial development of Exercise Orko started with the issuing of a letter to relevant Local Governments and DDCs requesting they use the form attached in Annex K to indicate their level of "buy in commitment" to the exercise. This assisted in ensuring each DMG had the opportunity to pre-plan and participate at an appropriate level, as per human resource requirements etc. It also assisted the Exercise Development Team to proceed with planning and ascertain the resources required for the development and execution of the exercise. Each of the local governments were able to negotiate their level of participation as per the table in Annex K. Each of the LDMG identified that they would participate at rating 4.

Previously in the calendar year the Dalby, Toowoomba and Warwick Recovery Committees had conducted a Recovery and Evacuation Centre exercise where centres had been established and the roles and responsibilities of all agencies had been discussed at length. This had been factored into the negotiations with each of the LDMGs and rating 4 was identified as most appropriate.

A Pre-Exercise Briefing was held on November 1, where information regarding the current weather situation was provided by the Bureau of Meteorology and rules of engagement for the exercise were given.

During the running of the exercise, two pseudo State Disaster Coordination Centre (SDCC) teleconferences were convened on November 3 at 1000 hours and 1500 hours respectively. Each LDCC and DDCC was required to attend.

DDMGs and LDMGs were also required to produce two situation reports (SITREPS) over the period of the exercise and distribute them to Exercise Control at 1200 hours and 1400 hours Wednesday November 3.

Serial injection was achieved by a variety of mediums including email, phone and face to face by EMQ Advisors. Using the excel spreadsheet developed for the exercise, serials could be sorted into date and time order, allowing bulk emails to be generated as drafts and sent at the pre determined times, this greatly assisted the Excon team during the running of the event. Serial injections, by phone were made by a team of SES volunteers throughout the exercise, to simulate the sheer volume of information/requests for assistance received during any event. As in any event, the EMQ Advisor, while assisting Local Governments and DDC's during the exercise, injected some serials and information.

A total of 610 serials were input on Wednesday November 3, with the majority, 599 of these primarily going to Local Governments. It is important to note that agency specific and DDMG specific serials were also input through Local Disaster Coordination Centres (LDCCs), to simulate the information flow through Request For Assistance (RFA) that would ordinarily be escalated this way in any event. Also as part of this exercise an additional 190 serials were input into Toowoomba and Warwick SES to provide additional data for the linkage of the exercise to the SES RFA Call Centre Exercise. A Flow chart of the information flow for the exercise can be found in Annex H.

A hot-debrief was held at the completion of the Wednesday exercise component of the scenario, after the 1500 hour SDCC teleconference. Emergency Management Queensland (EMQ) Advisors/participants were the facilitators and a general exercise debrief was conducted at the conclusion of the Recovery Workshop component on Thursday November 4.

The majority of correspondence exchanged between participants and Excon from Monday November 1, to Thursday November 4 was sent via email. Additional contacts (participating agencies etc) were available on the contacts tab of the Exercise Orko portal. Additional pseudo phone numbers in Excon simulated agency specific information hotlines as required, these were also available in the contacts section of the Exercise Orko Portal and included agencies such as BoM, SDCC & Media.

Call centre Component

Some of the participating Local Governments were involved in the call centre exercise, run on Wednesday November 3, from 0900 hours through to 1300 hours. This component of the exercise was designed to simulate phone calls from the general community during a major event and serve as a training/SOP testing measure for Local Governments administration staff.

Documents, processes and presentations

The following are some of the documents, processes and power point presentations used to create, plan and run Exercise Orko:

- Administration Instruction
- Exercise Orko Checklist
- Initial briefing document
- Sign in sheets
- Teleconference – Dot points for running
- Contact/Registration spreadsheet
- Hot debrief guide
- General Instruction
- EMQ Advisors master contact list
- Recovery Workshop Invitation
- BoM products Timeline
- Exercise Cost Capture spreadsheet
- DG Brief
- Local Member Invitation to participate
- Graphics for Cover Sheets and Exercise Folder Covers
- Registration Forms
- Meal Bookings
- Accommodation Bookings
- Teleconference Minutes
- Orko Pre exercise Power point
- Orko Recovery Workshop Power point
- South Western Region Flood Power point
- South West Queensland's Flood Recovery Template
- Local Recovery Group Structure work sheet
- Bom Serials
- Exercise Serials spreadsheet
- Transport specific Serials Spreadsheet
- SES RFA Online serial spreadsheet
- SES Serial Template for Kit Referrals
- Sitreps
- Debrief Notes

Agency Participation

During the exercise, Government agencies represented on the various DMGs were requested to participate and perform the normal roles they would assume during real events. Participating agencies involvement in the exercise was largely determined by the relevant District Disaster Coordinator. **NOTE** – The expectation for Agency participation was to have a contact available to respond to requests from the DDC. Agencies were not required to provide staff on a full time basis for the duration of three days of the exercise. Agency representatives were invited to participate in the Recovery Workshop on Thursday November 4, at the City Golf Club, Toowoomba. A table of participating agencies can be found in Annex A.

Pseudo Media

A special media component was worked into the exercise with the assistance of the University of Southern Queensland's Public Information Team and EMQ Media. EMQ Media facilitated the pseudo media team and coordinated a series of media interviews with participating Disaster Management Groups, allowing Local Governments to exercise their arrangements in regards to information sharing with the local community and deal with medias 'push for information' during any large event. All 5 Local Governments participating in the exercise generated a series of Media Releases which were uploaded to the portal during the exercise.

Exercise Control

Exercise Control (Excon) assumed authority for the conduct of this exercise, starting and finishing the exercise it controlled the overall flow to help ensure the outcomes were achieved. Excon continually liaised with other directing staff and managed any unplanned occurrences. As well as feeding serials to the coordination centres, it also liaised with support agencies and simulated the pressure of governmental interest.

Excon was based in the EMQ Toowoomba Regional Office, following were the key Exercise Management appointments:

- Exercise Director – Robert Bundy
- Exercise Manager – Michelle French
- Exercise Coordinator - Jeff Cheadle
- Exercise Control Staff – Grant Ziarno, Tracy Voysey, Bill Watt, Michael Bauer & Alana Dunn
- SES Volunteer Exercise Control Staff – Judith Lethbridge, John Harrison, Brian Cook, Robert Hall, Ken Cook & Ruth Blunderfield
- Exercise Media - Michael Franks & Barbara Ryan

As mentioned previously in this report, Excon also performed the roles of Pseudo SDCC, BoM and Media during the exercise.

EMQ Advisors

EMQ Advisors were present at the LDMG and DDMG event venues for the duration of the exercise and provided feedback to Excon. They conducted a similar role to real time events; providing guidance, information, advice and assistance as required throughout the exercise and assisted with advice on lessons learnt. Following is the role description they were given for the exercise:

Observe processes, procedures and techniques;
 Monitor exercise progress;
 Provide support & advice to respective DM groups;
 Provide feedback to Exercise Control; and
 Provide input to the exercise debrief;
 Point of clarification for queries regarding exercise serials

The following table lists the EMQ staff allocated to the various centres for the period of the exercise:

EMQ ADVISORS			
Location	Name	Email	Phone
Toowoomba DDMG	Peter Twomey		
Toowoomba LDMG	David Fraser –		
Lockyer Valley LDMG	David Mazzaferri		
Warwick DDMG	Jay Dobbin		
Southern Downs LDMG	Elizabeth Davis		
Goondiwindi LDMG	Scott Walsh		
Dalby DDMG	Mark Kelly		
Western Downs LDMG	Chris Artiemiew		

Recovery Workshop

The recovery workshop component of the exercise in excess of 60 participants in attendance, including 2 of the 3 DDCs that participated in the exercise, it was presented by EMQs Shane Wood and Libby Davis and focused on recovery issues to be considered in the context of exercise Orko, the four pillars of recovery and the DM Amendment Bill 2010. To facilitate these objectives a time jump from the response phase to the recovery phase of Exercise Orko was conducted, with the following expected outcomes:

- Well defined transition objectives
- Well defined recovery scope
- Identification, analysis and evaluation of residual risks
- Identification and prioritisation of treatment options
- Establishment of a management strategy
- Development of a Recovery Strategy and Plan
- Identify a way forward to build future resilience

The afternoon saw syndicate style workshop components aimed at ensuring LDMGs left with essential information required to scope out a Recovery Group Structure/Strategy, or amend an existing structure or plan as required. The agenda/schedule for the Recovery workshop can be found in Annex B.

As a direct outcome of the recovery workshop the State Recovery Template (often referred to as the Hinchinbrook Recovery Model) was updated with additional recovery information identified during the syndicate sessions of the workshop. Cultural heritage and Natural Habitats are just two examples of some of the valuable additional considerations added to the model for use in future events. There were significant changes to financial responsibility throughout the model, including providing cost analysis, sourcing and applying for funding (NDRRA etc.) and ensuring compliance to any relevant provisions when applying for said funding.

3. EXERCISE TOOLS AND TECHNOLOGY DEVELOPMENT

Exercise Orko Portal

The template for the Exercise Orko Portal (EMQ website) was developed during Exercise Poseidon, this was then updated and enhanced before Exercise Orko commenced. Created as an information and notification source, this was a valuable tool utilised by all participants. Bureau warnings, meeting timings, media releases, sitreps, templates, contact lists, relevant website links etc were all uploaded on the site. Every LDCC/DDCC and Agency participating in the exercise was offered access to this portal through the Disaster Management portal site. Those that did not have access were required to email with a request for assistance before 1200hrs Monday, November 1, 2010. Most participants complied with this request; however there were some late requests and this did cause some delays in their portal access.

New information was updated regularly on the portal throughout the duration of the exercise, by both Exercise Control staff/ EMQ Advisors and the Pseudo Media team. Participants were able to set up "Alerts" to ensure they received all updates as the exercise progressed.

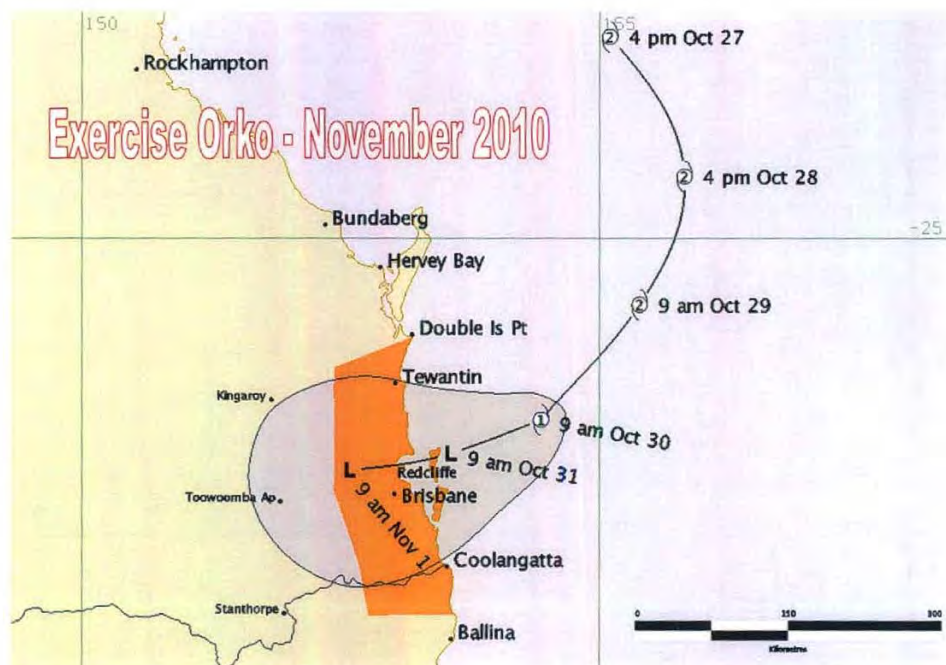

A screen print of Exercise Orko's home page can be found in Annex G.

SMS real time updates and warnings

In addition to the exercise portal, all registered participants were sent serials via sms and email as the event progressed. Over the exercise days emails and sms messages were sent to exercise participants commencing on Sunday the 31st of October 2010 to Wednesday the 3rd of November 2010. These comprised of BoM warning serials, event serials and notifications which set the scene for the exercise in real time.

Bureau of Meteorology Products

Consultation with BoM saw the development of a hypothetical but realistic extreme weather event designed to effect all LDMG & DDMGs participating in Exercise Orko. This extreme weather event was due to ex tropical cyclone Orko that crossed the coast north of Redcliffe and proceeded west as a tropical low, dumping excessive rainfall over a very large geographical Area. See attached severe weather warning in Annex J as an example of weather products issued during this exercise. The BoM Timeline of products issued can be found in Annex D.

As part of these products rainfall data, wind data and flood heights were generated for the entire area of the exercise. This included the real time (during Daylight hours) release of the flood warnings for the Upper Condamine, McIntyre, Condamine, Lockyer and Moonie Rivers and Charleys, Kings and Myall Creeks.

The Bureau of Meteorology hosted a pseudo BOM hotline for LDMGs and DDMGs to ring during the event for clarification as required. Jimmy Stewart from the BOM also hosted the BOM SDCC teleconference giving weather updates as would typically occur at a SDCC teleconference for this type of event.

Transport and Main Roads Pseudo 131490 website.

Transport and Main Roads (TMR) greatly assisted the exercise with the generation of a pseudo 131490 website, through their 131490 training site. Scenarios that would effect the 131490 site, including closure of highways and damage to main roads were sent to TMR prior to the exercise being conducted. In turn these were injected onto the website throughout the event, with TMR also able to add further information to the site that would normally be provided/determined by themselves based on information received as the exercise progressed. This added a realism to the exercise, with participants able to access a tool they would ordinarily access during any event.

4. FEEDBACK

Exercise Design Feedback

Some of the key learning's in relation to the generation of Exercise Orko are as follows:

- Information received in relation to the generation of the exercise indicated that while the exercise was large, it was easily achievable in the allotted time with minimal staff. However over time it became apparent that an exercise of this scale would require significantly more resources than those allocated, especially in relation to human resources and the generation of tools and forms during the early stages of the planning process.
- Preliminary calculations suggest that over 300 hours were contributed to the development of the exercise, primarily by two members of the exercise management team, actual hours by all staff and volunteers involved in the development and running of the exercise would be estimated to be in the thousands of hours.
- Feedback received during debriefs has indicated that, there was so much information generated for and during the exercise, it would be appropriate to modify and use the majority of Exercise Orko's content for future exercises with minimal change required.
- It is not anticipated that EMQ South Western Region will run an event of this size again in the next year. In future EMQ will run a series of small exercises over the course of the year, using the already developed serials to target and test specific areas, such as Coordination Centre Training for administration staff and threat specific sub plans. This smaller format will allow for a more manageable allocation of resources and enable exercises to be specifically tailored to the needs of particular Local Governments and DDCs. It will also allow for testing of identified location/process/local government specific issues/lessons learned or areas of concern to be written in to the exercise, which can be limited during a large exercise.
- Disaster Management Groups are being approached with regard to a range of training available for staff and members as identified during Exercise Orko. Some of these include:
 - Introduction to Incident Management
 - Local Disaster Coordinator
 - Coordination Centre
 - Introduction to Queensland Disaster Management Arrangements
 - Roles and Responsibilities of staff or Agencies
 - Information management

Exercise Orko Portal Feedback

Overall the response to the Exercise Orko Portal was very positive, with all participants commenting on the real time updates available through the use of this media. Feedback received indicated that use of a tailored portal for each LDMG/DDMG during a real event would be a significant benefit to all LDMG/DDMG members. The portal offers a point of truth for a range of information, including up to date contact lists, weather/river data, relevant website links, offers of assistance and

a place to store and access up to date sitreps, media releases and other relevant information. Negative feedback received regarding the portal generally concerned gaining access. This was largely due to the majority of participants either trying to gain access just prior to commencement of the exercise or not testing their access prior to commencement of the exercise. This of course placed significant pressure on limited IT support services assisting with the exercise.

EMQ South West Region has made significant progress in the adaption and design of the portal for the use of each Disaster Management Group, in future events/ operations and exercises.

Agency specific feedback received

- Transport Main Roads. Lack of consultation as a support agency, maybe due to relative infancy in Disaster Management. Would like to have been involved more.
- Queensland Police Service. Disappointing some agencies didn't participate. Training for administrative positions required.
- Queensland Ambulance Service. Due to problems at Toowoomba Regional Council, serials were not sent to relevant agencies. Need more serials. Dalby needed workload data for the day. More information on road closures to be communicated.
- DEEDI. No serials received. Felt they would have benefited from a list of acronyms and their meanings.

DDC Feedback – New DM Arrangements

Declaration of a disaster situation

When asked about declaration of a disaster situation, 1 DDC felt that due to evacuations being voluntary and the level of damage not being overly significant, that a declaration of a disaster situation would not be warranted.

Following a scenario given to all 3 DDCs triggering the need to rapidly declare a disaster situation, the following responses were received by Excon:

DDC - Dalby

"As the DDC I would consult with the members of the DDMG and LDMGs as per legislative requirements. I would declare a Disaster Situation verbally however would complete the Form DM2 – Declaration of a Disaster Situation ASAP and forward to the SDCC for approval by the Minister for the declaration of a disaster situation. This would remain in force for 7 days unless revoked sooner."

DDC – Warwick

"Invoke the Public Safety Preservation Act powers and then make application for the Declaration of Disaster. Once that is approved then revoke the PSPA."

DDC – Toowoomba

"As this matter highlighted the urgency of the situation the recent amendments to the Act, specifically Section 65, outlines that an oral declaration can be made and this must be recorded in the approved form and forwarded for ratification by virtue of that section as reasonably practical thereafter. However, given the situation I am not overly convinced, given the limited information, that a declaration is warranted at this time. Section 64 of the Act specifically outlines that a declaration is for the purpose of utilising extraordinary powers in relation to incidents and there is nothing to suggest that those powers would be required at this time."

Amalgamation of District Boundaries

When asked to consider and discuss the potential amalgamation of district boundaries for a severe event, the 3 DDCs shared the following feedback:

- It would be preferable to maintain the existing three district boundaries and NOT amalgamate into one super district. The reason being is due to the sheer geographic area covered by the three districts and the perceived level of comfort, in being able to successfully manage the event using existing boundary arrangements.
- If forced to amalgamate, the consensus indicated that the DDC appointed would be the one in charge of the district that was worst effected by the event and in most need of support. Interestingly, the DDCs felt it was important that the other 2 DDCs would be asked to be members of the Amalgamated District Group to provide local knowledge guidance and advice during the event.
- All 3 x DDCs stressed that if the State Disaster Coordinator wanted to amalgamate district boundaries, he or she should firstly consult with the DDCs to hear their point of view and preferred boundary arrangements prior to making the decision to amalgamate.
- All 3 x DDCs stressed that boundary decisions should reflect the shared consensus of the DDCs as opposed to being told a decision was made without consultation.

District Disaster Coordination Feedback

Toowoomba District Disaster Management Group

- Lockyer Valley LDCC
 - Good communication
 - Lots of questions
 - Some requests could have been actioned locally and coaching was provided
- Toowoomba Regional Council had no contact with DDC
- More contact required between LDMG and DDC with more frequency
- The physical resource requirements of actual DCC

Warwick District Disaster Management Group

- The District Disaster Coordination centre (DDCC) was well set up including;
 - Contact lists and boards
 - Forms and Boards
 - Record keeping requirement and flow of information process were working effectively.
- DDCC did not receive a lot of RFAs or information from the LDMG, which resulted in the intended level of impact not being reached or realised. Indicating the LDMG may not have realised the full potential/consequences of some scenarios.
- Serial Number 215 – Leslie Dam Active Recreation Centre. The DDCC went to great length to research, quantify and appropriately deal with the potential evacuation and accommodation of Students from facility. Numerous phone calls were made to a range of agencies to ascertain solutions and possible outcomes to 'what if' scenarios etc. The outcome reached exceeded what was expected from exercise writers.
- Effective communication with other agencies.
- Sign-on sheets were effectively used throughout the exercise.

- Staffing of the DDCC was appropriate given the experienced level of workload, however if the intended level of disaster was realised throughout the exercise this may have needed revising.
- The experience of the DDC was evident throughout the event, as a number of considerations were pre-empted throughout the exercise.

Dalby District Disaster Management Group

- There was good communication with Dalby LDMG, they were sending RFAs to the DDC, however not all of these were DDMG matters; advice was given to local government on these RFAs.
- DDMG members did not meet during the exercise; however they were available to the DDC by phone if required.
- DDCC set up an Incident Management Team (IMT) which performed well during the exercise.
- DDC dialled into the pseudo SDCC teleconferences on his own, information was passed to the DDCC IMT, however there was no advice/briefings given to the rest of the DDMG regarding anything on the teleconferences to the best of the EMQ advisors knowledge.

District Disaster Participation by Agencies

- It was noted during the feedback that the DDMGs did not "bother" the agencies and call them together for a briefing or to call the DDMG members together to sit or provide input into the DDCC. The DDMGs did not undertake a meeting during the exercise.
- The feedback noted that one DDC kept his members very well informed through out the exercise through very regular contact but they felt they would have benefited by actually seeing the room working and how they could participate during a real event.
- Quite a few of the agencies noted that they did not receive a request as they were expecting to be involved in the serials and as a result they felt "left out" of the exercise. It was also noted that some of these agencies had not registered for the exercise, so for these no agency specific serials were developed, however in some cases serials had been developed in consultation with the relevant agency and directed to the LDMG, unfortunately they did not get passed to DDMG level.
- Agencies were continually provided information leading up to the exercise including the distribution of the weather information and the general and administration instructions.
- All agencies at DDMG level were notified of the registration process through a scheduled DDMG meeting prior to the exercise, but very few outside the members who sat on the LDMG and DDMG actually registered.
- Feedback suggests that the agencies need to be specifically invited and their involvement noted on the admin instructions so the LDMG and DDMG are aware of the level of participation agreed to by each of the agencies and so the feeling of being a "bother" is managed accordingly.
- LDMGs identified that after recent Government amalgamations meant that new regional boundaries were much larger and introduced additional complications.
- DDCs did identify that recent Government amalgamations meant that whilst each agency was represented the functional arrangements still to be maintained even if that meant multiple representatives from each Government agency was required.

Local Government Feedback

Toowoomba Regional Council (TRC)

- Toowoomba LDMG participated at rating 4 as per annex K
- Exercise Orko was held on 2 to 4 November, 2010. The TRC DCC Staff were activated for a period of five hours. Main aim was to test software and the communication links between TRC and outside agencies. The exercise raised a number of issues for the DCC which were previously identified in Ex Ember. Exercise Ember was a fire based exercise conducted on the November 20, conducted by TRC to test the Pathway electronic software management system.
- Toowoomba LDCC received a total of 197 serials including 56 serials input by email and the remainder were phoned through the Call Centre staff. The email account used for this exercise was a personal account and this remained unchecked for approximately 2 ½ hours. The 1200 hrs sitrep identified that as of 1130 hrs, of the 42 requests received, a total of 7 of the requests had been completed. Data in the sitrep was very basic and for most sections, no detail was provided at all. Emails received between 1130 and 1230 were responded to, however this was a token response only, with no consultation with other agencies identified.
- As part of this exercise TRC staff evaluated the collection of data and the inputting of this data into the council data management system. A series of bottlenecks were identified in the collation and logging of jobs against their GIS database and the displaying of this data on the maps. This was one of the key testing points of the exercise for TRC and will lead to further changes to the GIS interface with pathway.
- No contact was made from the council to the DDC during the exercise. The DDC identified this as an issue to address at a later date.
- LDMG members from agencies whilst they were involved in the exercise did not receive any requests for assistance and their agency information was not included into the sitreps. Agencies generated their own requests internally, to stimulate activity in the LDCC and generate information flow. QFRS and QAS worked together to generate requests that should have come back to themselves and didn't.
- There were significant issues raised with the layout of the room, and these had also been identified in Exercise Ember in the previous few weeks. It was noted that there had been plans instigated to move the LDCC into another facility, into the new Customer Service Centre.
- At the LDMG conducted on November 11, it has been agreed by the LDMG that Exercise Orko will be conducted again, on a reduced scale in the new location.

Southern Downs Regional Council (SDRC)

- Southern Downs LDMG participated at rating 4 as per annex K
- As part of the exercise Southern Downs staff identified a series of key learnings from the exercise and that the debrief was extremely positive. The exercise was extremely beneficial for all staff involved.
- Key areas to concentrate on included roles and responsibilities of staff, electronic job management software, determining key contacts for some government departments, ability to split resources across both sides of the river, further discussions about key infrastructure, and mapping requirements.
- As part of the debrief further training had been identified and scheduled for early to mid January starting with newly introduced LDC training and coordination centre training.

- It must be recognised that SDRC is a relatively small Regional Council and the commitment and number of staff involved in the exercise was a major commitment on behalf of council. Their enthusiasm both prior to and during Exercise Orko was exceptional.
- A total of 158 requests were received, 49 of these were by email. Sitreps were quite detailed and provided strategic information showing good planning, foresight and information management.
- Responses to serials were faxed back to the pseudo SDCC along with further communication including use of processes and liaising and consulting conversations that would have taken place should this have been a real event.

Lockyer Valley Regional Council

- Lockyer Valley LDMG participated at rating 4 as per annex K.
- As part of the exercise Lockyer Valley staff identified a series of key learnings from the exercise and that the debrief was extremely positive. The exercise was extremely beneficial for all staff involved. This has been reinforced during LDMG meetings and throughout recent events.
- Major learning from the exercise was the staffing levels required to manage a disaster and the need for significant human resources. During the exercise, additional staff were "dragged in" to the exercise and the impact on normal business during a disaster situation was identified.
- As part of the exercise 59 requests were received with 14 of those being via email.
- It was identified during the planning phase that Lockyer Valley being a very small regional council would have a very low capacity for participating staff. Although the staffing numbers were very low, LVRC were committed to the exercise and approached the exercise whole heartedly. It was also identified that recent staff changes had left the council "very light on" as far as disaster management trained/prepared staff went, however they did use the exercise as a learning environment and stated the exercise was very beneficial.
- Situation Reports were very detailed and showed strategic thinking and detailed investigations of additional data from various sources. 3 sitreps had been produced with updated data in each.
- Good linkage with agencies was identified through the sitreps.
- LVRC responded to Excon seeking further information on serials that they felt was necessary to correctly action them.
- Good communication was observed between the council and the DDC. The DDC made comment after the exercise that their enthusiasm was encouraging and that at times requests to the DDC could have been handled by the LDMG however coaching was provided.

Goondiwindi Regional Council

- Goondiwindi LDMG participated at rating 4 as per annex K
- As part of the exercise Goondiwindi staff identified a series of key learnings from the exercise and that the debrief was extremely positive. The exercise was extremely beneficial for all staff involved.
- As part of the exercise 59 requests were sent with 26 of those being via email.
- Some BoM serials were adjusted during the exercise to ensure the peak of flood water occurred during the Wednesday morning of the exercise, as council identified early Tuesday that the town levee would have been breached prior to running the Wednesday morning serials.

- A lack of town specific "on the ground information/intelligence" highlighted the need for a identified point of contact in the following towns: Texas, Talwood, Bungunya. It was also discussed that some of the small towns and districts may require a "Flood Warden" as a point of contact and that QFRS Rural Operations were investigating using their Fire Wardens as a dual role.
- There was quite a bit of discussion on whether there was a need to set up a Local Emergency Coordination Committee in Inglewood. This became evident when a number of serials were set in Inglewood. The LDCC had no single point of contact in Inglewood to gain information or contact a specific agency to relay information. It was decided to pursue the idea of making the Council Office Manager the point of contact and set up meetings with the combined local emergency service representatives, to discuss how this would work in a real incident.
- The need for evacuation centres in Inglewood and Goondiwindi was identified and although this had been discussed on previous occasions, specific sites had been considered, but not properly identified. The showgrounds in Goondiwindi would be assessed for suitability and a site in Inglewood would be investigated.
- The room used for the LDCC was not suitable and it was decided that the old council chambers would be more suitable and would be set-up for this purpose.
- The need for more GRC staff in the LDCC was identified and it was decided to train more administration staff in working in an emergency operations centre.
- The use of the emergency alert system was discussed and it was agreed that it would work well, if used in a real event.
- It was mentioned that cross border emergency response issues had arisen during the exercise and that these issues had been discussed at previous LDMG meetings but they may need an MOU.
- The need for flood boat operators within GRC SES Units was highlighted by the exercise and it was being addressed by an SES Flood boat Operator course to be run in Goondiwindi early in the New Year.

Western Downs Regional Council

- Western Downs LDMG participated at rating 4 as per annex K
- As part of the exercise Western Downs staff identified a series of key learnings from the exercise and that the debrief was extremely positive. The exercise was extremely beneficial for all staff involved.
- As part of the exercise 126 requests were received with 48 of those being via email.
- LDCC Room was soon found to be too congested and an adjoining office was brought into play for LDMG Meetings and agency specific discussions – this worked well and will be adopted in a real situation including the use of some other ancillary private offices.
- The council offices building at Wood Street was seen as very suitable for the purpose of an LDCC, with some improvements to the identified room, which would be undertaken by council.
- It soon became apparent of the need for specific roles for LDCC participants, particularly call centre operators. It was agreed that council administration staff would be canvassed as to their willingness and availability to take on LDCC roles during a real event.
- Lack of trained SES members was evident and a membership drive was advocated, as well as additional training for current members.

- Some contacts for agencies were not current and this was to be updated through LDMGs normal processes.
- A problem with the Queensland Police Service email system caused delays in requests for assistance from the LDCC to the DDC. This problem was identified and was to be addressed.
- Key agency liaison officers need to be in the LDCC to give on the spot advice on agency personnel, expertise and equipment availability.
- Some communication problems between outlying council communities such as Chinchilla and Tara were apparent especially with regard to gaining current on ground information. The need to have operational LECCs as part of the WDRC Disaster Management Plan was identified.
- Need for Evacuation Centres and managers was identified and Red Cross was to be approached in regards to assisting with this issue.
- Final discussions agreed that there would need to be future training and preparations to improve the readiness of WDRC to respond to emergency incidents and that Exercise Orko had highlighted this need.

Overall Feedback

Overall feed back through hot debrief notes conducted on Thursday November 4, showed multiple responses identifying the following topics:

- Further Disaster management Training such as roles and responsibilities, call centre and Admin staff.
- Need for more human resources to be allocated during disasters
- Need for more detailed information such as flood mapping and the relevance of information received from BOM and the consequences of the information.
- Media component was beneficial and was a good test of the media communications plans.
- Identified the need for further development of SOPs or sub plans.
- Opportunities for networking a big bonus.

Feedback from comments (Lockyer Valley, Western Downs, Southern Downs and Goondiwindi), continues to be extremely positive. These councils have indicated the exercise was very beneficial; it enabled them to be better prepared for the events that occurred in December 2010 and January 2011. Whilst the short time frame between the exercise and flooding event was not sufficient to implement all learnings, feedback has indicated the immense benefit of this exercise.

5. FINANCIAL ANALYSIS

The budget allocated for Exercise Orko was ten thousand dollars; a breakdown of actual costs is detailed below.

Exercise Orko Cost Capture	
Item	Amount
Catering - Pre-Exercise Meeting	\$ 379.32
Catering - Pre-Exercise Meeting	\$ 78.50
Catering - Pre-Exercise Meeting	\$ 57.80
Catering - Pre-Exercise Meeting	\$ 80.00
Catering - Pre-Exercise Meeting	\$ 38.45
Catering and Accommodation - Federal Hotel, Jeff	\$ 189.30
Catering - Dees Thai	\$ 262.00
Catering Supplies - Woolworths	\$ 75.10
Catering Supplies - Campbells	\$ 114.37
Catering - Red Rooster during Exercise	\$ 126.22
Catering for LDCC during Exercise - SDRC	\$ 200.00
Catering for LDCC during Exercise - LVRC	\$ 200.00
Catering for LDCC during Exercise - TRC	\$ 200.00
Catering for LDCC during Exercise - WDRC	\$ 200.00
Accommodation - Federal, Jeff Cheadle Pre-Exercise	\$ 147.00
Accommodation - Chermshire	\$ 155.00
Accommodation - Federal	\$ 567.20
Accommodation - Federal	\$ 942.90
Accommodation/Meals - Goondiwindi	\$ 279.80
Photocopying Charges	\$ 846.84
Copy Paper	\$ 284.28
Car Parking	\$ 58.00
Catering City Golf Club - Recovery Exercise	\$ 2,060.00
Venue Hire	\$ 500.00
Web SMS	\$ 452.60
Flights - Libby Davis	\$ 323.40
Car Hire - Libby Davis	\$ 231.21
Tolls From Car Hire	\$ 9.75
Approx travel allowances	\$ 400.00
Total expenses for exercise budget	\$ 9,459.04

* Cost Centre: 5991199

The **saving of \$541.00** (5.41%) against budget was achieved, while developing and running a highly successful, comprehensive disaster management exercise.

This is a **85.3% saving** on the first exercise (Exercise Poseidon) run as part of the 2009-2010 Ministerial Portfolio priority to "develop and deliver an Enhanced Exercise Regime for District Disaster Management Groups (DDMG) and Local Disaster Management Groups (LDMG)" utilising funding provided under the Election Commitment 2009 'Supporting our Heroes' commitment to June 2014.

6. HUMAN RESOURCE ANALYSIS

The following provides a breakdown of the key personnel involved in the development and delivery of Exercise Orko.

Exercise Control

- Exercise Director – Robert Bundy
- Exercise Manager – Michelle French
- Exercise Coordinator - Jeff Cheadle
- Exercise Control Staff
 - Grant Ziarno
 - Tracy Voysey
 - Bill Watt
 - Michael Bauer
 - Alana Dunn
- Volunteer Exercise Control Staff:
 - Judith Lethbridge
 - John Harrison
 - Brian Cook
 - Robert Hall
 - Ken Cook
 - Ruth Blunderfield

Exercise Control Support

- Jimmy Stuart - Bureau of Meteorology
- Adam VanGenderen – Transport and Main Roads

Exercise Pseudo Media Team

- Barbra Ryan – USQ Media Team
- Michael Franks – Orko Exercise Media

Exercise Serial Writing Team

- David Fraser – EMQ SWR
- Michelle French – EMQ SWR
- Chris Artiemiew – EMQ SWR
- Grant Ziarno – EMQ SWR
- Jay Dobbin – EMQ SWR
- Bill Watt – EMQ SWR
- Michael Bauer – EMQ SWR
- Alison McErvale – EMQ SWR
- Alana Dunn – EMQ SWR

Exercise EMQ On-site Advisors

- Peter Twomey – EMQ
- David Fraser – EMQ SWR
- David Mazzaferri – EMQ BR
- Jay Dobbin – EMQ SWR
- Elizabeth Davis – EMQ
- Scott Walsh – EMQ SWR
- Mark Kelly – EMQ SER
- Chris Artiemiew – EMQ SWR

7. EXERCISE MILESTONE TIMELINE

Milestone Timeline for creation of the exercise found in Annex E was created to project manage the development of the exercise and create key timing targets to ensure the project remained on schedule. This was identified after the development of Exercise Poseidon. Whilst this provided a good guide it was difficult to adhere to the timings taking into account real weather events and changes to core business.

8. VIP CORRESPONDENCE

Invitations\briefings were sent to VIP's – the Honourable Mr Kerry Shine- Member Toowoomba North, Director General of the Department of Community Safety – Mr Jim McGowan and the Minister for Police, Corrections and Emergency Services – the Honourable Mr Neil Roberts. An initial briefing to SDMG was sent and they were included in first SMS product kicking off the exercise. No further correspondence was issued after the initial SMS product.

✚ Administration Instructions For those of you who may have missed out on a copy of the Administration Instructions. Please find them attached to this announcement.

Changes to Teleconference Dial in Number A courtesy reminder that the first teleconference for Exercise Orko is scheduled for today at 3pm and your attendance is strongly encouraged. Due to the large number of participants joining our teleconference today, the number has changed.

Please note, NEW teleconference details are provided below which will ensure enough capacity to accommodate the volume of participants:

Teleconference Number: 1300 300 805
Pass Code: 8656180

We look forward to providing a detailed exercise briefing for you at 3pm today.

Regards
Exercise Orko Exercise Control

Exercise Orko - Situation Exercise Orko is a disaster management exercise designed around a hypothetical but realistic extreme weather event affecting disaster districts and local governments of South Western Queensland from Tuesday 2, to Thursday 4, November 2010. Distribution of messages and warnings will begin from Sunday, 31 October 2010. The scenario will work through key considerations drawing upon the concepts and principles of disaster management to respond to the impact of an extreme weather event. It is stressed that this exercise should be viewed as a learning experience and therefore participants are encouraged to seek advice and ask questions if unsure of the information being provided. This exercise is part of a Ministerial Portfolio priority to "develop and deliver an enhanced exercise regime". As a result there may be interest from the Minister, Police, Corrective Services and Emergency Services and the Director General, Department of Community Safety.

TOP PRIORITY FOR IMMEDIATE BROADCAST
SEVERE WEATHER WARNING

for Flash Flooding and Damaging Winds
For people in the Southeast Coast, Wide Bay and Burnett and Darling
Downs and Granite Belt forecast districts.
Issued at 5:05 PM on Sunday the 31st of October 2010
by the Bureau of Meteorology, Brisbane.

Synoptic Situation:

At 4pm, a low with central pressure 998 hPa was located over the Southeast Coast district, near Redcliffe and moving slowly west. Areas of heavy rain are occurring in the Southeast Coast and southern Wide Bay and Burnett forecast districts and localised flash flooding is expected overnight and during Monday. Heavy rain is forecast to develop over the eastern Darling Downs and Granite Belt district on overnight.

Damaging wind gusts to 90 km/hr are expected about the Southeast Coast and southern Wide Bay and Burnett districts overnight and during Monday.

These conditions will extend slowly westwards as the low moves inland.

Rainfall of 80-100mm has been observed in coastal parts of the Southeast Coast district since 9am.

The State Emergency Service advises that people in the affected area should:

- secure loose outdoor items
- beware of fallen trees and powerlines
- avoid driving, walking or riding through flood waters

Contact the SES on 132 500 for emergency assistance if required.

Next Issue:

The next warning is due to be issued by 5am EST Monday.

This warning is also available through TV and Radio broadcasts; the Bureau's website at www.bom.gov.au or call 1300 659 219. The Bureau and State Emergency Service would appreciate this warning being broadcast regularly.

Commonwealth Pre-Season Operational Briefing for States/Territories 2010

**Friday 12 November 2010
Brisbane QLD**

**Venue:
Emergency Services Complex
Cnr Park Rd and Kedron Park Rd
Kedron
Brisbane**

10.30am – 2:00pm

Agenda

Time		Action
10:30	15 mins	Registration/Morning coffee
10:45	10 mins	Welcome – QLD – Jim McGowan, Director-General Department of Community Safety
10:55	20 mins	Director General EMA presentation - Liaison arrangements - Relief and Recovery Arrangements (NDRRA + NCRDP)
11:15	20mins	BOM Presentation Seasonal weather outlook and support available to jurisdictions Question time
11:35	20mins	GA Presentation Geospatial and other support available to jurisdictions Question time
11:55	25mins	Defence Provision of Defence support through the DACC arrangements, requests and tasking arrangements Question time
12:20	20mins	EMA Presentation NCCCP (National Crisis Coordination Centre Program) Question time
12:40	20mins	Human Services Presentation
1:00	30 mins	Lunch
1:30	40mins	Scenario based discussion
2:10	20mins	Summary and Closing – Attorney-General (Robert McClelland)

* The Honourable Neil Roberts, Minister for Police, Corrective Services and Emergency Services and the Honourable Robert McLelland, Attorney-General will attend from 1.00pm.

Australian Government
Attorney-General's Department
Emergency Management Australia

Dear States and Territories Representatives,

Commonwealth Pre-Season Operational Briefing for States/Territories

In accordance with the Commonwealth response to the recommendations of the Victorian Bushfire Royal Commission Interim and final Report, Emergency Management Australia (EMA) will facilitate an operational pre-season briefing and discussion exercise for States and Territories. The operational pre-season briefing will also provide an opportunity to brief States and Territories on the Crisis Coordination Centre, and the developing information sharing arrangements that support the Australian Government Crisis Management Framework.

The aim of this briefing is to facilitate pre-bushfire season and pre-cyclone season hazard preparedness and planning discussions between the Commonwealth and States and Territories.

Preparedness discussions will focus on:

- Update on Commonwealth support arrangements to jurisdictions and advice for efficient processing of requests for assistance under the Australian Government Disaster Response Plan (Comdisplan) and Defence Aid to Civil Community (DACC).
- Provision of a seasonal outlook in relation to severe fire weather and cyclone activity.
- Australian Government agencies will provide an overview of the support and services available to jurisdictions during disasters and emergencies.
- Preparedness and response arrangements and plans will be discussed in the context of a scenario based desk top exercise to ensure that issues related to tasks, capacity, communication and timelines are understood.
- A briefing on the Crisis Coordination Centre and the information sharing arrangements will also be discussed, with the aim of reaching agreement on how Australian Government arrangements can support States and territories.

Attendees

The Pre-Season Operational briefing will be opened and will be chaired by the Director General EMA. Commonwealth - Australian Government agencies involved in the preparedness, response, and recovery for disasters and other emergencies including Emergency Management Australia, Australian Defence Force, Centre Link, FaHCSIA, Bureau of Meteorology, Geoscience Australia and other relevant organisations

- You are invited to send appropriate First Ministers Departments, senior Emergency Management and Emergency Service representatives and appropriate operational coordinator/decision makers as you deem necessary.

Program

Subject to confirmation of States and Territories availability planning is underway for the Pre-season Operational Briefing is to be conducted during the last week of October and the first two weeks in November 2010.

An indicative program would be:

VIC	29 October
SA & NT	2-4 November
WA	5 November
QLD NSW & TAS	Week commencing 8 November

Travel costs to and from the briefing will need to be met by individual jurisdictions. The Commonwealth will meet catering costs and the cost of a venue if jurisdictions are unable to provide somewhere suitable. Confirmation of the suitability of the proposed dates and a nominated point of contact is requested by Thursday 14 October 2010. Details of the briefing programme and of the venue will be provided once the dates are confirmed.

The contact officer at Emergency Management Australia for the briefing is Amy Dwyer who can be contacted on [REDACTED]

Yours sincerely

Emergency Management Australia

- Why are we here :
 - Update
 - Build Engagement
 - Understand state issues/concerns
- EMA Today
 - Role
 - Key Customers. Outwards and Upwards
- Government response to Victorian Bushfire Royal Commission recommendations
 - Conduct pre-season briefs
 - Ensure preparedness of State and Territories through
 - improved liaison
 - Improving planning /responsiveness to requests from State and Territories under COMDISPLAN/DACC
 - COMDISPLAN changes
- Interim CCC arrangements: Better communication, single 24/7 contact, improved awareness of developing threats

EMA

TROPICAL CYCLONE

Emergency Management Australia Liaison Officers

- The allocation of a dedicated officer to each jurisdiction with a pool of support officers to supplement with the key responsibilities of:
 - Liaison officer will be working with States and Territories as point of contact
 - Conduit in a major crisis
 - Deploy to affected state/territory at **their request or by agreement**
 - Provide the affected jurisdiction with support for DACC and COMDISPLAN requests
 - Provide liaison function between jurisdictions and Australian Government Liaison Officers from other Commonwealth agencies then feed back to EMA
 - Understand State /Territory Structures and organisations. Assist to fast track jurisdictional requests for Commonwealth assistance

Information Sharing Protocols

- Problematic issue
 - Minimise impost
 - Confidence in appropriate use of the information
- Why share - cultural ignorance of the need
- The “value proposition” - single point in and out
- Aim is improving communication and reports across whole of Australian Government (both Federal and State)
- Protocol aims to address on a principles basis the many concerns that have been expressed
- Desired outcome is the delivery of high quality, cost effective and seamless support and situational awareness nationwide

Natural Disaster Relief and Recovery Arrangements (NDRRA)

- Partnership
- Key objectives of the Arrangements is to provide safety-net funding to the jurisdictions.
- Processes detailed but necessary
- In severe events, a community recovery package is also available to further help people, businesses and communities recover. Early liaison highly desirable
- For exceptional circumstances, the Australian Government may also agree to provide financial assistance for activities not covered by the NDRRA Determination.

Machinery of Government Change

- Attorney-General's Department (EMA) will now be responsible for providing financial assistance under the Australian Government Disaster Recovery Payment (AGDRP), as well as supporting State and Territory Governments through the NDRRA.
- Review of Commonwealth Recovery Arrangements - tightening of eligibility and thresholds for AGDRP

GENERAL POINTS

- Trust and Relationships
- Clarity of Roles
- Understanding what the jurisdictional interest is
- Understanding the points of Friction
 - Profile
 - Media
 - Public Messaging
 - Common situational awareness

EMA – Provide the buffer: Facilitate Commonwealth support but minimise distractions and interference.

Natural climate variability is a dominating factor in Queensland especially in regards to tropical cyclone and monsoonal activity

Average annual number of tropical cyclones - La Niña years

Hit for six

Bumper cyclone season predicted this summer

By ALEXIS GILLHAM

SIX tropical cyclones are likely to threaten the North Queensland coast this storm season.

At least one of these could form before Christmas, say weather experts.

This is the prediction of the Queensland Bureau of Meteorology after the annual forecast for the cyclone season was released yesterday.

The last time a cyclone crossed the North

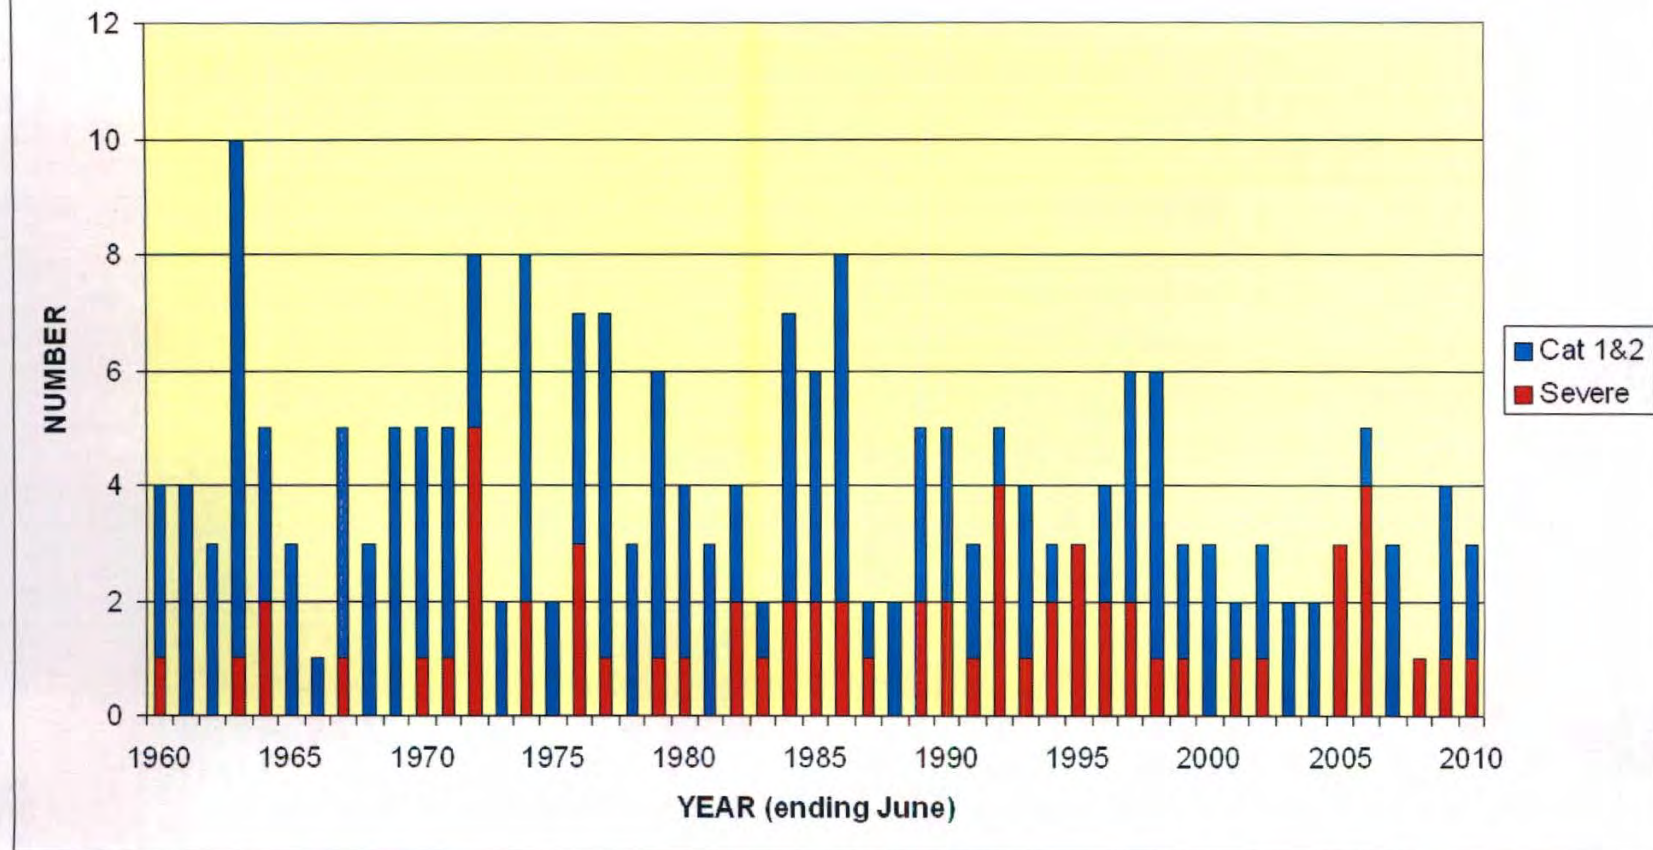

Queensland coast in December was 1997.

There has been no cyclone landfall recorded for the region in November in recent times.

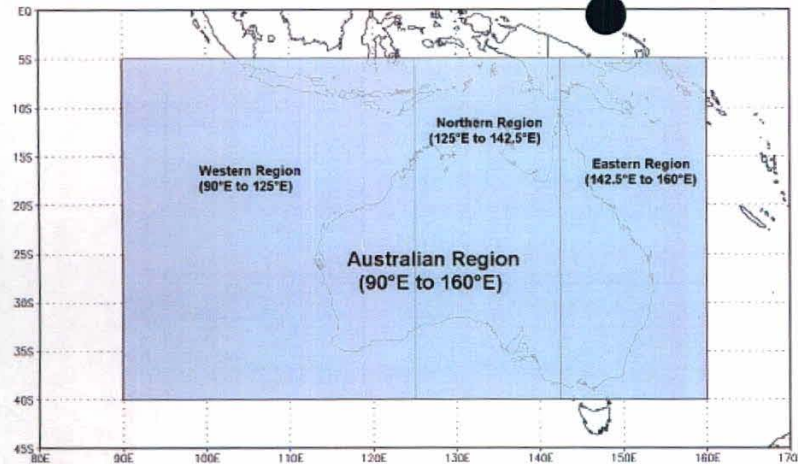

Queenslanders have been warned to expect more cyclones, tropical storms and a heavy wet season that could cause flooding this summer.

» Continued Page 4

Queensland Tropical Cyclones 1959-2010

**At least 6 Tropical Cyclones on 11 occasions in past 50 years
- but not seen since the La Nina seasons of the late 1990s**

Bureau of Meteorology National Climate Centre Outlook for Tropical Cyclones in the Australian Forecast Region 2010-11

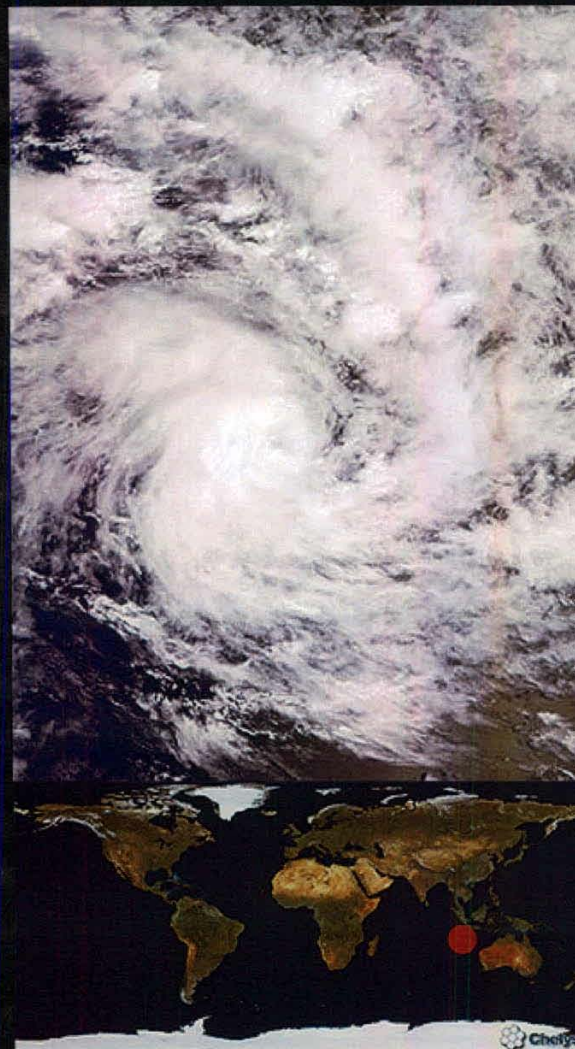

Seasonal Outlook for Tropical Cyclones

For the full Australian region, there is a high degree of confidence that the total number of tropical cyclones will be above average (see **Table 1**). The forecast values from the two models (20-22) are significantly higher than the long-term average value of 12.

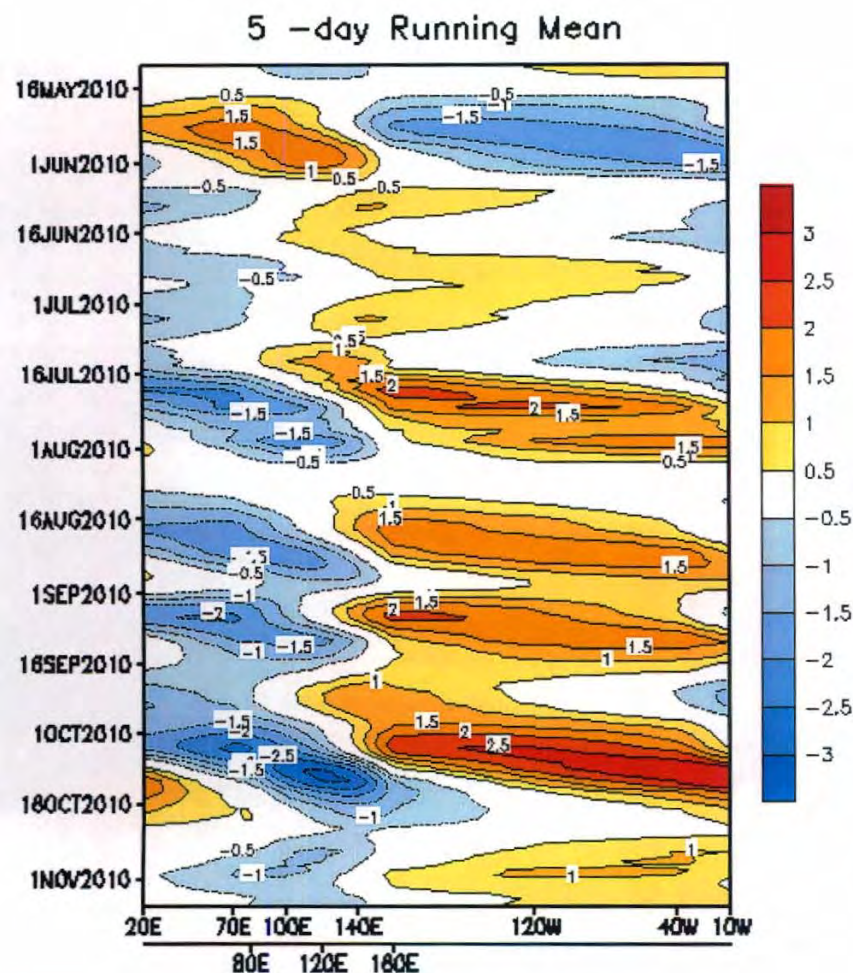

Table 1 Forecast values for the 2010/11 Seasonal Outlook for Tropical Cyclones (TCs) for the four main tropical cyclone regions and the northwest WA sub-region (105°E to 130°E).

Region	Chance of more TCs than average	Likely number of TCs (average number)	Confidence (LEPS skill ¹)
Australian region	98%	20-22 (12)	High (46%)
Western region	93%	11-12 (7)	High (31%)
Northern region	67%	5 (4)	Low (3%)
Eastern region	87%	6-7 (4)	Moderate (21%)
Northwest WA	75%	7-8 (6)	Low (7%)

The likely number of tropical cyclones is indicative only. It is expected that the total number of tropical cyclones will be in the vicinity of the values listed, and not necessarily within the given range. The values are the most likely number of tropical cyclones forecast by two models.

First Tropical Cyclone
of the 2010-11 Season
in late October out
near Cocos Island -
named ANGGREK by
Jakarta TCWC

Madden Julian Oscillation (MJO)
- which is a good reflection of the strength of the monsoon - was very intense in the first half of October but has since weakened.

The MJO should return to Australian longitudes towards the end of November with a burst in the monsoon.

The following MJO event should then be in early January.

Seasonal Outlook for Queensland

- This is not a run-of-the-mill La Nina
- The current La Nina event is now quite strong and well established - and the majority of global computer models indicate that it will persist until at least March next year
- No two La Ninas are the same although La Nina events are usually - but not always - associated with enhanced tropical cyclone activity in the Coral Sea and above normal rainfall over much of Queensland
- Therefore expect with some degree of confidence a fairly active cyclone season and a continuation of the above average rains and associated flooding
- Unable to predict very far in advance where cyclones will cross the coast or which rivers will flood
- Many catchments are saturated so runoff is likely to occur with less rainfall than normally required

Disaster and Emergency Recovery Arrangements and Capabilities

Jenny Thomson
Portfolio Manager
Emergency Management

Overview

Australian Government
Department of Human Services

- Our role
- Our footprint
- Our approach
- Our assistance framework
- Our skills, capabilities and flexibilities
- Our opportunity to continue to work together

Our role

Australian Government
Department of Human Services

Australian Government

Department of Human Services

Child Support Agency

Medicare Australia

Centrelink

giving you options

- Development, delivery and coordination of Australian Government services.

- Development of Australian Government policy on service delivery.

Our footprint

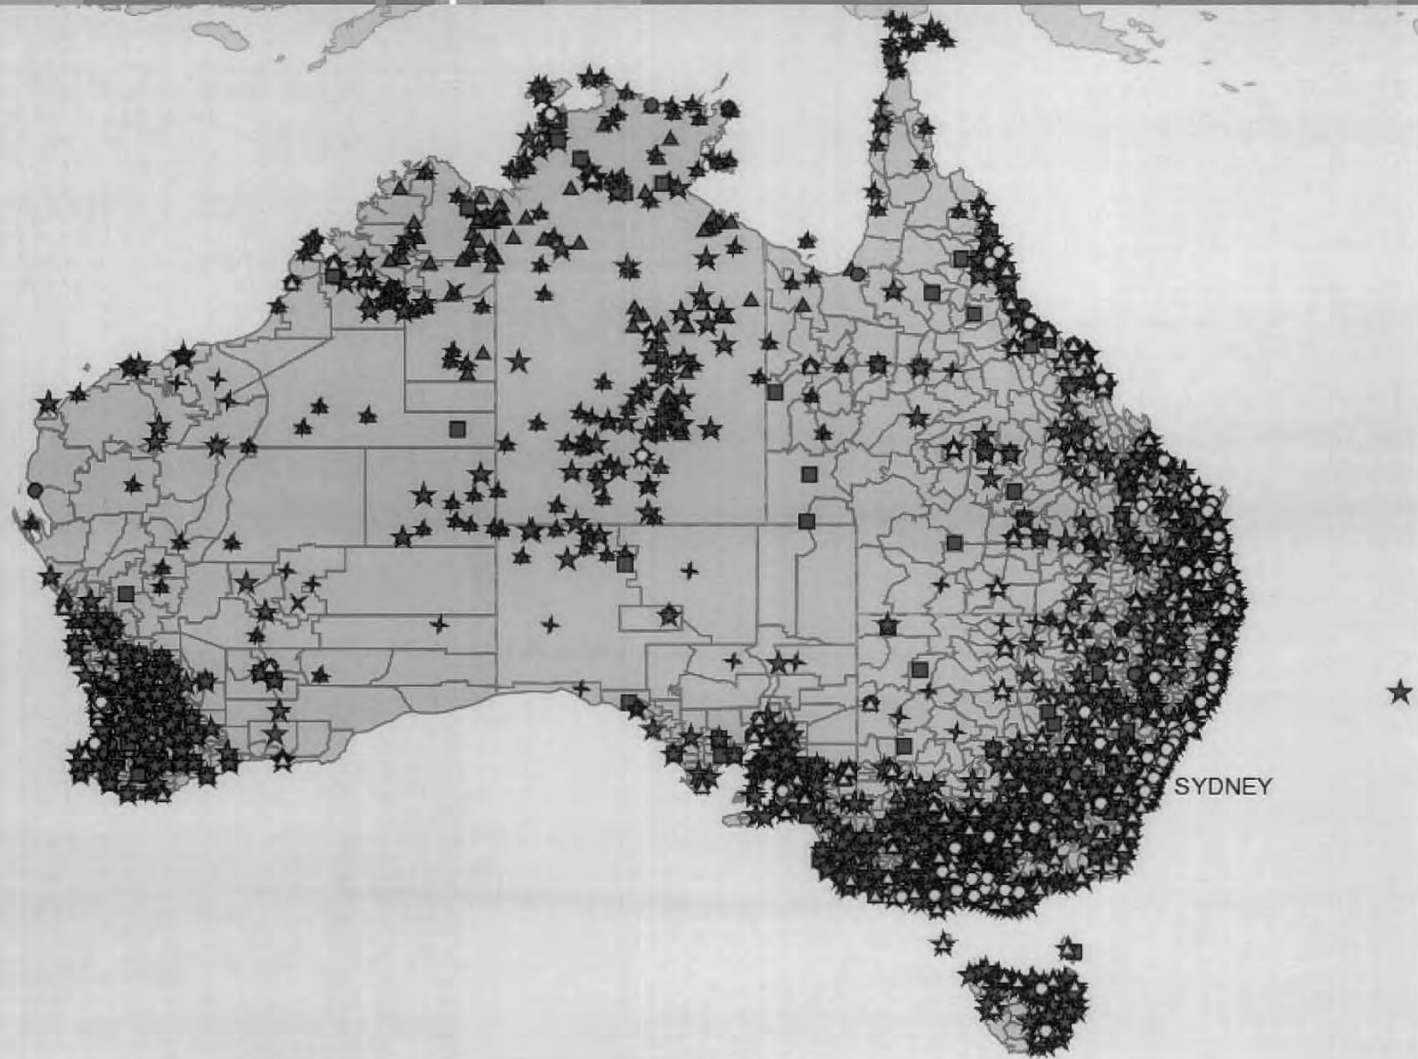

Australian Government
Department of Human Services

- Extensive national presence:
 - Nearly 1500 sites
 - Nearly 40 000 staff
- Extensive customer base:
 - Servicing between 30-35 per cent of Australia's population
 - Around 1.2 million Queenslanders (approx 30 per cent)
- Extensive array of partnerships:
 - Partner with 36 key policy departments, and state and territory jurisdictions and community organisations

Commonwealth Human Services Footprint

Australian Government
Department of Human Services

Our approach

Australian Government
Department of Human Services

- Work within the Australian Government Crisis Management Framework for events of national significance
- Support the principles for Joint Service Delivery as endorsed by COAG in December 2009
- Participate in, and contribute to the National Emergency Management Committee governance structures
- Contribute to the Community Services and Disability Minister's Council Disaster Recovery Subcommittee

Our assistance framework

Australian Government
Department of Human Services

Level 1

Non-discretionary assistance -
Commonwealth payments and services

Level 2

Australian Government assistance -
significant / severe events

Level 3

State/Territory surge assistance - when
capacity is overwhelmed

Non-discretionary assistance

Australian Government
Department of Human Services

- Maintenance of the Australian Government's social security safety net for all Australians – particularly in times of emergency or crisis.
 - Continuity of Commonwealth payments and services for existing customers.
 - Provision of information and advice about Commonwealth payments and services for affected Australians.

Additional Australian Government assistance

Australian Government
Department of Human Services

- Activated by the Australian Government in significant or severe events:
 - Delivery of a range of Australian Government disaster recovery payments and services to individuals and communities affected by domestic and off-shore events. Includes:
 - Australian Government Disaster Recovery Payment
 - Funeral / Memorial Assistance
 - Income Recovery Subsidy
 - Social Work / Case Management Assistance

State/Territory surge assistance

Australian Government
Department of Human Services

- Activated by States/Territories when capacity is overwhelmed:
 - Delivery of a range of disaster recovery assistance for domestic events. Includes:
 - National emergency call centre surge overflow arrangements
 - Additional surge capability recovery services, such as payment and claim processing of state assistance, where formalised arrangements have been negotiated.

Queensland events in 2009-2010

Australian Government
Department of Human Services

- **QLD EMERGENCY EVENTS in 2009 and 2010**
- **South West Queensland Floods - March 2010**
 - 9,568 claims granted
 - 1,701 claims rejected
 - \$11.2m paid
- **Storms and Flooding in South East Queensland - May 2009**
 - 16,151 claims granted
 - 4,373 claims rejected
 - \$20.3m paid

Queensland events in 2009-2010

Australian Government
Department of Human Services

- North Queensland Floods Jan/Feb 2009
 - AGDRP
 - 37169 claims granted,
 - 5118 claims rejected
 - \$44.8m paid
 - Income Recovery Subsidy
 - 2983 claims granted
 - 381 claims rejected
 - \$3.8m paid
 - Funeral Memorial Assistance Payment
 - 2 claims granted
 - 2 claims rejected
 - \$.01m paid

Queensland events in 2009-2010

Australian Government
Department of Human Services

North Western Queensland Floods IRS - Jan/Feb 2009

- 208 claims granted
- 25 claims rejected
- \$0.28m paid

Cyclone Larry

Australian Government
Department of Human Services

- Ex gratia disaster recovery payments
 - 37,236 claims granted
 - \$37m paid;
- Business Assistance Fund payments
 - 9,840 claims granted
 - 1151 claims rejected
 - \$114m paid
- Income support payments to farmers and small business;
 - 2,159 claims granted
 - 1,025 claims rejected
 - \$5.4m paid
- Fuel excise relief
 - 6902 claims granted
 - 676 claims rejected
 - \$2.3m paid

National Emergency Call Centre Surge Capability Arrangements

Australian Government
Department of Human Services

- COAG decision – April 2009 .
- National network of call centres across Australia.
- Provides flexibility, and maximises business criticality, assists to take pressure of Triple Zero.
 - Up to 7,000 seat capacity.
 - Includes 24/7 capability.
- Partner agencies: Centrelink, Medicare Australia, Child Support Agency, and the Australian Taxation Office.
- Arrangements in place with each State/Territory.

Our skills, capabilities and flexibilities

Australian Government
Department of Human Services

- Range of specialist and generalist skills, including:
 - Social workers / case managers
 - Rehabilitation services
 - Relief and recovery centre assistance and services
 - Family Liaison / Support Officers
 - Indigenous and Multicultural Service Officers
 - Financial Information Service Officers
 - Rural Service Officers
- Range of capabilities, including:
 - Mobile offices and services
 - Face to face, on call, online claiming channels
 - Management information and locational data
 - Flexible payment services and options
 - Telephone reporting for affected customers

Our skills, capabilities and flexibilities

Australian Government
Department of Human Services

- Range of flexibilities, including:
 - Commonwealth letter suppression
 - Suppression of debt action
 - Stimulation of payments for existing income support customers without need to personally report income or lodge forms
 - Emergency approvals for respite aged care
 - Tailored assistance for child support payment customers
 - Visiting services for Australian Hearing clients.

Innovative services

Australian Government
Department of Human Services

- Recent examples:
 - Centrelink and CRS Australia support for Victorian Bushfire Case Management Service (VBCMS)
 - Centrelink coordinating Commonwealth services at Victorian community hubs
 - Leveraging off array of national contracts, including property and logistical infrastructure and services, such as portable air conditioning units and security services.

Our opportunities to continue to work together

Australian Government
Department of Human Services

- Acknowledge the Queensland Government's primary responsibility for preventing, preparing for, responding to and recovering from emergencies or disaster events.
- Acknowledge the Queensland Government and Commonwealth have shared interests and specific interests, and responsibilities in the provision of timely and coordinated services/assistance.
- Continue to participate and support the work of the Local and State Recovery Committees, Emergency Coordination Centre, and nominated recovery contacts.
- Continue to exchange information, review and look to see how to improve existing response and recovery arrangements.

Our opportunities to continue to work together

Australian Government
Department of Human Services

Specifically:

- Continue to engage with the Queensland Government through nominated governance mechanisms.
- Regular and open communication on issues, and opportunities to explore of joint/mutual interest and benefit. Such as:
 - Provision of communication and media material
 - Working together on intake and referral systems in relief and recovery centres, where appropriate
 - Sharing of information and management information, where appropriate – for initial impact assessment and disaster recovery payment arrangements.

National Crisis Coordination Capability

Pre-Season Operational Briefing

NCCCP Concept

- 2008 Homeland and Border Security Review.
- Traditionally crises have been managed down hazard-specific lines.
- Potential for decision makers to be briefed with inconsistent information.
- **Government's new approach as defined in Australian Government Crisis Management Framework:**
 - When existing arrangements are exceeded.
 - Need to augment to allow for a more coordinated approach.

National Crisis Coordination Capability

Supporting Facilities

- **Parliament House Briefing Room (PHBR)**
—supports decision-making through ICT.
- **Crisis Coordination Centre (CCC)** —
supports the PHBR in a domestic crisis by
coordinating information across the
Australian Government.

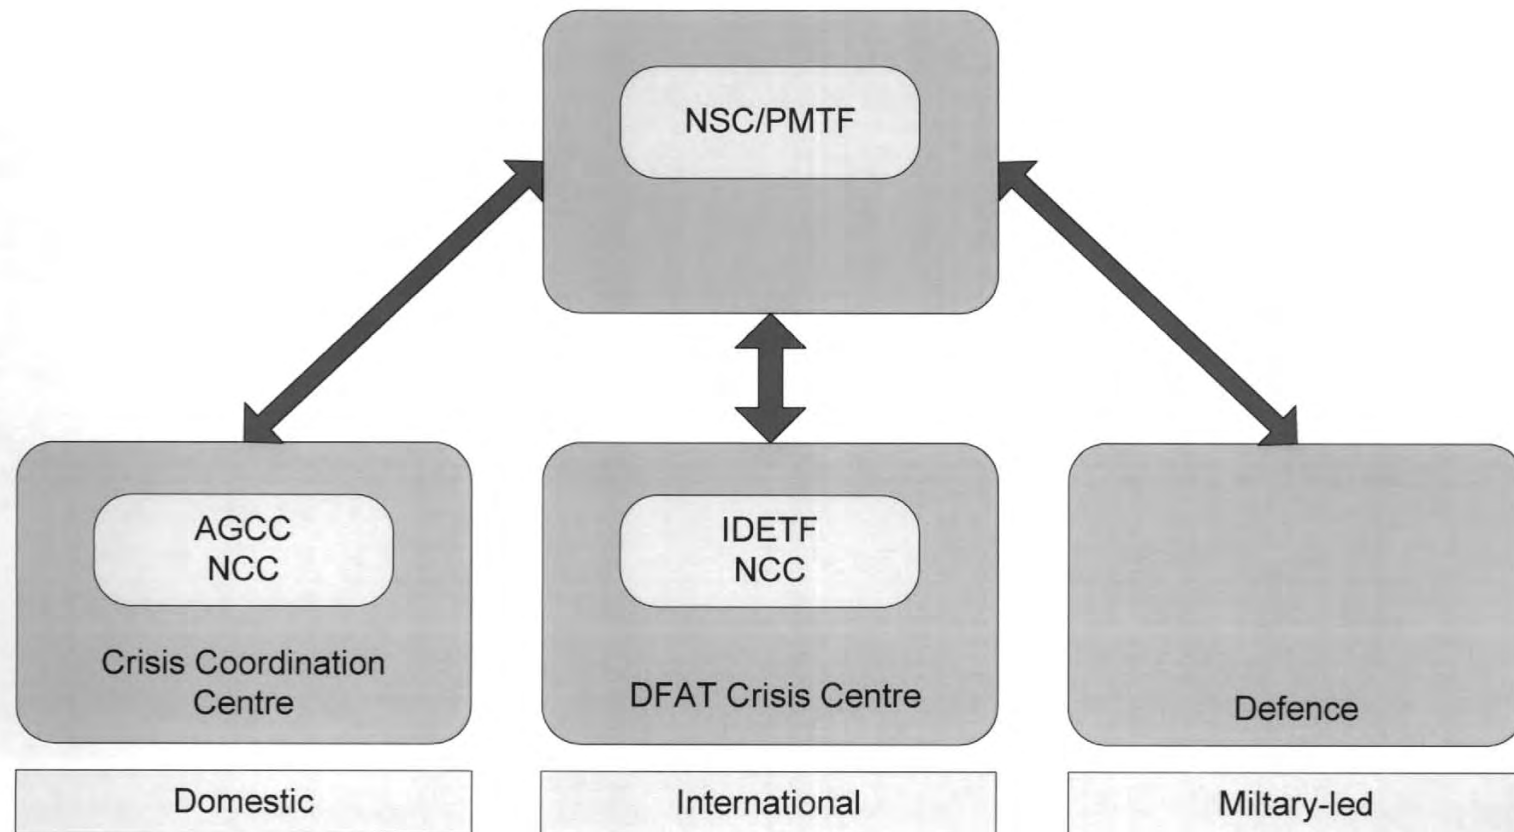

National Crisis Coordination Capability

Australian Government

PHBR Linkages

National Crisis Coordination Capability

Interim Arrangements

- In place as of 15 September 2010.
- Attorney-General's Department Coordination Centre and Briefing and Coordination Section (including Incident Management Facility) are acting as interim CCC and are now referred to as CCC.
- Supports PHBR with whole-of-government information before activation of purpose built facility.

National Crisis Coordination Capability

Information Sharing

- Seeking to engage with jurisdictions on improving information sharing.

National Crisis Coordination Capability

Australian Government

Questions and contact details

Contact: **NCCC@ag.gov.au**

National Crisis Coordination Capability

Australian Government
Department of Defence

The Defence contribution to Commonwealth Emergency Response

DEFENDING AUSTRALIA IN THE ASIA PACIFIC CENTURY

Principles of Defence Assistance

Australian Government
Department of Defence

- The Defence priority of effort will be to the Commonwealth response
- Defence will look ahead: we will actively manage and look to how our capabilities could be applied to assist in response to a domestic natural disaster and will be ready to offer options if asked
- The Defence approach will be characterised as responsive, agile and effective
- EMA leadership and the DACC arrangements enable the coordinated application of appropriate assistance in a timely manner

Current guidance

Australian Government
Department of Defence

- The Government expects the ADF to be postured to be able to carry out the following missions, potentially at the same time, or in carefully managed sequences over concentrated periods of time:
 - support emergency response efforts in the event of man-made or natural disasters within Australia, and particularly assist in situations where the scale of a disaster exceeds the capacity of other agencies and jurisdictions
 - DWP09 10.9 (o)
- the ADF has to be able to contribute to...support civil authorities in relation to domestic security and emergency response tasks.
- the Government will need to be able to call upon the full breadth of Defence capabilities, where Defence is able to provide relevant assistance.
 - DWP09 7.8 and 8.10

What Defence is doing

Australian Government
Department of Defence

- Policies and contingency plans have been updated to ensure that they meet contemporary expectations and reflect current Government guidance.
- Restructure by the Defence Support Group of the Joint Operations Support Staff (JOSS) organisation and appointment of Senior ADF Officers (SADFO).
- Reinforcing HQJOC's situational awareness on high-threat environmental hazards and ensuring open lines of communication to EMA.
- Preparing HQJOC J7/8 Branch to deploy expert LOs as a threat of a disaster increases.
- Collaborating with EMA in identification of ways in which Commonwealth agencies can streamline and enhance the timeliness of support to better meet jurisdictional requirements.
- Enhancing coordination between DIGO and Geosciences Australia for providing domestic geospatial and imagery support.

The DACC arrangements

Australian Government
Department of Defence

- A set of processes through which Defence resources can be accessed and delivered in a coordinated way
- Not to be a barrier to access or a delay to application
- Complement COMDISPLAN

Defence Preparedness

Australian Government
Department of Defence

- Defence capabilities are postured to respond in specified timeframes against military contingencies.
- Defence does not prepare forces against a specific domestic disaster contingency but does have a generic response plan that describes the command and control arrangements that will be needed.
- Defence draws on what resources are available and appropriate at a given time to meet the outcome of the request for assistance as coordinated by EMA.

Defence organisations

Australian Government
Department of Defence

- Local establishments
 - DACC Category 1 only
 - Senior ADF Officer (SADFO)
 - Unit commanders
 - Base Managers
- Joint Operations Support Staff (JOSS)
 - Liaison Officers
 - Initial presence in State emergency management centre
 - Link to HQJOC for situational awareness and improved responsiveness
- Headquarters Joint Operations Command (HQJOC)
 - Oversight of DACC Categories 2 and 3
 - Liaison officers to EMA and possibly beyond
 - Joint Task Force (JTF)

Outcomes of Defence assistance

Australian Government
Department of Defence

- The effects Defence can bring to emergency response
 - Lift and mobility
 - Communications
 - Situational awareness
 - Coordination
 - Shelter, health and welfare
 - Weight of numbers

Conclusions

Australian Government
Department of Defence

- Defence:
 - Will assist in domestic emergency response to the fullest extent of available, relevant resources.
 - Has revised policies and plans to ensure our capacity to assist is responsive and agile.
 - Is investing in its liaison networks to enhance understanding and improve responsiveness.
 - Has increased its collaboration with EMA to build strong relationships and streamlined processes that deliver the most effective response.

Exercise BONSAI

Date	Overview of the form of the Exercise	Participants	Identified outcomes or areas for improvement
30 November 2010	<p>Exercise BONSAI was developed as a discussion exercise for the State Disaster Coordination Group (SDCG). It consisted of 10 PowerPoint slides detailing an emerging disaster situation in South East Queensland during the first three weeks of January 2011. The SDCG convened for three hours on Tuesday 30 November 2010 to work through the following scenario:</p> <p>Slide 1: 1-18 January 2011</p> <ul style="list-style-type: none"> • Avian Influenza (HPAI) outbreak in Redland Bay • 3 adults hospitalised – critical condition • DEEDI initiate mass poultry destruction • AUSVETPLAN activated • Restricted area declaration • People subject to quarantine • SDCC 'stands up' <p>Slide 2: 1-18 January</p> <ul style="list-style-type: none"> • DEEDI as primary agency – specific hazard planning • SDMG appoint State Disaster Coordinator <ul style="list-style-type: none"> – NSW encourage strict border control – Media scrutiny – Industry backlash • Public health messages • Vaccination stockpiling 	<p>Warren Bridson Dept. of Community Safety (Emergency Management Queensland)</p> <p>Chief Supt. Alistair Dawson Queensland Police Service</p> <p>Maj. Ian Dunn Australian Defence Force</p> <p>Bruce Gunn Bureau of Meteorology</p> <p>Russell Stringer Bureau of Meteorology</p> <p>Asst Comm. Peter Martin Queensland Police Service</p> <p>Asst Comm. Andy Henderson Queensland Police Service</p> <p>Insp. Richard Hahn Queensland Police Service</p> <p>Insp. Craig Huxley Queensland Police Services</p> <p>Phil Carney Dept. of Communities</p> <p>Anita Chauvin Dept. of Communities</p> <p>Steve Waddell Dept. of Communities</p> <p>Mike Shapland Dept. of Community Safety (Emergency Management Queensland)</p>	<ul style="list-style-type: none"> • Consideration of functions of Primary Agency and Specific Hazard Plans as per the State Disaster Management Plan. • Consistency of activation status of disaster management groups – local and district - consider consistent escalation model • Consider cross border arrangements – agency specific plans and cross jurisdictional legislation • Which agency is responsible for dealing with the media? • Forward warning of weather events. Who deals with warnings and how are stakeholders informed? Consistency of warnings. • Integration of different event management systems across Queensland Disaster Management Arrangements • Agency responsible for temporary mortuary facilities and responsibilities • Consideration of pre-emptive and/or verbal declaration of a disaster situation • Legislation enables individuals to be Declared Disaster Officers – consider QFRS swift water rescue teams to enable/assist evacuations • Temporary DDMG boundaries – when is this appropriate? <ul style="list-style-type: none"> • Multiple districts vs. temporary boundaries

	<p>Slide 3: 19 January 2011</p> <ul style="list-style-type: none"> Overnight 300+ mm of rainfall across coastal SE Queensland <ul style="list-style-type: none"> Fraser Coast to NSW border and inland to Somerset SDCC remains 'stood up' – increased staffing to service two events Media report extensive flooding in populated areas Bureau of Meteorology warn of King Tide on 21 January at the Brisbane Bar above HAT <p>Slide 4: 20 January 2011</p> <ul style="list-style-type: none"> Scout Jamboree at Lake Cootharaba -11 fatalities (canoeing in flood waters) Approx. 1200 scouts isolated Intense media interest Hospitals overrun with avian flu preparation and mass fatalities Significant road closures <p>Slide 5: 21 January 2011</p> <ul style="list-style-type: none"> Modelling identifies vulnerable areas. Disaster management groups consider: <ul style="list-style-type: none"> Community warnings Managed evacuations King tide across Brisbane Bar at 1037 hrs Widespread flooding Main tourist beaches closed due to significant coastal erosion QFRS respond to multiple swift water rescues <p>Slide 6: 21 January 2011</p> <ul style="list-style-type: none"> SDMG appoint new State Disaster Coordinator States considers critical asset protection Infrastructure failures – significant power and communications outages SDCC requests WoG support Food retail and transport industry affected by road and rail closures LDMGs begin evacuations 	<p>Sean Kenny Dept. of Community Safety (Queensland Ambulance Service)</p> <p>Insp. Department of Community Safety

Exercise Bonsai

**SDCG Discussion Exercise
30 November 2010**

Avian Flu Outbreak

- Avian Influenza (HPAI) outbreak in Redland Bay
- 3 adults hospitalised – critical condition
- DEEDI initiate mass poultry destruction
- AUSVETPLAN activated
- Restricted area declaration
- People subject to quarantine
- SDCC 'Stands Up'

January 1 – 18, 2011

Avian Flu Outbreak

- DEEDI as primary agency – specific hazard planning
- SDMG appoint State Disaster Coordinator
 - NSW encourage strict border control
 - Media scrutiny
 - Industry backlash
- Public health messages
- Vaccination stockpiling

January 1 – 18, 2011

Rain Event

- Overnight 300+ mm of rainfall across coastal SE Queensland
 - Fraser Coast to NSW border and inland to Somerset
- SDCC remains 'Stood Up' – increased staffing to service two events
- Media report extensive flooding in populated areas
- Bureau of Meteorology warns of King Tide on 21 January at the Brisbane Bar above HAT

January 19, 2011

Rain Event

- Scout Jamboree at Lake Cootharaba -11 fatalities (canoeing in flood waters)
- Approx. 1200 scouts isolated
- Intense media interest
- Hospitals overrun with avian flu preparation and mass fatalities
- Significant road closures

January 20, 2011

King Tide

- Modelling identifies vulnerable areas. Disaster management groups consider:
 - Community warnings
 - Managed evacuations
- King tide across Brisbane Bar at 1037 hrs
- Widespread flooding
- Main tourist beaches close due to significant coastal erosion
- QFRS respond to multiple swift water rescues

January 21, 2011

Flooding

- SDMG appoint new State Disaster Coordinator
- State considers critical asset protection
- Infrastructure failures – significant power and communications outages
- SDCC requests WoG support
- Food retail and transport industry affected by road and rail closures
- LDMGs begin evacuations

January 21, 2011

Flooding/Isolation

- SEQWater undertake controlled Wivenhoe release generating significant media interest
- Unprecedented demand for evacuation centres and temporary accommodation
- DDC request high clearance vehicles to assist with evacuations
- Schools closed / parents off work

January 22, 2011

Impact Assessment

- QFRS undertake rapid impact assessment
- Local government identify isolated communities and request assistance
- SDCC receives multiple requests to undertake resupply operations
- Public donate household goods
- Offers of assistance – emergency services from other jurisdictions
- QHealth announce first deaths from Avian Flu

January 23, 2011

Recovery

- Local Government commence clean-up operations
- Significant interest from Local Government regarding the activation of NDRRA
- Premier announces Appeal with Australian Red Cross to manage
- SDMG appoint State Recovery Coordinator
- State Recovery Group, Functional Lead Agencies and supporting agencies

January 24, 2011

Lessons Learned

- Media blaming government for scout fatalities – inadequate warnings
- Avian flu continues unabated
- WoG debriefing and lessons learned
- Post disaster assessment

January 24, 2011

Disaster Store Caches
During Flood Period December 2010 – January 2011

Name of Cache Location	List of Stores Issued
Beenleigh (Ormeau Disaster Management Warehouse)	7000 sandbags
	20 rolls flashtape
	5 rolls black plastic
	20 large tarps
	30 small tarps
Rockhampton	27000 sandbags
	37 rolls of black plastic
Maryborough	Nil

BG12

Annex 10

Resupply of Cities

Location	Challenges managed within DM Framework	Adequacy of Resources for these operations	Areas of improvement
Rockhampton Mackay	<p>Re-supply of isolated communities with essential items including, water, food, medical supplies, fuel and other essential non perishable items occurred on a daily basis across the State during the floods. These re-supplies were generally coordinated at the local level utilising high clearance vehicles, flood boats, civilian chartered fixed wing aircraft and helicopters, and Defence helicopters that have been force assigned to assist with disaster operations. These smaller re-supply tasks are too numerous to list and are regularly and easily implemented within the DM framework.</p> <p>However, at times during the Disaster the State's transport infrastructure was so significantly degraded that Strategic Resupply planning was required to ensure that essential non perishable items such as bottled water, powdered milk, canned food, toilet paper, sanitary items, nappies and other essential items continued to be available to the community. To achieve this a Retailers (State Resupply) Teleconference was established with representatives from: Coles, Woolworths, IGA, Australian National Retailers Association, Toll logistics, EMQ, DTMR, DEEDI, Maritime Queensland, QR, ADF and Qantas.</p> <p>When Rockhampton became isolated from the south and road access to North Queensland was diverted to the west through Barcaldine and Winton the Retailers advised that their logistics chains would not have the capacity to maintain store restocking. ADF C130 aircraft were employed to transport essential non-perishable items to Mackay, which were then transported by road to Rockhampton. This task was completed over three days until a temporary shipping route was established from Gladstone to Roslyn Bay.</p>	<p>The impact on the State's transport infrastructure at the height of the disaster was unparalleled with major road and rail networks cut and the Port of Brisbane closed disrupting all land transport and shipping.</p> <p>The ADF provided the necessary assets to ensure restocking of essential items to retail stores was maintained and major panic buying was avoided. C17 strategic lift aircraft transported tonnes of essential items into Townsville for wider distribution to Northern and Central Queensland by road, while shipping was dispatched from Sydney. C130 aircraft also flew into Mackay</p> <p>The Retailers Teleconferences provided an adequate forum for the Retailers to highlight the impacts of the floods on their stocking levels and their logistics supply chain capacity. They also provided a suitable forum for State Departments and other agencies to provide high level updates, and for the ADF to outline any assistance that had been approved.</p> <p>However, the scale of the resupply</p>	<p>The major Retailers should improve their logistics chain business continuity planning to reduce their reliance on ADF assets that may not always be available. QANTAS identified that other commercial air assets are available including 747 services from Sydney and that shipping solutions need to be engaged earlier.</p> <p>DTMR should consider activating a coordination capability to provided real time advice to retailers on road closures, route planning, establishment of road convoys and the coordination with Police escorts and local government representatives in a major disaster.</p> <p>Ongoing dialog with the Retail and Logistics Supply Chain industry could be established could be established. This could include the identification of a logistics representative with established networks to act as the single point of contact with ADF should any future assistance be approved.</p>

	<p>C17 aircraft transported approximately 360 tonnes of essential non perishables into Townsville where a logistics node was established. This allowed retailers to distribute by road to the north, south and west.</p> <p>To implement this State level resupply plan Toll logistics provided a representative to be the single point of contact from all of the retailers to coordinate directly with the ADF for the air operations. DTMR also established a dedicated 1300 number to provided real time advice to retailers on road closures, route planning, establishment of road convoys and the coordination with Police escorts and local government representatives.</p>	<p>tasks required a dedicated specialist to coordinate the delivery of stock from all of the retailers to the ADF. The SDCC did not have the capacity to undertake this task and a Toll logistics representative was requested to perform this function.</p> <p>The sheer number of road closures, the importance of the information and its rate of change made the normal web based road closure reporting systems ineffectual. DTMR established a dedicated 1300 number to provide real time updates to the retailers on road closures, route planning, establishment of road convoys and the coordination with Police escorts and local government representatives.</p>	
--	---	---	--

BG13

Annex 12

Digital Elevation Model Data

Location	Progress in Acquisition	Availability of Data	Utilisation of Data by all stakeholders for Disaster Management
Balonne	DCS advised council of Inland DEM Project in September 2010. Council expressed interest in program on 14/3/2010. The towns of St George, Dirranbandi, Bollon, Helbel, Thallon and Mungindi have been proposed by council for capture. Tender for these towns will proceed likely in early April 2011.	Data likely available late 2011 for towns tendered subject to weather conditions and successful contractor timeframes.	Data will be available to Local, State and Commonwealth government.
Banana	DCS advised council of the proposed inland DEM project in January 2009. DCS advised council of Inland DEM Project in September 2010. The towns of Baralaba, Goovigen, Rannes, Biloela, Thangool, Jambin, Taroom, Theodore and Wowan were proposed by council for capture. Tender for these towns will proceed likely in early April 2011.	Data likely available late 2011 for towns tendered subject to weather conditions and successful contractor timeframes.	Data will be available to Local, State and Commonwealth government.
Barcaldine	DCS advised council of the proposed inland DEM project in February 2009. The towns of Muttaborra, Aramac, Barcaldine, Jericho, Alpha were proposed for capture. These towns were tendered in August 2010 through DERM	Data was scheduled for delivery late March 2011 however unfavourable weather conditions has delayed the project.	Data will be available to Local, State and Commonwealth government.
Brisbane	DCS advised council of the proposed coastal DEM project back in October 2008. The whole BCC (as well as other neighbouring shires) were tendered in	DEM data supplied to council from DERM late 2009.	DCS produced storm tide inundation zones which were supplied to council late 2010.

	January 2009		
Bundaberg	Bundaberg council had existing DEM over majority of coastal communities. Agreement was reached by DERM for additional areas in Bundaberg shire to be captured by the coastal DEM project on a data exchange basis with council.	DEM data captured by the state was supplied to council from DERM in February 2011.	DCS produced storm tide inundation zones which were supplied to council late 2010.
Central Highlands	DCS advised council of the proposed inland DEM project in January. DCS again advised council of Inland DEM Project in September 2010 to CEO. The towns of Rubyvale – Fossicking areas, Rolleston, Bluff and Emerald were proposed by council for capture. Tender for these towns will proceed likely in early April 2011.	Data likely available late 2011 for towns tendered subject to weather conditions and successful contractor timeframes.	Data will be available to Local, State and Commonwealth government.
Cherbourg	DCS advised council of Inland DEM Project in September 2010. It was decided to include majority of this shire as part of an area for South Burnett Shire through DERM	Data was scheduled for delivery late March 2011 however unfavourable weather conditions has delayed the project.	Data will be available to Local, State and Commonwealth government.
Fraser Coast	DCS advised council of the proposed coastal DEM project early 2009 A tender for the eastern part of the shire was put out through DERM in June 2009. DCS advised council of Inland DEM Project in September 2010.	DEM data supplied to council from DERM in March 2011.	DCS produced storm tide inundation zones which were supplied to council late 2010.
Gladstone	DCS advised council of the proposed coastal DEM project in October 2008. A tender for the eastern part of the shire was put out through DERM. DCS advised council of Inland DEM Project in September 2010.	DEM data supplied to council from DERM in December 2010.	DCS produced storm tide inundation zones which were supplied to council late 2010.

Goondiwindi	DCS advised council of Inland DEM Project in September 2010. The towns of Yelarbon, Inglewood, Texas, Talwood, and Goondiwindi have been proposed by council for capture. Tender for these towns will proceed likely in early April 2011.	Data likely available late 2011 for towns tendered subject to weather conditions and successful contractor timeframes.	Data will be available to Local, State and Commonwealth government.
Gympie	DCS advised council of the proposed coastal DEM project around March 2009. A tender for the eastern part of the shire was put out through DERM in June 2009. DCS advised council of Inland DEM Project in September 2010. The towns of Goomeri and Kilkivan have been proposed by council for capture. Tender for these towns will proceed likely in early April.	DEM data supplied to council from DERM in March 2011 for eastern part of shire Additional areas have not been tendered, waiting Hydrology advice from DERM.	DCS produced storm tide inundation zones which were supplied to council late 2010.
Ipswich	DCS advised council of the proposed coastal DEM project in October 2008. The whole Ipswich shire (as well as other neighbouring shires) was tendered in January 2009.	DEM data supplied to council from DERM late 2009.	
Lockyer Valley	DCS advised council of the proposed inland DEM project in January 2009. A large section of the northern part of the shire was proposed by council for capture. This area was tendered in June 2010. DCS advised council of Inland DEM Project in September 2010.	Data supplied to DERM December 2010 by contractor for quality checking. Data supplied to council by DERM in December 2010	Data will be available to Local, State and Commonwealth government.
Mackay	Large sections of the eastern part of the shire were tendered around August 2008 and July 2009. DCS advised council of Inland DEM Project in September 2010.	DEM data supplied to council from DERM in March 2011.	DCS produced storm tide inundation zones which were supplied to council late 2010.

Maranoa	<p>DCS advised council of Inland DEM Project in September 2010 to CEO.</p> <p>The towns of Amby, Muckadilla, Mungallala, Mitchell, Roma, Surat, Wallumbilla, Yuleba and Injune have been proposed by council for capture. Tender for these towns will proceed likely in early April 2011.</p>	Data likely available late 2011 for towns tendered subject to weather conditions and successful contractor timeframes.	Data will be available to Local, State and Commonwealth government.
Moreton Bay	<p>DCS advised council of the proposed coastal DEM project in October 2008. The whole Moreton Bay Regional Council was tendered in January 2009.</p>	DEM data supplied to council from DERM late 2009.	DCS produced storm tide inundation zones which were supplied to council late 2010.
North Burnett	<p>DCS advised council of Inland DEM Project in September 2010 to CEO.</p> <p>The towns of Mundubbera, Gayndah, Monto, Eidsvold have been proposed by council for capture. SES has also proposed the town of Abercorn for capture.</p> <p>Tender for these towns will proceed likely in early April 2011.</p>	Data likely available late 2011 for towns tendered subject to weather conditions and successful contractor timeframes.	Data will be available to Local, State and Commonwealth government.
Rockhampton	<p>Bundaberg council had existing DEM over a large section of Rockhampton. Agreement was reached by DERM for additional areas in shire to be captured by the coastal DEM project on a data exchange basis with council.</p>	DEM data supplied to council from DERM in June 2010.	DCS produced storm tide inundation zones which were supplied to council late 2010.
Somerset	<p>DCS advised council of the proposed inland DEM project in February 2009.</p> <p>DCS decided to capture part of the shire below Wivenhoe Dam due to the benefits this data would provide for shires down stream. This was tendered in January 2009 as part of the tender for other SEQ councils.</p>	DEM data sent to council by DERM on 21/3/2011 for Environmental Recovery Group.	<p>In March 2010 Somerset Regional Council requested this data for the Environmental Recovery Group. This request was approved at no cost to council for this purpose.</p> <p>This data has also been supplied to BCC as part of a future Brisbane River flood study involving various councils.</p>

	DCS again advised council of the Inland DEM Project in September 2010.		
Southern Downs	<p>DCS advised council of the proposed inland DEM project in January 2009. A large area over Warwick and surrounds to support a future flood study was proposed.</p> <p>This area was tendered in June 2010.</p> <p>DCS again advised council of the Inland DEM Project in September 2010.</p> <p>This resulted in the towns of Leyburn and Stanthorpe proposed by council for capture.</p> <p>Tender for these towns will proceed likely in early April 2011.</p>	<p>Data supplied to DERM December 2010 by contractor for quality checking for initial tender. Data supplied to council by DERM in December 2010.</p> <p>Leyburn and Stanthorpe have not been tendered, waiting Hydrology advice from DERM and Support for EMQ Regional Director.</p>	Data will be available to Local State and Commonwealth government.
Toowoomba	<p>DCS advised council of the proposed inland DEM project in January 2009.</p> <p>Areas for Goombungee, Toowoomba, Millmerran, Pittsworth and Crows Nest were proposed by council for DEM capture.</p> <p>Many of these areas were considered low priority by EMQ and BOM and would need further risk assessment studies if to proceed.</p> <p>DCS again advised council of Inland DEM Project in September 2010.</p>	Status of the council tender is unknown.	N/A
Western Downs	<p>DCS advised council of the proposed inland DEM project in February 2009.</p> <p>The towns of Condamine, Dulacca, Kogan, Meandarra, Warra, Chinchilla, Miles, Wandoan, Tara, Jandowae, Dalby, Glenmorgan, Drillham, Bell, Kaimkillenbun and Bunya Mountains were proposed by council for capture.</p>	<p>Status of the council tender is unknown.</p> <p>Data for the DERM tender was scheduled for delivery late March 2011 however unfavourable weather conditions has delayed the project.</p> <p>It is hoped for Flinton to be included in the</p>	Data will be available to Local, State and Commonwealth government.

	<p>Council decided to capture Chinchilla, Miles, Wandoan, Tara, Jandowae and Dalby themselves for a new town plan and pressing timeframes.</p> <p>The towns of Condamine, Dulacca, Meandarra and Warra were tendered in August 2010 through DERM.</p> <p>The towns of Glenmorgan, Drillham, Bell, Kaimkillenbun and Bunya Mountains were not tendered as they were considered low priority from both EMQ and BOM and needed further risk assessment if to proceed.</p> <p>DCS again advised council of the Inland DEM Project in September 2010. The town of Flinton has been proposed by council.</p>	next tender subject to timing of hydrology advice and support from EMQ Regional Director.	
Woorabinda	DCS advised council of Inland DEM Project in September 2010.	N/A	N/A
