

**Statement of James Higgins
(AAMI) in response to General
Requirement**

Volume 1

QFCI

Date:

25/10/11 Jm

Exhibit Number:

872

**STATEMENT OF JAMES JOSEPH HIGGINS IN RESPONSE TO REQUIREMENT TO
PROVIDE INFORMATION ISSUED TO AAMI INSURANCE DATED 5 SEPTEMBER 2011**

JAMES JOSEPH HIGGINS, c/- Suncorp, Level 31, 266 George Street, Brisbane, states on oath:

1. I am the Executive Manager, Queensland Event Recovery for Suncorp Personal Insurance, a division of the Suncorp Group.
2. I have authority on behalf of Australian Associated Motor Insurance Limited (AAMI) to respond to the Requirement to Provide Information issued by the Commission of Inquiry dated 5 September 2011 and addressed to AAMI.

INSURANCE POLICIES

3. Australian Associated Motor Insurance Limited (AAMI) issues AAMI brand policies. AAMI is part of the Suncorp Group.
4. In accordance with clarification received from the Commission on 5 September 2011, this response relates to policies issued by AAMI and not policies issued by other insurers within the Suncorp Group.
5. Some processes are managed jointly within the Suncorp Group, for example mobile claims response teams handle lodgement of claims for all insurers within the group. Therefore, in responding to the Commission's Requirement to Provide Information directed to AAMI, I have referred to AAMI when the information relates to AAMI only, and to the Suncorp Group when the information applies to all insurers within the Suncorp

Question 1: Please name the relevant home and/or contents policy or policies

6. AAMI 'home and contents' policies for residential properties are as follows:
 - a. Home Building insurance Policy
 - b. Home Contents Insurance Policy
 - c. Fire and Theft Contents Policy
 - d. Landlords Insurance Policy
 - e. Strata Title Landlord Insurance Policy
7. AAMI also issues a number of commercial insurance products such as business insurance which may incidentally provide cover for 'home and contents' (e.g. commercial premises with a residential unit above those premises). Should the Commission require further information in relation to those products, it can be provided

Question 2: Did more than one version of the policy or policies exist? If so:

2.1 Please identify each different version of the policy or policies by reference to the dates for which they subsisted as the relevant policies.

8. The following table sets out the versions and operative date for each policy. The versions listed for each product differ only in respect to aesthetic, marketing related changes. The material content of these product disclosure statements (PDSs) has not changed since the Active Date. The policy terms in relation to flood have not changed between different

versions.

Product	Document ID	Active Dates
Home Building Insurance Policy	PDS A01463 26/12/09 A / National PDS A01463 26/12/09 B / National	30/08/2006 to current date
Home Contents Insurance Policy	PDS A01464 26/12/09 A PDS A01464 18/02/10 A PDS A01464 18/02/10 B	8/07/2007 to current date
Landlord Insurance Policy	PDS A01460 26/12/09 A / National PDS A01460 18/2/10 A / National PDS A01460 18/2/10 B / National	30/08/2006 to current date
Strata Title Landlord Insurance Policy	PDS A01461 26/12/09 A / National PDS A01461 26/12/09 B / National PDS A01461 26/12/09 C / National	30/08/2006 to current date
Fire and Theft Contents Insurance Policy	PDS A01462 18/02/10A PDS A01462 18/02/10B	5/04/2006 to current date

2.2 How did staff of the AAMI identify the correct version of a policyholder's policy and ensure that the correct version of the policy was used in all dealings with a policyholder and his or her claim?

9. As there were no material differences between different versions of each policy, there was no need for staff to identify which version of the policy was used.

Question 3: For each version of the policy or policies:

3.1 What were the terms of cover relevant to damage caused by weather of the kind experienced at the time of the Queensland floods? How were these terms defined?

10. The relevant terms of cover for these policies are as follows.

PDS	Terms of cover
Home Building Insurance Policy Home Contents Insurance Policy	<p><i>"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface. Storm means violent wind (including a cyclone or tornado), thunderstorm or a heavy fall of rain, snow or hail."</i></p> <p>[Also] <i>"Impact – sudden and unexpected of any:</i></p> <ul style="list-style-type: none"> <i>• motor vehicle, aircraft, watercraft or space debris.</i> <i>• object falling from a motor vehicle or aircraft,</i> <i>• falling tree or part of a tree,</i> <i>• aeriol, mast, satellite dish which breaks or collapses."</i>

Landlord Insurance Policy Strata Title Landlord Insurance Policy	<p><i>"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface. Storm means violent wind (including a cyclone or tornado), thunderstorm or a heavy fall of rain, snow or hail."</i></p> <p><i>"Impact – sudden and unexpected of any:</i></p> <ul style="list-style-type: none"> <i>• motor vehicle, aircraft, watercraft or space debris.</i> <i>• object falling from a motor vehicle or aircraft,</i> <i>• falling tree or part of a tree,</i> <i>• aerial, mast, satellite dish which breaks or collapses."</i> <p><i>"damage or loss occurring during the period of cover caused by ... Flood."</i></p>
Fire and Theft Contents Insurance Policy	<p>Only covers the insured events of fire or theft, therefore there are no terms of cover relevant to the damaged caused by weather of the kind experienced at the time of the Queensland floods.</p>

3.2 (If not covered by 1.3.1 above) Was flood cover included? How was the term 'flood' defined?

- Flood cover is included in AAMI's Landlord Insurance Policy and Strata Title Insurance Policy. In those policies, the term "flood" is not defined as no distinction between flood and other storm, rainwater, stormwater runoff or escaping water is necessary. All are covered under the policies.
- Flood was excluded from AAMI's Home Building Insurance Policies and Home Contents Insurance Policies current at the time of the flood events. Those policies contained the following definition of flood:

"Flood - means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or*
- cannot enter (because it is full or has overflowed), or*
- is prevented from entering (because other water has already escaped or been released from it) the normal confines of any watercourse or lake, including any that may have been modified by human intervention, or reservoir, canal, dam or stormwater channel.*

Flood does not mean stormwater runoff from areas surrounding the site or water escaping from any water main, pipe, street gutter, guttering or surface."

3.3 What exclusions or conditions applied to a claim?

- The following exclusions relevant to the Queensland flood events were contained in the differing policies:

<p>Home Building Insurance Policy</p> <p>Home Contents Insurance Policy</p> <p>Landlord Insurance Policy</p> <p>Strata Title Landlord Insurance Policy</p>	<p>Specific exclusions applying to claims under 'Storm and rainwater':</p> <p><i>The cost of cleaning or clearing debris from any pool or spa.</i></p> <p><i>Damage or loss caused by water seeping into or otherwise entering your building due to:</i></p> <ul style="list-style-type: none"> <i>a defect or fault in the design, structure or construction of your building where you could reasonably be expected to be aware of the defect or fault,</i> <i>building alterations, renovations or additions."</i> <p>General exclusions potentially relevant to wet weather events:</p> <p><i>"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:</i></p> <ul style="list-style-type: none"> <i>mould, wet or dry rot, rising damp or dampness,</i> <i>storm surge, being an increase in sea level that usually occurs with a severe storm or cyclone, tidal wave, tsunami, high tide or other actions of the sea,</i> <i>erosion or washing away of soil, earth or gravel,</i> <i>the washing away or movement of the surface of any path or driveway which has a surface consisting of a loose material such as gravel, stone or dirt,</i> <i>soil movement or settlement,</i> <i>the moving, shifting or dislodging of any swimming pool, spa and their covers and liners, septic tank or other inground structure unless caused by the insured events of earthquake or impact"</i>
<p>Home Building Insurance Policy</p> <p>Home Contents Insurance Policy</p>	<p>In addition to the above:</p> <p><i>"Damage or loss caused by flood"</i></p>

3.4 What were AAMI obligations in processing and assessing claims?

14. AAMI is an adherent to the General Insurance Code of Practice and endeavours to process claims in accordance with the principles and timeframes in the Code to the greatest extent possible.
15. As to how particular claims are managed, AAMI's approach to claims processing and assessing are set out in the section of the PDS headed "What to do if you need to claim on your AAMI policy" which includes:
 - a. Advice to the customer as to steps to take to make a claim

- b. Proofs of ownership for lost or damaged items AAMI's role in arranging assessment of loss
- c. Basis of settlement – "new for old", and an explanation of what this means in relation to different types of home and contents items
- d. How AAMI decides whether to repair or replace damaged items
- e. Explanation on how to prevent further loss
- f. Advising policyholders of their requirements such as allowing assessors access, obtaining written authority for repairs and how best to assist AAMI in settling claims.

16. The PDSs also advises the customer of the customer's rights where a claim is declined. This is discussed in more detail in my response to Question 26 and following below.

Question 4: Please provide a pro forma copy of each of the policies referred to in answer to the questions at paragraphs 1 – 3 above

17. Attached as Annexure 1 are copies of:

- Home Building Insurance Policy
- Home Contents Insurance Policy
- Fire and Theft Contents Insurance Policy
- Landlord Insurance Policy
- Strata Title Landlord Insurance Policy

INSURANCE CLAIMS

The following questions relate to household insurance claims made as a result of the events comprising the Queensland floods (in December 2010 and January 2011).

Question 5: Did AAMI establish any special processes or procedures in order to manage claims handling?

18. The Suncorp Group established the following processes and procedures to manage claims handling arising from the December 2010 and January 2011 weather events additional to the claims handling processes and procedures employed by the Suncorp Group in handling 'business as usual' claims.

Personal Insurance Corporate Event Response Plan

19. In the management of any catastrophe likely to strain 'business as usual' resources and infrastructure, the Suncorp Group prepares a Personal Insurance (PI) Corporate Event Response Plan. The Event Response Plan provides guidelines of key decisions and actions to consider during an event response. It includes the creation of an Event Leadership Team (ELT) whose purpose is to collaboratively respond to the event in order to ensure consistent communication and governance of critical activities within the Suncorp Group during event response times. Each members of the ELT is responsible for coordinating the response within their respective business unit.

20. The Event Response Plan process is structured around the clear operational phases that a large event tracks through, with each plan tailored to the specific event. Timeframes specified for each step of the process depend on the type of event that occurs. The following table demonstrates how the Suncorp Group responds to different phases of an event.

Event Stage	Operational Phase	Objective
Pre Event	Event Alert	<ul style="list-style-type: none"> • Raise awareness and commence early planning for event • Refresh response models for event type
	Event Imminent	<ul style="list-style-type: none"> • Develop tailored response given current BAU status and likely event impacts
During Event	First Response	<ul style="list-style-type: none"> • Initiate response as planned in line with pre agreed triggers • Clear communication of immediate actions • Focus on managing call volume surge without compromising customer experience or information quality • Firm up fulfilment phase resource plan once scale of event is clear • Consider segregation of claims to specialist claims service team
	Transition	<ul style="list-style-type: none"> • Effectively moving focus from Lodgement to Fulfilment as the call volumes scale down and the processing load increases
	Fulfilment	<ul style="list-style-type: none"> • Focus on fulfilling claims in line with product guidance on PDS coverage, particularly where exclusions may cause adverse public response. • Focus on fulfilling claims quickly while managing claim indemnity cost
Post Event	Finalisation	<ul style="list-style-type: none"> • Focus on finalisation of event claims and transition back to BAU • Focus on timely and accurate reporting of event statistics • Conducting a post incident review to continually improve on Suncorp Group's Event Response Management

21. The decision to declare an Event, which triggers initiation of an Event Response Plan, is made by the Executive General Manager PI Claims after careful consideration of the current and forecast weather situation and likely disruption to normal business operations. Factors that influence this decision include the size, severity and location of the impacted areas and customers.

Customer Response Teams

22. As part of its planning for natural disasters, the Suncorp Group has developed an innovative system of self-sustainable mobile claims centres, which we call CRTs (Customer Response Teams). These CRTs are deployed at the site of a natural disaster immediately after a weather event to provide immediate, on-the-ground claims support to customers. The fleet of dedicated CRT vehicles are able to establish response centres into multiple disaster areas simultaneously anywhere in Australia within 24 hours.
23. CRTs service AAMI, Suncorp Insurance, GIO, Apia, Shannons, Vero and all other Suncorp Group general insurance brand customers. They operate as a coordinated team with immediate decision making abilities to directly service customers face to face at the time when they most need their insurer's assistance and support.
24. These CRTs have the ability to operate entirely independently in the field as they are equipped with mobile generators to power electronics, and communications technology enabling complete claims lodgement and customer service capabilities directly from the disaster area.
25. During the Queensland floods and Cyclone Yasi, the CRTs were deployed to Emerald, Theodore, Toowoomba, Bundaberg, Chinchilla, Dalby, Grantham, Cardwell, Tully, Cairns, Brisbane and Ipswich. Over the four events in Queensland we had approximately 77 claims staff operating in CRTs in the affected regions.

Pre-event Communications

26. Leading into each storm season the Suncorp Group PI Corporate Affairs team prepares a fully integrated communications program. This communications plan continually evolves to take into account learnings from previous storm season responses. It includes government and stakeholder engagement, customer alerts, proactive and reactive media communications and internal communications mechanisms. The plan for the 2010/11 storm season included:

- Group-wide Bureau of Meteorology National Briefing (video conference).
- Community Flood Awareness Roadshows – these events occurred prior to the summer storm season to educate flood prone communities in Queensland about Suncorp's flood cover, details of which were:
 - 8 metropolitan and regional QLD community and stakeholder briefing events;
 - 5 metropolitan and regional NSW community and stakeholder briefing events;
 - 6 metropolitan and regional VIC community and stakeholder briefing events.

Over 300 people attended these roadshows.

27. In that period, we also released 21 print and broadcast articles on related issues.

28. After receiving a Bureau of Meteorology briefing indicating a horror storm season was likely to be experienced in Queensland, ie in excess of a 'usual' summer storm season, the Suncorp Group undertook Storm Season Launches by which it briefed communities about Suncorp's event response capabilities. These activities were:

- 7 media launches (major metropolitan and regional centres)
- 7 regionally tailored media releases
- 27 print and broadcast articles
- 31 political briefings on storm season preparedness and claims risks.

29. Approximately \$500,000 in claims specific advertising was also booked in key at risk communities

Post-event Communications

30. During and following the weather events, the Suncorp Group's PI Corporate Affairs and Marketing teams were heavily involved in managing internal and external communications with customers and relevant stakeholders to ensure that accurate and appropriate messages around policy coverage and claim processes were being delivered. Some of these activities were:

- 42 daily stakeholder updates with latest claims data and response messaging;
- 38 intranet updates with latest claims figures, customer facing messaging and staff support programs;
- Twice daily, then daily co-ordination calls with corporate affairs, internal communications, government relations and investor relations;

- Daily messaging provided to Suncorp Bank branches and regular communications to insurance brokers for their use in communicating with Suncorp Group insurance customers if required;
- Full page colour advertisements in all affected areas with messaging about how to make and help speed up the claim process;
- More than 12 media releases were distributed tailored for each affected region with information about claims numbers, claims processes and locations of Customer Response Teams (CRTs);
- Key PI Claims Managers were sent to affected areas at the height of the events to do government briefings, talk to customers and do media interviews around how customers can speed up or make their claims;
- Twitter and Facebook pages provided customers, media and stakeholders with updates on locations of Customer Response Teams, timing around claims and assessments; and
- Monthly full page ads in metropolitan and regional media updating on claims processes and completion times.

31. Attached as Annexure 2 are copies of media releases and advertisements issued by Suncorp ahead of the 2010/2011 Queensland summer storm season, and in response to the 2010/2011 weather events.

Chronology of Events

32. A chronology of how these processes and procedures were deployed is as follows.

33. On 25 December 2010, the Bureau of Meteorology issued a warning that tropical cyclone Tasha was moving towards the Queensland coastline. The Suncorp Group maintained a watching brief as to the movement of this cyclone over the following few days and, in accordance with standard practice under the Suncorp Group's Event Imminent protocols, relevant teams within the Suncorp Group monitored weather warnings, potential for claims, emergency response activity and any local issues around evacuations, inundations, power outages etc.

Central Queensland Flooding

34. Within days, it became apparent that areas of central Queensland would experience imminent flooding, so we commenced planning for this which included:

- Travel arrangements for assessors being deployed to the affected region;
- General communications to affected customers, e.g. radio reads, newspaper ads, internet messages;
- Resourcing and deployment of CRTs to the affected regions;
- Internal administration around reporting activity for both internal and external stakeholders (e.g. APRA);

- Claim estimation and repair costs – this leads to discussions on repair and supply strategies as well as their current capacity to assist;
 - Claims resources for the call centres and claim management activities, including real estate requirements; and
 - Claims management decisions, e.g. management of flood claims, management of emergency funds to customers, temporary accommodation, use of experts etc.
35. On Wednesday 29 December 2010, the Insurance Council of Australia (ICA) declared a catastrophe in Queensland as a result of the Central Queensland flooding (known as CAT 105). Following this announcement we activated our Event Response Plan and called an Event Leadership Team (ELT) meeting for Friday 31 December. The Suncorp Group also issued a News release that communicated our operational response to the catastrophe.
 36. Throughout Thursday 30 December 2011, we were heavily involved in planning our operational response to the central Qld flooding. This planning included an assessment of potential damage in the affected regions as well as continuing the customer messages through radio and print. We also monitored talkback radio and took steps to respond to issues as they arose. For example, we conducted live interviews on 4BC and ABC radio to advise customers of flood coverage under Suncorp Insurance and how we were responding to the disaster.
 37. The Suncorp Group's Corporate Affairs team set up an official twitter account and connected it to all major media outlets, politicians and industry groups. The account was used to provide updates on claims, CRT locations, provide tips on claims etc as well as monitor any incorrect or negative information about the Suncorp Group's insurance brands that we should respond to.
 38. On Friday 31 December 2010, the Suncorp Group issued an ASX release that provided an update on our claims position and response activity. A further internal update was provided in our ELT during which we decided to deploy our CRTs to the flood affected townships of Dalby and Bundaberg. Over the next couple of weeks we held daily ELTs to provide updates and actions on responding to customers and claims.
 39. On Sunday 2 January 2011, we received reports that various townships across Queensland had experienced significant inundation resulting in evacuations and isolations. By that date, Suncorp Group had received approximately 1,300 claims from the flood affected townships of Emerald, Alpha, Jericho, Barcaldine, Bundaberg, Wowan, Biloela, Theodore, Dalby, Warwick, Chinchilla and Condamine.
 40. On Tuesday 4 January 2011, two CRT units arrived in Bundaberg and one in Dalby (and later in Chinchilla on 8 January). Assessors were initially deployed to Bundaberg and Dalby only, as the other flood affected areas had limited access. We also arranged for emergency funds for insured customers impacted by these floods.
 41. Five of our property assessors went to Bundaberg, four to Dalby and two to Theodore.
 42. The CRTs deployed to Bundaberg were set up at the school grounds at Bundaberg High School. The CRTs were operational by mid morning on Tuesday 4 January 2011 with customers attending to lodge claims or seek insurance advice about flood cover. Customer messages were also communicated through interviews conducted with the regional media outlets (e.g. Channel 10).

43. By Friday 7 January 2011 Suncorp Group had assessed approximately 90% of the claims in Bundaberg and Dalby. This enabled us to start planning our response to Rockhampton and St George, which were by then under threat of flooding.
44. While in Bundaberg we met with the Bundaberg Mayor (Cr. Lorraine Pyefinch), Deputy Mayor (Cr Tony Ricciardi) and Bundaberg Regional Council CEO (Mr Peter Byrne). At these meetings we briefed the Council on the Suncorp Group's response plans, the set up of the CRT locations and provided our contact details for any customer concerns or issues raised with them. We also sought advice from the Council on the worst impacted areas of their city as well as seeking a list of streets and houses that had experienced above floor inundation. This information was provided to our claims teams and assessors so that we could identify significantly impacted customers quickly and start assessing their claims.
45. Over the initial two days in Bundaberg, the CRTs had seen a steady flow of customers across all our brands. Based on the continuing volume of customers using the CRTs, we decided to maintain our presence in Bundaberg for a few extra days. We were also advised that the local Bundaberg radio was advising listeners of our CRT presence at the local High School which reinforced our decision maintain one CRT in Bundaberg.
46. The CRT remained in Bundaberg until Saturday 8 January 2011. At this point, customer usage of the Bundaberg CRT had significantly reduced. Local authorities were granting access to the previously evacuated township of Theodore. Due to the damage suffered in Theodore we set up a CRT base in Biloela and the CRT travelled to Theodore daily to assist customers with claims lodgement.
47. Our second ELT was held on Tuesday 4 January 2011, during which we were advised that the Fitzroy River was going to peak in Rockhampton. On hearing this news a small senior team (myself and Chris Newlan, Head of Corporate Affairs) made plans to travel to Rockhampton the following day.
48. The roads to Rockhampton had been closed and the only road access to the city was from the north via Mackay. Therefore, in order to get to Rockhampton we drove from Bundaberg to Gladstone and then flew to Rockhampton. This decision to go to Rockhampton was in response to several factors:
- a. We needed to critically assess the potential damage so that we could reassess our response strategy if needed.
 - b. We were concerned about general negative discussions about flood coverage which were circulating in the media. We wanted to take the opportunity to send clear messages to our Suncorp Insurance customers around this issue and to encourage them and all other Suncorp Group customers to lodge claims as soon as possible. This was well reported in the media. In addition, we encouraged customer to contact us if they were not sure about their policy coverage and conducted a number of interviews with television channels to communicate these messages.
49. As a part of this communication strategy, we met with the state member for Rockhampton, Mr Robert Schwarten to brief him on our response strategy and deployment of CRTs so that he would be in a position to advise these details to any constituents who were Suncorp Group customers who contacted his office for assistance. We also accompanied Mr Schwarten to one of the Rockhampton evacuation centres where we met with some Suncorp

Group customers, talked to them about the claims process and encouraged them to lodge claims as soon as possible.

50. The restrictions on access to Rockhampton remained for a couple of weeks, which prevented us send our internal assessors to the city and we eventually used external assessors for the claims in Rockhampton.
51. Chris Newlan and I returned to Bundaberg (via Gladstone) later on 5 January 2011, with the intention of travelling to Emerald the next day to communicate the same message to Emerald residents. We also intended redeploying to Emerald the second CRT which had initially been deployed to Bundaberg.
52. On Thursday 6 January 2011, we travelled as far as Biloela where we were informed that the Dawson River had flooded preventing access along our planned route into Emerald. We were advised that the only access to Emerald at this time was from the west, via Barcaldine. At this point we split up the CRT equipment and arranged for the CRT vehicle to be driven to Emerald via Roma, Augathella and Barcaldine (a two day drive). The critical equipment (PCs, data cables etc) was loaded onto a charter plane that we booked and we flew to Emerald with this equipment. We had separately arranged for internal assessors and client managers to travel to Emerald from Brisbane.
53. We arrived in Emerald on the afternoon of 6 January 2011 and set up a temporary CRT site at the Mayfair Motel until a more permanent site was available at the Emerald Recovery Centre. We had also arranged to meet with the Central Highlands Mayor, Mr Peter Maguire as well as Mr Vaughan Johnston, state member for Gregory. In both these meetings we provided information on our CRT presence and the Suncorp Group's operational response to the floods. Again, we provided information and contact details so that each of them would be able to assist constituents who were Suncorp Group customers with any issues they had.
54. To date AAMI has received 152 home claims across central Queensland at a claim cost of \$1.3m. We currently have 20 active claims representing 87% of claims finalised and closed. We have also paid out \$1m on these claims representing 77% paid of the total expected cost. In terms of claims under \$10,000 we have finalised over 90% or 114 claims.
55. Over the January and February months we completed 780 assessments across central Queensland, the majority of which were completed by 18 February 2011. The table below is a summary of our assessing activity and performance for the central Queensland region across all Suncorp Group brands:

Town/Area	Claims Assessed	No of Days	No. of Assessors	Assessing Resource	Majority Completed
Bundaberg, Biloela, Theodore	160	5	6	Internal	07-Jan-11
Dalby, Chinchilla, Warwick, St George	130	6	4	Internal	11-Jan-11
Emerald, Alpha, Jericho	440	6	17	Internal	14-Jan-11
Rockhampton	50	5	2	External	18-Feb-11

South East Queensland Flooding

56. On Monday 10 January 2011 Toowoomba experienced a severe flash flood through the city centre. The Suncorp Group's call centre at Margaret Street, Toowoomba sustained ground level inundation and resultant damage, forcing closure of the call centre until repairs could return the centre to an operational state. While this closure impacted the Suncorp Group's

call centre capacity, it only affected the Suncorp Insurance and GIO brands; our redundancy capacity saw the calls immediately routed to our centres in Brisbane. For AAMI customers, service levels would have been affected but not a customer's ability to get through. AAMI calls are not handled in Toowoomba and the events there had no impact on their service.

57. The AAMI call centres are networked across three states with the Queensland operation (based in Brisbane) forming a small part of the overall capacity, approximately 20%. The service levels Queensland AAMI customers experienced, after the Brisbane flooding, were slightly reduced but the bulk of calls were seamlessly handled in NSW and Victoria.
58. In order to deal with the closure of the Toowoomba call centre (that services predominantly Suncorp Insurance customers):
 - a. Inbound claims calls were immediately transferred to our Milton call centre site and some interstate call centres.
 - b. We transferred all banking and sales staff based at the Milton call centre, and some from our centre at 160 Ann St, Brisbane to interstate call centres, in order to expand insurance call centre capability at Milton and 160 Ann St. Due to the volume of claims arising from the ongoing weather events, we considered it important to create additional call centre services for insurance customers.
 - c. We attempted to redeploy staff from our Toowoomba call centre to our Milton and Ann Street call centres where possible. In some cases, staff were unable to redeploy due to road closures.
59. Our initial estimates were that the Toowoomba call centre would be re-operational in a few days, and that the above strategies were effective to manage the short-term loss of that call centre capacity. However, as detailed below, that strategy became compromised when the Brisbane River flooded on Wednesday 12 January 2011 resulting in inundation of the Milton call centre and forced evacuation of the temporary capacity established at 160 Ann Street.
60. On Tuesday 11 January 2011:
 - a. We became aware early in the morning of the catastrophic impact of the floods in the Lockyer Valley, in particular Grantham.
 - b. By mid-morning, we were also receiving reports of the impending closure of the public transport system in Brisbane from 2pm that day, which created anxiety among staff as to whether they would be able to get home, retrieve children from school/day-care facilities etc.
 - c. The media was reporting that flooding of low lying areas of Brisbane and surrounding suburbs was imminent, to levels beyond the 1974 floods.
61. A small team of senior claims management, including myself, remained in our Brisbane Square offices from which we coordinated the Suncorp Group's response to these further events as they unfolded. This team remained in the Brisbane CBD for the next five days. We also made the decision to send staff home and by midday on 11 January 2011, most employees had evacuated the city. Once evacuated, the vast majority remained away until Monday 17 January 2011.

62. By this time it was clear that the Milton call centre was under threat of flooding, and we developed contingency strategies for Voice and IVR services for Suncorp Group customers. For AAMI customers these strategies were not necessary as the calls were routed to interstate operations and so they could still talk to a real person when they called AAMI.
63. Our main priority on Tuesday was to get the Toowoomba call centre operational as quickly as possible. These clean-up activities were hampered by access issues and difficulties in getting electrical contractors to the Toowoomba site.
64. Later that day, restoring operations at Toowoomba became even more critical after Energex issued a press release advising of CBD power outages as buildings and substations with potential for inundation would be powered down for damage limitation efforts. As a result of those power outages, we were forced to close the call centre at 160 Ann St.
65. On Wednesday 12 January 2011, we were advised that a number of Suncorp Group buildings were being closed due to the rising river. The situation was made worst at noon when the State Emergency Services (SES) elected, as a safety measure to avoid elevator rescues in flooded buildings, to cut power to lifts in all high rise buildings. This resulted in the closure of Brisbane Square (among others buildings), which required us to move our operational command post to another building that was not impacted by the power outages or flood.
66. By Wednesday afternoon, the Toowoomba call centre site passed electrical, OH&S and IT infrastructure assessments. Even though Ground Floor clean-up operations were continuing, Level 1 was re-opened as a call centre, with approximately 70% of staff back on site. The utilisation of our call centre staff and assessors was hampered by the closure of access roads. Throughout Wednesday afternoon we received a steady volume of calls but were not seeing any substantial increase in call volume.
67. Our experience with call volumes differs between different types of events. For flood events, residents are typically evacuated or displaced and power outages occur – this was the case for the Lockyer Valley and Toowoomba. In these situations we don't typically see an increase in call volumes for a couple of days after the event as residents are returning to their homes and power is being restored (electric phones can't work without power).
68. On Thursday 13 January 2011, the Toowoomba site became fully operational and as the Brisbane River receded throughout the day other sites in the Brisbane CBD became available. We had advised staff to continue to work from home where possible and to limit non-essential travel to the CBD and impacted sites until safe passage to work was certain.
69. We also tried to get a full assessment of claims staff that had been impacted by the floods. We were very aware of the fact that many of our staff had been affected on a personal level by the floods.
70. Over the following week we experienced a significant increase in claim numbers as power was restored to homes and people returned to assess damage to their homes and belongings. As a result we dispatched CRTs and assessors to flood affected areas of Ipswich, Toowoomba and Brisbane. We set up CRTs at the Ipswich Showgrounds, the Toowoomba City Council chambers, the Brisbane RNA Showgrounds and Graceville.
71. We were unable to access Grantham for some weeks because of local authority orders forbidding access, but once that restriction was lifted, we immediately set up a CRT in Grantham.

72. At that time we also had a CRT on standby for deployment to Victoria as that state was experiencing a flood event as well (CAT 113 declared on Monday 17 January 2011).
73. Over the following 8 weeks the Suncorp Group completed approximately 3,920 assessments across the Toowoomba, Lockyer Valley, Ipswich and Brisbane regions with the majority of these being completed by the first week in March. The table below is a summary of our assessing activity and performance for the South East Queensland regions:

Town/Area	Claims Assessed	No of Days	No. of Assessors	Assessing Resource	Majority Completed
Toowoomba/Lockyer Valley	920	16	20	Internal, External & Repairer	28-Feb-11
Ipswich and Brisbane	3,000	20	50	Internal, External, Repairer & NZ Vero Assessors	05-Mar-11

74. As at 1 September 2011, AAMI had:
- received over 1,580 home claims across south east Queensland at a total estimated claim cost of approximately \$31m;
 - finalised and closed approximately 1,260 claims, which is approximately 80% of all claims;
 - paid out approximately \$23m, which is approximately 75% of total expected costs;
 - of claims under \$10,000, finalised and closed 1,100, which is approximately 88% of those claims.
75. An active claim can be one on which repairs are completed but a final account is outstanding from a builder, or one in which major rebuilding work is being undertaken and progress payments are being made. At the other end of the spectrum, we would also have a record of an active claim if a customer telephoned and registered a claim immediately after the flood events but then has not provided claim details.
76. The reasons for some claims remaining active are discussed in more detail later in this response

Cyclone Yasi

77. Although not strictly within the terms of reference of the Commission of Inquiry, it is relevant to note that before the assessment of claims arising from the south east Queensland weather events had been completed, the Suncorp Group's resources were also required to respond to claims arising from Tropical Cyclone Yasi.
78. On 31 January 2011, we received notification that Cyclone Yasi was predicted to hit the mainland on Thursday 3 February 2011 as a Category 4 cyclone. In preparation for this cyclone we dispatched two CRTs to Cairns and Townsville. We also increased our assessing capability by using our national assessing resources from Victoria and NSW as well as working with external assessing firms to bring in resources from New Zealand and the USA.
79. After Cyclone Yasi had crossed the mainland we set up CRTs at Mission Beach, Cardwell and Tully. Due to logistical issues we set up our assessing operations at the Novotel Hotel in Cairns. We utilised 60 assessors for the regional areas impacted by Yasi. At the same time, we were also still assessing the tail end claims in the south east Queensland floods, particularly late lodgements.

80. Over the following weeks the Suncorp Group completed approximately 3,100 assessments across the far north Queensland regions, with the majority of these being completed by the last week in March. The table below is a summary of our assessing activity and performance for the Cyclone Yasi regions:

Town/Area	Claims Assessed	No of Days	No. of Assessors	Assessing Resource	Majority Completed
Cyclone Yasi	3,100	42	60	Internal, Repairer & USA Adjusters	27-Mar-11

81. As at 1 September 2011 AAMI had:
- received over 3,050 home claims for Cyclone Yasi at a total estimated claim cost of approximately \$41m;
 - finalised and closed approximately 2,100 claims, which is approximately 69% of all claims;
 - paid out approximately \$26m, which is approximately 63% of total expected costs;
 - of claims under \$10,000, finalised and closed over 1,800, which is approximately 81% of those claims.
82. The tables below provide a summary of AAMI's claims performance for the four events across Queensland in 2010/11 as at the date of this statement:

Old Event: PI Home Claims as at 1 September 2011	Claims Lodged	Active Claims	Finalised (%)	Total Cost (\$m)	Total paid (\$m)	Finalised (%)	Claims Under \$10,000		
							Lodged	Active	Finalised
PI Central Qld Flooding CAT 105 Loss date/s: 24/01/2010 to 02/01/2011	152	20	86.8%	\$1.3	\$1.0	76.9%	126	12	90.5%
PI Toowoomba/Lockyer Valley Flash Flood CAT 111 Loss date/s: 10/01/2011 to 11/01/2011	260	61	76.5%	\$4.8	\$3.9	81.3%	185	30	83.8%
PI Ipswich/Brisbane Floods CAT 112 Loss date/s: 11/01/2011 to 17/01/2011	1,324	256	80.7%	\$26.2	\$19.4	74.0%	1,066	120	88.7%
PI Tropical Cyclone Yasi CAT 114 Loss date/s: 02/02/2011 to 08/02/2011	3,057	957	68.7%	\$41.0	\$25.9	63.2%	2,307	430	81.4%
Progress	4,793	1,294	73.0%	\$73.3	\$50.2	68.5%	3,684	592	83.9%

83. In addition to the catastrophes that occurred in Queensland in early 2011, there was also significant flooding in Victoria in early February. On 5 February 2011, the ICA declared a catastrophe (CAT 115) for the flooding that was predominantly in Metropolitan Melbourne, but also included impacted regional areas. This placed additional pressures on our claims businesses as we moved assessment teams to Victoria to assist with assessing claims. We also sent a small team of assessors to New Zealand following the earthquake in Christchurch on 22 February 2011.

Outsourcing of management of major building repairs

84. In order to respond to our customers to help rebuild their homes, the Suncorp Group has partnered with Lend Lease, a Project Management and Construction business, to assist with the management of major building repairs.
85. Lend Lease was first engaged by the Suncorp Group in 2006 to assist with the rebuild of homes damaged by Cyclone Larry. Since then, Lend Lease has provided Project Management services to the Suncorp Group during other major disasters. Shortly after the January 2011 floods, the Suncorp Group made the decision to engage Lend Lease to Project Manage the major rebuilds across south east Queensland and far north Queensland (damaged by Cyclone Yasi).

86. This decision was largely driven by the magnitude and geographical spread of the damage as well as the need to ensure proper governance around repair costs, quality of repairs and timeframes to complete repairs. The services provided by Lend Lease include:
- a. Source, manage and co-ordinate the services of building contractors, repairers and other consultants required to assess and repair homes (e.g. engineers);
 - b. Manage the costs of:
 - i. all major home repairs above \$10,000 in the South East Queensland region; and
 - ii. homes damaged by Cyclone Yasi;
 - c. Provide technical advice on building repairs to all stakeholders - customers, builders and AAMI;
 - d. Manage the allocation of repairs to a panel of builders ensuring builder capacity and capability is properly managed and monitored. This also includes the oversight of repair timeframes to ensure appropriate building contract start and finish dates were reasonable and achieved;
 - e. Review the Scopes of Work (SOW) provided by the builder for each repair job, to ensure the job has been properly scoped and priced;
 - f. Ensure all building repairs comply with current building code regulations and guidelines and that materials used in the repair are of the proper quality;
 - g. Ensure proper building contracts are executed, including the review and validation of all building invoices and variations;
 - h. At Practical Completion of the repairs, ensure the appropriate building certificates are completed, and that the customer is satisfied with the repairs and given an opportunity to provide feedback on the repair process.
87. The Lend Lease team was co-located with the Suncorp Event Recovery team at 160 Ann St. This provided direct access between the claims team and Lend Lease team, enabling questions and issues to be resolved quickly and effectively. It also provided a greater level of understanding between both operations that enabled us to achieve the optimal repair and customer outcome.
88. The process under the Suncorp Group's arrangement with Lend Lease is as follows:
- a. Upon a claim being accepted by AAMI as within policy coverage, AAMI would arrange initial assessment of repair and, if estimated at over \$10,000, the claim would be sent to Lend Lease (via unique event mailbox) for allocation to a builder.
 - b. From this point Lend Lease takes over responsibility for the management of the repairs, while the AAMI claims consultant continued to manage the customer (e.g. settling contents claims, paying temporary accommodation, being the contact point for any customer issues).
 - c. Lend Lease would allocate the work to a builder from its panel, based on builders' capacity to take on the work and capability to perform major repairs. Lend Lease

would review the repair quote provided by that builder and provide authority to the builder to proceed to contract stage.

- d. Once the building contract was signed, Lend Lease would give authority to proceed to construction stage. Throughout the repairs Lend Lease would check on progress and ensure timeframes were being achieved. They would also review and approve all building repair invoices and send these to us for payment. AAMI would pay the builders directly.
- e. Lend Lease submitted weekly progress reports to AAMI advising consolidated repair status of all claims under their management.
- f. A monthly Steering Committee meeting was held between Lend Lease and AAMI executive management where repair progress issues were discussed and actions (if any) were agreed.

89. The table below is a summary of the current repair status of all claims managed by Lend Lease as at 1 September 2011:

Lend Lease Repair Status as at 1 September 2011	AAMI	APIA	GIO	Suncorp	Total Claims	% complete	Repair Progress
To Be Allocated	7				7	0.2%	7.8%
Issued to Builder	1	3		19	23	0.8%	
Quote Returned	5	5		76	86	3.0%	
With Suncorp	14	3		90	107	3.7%	
Approved	13	5		82	100	3.5%	92.2%
Repairs Underway	51	58		494	603	21.1%	
Repairs Complete	24	47		344	415	14.5%	
Finalised (CSR)	13	10		126	149	5.2%	
Cancelled	10	12		441	463	16.2%	
Cash Settled	126	78	1	703	908	31.7%	
Total Claims	264	221	1	2,375	2,861	100.0%	100.0%

90. The repairs relating to the central Queensland floods were managed separately by other external Project Managers using the same model. Specifically:
- a. Sergon were appointed to Project Manage the claims in the Central Highlands region (most of which were in Emerald); and
 - b. Senseo to manage the claims along the mid north coast from Rockhampton to Bundaberg (including Theodore).
91. This decision was made prior to the SEQ floods but for the same reasons - the magnitude and geographical spread of the damage.
92. The table below is a summary of the current repair status of all claims managed by the above Project Managers as at 1 September 2011.

Central Old Repair Status as at 1 September	Total Claims	Repair Progress
Issued to Builder	17	3.8%
Repairs Under way (>70% FIN)	199	
Repairs Completed	131	96.2%
Cash Settled	102	
Total Repairs	449	100.0%

93. The 17 claims above that are at "Issued to Builder" status are at various stages of activity and predominantly relate to decisions yet to be made by the insured, e.g. considering cash settlement, doing renovations/upgrades or obtaining their own quote for repairs.

Fast track processes for small claims

94. In the ordinary course, and depending on the nature of the item lost or damaged, in order to process claims for lost or damaged property, AAMI would require:
- For a lost item or damaged item, proof of ownership of the item, such as a receipt and/or proof of details of the item, such as a photograph showing the item;
 - Two quotes confirming the replacement value of the item (for lost items) or for cost of repair (for damaged items).
95. In respect of the central Queensland and south east Queensland weather events, AAMI received 1,377 claims for under \$10,000. These claims were approximately 80% of the total claims lodged for AAMI and typically related to minor repairs or replacement of damaged or destroyed contents items.
96. In order to assist customers settle these claims quickly we initiated a fast track strategy whereby AAMI requested customers to proceed as follows:
- If the repair/replacement cost was up to \$2,000, no quotes were required. We instructed the customer simply to proceed with the repair or replacement and send us the invoice for reimbursement;
 - If the repair/replacement cost was between \$2,000 and \$5,000, AAMI would ordinarily arrange repair/replacement by an authorised AAMI repairer/supplier. For flood claims we instructed to customer to obtain one quote (from a local builder or supplier) and send it to us for authorisation. AAMI would then authorise repair/replacement based on that single quote or cash settle the customer;
 - If the repair/replacement cost was between \$5,000 and \$10,000, AAMI managed the repair through our normal repair and supply management team. There were very few claims in this cost bracket.
97. To promote this strategy we conducted a campaign of outbound calls to customers advising them of the above fast track strategies. These campaigns were designed to inform customers of the fast track process and to follow up their quotes so their claim could be settled.
98. Some claims under \$10,000 remain open as customers contacted us to make a claim but have not yet submitted quotes for the damaged assets. These customers are being contacted on a regular basis to either follow up outstanding information such as quotes or to see if they wish to continue with their claim. For those customers that cannot be contacted,

letters are being sent requesting the information required to settle their claim. Our current telephony reports show that for the last few months our outbound/inbound call ratio was over 140%, meaning we are making more customer outbound calls than receiving inbound calls for this category of claims.

99. AAMI currently has 162 active claims in the under \$10,000 category across Central and SEQ. On review of these claims, the reasons they are still active are:
- We are still waiting on customers to send us the relevant documentation (approximately 56% of active claims);
 - Documents have been recently received from customers and are being reviewed for acceptance and settlement, e.g. fair and reasonable quotes, proof of ownership (approximately 36% of active claims);
 - Claim was recently lodged (approximately 4% of active claims);
 - We are waiting on a call back from the customer to finalise the claim (approximately 3% of active claims); and
 - The claim is a low priority for the customer (approximately 1% of active claims).

Question 6: What changes, if any, were made to staffing levels in order to deal with the volume of claims AAMI received? Were staffing levels found to be adequate to deal with the volume of claims? What training, if any, was given to staff of AAMI involved in processing, assessing and deciding claims relating to the Queensland floods?

100. Over the four major events in Queensland, AAMI received 4,790 claims. The Suncorp Group received over 27,800 claims that were categorised as follows:

Qld Event: PI Home Claims Claim Classification	Major Loss	Assessed	Not Assessed	Small Claims	Uncateg- orised	Total Claims
PI Central Qld Flooding CAT 105 Loss date/s: 24/01/2010 to 02/01/2011	728	175	525	34	290	1,752
PI Toowoomba/Lockyer Valley Flash Flood CAT 111 Loss date/s: 10/01/2011 to 11/01/2011	518	290	911	56	363	2,138
PI Ipswich/Brisbane Floods CAT 112 Loss date/s: 11/01/2011 to 17/01/2011	2,489	695	2,091	308	1,480	7,063
PI Tropical Cyclone Yasi CAT 114 Loss date/s: 02/02/2011 to 08/02/2011	1,801	1,919	10,136	1,003	2,024	16,883
Total	5,536	3,079	13,663	1,401	4,157	27,836

101. The week following the flooding in South East Queensland, the Suncorp Group made the decision to set up a separate Event Recovery team to manage and oversee the rebuilding and settlement of claims. The decision to quarantine the event claims from 'business as usual' claims was critical to the success of our response and recovery effort. We recognised the significance of the program of work that we were about to embark upon and our responsibility to respond to all our customers in their moment of need.
102. Quarantining the event claims also enabled us to minimise disruption to our normal claims business, ie for those customers that were not impacted by the Qld floods. The Qld Event Recovery team also managed the Cyclone Yasi claims that occurred 3 weeks later.

Changes to staffing levels to deal with the claims volume

103. The following changes to staffing levels were made in order to deal with the volume of claims received.

Claims lodgement

104. The Suncorp Group utilised a combination of existing staff, internal staff temporarily transferred from other areas of the business (whose usual positions were then back filled by external temporary staff) and temporary staff supplied by an outsourcing agency.
105. In this way, capacity was increased by 150 consultants, one-third of whom were internal staff temporarily transferred to roles as Lodgement Consultants and two-thirds were temporary staff from an outsourcing agency. These staff were trained in the various Suncorp Group products.

Assessments

106. The Suncorp Group had 24 internal assessors based in Queensland who were called upon to assess flood and Cyclone Yasi claims across all brands. In addition we engaged:
 - a. 26 assessors employed by the Suncorp Group in other Australian states;
 - b. 6 assessors (2 rotations of 3) sourced from Vero New Zealand;
 - c. The services of 3 external assessing companies;
 - d. 15 builders from two external companies to undertake home damage assessments; and
 - e. 20 external contracted staff to assist with general administration and reporting duties in relation to assessments.

Claims management

107. AAMI increased its claims management by approximately 30 staff by:
 - a. redeploying 7 permanent staff to the Event Recovery team and backfilling their positions with temporary staff;
 - b. 6 temporary contractors were trained in AAMI products and placed in the Event Recovery team;
 - c. redeploying 7 permanent managers and leaders to the Event Recovery team; and
 - d. 10 external loss adjusters from a claims management company were contracted to manage claims.
108. In addition to increasing the numbers of staff, the Suncorp Group arranged staff into teams to ensure that claims were handled by staff with the experience and expertise appropriate to the complexity of the claim. In order to ensure that the Event teams had the right balance of experience relevant to the claims being managed, we structured the Event teams as follows
 - Team 1 – managed all major and total losses over \$200,000 for all Suncorp Group brands, as well as flood claims for AAMI. This team is a highly experienced team that was utilised during previous disasters (e.g. Cyclone Larry, Mackay floods, Victoria bushfires) and are permanent staff who ordinarily manage 'business as usual' major loss claims.
 - Team 2 – managed all Apia flood claims.
 - Team 3 – managed all Suncorp claims (flood and Cyclone Yasi) where repair costs were between \$50,000 and \$200,000.

- Team 4 – managed all Suncorp claims (flood and Cyclone Yasi) where repair costs were between \$10,000 and \$50,000.
 - Team 5 – managed all Suncorp claims (flood and Cyclone Yasi) where repair costs were under \$10,000.
 - Team 6 – managed all Suncorp claims (flood and Cyclone Yasi) where repair costs were under \$10,000.
 - Team 7 – managed all Suncorp claims (flood and Cyclone Yasi) where repair costs were under \$10,000.
 - Team 8 – managed all AAMI claims arising out of Cyclone Yasi.
 - Team 9 – managed all Apia claims arising out of Cyclone Yasi.
 - Yasi Field Operations Team – the Suncorp Group operated a satellite team based in Cairns and Innisfail so that we could have a local presence in far north Queensland.
109. Claims in Teams 1, 2, 3, 4, 9 and the Yasi Field Operations Team were managed at a Client Manager level. This means that each claim is allocated to a specific Client Manager, who manages that claim from allocation to completion.
110. Claims allocated to Teams 5, 6, 7 and 8 were managed at a team level. This means that the team is responsible for a batch of claims and team members rather than particular claims being assigned to particular team members.
111. Further details of the roles and accountabilities of staff within Client Managed teams and Team Managed teams are set out in my response to Question 23.

Adequacy of staffing levels to deal with the volume of claims

112. These changes were adequate to deal with the volume of claims received. The Suncorp Group uses its experiences in handling each catastrophic event to identify processes which will improve its service capabilities when the next event occurs. By way of comparison between two like catastrophe events in the same region resulting in similar types of damages:
- a. in the immediate aftermath of Cyclone Larry, customers experienced wait times of three to four hours to lodge claims by telephone. After the Queensland floods and Cyclone Yasi, average wait time was less than 30 minutes; and
 - b. 140 days post-event, the Suncorp Group had finalised 4,500 Cyclone Larry claims. At the same point post-event, the Suncorp Group had finalised almost 7,500 Cyclone Yasi claims.

Training for staff involved in processing, assessing and deciding claims relating to the Queensland floods

113. All temporary staff had insurance experience and in many cases were people who have worked for the Suncorp Group in the past. All newly recruited staff were trained on all of the necessary functions for their role.

Question 7: How could and did policyholders lodge claims? If claims were lodged by telephone, did policyholders do so by calling a freecall number accessible by landline and mobile phone?

- 114. Customers were able to lodge claims:
 - a. By telephone on 13 22 44, a 24 hour freecall number which is accessible by landline and mobile phone
 - b. In writing to a PO box number
 - c. Over the internet at aami.com.au
 - d. In person at an AAMI branch or customer service centre.
- 115. These contact details are stated in the PDS and are available on AAMI's website.
- 116. In addition, as outlined above, the Suncorp Group deployed CRTs to affected areas following the various weather events. AAMI customers were able to lodge a claim by attending a CRT and providing their claim details to a team member. CRT staff are trained and experienced in assisting customers with lodging a claim and have the authority to make an immediate decision on most claim lodgements.
- 117. Information regarding how to lodge claims was also communicated to customers by:
 - a. Media releases, Twitter and Facebook pages confirming the location of CRTs
 - b. Advice to local council members, State politicians etc as to how their constituents could contact AAMI to make a claim.
- 118. The majority of claims (99%) were lodged by telephone.

Question 8: Were there any cases in which AAMI made contact with a policyholder before the policyholder contacted AAMI (whether to make a claim or otherwise)? If so, for what purpose?

- 119. AAMI did not endeavour to contact individual customers about their circumstances, claim entitlements or other issues prior to the customer making contact.
- 120. Suncorp Group representatives did visit evacuation centres and centres where a CRT had been established, to provide information to customers about claims eligibility and processes. The information provided was general in nature rather than being specific to the particular customer's circumstances, and customers with whom contact was made in this way were advised and encouraged to contact a CRT or call centre to lodge a claim or make enquiries about their particular circumstances. AAMI is not aware of any particular contacts with AAMI customers during this process.

Question 9: What information was given to policyholders in their first communication with a representative of AAMI? In particular, what information was given to policyholders (whether voluntarily or in response to queries from policyholders) about:

- 9.1 The terms of the cover provided by their policy;
- 9.2 Making a claim (both as to how a policyholder could make a claim and whether a policyholder should make a claim); and
- 9.3 What to do with damaged property?

If the information given to policyholders varied according to the location of the

insured property, please outline the variations. Please provide a copy of any and all instructions or scripts given to telephone operators.

121. A customer contacting AAMI to lodge a claim would speak to a member of the Claims Assist team (or a CRT team member if they attended a CRT).
122. At this initial contact, the customer would be advised of their coverage level based on their PDS. For example, the customer would be advised whether they had home cover, contents cover or both. Assuming the customer did have a policy with AAMI, the customer was advised to lodge a claim and advised of the location of a CRT if relevant (ie in regional areas where a CRT had been established).
123. No AAMI customer was advised that they could not or were not able to lodge a claim due to policy coverage (ie that the policy had a flood exclusion) as AAMI's standard policy and procedure dictates that a Claims Assist consultant is not authorised or equipped to make a decision on coverage related to flood. AAMI's policy is that this decision must be made by the Claims Management team based on information from an expert assessor.
124. Claims Assist consultants are aware that the AAMI Home Building Insurance Policy and Contents Insurance Policy do not cover flood, and were able to direct the customer to the section in the PDS dealing with flood. However the Claims Assist consultant could not make any decision about whether the customer's circumstances were within the flood exclusion. Claims Assist consultants were trained to encourage customers to lodge a claim regardless of the individual circumstances of the water damage in order to get an assessment and final decision made.
125. The customer would be advised of the following:
 - a. a claims consultant would contact the customer to discuss their claim in detail;
 - b. they would be contacted by an assessor to arrange a time to assess damage;
 - c. the customer was able to remove damaged items, and to make a list of each item and take a photograph of the damaged items and damage to the building.
126. Attached as annexure 3 is a copy of instructions given to Claims Assist consultants in relation to the central Queensland flood events. These instructions were supplemented as further events occurred, for example, advice about the fast track process for small claims was added. Messaging in relation to flood coverage issues was consistent throughout. As recorded in the attached instructions Claims Assist consultants were instructed:

"Please ensure that you advise customers that flood damage is not covered under the AAMI Home policy. However, still lodge the claim, and advise the IO [insured owner] that an assessor will be in contact to discuss the claim".

Question 10: How did a representative of AAMI giving information to a policyholder (whether voluntarily or in response to queries from a policyholder) about matters of the kind referred to at sub-paragraph 9.1 – 9.3, or any other matter concerning the policyholder's policy or claim, ensure that the information provided to the policyholder was accurate and based on the correct version of his or her policy?

127. Each customer's policy information is recorded in AAMI's electronic policy management system. This includes indentifying the PDS version applicable to that customer's policy.
128. Claims Assist (call centre) staff deal with claims lodgement. By accessing the customer's details on the electronic policy management system, a Claims Assist staff member can advise whether a caller has a policy or, for example, that the customer has a car policy but not a home policy.
129. Once a claim is lodged, the claim is allocated to a Client Manager or, for small claims, to a team of Claim Consultants, who will make the decisions on how that claim is to be managed. Customer queries about whether particular claims are covered are dealt with by the Client Manager or Claim Consultant.
130. AAMI representatives who had contact with customers (call centre staff, consultants and claims managers in AAMI's Claims Assist division, and staff in CRTs) are trained in the use of AAMI's electronic policy management system. In dealing with a customer, they would access the customer's file within the policy management system, which identifies the relevant PDS, enabling them to provide information which is accurate for the applicable PDS.

Question 11: Is AAMI aware of any instances of AAMI staff having given incorrect advice in response to queries from policyholders?

131. Details of matters in which customers have complained that incorrect advice was given are outlined in my response to Question 31. Other than those matters, AAMI is not aware of specific instances where staff provided incorrect advice in response to questions from policyholders arising from flood claims.
132. AAMI's Home Building Insurance Policy and Contents Insurance Policy do not cover flood damage but do cover other types of water damage, such as storm and rainwater runoff from areas around the insured site, and water escaping from water mains, drains, pipes, street gutters and guttering. Some customers experienced loss from consecutive or mixed events, for example, a home may have been damaged by both storm water and flood water. Customers whose damage was caused by water overflowing from storm drains rather than flooding over the land, were entitled to cover. This meant that even though the policy excluded flood, it was possible that the customer was entitled to partial or complete cover under another part of their policy, depending on the particular circumstances of their loss.
133. Given the multiple potential causes of damage, it was sometimes difficult for Claims Assist consultants to advise a customer as to whether they would likely have coverage or not based on the limited information which the customer was able to provide when the customer first lodged their claim. Therefore, all AAMI customers were encouraged to lodge claims even if they thought the damage was flood related, so that a complete assessment could be made based on the customer's individual circumstances rather than automatically assuming that no damage was covered.
134. I accept that, as with any large scale catastrophe event, it is possible that some incorrect information or advice may have been provided, however I also believe that AAMI has robust and appropriate processes in place to protect customers where this may occur, including:
 - a. The PDS clearly advises customers of their right to internal review by the AAMI Customer Ombudsman if they are unhappy with any decision made or any aspect of the service they receive from AAMI; and

- b. The PDS also clearly advises customers of their right to external review through the Financial Ombudsman Service.

Question 12: What information was a policyholder required or asked to give AAMI for the purposes of assessing the policyholder's claim? If the information which a policyholder was asked or required to give varied according to the location of the insured property, please outline the variations.

135. An assessor was appointed for each AAMI claim. If the policy was a Home Building Insurance Policy or Contents Insurance Policy, and therefore subject to a flood exclusion, the initial assessment would focus on obtaining information from the customer as to the height of the water, the time and date of flooding and the number of people living at the home.
136. The assessor would also gather some general information as to contents items lost and determine an estimate for future reference and subject to claim determination as to cover.
137. The type of information sought did not vary according to the location of the insured property.

Question 13: Please outline each step, and by whom each step was taken, in the process by which claims were processed, assessed and determined. Please also outline the information relied upon in determining claims.

138. Attached as Appendix 4 is an actual AAMI flood claim (that was declined) that shows the steps involved and timeframes to complete (customer's details have been deleted).

13.1 Were site assessments/inspections carried out? If so:

13.1.1 Were they carried out for every claim or some claims? If the latter, in how many cases were site assessments/inspections carried out?

13.1.2 At what stage of the claims handling process were site assessments/inspections carried out?

13.1.3 Who conducted the site assessments/inspections? What instructions were they given?

139. A site assessment/inspection was carried out for every AAMI home flood claim by customers with a Home Building Insurance Policy or Contents Insurance Policy.
140. The assessment/inspection was carried out at the commencement of the claims determination process. In the majority of cases, inspections were undertaken within days or weeks of the claim being lodged. Most inspections took place during January or February 2011.
141. The site assessments/inspections were undertaken by external loss assessment firm Cunningham & Lindsay Australia Pty Ltd (Cunningham). Attached as Appendix 6 are the written instructions which were provided to Cunningham to carry out the on-site assessments. These inspections were particularly focussed on determining the source of water damage. Cunningham's obtained information from the customer to complete a Flood Questionnaire, a copy of which is also attached in Appendix 6.
142. In some cases, site inspections were also conducted by hydrologists. This is discussed below in my response to Question 13.3.
143. In certain circumstances, factual information beyond that provided by the Cunningham assessment report was required. In those cases, AAMI appointed experienced in-house

property assessors to visit the customer's property and collect outstanding information necessary for the company to correctly determine liability. For example, an AAMI second assessor was often instructed to attend and provide site-specific photographs and site information for underground apartment car parks, which had been inundated by more than one water source (for example, some car parks were initially inundated by drain backflow flooding, before watercourse water over-topped their entry driveways to cause full inundation). Each AAMI assessor who carried out second assessments was instructed verbally, by way of a group training session conducted by the Technical Event Claims Manager and AAMI's solicitor.

13.2 Were any claims declined without site assessments/inspections having been carried out? If so:

13.2.1 In how many cases?

13.2.2 To which areas did the claims relate?

13.2.3 Why were site assessments/inspections not carried out in those cases?

13.2.4 What information was relied upon to determine whether those claims would be accepted or declined?

144. No AAMI home or contents claim was declined on the basis of flood exclusion in the policy without a site assessment/inspection having been carried out.

13.3 Please outline all hydrology information obtained and used/relied upon in determining claims and explain:

13.3.1 Who provided the hydrology information? If AAMI engaged hydrology experts, what did AAMI brief the hydrology experts to do? What instructions, written or oral, were provided to the hydrology experts? Please provide copies of any written instructions.

145. AAMI relied, where relevant, on general area hydrology reports provided by reputable hydrological firms (including WRM) to the Insurance Council of Australia (ICA) which were available for the following regions/cities/towns:

- Brisbane Local Government Area
- Ipswich Local Government Area
- Somerset Area
- Lockyer Valley
- Toowoomba Area
- Emerald
- Rockhampton
- Theodore

146. These general reports provided detailed information about rainfall, watercourse height and flow, and conclusions as to the origins and movement of floodwater.

147. AAMI also used a number of hydrological firms to provide site-specific hydrology reports.

148. Site specific hydrological reports for the Brisbane/Ipswich area were provided to AAMI by WRM Water & Environment Pty Ltd (WRM). WRM also provided hydrological reports in some regional cities such as Rockhampton, Bundaberg and Emerald. In regional areas such as Chinchilla and Dalby, the hydrology firm Alluvium Consulting Australia Pty Ltd (current trading name - Alluvium) was utilised. Where a site-specific hydrology report was commissioned, the hydrologist was briefed to determine the cause of water damage at a particular property.
149. When instructing site-specific hydrological reports AAMI in each instance requested the hydrologist to report on the actual cause of water damage at the site – the predominant question in almost all assessments was whether a watercourse such as a river or creek had overflowed onto the site, or whether solely rainwater runoff (from higher land/catchments) had caused the claimed damage. In some instances AAMI was aware, or believed, that both watercourse water and rainwater runoff water caused damage at the site. In those instances specific instructions were provided to the hydrologist to determine which water affected the site first (and to what inundation height), and which water followed (again, to what height).
150. Hydrologists were also instructed in some instances to determine whether 'drain backflow flooding' (flooding by watercourse water carried by drains into lower areas of land which is separated from the watercourse by higher ground) had occurred. In situations where drain backflow flooding was likely or apparent, hydrologists inspected the site and provided specific conclusions.
151. Hydrological firms were instructed by email which stated the customer's details and attached a copy of Cunningham's first assessment report, which included a 'Flood Questionnaire' which provided key information from the customer regarding the inundation. Copies of all photographs of the site and damage already held on file were also provided to the instructed hydrologist (as sourced both from Cunningham's assessment report and/or the customer). Any other relevant information about the site or known water damage was ordinarily also provided, along with any site-specific assessment instructions.
152. Attached as Appendix 7 are copies of instructions to hydrologists.

13.3.2 How did AAMI ensure that the hydrology information addressed the relevant terms of the applicable policies? In particular, how did hydrology reports relied upon define the terms 'flood' and 'flash flood'?

153. The hydrological firm was provided with a copy of the relevant AAMI home insurance Product Disclosure Statement (PDS) and discussions occurred to explain the relevant aspects of the PDS. It was important for AAMI to ensure that the hydrological firm understood the meaning of key terms within its policies, as these firms often undertook work for multiple insurers, each with their own specialised policy wording. The hydrological firms were advised to differentiate between the effects of storm and rainwater on the individual properties and that of flood from a rising watercourse.
154. AAMI's domestic home insurance policies do not refer to the term 'flash flood'. They instead refer to 'storm and rainwater', including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface. AAMI's domestic home and contents insurance policies do not cover flood from a rising watercourse. As such, all instructed hydrological firms were clearly informed of the definition of flood within AAMI's domestic home insurance policies.

13.3.3 When the hydrology information was received.

155. As outlined above, site-specific hydrology reports were requested after a site inspection and report by Cunningham had been obtained and initial consideration given to the claim. Once briefed, the hydrology report was generally received within four to eight weeks depending upon the hydrologist's capacity and whether it was necessary for the hydrologist to undertake a site inspection.

13.3.4 When investigations upon which the information was based were conducted.

156. The investigations on which the hydrology expert relied were the assessment report of Cunningham and attached Flood Questionnaire. In the majority of cases, these were completed within days or weeks of the flood event.
157. The hydrologist would also have based opinion on flood data and modelling available to the hydrologist.

13.3.5 Whether the hydrology information related to general areas or regions or specific sites or both. If the first, please identify the areas or regions and provide copies of the information/reports. If the second and third:

13.3.5.1 At what stage of the claims handling process was hydrology information for specific sites requested and obtained?

13.3.5.2 What determined whether hydrology information for a specific site was requested?

158. As outlined above, AAMI relied on both general and site-specific hydrology reports.
159. The ICA commissioned reports other than those for Emerald, Rockhampton and Theodore are publically available on the ICA's website (www.insurancecouncil.com.au).
160. Site-specific reports were obtained after consideration of the general hydrology reports and the outcome of assessment by Cunningham, if that information was not sufficient to determine the cause of damage to a particular site. In particular, if a customer asserted stormwater runoff inundation or drain backflow as a contributing factor to inundation of the property, and general hydrology reports together with the Cunningham assessment was insufficient to determine if either of these did contribute, then a site-specific hydrologist would be engaged.

13.3.6 If the nature of the hydrology information varied according to the location of insured property, please set out the variations.

161. Hydrology reports did vary between geographical regions, and even within the same suburban street, due to a number of factors. Relevant factors included:
- a. the topography of the area;
 - b. the location of the property relative to any watercourse producing floodwaters;
 - c. the location of the property in relation to the stormwater catchment (whether rural or urbanised);
 - d. the actual amount of rainfall experienced at the particular location leading up to and on the date of loss;

- e. the nature of a site's elevation;
- f. elevation of surrounding land and drainage network; and
- g. the nature of the insured home's construction (e.g. high set versus low set.)

Question 14: If any of the processes or information relied upon, outlined in answer to questions in paragraph 13 above, varied according to the location of the insured property, please set out the variations.

- 162. AAMI's claims handling procedures did not vary depending on a customer's location, although the hydrological issues under consideration did (in a broad sense) vary between regions.
- 163. Broadly speaking, the hydrological issues which required consideration for AAMI customers in different locations were as follows:
 - a. **Brisbane and Ipswich metropolitan areas** – in the majority of cases, the origin of floodwater did not require investigation, however if the property first sustained inundation from drain backflow flooding (as distinct from overland flood flow) the damage caused by that initial inundation is potentially covered by AAMI policies. Therefore, any properties where customers reported this occurring received a second property assessment by an AAMI in-house assessor or when required, a hydrologist to assess this.
 - b. **Regional city/town claims** – secondary assessments for drain backflow flooding were undertaken where this phenomenon was reported, however this was less common which is probably a reflection of the often more variable topography within the Brisbane/Ipswich area, and the significant expanses of urbanised (drained underground) areas within those local government areas.
 - c. **Isolated rural homestead claim** – the most common reason for secondary assessments in rural locations was whether rainwater runoff (water that had not yet entered a watercourse) or riverine flood water was the proximate cause.

Question 15: Was any advice other than hydrology information/reports and reports of loss adjustors/assessors obtained and relied upon in determining claims? If so, please identify the nature of the advice.

- 164. The following sources of information were routinely used to assist AAMI to determine its liability for water damage:
 - a. Information provided directly to AAMI by the customer or credible witnesses – customers provided descriptions of events to us when lodging their claim or in subsequent direct communications. For example, where a customer was able to advise the level to which their home was inundated by drain backflow water before then being further inundated by flood water, AAMI used that information to assess what part of the total damage would be covered.
 - b. Wind and rainfall data provided from the Bureau of Meteorology – this official weather data confirmed daily rainfall totals in customers' immediate locations (e.g. a particular suburb of Brisbane), and in cases of storm damage, maximum daily wind speed.
 - c. The Queensland Reconstruction Authority's publically available aerial flood mapping – this mapping, where available, provided clear colour imagery of flood water and flood water inundation areas.

165. We also reviewed claim decisions if later information was provided which changed our assessment. For example, a customer whose flood damage claim had been declined was later able to provide a video showing rainwater runoff inundation. On the basis of that video, we overturned our earlier decline of the customer's claim. We also used that video information as a basis for accepting a number of claims by other customers in the same street.

Question 16: Were policyholders advised of all information AAMI relied upon in determining their claims? If so, was this advice given voluntarily or only if requested? If any piece of information was not provided or withheld for any period of time:

16.1 What was the nature of the information?

16.2 Why was it not provided?

166. For claims that have been accepted (eg where damage was assessed to be the result of rainwater runoff, which is covered by the AAMI Home policy), AAMI advised the customer that the claim had been accepted and of the basis of that acceptance. This would usually be done verbally. Customers whose claims have been accepted are also advised of their right to dispute the settlement of the accepted claim should they be dissatisfied with the basis of settlement offered.
167. For any claim that was declined, AAMI provided the customer with a decline letter setting out the reasons for the decline, referring where relevant to the terms of the PDS and any facts or evidence relevant to the decision to decline, and advising of AAMI's dispute resolution process. Claim decline letters contained clear explanations of AAMI's assessment of the property, any hydrological information relied upon and any relevant aerial flood mapping. A clear explanation as to the reason for the decline was provided, including identifying the watercourse in the case of riverine flooding.
168. Copies of all decline letters sent by AAMI are provided in response to Question 31.

Question 17: Were policyholders given copies of all documents relied upon in determining their claims? If any document was not provided, or withheld for any period of time:

17.1 What was the nature of the document?

17.2 Why was it not provided?

169. For claims that have been accepted, AAMI usually would not provide the customer with copies of the documents relied upon in determining the claim. For those claims:
- a. In relation to the decision to accept the claim, a customer is rarely interested in reasons if cover is confirmed.
 - b. In relation to the claims management process, a large number of documents such as a scope of works, engineer's reports, invoices and reports from the Project Manager may be generated. AAMI does not provide these to the customer but regularly updates the customer as to progress of the claim. Unless some element of the claim is in dispute, it is our experience that customers do not wish to receive copies of documents which simply record the process of the settlement of their claim.
170. If a claim has been declined, or where cover has been confirmed but any element of a claim has been declined, AAMI provided a copy of the assessor's report/s and any site-specific hydrology report. These were provided with the decline letter. AAMI did not provide documents which were in the public domain, such as the hydrology reports commissioned by the ICA which were publicly available on the ICA's website. Where

such a report was relied on by AAMI in determining a claim, the customer was advised of this and advised where a copy of the ICA hydrology report could be obtained.

171. Although we provided the reports, we also provided an explanation for the decision to decline in the decline letter. In our experience a customer finds it more helpful to have a summary of the evidence and our explanation as to why it means that a particular claim is not covered, as compared to providing a report which may be highly technical or which may cover a large volume of material only a small portion of which is relevant to the reasons for denying a particular claim.
172. I am not aware of any instance of a customer requesting their claim file in relation to the flood events. However, if a customer did want to obtain the underlying material on which a claim determination was made, the customer is entitled to make a request under the Privacy Act 1988, which entitles the customer to a copy of any document personal to that customer (subject to some specific exceptions relating to legally privileged or commercially confidential documentation) and customers are also advised of their right to dispute our decline of their claim

Question 18: Were any difficulties encountered in processing, assessing and deciding claims? In particular, did any factors cause delays in this process?

173. The management of a significant volume of claims and repairs does create challenges and complex issues, which can inevitably cause impediments to the claim process. Some of the challenges Suncorp experienced in the four Queensland events is provided below:

Disruption to call centres

174. For a short period of time, Suncorp's operational capabilities were affected by flood damage to our Toowoomba call centre, closure of our Milton call centre due to risk of flooding from the Brisbane River, and closure of our Brisbane CBD premises due to power outages and access restrictions.
175. However, as mentioned in my response to Question 5, the closure of the Toowoomba call centre only affected the Suncorp Insurance and GIO brands. Service Levels for AAMI customers would have been affected but not their ability to get through.

Restricted access to flooded areas

176. Timeframes for assessing claims was also impacted by limited access to various regions. For example, there were access limitations to Rockhampton, Grantham and Cardwell after the events.

Need for site specific reviews

177. In respect of those AAMI policies that do not cover flood damage but do cover other types of water damage, the claims assessment process which AAMI chose to adopt was time consuming as AAMI did not automatically decline claims based on an assumption that because a property was in a particular location, or damage occurred on a particular date, that the damage must have been due to flood.
178. AAMI considered each claim on a case by case basis. Assessors reviewed every house and major contents claim in any situation in which a claim was lodged.
179. In any case in which a customer asserted or suggested that water damage was not caused by flood (ie was caused by another water event), a second on-site inspection was

conducted and a meeting was held with the customer to obtain as much information as possible. The matter was then further reviewed.

180. Where the information obtained by assessment together with the hydrology reports prepared on a locality basis did not definitively confirm the cause of water damage, a site-specific hydrology report was obtained. This process proved resource intensive and time consuming for AAMI and its appointed contractors.

Limited availability of hydrologists

181. The timeframes to get complete and useful hydrological information was a significant issue in our ability to make informed and correct decision on a portion of claims under our AAMI brand, which does not cover riverine flood. The hydrology reports provided by the ICA panel were not sufficient in detail to enable us to make informed decisions on a number of flood claims, particularly in the Brisbane and Ipswich regions. As a result we had to arrange for specific site inspections, which did create an additional delay to our decision making process. Our site specific inspections took on average 4 to 8 weeks to complete, including a review of the additional information.
182. The first requests for specific site inspections were around mid April 2011 and continued until the end of June. The hydrological reports were provided to us between early June 201 to late August 2011.

Ongoing weather events

183. The weather in far north Queensland prevented builders from starting any repair work for almost two months. There was constant rain following cyclone Yasi and repair work was delayed on those homes with roof damage.

Nature of damage

184. Water damaged homes must be allowed to properly dry before any sanitisation or repair work can take place. Homes that are not properly dried before repair work commences can suffer damage later, for example mould which will damage or negate the repair.
185. Because these events resulted in a large number of extensively damaged homes, there were a larger number of homes requiring:
- a. engineering assessments, e.g. as to structural stability;
 - b. reports on damage; and
 - c. a detailed scope of works as to repair.
186. The need for these was much higher than might occur with other kinds of catastrophic events. For example, following the Victorian bushfires, there was little need for these kinds of time-consuming and resource-intensive investigations, because the vast majority of affected homes were completely destroyed, therefore insured claims were paid on a 'total loss' basis without the need for specific assessments. In addition, there were a large number of customers who did not want to return to the affected area and therefore were 'cash settled', i.e. the value of the home was paid rather than the home being rebuilt. These claims are much faster to process and finalise than a claim involving major repair or rebuilding.

187. In contrast, in the Queensland flood claims, there were a high number of damage claims rather than total loss claims (as compared to Victoria) and the majority of customers wanted to rebuild rather than be 'cash settled'. Accordingly, we experienced:
- a. a significant demand for engineering and building assessment services, which impacted on our ability to turnaround reports quickly;
 - b. a high number of longer duration projects, because the time to rebuild is much greater than the time to value a destroyed property and cash settle.
188. In part, we dealt with this by appointing a Project Manager to project management the process of appointing builders to provide a scope of works, review the scope and ensure a Building Services Authority (BSA) compliant contract was entered into to commence the works.
189. There were occasions when this process is delayed because either the customer had discovered additional damage not in the scope of works or damage that may have been inadvertently missed by the builder when the scope was prepared. Some disputes also arose where damage had been assessed to be pre-existing and therefore not covered by insurance.

Changes to council requirements

190. Under our policies, AAMI repairs homes to the latest building standards and local council requirements. Some delays have occurred because:
- a. new building guidelines have been introduced by local Councils, after repairs have been scoped and settlement costs agreed;
 - b. in some cases, local Councils are yet to formalise their requirements;
191. Further, in the Lockyer Valley, the Regional Council is offering a 'land swap' opportunity, and some customers have been waiting to assess their options under that arrangement before making a decision as to rebuilding on their existing land or participating in the land swap offer.

Customer related issues

192. We have experienced occasions where customers refused to move into temporary accommodation during the repairs. Because of the extent of the damage these repairs cannot start until the customers move out.
193. We have some customers who have minor damage claims whose claims would be dealt with under the fast track process outlined above, but who have delayed, or are yet to provide, the one quote requested to process the claim. We understand that for some customers, a small claim may not be a high priority for them, so we leave the claim open until the quote is received. For that reason, there are a number of minor damage claim files still open.
194. While most of the claims were lodged within a few weeks of the various events, we continue to receive claims for these events, particularly for the Brisbane/Ipswich floods and Cyclone Yasi. Most of these claims are minor in terms of damage but we have received, and continue each month to receive, a small number of claims notwithstanding many months have passed since the flood events.

195. In managing over 27,800 claims, including 6,000 major rebuilds across all Suncorp Group brands, occasionally there were claims that didn't follow the proper process and therefore needed to be reviewed. There were also occasions where customers would question certain activity or behaviour from builders that would cause us to stop further progress on the claim until the issues raised could be investigated.
196. Lastly, it is our experience during major repairs or rebuilds that some customers take the opportunity to improve their homes at the same time that the insurance repair is taking place. For example, some customers want to make structural changes to their homes and want the same builder to do the insurance repair as well as the renovation or building modification. In these cases, we need to carefully manage the insurance related costs from both the customer and builder's perspective.

Question 19: How does the volume of claims AAMI received, and the timeliness with which they have been decided, compare with (a) 'business as usual' and (b) other recent natural disasters?

197. In any given year the average number of Home claims managed by the Suncorp Group is approximately 50,000 to 60,000 with an estimated average claim life of 90 days (from lodgement to any recoveries). Over the December 2010 to February 2011 period the total Home claims under management by the Suncorp Group increased rapidly to approximately 130,000.
198. The average life of claims outside of catastrophic event periods is approximately 90 days (from lodgement to any recovery). However, there is significant variation from claim to claim. A home burglary claim involving a small number of items generally would be finalised within a few weeks. A claim for major repairs caused by a house fire would take at least four months, reflecting the time required for the construction work to be done.
199. In a catastrophic event the timing of lodgement to repair to final closure of claim can be anything between four and nine months. As outlined in my response to Question 18, this reflects many factors not necessarily related to Suncorp capacity constraints and outside Suncorp's control, which contribute to the long tail nature of these claims.
200. Attached in Annexure 8 is a comparison of the steps required and the time taken from lodgement to finalisation of:
 - a. a claim arising from the Brisbane flood,
 - b. a working loss (normal) claim; and
 - c. a natural hazard claim (non disaster situation).
201. These examples are drawn from both Suncorp and AAMI. The processes and claim durations are comparable across both brands.

Question 20: Were policyholders kept informed, or have they been kept informed, of the progress of their claims in accordance with the standards stipulated in the General Insurance Code of Practice? How did or does AAMI monitor whether those standards are adhered to?

202. AAMI is committed to the principle expressed in section 4.2 of the Code to "respond to catastrophes and disasters in a fast, professional and practical way and in a compassionate manner".
203. Section 4.3 of the General Insurance Code of Practice recognises that in responding to a disaster or catastrophe, it may not be possible for an insurer to meet all of the standards

in the Code. AAMI believes that it would not be appropriate to sacrifice proper consideration of claims purely to meet claims handling deadlines which the Code recognises may not be possible following catastrophic events.

204. Given the catastrophic nature of the Queensland flood events, the Suncorp Group sought, and obtained, agreement from the Financial Ombudsman Service (FOS) for the following revised claim decision making timeframes under the Code:

Code section	Code timeframe (business days)	Revised timeframe (business days)
3.2.1: Within 10 business days of receiving your claim, we will: 1. notify you of the detailed information we require to make a decision on your claim 2. if necessary, appoint a loss assessor/loss adjuster; and 3. provide an initial estimate of the time required to make a decision on your claim.	10	20
3.2.2: If we decide to appoint a loss assessor/loss adjuster and/or investigator, we will notify you within 5 business days of appointing them.	5	10
3.2.3: We will keep you informed of the progress of your claim, at least every 20 business days.	20	40
3.2.4: We will respond to your routine requests for information within 10 business days.	10	30

205. When the assessment of a claim required additional time, AAMI endeavoured to keep the customer informed of progress of the claim in the timeframe in Code section 3.2.3.
206. Although the revised timeframes were in place AAMI tried to operate to the normal Code timeframes as much as possible. In the early stages after the events, AAMI informed customers of the revised timeframes, however our main focus was to return to normal timeframes as soon as possible to manage customer expectations. AAMI was able to operate within the normal Code timeframes by mid May 2011.
207. Our Claims system allows the business to track claim progress by 'activities'. Automatic and manual activities can be generated on any claim to prompt the relevant person, team or department to complete the next action on the claim. These activities have priorities based on the claim or action required (e.g. emergency situations are marked as urgent). Activities also have automatic timeframes set based on the type of activity, and will automatically escalate to a supervisor or similar if the activity is not completed within the required timeframe. The ability to track the progress of a claim enables us to maintain compliance with the timeframes in the Code.
208. The following system triggers were utilised to ensure Code timeframe compliance

On our main 'Claim Centre' system

- The relevant team was notified of action required through system prompts. System prompts throughout the claim process are maintained and monitored to ensure the customer is kept informed.

- The Claim Centre system allows the business to track claim progress by 'activities'. Automatic and manual activities can be generated on any claim to prompt the relevant person/team/department to complete the next action on the claim.
- Activities have priorities based on the claim/action situation (e.g. emergency situations are marked as urgent).
- Activities have automatic timeframes set based on the type of activity, and will automatically escalate to a supervisor or similar if the activity is not completed within the required timeframe.

On our legacy 'CMS' system

- Claim data was exported from mainframe system (Cogen) and assessment management sites into purpose built spreadsheets to enable tracking of claim progress.
- Manual 'diaries' were created in Protect system to prompt the relevant processing person/team/department to complete the next action on the claim.

Operational Processes

- Operational team leaders and managers checked their team's 'activities to complete' daily and re-prioritise or re-allocate work where necessary to ensure that timeframes were duly met.

AAMI acknowledges that given the sheer volume of large loss claims received during a short period of time, there would have been instances in which section 3.2.3 of the Code may not have been complied with. However:

- in the majority of cases, service calls were well within the 40 business day period agreed with FOS;
- in many cases, these calls were more frequent than the amended Code requirements; and
- many customers would also proactively contact AAMI.

Question 21: Was the position adopted by a reinsurer communicated to policyholders at any stage? If so, why?

209. AAMI's claim determination decisions are made on the basis of our customer's entitlement under the terms of the policy in place as between AAMI and our customer. Decisions are not influenced or dictated by any position adopted by any reinsurer.
210. The position of reinsurers is not communicated to customers. Reinsurance arrangements are commercially confidential and are a matter between AAMI and its reinsurers.

Question 22: By what means did or do representatives of AAMI contact policyholders (for example, by mail, email, landline, mobile phone)? By what means were policyholders whose claims have been determined, informed of the outcome of their claims? Were all policyholders whose claims have been determined, informed of the outcome of their claims in writing?

211. When a customer first makes a claim, AAMI confirms the customer's existing contact details and the customer's preferred method of contact – either mobile phone, landline, email or mail. In the vast majority of cases, contact would be by telephone or email.

212. Where a claim has been accepted, the customer would usually be advised of the acceptance verbally, ie by phone.
213. If AAMI declines a customer's claim or an aspect of the customer's claim, we verbally advise the customer of this outcome and send a letter outlining the reasons and basis for declining the claim and advising the customer of AAMI's dispute resolution process. AAMI's preferred approach is to give the customer verbal notification before they receive the decline letter, however if we have been unsuccessful in contacting the customer by telephone after a number of attempts, the decline letter will be sent without verbal notification being given.
214. If we cash settle a major or total loss claim, a deed of release would normally be signed. Therefore, communication would be in writing.

Question 23: By what means could or can policyholders find out about the progress of their claims or otherwise discuss their claims with a representative of AAMI? If by telephone, could or can policyholders contact AAMI by calling a free call number accessible by landline and mobile phone? Could or can a policyholder contact the person responsible for handling his or her claim directly?

215. AAMI's claims lodgement service is staffed 24 hours a day, 7 days a week on a toll free number. Customers can call the toll free number for the cost of a local call from any landline in Australia.
216. In relation to progress of their claim, AAMI customers affected by the Queensland floods could contact us by the following phone numbers:
- a. The normal AAMI claims toll free number 13 22 44. These calls were answered by the AAMI switchboard and then sent to the relevant area in AAMI according to the customer's inquiry.
 - b. For a customer with a claim being managed by a Client Manager, the customer was able to phone their Client Manager's direct number. If the call was unanswered, the call would transfer to another Client Manager with the same skill sets. Normal calls costs were incurred, however where the customers were concerned about cost we would arrange to call them back.
 - c. In addition to the above, customers could also send an email for flood claims to either myclaim@suncorp.com.au (serviced both Suncorp and AAMI) or sqhomeclaims@aami.com.au and we would make arrangements to call them back. If the inquiry was related to the cyclone then they could send an email to aamiasihomeclaims@suncorp.com.au.

217. Claims are handled in two ways:

Team managed (TM) claims

218. Staff are responsible for a batch of claims rather than individual claims being allocated to particular team members. Prompts and bringups within the Suncorp Group's electronic management system produce an activity. For example, when customer documents are centrally received and scanned into the Claim system, an activity is generated (e.g. *review customer correspondence*) with set date for the activity to be actioned.
219. Activities are reviewed daily for those that are required to be actions that day. These

activities are allocated to teams from them to be completed.

220. A customer with a team managed claim is given a team number and calls are allocated to any team member available when a customer call comes through. In relation to the Queensland floods, teams of this kind were set up to manage lower value, less complex claims.

Client managed (CM) claims

221. A claim that is Client Managed means the claim is allocated to a particular Client Manager who becomes the customer's point of contact and retains the claim through to finalisation. The Client Manager is responsible for the outcome of the claim and the customer's experience. The customer is given a direct telephone number and email address for the Client Manager responsible for their claim.
222. If a customer telephones and their Client Manager is not available, the call diverts to another Client Manager in the team, who will respond to the customer's query if it is routine, or will take details and arrange for the allocated Client Manager to take the appropriate action.

Question 24: Are all telephone calls between policyholders and representatives of AAMI recorded? Were all telephone calls between policyholders and representatives of AAMI which took place in December 2010 and January 2011 recorded?

223. AAMI does not record telephone calls either at the time of lodgement or during the management of the claim. The only exception is if a claim has been referred to the investigation section because of possible irregularities. On these occasions, the customer is advised at the time the call is made, that the call is being recorded.

Question 25: How has AAMI responded to requests for copies of recordings or transcripts of telephone calls between policyholders and representatives of AAMI?

25.1 Have any copies of recordings/transcripts been provided to policyholders (or their legal representatives) in response to such requests? If so, in how many cases?

224. No copies of recordings/transcripts have been provided as no recordings have been made.

25.2 Have any such requests been refused or not responded to? If so:

25.2.1 In how many cases?

25.2.2 In the case of requests that have been refused —why have such requests been refused?

225. AAMI does not have any record of how many (if any) requests for copies of recordings or transcripts of recordings may have been received.
226. I am not aware of any request for a recording or transcript of a telephone call to AAMI which has not been responded to.

Question 26: In what circumstances were policyholders advised of their entitlement to

make a complaint or request a review of a decision through the internal dispute resolution process?

227. If a claim was lodged and AAMI made a decision to decline or partially decline the claim, AAMI advised the customer verbally by telephone. A letter was also sent which set out the reasons and basis for that decision. That letter set out the customer's rights under AAMI's internal dispute resolution (IDR) process.
228. If a claim was accepted and a dispute arose in the course of the claim as to a particular item being claimed, or the customer had a complaint of a customer service nature, the claims manager would verbally advise the customer of their right to escalate the dispute to the IDR process.

Question 27: Please outline each step, and by whom each step was or is taken, in the process which AAMI employed or has employed in responding to complaints and/or disputes in the internal dispute resolution process. Please also outline the information considered and relied upon in determining complaints/or disputes.

229. AAMI's dispute resolution process involves three steps, operational (frontline) level, the Internal Dispute Resolution (IDR) team and external review by the Financial Ombudsman Service (FOS).
230. At operational level, frontline staff members are required to refer unresolved complaints to a team leader or technical services officer who is required to review and attempt to resolve the complaint.
231. If unable to be resolved, the complaint must be elevated to the IDR team. The IDR team reviews complaints by customers for all Suncorp Group general insurance brands including AAMI Home, Contents, Landlords and Strata Title Landlords policy customers. It is independent of the AAMI claims team. Its decisions are binding on the claims team and cannot be challenged by AAMI.
232. The IDR team contacts the customer, considers all of the information on the AAMI file including expert and other reports, any written or verbal information provided by the policyholder, the terms of the policy of insurance, relevant legislation and insurance principles, previous determinations from the Financial Ombudsman Service (FOS), what is fair and reasonable in all the circumstances and good insurance practice.
233. If the IDR decision is to overturn the claims decision, the decision is binding on AAMI and the claim is referred back to the claims consultant for settlement.
234. If the IDR decision is to uphold the decline, a final decision letter is sent to the customer advising of the IDR decision and advising of the customer's right to a review by the FOS.
235. This is the process which was followed with any disputes in claims arising out of the Queensland floods.

Question 28: Were written responses given in response to all complaints/disputes?

236. Written responses (final decision letters) were provided by the IDR team to all unresolved complaints elevated for an IDR review.

Question 29: Were policyholders advised of all information upon which AAMI relied in determining their complaints/disputes? If so, was this advice given voluntarily or only if requested? If any piece of information was not provided or withheld for any period of time:

29.1 What was the nature of the information?

29.2 Why was it not provided?

237. As outlined above, if a claim was declined or partially declined, AAMI advised the customer in writing, setting out the reasons for the decline and either referring to or quoting relevant parts of any reports or other information relied on in making that decision. This information was provided voluntarily.
238. Similarly, if a claim was referred to IDR and the IDR team upheld the decline, a letter was sent to the customer setting out the reasons for that decision.
239. Save as set out in my response to Question 30, information was not withheld.

Question 30: Were policyholders given copies of all information relied upon in determining their complaints/disputes? If any information was not provided, or withheld for any period of time:

30.1 What was the nature of the information?

30.2 Why was it not provided?

240. Information relevant to the decision on the complaint or dispute was given to the customer as outlined in my response to Question 27. The only exception would be where investigations were being undertaken in relation to suspected fraudulent activity. In those cases, investigation reports and other documents may be withheld pending finalisation of the investigation, in accordance with the section 3.4.3 of the General Insurance Code of Practice.

Question 31: Please provide copies of all written responses by AAMI to all complaints and/or disputes (final decision letters). For each written response (final decision letter), please attach a "copy of the correspondence in which the substance of the complaint and/or dispute to which the response relates is set out.

241. Attached as Annexure 9 is a copy of all final decision letters by AAMI in relation to claims arising out of the Queensland floods.
242. Complaints and disputes arose for a range of reasons including:
- a. Customers who believed they were covered for flood whereas the policy did not cover flood.
 - b. Customers who believed their loss/damage was not caused by flood but by another type of event, eg rainwater runoff.
 - c. Customers who disputed the height of the water level determined by the hydrologist who assessed their home.
 - d. Customers who were dissatisfied with some aspect of claim management, such as disputing the amount offered for loss of particular contents items.

Question 32: Were policyholders kept informed of the progress of their complaint/dispute in accordance with the General Insurance Code of Practice? How did/does AAMI monitor whether the standard for providing information on progress of the dispute is adhered to?

243. As outlined above, AAMI obtained the agreement of the Financial Ombudsman to a timeframe regime for claims handling following the flood events. Code section 3.2.3

established a benchmark of advising customers of progress of their claim at least every 40 business days.

244. However, AAMI did not seek to extend the Code timeframes for IDR response.
245. I have made enquiries within the Suncorp Group and I am informed that policyholders were kept informed of the progress of complaint/disputes in accordance with the Code. The IDR team uses the Aequitas dispute recording system to register and track all IDR disputes. Once a dispute is registered dates for acknowledgement and finalisation of the review are set in accordance with Code requirements. The dispute is then allocated to a Dispute Resolution Officer (DRO).
246. The list of matters allocated to each DRO is monitored on a daily basis by the DROs and their team leaders to ensure tasks are completed in accordance with Code requirements. Any extension of time frames must be discussed with the customer and agreement reached as to an alternative timeframe and appropriate entries are made in the system. Daily monitoring is backed up by auditing of files to ensure DROs are complying with timeframes and quality requirements. Compliance with key result areas (KRA) is reported on a monthly basis and includes criteria to ensure Code compliance.

Question 33: Has AAMI received any complaint relating to inappropriate, insensitive or offensive conduct by a representative or agent of AAMI toward, or about, a policyholder?
If so:

33.1 How many such complaints have been received?

33.2 What did or does each complaint relate to?

33.3 What steps were or have been taken in respect of each complaint?

247. AAMI does not tolerate inappropriate, insensitive or offensive behaviour by any representative or agent toward or about a customer. If AAMI became aware of allegations of such behaviour, these would be fully investigated by management. If the allegations are proven, appropriate disciplinary action would be taken against staff members involved.
248. AAMI acknowledges that the Queensland flood events put extraordinary demands on staff and they were often dealing with emotional and stressed customers. AAMI recognised this and gave staff as much support as possible to ensure customers were treated with empathy, understanding and respect for their situation.
249. AAMI may have received some complaints of this kind, usually in combination with other complaints such as a complaint about settlement of a claim. AAMI does not have a separate record of any such complaint, as each dispute is classified according to the substantive complaint, for example, settlement amount. Therefore if a customer may have complained, for example, that AAMI had incorrectly rejected a claim for a damaged item and that the claims manager was rude when the customer questioned the rejection, the complaint would be classed as a complaint regarding the rejection of the claim for the damaged item.
250. Any complaints about the conduct of staff are elevated to a more senior member of staff in accordance with AAMI's human resources (HR) policies and its complaints handling process, and if the complaint involved a complaint about the claim itself (as well as behaviour), it would be reviewed by the IDR team. Contact would have been made with the customer investigate and review their concerns as part of this process.

Question 34: Has AAMI received any complaint, or dealt with any dispute, in the internal dispute resolution process, relating to:

- 34.1** Misrepresentation made by a representative of AAMI to a policyholder at the point of sale as to the existence or extent of flood cover under a policy bought by the policyholder; or
 - 34.2** Failure on the part of a representative of AAMI to adequately inform a policyholder that a policy bought by the policyholder excluded flood cover?
251. AAMI has dealt with disputes in its IDR process by customers asserting misrepresentation by a representative of AAMI to a customer at the point of sale as to the existence or extent of flood cover, and of failure by a representative of AAMI to adequately inform the customer that a policy bought by the customer excluded flood cover.

Question 35: If AAMI has received complaints, or dealt with any dispute, of the kinds referred to in sub-paragraphs 34.1 and 34.2:

- 35.1** How many of each kind has it received?
 - 35.2** Please outline the steps taken in investigating and responding to such complaints.
252. In response to this question, I have made enquiries within Suncorp's IDR service and I am advised that:
- a. AAMI has dealt with five IDR disputes by customers asserting misrepresentation by a representative of AAMI to a customer at the point of sale as to the existence or extent of flood cover.

These complaints were investigated by taking full details from the customer as to the conversations between the customer and the AAMI consultant, examining policy notations made at the time of policy inception to determine the nature and content of the conversation as noted by the sales consultant, interviewing and obtaining a statement from the sales consultant (where possible), and examining sales scripting applicable at the time of policy inception.
 - b. AAMI dealt with 39 IDR disputes by customers asserting failure by a representative of AAMI to adequately inform the customer that a policy bought by the customer excluded flood cover.

These complaints were investigated by considering AAMI's compliance with its obligations under the Insurance Contract Act, in particular checks to ensure that policy documents had been forwarded to the customer within 14 days of policy inception in accordance with section 69 of the Act. Policy notations were also examined to determine whether or not representations were made at the time of policy inception as to the existence or otherwise of flood cover. Sales scripting applicable at the time of policy inception were also considered.

Question 36: Is AAMI involved, or has AAMI been involved, in any matter with the Financial Ombudsman Service? If so:

- 36.1** How many?
 - 36.2** Please identify the cause(s) of the disputes.
253. As at 1 September 2011 AAMI had 50 matters for home and/or contents claims at FOS which required a Notice of Response to be completed.

254. The causes of these disputes were as follows:

Cause of dispute	Number of disputes
Insured believed they had flood cover	4
Cause of water damage	20
Contents claims	1
Initial intimation at time of claim lodgement that claim would be covered, when AAMI policy excluded cover	20
Jetty/pontoon (not covered by AAMI policy)	1
Loss of rent	1
TOTAL	50

Question 37: Please outline all steps involved in the process after a claim was or is accepted in order to get insured property repaired or restored or to otherwise settle the claim. What information or steps did or does AAMI require of policyholders in this process?

255. Once a claim has been accepted, AAMI's liability under the policy for insured property is ordinarily discharged in one of three ways:

- a. Repairing the damaged property (buildings and/or contents);
- b. Rebuilding the damaged property (buildings); or
- c. Paying the insured value of the damaged property (buildings and/or contents), known as 'cash settling'.

256. In broad terms, the typical steps in a AAMI home claim, following acceptance are:

- a. Assessment – the claim is passed to the assessing team who make decisions on what type of assessment is required on the claim (e.g. internal assessment, external assessment, repair assessment). The assessor can recommend a decline of individual items or the overall claim based on PDS, recommend and estimate repairs or, where applicable, assess an amount to be offered to cash settle the claim.
- b. Client Management – the client manager reviews the assessor report and decides if the claim decision should be changed and they will make this change on the system. The claim manager creates all jobs and assigns them to the Supplier or Repairer Coordination consultant. For major claims arising out of the flood events this involved referring claims to Lend Lease for project management. Following such referral, the claims manager continues to be the point of contact for the customer, to keep the claim under review as to the progress and to deal with other claim components not managed by the Project Manager such as arrangements for temporary accommodation for the customer during repairs.
- c. Supplier & Repairer Coordinators – Interact with the vendors regarding quotes, orders and completion of jobs. They approve vendor invoices and send a request

for payment to be made by the payments team.

- d. Recoveries & Settlements/Fraud & Investigations – claims are processed through these stages if required.

257. The settlement process depends on the nature of the claim (building or contents) and the amount of the claim.
258. The steps to complete small claims are outlined in my response to Question 6.
259. The steps to complete a typical large claim are set out in the process maps attached as Annexure 10. These process maps cover different regions of Queensland and, where common processes exist, cover more than one Suncorp Group brand. Please also refer to the answer to question 19, which includes examples of claim processing, both catastrophe and non-catastrophe claim types.
260. Where practicable or commercial feasible, AAMI will endeavour to accommodate a customer's requests, for example when a customer wishes to upgrade their building at the time of re-building.
261. The nature of the information requested from the customer differs according to the type of claim. Much of the information required is obtained during the property's assessment, or in the case of building damage, when a quote (or quotes) for repair are obtained. AAMI requires that customers make their property available for assessment and quoting. In the case of authorised building repairs, customers also may need to enter into a signed building contract with the authorised builder, and allow site access for the duration of the works. The commencement of the works, where practicable, can also be delayed where requested by the customer.
262. In contents claim, the customer may be asked for their preferred choice of settlement – for example individual replacement of goods or the issue of a stored value card for a mutually agreeable retailer, the latter providing the customer with the option to purchase different items of contents to the value of the settlement.
263. In certain situations AAMI may offer, or agree to, a cash settlement of a claim, for example in some contents claims, or with total loss claims.

Question 38: Has AAMI entered into any confidentiality agreement with any policyholder or otherwise required, advised or suggested to, any policyholder to keep matters concerning his or her claim confidential, whether before or after settlement of the claim? If so, please identify each matter which the policyholder was required to keep confidential.

264. To my knowledge, AAMI has not sought confidentiality agreements from any customer, and has not required, advised or suggested to any customer that matters concerning their claim are to be kept confidential.

Question 39: Has AAMI made any public statement, or commented in any public forum, about any individual policyholder (or an advocate for a policyholder)? If so, please provide copies of the statement or comments.

265. To AAMI's knowledge there have been two circumstances in which AAMI has made a public comment or a comment in a public forum regarding an individual customer. These were as follows:
- a. Customer Lynda Meulman of Emerald: Channel Seven's Today Tonight program featured an AAMI customer, [REDACTED] of Emerald, in a program in mid-January 2011. Channel Seven approached AAMI for comment ahead of airing

the program and AAMI provided a written statement to Channel Seven. A copy of that statement is attached as Annexure 11.

- b. Customer Mark Kempton of Yeronga: Channel Seven's Sunday Night program featured this customer in January 2011 and AAMI provided a verbal statement to the program which was of a general nature only.

266. So far as I am aware, AAMI has not made any public statement or commented in any public forum about any customer advocate.

Question 40: Is AAMI or has AAMI been the subject of any investigation by the Financial Ombudsman Service (other than disputes referred to in paragraph 35) or any other regulatory body about the manner in which AAMI has dealt with claims relating to the Queensland floods?

267. AAMI is not and has not been the subject of any investigation by FOS (other than disputes referred to in paragraph 35) or any other regulatory body about the manner in which AAMI has dealt with claims relating to the Queensland floods.

REFORMS

Question 41: Should any changes be made, to the General Insurance Code of Practice?

268. AAMI's position in relation to this issue is as follows.

269. The General Insurance Code of Practice (the Code) is a voluntary industry code of practice that has been developed by the general insurance industry in consultation with regulators. AAMI is a long-term Code signatory and adheres to the Code in relation to its general insurance operations. The Code is an effective self regulatory tool, and is far broader in its scope than its equivalents in New Zealand and the United Kingdom.

270. The general insurance industry is already revisiting the Code, following feedback from consumer advocates. The industry has been consulting (via an Insurance Council of Australia Working Group) with industry, consumer advocates and ASIC on the proposed changes. AAMI has contributed to those consultations. These changes are directed to ensuring that insurance companies encourage their customers to lodge claims if they contact the insurer about cover. This will solve a concern that a customer may not lodge a claim and therefore would not have access to a formal claim denial review process – which is regulated by various instruments.

271. Additionally the envisaged changes will introduce a timeframe for decision making on a claim - following feedback from various sources including government, consumers and consumer advocates. The proposed timeframe is some six months in total; four months to make a decision plus 45 days for any Internal Dispute Resolution (IDR) review (in circumstances where a decision has not been made and the consumer wishes to elevate the issue) .

272. It is understood that the Code will continue to include the present section 4.3 which allows a signatory insurer to not meet all Code standards during significant catastrophes or disasters. From a practical perspective AAMI believes that such a section is required, as the magnitude of any particular future catastrophe cannot be anticipated. However, it remains AAMI's practice that whenever a catastrophe occurs, AAMI will proactively consult on response time frames with the Code's regulator, the Financial Ombudsman Service, as occurred during these flood events.

273. AAMI supports the proposed changes to the claims handling section of the Code.

HOME BUILDING INSURANCE POLICY

Product Disclosure Statement

AAMI

Peace of mind with AAMI

Peace of mind with Complete Replacement Cover™ for your home building

AAMI home building insurance with Complete Replacement Cover gives you absolute peace of mind.

On top of the protection we normally provide, we cover insured damage or loss to your home buildings for whatever it costs to repair or rebuild them.

AAMI home building insurance with Complete Replacement Cover repairs or rebuilds insured damage or loss to your home buildings or pays the cost of repairing or rebuilding them:

with new materials,
to the same size and standard of your current home.

You will never be under insured with AAMI. See pages 17 - 19.

Peace of mind from guaranteed repair quality

The quality of workmanship and the materials used in any repair or rebuilding of your home and contents that we arrange and authorise will be guaranteed for the life of the property. See page 18.

Important information

Your AAMI Product Disclosure Statement The AAMI Home Building Insurance Policy

This Product Disclosure Statement provides information about the product we offer: the AAMI Home Building Insurance Policy. When we agree to insure your building, your policy comprises this booklet and your policy schedule which shows the detail of the policy particular to you. See page 40.

This Product Disclosure Statement was completed on 31 July 2006.

Our commitment to you

When you are an AAMI policyholder and you need to claim on your policy, our claims service will take away the stress and hassle. We are here to help you 24 hours a day, every day of the year.

If your home building has been damaged or someone is claiming against you, please phone us immediately on 13 22 44.

Please read this policy carefully and retain it so you can refer to it if required.

We rely on the accuracy of your information

When we agree to insure you, to renew or vary your policy, or to pay your claim, our decision relies on the accuracy of the information you give us. If that information is not accurate, we can reduce or deny any claim you may make or cancel your policy. We never want to have to do that, so you must answer honestly, correctly and completely the questions we ask about:

you,
your building,
any events involving your building that result in a claim on your AAMI policy.

When you receive your renewal notice, please carefully check the information it shows about you. If any of that information is incorrect or incomplete, please call us and we will update our records.

We also require you to:

observe the conditions contained in your AAMI policy,

pay or agree to pay us the premium we charge and any excesses that apply,

tell us if you renovate, improve or extend your building after the policy commences. If you don't do this, any payment we make for the repair or rebuilding of your building may be limited to the cost of replacing it before it was renovated, improved or extended.

Some words in this policy have definite meanings

This policy uses words that have definite meanings. To make sure you are aware of these words and their meanings, please read 'What do we mean by that' on pages 38 - 40.

This policy does not cover some events, circumstances and situations

As you read through this policy, you will see there are some events, circumstances and situations it does not cover. To make sure you are aware of these exclusions, please read the whole policy carefully including the section 'What we do not cover - general exclusions' beginning on page 14.

See also 'Important general information for you' on pages 33 - 37.

What we cover – the building

What do we cover as the building?	What is it covered against?	How much is it covered for?
The building is the dwelling and other structures at the site used for domestic or residential purposes. See below for what the building includes.	Damage or loss caused by the insured events listed on pages 8 - 13.	The cost of repairing or rebuilding it with new materials to the same size and standard as your current home.

This policy also covers 'other costs' (page 19), 'additional benefits' (page 20), and 'your legal liability' (page 24).

The building includes:

- outbuildings and permanent structural improvements, fixtures and fittings that:
 - are permanently attached to the home building or the site,
 - are stored at the site in a building capable of being locked while awaiting installation.
- that part of the building used for performing office work, services, whether above or below ground, that are your property or for which you are liable,
- any jetty at your site owned by you and used only for domestic purposes.

The building excludes:

- fixed wall and floor coverings such as carpets, internal blinds, drapes, and curtains,
- any part of the home building or the site used for conducting a business, trade, professional services, or farming of any description,
- any part of the building or other structures at the site that cannot be locked because that building or structure or part of it is being altered, renovated or rebuilt,
- a temporary building or structure or a building or structure in the course of construction,
- houseboats, watercraft, caravans, mobile buildings (fixed or free-standing), motorised vehicles of any type and the parts and accessories of any of these items,
- the loose surfaces of tennis courts, driveways and paths,
- hedges (whether or not they form a fence), lawns, trees, shrubs, plants, flowers, garden beds or any other living material.

What we cover – insured events

This section describes under the heading:

Yes – the insured events you **are** covered for,

No – the conditions and exclusions that specifically apply to particular insured events.

Yes

No

You are covered for damage or loss to your home building occurring during the period of cover and caused by the following events:

You are not covered for:

Animals and birds – the actions of animals and birds

Damage or loss caused by:

vermin, rodents, insects (including termites), domestic animals, animals and birds kept in your building or at the site, scratching, chewing, tearing or soiling the exterior of all buildings and the interior of partially enclosed buildings.

Earthquake including subsidence and landslide caused by an earthquake.

Damage or loss caused by tidal wave, tsunami, high tide or other actions of the sea.

Explosion

Fire (burning with flames).

Damage or loss caused by:

any process involving the application of heat where there was no flame, for example, cigarette burn marks or scorch marks are not covered, soot and smoke where your building or the site has not been damaged by fire **unless** there was an occurrence within your building where no flame resulted but soot and smoke damage was caused.

Yes

No

Impact - sudden and unexpected impact of any:

- motor vehicle, aircraft, watercraft or space debris,
- object falling from a motor vehicle or aircraft,
- falling tree or part of a tree,
- aerial, mast or satellite dish which breaks or collapses.

Liquid escaping suddenly and unexpectedly from a:

- water main, drain, fixed pipe, gutter, guttering, fixed tank or drain,
- sink, basin, bath, shower, toilet or spa bath,
- dishwasher or washing machine,
- fixed heating or cooling system,
- aquarium.

Damage or loss resulting from:

liquid escaping slowly over a period of time where you could reasonably be expected to be aware of this condition.

The cost of repairing or replacing the item from which the water or liquid escaped.

Malicious acts and vandalism – actual or attempted by persons who are not living with you.

Riot, civil commotion or labour disturbances

Damage or loss caused if you or anyone living with you participated in the event.

Yes

Storm and **rainwater** including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface.

Storm means violent wind (including a cyclone or tornado), thunderstorm or a heavy fall of rain, snow or hail.

No

Damage or loss caused by **flood. Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter, because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake, including any that may have been modified by human intervention, or reservoir, canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface.

The cost of cleaning or clearing debris from any pool or spa.

Damage or loss caused by water seeping into or otherwise entering your building due to:

a defect or fault in the design, structure or construction of your building where you could reasonably be expected to be aware of the defect or fault,

building alterations, renovations or additions.

Damage or loss caused by dust where your building has not been otherwise damaged by storm.

Theft – by persons who are not living with you.

Thunderbolt and lightning

What we do not cover – general exclusions

You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

an unreasonable failure to properly maintain or repair your building, wear and tear, rust, deterioration or corrosion, mechanical, structural, electrical, electronic or other failure or breakdown, other than as provided for under 'Damage to electric motors' on page 22, mould, wet or dry rot, rising damp or dampness, flood, storm surge, being an increase in sea level that usually occurs with a severe storm or cyclone, tidal wave, tsunami, high tide or other actions of the sea, erosion or washing away of soil, earth or gravel, the washing away or movement of the surface of any path or driveway which has a surface consisting of a loose material such as gravel, stone or dirt, soil movement or settlement, subsidence or landslide **unless** caused by the insured event of earthquake, the moving, shifting or dislodging of any swimming pool or spa and their covers and liners, or any septic tank or other inground structure **unless** caused by the insured events of earthquake or impact, the actions of trees, plants or their roots, actions of insects (including termites) or vermin,

scratching, chewing, tearing or soiling by animals and birds kept in your building or at the site, the lawful taking or repossession of or from your building or site, for example, a bank taking possession as a result of a mortgage default, fraud or fraudulent means or devices used by you or anyone acting on your behalf to obtain benefit under this policy, deliberate or intentional acts committed by you or someone acting on your behalf or any person living with you, war, wartime activities or revolution including any looting or pillaging, asbestos, asbestos fibres, or derivatives of asbestos in any form,

but we will pay for the costs of removing and disposing of asbestos from the building or site where it is directly necessary as a result of damage or loss caused by an insured event.

You are not covered under any section of the policy for damage, loss, cost or liability:

directly or indirectly caused by, arising from, or connected with: the use, misuse or existence of nuclear weapons; or the use, misuse, escape or existence of nuclear fuel, waste or nuclear materials or ionising radiation or contamination from such fuels, waste or materials; or combustion, detonation, fission and/or fusion of nuclear fuel or nuclear materials, directly or indirectly caused by, arising from, or connected with actual or threatened chemical or biological pollution or contamination; or action taken by a public authority or any body authorised by a public authority to prevent, limit or remedy such actual or threatened release, pollution or contamination.

Precautions that you need to take

Precautions

You must at all times, and at your expense, take all reasonable precautions:

- for the safety and protection of your building and the site,
- to prevent bodily injury or damage to property,
- to prevent damage to your building,
- to ensure compliance with all statutory obligations, by-laws or regulations imposed by any public authority, relating to the safety of persons or property.

If you do not, we may reduce or refuse to pay any claim you may make.

What we will pay – new for old

Repairing or rebuilding your building

If your home building is damaged during the period of cover by an insured event, we will decide if the damage:

- can be properly repaired, or
- is so severe that we reasonably believe your building will need to be rebuilt.

Repairing your building

When we establish that your home building can be properly repaired, we will decide to:

- repair it, or
- pay the cost of repairing it.

When we repair your building, we will use new materials.

We will make reasonable endeavours to match materials. Where this does not achieve an exact match, materials that in our opinion match the damaged or lost materials as near as reasonably practicable will be used. We will not pay to replace undamaged materials or any undamaged part of them to achieve a match.

Rebuilding your building

When we establish that your home building will need to be rebuilt, we will decide to:

- rebuild it to the same size and standard as your current building, or
- pay the cost of rebuilding it to the same size and standard as your current building.

When we rebuild your building, we will use new materials.

When we decide to rebuild your building and you are paying your premium in instalments, we will require you to pay the total unpaid balance of your premium before your claim can proceed.

Damage to fixed wall or floor coverings

When we repair or replace damage to fixed wall, ceiling or floor coverings:

we also repair or replace undamaged coverings if this is reasonably required to achieve a match with the repair or replacement of the damaged area,

the repair or replacement is limited to the room, passageway, stairwell or functional area where the damage occurred.

Fixed wall and floor coverings are items such as tiles, floating floors, fixed cupboards and shelving.

The AAMI Home Repair Guarantee

The quality of workmanship and the materials used in any repair or rebuilding of your home and contents that we arrange and authorise will be guaranteed for the life of the property.

If you are concerned about the quality of the repair or rebuilding of your home building, you must call us on 13 22 44. We will arrange with you to inspect the repair or rebuilding and we will arrange any necessary rectification work. You must not authorise any rectification work without our written authority.

Maintaining your building; compliance with statutory requirements

We insure your home on the condition that it has been and will continue to be properly maintained and repaired, and that it complies and will continue to comply with local government or other statutory requirements.

When you claim for damage or loss to your building, and your building: has not been properly maintained and repaired, or does not comply with local government or other statutory requirements, we may reduce our payment or refuse to pay your claim.

Other costs

We will also pay for the following where applicable.

Demolition and removal of debris

We will pay the reasonable cost of, and, at our option, arrange for the: demolition of your destroyed building, removal of debris from the site necessary for repairing or rebuilding, removal from the site of fallen and unsafe parts of a tree when the tree or part of it has impacted with your building causing damage or loss.

Making safe

We will pay the reasonable cost of, and, at our option, arrange for any temporary work required to make safe your damaged or destroyed building.

Professional fees

We will pay the reasonable fees for the services, if necessary, of an architect or surveyor.

Compliance costs

In repairing or rebuilding your building, we will pay the extra costs necessary to satisfy the current requirements of any local council or government authority.

What we cover – additional benefits

Additional benefits included within your policy:	Page
The cost of temporary accommodation	20
Accidental breakage	21
Cover when you are changing homes	21
Damage to electric motors	22
Locating water leaks	23
Replacing locks	23
Damage to garden beds, trees, shrubs and other plants	23

We help with...

The cost of temporary accommodation

When an insured event has caused damage or loss to your building, we will help with the cost of temporary accommodation for you and, where necessary, for your domestic pets, provided:

- we are satisfied your building is no longer habitable, and
- you were living permanently in it at the time, and
- you have claimed on this policy and we are satisfied everything is in order.

We will pay the reasonable cost incurred by you for comparable accommodation for up to 12 months while your building is being rebuilt or repaired.

Accidental breakage

We will either replace or pay the reasonable cost of replacing the following when they are accidentally broken:

any area of glass (including glass tint, if fitted) fixed to your building, glass (but not light globes) in a fixed light fitting in your building, fixed basins, sinks, baths, shower bases, lavatory pans or cisterns in your building.

We will also repair or replace or pay the cost of repairing or replacing the frame of any window, door or shower screen **but only** if this is necessary to enable the glass to be replaced.

We will not replace or pay for:

- any glass in a glasshouse or conservatory,
- any part of a fixed cooking or heating appliance (for example, the glass top of a stove),
- any area of glass or any item which is already damaged or in an imperfect condition.

Cover when you are changing homes

When you purchase another home, we will amend your policy to cover your new home **provided** you tell us about it and give us any associated information we require.

When you provide us with the details we require, we will tell you whether: your new home is one we would normally insure, there is any difference in the terms and conditions of your policy as it applies at your new address, and

there is any difference for the remainder of your period of cover in the premium payable for your former home and your new home.

If there is any difference in the premium, we will refund or charge you that difference.

Any refund we make will be less our reasonable charge for administrative and processing costs.

If we charge you and you do not pay the additional amount within 14 days of our notice, we may reduce the period of cover of your amended policy to match the amount you have already paid.

Cover for both your new and current homes – an additional premium is payable

When you have purchased a new home:

that we have agreed to cover,
and your current home is being sold,
but title for your current home has not been transferred to its purchaser, we will cover:

your new home, and
your current home until the transfer of title to its purchaser.
An additional premium is payable for this cover.

Damage to electric motors

We will pay the full cost of damage caused by electric current to an electric motor if the motor is less than ten years old, when the motor is in a piece of fixed domestic equipment forming part of your building.

We will not pay if the damage to the motor or the equipment is covered by a new product guarantee or warranty.

Locating water leaks

We will pay the reasonable cost of locating the source of water or liquid leaking or discharging from pipes and fixtures and fittings at your building.

We will not pay the cost of repairing or replacing the pipe, fixture or fitting which caused the leak or discharge

The most we will pay is shown on the most recent of your policy schedule and renewal notice.

Replacing locks

When the key to the lock of any window or external door of your building is stolen, we will pay the reasonable cost of replacing or rekeying the locks operated by that key.

Damage to garden beds, trees, shrubs and other plants

We will help pay for damage or loss to trees, shrubs, plants, hedges or garden beds on your site caused by fire or the impact of vehicles (not driven by you or by any person living at your home).

The most we will pay is shown on the most recent of your policy schedule and renewal notice.

What we cover – your \$10 million legal liability cover

When we will pay

We will cover your legal liability arising from accidents that happen at the site.

We will cover you against your legal liability for all claims arising from an accident or a series of accidents arising from any one occurrence during the period of cover, causing:

bodily injury or death to a person, other than you or a member of your family or any person living at your building or the site, or
damage to or loss of property, other than property which you or your family or any person living at your building or the site own or for which you or they are legally liable.

Where your home is a lot or unit which is part of a strata-titled development, and:

there is no other lot or unit above or below your lot or unit,
you do not have any other liability insurance for your lot or unit, and
we have agreed to provide building insurance for your lot or unit,
we will also cover your legal liability arising from accidents that happen on the common property that is shown on the plan and is used for domestic or residential purposes.

Our payment will not exceed \$10 million in total (including all legal and defence costs and GST).

When we will not pay

We do not provide cover for your legal liability arising from or involving:

any of the causes listed under 'What we do not cover' on pages 14 - 15,
your occupancy or ownership of any residence, building or land other than your home building and the site,

a legal liability which arises only because you have agreed to take that liability upon yourself,

a liability which arises only because you have admitted liability, an event that you have organised or are legally responsible for, **except** where the event takes place within the site,

things done intentionally or left undone intentionally by you, or any person acting on your behalf, with reckless disregard for the consequences, lifts, cars, motorbikes, minibikes, vehicles, watercraft (including sail boats) or aircraft (including gliders),

Vehicles **do not** include bicycles, motorised wheelchairs, golf carts or garden appliances which do not have to be registered, an animal other than a domestic dog or cat,

vibration, or the removal of, or interference with the support of land, buildings or other property,

alterations, additions, repairs, rebuilding or redecorations of your building or the site where the total value of the works exceeds \$20,000, the transmission of any disease, contaminated body fluid or body product,

the consumption of alcohol or drugs, if your consumption of them caused or contributed to the accident,

employees or workers who are covered or should have been covered by Workers' Compensation or similar legislation and who, at the time of the accident, were employed by you or any person living at your home, the use of any part of your building or the site for business, trade, professional services, farming of any type, **but not:**

that part of the building used for performing office work,

any business, trade, profession or occupation conducted or operated or undertaken:

- by you or on your behalf,
- by or on behalf of any person living at your home,
- by or on behalf of any company, trust or other legal entity in which you or any person living at your home has an interest (legal, beneficial or otherwise),

civil or criminal penalties or fines or aggravated, exemplary, punitive or multiple damages however described.

What to do if you need to claim on your AAMI policy

If your insured property has been damaged or lost or someone is claiming against you, please phone us immediately. We may require you to report the matter to the police.

You can call AAMI at any time on 13 22 44.

Our claims service will take away the stress and hassle by taking care of everything for you.

Helping us to pay your claim

When you can provide us with information such as documents, booklets and photographs showing and/or valuing your building, you help us make speedy and accurate decisions regarding your claim and the repair or the rebuilding of your building. This information helps establish ownership of property and its value and condition.

This information includes:

receipts, bank and credit card statements, agreements and reports, valuations and photographs (photographs do not have to be specifically of your building; it may be easily identifiable in photos taken, for example, of personal events).

We may require this type of information. If you are unable to provide information of this type, that establishes ownership and value of the property in question and the value of your claim, then we may reduce or refuse to pay your claim.

What happens when you claim on your AAMI policy

When you tell us about the damage or loss to your building, where necessary and as soon as possible, we arrange:

- for our assessor to meet with you, inspect your building and confirm the full details of the damage or loss,
- temporary repairs to and the securing of your building,
- temporary accommodation for you and your family. See page 20.

We discuss with you what is necessary to make good the damage or loss and then we will decide either to repair or rebuild your building or pay the cost of repairing or rebuilding your building to the same size and standard as your current building.

Repairing or rebuilding your building

We ordinarily obtain independent, competitive quotes from repairers and suppliers recommended by AAMI. If you want, you can choose a repairer and/or supplier to provide one of the quotes. We review the quotes, including any quote from a repairer and/or supplier you choose, and what is necessary to properly repair or rebuild your building. We choose the repairer and/or supplier who submitted the more competitive and complete quote and that will be the repairer and/or supplier who repairs or rebuilds your building.

We will enter into any building contract with the selected repairer and/or supplier on your behalf. We will oversee the repairs and keep you informed of their progress.

Changes to your building

You can have changes made to the design and structure of your building before repair or rebuilding. Any extra cost of such changes will be your responsibility.

We may decide to pay you the cost of repairing or rebuilding your building without the changes you require.

What happens to your policy when you claim?

When we establish that...	What happens to your policy
the damage or loss can be repaired, we decide either to...	Your policy continues for the remainder of the period of cover.
or pay the cost of repairing your building.	Your policy continues for the remainder of the period of cover.
the damage or loss can't be repaired and your building has to be rebuilt, we decide either to...	Your policy continues for the remainder of the period of cover.
or pay the cost of rebuilding your building.	Your policy, including the legal liability cover it provides, comes to an end. We also pay, where relevant, any outstanding additional benefits. Because our payment meets all our obligations to you in full, there is no refund of any portion of the premium.

When you claim on your policy, your responsibilities include

Preventing further damage or loss

Following an event that is likely to result in a claim, you must take all reasonable precautions to prevent any further damage, loss, cost or liability.

Allowing us access

You must provide us with access to your building and the site to inspect damage or loss, arrange quotations, repair or rebuilding, and undertake progress inspections if required.

Obtaining our written authority for the repair of your building

You must not authorise the repair of your building, apart from emergency repairs, without our written permission.

Obtaining our written consent

You must not make any admissions or settle any claims without our prior written consent.

Giving assistance – information, notices, negotiating, defending and settling claims

You must give us the information and assistance we reasonably request in evaluating the cause, extent and value of any claim. This may include:

- providing us with full details of the claim in writing,
- providing valuations, receipts or other evidence of ownership,
- providing written statements,
- undergoing an interview or interviews about the circumstances of the claim,
- appearing in court and giving evidence.

You must promptly deliver to us any relevant letters and notices that come into your possession.

We shall be entitled, but not obliged to defend or represent you in any legal proceedings relating to an accident or event which may give rise to a claim against us and to control, settle and deal with those proceedings as we see fit.

We will pay the legal and other reasonable related costs of defending any claim made against you, provided we appoint the solicitors who will defend the claim and we have told you in writing that we will pay their costs.

You must assist us in all our endeavours to negotiate, defend or settle any claim made under this policy and to exercise for our benefit your legal right of recovery against any other party (including a party involved in making good any damage or loss).

If you fail to assist us, or do not abide by any of these terms, we may reduce or refuse to pay your claim.

Excesses

Excesses

An excess on your policy is the amount that you must first contribute towards each claim. If your claim is for more than one occurrence, the excess applicable to each occurrence will be payable.

The excesses that apply to your policy will be shown on the most recent of your insurance schedule and your renewal notice. When you make a claim we may require you to pay the excess or we may deduct the excess from any payment we make. We will tell you when and how the excess is to be paid or deducted.

When an unoccupied excess is payable, it will be additional to any other excesses that apply to your claim.

Unoccupied excess

Your home building is at greater risk of damage or loss when it is unoccupied for a lengthy period.

Because of this extra risk, if you claim for damage or loss to your building:

which occurs after your home building has not been occupied for 60 continuous days, an additional compulsory excess is payable.

What happens when your building and contents are insured with AAMI

When your building and contents are insured with AAMI and the event leading to your claim is for damage or loss to both, whichever is the higher of your total building and your total contents excesses, including any Flexi-Premium excesses, will be payable.

AAMI Flexi-Premiums™

With AAMI Flexi-Premiums™, the higher the excess you choose, the bigger the discount on your premium. Please call 13 22 44 for full details.

Important general information for you

You can contact us:

By phone: Call 13 22 44 (24 hours a day every day of the year).

Via the internet: aami.com.au

By mail: PO Box 14180, Melbourne City Mail Centre, Victoria 8001.

In person: Call 13 22 44 for the address of the closest AAMI branch or customer service centre.

When we quote you a premium

When we quote you a premium for AAMI home insurance, the factors we take into account include:

the current cost of rebuilding your home building including the associated costs we cover, such as demolition and removal of debris, making safe, professional fees, extra costs to satisfy current council or government requirements, and temporary accommodation, our experience of the incidence and cost of building claims, the value of the benefits we include in your cover, your insurance history, the insured address (the address where your building is located), the cost of providing legal liability cover, our costs of providing and administering this policy, whether you pay your premium in instalments, any discounts that apply because of your particular circumstances.

Government taxes and charges are included in the premium we quote.

Excesses may be payable on any claim you make on this policy. See page 32 for further details.

Paying your premium

You can pay your premium annually by cheque, credit card, BPAY, online through AAMI e-PAY, or in cash at AAMI Branches or Australia Post Offices. Further details are provided on the payment notice we issue at the commencement and each renewal of your policy.

Paying by instalments

You may also be eligible to pay in regular instalments by direct debit.

When you pay this way, the total premium is higher than we charge for one annual payment, reflecting the higher costs we experience. Any premium discounts we may provide are applied before these additional costs are calculated.

Your responsibilities when paying by instalments

When paying by instalments:

- you must be an authorised signatory on the account nominated for your direct debit payments,
- you must ensure that your nominated account can accept direct debits and has sufficient funds to meet each payment at each due date,
- your financial institution may also apply its own fees (including dishonour fees). Those fees are your responsibility.

What happens if your instalment remains unpaid?

AAMI may cancel your policy without notice if an instalment payment remains unpaid for one month or more.

Any claims arising after the due date may be refused.

Changing your instalment payments

If you wish to change or cancel your direct debit arrangements, you need to contact us at least seven days before the debit day.

If you cancel the debit completely, you will need to arrange for another way to pay us your premium, to ensure you remain covered.

Important things to remember when paying by instalments

When you first commence your direct debit payments, or when you change your account details, it may take up to 14 days for us to first debit your account.

If you believe that we may have incorrectly debited your account, please contact us on 13 22 44.

When you claim on your policy and we decide that the damage or loss to your building is so severe that it will need to be rebuilt, we will require you to pay the total unpaid balance of your premium before your claim can proceed.

Government taxes and charges

AAMI shows on receipts any government taxes and charges such as GST, Stamp Duty and Fire Services Levy allocation included in insurance premiums.

GST

Any amounts we pay under this policy include GST.

Renewing your policy

When we offer to renew your policy:

- we will send you a notice before the policy expiry date,
- we will tell you in writing if there are any changes to the policy. Changes that benefit you apply from their introduction. Changes introducing limitations apply from the policy's renewal,
- we may require an additional premium if you make a claim in the short period between the time we calculated the renewal premium and the expiry of your policy. If the additional premium is not paid, we may reduce the period of cover to match the reduced amount paid.

Cooling off period and cancellation

Federal law provides that you can cancel this policy within 14 days of its purchase. AAMI allows you to cancel your policy at any time.

In both cases, we will refund you the unexpired portion of the premium less any cancellation processing charge to cover the reasonable administrative and transactions costs incurred by AAMI.

To cancel your policy, please call us on 13 22 44.

We can only cancel your policy by giving you written notice in accordance with the Insurance Contracts Act 1984.

Joint policyholders

When you insure your home in the names of more than one person, each person is a joint policyholder and is able to make changes that we agree with to the policy.

Cover for landlords

We provide a separate policy for landlords who rent their property for domestic residential purposes. Please ask us about the AAMI Landlord Policy.

The privacy of your personal information

We are committed to protecting the privacy of your personal information. That commitment is reflected in the AAMI Customer Charter and in our compliance with the National Privacy Principles. For further information, please visit our website www.aami.com.au or call us on 13 22 44 for a copy of our 'AAMI and Your Personal Information' brochure.

AAMI's Customer Charter

We are committed to always provide you with the highest standard of service. The AAMI Customer Charter is a written document containing service and reporting promises which we are bound to deliver. In fact, we impose a penalty on ourselves if we fail to do so.

This unique Charter was drawn up through consultation with our staff, our customers and industry regulators, and is reviewed annually. Compliance with our promises is independently audited every year and the results are reported publicly.

The AAMI Customer Charter, introduced in 1996 was Australia's first general insurance customer charter, and indeed, first retail customer charter. The Charter is your guarantee that we're always striving to deliver the best in customer service.

The AAMI Consumer Appeals Service

If you are unhappy with anything we have told you or done for you, we want you to tell us about it. If we cannot resolve the matter to your satisfaction, other appeal services are available to you. See page 41 for full details.

The General Insurance Code of Practice

AAMI is a signatory to the General Insurance Code of Practice which sets out a commitment by the general insurance industry to raise standards of service and to promote better relations between customers and insurers.

The Code describes standards in areas such as buying insurance, claims handling, responding to catastrophes and disasters, information and education and dispute resolution. Introduced in 1995 with the backing of consumer groups, the federal government, insurers and the Insurance Council of Australia, it was revised in 2005.

More information on the Code, or a copy of the Code, can be obtained from the Financial Ombudsman Service (FOS). You can contact the FOS on 1300 780 808, toll free, or you can access the Code at www.codeofpractice.com.au

What do we mean by that?

AAMI, we, us, and our mean Australian Associated Motor Insurers Limited (ABN 92 004 791 744).

Accident means an accident or a series of accidents resulting from any one occurrence.

Building means the building(s) covered under this policy. See pages 6 - 7 for the buildings that **are** covered and **are not** covered under this policy.

Cover and covers mean the protection provided by your policy.

Damage and loss.

Damage means actual physical damage to your building.

Loss or lost means your building or a part of your building being damaged beyond economical repair.

Endorsement means a special condition that applies to your policy. Any endorsements to your policy are shown on your insurance schedule.

Excess. An excess on your policy is the amount that you must first contribute towards a claim.

Fire means burning with flames.

Fixtures and fittings means items used for domestic and residential purposes, and which are permanently attached to your home building or the site.

Flood means the inundation or covering of normally dry land by water which: escapes or overflows from, or cannot enter (because it is full or has overflowed), or is prevented from entering (because other water has already escaped or been released from it),

the normal confines of any watercourse or lake, including any that may have been modified by human intervention, or reservoir, canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site or water escaping from any water main, pipe, street gutter, guttering or surface.

Home means the buildings described in 'What we cover - the building'. See page 6.

Home does not mean your home contents.

Insured address means the address at which your home is located.

Insured event. The occurrences we have listed on pages 8 - 13 which cause damage and loss to your building.

Living with you. Any person normally living or staying in your building or at the site.

Lot and Unit mean an area which is used for domestic or residential purposes that is shown on the plan for the Strata Titles Act or similar legislation applying where the lot or unit is located.

Plan means the plan of subdivision describing the area of land at the insured address created under the Strata Titles Act, Subdivision Act or similar legislation applying where the lot is located.

Occupied means you are living or staying in your home or another person is with your consent.

Period of cover means the current period for which we have agreed to provide you with insurance cover. The current period is shown on the most recent of your insurance schedule and renewal notice and any receipt we may send to you.

Policy means this booklet and your policy schedule.

Your **policy schedule** comprises the notices we give you which show the particular details and the current status of your policy. These notices are the most recent of your **insurance schedule** and **renewal notice**, and any **receipt** we may send you.

Your **insurance schedule** sets out the information you have given us on which we have based our decision to insure you as well as the individual details of your policy. We will send you an updated insurance schedule whenever you advise us of a change in this information or these details.

Site means those parts of the land at the insured address which are used for domestic or residential purposes **but not** 'common property' which is land or areas that people as well as those living with you are entitled to use, for example common property in a multi-dwelling development.

Storm means violent wind (including a cyclone or tornado), thunderstorm or a heavy fall of rain, snow or hail.

Theft means actual or attempted theft and burglary.

You and **your** mean the person or persons named as the insured on the most recent of your insurance schedule and renewal notice and members of your family.

Your family means the following people who normally live with you:

your spouse or partner,
your children, parents, grandparents, grandchildren, brothers and sisters,
the children, parents, grandparents, grandchildren, brothers and sisters of
your spouse or partner.

The AAMI Consumer Appeals Service

What to do if you are not satisfied with us

Here is how the AAMI Consumer Appeals Service helps you if you are dissatisfied with the results of your dealings with AAMI.

1. Who do you talk to?

If you are unhappy with anything:

we have told you or done for you, or
that has been provided on our behalf,

please tell us. You can phone us on 13 22 44 or call in to an AAMI branch.
Most times we will be able to sort the matter out to your satisfaction.

2. The AAMI Customer Ombudsman

However, if you are not satisfied with our response, you can ring, write to or email the AAMI Customer Ombudsman with the details. The AAMI Customer Ombudsman will respond to you within five working days of receiving your letter or email.

3. Appealing to the independent dispute resolution scheme

If you disagree with the AAMI Customer Ombudsman's decision, you can appeal to the Financial Ombudsman Service. We will help you do this.

The Financial Ombudsman Service is an independent industry dispute resolution scheme. You can contact the service on 1300 780 808 toll free or by email to info@fos.org.au. You can also visit the FOS website at www.fos.org.au. There is no charge for this service.

4. Are any decisions binding on you?

You do not have to accept any decision AAMI or the FOS makes. You always have the option of seeking remedies elsewhere.

Any decision the AAMI Customer Ombudsman makes or the FOS makes is binding on AAMI, provided you also accept the decision.

How to contact AAMI

Telephone: 13 22 44 (24 hours a day, seven days a week).

How to contact AAMI Consumer Appeals

Telephone: 1300 130 794 (local call costs apply).

9am to 5pm EST Monday to Friday.

Fax: (03) 9529 1214.

Write to: The AAMI Customer Ombudsman, AAMI Limited,

PO Box 14180, Melbourne City Mail Centre, Victoria 8001.

Important information

Your AAMI Product Disclosure Statement The AAMI Home Contents Insurance Policy

This Product Disclosure Statement provides information about the product we offer: the AAMI Home Contents Insurance Policy. When we agree to insure your contents, your policy comprises this booklet and your policy schedule which shows the detail of the policy particular to you. See page 51.

This Product Disclosure Statement was completed on 30 April 2007.

Our commitment to you

When you are an AAMI policyholder and you need to claim on your policy, our claims service will take away the stress and hassle. We are here to help you 24 hours a day, every day of the year.

If your contents have been damaged or stolen or someone is claiming against you, please phone us immediately on 13 22 44.

Please read this policy carefully and retain it so you can refer to it if required.

We rely on the accuracy of your information

When we agree to insure you, to renew or vary your policy, or to pay your claim, our decision relies on the accuracy of the information you give us. If that information is not accurate, we can reduce or deny any claim you may make or cancel your policy. We never want to have to do that, so you must answer honestly, correctly and completely the questions we ask about:

you,
your contents,
any events that result in a claim on your AAMI policy.

When you receive your renewal notice, please carefully check the information it shows about you. If any of that information is incorrect or incomplete, please call us and we will update our records.

What we cover - the contents

We also require you to ...

observe the conditions contained in your AAMI policy;
pay or agree to pay us the premium we charge and any excesses that apply.

Some words in this policy have definite meanings

This policy uses words that have definite meanings. To make sure you are aware of these words and their meanings, please read 'What do we mean by that?' on pages 48 - 52.

This policy does not cover some events, circumstances and situations

As you read through this policy, you will see there are some events, circumstances and situations it does not cover. To make sure you are aware of these exclusions, please read the whole policy carefully including the section 'What we do not cover - general exclusions' beginning on page 22.

See also 'Important general information for you' on pages 42 - 47.

The contents we cover

The contents we cover are items primarily used for domestic or residential purposes, and which are:

- ordinarily kept at the site,
- not permanently attached to your home, and
- owned by you and your family or for which you are legally liable.

These are 'general contents' and 'contents with limited cover', as described on pages 8 - 12.

'Contents with limited cover' are items where we limit the amount we will pay for damage or loss. Items that are more valuable than the limits we apply may be able to be insured for their higher values. See pages 8 - 11.

Extra Cover at and away from your home is available for valuable, portable contents items such as clothing and jewellery. See pages 12 - 15.

When you are the tenant of a **freehold** property, your contents include any fixtures and fittings you are responsible for under the rental agreement and/or you own.

When you are the tenant or the owner-occupier of a **strata-titled** property, your contents include any fixtures and fittings you are responsible for under the rental agreement and/or you own and that are not insurable by the body corporate for the strata-titled development at your insured address.

Contents we do not cover

The contents we do not cover include:

- hedges (whether or not they form a fence), lawns, trees, shrubs, indoor and outdoor plants, flowers, garden beds or any other living material,

houseboats, watercraft (**other than** surfboards, sailboards, surf skis, canoes and kayaks), aircraft, caravans, trailers, mobile homes (fixed or free-standing), motor vehicles, motorcycles, minibikes, go-karts, golf carts, motorised vehicles of any other type (**other than** motorised wheelchairs) or the spare parts or accessories of any of these items, fish, birds, pets or animals of any type, stock in trade or samples, business or trade cash takings or business assets, plant or equipment for any type of business including any type of farming (other than 'home business equipment' and 'tools of trade and professional equipment' – see page 10),

unset precious and semi-precious stones, unlicensed or unregistered firearms and firearms stored illegally at your home.

Where and how your contents are covered

Which contents?	Where are they insured?	What are they covered against?
General contents - see page 8.	At your home and at the site.	Damage or loss caused by the insured events listed on pages 16 - 21.
Contents with limited cover – see pages 8 - 12. When you have items in this class that are more valuable than the limits we apply, you may be able to insure them for their higher values as specified contents. An additional premium may be payable.	At your home and at the site.	Damage or loss caused by the insured events listed on pages 16 - 21.
Extra Cover for portable valuables – see pages 12 - 15. An additional premium is payable. When you have items in this class that are more valuable than the limits we apply, you may be able to insure them for their higher values as Extra Cover specified items. An additional premium is payable.	Anywhere in Australia and for the first 30 days when you are overseas.	Accidental damage or loss – see page 13.

General contents

General contents are items such as furniture and furnishings; fixed wall and floor coverings such as carpets, curtains and internal blinds; household linen and bedding; clothing; kitchen utensils; electrical and electronic equipment and appliances not permanently attached to any building or the site; outdoor garden furniture and equipment; sporting equipment.

General contents **do not** include 'contents with limited cover'. These are contents items where we limit the 'per item' and 'in total' amounts we will pay for damage or loss. See below.

Contents with limited cover

Contents with limited cover items are those where we limit what we will pay for any one claim. Increased cover may be available for items more valuable than the limits we apply. See 'Increased cover may be available for valuable items' on page 11.

Contents with limited cover – groups and items	Amount covered	
	Limited cover unspecified items	Limited cover specified items
Cash, vouchers, certificates etc. Cash, money orders, gift vouchers, tickets, stamps (not in a set or collection), manuscripts, certificates of title, licences, registration papers, negotiable instruments or documents of any kind.	Up to \$200 in total.	Not available.

Contents with limited cover – groups and items	Limited cover	
	unspecified items	Limited cover specified items
Valuables, antiques, artwork, collections Jewellery, watches, other items containing precious metals and gemstones, bullion. Antiques (other than antique furniture). Paintings, prints, pictures, tapestry, figurines, sculptures, curios, decorative items made of china, porcelain, crystal or like material. Pair, set or collection of any kind (for example, bullion, cards, coins, crockery, cutlery, earrings, medals, stamps etc.).	\$5,000 in total; \$1,000 for each item; \$1,000 in total for each pair, set or collection.	Up to each specified item's insured value. Additional cover is available for jewellery and watches by insuring them under Extra Cover. See page 12.
CDs, DVDs and electronic files CDs, DVDs and electronic files such as software, music, and moving images, the purchase of which included a licence for use in that format.	\$1,000 in total including those which form part of a set or collection.	Up to each specified item's insured value.
Computer equipment Computers, printers and associated accessories.	\$7,500 in total.	Up to each specified item's insured value.

Contents with limited cover – groups and items	Limited cover unspecified items	Limited cover specified items
Home business equipment Business furniture, electrical and electronic equipment ordinarily located in your home and used for office work.	\$10,000 in total.	Not available.
Personal medical equipment and aids Wheelchairs, artificial body parts, medical equipment, aids and accessories.	\$3,000 in total.	Up to each specified item's insured value.
Tools of trade and professional equipment Tools of trade and professional equipment used to earn any income (whether or not used in your current or former occupation or profession).	\$2,000 in total.	Not available.
Contents temporarily removed from your home Contents temporarily removed from your home but within a building within Australia in which you are temporarily residing are covered for damage or loss caused by an insured event.	25% of the contents amounts covered.	Not available.

Damage or loss to a 'contents with limited cover' item which we agree falls into more than one of the groups shown above can be claimed only against the group with the higher amount covered.

We do not pay for:

- the cost of installing, replacing, recreating or rewriting software, records, working files, entertainment files or any other information on your computer or held elsewhere at your home other than the current purchase cost of proprietary CDs, DVDs and electronic files as provided for above under 'contents with limited cover'. See also 'Replacing CDs and DVDs' on page 26.
- the cost of replacing, rewriting or recreating any information, records, manuscripts, plans, paper writings or any work that you had done in connection with your business or occupation,
- damage or loss to home business and professional equipment while it is away from the site or which is not owned by you or for which you are not legally liable.

Increased cover may be available for more valuable items

When you have contents items in the above groups with replacement values higher than the limits we apply, you can tell us about them, and we may agree to insure them for their higher values as 'limited cover specified items' provided:

- they are items and values we cover, and
 - you pay us any additional premium we may charge.
- When we agree to insure them, your limited cover specified items will be shown together with their individual insured value on the most recent of your insurance schedule and renewal notice.
- Damage or loss to a limited cover specified item can be claimed only against its specified item insured value **unless** we have agreed to also insure

it under Extra Cover (see below).

Any payment we make for specified items will be included in the contents amount covered.

Extra Cover for portable valuables

We offer Extra Cover for the portable items listed below.

	Extra Cover unspecified items	Extra Cover specified items
Clothing	Up to \$1,000 for each item, set or collection.	When you tell us about the items you want to specify and their value, and we agree in writing to cover them, we will pay up to the individual item's insured value.
Equipment for babies and young children	Up to an overall limit between \$1,000 and \$5,000.	
Baby capsules, prams, children's car seats		
Personal accessories		
Watches, jewellery, spectacles, sunglasses, binoculars, telescopes, opera glasses, toiletries		
Handbags, purses, wallets, briefcases, travel bags, suitcases, but not their contents	You choose the overall limit.	
Personal vision and sound equipment		
Portable still and motion cameras and photographic equipment, electronic music and diary systems but not any of these that are capable of being used as a telephone		
Sporting equipment and musical instruments		

When you pay us the additional premium we charge, Extra Cover insures these items:

for accidental damage or loss not already covered by this policy, when they are at and away from your home within Australia, and overseas for the first 30 days on each occasion you leave Australia.

Extra Cover insures your items collectively in the groups shown above as unspecified items. You can also insure more valuable items individually as Extra Cover specified items.

Insuring your items collectively – Extra Cover unspecified items

When you insure your items under Extra Cover, the per item and overall limits, shown above, are the most we will pay if they are damaged or lost. You can choose the overall limit from the options we offer.

The most recent of your insurance schedule and renewal notice will show the overall limit you have chosen.

Insuring your items individually – Extra Cover specified items

When you have more valuable items, you can insure them for their higher values as Extra Cover specified items provided:

they are items and values we cover,
we agree in writing to cover them, and
you pay us the additional premium we charge.

When we agree to insure them, your Extra Cover specified items will be shown together with their individual insured value on the most recent of your insurance schedule and renewal notice.

Extra Cover claims

When your claim for damage or loss to any of the items you have insured under Extra Cover:

your claim will proceed first against any other cover this policy may provide,
if no cover is provided, or the cover provided is limited to an amount less than the value of your claim, your claim will also proceed against Extra Cover.

Where your claim proceeds against other cover and Extra Cover, our total payment will not exceed the replacement value of your lost or damaged items.

Any payment we make for Extra Cover claims will be included in the contents amount covered.

The Extra Cover excess shown on the most recent of your insurance schedule and renewal notice is only payable when your claim proceeds solely against your Extra Cover.

We **do not** pay for damage or loss to Extra Cover items when they belong to or are in the custody of anyone who is engaged in professional entertainment.

What we cover – insured events

This section describes under the heading:

Yes – the insured events you **are** covered for,

No – the conditions and exclusions that specifically apply to particular insured events.

Yes

No

You are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover, caused by the following events:

You are not covered for:

Animals and birds - the actions of animals and birds

Damage or loss caused by:

vermin, rodents or insects (including termites), domestic animals, animals and birds kept by you in your building or at the site, scratching, chewing, tearing or soiling contents in the open air and within partially enclosed buildings at the site.

Earthquake including subsidence and landslide caused by an earthquake.

Damage or loss caused by tidal wave, tsunami, high tide or other actions of the sea.

Explosion

Fire (burning with flames).

Damage or loss caused by:

any process involving the application of heat where there was no flame, for example, cigarette burn marks or scorch marks are not covered,

soot and smoke where your building or the site has not been damaged by fire **unless** there was an occurrence within your building where no flame resulted but soot and smoke damage was caused.

Yes		No	
Impact - sudden and unexpected impact of any: motor vehicle, aircraft, watercraft or space debris, object falling from a motor vehicle or aircraft, falling tree or part of a tree, aerial, mast or satellite dish which breaks or collapses.			
Liquid escaping suddenly and unexpectedly from a: water main, drain, fixed pipe, gutter, guttering, fixed tank or drain, sink, basin, bath, shower, toilet or spa bath, dishwasher or washing machine, fixed heating or cooling system, aquarium.		Damage or loss resulting from: liquid escaping slowly over a period of time where you could reasonably be expected to be aware of this condition. The cost of repairing or replacing the item from which the water or liquid escaped.	
Malicious acts and vandalism – actual or attempted by persons who are not living with you.			
Riot, civil commotion or labour disturbances		Damage or loss caused if you or anyone living with you participated in the event.	
Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface. Storm means violent wind (including a cyclone or tornado), thunderstorm or a heavy fall of rain, snow or hail.		Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which: escapes or overflows from, or cannot enter, because it is full or has overflowed, or is prevented from entering, because other water has already escaped or been released from it, the normal confines of any watercourse or lake, including any that may have been modified by human intervention, or reservoir, canal, dam or stormwater channel.	

Yes

No

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface.

The cost of cleaning or clearing debris from any pool or spa.

Damage or loss caused by water seeping into or otherwise entering your building due to:

- a defect or fault in the design, structure or construction of your building where you could reasonably be expected to be aware of the defect or fault,
- building alterations, renovations or additions.

Damage or loss caused by dust where your building has not been otherwise damaged by storm.

Damage or loss to a value of more than \$1,000 per event caused by theft of contents which were in:

- the open air at the site,
- within motorised vehicles, caravans, campervans and camper trailers at the site,
- any buildings or outbuildings that were not fitted with working locks, or partially enclosed buildings or areas of buildings such as carports, balconies, courtyards and verandahs.

Theft – by persons who are not living with you.

Thunderbolt and lightning

What we do not cover – general exclusions

You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

an unreasonable failure to properly maintain or repair your home or your contents,
wear and tear, rust, deterioration or corrosion,
mechanical, structural, electrical, electronic or other failure or breakdown, other than as provided for under 'Damage to electric motors' on page 31,
the action of light or atmosphere or climatic conditions or from any process of cleaning or restoration,
the use of sporting equipment and musical instruments,
mould, wet or dry rot, rising damp or dampness,
flood,
storm surge, being an increase in sea level that usually occurs with a severe storm or cyclone,
tidal wave, tsunami, high tide or other actions of the sea,
erosion or washing away of soil, earth or gravel,
the washing away or movement of the surface of any path or driveway which has a surface consisting of a loose material such as gravel, stone or dirt,
soil movement or settlement,
subsidence or landslide **unless** caused by the insured event of earthquake, the moving, shifting or dislodging of any swimming pool or spa and their covers and liners, or any septic tank or other inground structure **unless** caused by the insured events of earthquake or impact,

the actions of trees, plants or their roots,
actions of insects (including termites) or vermin,
scratching, chewing, tearing or soiling by animals and birds kept in your building or at the site,
the lawful taking or repossession of your contents, for example, repossession by a finance company,
fraud or fraudulent means or devices used by you or anyone acting on your behalf to obtain benefit under this policy,
deliberate or intentional acts committed by you or someone acting on your behalf or any person living with you,
war, warlike activities or revolution including any looting or pillaging, asbestos, asbestos fibres, or derivatives of asbestos in any form.

You are not covered under any section of the policy for damage, loss, cost or liability:

directly or indirectly caused by, arising from, or connected with: the use, misuse or existence of nuclear weapons; or the use, misuse, escape or existence of nuclear fuel, waste or nuclear materials or ionising radiation or contamination from such fuels, waste or materials; or combustion, detonation, fission and/or fusion of nuclear fuel or nuclear materials,
directly or indirectly caused by, arising from, or connected with actual or threatened chemical or biological pollution or contamination; or action taken by a public authority or any body authorised by a public authority to prevent, limit or remedy such actual or threatened release, pollution or contamination.

Precautions that you need to take

Precautions

You must at all times, and at your expense, take all reasonable precautions:

- for the safety and protection of your contents and the site,
- to prevent bodily injury or damage to property,
- to prevent damage to your contents,
- to ensure compliance with all statutory obligations, by-laws or regulations imposed by any public authority.

If you do not, we may reduce or refuse to pay any claim you may make.

What we will pay – new for old

Repairing or replacing your contents

When an insured event causes damage or loss to your contents during the period of cover, we will decide either to repair or replace your contents or to pay the cost of repairing or replacing them.

If we decide to repair or replace your contents:

it will be with new materials or new contents,

we will make reasonable endeavours to match materials and contents.

Where this does not achieve an exact match, materials and contents that in our opinion match the damaged or lost contents as near as reasonably practicable will be used, except as provided for under 'Damage to fixed carpets, curtains and internal blinds' on page 26.

If we decide to pay the cost of repairing or replacing your contents:

we will pay up to the contents amount covered shown on the most recent of your policy schedule and your renewal notice,

our payment will not exceed any limits detailed in this policy and it will not exceed the contents amount covered, except as provided for under 'What we cover – additional benefits' on pages 28 - 32 of this policy,

our payment will be the current retail price or the discounted price we may obtain, whichever is lower.

When the damage or loss to your contents is such that we decide to pay the amount covered and you are paying your premium in instalments, we will deduct the total unpaid balance of your annual premium from the payment we make.

Damage to fixed carpets, curtains and internal blinds

When we repair or replace damage to fixed carpets, curtains and internal blinds:

we also replace undamaged coverings if this is reasonably required to achieve a match with the repair or replacement of the damaged area, the repair or replacement is limited to the room, passageway, stairwell or functional area where the damage occurred.

Replacing CDs and DVDs

Because we will replace or pay to replace electronic files, when we replace or pay to replace CDs or DVDs that contain electronic files comprising computer software, music or moving images:

domestically-produced (or 'burned') CDs or DVDs will be replaced as blank media, or we will pay the cost of blank media, commercially-produced CDs or DVDs will be replaced or we will pay the cost of purchasing replacement commercially-produced CDs or DVDs.

We do not cover the costs of replacing electronic files for which you do not have a licence.

The AAMI Home Repair Guarantee

The quality of workmanship and the materials used in any repair of your contents that we arrange and authorise will be guaranteed for the life of the contents.

If you are concerned about the quality of the repair of your contents, you must call us on 13 22 44. We will arrange with you to inspect the repair and we will arrange any necessary rectification work. You must not authorise any rectification work without our written authority.

What we do not pay for

We do not pay for:

the repair or replacement of undamaged contents or any undamaged part of them to match contents we have repaired or replaced, except as provided for under 'Damage to fixed carpets, curtains and internal blinds' on page 26,

any decrease in the value of a pair, set or collection when the damaged or lost item forms part of the pair, set or collection. We pay only for the repair or replacement of the item which was damaged or lost,

damage or loss on a 'new for old' basis for old contents which have passed their 'use by' date and are stored away. We pay the reasonable market value for these contents based on their age and condition at the time of the loss.

Maintaining your contents

We insure your contents on the condition that they and your home have been and will continue to be properly maintained and repaired.

If, when you claim for damage or loss, your contents and your home have not been properly maintained and repaired, we may reduce our payment or refuse to pay your claim.

Other costs

Our payment will include, where applicable, the following costs and these costs will be included within the contents amount covered. Where we decide to reimburse a cost you have incurred, our payment will not be more than the actual cost you incur.

Removal of debris

If the removal from your building of damaged or destroyed contents is necessary, we will pay the reasonable cost of the removal, and, at our option, make the necessary arrangements.

When your contents are removed for storage or repair

If your building is damaged or destroyed by an insured event, we will pay:

the reasonable cost and, at our option, make the necessary arrangements for any necessary removal and storage of your contents during the reasonable period for up to 12 months while your building is being rebuilt or repaired, for any additional damage or loss to your contents caused by an insured event while they are at the place of storage or repair, provided the contents amount covered is not exceeded.

What we cover - additional benefits

For your further protection during the period of cover, we provide the following cover. Any payment we make will be additional to the contents amount covered and will include GST. Any excess on your policy applies if you claim against this cover.

Additional benefits	Page
Accidental breakage	29
Accidental breakage when you are a tenant	29
Cover when you are changing homes	30
Damage to electric motors	31
Spoiled frozen food	31
Compensation for fatal injuries	32

We help with...

Accidental breakage

We will either replace or pay the reasonable cost of replacing, when it is accidentally broken:

any area of glass forming part of your furniture (including table tops, wall mirrors and free-standing lights).

We **will not** replace or pay for:

any accidental breakage which has occurred while the item is outside your building,

any area of glass or item which is already damaged or in an imperfect condition,

the screen of any computer, television set or other type of visual display unit,

any glass in a picture or photo frame, clock, radio, stereo or CD, video or DVD player,

glass vases, ornaments or light globes.

Accidental breakage when you are a tenant

When you are insuring your contents in a home in which you are residing as a tenant, accidental breakage cover is extended to include the following when fixed to your home:

any area of glass (including glass tint, if fitted),

glass (but not light globes) in a fixed light fitting,

basins, sinks, baths, shower bases, lavatory pans or cisterns.

We will also repair or replace or pay the cost of repairing or replacing the frame of any window, door or shower screen **but only** if this is necessary to enable the glass to be replaced.

We will not replace or pay for:

any glass in a glasshouse or conservatory,
any part of a fixed cooking or heating appliance (for example, the glass top of a stove).

The most we will pay for this benefit is \$1,000 for each event.

Cover when you are changing homes

When you are changing your home within Australia, we will cover your contents up to the amount covered for damage or loss by an insured event:

at both your old and new homes for up to 14 days from the date you start moving your contents from your old to your new home.

We will provide this cover and continue to cover your contents at your new address after the 14 day period has expired when, before you begin moving your contents from your old to your new address, you tell us:

your new address,
the date you will move in, and
any associated information we require.

When you provide us with the details we require, we will tell you whether:
your new home is one at which we would normally insure contents,
there is any difference in the terms and conditions of your contents policy as it applies at your new address, and
there is any difference for the remainder of your period of cover in the premium payable for your contents at your former home and your new home.

If there is any difference in the premium, we will refund or charge you that difference.

Any refund we make will be less our reasonable charge for administrative and processing costs.

If we charge you and you do not pay the additional amount within 14 days of our notice, we may reduce the period of cover of your amended policy to match the amount you have already paid.

We **do not** cover your contents while they are in transit between your old and new addresses.

Damage to electric motors

We will pay the full cost of damage caused by electric current to an electric motor if the motor is less than 10 years old, and:

the motor is in a domestic appliance which forms part of your contents.

We **will not** pay if the damage is covered by a new product guarantee or warranty.

Spoiled frozen food

We will pay for spoilage of frozen food caused by:

accidental breakdown of your freezer where your freezer is less than 10 years old, or

failure of public electricity supply to your home **other than** because of industrial action.

The most that we will pay for this benefit is \$400. No excess is payable.

Compensation for fatal injuries

If the person named as the insured in the insurance schedule, while in the home or at the site, is physically injured by:

the violent attack of a burglar, or
a storm, fire or lightning,

and if those injuries result in death, we will pay \$5,000 to the surviving spouse (legal or de facto) **but only** if he or she was residing with the insured at the time of the event. Otherwise, the \$5,000 will be paid to the insured's estate. Where the policy is in joint names, the most we will pay is still \$5,000 but, if necessary, a proportionate amount will be paid.

What we cover - your \$10 million legal liability cover

If you are the **owner of your home**, the cover only applies to accidents which happen in Australia and outside the boundaries of your site.

If you **rent** or **lease** your home or if your home is a **strata titled property**, then the cover applies to accidents which happen anywhere in Australia including at your home or the site.

When we will pay

We will cover you against your legal liability for all claims arising from an accident or a series of accidents arising from any one occurrence during the period of cover, causing:

bodily injury or death to a person, other than you or your family or any person living with you, or

damage to or loss of property, other than property which you or your family or any person living with you own or for which you or they are legally liable.

Our payment will not exceed \$10 million in total (including all legal and defence costs and GST).

When we will not pay

We do not provide cover for your legal liability arising from, or in connection with, or involving:

any of the causes listed under 'What we do not cover' on pages 22 - 23,

your occupancy or ownership of any residence, building, structure or land including your home building and the site **unless**

you rent or lease your home, or

your home is a strata-titled property, and

the legal liability arises from or involves the home or site at which you reside,

an event that you have organised or are legally responsible for, except where

you are the tenant of your home, or your home is a strata-titled property, and the event takes place within the site,

a legal liability which arises only because you have agreed to take that liability upon yourself,

a liability which arises only because you have admitted liability, things done intentionally or left undone intentionally by you, or any person acting on your behalf, with reckless disregard for the consequences,

lifts, cars, motorbikes, minibikes, vehicles, watercraft, aircraft (including gliders),

Vehicles **do not** include bicycles, motorised wheelchairs, golf carts or garden appliances which do not have to be registered.

an animal other than a domestic dog or cat,

vibration, or the removal of, or interference with the support of land, buildings or other property,

alterations, additions, repairs or redecorations of your building or the site where the total value of the works exceed \$20,000,

the transmission of any disease, contaminated body fluid or body product,

the consumption of alcohol or drugs, if your consumption of them caused or contributed to the accident,

employees or workers who are covered or should have been covered by Workers' Compensation or similar legislation and who, at the time

of the accident, were employed by you or any person living at your home,

the use of any part of your building or the site for business, trade, professional services, farming of any type, **but not:**

that part of the building used for performing office work,

any business, trade, profession or occupation conducted or operated or undertaken:

by you or on your behalf,

by or on behalf of any person living at your home,

by or on behalf of any company, trust or other legal entity in which you or any person living at your home has an interest (legal, beneficial or otherwise),

civil or criminal penalties or fines or aggravated, exemplary, punitive or multiple damages however described.

What to do if you need to claim on your AAMI policy

If your contents have been damaged or lost or someone is claiming against you, please phone us immediately. We may require you to report the matter to the police.

You can call AAMI at any time on 13 22 44.

Our claims service will take away the stress and hassle by taking care of everything for you.

Helping us to pay your claim

When you can provide us with information such as documents, booklets and photographs showing and/or valuing your contents, you help us make speedy and accurate decisions regarding your claim and the repair or the replacement of your contents. This information helps establish ownership of property and its value and condition.

This information includes:

- receipts, bank and credit card statements, agreements and reports, valuations and photographs (photographs do not have to be specifically of your contents; they may be easily identifiable in photos taken, for example, of personal events).

We may require this type of information. If you are unable to provide information of this type, that establishes ownership and value of the property in question and the value of your claim, then we may reduce or refuse to pay your claim.

What happens when you claim on your AAMI policy

When you tell us about the damage or loss to your contents, where necessary and as soon as possible, we arrange for our assessor to meet with you and confirm the full details of the damage or loss.

We discuss with you what is necessary to make good the damage or loss and then we will decide either to repair or replace your contents or pay the cost of repairing or replacing your contents up to the amount covered.

We ordinarily obtain independent, competitive quotes, from repairers and suppliers recommended by AAMI. If you want, you can choose a repairer or supplier to provide one of the quotes. We will review the quotes, including any quote from a repairer or supplier you choose, and what is necessary to properly repair or replace your contents. We will select the repairer or supplier who has submitted the more competitive and complete quote and that will be the repairer who repairs, or the supplier who replaces, your contents.

We have your contents repaired or replaced, keeping you informed all the way along.

What happens to your policy when you claim?

When we establish that...	What happens to your policy
the damage or loss is less than your contents amount covered, we decide either to ...	repair or replace your contents. or to pay the cost of repairing or replacing your contents. Your policy continues for the remainder of the period of cover.
the damage or loss is likely to be greater than your contents amount covered, we decide to ...	pay the amount covered for your contents. Your contents cover including the legal liability cover it provides comes to an end. We also pay, where relevant, any outstanding additional benefits. Because our payment meets all our obligations to you in full, there is no refund of any portion of the premium. If you wish to reinstate your contents cover, please call us on 13 22 44.

When you claim on your policy, your responsibilities include

Preventing further damage or loss

Following an event that is likely to result in a claim, you must take all reasonable precautions to prevent any further damage, loss, cost or liability.

Allowing us access

You must provide us with access to your building and the site to inspect damage or loss; arrange quotations, repair or replacement; and undertake progress inspections if required.

Obtaining our written authority for the repair of your contents

You must not authorise the repair of your contents, apart from emergency repairs, without our written permission.

Obtaining our written consent

You must not make any admissions or settle any claims without our prior written consent.

Giving assistance – information, notices, negotiating, defending and settling claims

You must give us the information and assistance we reasonably request in evaluating the cause, extent and value of any claim. This may include:

- providing us with full details of the claim in writing,
- providing valuations, receipts or other evidence of ownership,
- providing written statements,
- providing other relevant documents,

Excesses

Excesses

An excess on your policy is the amount that you must first contribute towards each claim. If your claim is for more than one occurrence, the excess applicable to each occurrence will be payable.

The excesses that apply to your policy will be shown on the most recent of your insurance schedule and your renewal notice. When you make a claim we may require you to pay the excesses or we may deduct the excesses from any payment we make. We will tell you when and how the excesses are to be paid or deducted.

When an unoccupied excess is payable, it will be additional to any other excesses that apply to your claim.

Unoccupied excess

Your contents are at greater risk of damage or loss when your home is unoccupied for a lengthy period.

Because of this extra risk, if you claim for damage or loss to your contents: which occurs after your home building has been unoccupied for 60 continuous days, an additional compulsory excess is payable.

What happens when your building and contents are insured with AAMI

When your building and contents are insured with AAMI and the event leading to your claim is for damage or loss to both, whichever is the higher of your total building and your total contents excesses, including any Flexi-Premium excesses, will be payable.

AAMI Flexi-Premiums™

With AAMI Flexi-Premiums™, the higher the excess you choose, the bigger the discount on your premium. Please call 13 22 44 for full details.

undergoing an interview or interviews about the circumstances of the claim, appearing in court and giving evidence.

You must assist us to recover any part of the claim from the person responsible for the accident or event which results in a claim.

You must promptly deliver to us any relevant letters and notices that come into your possession.

You must tell us if you become aware of any demands, court proceedings or offers of settlement.

We shall be entitled, but not obliged to defend or represent you in any legal proceedings relating to an accident or event which may give rise to a claim against us and to control, settle and deal with those proceedings as we see fit.

We will pay the legal and other reasonable related costs of defending any claim made against you, provided we appoint the solicitors who will defend the claim and we have told you in writing that we will pay their costs.

You must assist us in all our endeavours to negotiate, defend or settle any claim made under this policy and to exercise for our benefit your legal right of recovery against any other party (including a party involved in making good any damage or loss).

If you fail to assist us, or do not abide by any of these terms, we may reduce or refuse to pay your claim or be entitled to recover from you any monies paid under the claim.

Important general information for you

You can contact us:

By phone: Call 13 22 44 (24 hours a day every day of the year).

Via the internet: aami.com.au

By mail: PO Box 14180, Melbourne City Mail Centre, Victoria 8001.

In person: Call 13 22 44 for the address of the closest AAMI branch or customer service centre.

Cover your contents for their current replacement cost

We will pay up to the amount covered to replace your contents at their current cost if they are destroyed or damaged beyond repair by an insured event.

Therefore it is in your own best interests to ensure the amount covered - the insured value you decide upon for your contents - is accurate when you first insure them and each time you renew your policy.

To help you do this, AAMI provides a contents value calculator that you can access at the AAMI website aami.com.au or by calling AAMI on 13 22 44.

Inflation protection

AAMI automatically adjusts the amount covered for your contents at the end of each period of cover to account for inflationary trends.

When we quote you a premium

When we quote you a premium for AAMI home contents insurance, the factors we take into account include:

- the value of your contents,
- our experience of the incidence and cost of contents claims,
- the value of the benefits we include in your cover,

- your insurance history,
- the insured address (the address where your contents are located),
- the cost of providing legal liability cover,
- our costs of providing and administering this policy,
- whether you pay your premium in instalments,
- any discounts that apply because of your particular circumstances.

Government taxes and charges are included in the premium we quote.

Secure contents

When your contents are protected by additional security at your building, we reward this with a lower premium.

The security measures we take into account in deciding your premium discount are:

- deadlocked external doors,
- keyed locks on all accessible windows,
- a local burglar alarm,
- a back-to-base burglar alarm,
- only electronic access (key pad or card) to the site or building,
- video surveillance of access to the site or building,
- doorman, security guard or security patrol.

Please call AAMI on 13 22 44 for further details.

Paying your premium

The notices we issue at the commencement and each renewal of your policy show the various payment methods available to you.

Paying by instalments

You may also be eligible to pay in regular instalments by direct debit. The total premium we charge is higher when you pay in instalments than when you pay one sum annually.

Your responsibilities when paying by instalments

When paying by instalments:

- you must be an authorised signatory on the account nominated for your direct debit payments,
- you must ensure that your nominated account can accept direct debits and has sufficient funds to meet each payment at each due date,
- your financial institution may also apply its own fees (including dishonour fees). Those fees are your responsibility.

What happens if your instalment remains unpaid?

AAMI may cancel your policy without notice if an instalment payment remains unpaid for one month or more.

Any claims arising after the due date may be refused.

Changing your instalment payments

If you wish to change or cancel your direct debit arrangements, you need to contact us at least seven days before the debit day.

If you cancel the debit completely, you will need to arrange for another way to pay us your premium, to ensure you remain covered.

Important things to remember when paying by instalments

When you first commence your direct debit payments, or when you change your account details, it may take up to 14 days for us to first debit your account.

If you believe that we may have incorrectly debited your account, please contact us on 13 22 44.

When you claim on your policy and we decide that the damage or loss to your contents is so extensive that we decide to pay the amount covered, we will deduct the total unpaid balance of your annual premium from the payment we make.

Government taxes and charges

AAMI shows on receipts any government taxes and charges such as GST, Stamp Duty and Fire Service Levy allocation included in insurance premiums.

GST

Any amounts we pay and any excesses we require under this policy include GST.

Renewing your policy

When we offer to renew your policy:

- we will send you a notice before the policy expiry date,
- we will tell you in writing if there are any changes to the policy. Changes that benefit you apply from their introduction. Changes introducing limitations apply from the policy's renewal,
- we may require an additional premium if you make a claim in the short period between the time we calculated the renewal premium and the expiry of your policy. If the additional premium is not paid, we may reduce the period of cover to match the reduced amount paid.

Cooling off period and cancelling this policy

Federal law provides that you can cancel this policy within 14 days of its purchase. AAMI allows you to cancel your policy at any time.

In both cases, we will refund you the unexpired portion of the premium less any cancellation processing charge to cover the reasonable administrative and transaction costs incurred by AAMI. To cancel your policy, please call AAMI on 13 22 44.

We can only cancel your policy by giving you written notice in accordance with the Insurance Contracts Act 1984.

Joint policyholders

When you insure your contents in the names of more than one person, each person is a joint policyholder and is able to make changes that we agree with to the policy.

Contents cover for landlords

We provide a separate policy for landlords who rent their property fully or partly furnished for domestic residential purposes. Please ask us about the AAMI Landlord Policy.

The privacy of your personal information

We are committed to protecting the privacy of your personal information. That commitment is reflected in the AAMI Customer Charter and in our compliance with the National Privacy Principles. For further information, please visit our website aami.com.au or call us on 13 22 44 for a copy of our 'AAMI and Your Personal Information' brochure.

AAMI's Customer Charter

We are committed to always provide you with the highest standard of service. The AAMI Customer Charter is a written document containing service and reporting promises which we are bound to deliver. In fact, we impose a penalty on ourselves if we fail to do so.

This unique Charter was drawn up through consultation with our staff, our customers and industry regulators, and is reviewed annually. Compliance

with our promises is independently audited every year and the results are reported publicly.

The AAMI Customer Charter, introduced in 1996 was Australia's first general insurance customer charter, and indeed, first retail customer charter. The Charter is your guarantee that we're always striving to deliver the best in customer service.

The AAMI Consumer Appeals Service

If you are unhappy with anything we have told you or done for you, we want you to tell us about it. If we cannot resolve the matter to your satisfaction, other appeal services are available to you. See page 53 for full details.

The General Insurance Code of Practice

AAMI is a signatory to the General Insurance Code of Practice which sets out a commitment by the general insurance industry to raise standards of service and to promote better relations between customers and insurers.

The Code describes standards in areas such as buying insurance, claims handling, responding to catastrophes and disasters, information and education and dispute resolution. The Code was introduced in 1995 with the backing of consumer groups, the federal government, insurers and the Insurance Council of Australia.

More information on the Code, or a copy of the Code, can be obtained from the Financial Ombudsman Service (FOS). You can contact the FOS on 1300 780 808 (local call cost), or you can access the Code at codeofpractice.com.au

What do we mean by that?

AAMI, we, us, and our mean Australian Associated Motor Insurers Limited (ABN 92 004 791 744).

Accident means an accident or a series of accidents resulting from any one occurrence.

Amount covered is the most we will pay, less any excess, for any accidental loss and damage to your contents covered by your AAMI policy occurring during the period your contents are insured with us. The amount covered includes GST. The current amount covered is shown on the most recent of your insurance schedule and your renewal notice.

Building means the dwelling and other structures at the site used for domestic or residential purposes. It includes:

- outbuildings and permanent structural improvements, fixtures and fittings that:

- are permanently attached to the building or the site,

- are stored at the site in a building capable of being locked while awaiting installation.

- that part of the building used for performing office work,

- services, whether above or below ground, that are your property or for which you are liable,

- any jetty at your site used only for domestic purposes.

It excludes:

- fixed wall and floor coverings such as carpets, curtains and internal blinds,

- any part of the home building or the site used for conducting a business, trade, professional services, or farming of any description,

- any part of the building or other structures at the site that cannot be locked because that building or structure or part of it is being altered, renovated or rebuilt,

- a temporary building or structure or a building or structure in the course of construction,

- houseboats, watercraft, caravans, mobile buildings (fixed or free-standing), motorised vehicles of any type and the parts and accessories of any of these items,

- the loose surfaces of tennis courts, driveways and paths,

- hedges (whether or not they form a fence), lawns, trees, shrubs, plants, flowers, garden beds or any other living material.

Collection or set is a group of items of sufficiently common type, appearance or nature that:

- they reasonably belong together, or

- the group is devalued if one or more of the items is lost or damaged.

Contents. See pages 5 - 15 for the contents that are and are not covered under this policy.

Cover and covers mean the protection provided by your policy.

Damage and loss.

- Damage** means actual physical damage to your contents.

- Loss or lost** means your contents or a part of your contents being destroyed, stolen or damaged beyond economical repair.

- Loss **does not** mean items being accidentally misplaced.

Endorsement means a special condition that applies to your policy. Any endorsements to your policy are shown on your insurance schedule.

Excess. An excess on your policy is the amount that you must first contribute towards each claim.

Fire means burning with flames.

Fixtures and fittings means items used for domestic and residential purposes, and which are permanently attached to your home building or the site.

Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or cannot enter (because it is full or has overflowed), or is prevented from entering (because other water has already escaped or been released from it), the normal confines of any watercourse or lake, including any that may have been modified by human intervention, or reservoir, canal, dam or stormwater channel.

Flood **does not** mean stormwater runoff from areas surrounding the site or water escaping from any water main, pipe, street gutter, guttering or surface.

Home means the buildings described above.

Insured address means the address at which your contents are located.

Insured event. The occurrences we have listed on pages 16 to 21 which cause damage or loss to your contents.

Living with you. Any person normally living or staying in your building or at the site.

Lot and unit mean an area which is used for domestic or residential purposes that is shown on the plan for the Strata Titles Act or similar

legislation applying where the lot or unit is located.

Plan means the plan of subdivision describing the area of land at the insured address created under the Strata Titles Act, Subdivision Act or similar legislation applying where the lot is located.

Occupied means you are living or staying in your home or another person is with your consent.

Period of cover means the current period for which we have agreed to provide you with insurance cover. The current period is shown on the most recent of your insurance schedule and renewal notice and any receipt we may send to you.

Policy means this booklet and your **policy schedule**.

Your **policy schedule** comprises the notices we give you which show the particular details and the current status of your policy. These notices are the most recent of your **insurance schedule** and **renewal notice**, and any **receipt** we may send you.

Your **insurance schedule** sets out the information you have given us on which we have based our decision to insure you as well as the individual details of your policy. We will send you an updated insurance schedule whenever you advise us of a change in this information or these details.

Rental agreement means the agreement between you and your landlord or your landlord's agent which sets out the terms and conditions of the tenancy.

Site means those parts of the land at the insured address which are used for domestic or residential purposes **but not** 'common property' which is land or areas that people as well as those living with you are entitled to use, for example common property in a multi-dwelling development.

Storm means violent wind (including a cyclone or tornado), thunderstorm or a heavy fall of rain, snow or hail.

Tenant means all the persons named in the rental agreement and their family provided that they are normally living at the insured address.

Theft means actual or attempted theft and burglary.

You and **your** mean the person or persons named as the insured on the most recent of your insurance schedule and renewal notice and members of your family.

Your family means the following people who normally live with you:

- your spouse or partner,
- your children, parents, grandparents, grandchildren, brothers and sisters,
- the children, parents, grandparents, grandchildren, brothers and sisters of your spouse or partner.

The AAMI Consumer Appeals Service

What to do if you are not satisfied with us

Here is how the AAMI Consumer Appeals Service helps you if you are dissatisfied with the results of your dealings with AAMI.

1. Who do you talk to?

If you are unhappy with anything:

we have told you or done for you, or that has been provided on our behalf, please tell us. You can phone us on 13 22 44 or call in to an AAMI branch. Most times we will be able to sort the matter out to your satisfaction.

2. The AAMI Customer Ombudsman

However, if you are not satisfied with our response, you can ring, write to or email the AAMI Customer Ombudsman with the details. The AAMI Customer Ombudsman will respond to you within five working days of receiving your letter or email.

3. Appealing to the independent dispute resolution scheme

If you disagree with the AAMI Customer Ombudsman's decision, you can appeal to the Financial Ombudsman Service. We will help you do this.

The Financial Ombudsman Service is an independent industry dispute resolution scheme. You can contact the service on 1300 780 808 (local call cost) or by email to info@fos.org.au. You can also visit the FOS website at www.fos.org.au. There is no charge for this service.

4. Are any decisions binding on you?

You do not have to accept any decision AAMI or the FOS makes. You always have the option of seeking remedies elsewhere.

Any decision the AAMI Customer Ombudsman makes or the FOS makes is binding on AAMI, provided you also accept the decision.

How to contact AAMI

Telephone: Call 13 22 44 (24 hours a day, seven days a week).

How to contact the AAMI Consumer Appeals Service

Telephone: 1300 130 794 (local call cost).

9am to 5pm EST Monday to Friday.

Fax: (03) 9529 1214.

Write to: The AAMI Customer Ombudsman, AAMI Limited,
PO Box 14180, Melbourne City Mail Centre, Victoria 8001.

Email: consumerappeals@aami.com.au

How to contact the Financial Ombudsman Service

Telephone: 1300 780 808 (local call cost).

Email: info@fos.org.au

AAMI

FIRE AND THEFT CONTENTS INSURANCE POLICY

Product Disclosure Statement

AAMI

Fire and theft insurance for your home contents

AAMI Fire and Theft Contents Insurance covers your contents:
up to \$25,000 (new for old), against fire and theft while they are
within your home.

This policy also provides legal liability cover – see page 17.

Please read the policy wording carefully for full details.

Important

If the replacement value of your contents is higher than the \$25,000 maximum
cover provided under this policy, or you want wider cover for them, you should
consider insuring them under the AAMI Home Contents Policy.

See 'Cover your contents for their current replacement cost' on page 24.

Important information

Your AAMI Product Disclosure Statement The AAMI Fire and Theft Home Contents Insurance Policy

This Product Disclosure Statement provides information about the product we offer: the AAMI Fire and Theft Contents Insurance Policy. When we agree to insure your contents, your policy comprises this booklet and your policy schedule which shows the detail of the policy particular to you. See page 32.

This Product Disclosure Statement was completed on 28 February 2006.

Our commitment to you

When you are an AAMI policyholder and you need to claim on your policy, our claims service will take away the stress and hassle. We are here to help you 24 hours a day, every day of the year.

If your contents have been damaged or lost by fire or theft, or someone is claiming against you, please phone us immediately on 13 22 44.

Please read this booklet carefully and retain it so you can refer to it if required.

We rely on the accuracy of your information

When we agree to insure you, to renew or vary your policy, or to pay your claim, our decision relies on the accuracy of the information you give us. If that information is not accurate, we can reduce or deny any claim you may make and/or cancel your policy.

We never want to have to do that, so you must answer honestly, correctly and completely, the questions we ask about:

- you,
- your contents,
- any events involving your contents that result in a claim on your AAMI policy.

When you receive your renewal notice, please carefully check the information it shows about you. If any of that information is incorrect or incomplete, please call us and we will update our records.

We also require you to ...

- observe the conditions contained in your AAMI policy,
- pay or agree to pay us the premium we charge and any excesses that apply.

Some words in this policy have definite meanings

This policy uses words that have definite meanings. To make sure you are aware of these words and their meanings, please read 'What do we mean by that' on pages 30 - 32.

This policy does not cover some events, circumstances and situations

As you read through this policy, you will see there are events, circumstances and situations it does not cover. To make sure you are aware of these exclusions, please read the whole policy carefully including the section 'What we do not cover - general exclusions' beginning on page 12.

See also 'Important general information for you' on pages 24 - 29.

What we cover - the contents

The contents we cover

The contents we cover are items used for domestic or residential purposes, and which are:

- kept within your home,
- not permanently attached to your building, and
- owned by you or for which you are legally liable.

These are 'general contents' and 'contents with limited cover', as described on page 7.

Where and how your contents are covered

Which contents?	Where are they insured?	What are they covered against?	How much are they covered for?
General contents	At your home within buildings fitted with working locks to all external doors	The insured events of fire and theft	Up to \$25,000 (including any payment we may make for damage or loss to your 'contents with limited cover')
Contents with limited cover See the list of contents with limited cover and details of this benefit on pages 7 - 8	At your home within buildings fitted with working locks to all external doors	The insured events of fire and theft	Up to the amounts shown on the most recent of your insurance schedule and renewal notice

General contents

General contents are items such as furniture and furnishings; household linen and bedding; clothing; kitchen utensils; electrical and electronic equipment and appliances; sporting equipment.

When you are a tenant or the owner-occupier of a strata-titled property, your contents includes any fixtures and fittings you are responsible for and/or you own and that are not insurable by the body corporate for the strata-titled development at your insured address.

General contents **do not** include items where we limit the amounts we will pay for damage or loss. These are 'contents with limited cover'.

Contents with limited cover are:

Valuables

Jewellery, watches, other items containing precious metals and stones, bullion

Artwork
Paintings, prints, pictures, tapestry, figurines, sculptures, curios, decorative items made of china, porcelain or like material

The amount covered for each of these groups and the total amount covered for 'contents with limited cover' are shown on the most recent of your insurance schedule and renewal notice

Antiques

Antiques (other than antique furniture)

Collections

Pair, set or collection of any kind (for example, bullion, cards, coins, crockery, cutlery, earrings, medals, stamps etc.)

Commercial electronic recordings

CDs, DVDs, videos, computer game software

We **do not pay** for damage or loss to 'contents with limited cover' items in more than one group; for example, damage or loss to CDs can be claimed only under 'commercial electronic recordings' **not** under both 'commercial electronic recordings' and 'collections'.

Cover for fixed wall and floor coverings

If your building is **not** insured with AAMI, we will cover your fixed wall and floor coverings as contents **provided** they are not otherwise insured, for example, under the building insurance you or your landlord have with another insurer. Fixed wall and floor coverings are items such as carpets, tiles, floating floors, cupboards, internal blinds, drapes and curtains.

When we repair or replace damage to fixed wall and floor coverings, the repair or replacement is limited to the room, passageway, stairwell or functional area where the damage occurred. See 'Damage to or loss of your contents - repairing or replacing your contents' on page 14 for further details.

Contents we do not cover

The contents we do not cover include:

cash, money orders, gift vouchers, tickets, stamps (not in a set or collection), manuscripts, certificates of title, licences, registration papers, negotiable instruments or documents of any kind,

home business equipment - the following business equipment ordinarily located in your home and used for the office work involved in conducting a business:

- computers, printers, CD-ROMs, discs, software and associated accessories; telephones, answering machines and fax machines;
- mobile phones, personal organisers and pagers; desks, chairs, filing or storage cabinets and other office furniture; sundry equipment normally used or associated with an office,

professional equipment and tools of trade,

hedges (whether or not they form a fence), lawns, trees, shrubs, indoor and outdoor plants, flowers, garden beds or any other living material,

houseboats, watercraft, aircraft, caravans, trailers, mobile homes (fixed or free-standing), motor vehicles, motorcycles, minibikes, go-karts, golf carts, motorised vehicles of any other type (other than motorised wheelchairs) or the spare parts or accessories of any of these items,

fish, birds, pets or animals of any type,

stock in trade or samples, business or trade cash takings or business assets, plant or equipment for any type of business including any type of farming,

unset precious and semi-precious stones,

unlicensed or unregistered firearms and firearms stored illegally at your home.

What we cover - insured events

This section describes under the heading:

Yes – the insured events you **are** covered for,

No – the conditions and exclusions that specifically apply to particular insured events.

Yes

You are covered for damage or loss caused by the following events occurring during the period of cover to your contents while they are within your home:

No

You are not covered for:

Fire (burning with flames)

Damage or loss caused by:

any process involving the application of heat where there was no flame (for example, cigarette burn marks or scorch marks are not covered),

soot and smoke where your home or the site has not been damaged by fire,

unless there was an occurrence within your home where no flame resulted but soot and smoke damage was caused.

Theft – by persons who are not living with you

Damage to or loss of contents which were:

outside the home at the site,

in buildings at the site that were not fitted with working locks to all external doors,

away from the site.

What we do not cover – general exclusions

You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

an unreasonable failure to properly maintain or repair your home or contents, wear and tear, rust, deterioration or corrosion, fraud or fraudulent means or devices used by you or anyone acting on your behalf to obtain a benefit under this policy, deliberate or intentional acts committed by you or someone acting on your behalf, the lawful taking or repossession of your contents, for example, repossession of your contents by a finance company, war, warlike activities or revolution including any looting or pillaging, asbestos, asbestos fibres, or derivatives of asbestos in any form.

You are not covered under any section of the policy for loss, damage, cost or liability:

directly or indirectly caused by, arising from, or connected with the use, misuse or existence of nuclear weapons; or the use, misuse, escape or existence of nuclear fuel, waste or nuclear materials or ionising radiation or contamination from such fuels, waste or materials; or combustion, detonation, fission and/or fusion of nuclear fuel or nuclear materials, directly or indirectly caused by, arising from, or connected with actual or threatened chemical or biological pollution or contamination; or action taken by a public authority or any body authorised by a public authority to prevent, limit or remedy such actual or threatened release, pollution or contamination.

Precautions that you need to take

You must at all times, and at your expense, take all reasonable precautions:

for the safety and protection of your contents, your home and the site, to prevent bodily injury or damage to property, to prevent damage to your contents, to ensure compliance with all statutory obligations, by-laws or regulations imposed by any public authority, relating to the safety of persons or property.

If you do not, we may reduce or refuse to pay any claim you may make.

What we will pay – new for old

Damage to or loss of your contents - repairing or replacing your contents

If an insured event causes damage or loss to your contents during the period of cover, we will:

decide to repair or replace your contents or pay the cost of repairing or replacing them.

If we decide to repair or replace your contents:

it will be with new materials or new contents,

we will make reasonable endeavours to match materials and contents.

Where this does not achieve an exact match, materials and contents that in our opinion match the lost or damaged contents as near as reasonably practicable will be used.

If we decide to pay the cost of repairing or replacing your contents:

our payment will not exceed the amount covered,

our payment will be the current retail price or the discounted price we may obtain, whichever is lower.

We do not pay for:

the repair or replacement of undamaged contents or undamaged part of them to match contents we have repaired or replaced.

any decrease in the value of a pair, set or collection when the damaged or lost contents form part of the pair, set or collection. We pay only for the repair or replacement of the item which was damaged or lost.

damage or loss on a 'new for old' basis for old contents which have passed their 'use by' date and are stored away, for example, clothes which you have outgrown, old books or an old TV. We pay the reasonable market value for these contents based on their age and condition at the time of the loss.

the cost of installing or recreating computer software, or the cost of rewriting your records, working or entertainment files or any other information on your computer or held elsewhere at your home.

Our payment may be reduced if you do not maintain your contents in good repair

We insure your contents on the condition that they have been and will continue to be properly maintained and repaired.

If, when you claim for damage or loss, your contents have not been properly maintained and repaired, we may reduce our payment to reflect your contents' diminished value.

What we cover – your \$10 million legal liability cover

Other costs

Our payment will include, where applicable, the following costs and these costs will be included within the amount covered. Where we decide to reimburse a cost you have incurred, our payment will not be more than the actual cost you incur.

Removal of debris

If the removal from your home of damaged or destroyed contents is necessary, we will pay the reasonable cost of the removal, and, at our option, make the necessary arrangements.

When your contents are removed for storage or repair

If your home is damaged or destroyed by the insured events of fire and theft, we will pay the reasonable cost of any necessary removal and storage of your contents during the reasonable period up to 12 months required to repair or rebuild your home.

We will also pay for any additional damage or loss to your contents caused by the insured events of fire and theft while they are at the place of storage or repair, provided the amount covered is not exceeded.

If you **rent** or **lease** your home or if your home is a **strata-titled property**, your legal liability cover applies to accidents which happen anywhere in Australia including at your home or site.

If you are the **owner of your home**, the cover only applies to accidents which happen in Australia and outside the boundaries of your site.

When we will pay

We will cover you against your legal liability for claims arising from an accident or a series of accidents arising from any one occurrence during the period of cover, causing:

- bodily injury or death to a person, other than you or your family or any person living with you, or
- loss of or damage to property, other than property which you or your family or any person living with you own or for which you or they are legally liable.

Our payment will not exceed \$10 million in total (including all legal and defence costs and GST).

When we will not pay

We do not cover your legal liability arising from, or in connection with, or involving:

- any of the causes listed under 'What we do not cover' on page 12, your occupancy or ownership of any residence, building or land other than your home and the site,
- a legal liability which arises only because you have agreed to take that liability upon yourself,
- a liability which arises only because you have admitted liability, an event that you have organised or are legally responsible for **except where** you rent or lease your home, or your home is a strata-titled property, and the event takes place within the site,

What to do if you need to claim on your AAMI policy

things done intentionally or left undone intentionally by you, or any person acting on your behalf, with reckless disregard for the consequences, lifts, cars, motorbikes, minibikes, vehicles, watercraft (including sail boats), aircraft (including gliders) or facilities for the landing or harbouring of any craft. Vehicles **do not** include bicycles, motorised wheelchairs, golf carts or garden appliances which do not have to be registered, an animal other than a domestic dog or cat, vibration, or the removal of, or interference with the support of land, buildings or other property, alterations, additions, repairs or re-decorations of your home or the site where the total value of the works exceeds \$20,000, the transmission of any disease, contaminated body fluid or body product, the consumption of alcohol or drugs, if your consumption of them caused or contributed to the accident, employees or workers who are covered or should have been covered by Workers' Compensation or similar legislation and who, at the time of the accident, were employed by you or anyone normally living with you, the use of any part of your home or the site for business, trade, professional services, farming of any type, any business, trade, profession or occupation conducted or operated or undertaken by you or on your behalf, or on behalf of anyone normally living with you, or on behalf of any company, trust or other legal entity in which you or anyone normally living with you has an interest (legal, beneficial or otherwise), civil or criminal penalties or fines or aggravated, exemplary, punitive or multiple damages however described.

If your contents have been damaged or lost by fire, please call AAMI immediately. If your contents have been stolen or damaged by theft, please report the matter immediately to the police and to AAMI. If someone is claiming against you, please phone us immediately. You can call AAMI at any time on 13 22 44. Our claims service will take away the stress and hassle by taking care of everything for you.

Helping us to pay your claim

When you can provide us with information such as documents, booklets and photographs showing and/or valuing your contents, you help us make speedy and accurate decisions regarding your claim and the repair or replacement of your contents. This information helps establish ownership of property and its value and condition.

This information includes:

receipts, bank and credit card statements, agreements and reports, evaluations and photographs (photographs do not have to be specifically of your contents; they may be easily identifiable in photos taken, for example, of personal events).

We may require this type of information. If you are unable to provide information of this type, that establishes ownership and value of the contents in question and the value of your claim, then we may reduce or refuse to pay your claim.

What happens when you claim on your AAMI policy

When you tell us about the damage or loss to your contents, where necessary and as soon as possible, we arrange for our assessor to meet with you and confirm the full details of the damage or loss.

We discuss with you what is necessary to make good the damage or loss and then we decide either to repair or replace, or pay the cost of repairing or replacing your contents.

Repairing or replacing your contents

We ordinarily obtain independent, competitive quotes, from repairers and suppliers recommended by AAMI. If you want, you can choose a repairer or supplier to provide one of the quotes. We will review the quotes, including any quote from a repairer or supplier you choose, and what is necessary to properly repair or replace your contents. We will select the repairer or supplier who has submitted the more competitive and complete quote and that will be the repairer or supplier who repairs or replaces your contents.

We have your contents repaired or replaced, keeping you informed all the way along.

What happens to the amount covered after a claim has been paid?

If we do not consider your contents to be a total loss and the payments made by us are **less** than the amount covered, there is no change to the original amount covered and your policy continues for the remainder of the period of cover.

However, if we do consider your contents to be a total loss or we pay the amount covered for your contents, then the policy comes to an end.

When our payment is for the total loss of your contents, your policy, including the legal liability cover it provides, comes to an end. Because our payment meets all our obligations to you in full, there is no refund of any portion of the premium.

When you claim on your policy, your responsibilities include:

Preventing further damage or loss

Following an event that is likely to result in a claim, you must take all reasonable precautions to prevent any further damage, loss, cost or liability.

Allowing us access

You must provide us with access to your home and contents for the inspection of damage or loss, arranging quotations, repair or replacement, and progress inspections if required.

Obtaining our written authority for the repair or replacement of your contents

You must not authorise the repair or replacement of your contents, apart from emergency repairs, without our written permission.

Obtaining our written consent

You must not make any admissions or settle any claims without our prior written consent.

Giving assistance – information, notices, negotiating, defending and settling claims

You must give us the information and assistance we reasonably request in evaluating the cause, extent and value of any claim. This may include:

- providing us with full details of the claim in writing,
- providing evaluations, receipts or other evidence of ownership,
- providing written statements,
- undergoing an interview or interviews about the circumstances of the claim, appearing in court and giving evidence.

Excesses

You must assist us to recover any part of the claim from the person responsible for the accident or event which results in a claim.

You must promptly deliver to us any relevant letters and notices that come into your possession.

We shall be entitled, but not obliged, to defend or represent you in any legal proceedings relating to an accident or occurrence which may give rise to a claim against us and to control, settle and deal with those proceedings as we see fit.

We will pay the legal and other reasonable related costs of defending any claim made against you, provided we appoint the solicitors who will defend the claim and we have told you in writing that we will pay their costs.

You must assist us in all our endeavours to negotiate, defend or settle any claim made under this policy and to exercise for our benefit your legal right of recovery against any other party.

If you fail to assist us, or do not abide by any of these terms, we may reduce or refuse to pay your claim.

An excess on your policy is the amount that you must first contribute towards each claim. If your claim is for more than one occurrence, the excess applicable to each occurrence will be payable. An additional excess may also be payable depending on the circumstances of your claim.

The excesses that apply to your policy will be shown on the most recent of your insurance schedule and your renewal notice. When you make a claim we may require you to pay the excess or we may deduct the excess from any payment we make. We will tell you when and how the excess is to be paid or deducted.

Standard

This is the basic excess you must contribute towards a claim.

Unoccupied excess

Your contents are at greater risk of damage or loss when your home is unoccupied for a lengthy period.

Because of this extra risk, if you claim for loss or damage to your contents:

which occurs after your home has not been occupied for 60 continuous days, an additional compulsory excess is payable.

Important general information for you

You can contact us

By phone: Call 13 22 44 (24 hours a day every day of the year)

Via the internet: www.aami.com.au

By mail: PO Box 14180, Melbourne City Mail Centre, Victoria 8001

In person: Call 13 22 44 for the address of the closest AAMI branch or customer service centre.

Cover your contents for their current replacement cost

This policy provides for replacing or repairing your damaged or stolen contents at current cost up to a total of \$25,000 including GST.

If the replacement value of your contents is **higher** than this amount, you should consider insuring them under the AAMI Home Contents Insurance Policy.

To help you value your contents, AAMI provides a home contents value calculator. You can access it at the AAMI website www.aami.com.au or by calling AAMI on 13 22 44.

To help you decide if the cover this policy provides meets or continues to meet your needs, you should value your contents:

- at the commencement of your insurance,
- at each renewal, and
- when you make any substantial additions to your contents.

When you are a tenant or the owner-occupier of a stratified property, you should include the value of any fixtures and fittings you are responsible for and/or you own.

When we quote you a premium

When we quote a premium for AAMI Fire and Theft Contents Insurance, the factors we take into account include:

- the set limit the policy places on the amount covered,
- our experience of the incidence and cost of contents fire and theft claims,
- the insured address (the address where your contents are located),
- the cost of providing legal liability cover,
- our costs of providing and administering this policy,
- whether you pay your premium in instalments.

Government taxes and charges are included in the premium we quote.

Paying your premium

You can pay your premium annually by cheque, credit card, BPAY, online through AAMI e-PAY, or in cash at AAMI Branches or Australia Post Offices. Further details are provided on the payment notice we issue at the commencement of your policy and at each renewal.

Paying by instalments

You may also be eligible to pay in regular instalments by direct debit.

When you pay this way, the total premium is higher than we charge for one annual payment, reflecting the higher costs we experience. Any premium discounts we may provide are applied before these additional costs are calculated.

Your responsibilities when paying by instalments

When paying by instalments:

- you must be an authorised signatory on the account nominated for your direct debit payments,
- you must ensure that your nominated account can accept direct debits and has sufficient funds to meet each payment at each due date,
- your financial institution may also apply its own fees (including dishonour fees). Those fees are your responsibility.

What happens if your instalment remains unpaid?

AAMI may cancel your policy without notice if an instalment payment remains unpaid for one month or more.

Any claims arising after the due date may be refused.

Changing your instalment payments

If you wish to change or cancel your direct debit arrangements, you need to contact us at least seven days before the debit day.

If you cancel the debit completely, you will need to arrange for another way to pay us your premium, to ensure you remain covered.

Important things to remember when paying by instalments

When you first commence your direct debit payments, or when you change your account details, it may take up to 14 days for us to first debit your account.

If you believe that we may have incorrectly debited your account, please contact us on 13 22 44.

Government taxes and charges

AAMI shows on receipts any government taxes and charges such as GST, Stamp Duty and Fire Services Levy included in insurance premiums.

GST

The amounts covered for your contents and legal liability include GST.

Renewing your policy

When we offer to renew your policy:

- we will send you a notice before the policy expiry date,
- we will tell you in writing if there are any changes to the policy. Changes that benefit you apply from their introduction. Changes introducing limitations apply from the policy's renewal.

Cooling off period and cancellation

Federal law provides that you can cancel this policy within 14 days of its purchase. AAMI allows you to cancel your policy at any time.

In both cases, we will refund you the unexpired portion of the premium less any cancellation processing charge to cover the reasonable administrative and transactions costs incurred by AAMI.

To cancel your policy, please call us on 13 22 44.

We can only cancel your policy by giving you written notice in accordance with the Insurance Contracts Act 1984.

The privacy of your personal information

We are committed to protecting the privacy of your personal information. That commitment is reflected in the AAMI Customer Charter and in our compliance with the National Privacy Principles. For further information, please visit our website www.aami.com.au or call us on 13 22 44 for a copy of our 'AAMI and Your Personal Information' brochure.

AAMI's Customer Charter

We are committed to always provide you with the highest standard of service. The AAMI Customer Charter is a written document containing service and reporting promises which we are bound to deliver. In fact, we impose a penalty on ourselves if we fail to do so.

This unique Charter, which is reviewed annually, was drawn up through consultation with our staff, our customers and industry regulators. Compliance with our promises is independently audited every year and the results are reported publicly.

The AAMI Customer Charter, introduced in 1996, was Australia's first general insurance customer charter, and indeed, first retail customer charter. The Charter is your guarantee that we're always striving to deliver the best in customer service.

The AAMI Consumer Appeals Service

If you are unhappy with anything we have told you or done for you, we want you to tell us about it. If we cannot resolve the matter to your satisfaction, other appeal services are available to you. See page 33.

The General Insurance Code of Practice

The General Insurance Code of Practice is a commitment by the general insurance industry to aim for the best standards of service possible, and to promote better relations between customers and insurers.

The Code describes standards in the areas of buying insurance, claims handling and dispute resolution. Introduced in 1995 with the backing of consumer groups, the federal government, insurers and the Insurance Council of Australia, it was revised in 2005.

More information on the Code, or a copy of the Code, can be obtained from the Insurance Council of Australia. You can contact the ICA on 02 9253 5100 or you can access the Code at www.codeofpractice.com.au.

What do we mean by that?

AAMI, we, us, and our mean Australian Associated Motor Insurers Limited (ABN 92 004 791 744).

Accident means an accident or a series of accidents resulting from any one occurrence.

Amount covered is the most we will pay, less any excess, for any accidental damage and loss covered by your AAMI policy occurring during the period of cover. The amount covered includes GST. The current amount covered is shown on the most recent of your insurance schedule and your renewal notice.

Collection or set is a group of items of sufficiently common type, appearance or nature that they reasonably belong together and that is devalued if one or more of the group is lost or damaged.

Contents. See pages 6 - 9 for the contents that **are** covered and the contents that **are not** covered under this policy.

Cover and **covers** mean the protection provided by your policy.

Damage and **loss.**

Damage means actual physical damage to your contents.

Loss or **lost** means your contents or a part of your contents being destroyed, stolen or damaged beyond economical repair.

Loss does not mean items being accidentally misplaced.

Total loss means damage to your contents, to the extent that we reasonably consider that complete or near-complete repair or replacement is necessary to reinstate them, or where we have paid the whole of the amount covered.

Endorsement means a special condition that applies to your policy.

Any endorsements to your policy are shown on the most recent of your insurance schedule and renewal notice.

Excess. An excess on your policy is the amount that you must first contribute towards a claim.

Fire means burning with flames.

Fixtures and **fittings** means items used for domestic and residential purposes, and which are permanently attached to your home by you or your landlord.

Home means the buildings at the site used for domestic or residential purposes that are fitted with working locks to all external doors.

Home **does not** include partially enclosed buildings or areas of a building such as carports, on-site car parking bays, balconies, courtyards and verandahs.

Insured address means the address at which your home is located.

Insured event. The occurrences we have listed on page 10 which cause damage and loss to your contents.

Living with you. Any person normally living or staying in your home or at the site.

Occupied means you are living or staying in your home or another person is with your consent.

Period of cover means the current period for which we have agreed to provide you with insurance cover. The current period is shown on the most recent of your insurance schedule and renewal notice and any receipt we may send to you. When we make a total loss payment, the period of cover comes to an end. See also page 20.

Policy means this booklet and your policy schedule.

Your **policy schedule** comprises the notices we give you which show the particular details and the current status of your policy. These notices are the most recent of your **insurance schedule** and **renewal notice**, and any **receipt** we may send you.

Your **insurance schedule** sets out the information you have given us on which we have based our decision to insure you as well as the individual details of your policy. We will send you an updated insurance schedule whenever you advise us of a change in this information or these details.

Site. Those parts of the land at the insured address which are used for domestic or residential purposes **but not** 'common property' which is land or areas that people as well as those living with you are entitled to use, for example common property in a multi-dwelling development.

Theft means actual or attempted theft and burglary.

You and **your** mean the person or persons named as the insured on the most recent of your insurance schedule and renewal notice and members of your family.

Your family means the following people who normally live with you:

- your spouse or partner,
- your children, parents, grandparents, grandchildren, brothers and sisters,
- the children, parents, grandparents, grandchildren, brothers and sisters or your spouse or partner.

The AAMI Consumer Appeals Service

What to do if you are not satisfied with us

Here is how the AAMI consumer appeals service helps you if you are dissatisfied with the results of your dealings with AAMI.

1. Who do you talk to?

If you are unhappy with anything:

we have told you or done for you, or that has been provided on our behalf,

please tell us. You can phone us on 13 22 44 or call in to an AAMI branch. Most times we will be able to sort the matter out to your satisfaction.

2. The AAMI Customer Ombudsman

However, if you are not satisfied with our response, you can ring, write to or email the AAMI Customer Ombudsman with the details. The AAMI Customer Ombudsman will respond to you within five working days of receiving your letter or email.

3. Appealing to the independent dispute resolution scheme

If you disagree with the AAMI Customer Ombudsman's decision, you can appeal to the Financial Ombudsman Service. We will help you do this.

The Financial Ombudsman Service is an independent industry dispute resolution scheme. You can contact the service on 1300 780 808 toll free or by email to info@fos.org.au. You can also visit the FOS website at www.fos.org.au. There is no charge for this service.

4. Are any decisions binding on you?

You do not have to accept any decision AAMI or the FOS makes. You always have the option of seeking remedies elsewhere.

Any decision the AAMI Customer Ombudsman makes or the FOS makes is binding on AAMI, provided you also accept the decision.

How to contact AAMI

Telephone: Call 13 22 44 (24 hours a day, seven days a week).

How to contact AAMI Consumer Appeals

Telephone: 1300 130 794 (local call costs apply).

9am to 5pm EST Monday to Friday.

Fax: (03) 9529 1214.

Write to: The AAMI Customer Ombudsman, AAMI Limited,
PO Box 14180, Melbourne City Mail Centre, Victoria 8001.
Email: consumerappeals@aami.com.au

How to contact the Financial Ombudsman Service

Telephone: 1300 780 808 toll free.

Email: info@fos.org.au

LANDLORD INSURANCE POLICY

Product Disclosure Statement

AAMI

Flexible insurance from AAMI for residential investment property landlords

AAMI Landlord Insurance gives you the cover you need for your rental property.

In this booklet

AAMI Landlord Building and Landlord Contents

AAMI Landlord Building and Landlord Contents insurance provides building insurance for your rental home and, if you lease your rental home furnished, you can also choose to insure your landlord contents.

Peace of mind with complete replacement cover for your landlord building

AAMI Landlord Building Insurance with Complete Replacement Cover gives you absolute peace of mind.

We cover insured damage or loss to your landlord buildings for whatever it costs to repair or rebuild them.

AAMI Landlord Building Insurance with Complete Replacement Cover repairs or rebuilds insured damage or loss to your landlord buildings or pays the cost of repairing or rebuilding them:

with new materials,
to the same size and standard of your current building.

Your landlord building will never be underinsured with AAMI. See page 21.

Peace of mind from guaranteed repair quality

The quality of workmanship and the materials used in any repair or rebuilding of your landlord building and landlord contents that we arrange and authorise will be guaranteed for the life of the property. See page 22.

AAMI Landlord Insurance with Tenant Protection

As well as covering your landlord building, and, if you choose, your landlord contents, this policy covers:

tenant rent default,
theft by your tenant, and
malicious damage by your tenant.

See page 35 for details.

Separately available from AAMI

Insurance for Landlords with Strata Title Rental Lots and Units

We offer two policies for landlords with strata title rental lots or units.

The first covers landlord fixtures and fittings, and, if you choose, landlord contents.

The second covers rent default, theft by your tenant and malicious damage by your tenant as well as landlord fixtures and fittings, and, if you choose, landlord contents.

Call 13 22 44 for full details.

Important information

Your AAMI Product Disclosure Statement The AAMI Landlord Insurance policy

This Product Disclosure Statement provides information about the product we offer - the AAMI Landlord Insurance policy. When we agree to insure you, your policy comprises this booklet and your policy schedule which shows the detail of the policy particular to you. See page 56.

This Product Disclosure Statement was completed on 31 July 2006.

Our commitment to you

When you are an AAMI policyholder and you need to claim on your policy, our claims service will take away the stress and hassle. We are here to help you 24 hours a day, every day of the year.

If your insured property has been damaged or stolen or someone is claiming against you, please phone us immediately. Call 13 22 44.

Please read this policy carefully and retain it so you can refer to it if required.

We rely on the accuracy of your information

When we agree to insure you, to renew or vary your policy, or to pay your claim, our decision relies on the accuracy of the information you give us. If that information is not accurate, we can reduce or deny any claim you may make or cancel your policy. We never want to have to do that, so you must answer honestly, correctly and completely the questions we ask about:

you,
your insured property,
the rental agreement between you and your tenant,
any events involving your insured property that result in a claim on your AAMI policy.

What we cover – the landlord building

When you receive your renewal notice, please carefully check the information it shows about you. If any of that information is incorrect or incomplete, please call us and we will update our records.

We also require you to:

- observe the conditions contained in your AAMI policy,
- pay or agree to pay us the premium we charge and any excesses that apply,
- tell us if you renovate, improve or extend your landlord building after the policy commences. If you don't do this, any payment we make for the repair or rebuilding of your landlord building may be limited to the cost of replacing it before it was renovated, improved or extended.

Some words in this policy have definite meanings

This policy uses words that have definite meanings. To make sure you are aware of these words and their meanings, please read 'What do we mean by that on pages 54 - 57.

This policy does not cover some events, circumstances and situations

As you read through this policy, you will see there are some events, circumstances and situations it does not cover. To make sure you are aware of these exclusions, please read the whole policy carefully including the section 'What we do not cover - general exclusions' beginning on page 18.

See also 'Important general information for you' on page 46.

What do we cover as the landlord building?	What is it covered against?	How much is it covered for?	What optional cover is available?
The landlord building is the dwelling and other structures at the site used for domestic or residential purposes.	Damage or loss caused by the insured events listed on pages 12 - 17.	The cost of repairing or rebuilding it with new materials to the same size and standard as your current home.	AAMI Landlord Insurance with Tenant Protection provides cover against tenant rent default, malicious damage and theft. See page 35.
See below for what the landlord building includes.			

This policy also covers 'other costs' see page 23, 'additional benefits' see page 28, and 'your legal liability' see page 32.

The building includes:

- outbuildings and permanent structural improvements,
- fixtures and fittings that are permanently attached to the landlord building or the site **except** those your tenant is liable for under the terms of your rental agreement,
- fixed wall or floor coverings such as carpets, tiles, floating floors, cupboards, internal blinds, drapes and curtains,
- that part of the building used for performing office work,

What we cover – landlord contents

services, whether above or below ground, that are your property or for which you are liable,
any jett at your site owned by you and provided only for your tenant's domestic use.

The building excludes:

anything that is covered under 'What we cover as landlord contents' – see page 9,
any part of the landlord building or the site used for conducting a business, trade, professional services, or farming of any description,
any part of the landlord building or other structures at the site that cannot be locked because that building or structure or part of it is being altered, renovated or rebuilt,
a temporary building or structure or a building or structure in the course of construction,
houseboats, watercraft, caravans, mobile buildings (fixed or free-standing), motorised vehicles of any type and the parts and accessories of any of these items,
the loose surfaces of tennis courts, driveways and paths,
hedges (whether or not they form a fence), lawns, trees, shrubs, plants, flowers, garden beds or any other living material.

Where and how your landlord contents are covered

Which contents?	Where are they insured?	What are they covered against?	How much are they covered for?	What optional cover is available?
Landlord contents provided for your tenant's use, for domestic or residential purposes.	At your landlord building and within the site.	Damage or loss caused by the insured events listed on pages 12 - 17.	Up to the landlord contents amount covered, except for theft – see page 16.	AAMI Landlord Insurance with Tenant Protection provides cover against tenant rent default, malicious damage and theft. See page 35.

Your landlord contents

When you have insured your landlord building and your landlord contents under this policy, the contents items we cover are those provided for your tenant's use, for domestic or residential purposes, and which are:

- kept at the site,
- not permanently attached to any building,
- owned by you or for which you are legally liable.

These are contents such as furniture, loose floor coverings, wall hangings (for example, prints, paintings, framed photographs), sound and vision equipment (but not portable video cameras, cameras and other photographic equipment and not portable music systems), household linen, bedding, kitchen and dining equipment and free-standing appliances, computers and printers and associated equipment (but not their software and files), outdoor garden furniture and free-standing playground-type equipment.

Your landlord contents do not include

- Any: items that your tenant is liable for under the rental agreement,
- watches, jewellery, earrings; other items containing gold, silver, platinum, gems or precious or semi-precious stones; unset precious and semi-precious stones; bullion,
 - cards, coins, medals, stamps (whether or not in a set or collection),
 - cash, money orders, gift vouchers, tickets, manuscripts, certificates of title, licences, registration papers, negotiable instruments or documents of any kind,
 - clothing, furs; handbags, purses and wallets; travel bags, suitcases and briefcases; toiletries,
 - sunglasses and spectacles; binoculars, telescopes, opera glasses,

- portable video cameras, cameras and other photographic equipment, portable music systems,
- baby capsules, children's car seats and prams, sporting equipment,
- video tapes, CDs, DVDs and computer game software, computer software and files,
- contents temporarily removed from the site,
- motorised or other wheelchairs, medical equipment, artificial limbs and artificial body parts, aids and accessories,
- hedges (whether or not they form a fence), lawns, trees, shrubs, outdoor plants, flowers, garden beds or any other living material,
- houseboats, watercraft, aircraft, caravans, trailers and mobile homes (fixed or free-standing), motor vehicles, motorcycles, minibikes, go-karts and golf carts, motorised vehicles of any other type including wheelchairs and the spare parts and accessories of any of these items,
- fish, birds, pets or animals of any type,
- tools of trade, professional equipment and home business equipment, sundry equipment normally used or associated with an office; stock in trade or samples, business or trade cash takings or business assets, plant or equipment for any type of business including any type of farming,
- firearms stored at the site.

What we cover – insured events

This section describes under the headings:

Yes – the insured events you **are** covered for,

No – the conditions and exclusions that specifically apply to particular insured events.

Yes

No

You are covered for damage or loss occurring during the period of cover and caused by the following events to:

when your landlord building is insured, to that landlord building,

when your landlord contents are insured, to those landlord contents while they are in your landlord building or at the site.

You are not covered for:

Animals and birds - the actions of animals and birds

Damage or loss caused by:

vermin, rodents, insects (including termites) and domestic animals, animals and birds kept in your building or at the site, scratching, chewing, tearing or soiling the exterior of all buildings and the interior of partially enclosed buildings.

Earthquake including subsidence and landslide caused by an earthquake.

Damage or loss caused by tidal wave, tsunami, high tide or other actions of the sea.

Explosion

Fire (burning with flames).

Damage or loss caused by:

any process involving the application of heat where there was no flame, for example, cigarette burn marks or scorch marks are not covered, soot and smoke where your landlord building or the site has not been damaged by fire, **unless** there was an occurrence within your landlord building where no flame resulted but soot and smoke damage was caused.

Yes	No
Flood	Damage or loss caused by high tide.
Impact - sudden and unexpected impact of any: motor vehicle, aircraft, watercraft or space debris, object falling from a motor vehicle or aircraft, falling tree or part of a tree, aerial, mast or satellite dish which breaks or collapses.	Damage or loss caused by: a tree or part of a tree being felled or lopped by a contractor engaged by your tenant or anyone living at the site.
Liquid escaping suddenly and unexpectedly from a: water main, drain, fixed pipe, gutter, guttering, fixed tank or drain, sink, basin, bath, shower, toilet or spa bath, dishwasher or washing machine, fixed heating or cooling system, aquarium.	Damage or loss resulting from: liquid escaping slowly over a period of time where you could reasonably be expected to be aware of this condition. The cost of repairing or replacing the item from which the water or liquid escaped.
Malicious acts and vandalism – actual or attempted by persons who are not living at the site and who enter the building or site without your consent or the consent of any person living at the site.	Damage or loss caused by carelessness, lack of maintenance or poor housekeeping by you or your tenant or anyone living at the site. Damage or loss caused by: your tenant or anyone living at the site or anyone who has entered the landlord building or the site with their consent, unless you have insured the damaged or lost property under AAMI Landlord Insurance with Tenant Protection (see page 35) in which case malicious damage caused by your tenant or your tenant's visitors to your insured property at the site is covered. Damage or loss caused by you.

Yes

No

Riot, civil commotion or labour disturbances

Damage or loss caused if you or your tenant or anyone living at the site participated in the event.

Storm and **rainwater** including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface.

The cost of cleaning or clearing debris from any pool or spa.

Damage or loss caused by water seeping into or otherwise entering your landlord building due to:

- a defect or fault in the design, structure or construction of your landlord building where you could reasonably be expected to be aware of the defect or fault,
- building alterations, renovations or additions.

Damage or loss caused by dust where your landlord building has not been otherwise damaged by storm.

Theft by persons who are not living at the site and who enter the building or site without your consent or the consent of any person living at the site.

Damage or loss caused by:

- your tenant or anyone living at the site or anyone who has entered the landlord building or the site with their consent,

unless you have insured the damaged or lost property under AAMI Landlord Insurance with Tenant Protection (see page 35) in which case damage or loss caused by your tenant or your tenant's visitors is covered.

Damage or loss caused by you.

If the damaged or lost landlord contents were in:

- the open air at the site, or
- any buildings or outbuildings that were not fitted with working locks, or partially enclosed buildings or areas of buildings such as carports, balconies, courtyards and verandahs,

the amount we will pay is shown on the most recent of your policy schedule and renewal notice.

Thunderbolt and lightning

What we do not cover – general exclusions

You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

an unreasonable failure to properly maintain or repair your insured property, wear and tear, rust, deterioration or corrosion, mechanical, structural, electrical, electronic or other failure or breakdown, other than as provided for under 'Damage to electric motors' on page 29, mould, wet or dry rot, rising damp or dampness, storm surge, being an increase in sea level that usually occurs with a severe storm or cyclone, tidal wave, tsunami, high tide or other actions of the sea, erosion or washing away of soil, earth or gravel, the washing away or movement of the surface of any path or driveway which has a surface consisting of a loose material such as gravel, stone or dirt, soil movement or settlement, subsidence or landslide **unless** caused by the insured event of earthquake, the moving, shifting or dislodging of any swimming pool, spa and their covers and liners, septic tank or other inground structure **unless** caused by the insured events of earthquake or impact, the actions of trees, plants or their roots, actions of insects (including termites) or vermin, scratching, chewing, tearing or soiling by animals and birds kept in your building or at the site,

the lawful taking or repossession of or from your insured property or the site, for example, a bank taking possession as a result of a mortgage default, fraud or fraudulent means or devices used by you or anyone acting on your behalf to obtain benefit under this policy,

deliberate or intentional acts committed by you or someone acting on your behalf or by any person who enters the site or your landlord building with your consent; this includes your tenant **unless** you have covered your insured property under AAMI landlord insurance with Tenant Protection. See page 35,

war, warlike activities or revolution including any looting or pillaging, asbestos, asbestos fibres, or derivatives of asbestos in any form,

but when your landlord building is insured under this policy,

we will pay for the costs of removing and disposing of asbestos from the building or site where it is directly necessary as a result of damage or loss caused by an insured event.

You are not covered under any section of the policy for damage, loss, cost or liability:

directly or indirectly caused by, arising from, or connected with: the use, misuse or existence of nuclear weapons; or the use, misuse, escape or existence of nuclear fuel, waste or nuclear materials or ionising radiation or contamination from such fuels, waste or materials; or combustion, detonation, fission and/or fusion of nuclear fuel or nuclear materials,

directly or indirectly caused by, arising from, or connected with actual or threatened chemical or biological pollution or contamination; or action taken by a public authority or any body authorised by a public authority to prevent, limit or remedy such actual or threatened release, pollution or contamination.

Precautions that you need to take

Precautions

You must at all times, and at your expense, take all reasonable precautions:

- for the safety and protection of your insured property,
- to prevent bodily injury or damage to property,
- to prevent damage to your insured property,
- to ensure compliance with all statutory obligations, by-laws or regulations imposed by any public authority, relating to the safety of persons or property.

If you do not, we may reduce or refuse to pay any claim you may make.

What we will pay – new for old

Repairing or rebuilding your landlord building

If your landlord building is damaged during the period of cover by an insured event, we will decide if the damage:

- can be properly repaired, or
- it is so severe that we reasonably believe your building will need to be rebuilt.

Repairing your landlord building

When we establish that your landlord building can be properly repaired, we will decide to:

- repair it, or
- pay the cost of repairing it.

When we decide to repair your building, we will use new materials.

We will make reasonable endeavours to match materials. Where this does not achieve an exact match, materials that in our opinion match the damaged or lost materials as near as reasonably practicable will be used. We will not pay to replace undamaged materials or any undamaged part of them to achieve a match.

Rebuilding your landlord building

When we establish that your landlord building will need to be rebuilt, we will decide to:

- rebuild it to the same size and standard as your current landlord building, or
- pay the total cost of rebuilding it to the same size and standard as your current landlord building.

When we decide to rebuild your building, we will use new materials.

When we decide to rebuild your building and you are paying your premium in instalments, we will require you to pay the total unpaid balance of your premium before your claim can proceed.

Damage to fixed wall or floor coverings

When we repair or replace damage to fixed wall, ceiling or floor coverings:

we also repair or replace undamaged coverings if this is reasonably required to achieve a match with the repair or replacement of the damaged area,

the repair or replacement is limited to the room, passageway, stairwell or functional area where the damage occurred.

Fixed wall and floor coverings are items such as tiles, floating floors, fixed cupboards and shelving.

The AAMI Repair Guarantee

The quality of workmanship and the materials used in any repair or rebuilding of your landlord building and landlord contents that we arrange and authorise will be guaranteed for the life of the property.

If you are concerned about the quality of the repair or rebuilding of your landlord building, you must call us on 13 22 44. We will arrange with you to inspect the repair or rebuilding and we will arrange any necessary rectification work. You must not authorise any rectification work without our written authority.

Maintaining your landlord building; compliance with statutory requirements

We insure your landlord building on the condition that it has been and will continue to be properly maintained and repaired, and that it complies and will continue to comply with local government or other statutory requirements.

When you claim for damage or loss to your landlord building, and your landlord building:

has not been properly maintained and repaired, or

does not comply with local government or other statutory requirements,

we may reduce our payment or refuse to pay your claim.

Other costs

We will also pay for the following where applicable.

Demolition and removal of debris

We will pay the reasonable cost of, and, at our option, arrange for the:

demolition of your destroyed landlord building,

removal of debris from the site necessary for repairing or rebuilding,

removal from the site of fallen and unsafe parts of a tree when the tree or part of it has impacted with your landlord building causing damage or loss.

Making safe

We will pay the reasonable cost of, and, at our option, arrange for any temporary work required to make safe your damaged or destroyed landlord building.

Professional fees

We will pay the reasonable fees for the services, if necessary, of an architect or surveyor.

Compliance costs

In repairing or rebuilding your building, we will pay the extra costs necessary to satisfy the current requirements of any local council or government authority.

Legal costs to discharge your mortgage

We will pay your reasonable legal fees to discharge any mortgage on your landlord building when we pay the cost of rebuilding your landlord building.

Repairing or replacing your landlord contents

When an insured event causes damage or loss to your landlord contents during the period of cover, we will decide either to repair or replace your contents or to pay the cost of repairing or replacing them.

If we decide to repair or replace your landlord contents:

it will be with new materials or new contents,

we will make reasonable endeavours to match materials and contents. Where this does not achieve an exact match, materials and contents that in our opinion match the lost or damaged contents as near as reasonably practicable will be used.

If we decide to pay the cost of repairing or replacing your landlord contents:

our payment will not exceed any limits detailed in this policy and it will not exceed the landlord contents amount covered, except as provided for under 'We also cover – additional benefits' on pages 30 and 31 of this policy,

our payment will be the current retail price or the discounted price we may obtain, whichever is lower.

We will pay up to the landlord contents amount covered shown on the most recent of your policy schedule and your renewal notice.

See 'The AAMI Repair Guarantee' on page 22.

We do not pay for

We do not pay for:

the repair or replacement of undamaged landlord contents or undamaged part of them to match landlord contents we have repaired or replaced,

any decrease in the value of a pair, set or collection when the damaged or lost contents forms part of the pair, set or collection. We pay only for the repair or replacement of the item which was damaged or lost,

damage or loss on a 'new for old' basis for old landlord contents which have passed their 'use by' date and are stored away. We pay the reasonable market value for these landlord contents based on their age and condition at the time of the loss.

Maintaining your contents

We insure your landlord contents on the condition that they have been and will continue to be properly maintained and repaired.

If, when you claim for damage or loss, your landlord contents have not been properly maintained and repaired, we may reduce our payment or refuse to pay your claim.

Other costs

Our payment will include, where applicable, the following costs and these costs will be included within the landlord contents amount covered. Where we decide to reimburse a cost you have incurred, our payment will not be more than the actual cost you incur.

Removal of debris

If the removal from your landlord building of damaged or destroyed landlord contents is necessary, we will pay the reasonable cost of the removal, and, at our option, make the necessary arrangements.

When your landlord contents are removed for storage or repair

If your landlord building is damaged or destroyed by an insured event, we will pay: the reasonable cost of any necessary removal and storage of your landlord contents during the reasonable period for up to 12 months while your landlord building is being rebuilt or repaired,

for any additional damage or loss to your landlord contents caused by an insured event while they are at the place of storage or repair, provided the landlord contents amount covered is not exceeded.

What we cover – additional benefits

When your landlord building is insured

Accidental breakage

We will either replace or pay the reasonable cost of replacing the following when they are accidentally broken:

any area of glass (including glass tint, if fitted) fixed to your landlord building, glass (but not light globes) in a fixed light fitting in your landlord building, fixed basins, sinks, baths, shower bases, lavatory pans or cisterns in your landlord building.

We will also repair or replace or pay the cost of repairing or replacing the frame of any window, door or shower screen **but only** if this is necessary to enable the glass to be replaced.

We will not replace or pay for:

any glass in a glasshouse or conservatory,
any part of a fixed cooking or heating appliance (for example, the glass top of a stove is not covered),
any area of glass or item which is already damaged or in an imperfect condition.

We pay for loss of rent

We will pay for the loss of rent incurred by you while your landlord building is being rebuilt or repaired if:

your landlord building has been damaged or lost by an insured event, and we agree your landlord building is no longer habitable, and
your tenant was paying rent due under a current rental agreement with you for at least four consecutive weeks preceding the date the damage or loss occurred.

We also pay loss of rent if:

we agree that access to your landlord building is prevented by accidental damage or loss to other property near your landlord building, and

your tenant was paying rent due under a current rental agreement with you for at least four consecutive weeks preceding the date the damage or loss occurred.

Our payment will be actual loss of rent incurred by you during the reasonable period up to 12 months required to repair or rebuild your landlord building or to restore access to your landlord building and it is otherwise habitable.

Damage to electric motors

We will pay the full cost of damage caused by electric current to an electric motor if the motor is less than 10 years old, and:

the motor is in a piece of fixed domestic equipment forming part of your landlord building.

We will not pay if the damage to the motor or the equipment is covered by a new product guarantee or warranty.

We help to locate water leaks

We will pay the reasonable cost of locating the source of water or liquid leaking or discharging from pipes and fixtures and fittings at your landlord building.

We will not pay the cost of repairing or replacing the pipe, fixture or fitting which caused the leak or discharge.

The most we will pay is shown on the most recent of your policy schedule and renewal notice.

We help replace locks

When the key to the lock of any window or external door of your landlord building is stolen, we will pay the reasonable cost of replacing or rekeying the locks operated by that key.

When your landlord contents are insured together with your landlord building

Any payment we make under the following benefits will be additional to the landlord contents amount covered and will include GST.

Accidental breakage

We will either replace or pay the reasonable cost of replacing, when it is accidentally broken:

- any area of glass forming part of your landlord contents (including table tops, wall mirrors and free-standing lights).

We will not replace or pay for:

- any accidental breakage which has occurred while the item is outside your landlord building,
- any area of glass or item which is already damaged or in an imperfect condition,
- the picture tube or screen of any computer, television set or other type of visual display unit,
- any glass in a picture or photo frame, clock, radio, stereo or CD, video or DVD player
- glass vases, ornaments or light globes.

Damage to electric motors

We will pay the full cost of damage caused by electric current to an electric motor if the motor is less than 10 years old, and:

- the motor is in a domestic appliance which forms part of your landlord contents.

We will not pay if the damage to the motor or the equipment is covered by a new product guarantee or warranty.

What we cover – your \$10 million legal liability cover

When we will pay

We will cover your legal liability arising from accidents that happen within the site.

We will cover you against your legal liability for all claims arising from an accident or a series of accidents arising from any one occurrence occurring during the period of cover, causing:

bodily injury or death to any person other than you or your family, damage to or loss of property, other than property which you or your family own or for which you or they are legally liable.

Where your landlord building is a lot or unit which is part of a strata-titled development, and:

there is no other lot or unit above or below your lot or unit, you do not have any other liability insurance for your lot or unit, and we have agreed to provide Landlord Building Insurance for your lot or unit, we will also cover your legal liability arising from accidents that happen on the common property that is shown on the plan and is used for domestic or residential purposes.

Our payment will not exceed \$10 million in total (including all legal and defence costs and GST).

When we will not pay

We do not provide cover for your legal liability arising from or involving:

any of the causes listed under 'What we do not cover' on pages 18 - 19 of this booklet,

your occupancy or ownership of any residence, building or land other than your landlord building and the site,

a legal liability which arises only because you have agreed to take that liability upon yourself,

a liability which arises only because you have admitted liability,

an event that you have organised or are legally responsible for, **except where** the event takes place on the site,

things done intentionally or left undone intentionally by you, or any person acting on your behalf, with reckless disregard for the consequences,

lifts, cars, motorbikes, minibikes, vehicles, watercraft (including sail boats) or aircraft (including gliders),

Vehicles **do not** include bicycles, motorised wheelchairs, golf carts or garden appliances which do not have to be registered.

an animal other than a domestic dog or cat,

vibration, or the removal of, or interference with the support of land, buildings or other property,

alterations, additions, repairs or redecorations of your building or the site where the total value of the works exceed \$20,000,

the transmission of any disease, contaminated body fluid or body product, the consumption of alcohol or drugs, if your consumption of them caused or contributed to the accident,

employees or workers who are covered or should have been covered by Workers' Compensation or similar legislation and who, at the time of the accident, were employed by you or your tenant or anyone living at the site, the use of any part of your landlord building or the site for business, trade, professional services, farming of any type, **but not:**

the use of that part of the dwelling used for performing office work,

AAMI Landlord Insurance with Tenant Protection

any business, trade, profession or occupation conducted or operated or undertaken:

- by you or on your behalf, **unless** the business is landlord of the insured property covered by this policy,
- by or on behalf of your tenant or anyone living at the site,
- by or on behalf of any company, trust or other legal entity in which you or your tenant or anyone living at the site has an interest (legal, beneficial or otherwise),
- civil or criminal penalties or fines or aggravated, exemplary, punitive or multiple damages however described.

AAMI Landlord Insurance with Tenant Protection provides all the protection and benefits of AAMI Landlord Insurance plus cover for:

- rent default,
- malicious damage to your insured property by your tenant, and
- theft of your insured property by your tenant.

What we pay under tenant protection

Our payment for damage or loss to your landlord buildings caused:

- maliciously by your tenant, or
 - during theft by your tenant,
- will be up to the cost of repairing or rebuilding them:
- with new materials,
 - to the same size and standard of your current buildings.

When your landlord contents are insured, any payment we make will be within the landlord contents amount covered.

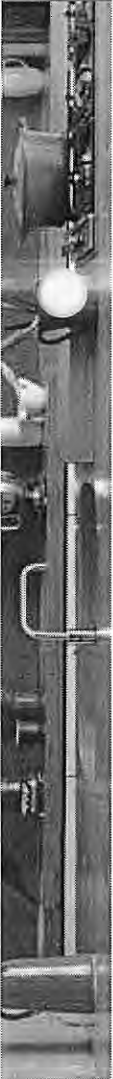

Any payments we make will include GST and will be subject to the same terms, conditions and exclusions as apply to AAMI Landlord Insurance, **other than** as set out below in this AAMI Landlord Insurance with Tenant Protection section.

When we will not pay

Once we have paid a claim arising during the period of cover against any of these benefits and:

- you make a further claim for a separate event, and
 - your tenant is the same tenant whose actions resulted in the first claim,
- we will not pay** the further claim regardless of which benefit is claimed against.

Our payment is reduced by the equivalent of the tenant's bond

Our payment for rent default claims does not cover the first four weeks your tenant is in default. Claims for theft or malicious damage by your tenant are reduced by the equivalent of four weeks rent.

Four weeks rent ordinarily is the amount of the security bond paid by tenants and retained by landlords when the rental agreement is sufficiently breached by the tenant.

Rent default

We will reimburse you for your loss of rent when your tenant stops paying and you stop receiving rent due under the current rental agreement and your tenant:

remains in default after you have issued any required notices, or
vacates your building permanently without providing the notice required under the current rental agreement.

We will pay the weekly equivalent of the rent provided by the rental agreement, commencing from

the fifth consecutive week your tenant is in default,
and continuing:

for 13 weeks , or

until rental payment re-commences, or

until your building is re-tenanted,

whichever comes first.

We will not pay for the first four consecutive weeks your tenant is in default.

We will not pay at all, unless your tenant has actually paid rent due under the current rental agreement for at least four consecutive weeks from the later of:

the commencement of that agreement, or
the commencement of this policy.

Malicious damage by your tenant

We will pay to repair or replace damage or loss maliciously caused by your tenant or your tenant's visitors to your insured property at the site.

Our payment will be reduced by an amount equivalent to four weeks rent at the rate payable under the current rental agreement.

We will not pay for damage or loss caused by carelessness, lack of maintenance or poor housekeeping by you or your tenant or anyone living at the site.

Theft by your tenant

We will pay to repair or replace damage or loss caused by theft of your insured property from the site by your tenant, or your tenant's visitors.

Our payment will be reduced by an amount equivalent to four weeks rent at the rate payable under the current rental agreement.

What to do if you need to claim on your AAMI policy

If your insured property has been damaged or lost or someone is claiming against you, please phone us immediately. We may require you to report the matter to the police.

You can call AAMI at any time on 13 22 44.

Our claims service will take away the stress and hassle by taking care of everything for you.

Helping us to pay your claim

When you can provide us with information such as documents, booklets and photographs showing and/or valuing your insured property, you help us make speedy and accurate decisions regarding your claim and the repair, replacement or the rebuilding of your insured property. This information helps establish ownership of property and its value and condition and the value of any lost rent you may be claiming

This information includes:

receipts, bank and credit card statements, agreements and reports, valuations and photographs (photographs do not have to be specifically of your insured property; it may be easily identifiable in photos taken, for example, of personal events).

We may require this type of information. If you are unable to provide information of this type, that establishes ownership and value of the property in question and the value of your claim, then we may reduce or refuse to pay your claim.

What happens when you claim on your AAMI policy

When you tell us about the damage or loss to your landlord building and/or landlord contents, where necessary and as soon as possible, we arrange:

for our assessor to meet with you, inspect your landlord building and/or landlord contents and confirm the full details of the damage or loss, temporary repairs to and the securing of your landlord building and/or landlord contents.

We discuss with you what is necessary to make good the damage or loss and then we will decide:

for your landlord building, either to repair or rebuild your building or pay the cost of repairing or rebuilding your landlord building to the same size and standard as your current landlord building.

for your landlord contents, either to repair or replace your contents or pay the cost of repairing or replacing your landlord contents up to the landlord amount covered.

Repairing and/or replacing your insured property

We ordinarily obtain independent, competitive quotes from repairers and suppliers recommended by AAMI. If you want, you can choose a repairer and/or supplier to provide one of the quotes. We review the quotes, including any quote from a repairer and/or supplier you choose, and what is necessary to properly repair or replace your insured property. We choose the repairer and/or supplier who submitted the more competitive and complete quote and that will be the repairer and/or supplier who repairs or replaces your insured property.

We will enter into any contract with the selected repairer and/or supplier on your behalf. We will oversee the repairs and/or replacement and keep you informed of their progress.

Changes to your landlord building

You can have changes made to the design and structure of your landlord building before repair or rebuilding. Any extra cost of such changes will be your responsibility.

We may decide to pay you the cost of repairing or rebuilding your building without the changes you require.

What happens to your policy when you claim?

Damage or loss to your landlord buildings

When we establish that...	What happens to your policy
the damage or loss can be repaired, we decide either to...	repair your building. or pay the cost of repairing your building. Your policy continues for the remainder of the period of cover. Your policy continues for the remainder of the period of cover.
the damage or loss can't be repaired and your building has to be rebuilt, we decide either to...	rebuild your building. or pay the cost of rebuilding your building. Your policy continues for the remainder of the period of cover. Your policy, including the legal liability cover it provides, comes to an end. We also pay, where relevant, any outstanding additional benefits. Because our payment meets all our obligations to you in full, there is no refund of any portion of the premium.

Damage or loss to your landlord contents

When we establish that... What happens to your policy

the damage or loss is less than your contents amount covered, we decide either to...	repair or replace your contents. or to pay the cost of repairing or replacing your contents. Your policy continues for the remainder of the period of cover. Your policy continues for the remainder of the period of cover.
the damage or loss is likely to be greater than your contents amount covered, we decide to...	pay the amount covered for your contents. Your contents cover comes to an end. We also pay, where relevant, any outstanding additional benefits. Because our payment meets all our obligations to you in full, there is no refund of any portion of the premium. If you wish to reinstate your contents cover, please call us on 13 22 44.

When you claim on your policy, your responsibilities include

Preventing further damage or loss

Following an event that is likely to result in a claim, you must take all reasonable precautions to prevent any further damage, loss, cost or liability.

Allowing us access

You must provide us with access to your insured property to inspect damage or loss, arrange quotations, repair or rebuilding, and undertake progress inspections if required.

Obtaining our written authority for the repair of your insured property

You must not authorise the repair of your insured property, apart from emergency repairs, without our written permission.

Obtaining our written consent

You must not make any admissions or settle any claims without our prior written consent.

Giving assistance – information, notices, negotiating, defending and settling claims

You must give us the information and assistance we reasonably request in evaluating the cause, extent and value of any claim. This may include:

- providing us with full details of the claim in writing,
- providing valuations, receipts or other evidence of ownership,
- providing written statements,
- undergoing an interview or interviews about the circumstances of the claim, appearing in court and giving evidence.

You must assist us to recover any part of the claim from the person responsible for the accident or event which results in a claim.

You must promptly deliver to us any relevant letters and notices that come into your possession.

We shall be entitled, but not obliged, to defend or represent you in any legal

proceedings relating to an accident or occurrence which may give rise to a claim against us and to control, settle and deal with those proceedings as we see fit.

We will pay the legal and other reasonable related costs of defending any claim made against you, provided we appoint the solicitors who will defend the claim and we have told you in writing that we will pay their costs.

You must assist us in all our endeavours to negotiate, defend or settle any claim made under this policy and to exercise for our benefit your legal right of recovery against any other party (including a party involved in making good any damage or loss).

If you fail to assist us, or do not abide by any of these terms, we may reduce or refuse to pay your claim.

Excesses

Excesses

An excess on your policy is the amount that you must first contribute towards each claim. If your claim is for more than one occurrence, the excess applicable to each occurrence will be payable.

The excesses that apply to your policy will be shown on the most recent of your insurance schedule and your renewal notice. When you make a claim we may require you to pay the excess or we may deduct the excess from any payment we make. We will tell you when and how the excess is to be paid or deducted.

When an unoccupied excess is payable, it will be additional to any other excesses that apply to your claim.

Unoccupied excess

Your insured property is at greater risk of damage or loss when your building is unoccupied for a lengthy period.

Because of this extra risk, if you claim for damage or loss to your insured property:

which occurs after your landlord building has not been occupied for 60 continuous days, an additional compulsory excess is payable.

What happens when your building and contents are insured with AAMI

When your landlord building and landlord contents are insured with AAMI and your claim is for damage or loss to both, whichever is the higher of your total building and your total contents excesses, including any FlexiPremium excesses, will be payable.

AAMI Flexi-Premiums™

With AAMI Flexi-Premiums™, the higher the excess you choose, the bigger the discount on your premium. Please call 13 22 44 for full details.

Important general information for you

You can contact us:

By phone: Call 13 22 44 (24 hours a day, every day of the year).

Via the internet: aami.com.au

By mail: PO Box 14180, Melbourne City Mail Centre, Victoria 8001.

In person: Call 13 22 44 for the address of the closest AAMI branch or customer service centre.

Value your landlord contents for their current replacement cost

We will pay up to the amount covered to replace your landlord contents at their current cost if they are destroyed or damaged beyond repair by an insured event.

Therefore it is in your own best interests, to ensure the amount covered - the insured value you decide upon for your contents - is accurate when you first insure them and each time you renew your policy.

To help you do this, AAMI provides a contents value calculator that you can access at the AAMI website aami.com.au or by calling AAMI on 13 22 44.

Inflation protection

AAMI automatically adjusts the amount covered for your contents at the end of each period of cover to account for inflationary trends.

When we quote you a premium

When we quote you a premium for landlord insurance, the factors we take into account include:

- the current cost of rebuilding your landlord building including the associated costs we cover, such as demolition and removal of debris, making safe, professional fees, and extra costs to satisfy current council or government requirements,

- the value, when you wish to insure them, of your landlord contents, our experience of the incidence and cost of landlord building and, where applicable, landlord contents claims,

- the value of the benefits we include within your cover, your insurance history,

- the insured address (the address where your landlord building is located),

- the cost of providing legal liability cover,

- our costs of providing and administering this policy,

- whether you pay your premium in instalments,

- any discounts that apply because of your particular circumstances.

Government taxes and charges are included in the premium we quote.

An excess may be payable on any claim you make on this policy. See page 44 for further details.

Secure contents

When your landlord contents are insured under this policy and they are protected by additional security at your landlord building, we reward this with a lower premium.

The security measures we take into account in deciding your premium discount are:

- deadlocked external doors,
- keyed locks on all accessible windows,
- a local burglar alarm,
- a back-to-base burglar alarm,
- only electronic access (key pad or card) to the site or building,
- video surveillance of access to the site or building,
- doorman, security guard or security patrol.

Premium discounts may also apply according to:

- your claims history as an AAMI Landlord Insurance policyholder,
- the number of AAMI insurance policies you hold.

Please call AAMI on 13 22 44 for further details.

Paying your premium

You can pay your premium annually by cheque, credit card, BPAY, online through AAMI e-PAY, or in cash at AAMI branches or Australia Post offices. Further details are provided on the payment notice we issue at the commencement and each renewal of your policy.

Paying by instalments

You may also be eligible to pay in regular instalments by direct debit.

When you pay this way, the total premium is higher than we charge for one annual payment, reflecting the higher costs we experience. Any premium discounts we may provide are applied before these additional costs are calculated.

Your responsibilities when paying by instalments

When paying by instalments:

you must be an authorised signatory on the account nominated for your direct debit payments,

you must ensure that your nominated account can accept direct debits and has sufficient funds to meet each payment at each due date,

your financial institution may also apply its own fees (including dishonour fees). Those fees are your responsibility.

What happens if your instalment remains unpaid?

AAMI may cancel your policy without notice if an instalment payment remains unpaid for one month or more.

Any claims arising after the due date may be refused.

Changing your instalment payments

If you wish to change or cancel your direct debit arrangements, you need to contact us at least seven days before the debit day.

If you cancel the debit completely, you will need to arrange for another way to pay us your premium, to ensure you remain covered.

Important things to remember when paying by instalments

When you first commence your direct debit payments, or when you change your account details, it may take up to 14 days for us to first debit your account.

If you believe that we may have incorrectly debited your account, please contact us on 13 22 44.

When you claim on your policy and we establish that the damage or loss to:

- your building is so severe that it will need to be rebuilt; and/or
- your contents is so extensive that we decide to pay the contents amount covered,

we will require you to pay the total unpaid balance of your landlord building and/or landlord contents premium before your claim can proceed.

Government taxes and charges

AAMI shows on receipts any government taxes and charges such as GST, Stamp Duty and Fire Services Levy allocation included in insurance premiums.

GST

Any amounts we pay under this policy include GST.

Renewing your policy

When we offer to renew your policy:

- we will send you a notice before the policy expiry date,

- we will tell you in writing if there are any changes to the policy. Changes that benefit you apply from their introduction.

Changes introducing limitations apply from the policy's renewal,

we may require an additional premium if you make a claim in the short period between the time we calculated the renewal premium and the expiry of your policy. If the additional premium is not paid, we may reduce the period of cover to match the reduced amount paid.

Cooling off period and cancellation

Federal law provides that you can cancel this policy within 14 days of its purchase. AAMI allows you to cancel your policy at any time.

In both cases, we will refund you the unexpired portion of the premium less any cancellation processing charge to cover the reasonable administrative and transactions costs incurred by AAMI.

To cancel your policy, please call us on 13 22 44.

We can only cancel your policy by giving you written notice in accordance with the Insurance Contracts Act 1984.

Joint policyholders

When you insure your landlord property in the names of more than one person, each person is a joint policyholder and is able to make changes that we agree with to the policy.

The privacy of your personal information

We are committed to protecting the privacy of your personal information. That commitment is reflected in the AAMI Customer Charter and in our compliance with the National Privacy Principles. For further information, please visit our website aami.com.au or call us on 13 22 44 for a copy of our 'AAMI and Your Personal Information' brochure.

AAMI's Customer Charter

We are committed to always provide you with the highest standard of service. The AAMI Customer Charter is a written document containing service and reporting promises which we are bound to deliver. In fact, we impose a penalty on ourselves if we fail to do so.

This unique Charter was drawn up through consultation with our staff, our customers and industry regulators, and is reviewed annually. Compliance with our promises is independently audited every year and the results are reported publicly.

The AAMI Customer Charter, introduced in 1996 was Australia's first general insurance customer charter, and indeed, first retail customer charter. The Charter is your guarantee that we're always striving to deliver the best in customer service.

The AAMI Consumer Appeals Service

If you are unhappy with anything we have told you or done for you, we want you to tell us about it. If we cannot resolve the matter to your satisfaction, other appeal services are available to you. See page 58 for full details.

The General Insurance Code of Practice

AAMI is a signatory to the General Insurance Code of Practice which sets out a commitment by the general insurance industry to raise standards of service and to promote better relations between customers and insurers.

The Code describes standards in areas such as buying insurance, claims handling, responding to catastrophes and disasters, information and education and dispute resolution. Introduced in 1995 with the backing of consumer groups, the federal government, insurers and the Insurance Council of Australia, it was revised in 2005.

More information on the Code, or a copy of the Code, can be obtained from the Financial Ombudsman Service (FOS). You can contact the FOS on 1300 780 808, toll free, or you can access the Code at www.codeofpractice.com.au

What do we mean by that?

AAMI, we, us, our mean Australian Associated Motor Insurers Limited (ABN 92 004 791 744).

Accident means an accident or a series of accidents resulting from any one occurrence.

Collection or **set** means a group of items of sufficiently common type, appearance or nature that they reasonably belong together and that is devalued if one or more of the group is damaged or lost.

Cover and **covers** mean the protection provided by your policy.

Damage and loss.

Damage means actual physical damage to your insured property.

Loss or **lost** means your insured property or a part of your insured property being destroyed, stolen or damaged beyond economical repair.

Loss does not mean items being accidentally misplaced.

Endorsement means a special condition that applies to your policy.

Any endorsements to your policy are shown on your insurance schedule.

Excess. An excess on your policy is the amount that you must first contribute towards each claim.

Fire means burning with flames.

Fixtures and **fittings** means items used for domestic and residential purposes, and which are permanently attached to your landlord building or the site.

Insured address means the address at which your landlord building is located.

Insured event. The occurrences we have listed on pages 12 to 17 which cause damage and loss to your insured property.

Insured property means:

the landlord building, and

when you have insured them under this policy,

the landlord contents.

Landlord means the person named in the insurance schedule as the insured property owner and whose landlord building is being rented for domestic or residential purposes.

Landlord building means the building(s) covered under this policy.

See pages 7 to 8 for the buildings that **are** covered and **are not** covered.

Landlord contents means the contents covered under this policy.

See pages 9 - 11 for the contents that **are** covered and **are not** covered.

Landlord contents amount covered is the most we will pay, less any excesses and amounts we deduct from claims under AAMI Landlord Insurance with Tenant Protection, for any accidental damage and loss to your landlord contents covered by your AAMI policy occurring during the period of cover. The landlord contents amount covered includes GST. The current landlord contents amount covered is shown on the most recent of your insurance schedule and your renewal notice.

Living with your tenant. Any person normally living or staying with your tenant in your landlord building or at the site.

Occupied means your tenant or another person is living or staying in the landlord building or at the site with your consent.

Period of cover means the current period for which we have agreed to provide you with insurance cover. The current period is shown on the most recent of your insurance schedule and renewal notice and any receipt we may send to you.

Policy means this booklet and your **policy schedule**.

Your **policy schedule** comprises the notices we give you which show the particular details and the current status of your policy. These notices are the most recent of your **insurance schedule** and **renewal notice**, and any **receipt** we may send you.

Your **insurance schedule** sets out the information you have given us on which we have based our decision to insure you as well as the individual details of your policy. We will send you an updated insurance schedule whenever you advise us of a change in this information or these details.

Rental agreement means the agreement between your tenant and you or your agent which sets out the terms and conditions of the tenancy including the tenancy period and the amount of rent payable to you.

Site means those parts of the land at the insured address which are used for domestic or residential purposes **but not** 'common property' which is land or areas that people as well as those living with you are entitled to use, for example common property in a multi-dwelling development.

Storm means violent wind (including a cyclone or tornado), thunderstorm or a heavy fall of rain, snow or hail.

Theft means actual or attempted theft and burglary.

You and **your** mean the person, persons or entity named as the insured on the most recent of your insurance schedule and renewal notice and members of your family.

Your tenant's family means the following people who normally live with your tenant:

- your tenant's spouse or partner,
- your tenant's children, parents, grandparents, grandchildren, brothers and sisters,

the children, parents, grandparents, grandchildren, brothers and sisters of your tenant's spouse or partner.

Your family means the following people who normally live with you:

- your spouse or partner,
- your children, parents, grandparents, grandchildren, brothers and sisters,
- the children, parents, grandparents, grandchildren, brothers and sisters of your spouse or partner.

Your tenant means all persons named in the rental agreement provided that they are normally living in the landlord building or at the site, and their family.

The AAMI Consumer Appeals Service

What to do if you are not satisfied with us

Here is how the AAMI Consumer Appeals Service helps you if you are dissatisfied with the results of your dealings with AAMI.

1. Who do you talk to?

If you are unhappy with anything:

we have told you or done for you, or
that has been provided on our behalf,

please tell us. You can phone us on 13 22 44 or call in to an AAMI branch.
Most times we will be able to sort the matter out to your satisfaction.

2. The AAMI Customer Ombudsman

However, if you are not satisfied with our response, you can ring,
write to or email the AAMI Customer Ombudsman with the details.
The AAMI Customer Ombudsman will respond to you within five working
days of receiving your letter or email.

3. Appealing to the independent dispute resolution scheme

If you disagree with the AAMI Customer Ombudsman's decision, you can
appeal to the Financial Ombudsman Service. We will help you do this.

The Financial Ombudsman Service is an independent industry dispute
resolution scheme. You can contact the service on 1300 780 808 toll free
or by email to info@fos.org.au. You can also visit the FOS website at
www.fos.org.au. There is no charge for this service.

4. Are any decisions binding on you?

You do not have to accept any decision AAMI or the FOS makes.
You always have the option of seeking remedies elsewhere.

Any decision the AAMI Customer Ombudsman or the FOS makes is binding
on AAMI, provided you also accept the decision.

How to contact AAMI

Telephone: 13 22 44 (24 hours a day, every day of the year).

How to contact AAMI Consumer Appeals

Telephone: 1300 130 794 (local call costs apply).

9am to 5pm EST Monday to Friday.

Fax: (03) 9529 1214.

Write to: The AAMI Customer Ombudsman, AAMI Limited,

PO Box 14180, Melbourne City Mail Centre, Victoria 8001.

Email: consumerappeals@aami.com.au

How to contact the Financial Ombudsman Service

Telephone: 1300 780 808 toll free.

Email: info@fos.org.au

AAMI Landlord Insurance Policy Supplementary Product Disclosure Statement

This Supplementary Product Disclosure Statement has been provided to explain a new limitation to cover that should be read together with and will form part of your AAMI Landlord Insurance Policy – Product Disclosure Statement ("your Policy") - completed 31 July 2006).

The following section replaces the sentence, "**We will not pay** for the first four consecutive weeks your tenant is in default" on page 36 of your Policy.

We will not pay for:

the first four consecutive weeks your tenant is in default,

loss of rent directly or indirectly caused by, arising from or connected with a human pandemic, epidemic or any other outbreak of infectious disease declared by any government, statutory or regulatory authority.

This Supplementary Product Disclosure Statement was completed on 17 May 2007.

STRATA TITLE LANDLORD INSURANCE POLICY

Product Disclosure Statement

AAMI

Flexible insurance from AAMI for residential investment property landlords

AAMI Strata Title Landlord Insurance gives you the cover you need for your rental property.

In this booklet

AAMI Strata Title Landlord Insurance

AAMI Strata Title Landlord Insurance removes any doubt about whether your landlord fixtures and fittings are insured. We cover damage or loss to your landlord fixtures and fittings when that damage or loss is caused by an insured event and it is not insurable by your body corporate. See page 7 for details.

When you lease your lot or unit partly or fully furnished, you can insure the contents you provide for your tenant's use for their replacement value with AAMI. See page 9 for details.

AAMI Strata Title Landlord Insurance with Tenant Protection

As well as covering your landlord fixtures and fittings, and, if you choose, your landlord contents, this policy covers:

- tenant rent default,
- theft by your tenant, and
- malicious damage or vandalism by your tenant.

See page 30 for details.

Separately available from AAMI

AAMI Landlord Building and Landlord Contents

AAMI Landlord Building and Landlord Contents insurance provides building insurance for your rental home and, if you lease your rental home furnished, you can also choose to insure your landlord contents.

AAMI Landlord Insurance with Tenant Protection

As well as covering your landlord building, and, if you choose, your landlord contents, this policy covers rent default, theft by your tenant and malicious damage by your tenant.

Call 13 22 44 for full details.

Important information

Your AAMI Product Disclosure Statement The AAMI Strata Title Landlord Insurance policy

This Product Disclosure Statement provides information about the product we offer - the AAMI Strata Title Landlord Insurance policy. When we agree to insure you, your policy comprises this booklet and your policy schedule which shows the detail of the policy particular to you. See page 48.

This Product Disclosure Statement was completed on 31 July 2006.

Our commitment to you

When you are an AAMI policyholder and you need to claim on your policy, our claims service will take away the stress and hassle. We are here to help you 24 hours a day, every day of the year.

If your insured property has been damaged or stolen or someone is claiming against you, please phone us immediately. Call 13 22 44.

Please read this policy carefully and retain it so you can refer to it if required.

We rely on the accuracy of your information

When we agree to insure you, to renew or vary your policy, or to pay your claim, our decision relies on the accuracy of the information you give us.

If that information is not accurate, we can reduce or deny any claim you may make or cancel your policy. We never want to have to do that, so you must answer honestly, correctly and completely the questions we ask about:

- you,
- your insured property,
- the strata title building insurance policy covering your lot or unit at the insured address,

the rental agreement between you and your tenant, any events involving your insured property that result in a claim on your AAMI policy.

When you receive your renewal notice, please carefully check the information it shows about you. If any of that information is incorrect or incomplete, please call us and we will update our records.

We also require you to:

observe the conditions contained in your AAMI policy, pay or agree to pay us the premium we charge and any excesses that apply.

Some words in this policy have definite meanings

This policy uses words that have definite meanings. To make sure you are aware of these words and their meanings, please read 'What do we mean by that' on pages 46 - 49.

This policy does not cover some events, circumstances and situations

As you read through this policy, you will see there are some events, circumstances and situations it does not cover. To make sure you are aware of these exclusions, please read the whole policy carefully including the section 'What we do not cover - general exclusions' beginning on page 18.

See also 'Important general information for you' on pages 39 - 45.

What we cover

What we cover as the landlord fixtures and fittings

When your lot or unit is part of a strata title or similar development, the buildings, structures and common property at the development generally are insurable by the body corporate or similar entity.

That insurance may also cover fixtures and fittings within your lot or unit and loss of rent. In circumstances where it doesn't, AAMI provides the following cover:

When an event insured under AAMI Strata Title Landlord Insurance occurs during the period of cover, and:

- it causes damage or loss to your landlord fixtures and fittings or loss of rent at your lot or unit, and
- that damage or loss **is not insurable** by the body corporate for the strata title development at your insured address,

we cover your landlord fixtures and fittings and loss of rent as set out below.

Any payment we make will be within the amount covered and will include GST.

Protection for your landlord fixtures and fittings

We will pay to repair or replace loss or damage to your landlord fixtures and fittings, including fixed floor coverings, internal blinds and curtains, in your lot or unit that are not insurable by the body corporate.

We will pay up to the amount covered shown on the most recent of your policy schedule and your renewal notice.

We **will not** pay for loss or damage to landlord fixtures and fittings insurable by the body corporate for the strata title development at your insured address.

What we cover – the landlord contents

Protection for loss of rent

We will pay for the loss of rent incurred by you while your insured property is being repaired or replaced if:

- it has been damaged or lost by an insured event, and
- we agree your lot or unit is no longer habitable, and

your tenant was paying rent due under a current rental agreement for at least four consecutive weeks preceding the date the damage or loss occurred.

We also pay loss of rent if:

we agree that access to your lot or unit is prevented by accidental damage or loss to other property near your lot or unit, and

your tenant was paying rent due under a current rental agreement for at least four consecutive weeks preceding the date the damage or loss occurred.

We will pay for loss of rent at the weekly rental provided by the rental agreement:

for 13 weeks, or

until your insured property has been repaired or replaced, or access has been restored to your lot or unit and it is otherwise habitable, whichever comes first.

We **will not** pay for loss of rent insurable by the body corporate for the strata title development at your insured address.

Where and how your landlord contents are covered

Which contents?	Where are they insured?	What are they covered against?	How much are they covered for?	What optional cover is available?
Landlord contents provided for your tenant's use, for domestic or residential purposes.	At your landlord lot or unit.	Damage or loss caused by the insured events listed on pages 12 - 17.	Up to the amount covered except for theft - see page 16.	AAMI Strata Title Landlord Insurance with Tenant Protection provides cover against tenant rent default, malicious damage and theft. See page 30.

Your landlord contents

When you have insured your landlord fixtures and fittings and your landlord contents under this policy, the contents items we cover are those provided for your tenant's use, for domestic or residential purposes, and which are:

- kept at the lot or unit,
- not permanently attached to the land or structure at the lot or unit, owned by you or for which you are legally liable.

These are contents such as furniture, loose floor coverings, wall hangings (for example, prints, paintings, framed photographs), sound and vision equipment (but not portable video cameras, cameras and other photographic equipment and not portable music systems), household linen, bedding, kitchen and dining equipment and free-standing appliances, computers and printers and associated equipment (but not their software and files), outdoor garden furniture and free-standing playground-type equipment.

Your landlord contents do not include

Any:

items that your tenant is liable for under the rental agreement,

- watches, jewellery, earrings; other items containing gold, silver, platinum, gems or precious or semi-precious stones; unset precious and semi-precious stones; bullion,
- cards, coins, medals, stamps (whether or not in a set or collection),
- cash, money orders, gift vouchers, tickets, manuscripts, certificates of title, licences, registration papers, negotiable instruments or documents of any kind,
- clothing, furs; handbags, purses and wallets; travel bags, suitcases and briefcases; toiletries,
- sunglasses and spectacles; binoculars, telescopes, opera glasses,
- portable video cameras, cameras and other photographic equipment,
- portable music systems,
- baby capsules, children's car seats and prams,
- sporting equipment,
- videotapes, CDs, DVDs and computer game software,
- computer software and files,

contents temporarily removed from your lot or unit,

- motorised or other wheelchairs, medical equipment, artificial limbs and artificial body parts, aids and accessories,
- hedges (whether or not they form a fence), lawns, trees, shrubs, outdoor plants, flowers, garden beds or any other living material,
- houseboats, watercraft, aircraft, caravans, trailers and mobile homes (fixed or free-standing), motor vehicles, motorcycles, minibikes, go-karts and golf carts, motorised vehicles of any other type including wheelchairs and the spare parts and accessories of any of these items,
- fish, birds, pets or animals of any type,
- tools of trade, professional equipment and home business equipment, sundry equipment normally used or associated with an office; stock in trade or samples, business or trade cash takings or business assets, plant or equipment for any type of business including any type of farming,
- firearms stored at the lot or unit.

What we cover – insured events

This section describes under the headings:

Yes – the insured events you **are** covered for,

No – the conditions and exclusions that specifically apply to particular insured events.

Yes	No
You are covered for damage or loss occurring during the period of cover and caused by the following events to: your insured property while it is in your lot or unit.	You are not covered for: damage or loss to any building, structure or land that comprises or forms part of your lot or unit, or the boundary of it.
Animals and birds – the actions of animals and birds	Damage or loss caused by: vermin, rodents, insects (including termites), domestic animals, animals and birds kept in your landlord building or at the lot or unit, scratching, chewing, tearing or soiling the exterior of all buildings and the interior of partially enclosed buildings.
Earthquake including subsidence and landslide caused by an earthquake.	Damage or loss caused by tidal wave, tsunami, high tide or other actions of the sea.
Explosion	
Fire (burning with flames).	Damage or loss caused by: any process involving the application of heat where there was no flame, for example, cigarette burn marks or scorch marks are not covered, soot and smoke where your lot or unit has not been damaged by fire, unless there was an occurrence within your lot or unit where no flame resulted but soot and smoke damage was caused.

Yes	No
Flood	Damage or loss caused by high tide.
Impact - sudden and unexpected impact of any: motor vehicle, aircraft, watercraft or space debris, object falling from a motor vehicle or aircraft, falling tree or part of a tree, aerial, mast or satellite dish which breaks or collapses.	Damage or loss caused by: a tree or part of a tree being felled or lopped by a contractor engaged by your tenant or anyone living at your lot or unit.
Liquid escaping suddenly and unexpectedly from a: water main, drain, fixed pipe, gutter, guttering, fixed tank or drain, sink, basin, bath, shower, toilet or spa bath, dishwasher or washing machine, fixed heating or cooling system, aquarium.	Damage or loss resulting from: liquid escaping slowly over a period of time where you could reasonably be expected to be aware of this condition. The cost of repairing or replacing the item from which the water or liquid escaped.
Malicious acts and vandalism – actual or attempted by persons who are not living at the lot or unit and who enter the lot or unit without your consent or the consent of any person living at the lot or unit.	Damage or loss caused by carelessness, lack of maintenance or poor housekeeping by you or your tenant or anyone living at your lot or unit. Damage or loss caused by: your tenant or anyone living at your lot or unit or anyone who has entered the lot or unit with their consent, unless you have insured the damaged or lost property under AAMI Strata Title Landlord Insurance with Tenant Protection (see page 30) in which case malicious damage caused by your tenant or your tenant's visitors to your insured property at the lot or unit is covered. Damage or loss caused by you.

Yes

No

Riot, civil commotion or labour disturbances

Damage or loss caused if you or your tenant or anyone living at the lot or unit participated in the event.

Storm including stormwater runoff from areas surrounding the lot or unit, or water escaping from any water main, drain, pipe, street gutter, guttering or surface.

The cost of cleaning or clearing debris from any pool or spa.

Damage or loss caused by water seeping into or otherwise entering your lot or unit due to:

Storm means violent wind (including a cyclone or tornado), thunderstorm or a heavy fall of rain, snow or hail.

a defect or fault in the design, structure or construction of your lot or unit where you could reasonably be expected to be aware of the defect or fault,

building alterations, renovations or additions.

Damage or loss caused by dust where your lot or unit has not been otherwise damaged by storm.

Theft – by persons who are not living at the lot or unit and who enter the building or lot or unit without your consent or the consent of any person living at the lot or unit.

Damage or loss caused by:

your tenant or anyone living at the lot or unit or anyone who has entered the lot or unit with their consent,

If the damaged or lost landlord contents were in:

unless you have insured the damaged or lost property under AAMI Sirata Title Landlord Insurance with Tenant Protection (see page 30) in which case damage or loss caused by your tenant or your tenant's visitors is covered.

the open air at the lot or unit,

any buildings or outbuildings that were not fitted with working locks, or

partially enclosed buildings or areas of buildings such as carports, on-site car parking bays, balconies, courtyards and verandahs,

Damage or loss caused by you.

the amount we will pay is shown on the most recent of your policy schedule and renewal notice.

Thunderbolt and lightning

What we do not cover – general exclusions

You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

an unreasonable failure to properly maintain or repair your insured property, wear and tear, rust, deterioration or corrosion,

mechanical, structural, electrical, electronic or other failure or breakdown, other than as provided for under 'Damage to electric motors' on page 25,

mould, wet or dry rot, rising damp or dampness,

storm surge, being an increase in sea level that usually occurs with a severe storm or cyclone,

tidal wave, tsunami, high tide or other actions of the sea,

erosion or washing away of soil, earth or gravel,

the washing away or movement of the surface of any path or driveway which has a surface consisting of a loose material such as gravel, stone or dirt,

soil movement or settlement,

subsidence or landslide **unless** caused by the insured event of earthquake, the moving, shifting or dislodging of any swimming pool, spa and their covers and liners, septic tank or other inground structure **unless** caused by the insured events of earthquake or impact,

the actions of trees, plants or their roots,

scratching, chewing, tearing or soiling by animals and birds kept in your lot or unit,

actions of insects (including termites) or vermin,

the lawful taking or repossession of or from your lot or unit, for example, a bank taking possession as a result of a mortgage default,

fraud or fraudulent means or devices used by you or anyone acting on your behalf to obtain benefit under this policy,

deliberate or intentional acts committed by you or someone acting on your behalf or by any person who enters your lot or unit with your consent; this includes your tenant **unless** you have covered your insured property under AAMI Strata Title Landlord Insurance with Tenant Protection. See page 30.

war, warlike activities or revolution including any looting or pillaging, asbestos, asbestos fibres, or derivatives of asbestos in any form.

You are not covered under any section of the policy for damage, loss, cost or liability:

directly or indirectly caused by, arising from, or connected with: the use, misuse or existence of nuclear weapons; or the use, misuse, escape or existence of nuclear fuel, waste or nuclear materials or ionising radiation or contamination from such fuels, waste or materials; or combustion, detonation, fission and/or fusion of nuclear fuel or nuclear materials,

directly or indirectly caused by, arising from, or connected with actual or threatened chemical or biological pollution or contamination; or action taken by a public authority or any body authorised by a public authority to prevent, limit or remedy such actual or threatened release, pollution or contamination.

Precautions that you need to take

Precautions

You must at all times, and at your expense, take all reasonable precautions:

- for the safety and protection of your insured property,
- to prevent bodily injury or damage to property,
- to prevent damage to your insured property,
- to ensure compliance with all statutory obligations, by-laws or regulations imposed by any public authority, relating to the safety of persons or property.

If you do not, we may reduce or refuse to pay any claim you may make.

What we will pay – new for old

Repairing or replacing your insured property

When an insured event causes damage or loss to your insured property during the period of cover, we will pay up to the amount covered shown on the most recent of your policy schedule and your renewal notice.

We will decide either to repair or replace your insured property or to pay the cost of repairing or replacing it.

If we decide to repair or replace your insured property: it will be with new materials or new items.

We will make reasonable endeavours to match materials. Where this does not achieve an exact match, materials and contents that in our opinion match the damaged or lost materials and contents as near as reasonably practicable will be used.

If we decide to pay the cost of repairing or replacing your insured property:

our payment will not exceed any limits detailed in this policy and it will not exceed the amount covered, except as provided for under 'We also cover – additional benefits' on page 25 of this policy,

our payment will be the current retail price or the discounted price we may obtain, whichever is lower.

When we decide to pay you the total amount covered for your insured property and you are paying your premium in instalments, we will require you to pay the total unpaid balance of your premium before your claim can proceed.

Damage to fixed wall or floor coverings

When we repair or replace damage to fixed wall, ceiling or floor coverings:

we also repair or replace undamaged coverings if this is reasonably required to achieve a match with the repair or replacement of the damaged area,

the repair or replacement is limited to the room, passageway, stairwell or functional area where the damage occurred.

Fixed wall and floor coverings are items such as tiles, floating floors, fixed cupboards and shelving.

The AAMI Repair Guarantee

The quality of workmanship and the materials used in any repair or replacement of your landlord fixtures and fittings and landlord contents that we arrange and authorise will be guaranteed for the life of the property.

If you are concerned about the quality of the repair or replacement of your property, you must call us on 13 22 44. We will arrange with you to inspect the repair or replacement and we will arrange any necessary rectification work. You must not authorise any rectification work without our written authority.

We do not pay for

We do not pay for:

the repair or replacement of undamaged insured property or undamaged part of it to match property we have repaired or replaced,

any decrease in the value of a pair, set or collection when the damaged or lost contents forms part of the pair, set or collection.

We pay only for the repair or replacement of the item which was damaged or lost,

damage or loss on a 'new for old' basis for old contents which have passed their 'use by' date and are stored away. We pay the reasonable market value for these contents based on their age and condition at the time of the loss.

Maintaining your insured property; compliance with statutory requirements

We insure your property on the condition that it has been and will continue to be properly maintained and repaired, and that it complies and will continue to comply with local government or other statutory requirements.

When you claim for damage or loss to your insured property, and your insured property:

has not been properly maintained and repaired, or

does not comply with local government or other statutory requirements,

we may reduce our payment or refuse to pay your claim.

What we cover – additional benefits

Other costs

Our payment will include, where applicable, the following costs and any payment we make will be included within the amount covered. Where we decide to reimburse a cost you have incurred, our payment will not be more than the actual cost you incur.

Removal of debris

If necessary, we will pay the reasonable cost of, and, at our option, arrange for the removal from your lot or unit of damaged or destroyed insured property.

When your insured property is removed by us for storage or repair

If your lot or unit is damaged or destroyed by an insured event, we will pay: the reasonable cost of any necessary removal and storage of your insured property during the reasonable period up to 12 months required to repair or rebuild your lot or unit, for any additional loss or damage to your insured property caused by an insured event while it is at the place of storage or repair, provided the amount covered is not exceeded.

Any payment we make under the following benefits will be additional to the amount covered and will include GST.

When your landlord fixtures and fittings are insured

Accidental breakage

We will either replace or pay the reasonable cost of replacing the following when they are part of your landlord fixtures and fittings and they are accidentally broken:

- any area of glass forming part of your landlord fixtures and fittings, fixed basins, sinks, baths, shower bases, lavatory pans or cisterns.

We will **not** replace or pay for:

- any glass in a glasshouse or conservatory,
- any part of a fixed cooking or heating appliance (for example, the glass top of a stove is not covered),
- any area of glass or item which is already damaged or in an imperfect condition.

Damage to electric motors

We will pay the full cost of damage caused by electric current to an electric motor if the motor is less than 10 years old, and:

- the motor is in a piece of fixed domestic equipment forming part of your landlord fixtures and fittings,

We will not pay if the damage to the motor or the equipment is covered by a new product guarantee or warranty.

When your landlord contents are insured together with your landlord fixtures and fittings

Accidental breakage

We will either replace or pay the reasonable cost of replacing, when it is accidentally broken:

- any area of glass forming part of your landlord contents (including table tops, wall mirrors and free-standing lights).

We will **not** replace or pay for:

- any accidental breakage which has occurred while the item is outside your lot or unit,

- any area of glass or item which is already damaged or in an imperfect condition,

- the picture tube or screen of any computer, television set or other type of visual display unit,

- any glass in a picture or photo frame, clock, radio, stereo or CD, video or DVD player,

- glass vases, ornaments or light globes.

Damage to electric motors

We will pay the full cost of damage caused by electric current to an electric motor if the motor is less than 10 years old, and the motor is in a domestic appliance which forms part of your insured property.

We will not pay if the damage to the motor or the equipment is covered by a new product guarantee or warranty.

What we cover – your \$10 million legal liability cover

When we will pay

We will cover your legal liability arising from accidents that happen within your lot or unit.

We will cover you against your legal liability for all claims arising from an accident or a series of accidents arising from any one occurrence occurring during the period of cover, causing:

- bodily injury or death to any person other than you or your family, damage to or loss of property, other than property which you or your family own or for which you or they are legally liable.

Our payment will not exceed \$10 million in total (including all legal and defence costs and GST).

When we will not pay

We do not provide cover for your legal liability arising from or involving:

- any of the causes listed under 'What we do not cover' on pages 18 to 19 of this booklet,
- your occupancy or ownership of any residence, building or land other than your lot or unit,
- a legal liability which arises only because you have agreed to take that liability upon yourself,
- a liability which arises only because you have admitted liability, an event that you have organised or are legally responsible for, **except** where the event takes place at your lot or unit,
- things done intentionally or left undone intentionally by you, or any person acting on your behalf, with reckless disregard for the consequences,

lifts, cars, motorbikes, minibikes, vehicles, watercraft (including sail boats) or aircraft (including gliders),

Vehicles **do not** include bicycles, motorised wheelchairs, golf carts or garden appliances which do not have to be registered.

an animal other than a domestic dog or cat,

vibration, or the removal of, or interference with the support of land, buildings or other property,

alterations, additions, repairs or redecorations of your lot or unit where the total value of the works exceed \$20,000,

the transmission of any disease, contaminated body fluid or body product,

the consumption of alcohol or drugs, if your consumption of them caused or contributed to the accident,

employees or workers who are covered or should have been covered by Workers' Compensation or similar legislation and who, at the time of the accident, were employed by you or your tenant or anyone living at the lot or unit,

the use of any part of your lot or unit for business, trade, professional services, farming of any type, **but not:**

the use of that part of the lot or unit used for performing office work,

any business, trade, profession or occupation conducted or operated or undertaken:

by you or on your behalf, **unless** the business is landlord of the insured property covered by this policy,

by or on behalf of your tenant or anyone living at the lot or unit,

by or on behalf of any company, trust or other legal entity in which you or your tenant or anyone living at the lot or unit has an interest (legal, beneficial or otherwise).

civil or criminal penalties or fines or aggravated, exemplary, punitive or multiple damages however described.

AAMI Strata Title Landlord Insurance with Tenant Protection

AAMI Strata Title Landlord Insurance with Tenant Protection provides all the protection and benefits of AAMI Strata Title Landlord Insurance plus cover for:

- rent default,
- theft of your insured property by your tenant,
- malicious damage to your insured property by your tenant.

What we pay

Any payment we make will be:

- within the amount covered for your insured property and will include GST,
- subject to the same terms, conditions and exclusions as apply to AAMI Strata Title Landlord Insurance, other than as set out below in this AAMI Strata Title Landlord Insurance with Tenant Protection section.

When we will not pay

Once we have paid a claim arising during the period of cover against any of these benefits and:

- you make a further claim for a separate event, and
- your tenant is the same tenant whose actions resulted in the first claim, **we will not pay** the further claim regardless of which benefit is claimed against.

Our payment is reduced by the equivalent of the tenant's bond.

Our payment for rent default claims does not cover the first four weeks your tenant is in default. Claims for theft or malicious damage by your tenant are reduced by the equivalent of four weeks rent.

Four weeks rent ordinarily is the amount of the security bond paid by tenants and retained by landlords when the rental agreement is sufficiently breached by the tenant.

Rent default

We will reimburse you for your loss of rent when your tenant stops paying and you stop receiving rent due under the current rental agreement and your tenant:

- remains in default after you have issued any required notices, or
- vacates your lot or unit permanently without providing the notice required under the current rental agreement.

We will pay the weekly equivalent of the rent provided by the rental agreement, commencing from

- the fifth consecutive week your tenant is in default,

and continuing:

- for 13 weeks, or
- until your lot or unit is re-tenanted, or
- until payment re-commences, whichever comes first.

We will not pay for the first four consecutive weeks your tenant is in default.

We will not pay at all, unless your tenant has actually paid rent due under the current rental agreement for at least four consecutive weeks from the later of:

- the commencement of that agreement, or
- the commencement of this policy.

Malicious damage by your tenant

We will pay to repair or replace damage or loss maliciously caused by your tenant or your tenant's visitors to your insured property at your lot or unit.

Our payment will be reduced by an amount equivalent to four weeks rent at the rate payable under the current rental agreement.

We will not pay for loss or damage caused by carelessness, lack of maintenance or poor housekeeping by you or your tenant or anyone normally living at the lot or unit.

Theft by your tenant

We will pay to repair or replace damage or loss caused by theft of your insured property from your lot or unit by your tenant, or your tenant's visitors.

Our payment will be reduced by an amount equivalent to four weeks rent at the rate payable under the current rental agreement.

What to do if you need to claim on your AAMI policy

If your insured property has been damaged or lost or someone is claiming against you, please phone us immediately. We may require you to report the matter to the police.

You can call AAMI at any time on 13 22 44.

Our claims service will take away the stress and hassle by taking care of everything for you.

Helping us to pay your claim

When you can provide us with information such as documents, booklets and photographs showing and/or valuing your insured property, you help us make speedy and accurate decisions regarding your claim and the repair or the replacement of your insured property. This information helps establish ownership of property and its value and condition.

This information includes:

receipts, bank and credit card statements, agreements and reports, valuations and photographs (photographs do not have to be specifically of your insured property; it may be easily identifiable in photos taken, for example, of personal events).

We may require this type of information. If you are unable to provide information of this type, that establishes ownership and value of the property in question and the value of your claim, then we may reduce or refuse to pay your claim.

When you claim against the cover we provide for landlord fixtures and fittings and loss of rent (see pages 7 - 8), you will need to provide us with a copy of the Strata Title Building Insurance policy covering your lot or unit so we can establish if the cover we provide applies to your claim.

What happens when you claim on your AAMI policy

When you tell us about the damage or loss to your insured property, where necessary and as soon as possible, we arrange:

for our assessor to meet with you, inspect your insured property and confirm the full details of the loss or damage, temporary repairs to and the securing of your insured property.

We discuss with you what is necessary to make good the loss or damage and then we will decide either to repair or replace your insured property or pay the cost of repairing or replacing the insured property up to the amount covered.

Repairing and/or replacing your insured property

We ordinarily obtain independent, competitive quotes from repairers and suppliers recommended by AAMI. If you want, you can choose a repairer and/or supplier to provide one of the quotes. We review the quotes, including any quote from a repairer and/or supplier you choose, and what is necessary to properly repair or replace your insured property. We choose the repairer and/or supplier who submitted the more competitive and complete quote and that will be the repairer and/or supplier who repairs or replaces your insured property.

We will enter into any contract with the selected repairer and/or supplier on your behalf. We will oversee the repairs and/or replacement and keep you informed of their progress.

What happens to your policy when you claim?

When we establish that...	What happens to your policy
the damage or loss can be repaired, we decide either to...	Your policy continues for the remainder of the period of cover.
or to pay the cost of repairing or replacing your property.	Your policy continues for the remainder of the period of cover.
the damage or loss is likely to be greater than your amount covered, we decide to...	Your policy, including the legal liability cover it provides, comes to an end. We also pay, where relevant, any outstanding additional benefits. Because our payment meets all our obligations to you in full, there is no refund of any portion of the premium.

Your responsibilities include

Preventing further damage or loss

Following an event that is likely to result in a claim, you must take all reasonable precautions to prevent any further damage, loss, cost or liability.

Allowing us access

You must provide us with access to your insured property to inspect damage or loss, arrange quotations, repair or rebuilding, and undertake progress inspections if required.

Obtaining our written authority for the repair of your insured property

You must not authorise the repair of your insured property, apart from emergency repairs, without our written permission.

Obtaining our written consent

You must not make any admissions or settle any claims without our prior written consent.

Giving assistance – information, notices, negotiating, defending and settling claims

You must give us the information and assistance we reasonably request in evaluating the cause, extent and value of any claim. This may include:

- providing us with full details of the claim in writing,
- providing valuations, receipts or other evidence of ownership,
- providing written statements,
- undergoing an interview or interviews about the circumstances of the claim,
- appearing in court and giving evidence.

You must assist us to recover any part of the claim from the person responsible for the accident or event which results in a claim.

You must promptly deliver to us any relevant letters and notices that come into your possession.

We shall be entitled, but not obliged, to defend or represent you in any legal proceedings relating to an accident or occurrence which may give rise to a claim against us and to control, settle and deal with those proceedings as we see fit.

We will pay the legal and other reasonable related costs of defending any claim made against you, provided we appoint the solicitors who will defend the claim and we have told you in writing that we will pay their costs.

You must assist us in all our endeavours to negotiate, defend or settle any claim made under this policy and to exercise for our benefit your legal right of recovery against any other party (including a party involved in making good any damage or loss).

If you fail to assist us, or do not abide by any of these terms, we may reduce or refuse to pay your claim.

Excesses

Excesses

An excess on your policy is the amount that you must first contribute towards each claim. If your claim is for more than one occurrence, the excess applicable to each occurrence will be payable.

The excesses that apply to your policy will be shown on the most recent of your insurance schedule and your renewal notice. When you make a claim we may require you to pay the excess or we may deduct the excess from any payment we make. We will tell you when and how the excess is to be paid or deducted.

When an unoccupied excess is payable, it will be additional to any other excesses that apply to your claim.

Unoccupied excess

Your insured property is at greater risk of damage or loss when it is unoccupied for a lengthy period.

Because of this extra risk, if you claim for damage or loss to your insured property:

which occurs after your lot or unit has not been occupied for 60 continuous days, an additional compulsory excess is payable.

AAMI Flexi-Premiums™

With AAMI Flexi-Premiums™, the higher the excess you choose, the bigger the discount on your premium. Please call 13 22 44 for full details.

Important general information for you

You can contact us:

By phone: Call 13 22 44 (24 hours a day, every day of the year).

Via the internet: aami.com.au

By mail: PO Box 14180, Melbourne City Mail Centre, Victoria 8001.

In person: Call 13 22 44 for the address of the closest AAMI branch or customer service centre.

Value your insured property for its current replacement cost

Because this policy provides for replacing or repairing your damaged or destroyed insured property at current cost, it is your responsibility to value your insured property for the current cost of replacing it if it was completely destroyed.

The value you decide upon will be the amount your insured property will be covered for under this policy. Therefore, it is in your own best interests to make sure that this value is accurate when you first insure your property and that you update the value when you renew your policy.

To help you do this, AAMI provides an insured property value calculator. You can access it at the AAMI website aami.com.au or by calling AAMI on 13 22 44.

Inflation protection

AAMI automatically adjusts the amount covered for your contents at the end of each period of cover to account for inflationary trends.

When we quote you a premium

When we quote you a premium for AAMI Strata Title Landlord Insurance, the factors we take into account include:

the value of your landlord fixtures and fittings, the value, when you wish to insure them, of your landlord contents, our experience of the incidence and cost of landlord fixtures and fittings and contents claims, the value of the benefits we include within your cover, your insurance history, the insured address (the address where your lot or unit is located), the cost of providing legal liability cover, our costs of providing and administering this policy, whether you pay your premium in instalments, any discounts that apply because of your particular circumstances. Government taxes and charges are included in the premium we quote. An excess may be payable on any claim you make on this policy. See page 38 for further details.

Secure contents

When your landlord contents are insured under this policy and they are protected by additional security at your lot or unit, we reward this with a lower premium.

The security measures we take into account in deciding your premium discount are:

- deadlocked external doors,
- keyed locks on all accessible windows,
- a local burglar alarm,
- a back-to-base burglar alarm,

only electronic access (key pad or card) to the lot or unit or the building, video surveillance of access to the lot or unit or the building, doorman, security guard or security patrol.

Premium discounts may also apply according to:

- your claims history as an AAMI Landlord Strata Title Insurance policyholder,
- the number of AAMI insurance policies you hold.

Please call AAMI on 13 22 44 for further details.

Paying your premium

You can pay your premium annually by cheque, credit card, BPAY, online through AAMI e-PAY, or in cash at AAMI branches or Australia Post offices. Further details are provided on the payment notice we issue at the commencement and each renewal of your policy.

Paying by instalments

You may also be eligible to pay in regular instalments by direct debit.

When you pay this way, the total premium is higher than we charge for one annual payment, reflecting the higher costs we experience. Any premium discounts we may provide are applied before these additional costs are calculated.

Your responsibilities when paying by instalments

When paying by instalments:

- you must be an authorised signatory on the account nominated for your direct debit payments,
- you must ensure that your nominated account can accept direct debits and has sufficient funds to meet each payment at each due date,

your financial institution may also apply its own fees (including dishonour fees). Those fees are your responsibility.

What happens if your instalment remains unpaid?

AAMI may cancel your policy without notice if an instalment payment remains unpaid for one month or more.

Any claims arising after the due date may be refused.

Changing your instalment payments

If you wish to change or cancel your direct debit arrangements, you need to contact us at least seven days before the debit day.

If you cancel the debit completely, you will need to arrange for another way to pay us your premium, to ensure you remain covered.

Important things to remember when paying by instalments

When you first commence your direct debit payments, or when you change your account details, it may take up to 14 days for us to first debit your account.

If you believe that we may have incorrectly debited your account, please contact us on 13 22 44.

When you claim on your policy and we establish that the damage or loss to your insured property is so extensive that we decide to pay the amount covered,

we will require you to pay the total unpaid balance of your premium before your claim can proceed.

Government taxes and charges

AAMI shows on receipts any government taxes and charges such as GST, Stamp Duty and Fire Services Levy allocation included in insurance premiums.

GST

Any amounts we pay under this policy include GST.

Renewing your policy

When we offer to renew your policy:

we will send you a notice before the policy expiry date,

we will tell you in writing if there are any changes to the policy.

Changes that benefit you apply from their introduction. Changes introducing limitations apply from the policy's renewal,

we may require an additional premium if you make a claim in the short period between the time we calculated the renewal premium and the expiry of your policy. If the additional premium is not paid, we may reduce the period of cover to match the reduced amount paid.

Cooling off period and cancellation

Federal law provides that you can cancel this policy within 14 days of its purchase. AAMI allows you to cancel your policy at any time.

In both cases, we will refund you the unexpired portion of the premium less any cancellation processing charge to cover the reasonable administrative and transactions costs incurred by AAMI.

To cancel your policy, please call us on 13 22 44.

We can only cancel your policy by giving you written notice in accordance with the Insurance Contracts Act 1984.

Joint policyholders

When you insure your property in the names of more than one person, each person is a joint policyholder and is able to make changes that we agree with to the policy.

The privacy of your personal information

We are committed to protecting the privacy of your personal information. That commitment is reflected in the AAMI Customer Charter and in our compliance with the National Privacy Principles. For further information, please visit our website aami.com.au or call us on 13 22 44 for a copy of our 'AAMI and Your Personal Information' brochure.

AAMI's Customer Charter

We are committed to always provide you with the highest standard of service. The AAMI Customer Charter is a written document containing service and reporting promises which we are bound to deliver. In fact, we impose a penalty on ourselves if we fail to do so.

This unique Charter was drawn up through consultation with our staff, our customers and industry regulators, and is reviewed annually. Compliance with our promises is independently audited every year and the results are reported publicly.

The AAMI Customer Charter, introduced in 1996 was Australia's first general insurance customer charter, and indeed, first retail customer charter. The Charter is your guarantee that we're always striving to deliver the best in customer service.

The AAMI Consumer Appeals Service

If you are unhappy with anything we have told you or done for you, we want you to tell us about it. If we cannot resolve the matter to your satisfaction, other appeal services are available to you. See page 50 for full details.

The General Insurance Code of Practice

AAMI is a signatory to the General Insurance Code of Practice which sets out a commitment by the general insurance industry to raise standards of service and to promote better relations between customers and insurers.

The Code describes standards in areas such as buying insurance, claims handling, responding to catastrophes and disasters, information and education and dispute resolution. Introduced in 1995 with the backing of consumer groups, the federal government, insurers and the Insurance Council of Australia, it was revised in 2005.

More information on the Code, or a copy of the Code, can be obtained from the Financial Ombudsman Service (FOS). You can contact the FOS on 1300 780 808, toll free, or you can access the Code at www.codeofpractice.com.au

What do we mean by that?

AAMI, we, us, our mean Australian Associated Motor Insurers Limited (ABN 92 004 791 744).

Accident means an accident or a series of accidents resulting from any one occurrence.

Amount covered is the most we will pay, less any excesses and payments we require for claims under AAMI Strata Title Landlord Insurance with Tenant Protection, for any accidental damage and loss covered by your AAMI policy occurring during the period of cover. The amount covered includes GST. The current amount covered is shown on the most recent of your insurance schedule and your renewal notice.

Collection or set means a group of items of sufficiently common type, appearance or nature that they reasonably belong together and that is devalued if one or more of the group is damaged or lost.

Cover and covers mean the protection provided by your policy.

Damage and loss.

Damage means actual physical damage to your insured property.

Loss or lost means your insured property or a part of your insured property being destroyed, stolen or damaged beyond economical repair.

Loss does not mean items being accidentally misplaced.

Endorsement means a special condition that applies to your policy.

Any endorsements to your policy are shown on your insurance schedule.

Excess. An excess on your policy is the amount that you must first contribute towards each claim.

Fire means burning with flames.

Insured address means the address at which your lot or unit is located.

Insured event. The occurrences we have listed on pages 12 - 17 which cause damage and loss to your insured property.

Insured property means:

the landlord fixtures and fittings, and
when you have insured them under this policy,
the landlord contents.

Landlord means the person named in the insurance schedule as the insured property owner and whose lot or unit is being rented for domestic or residential purposes.

Landlord contents means the contents covered under this policy.

See pages 9 - 11 for the contents that **are** covered and **are not** covered.

Landlord fixtures and fittings mean items provided for your tenant's use for domestic or residential purposes, which you own and which are fixed to the land or building at the lot or unit. The fixtures and fittings that we cover **do not include** anything that is:

insurable by the body corporate, or
covered under 'What we cover - as landlord contents' - see pages 9 - 11.

Living with your tenant. Any person normally living or staying with your tenant in your lot or unit.

Lot and unit mean an area which is used for domestic or residential purposes that is shown on the plan for the Strata Titles Act or similar legislation applying where the lot or unit is located.

Occupied means your tenant or another person is living or staying in the lot or unit with your consent.

Period of cover means the current period for which we have agreed to provide you with insurance cover. The current period is shown on the most

recent of your insurance schedule and renewal notice and any receipt we may send to you.

Policy means this booklet and your **policy schedule**.

Your **policy schedule** comprises the notices we give you which show the particular details and the current status of your policy. These notices are the most recent of your **insurance schedule** and **renewal notice**, and any **receipt** we may send you.

Your **insurance schedule** sets out the information you have given us on which we have based our decision to insure you as well as the individual details of your policy. We will send you an updated insurance schedule whenever you advise us of a change in this information or these details.

Rental agreement means the agreement between your tenant and you or your agent which sets out the terms and conditions of the tenancy including the tenancy period and the amount of rent payable to you.

Storm means violent wind (including a cyclone or tornado), thunderstorm or a heavy fall of rain, snow or hail.

Theft means actual or attempted theft and burglary.

You and **your** mean the person, persons or entity named as the insured on the most recent of your insurance schedule and renewal notice and members of your family.

Your family means the following people who normally live with you:

- your spouse or partner;
- your children, parents, grandparents, grandchildren, brothers and sisters;
- the children, parents, grandparents, grandchildren, brothers and sisters of your spouse or partner.

Your tenant means all persons named in the rental agreement provided that they are normally living in the lot or unit, and their family.

Your tenant's family means the following people who normally live with your tenant:

- your tenant's spouse or partner,
- your tenant's children, parents, grandparents, grandchildren, brothers and sisters,
- the children, parents, grandparents, grandchildren, brothers and sisters of your tenant's spouse or partner.

The AAMI Consumer Appeals Service

What to do if you are not satisfied with us

Here is how the AAMI Consumer Appeals Service helps you if you are dissatisfied with the results of your dealings with AAMI.

1. Who do you talk to?

If you are unhappy with anything:

we have told you or done for you, or that has been provided on our behalf, please tell us. You can phone us on 13 22 44 or call in to an AAMI branch. Most times we will be able to sort the matter out to your satisfaction.

2. The AAMI Customer Ombudsman

However, if you are not satisfied with our response, you can ring, write to or email the AAMI Customer Ombudsman with the details. The AAMI Customer Ombudsman will respond to you within five working days of receiving your letter or email.

3. Appealing to the independent dispute resolution scheme

If you disagree with the AAMI Customer Ombudsman's decision, you can appeal to the Financial Ombudsman Service. We will help you do this.

The Financial Ombudsman Service is an independent industry dispute resolution scheme. You can contact the service on 1300 780 808 toll free or by email to info@fos.org.au. You can also visit the FOS website at www.fos.org.au. There is no charge for this service.

4. Are any decisions binding on you?

You do not have to accept any decision AAMI or the FOS makes. You always have the option of seeking remedies elsewhere.

Any decision the AAMI Customer Ombudsman, or the FOS makes is binding on AAMI, provided you also accept the decision.

How to contact AAMI

Telephone: 13 22 44 (24 hours a day, every day of the year).

How to contact AAMI Consumer Appeals

Telephone: 1300 130 794 (local call costs apply).

9am to 5pm EST Monday to Friday.

Fax: (03) 9529 1214.

Write to: The AAMI Customer Ombudsman, AAMI Limited,

PO Box 14180, Melbourne City Mail Centre, Victoria 8001.

Email: consumerappeals@aami.com.au

How to contact the Financial Ombudsman Service

Telephone: 1300 780 808 toll free.

Email: info@fos.org.au

NEWS RELEASE

Tuesday 11 January 2011

Suncorp Toowoomba Call Centre Affected by Flash Flooding

Suncorp's Toowoomba Call Centre was affected by local flash flooding yesterday leading to the evacuation of all staff and its temporary closure.

Suncorp Acting Executive General Manager of Insurance Claims, Jimmy Higgins, said the call centre had already been extremely busy managing claims from recent weather events right across the state.

"Our staff had been working hard to support those in regional Queensland who had been affected by recent floods but yesterday many were faced with the same personal situation," Mr Higgins said.

"I am pleased that all of our staff are safe and we have started immediate work to repair any damage to the call centre.

"Unfortunately the temporary closure of the call centre will mean that there will be some longer than normal delays in processing Suncorp and GIO Insurance claims over the phone however I ask that people please be patient and we will get to them as soon as possible.

"We are hopeful that any repairs needed to the building will be done quickly and staff can safely return to work.

"Suncorp is a proud part of the Toowoomba community and we will be working with local authorities to support staff and residents affected by today's terrible events," he said.

Mid afternoon on the 10th January 2011, the Toowoomba Call Centre was inundated with water. Approximately 40cm of water rushed through the ground floor of the building situated on the corner of Margaret St and Kitchener Streets

The Toowoomba Call Centre houses more than 340 staff responsible for claims lodgement, sales and service for the Suncorp and GIO Insurance brands.

At the peak of this incident staff were stranded on the 2nd level during the event and local management liaised with SES to get them out when safe.

Some staff member's cars are flooded and homes have been impacted.

NEWS RELEASE

Suncorp mobile insurance claims office operational in Cardwell

Suncorp's mobile claims and assessment office is now operational in Cardwell and ready to assist cyclone affected customers.

Located in Balliol Street, the Customer Response Team (CRT) is a fully self-sufficient mobile office which allows Suncorp, AAMI, AMP, Vero, Shannons and APIA customers to lodge claims and get insurance advice.

Executive General Manager of Suncorp Personal Insurance, Jason McCracken, said Suncorp had invested in the latest mobile technology to ensure customers get the best possible claims service.

"Having CRT offices and claims staff on the ground in affected areas allows customers to commence the claim process even if they are still without power or telecommunications," Mr McCracken said.

"We understand that there are very challenging times for many people but we are dedicated to moving mobile offices through North Queensland so we can help locals start rebuilding their lives," he said.

If customers cannot get to a CRT they can also make home and motor claims by calling 13 25 24.

Commercial insurance claims for Vero, GIO, AAMI and AMP business customers can also be made through the Customer Response Teams.

Vero is also encouraging its business customers to contact their insurance broker to lodge claims as soon as possible.

Suncorp Bank is also providing financial assistance to its many personal and business customers in the region.

Some of the options available include:

- An opportunity to suspend home loan repayments for a period
- Residential, business and agricultural loan restructuring
- Waived early withdrawal fees for those customers wishing to withdraw from term deposits
- Credit card relief where necessary

Suncorp Banking customers can contact 13 11 75.

For claims information and Suncorp CRT locations can be found on the SuncorpCRT facebook page and on twitter @SUNCORPCRT.

NEWS RELEASE

21 February, 2010

The Suncorp Group Alerts Customers to Assessor Scam Victims of Floods and Cyclone Yasi in Northern Queensland Targeted

The Suncorp Group is advising Queensland customers to ensure they are dealing with an authorised Suncorp Group assessor in relation to any recent claim they may have.

The Suncorp Group has received information that people falsely claiming to be assessors from companies in the Suncorp Group are active in the Northern Queensland region.

In alerting customers of this today, Jimmy Higgins, Executive Manager Queensland Event Recovery, said:

"Our assessors will always be able to identify themselves, and demonstrate that they work for one of our companies in the Suncorp Group. To ensure the assessor is an authorised Suncorp Group assessor, customers should always ask for the appropriate paperwork and details before allowing assessors into their homes.

"We have also seen cases of suppliers and repairers misrepresenting themselves as preferred partners. In some cases these people request excesses to be paid up front before any repairs can take place. Customers should never hand over cash to assessors or repairers prior to any work taking place.

"We are carefully balancing the need to support local tradespeople with the need to get our customers back in their homes as quickly as possible. Already we've engaged a panel of over fifty Queensland building companies across the state, who in turn are engaging local trades people and suppliers where possible.

"If there is any doubt in a customer's mind about the legitimacy of the person they are dealing with, they should contact their insurer immediately," said Mr Higgins.

NEWS RELEASE

27 September 2010

Spring into action as storms and rainy weather looms

Simple steps to help you face the Queensland storm season

While warmer weather promises relief from winter chills, it can also bring sudden storms and heavy rains.

New research by leading insurer Suncorp reveals that not everyone is learning from the experience of past storms. In fact, of the Queensland respondents whose homes suffered storm damage in recent years, only slightly more than half (59%) have made any changes to better prepare their homes for future storms.

Suncorp executive manager, [REDACTED] said this apparent complacency was concerning, particularly as Queenslanders know how quickly storms can hit and how devastating they can be.

"We've seen that storms can bring damaging strong winds, hailstones, lightning, heavy rain and flash flooding, and severe thunderstorms cause more damage in Australia each year than any other natural hazard," he said.

Suncorp's research revealed that hail had created the most damage to Queensland respondents' homes (24%), closely followed by wind (21%) and flood water (19%). Outside Brisbane, flood and wind each accounted for 28% of storm damage to homes.

Nationally, responses showed that wind (27%) caused the most damage, followed by flood water (23%) and hail (15%).

"Home maintenance doesn't have to cost a lot, but it has the potential to save a lot of money and heartbreak if a storm hits," he said.

[REDACTED] suggested that perhaps Queensland residents weren't always aware that there were simple things they could do to mitigate damage.

"With storm season approaching, it's always wise to trim overhanging branches, both to prevent them falling onto roofs and to stop fallen leaves from clogging gutters. During heavy rain, water can overflow from clogged gutters and enter homes causing extensive damage, even if the roof holds firm," [REDACTED] said.

While 88% of Queensland respondents who had experienced damage reported that their insurance cover had been adequate to cover the storm damage to their homes and contents, [REDACTED] advised that it might not be possible to replace family keepsakes.

NEWS RELEASE

"While insurance can help repair damage, it can't replace the irreplaceable, such as photos and other treasured possessions," he said.

"As storm season approaches, it's important for householders to take the time to clean up around their home. This may help avoid the need for a larger and more costly clean-up later."

What you can do now

- Check gutters and downpipes. Backed up gutters can send water flowing into your home during heavy rains.
- Check the roof for damaged or loose tiles, or raised corners of corrugated sheets. A roof in good repair is more likely to withstand high winds and to keep out water.
- Trim overgrown tree branches. Check with your local council if you're unsure about which trees / branches you can cut. DO NOT attempt to trim trees near powerlines.
- Remove or secure loose items around the garden which could become projectiles during high winds.
- Keep a battery operated torch and AM radio handy in case of loss of electricity. Use the radio for power restoration updates and possible evacuation notices.
- Put together a small evacuation package of keepsakes and things you would hate to lose, in case you need to evacuate quickly.
- Keep spare batteries, canned non-perishable food, can opener, water, first-aid kit and blankets handy and identify a shelter room in your house if evacuation isn't possible.

What you can do as a storm approaches or during a storm

- Outside furniture, ornaments, bikes, toys and pot plants should be secured or locked away.
- Secure doors, windows and awnings. Covering windows with plywood can be a good last minute protection.
- Move cars into the garage if you have one.
- If you have a garage door, back your car against the inside of the door to help prevent it twisting in high winds.
- Stay indoors away from windows. Move furniture away from windows and doors.
- Make sure mobile phones are fully charged.
- If power is cut, turn off and unplug electrical items especially computers. DO NOT use wet or damp electrical appliances.
- Fill containers with drinking water.
- Listen to your local radio station, with a battery operated radio, for storm and power supply updates and any evacuation plans if needed.
- Stay clear of fallen powerlines.

– ENDS –

FACT SHEET

Suncorp Insurance and Banking Flood Assistance Information

Insurance Claims

- The Suncorp Group suggest customers of its insurance brands can do the following to speed up their insurance claim process and ensure their safety:
 - Always put personal and family safety first. Avoid contact with flood water whenever possible. Do not drive into floodwater, even if you believe it is shallow and that you can make it through. Always obey the directions of emergency services personnel.
 - Once safe we encourage you to lodge your claim and start the assessment process immediately - you **do not** need to return to your home or business before contacting us.
 - When you return to your home or business do your best to dry it out by keeping it as ventilated as possible. This will also help avoid the quick build up of mould.
 - If you can, get your wet contents out of the house/business – and make a list of damaged items. You can group lots of smaller/similar items together like 'food in pantry' or 'clothes in chests of drawers'.
 - Where possible, take photos of your damaged belongings to show what you have lost.
 - If you are throwing things out in clean-ups, make a note of brands and models for electrical items. Keep the manufacturer manuals if possible.
 - Keep a piece of damaged carpet or photograph the carpet back where the make and brand is stamped so we can replace it with similar carpet and colour where possible.
- The Suncorp Group owns some of Australia's largest insurance brands and is well prepared to handle major weather events, especially in Queensland.
- As a major insurance group we utilise our scale during major events to quickly respond to customers by dispatching extra claims and assessment staff and increasing call centre capacity.
- We have new Customer Response Teams that are wireless self sustainable claims centres that go to the heart of affected regions and process claims and assessments quickly.
- Customer Response Teams can lodge claims for Personal and Business Insurance customers.

FACT SHEET

Personal Insurance Claims

- The Suncorp Group's Personal Insurance division – which incorporates brands such as Suncorp Insurance, Apia, GIO and AAMI – is the market leader in Queensland.
- Our Suncorp Insurance, GIO and Apia brands each include automatic flood cover as a standard feature in their personal home and contents insurance policies. This covers flood damage to buildings and contents caused by river flooding, flash flooding, rainwater run-off and storm.
- AAMI's domestic home and contents policies include cover for storm and rainwater run-off but not river flooding. In determining cover, all claims are assessed on an individual case by case basis. AAMI's landlord insurance policies (both landlord building and strata-title landlord cover) include cover for flood.
- Each of our insurance brands' comprehensive motor insurance policies provide cover for flood damage.
- Personal Insurance claims phone numbers:
 - Suncorp - **13 25 24**
 - AAMI - **13 22 44**
 - Apia - **13 50 50**
 - GIO - **13 14 46**

Commercial Insurance Claims

- Business customers should contact their insurance broker and to lodge claims as soon as possible. If insured with us directly, customers should contact their insurer on the number below.
- Business insurance claims phone numbers:
 - Suncorp - **1800 797 554**
 - VERO - **1800 222 043**
 - GIO - **13 14 46**
 - AAMI - **13 22 44**
 - AMP - **13 14 46**
- Intermediated (through brokers) personal insurance claims phone numbers:
 - VERO - **1300 888 073**
 - AMP - **13 14 37**

Banking

- Suncorp Bank provides financial assistance to its many personal and business customers when affected by major weather events.
- Some of the options available include:

FACT SHEET

- An opportunity to suspend home loan repayments for a period
- Residential, business and agricultural loan restructuring without the cost of most bank fees
- Waived early withdrawal fees for those customers wishing to withdraw from term deposits
- Credit card relief where necessary
- Suncorp Bank branches are also collecting donations for the Queensland Premier's flood relief appeal.
- Suncorp Banking customers can contact 13 11 75.

NEWS RELEASE

Friday 31 December 2010

Suncorp Insurance: Steps to process your flood claim faster

Suncorp Insurance is providing flood affected Queenslanders with some simple tips to help speed up the insurance claim process.

Suncorp Insurance Acting Executive General Manager for Claims, Jimmy Higgins, said the company had received approximately 1,450 claims to date but was encouraging other affected customers to make their claim as soon as possible.

"We know dealing with property loss or damage can be very challenging but we encourage our customers to put their personal and family safety first," Mr Higgins said.

"Once safe we encourage them to lodge their claim and start the assessment process immediately - they do not need to return to their home or business before contacting us.

"There are also some very simple things that can help speed up the personal and business claims process including:

- Do your best to dry out your home or business by keeping it as ventilated as possible. This will also help avoid the quick build up of mould.
- Get your wet contents out of the house/business – and make a list of damaged items. You can group lots of smaller/similar items together like 'food in pantry' or 'clothes in chests of drawers'.
- Where possible, take photos of your damaged belongings to show what you have lost.
- If you are throwing things out in clean-ups, make a note of brands and models for electrical items. Keep the manufacturer manuals if possible.
- Keep a piece of damaged carpet or photograph the carpet back where the make and brand is stamped so we can replace it with similar carpet and colour where possible."

Mr Higgins said that Suncorp was one of Australia's biggest insurers and was well prepared to handle major weather events, especially in Queensland.

"As a major insurer we can utilise our scale during major events to quickly respond to customers.

"We have dispatched extra claims and assessment staff into affected areas and increased our call centre capacity.

"We also have three of the company's new Customer Response Teams on route to the area.

"These teams are effectively wireless self sustainable claims centres that will go to the heart of affected regions and process claims and assessments quickly.

NEWS RELEASE

"Commercial insurance claims for Vero, GIO, AAMI and AMP business customers can also be made through the Customer Response Teams."

Suncorp is encouraging its business customers to contact their insurance broker and to lodge claims as soon as possible.

Home and motor claims can be made by calling 13 25 24.

Commercial customers should lodge their claims through their normal channels.

Suncorp Bank is also providing financial assistance to its many personal and business customers in the region.

Some of the options available include:

- An opportunity to suspend home loan repayments for a period
- Residential, business and agricultural loan restructuring without the cost of most bank fees
- Waived early withdrawal fees for those customers wishing to withdraw from term deposits
- Credit card relief where necessary

Suncorp Banking customers can contact 13 11 75.

Suncorp has donated \$100,000 to the Queensland Premier's flood relief appeal, and is collecting donations through the Suncorp Bank branch network.

ANNEXURE 3

PI Claims Assist Communications

Event Response Information

QLD Storms/Flooding (24.12.10 – 31.12.10)

AAMI/APIA Event Advice - Updated 14.01.11

Attention

- AAMI/APIA Claims Assist

Summary

****items in red indicate most recently updated information**

- Flood Coverage: Advice to Customers
- Listing contents
- Identifying Date of Loss
- Process amended for Flooded Carpet
- Capturing Contact Details
- Repairers/Suppliers wanting to become Suncorp Recommended Repairers/Suppliers
- CRT Locations
- Priority Categories
- Ensure you are assigning the correct Cat Code to all event claims.
- Ensure all QLD storm/flood event claims are lodged to reflect date parameters of 24.12.10 – 31.12.10.
- Process announced for Home Assessing SLA advice.
- Process clarified re: Internal vs. External Assessment
- Process announced for Flood Damaged Content items

General Information

1. Customer Response Team

The Customer Response Team is located in **Bundaberg Community Recovery Centre – 37 Maryborough Street, Bundaberg** (PCYC building).

The CRT will be in this area on Tuesday 4th January 2011 & Wednesday 5th January 2011 from 9am – 4pm.

2. Catastrophe Codes

Please ensure you assign the correct Catastrophe codes to all QLD storm/flooding claims within the date parameters of 24.12.10 – 31.12.10.

APIA: 4542 (Home/Motor)

AAMI: H113 Home

H115 Motor

Home Information

1. Assessing SLA

We will contact the customer within **48 hours** to advise that we have their claim. We will arrange to assess the property once the town/area is accessible.

2. Internal Assessment Process

Internal Assessors will be travelling to the affected areas in western and northern Queensland as soon as the waters have subsided and they can safely gain access. Therefore, all claims lodged during working and afterhours requiring an assessor should be sent through to the Internal Assessing Team.

We will NOT be sending any claims to our External Assessors at this stage.

3. Flood Damaged Content Items

Please advise the insured to remove damaged items from the building and make a detailed list of each item, noting Quantity, Make, Model and age.

4. Flood Coverage: Advice to Customers

Please ensure that you advise customers that flood damage is not covered under the AAMI Home policy. However, still lodge the claim, and advise the IO that an assessor will be in contact to discuss the claim.

5. Listing Contents

Please advise the customer to compile a list of contents items that have been damaged. The attached template can be emailed to those customers who still have access to email. Otherwise, advise customers to begin to list items room by room.

6. Identifying Date of Loss

Please endeavour to determine correct date of loss for each claim. We need to be as accurate as possible. You may use the below scripting to determine the best possible date of loss to enter on the claim:

- Do you know the date of loss...the first date your insured property or contents were damaged?
- If you left your home or were evacuated before damage occurred, what is the likely date that damage first happened to your insured property?
- If you cannot estimate the date damage occurred, what date you were evacuated or flooding peaked in the area.

7. Flooded Carpet

It was previously advised that AAMI Customers should remove flooded carpet, and keep only a piece to show the Assessor. Effective immediately, please disregard this advice. Under no circumstances are we to advise an AAMI customer to remove their carpet. On attendance the Assessor may be able to advise if the carpet is restorable. If the insured decides to remove carpet themselves, please ask them to keep a portion for the Assessor.

8. Capturing Contact Details

Please ensure that you obtain 2 contact phone numbers for the insured, to ensure that Case Managers and Assessors are able to get in contact with the customer, particularly where homes have been evacuated. If the customer does not have a mobile phone, please try to obtain a number of a friend or family member, through whom we may be able to contact the insured if necessary.

9. Recommended Repairers/Suppliers

If you receive a call from a Repairer/Supplier wishing to become a Suncorp Recommended

Repairer/Supplier during the QLD event, please advise them they will need to complete a

Supplier Registration Form.

The TSO Team will email the Repairer/Supplier the Supplier Registration form.

Please obtain the Repairer/Supplier's name and email address and forward this information

on to the TSO inbox – piclaimsassisttechnicalteam@suncorp.com.au

10. CRTs Locations

CRT Bundaberg is in the Biloela & Theodore region until Wednesday 12th January 2011.

Location: TBA (it is likely to be the local RSL)

CRT Dalby is in Chinchilla from Saturday 8th January 2011.

Location: Chinchilla Cultural Centre

80/86 Heeney Street, Chinchilla

CRT Emerald is operational until Friday 14th January 2011.

Location: Emerald McIndoe Park

Opal Street, Emerald

CRT Rockhampton is still in planning and once access is granted from the South the CRT will be deployed.

Location: TBA

11. Assigning Priority Categories

Please ensure you are assigning the correct priority category in the HU screen. This will only allow you to populate a Priority Category if you have applied the Cat Code.

Please use the below Priority Categories:

PRIORITY CATEGORY	DESCRIPTION
A	Home unliveable/unsafe Emergency actions required
B	Home liveable/safe. Secure and assessment required
C	Home liveable/safe. No secure required. Assessment required
D	Home Damage is minor. Contents items affected.

Please refer any questions to a Technical Support Officer

All Current Events

Update #1 Process Alignment
Building and Content Repairs

Attention

- All Claims Assist

Summary

- Please see the below process alignment which applies to all current events.

Details

- If the customer believes that building repairs or contents repairs/replacement are \$2000 or under and the customer can arrange repair for the building or repair/replacement of the contents, please authorise & ask the customer to forward in their invoice for payment.
- If the customer believes that building repairs or contents repairs/replacement would be between \$2000 - \$5000 please advise the customer to send us one quote before commencing work. The quote will then be reviewed for acceptance.
- If the customer believes that building repairs or content repairs/replacement would be over \$5000 lodge claim as normal and it will follow the usual assessment process.

Please refer any questions to a Technical Support Officer

Effective: 03/02/2011

ANNEXURE 4

AAMI Flood claim denied

Insurer: AAMI Claim Number: [REDACTED] Date of Loss: 12/1/11 Claim Lodgement: 15/2/11 Claim Summary: Customer's property was effected in the Brisbane Flooding Customer Name: Mr R & Mrs [surname deleted] Address: [property address deleted] CHELMER 4068									
Step 1 – Assessment Timeframe: 1 day	Step 2 – Assessment Requested Timeframe: 6 Weeks	Step 3 – Assessment Completed Timeframe: 2 weeks 3 days	Step 4 – 1st Review Timeframe: 4 days	Step 5- Complete 1st Review Timeframe: 2 weeks 1 day	Step 6 – Hydrologist Requested Timeframe: 1 day	Step 7 – Report Received Timeframe: 3 weeks 5 days	Step 8 – 2nd Review Timeframe: 1 day	Step 9 – Review Completed Timeframe: 1 week 1 day	Step 10 – Claim Decision Timeframe: 1 day
The claim is referred to an assessor to view and assess the customer's property.	Assessor is requested on the claim.	Assessment is finished on the customers property and report submitted.	The claim and the documents supporting the claim are referred for review.	The review is completed on the claim. The Claims Manager is advised that further information is required.	Client Manager requests an onsite Hydrologist to attend and other supporting documents requested.	Hydrologist report received on the claim and other supporting documents gathered.	Further information is received back and the claim is referred for a second review.	Review is completed on the claim and claims decision given to the Client Manager.	Final review is finished and claims decision is reached.

Step 1 – Assessment

15/2/11	Customer lodges claim with AAMI and is told that the claim is for consideration.
---------	--

Step 2 – Assessment Requested

28/3/11	The claim is reviewed and is sent for an assessment to be completed.
---------	--

Step 3 – Assessment Completed

14/4/11	Assessment is completed and the Assessment Report Received.
---------	---

Step 4 -- 1st Review

20/4/11	The claim documents are printed and a hardcopy of the Claim file created and sent for review.
---------	---

Step 5 -- 1st Review

11/5/11	The review requested an onsite hydrologist report to be completed and that we contact the assessor to obtain pictures taken onsite at the property.
---------	---

Step 6 -- Hydrologist Request Sent

11/5/11	Request is sent for an Onsite Hydrology report to WRM and pictures from Assessor are requested.
---------	---

Step 7 -- Report Received

17/5/11	Photo's received from assessor and added to the claim file.
6/6/11	Received WRM Hydrology Report, printed and added to the claim file and referred for second review.

Step 8 -- 2nd Review

6/6/11	Claim sent to management for review. The review team review all the documents on the claim including the onsite hydrology report and pictures obtained from the assessor and make a claim decision. This claim decision is checked by the review manager and confirmed. Claims Decision letter is also created for the Client Manager to issue to the customer after contact is made.
--------	---

Step 9 -- Review Completed

14/6/11	Claim Decision is sent from the review team to the Client Manager to advise the customer of the decision.
---------	---

Step 10 -- Claim Decision

14/6/11	The customer is advised that the claim decision is a decline and advises that they will send a letter to them confirming the information from the conversation and next steps if the customer is wishing to dispute the claim.
---------	--

ANNEXURE 5

QLD FLOODS (EXCLUDING TOOWOOMBA/LOCKYER VALLEY) CAT DECEMBER/JANUARY 2010/11

Client Instructions 4 March 2011

- AAMI policy doesn't cover Flood. Therefore we must communicate sensitively with the customer that no decision has been made as yet pending collection of further site information.
- AAMI Landlords policy does cover flood. Please refer to the PDS for full coverage details and Apia instructions in this report for reporting and settlement processes for Landlord claims.
- With the AAMI decline/flood claims, AAMI do not require the customer or Assessor to fill out a detailed schedule of contents or scope of works, rather an overview of both building and contents damages with estimates.
- AAMI need photos on every claim. Just a shot from of the front of the house, and some from inside of the damage, and of the contents if still there. Also good to get a photo of the water level on a wall or door etc.
- AAMI are controlling the appointment of hydrologists to provide an area overview in the first instance. If necessary a hydrologist will be appointed to conduct a site specific assessment.
- AAMI has enclosed computer printouts containing the insured's initial report of the claim and claim messages.
- In addition to assessment of the resultant damage and quantum, AAMI request that you provide a preliminary report as to the cause of the inundation.
- Please note AAMI believe it is important to act as quickly as possible in storm/inundation claims. Customers are suffering considerable stress and in need of a decision on the claim from AAMI as soon as possible. It is important to obtain as much information as possible regarding the inundation, at an early date and whilst recollection of witnesses is fresh and the evidence on the ground is still there.

The following is the wording set out in AAMI's home insurance policies.

Covered for:	Not Covered for:
Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface. Storm means violent wind (including a cyclone or tornado),	Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which: escapes or overflows from, or cannot enter, because it is full or has overflowed, or is prevented from entering, because other water has

thunderstorm or a heavy fall of rain, snow or hail.	already escaped or been released from it,
---	---

the normal confines of any watercourse or lake, including any that may have been modified by human intervention, or reservoir, canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface.

- The onus is on the Insurer to prove that the flood exclusion applies and to obtain the necessary proofs.
- Given the serious consequences for the insured of a claim denial, the evidence relied upon needs to be of a high quality.
- If there is a possibility that there was an initial inundation resulting from stormwater runoff and a later inundation caused by flood waters, the level of water inside the property from each event needs to be established as best it can, as AAMI is responsible for damage caused by the initial inundation, but not any additional damage caused by the subsequent inundation.
- If there is a possibility that the water resulting in the inundation was a mixture of stormwater runoff and flood water at the same time, the 'competing causes' insurance principle should apply, i.e. where the damage has two proximate causes, one of which is covered by the policy and other is subject to a policy exclusion, the exclusion applies to the whole of the damage and the insurer is not liable.

Requirements for our First report

Opinion

- Please provide a preliminary opinion as to whether or not you believe the inundation may have been caused by flood as defined in the policy.

Factual Evidence

- Set out briefly the factual evidence you rely upon to reach your preliminary opinion. We should provide information collected from the Cunningham Lindsey Flood Checklist
- Eyewitness accounts – as much eyewitness evidence as possible should be obtained. Statements should be obtained from the insureds, owners of neighbouring properties, local council officials, emergency organisations, police and others. Principally this should be factual in nature and include the time of the peak of the inundation, direction of flow of water, colour of water, presence of debris and any other relevant observations.
- Whilst the FOS has indicated that where possible statements from witnesses should be taken by experienced investigators, rather than hydrologists or assessors, usually in Cats this is not practical. In such cases, you should make detailed contemporaneous notes of the conversation and obtain the name and address of the witness. If necessary an investigator can be instructed to obtain a formal statement from the witness at a later date. Should you believe an investigator should be engaged please contact the AAMI Home Claims department to obtain instructions.

- Obtain amateur or professional photographs and videos of the inundation where possible. If this is not possible these should be viewed and notes taken of what they contain. The name and contact details of the person holding the material should also be obtained. If necessary an investigator can be instructed to obtain copies of these from the witness at a later date.
- Observations – if reliance is placed on any observations, full details of the observations should be recorded in the report and where possible photographs with identifying marks provided.
- Copies of media reports.

Reporting

- We have created a team in Brisbane to process the first report on behalf of adjusters visiting from overseas and consultants providing assistance.
- The team will include adjusters to assist in mentoring of the reports
- The adjuster/consultant is required to complete the handwritten report template, Flood Checklist, Building Damage Repair Assessment, Contents Schedule of loss and attach a photograph schedule in ClaimFlow prior to handing the file over to the team for processing.
- First and Final reports are to be submitted to AAMI.
- Reports should be sent to:

[Redacted]

cc

[Redacted]

- Our report should include a high level overview of the damage in the damage repair assessment and a list of the major damaged contents items (brand and model/capacity).
- You must note on every report the category of every claim you assess.
- **Category "A"** = house is unliveable, and customer needs temporary accom.
- **Category "B"** = customers can live in home until repairs start, then home will be unliveable, and customer will then need temporary accom.
- **Category "C"** = minor damage and no need for any temporary accom at any stage.

AAMI Policy Codes:

- BLD - Building
- CTS - Contents
- PVS – PVS Extra Cover
- LLB – Landlord Building
- LLC – Landlord Contents
- LTB – Landlord Tenant Protection Building
- LTC – Landlord Tenant Protection Contents

- STC – Strata Tenant Protection Contents
- FTC – Home Fire and Theft Contents
- CRC – Complete Replacement Cover (Building Total Replacement Cost)

PROPERTY ASSESSMENT REPORT		DATE: / /
Company Name: Assessor's Name: Claim No: Customer Name: Property Address:		

The assessor to ask the insured the questions as those below , but in addition **MUST** do the following;

	CHECK
1. Take photographs of the property, buildings, home etc , particularly those that show maximum level of water inundation.	
2. Attach a Google Map showing relative position of property to a watercourse	
3. Photos that identify any nearby watercourse and that indicate directional flow of floodwater	
4. Check with insured as to whether there was any and what damage caused by water through the roof or by overflowing gutters and that date and time of that event.	
a) What type of house is on the property – low set, highset, double storey, split level, etc?	
b) Is the house on stumps or slab-on-ground?	
c) Approximately how high is the habitable floor level above surrounding ground level?	
d) Is the ground level at the house higher than the street level?	
e) What date and time was the rain heaviest?	
f) What time did the heavy rain stop?	
g) When did the property get inundated (date)?	
h) What time did the inundation of the property (yard) commence?	
i) What time did water come into the house, garage, shed, etc?	
j) What date and time did the water level in the property peak?	
k) At its peak, how deep was the water inside the house, garage, shed, etc?	
l) At its peak, how deep was the water in the yard?	
m) Which direction did the water come into the property?	
n) Was the water inundating the property 'clean' or 'dirty'?	
o) Was there any and if so what damage caused by rainwater through the roof or by overflowing gutters ?	

ANNEXURE 6

SHORT FORM CONTRACT

AGREEMENT FOR THE PROVISION OF CONSULTING SERVICES

Driving Business Success for Consulting Firms in the Built and Natural Environment

Business | Engineering | Design

BETWEEN **Arup Pty Limited**

(the "Consultant")

AND

(the "Client")

- 1 The Consultant shall provide to the Client the consulting services described in the accompanying letter together with such other services as may be agreed from time to time (the "Services").
- 2 The Consultant shall provide the Services with such skill, care and diligence as is generally exercised by competent members of the consulting profession performing services of a similar nature, at the time the Services are provided.
- 3 The Services will be performed at either or both the site of the project (the "Site") or at other places reasonably required by the Client. Where the locations of the Consultant's work are not under the Consultant's control (including the Site), the Client must provide reasonable access to allow the Consultant to fulfil its obligations (including to provide the Services).
- 4 The Client shall, at its own cost, as soon as practicable make available to the Consultant all information, documents and other particulars relating to the Client's requirement for the project as is necessary for the Consultant to carry out the services as expressly set out in this Agreement (the "Requirements"). The Consultant is entitled to rely on such information, documents and other particulars as are provided by the Client pursuant to or in connection with this Agreement.
- 5 The Client shall pay to the Consultant:
 - a) the Fee and the Reimbursable Expenses as set out in the accompanying letter together with such other amounts in respect of other services agreed to be provided;
 - b) reasonable adjustments to the Fee and the Reimbursable Expenses to reflect the additional costs, expenses, liabilities, losses or other amounts incurred or suffered by the Consultant in the performance of the Services and arising out of or in connection with any event or matter beyond the Consultant's control; and
 - c) to the extent that amounts payable under this Agreement are not expressed to be GST inclusive, an additional amount for the GST incurred by the Consultant in relation to the supply of the Services ("GST").
- 6 The Consultant may claim payment in accordance with the times set out in the accompanying letter or, if no time is set out, monthly in arrears. The Client must pay to the Consultant, without set-off or deduction:
 - a) the amount payable under this Agreement for the Services provided during the relevant period, within 30 days of the Consultant's invoice; and
 - b) the GST payable under this Agreement for the Services provided during the relevant period, within 30 days of receiving a valid tax invoice.
- 7 If the Client does not pay the Consultant in accordance with this Agreement then, without prejudice to any other rights or remedies the Consultant Engineer may have, interest will be payable from the date of invoice until payment at a rate per annum equal to the Unsecured Personal Overdraft Rate as most recently published by Westpac, plus 1% per annum.
- 8 To the maximum extent permitted by law:
 - a) subject to paragraphs (b), (c) and (d) below, the Consultant's liability to the Client arising out of or in connection with this Agreement (including the performance or non-performance of the Services), whether under the law of contract, in tort, in equity, under statute or otherwise, shall be limited in aggregate to the amount specified in the accompanying letter or \$300,000, if no amount is stated in the letter.
 - b) the Consultant is not liable to the Client in respect of any indirect, consequential or special losses (including loss of profit, loss of business opportunity and payment of liquidated sums or damages under any other agreement);
 - c) the Consultant shall be deemed to have been discharged from all liability in respect of the Services whether under contract, in tort, in equity, under statute or otherwise, at the expiration of the period specified in the accompanying letter, or if no date is specified, on the expiration of 3 years from the completion of the Services;
 - d) if, and to the extent that, any of this clause is void as a result of section 68 of the Trade Practices Act 1974 (Cth), then the Consultant's liability for a breach of a condition or warranty is limited to:
 - (i) the supplying of the relevant Services again; or
 - (ii) the payment of the cost of having the Services supplied again.
- 9 Subject to the Client complying with its obligations under the Agreement, the Consultant grants to the Client a non-exclusive, royalty-free and irrevocable licence to use (and allow others to use) any intellectual property (including all drawings, reports, specifications, bills of quantity, calculations and other documents, including "works" as defined in the Copyright Act 1968 (Cth) created or produced by the Consultant) arising out of provision of the Services ("IP Rights") for the purposes of completing the Project. As between the Client and the Consultant, the ownership of the IP Rights vests in the Consultant.

- 10 Neither the client nor the Consultant shall disclose to third parties or use for any purpose (other than providing or benefiting from the Services) any information provided by the other unless:
 - a) required by law;
 - b) the information is already generally known to the public; or
 - c) the other consents to the disclosure.All documentation and materials containing confidential information provided by one party to the other shall be returned upon request.
- 11 Any dispute or difference ("Dispute") between the Client and the Consultant may be notified by a party to the other party and the parties shall:
 - a) firstly meet to negotiate, in good faith, resolution of the Dispute; and
 - b) secondly, if negotiation fails to achieve a resolution of the Dispute within 5 working days of the notification of the Dispute, attend mediation, administered in accordance with procedures as set out by the Institute of Arbitrators and Mediators Australia, provided that this provision shall not prevent the Consultant from instituting legal action at any time to recover moneys owing by the Client to the Consultant.
- 12 The Client may, without prejudice to any other rights or remedies it may have, by written notice served on the Consultant terminate its obligations under this Agreement:
 - a) if the Consultant is in breach of the terms of the Agreement and the breach has not been remedied within 28 days of a written notice served by the Client on the Consultant specifying the breach and requiring the breach to be remedied; or
 - b) upon the Client giving the Consultant 60 days' written notice of its intention to do so; or
 - c) if the Consultant informs the Client that it is insolvent, becomes bankrupt, or becomes subject to any official management, receivership, liquidation, provisional liquidation, voluntary administration, winding up or external administration ("Insolvency Event").
- 13 The Consultant may, without prejudice to any other rights or remedies it may have, by notice in writing served on the Client suspend its obligations under this Agreement:
 - a) immediately by written notice if the Client has failed to pay in accordance with this Agreement; or
 - b) if the Client is in breach of any of the other terms of the Agreement and the breach has not been remedied within 10 working days (or longer as the Consultant may allow) of a written notice served by the Consultant on the Client specifying the breach and requiring the breach to be remedied.
- 14 The Consultant may, without prejudice to any other rights or remedies it may have, terminate its obligations under this Agreement:
 - a) if the breach referred to in clause 13(a) has not been remedied within 5 days of a written notice served by the Consultant on the Client specifying the breach and requiring the breach to be remedied; or
 - b) if the Client is in breach of any of the other terms of the Agreement and the breach has not been remedied within 28 days of a written notice served by the Consultant on the Client specifying the breach and requiring the breach to be remedied; or
 - c) upon the Consultant giving the Client 60 days' written notice of its intention to do so; or
 - d) if an Insolvency Event occurs in relation to the Client.
- 15 If the Consultant considers it appropriate to do so, it may, with the Client's prior approval, which shall not be unreasonably withheld or delayed, engage other consultants to assist the Consultant in specialist areas. The other consultant shall be engaged at the Client's risk, cost and expense, and on its behalf.
- 16 Neither party may assign, transfer or sublet any obligations under this Agreement without the written consent of the other. Unless stated in writing to the contrary, no assignment, transfer or subletting shall release the assignor from any obligation under this agreement.
- 17 In the interpretation of this Agreement, no rule of construction applies to the disadvantage of one party on the basis that it put forward this Agreement or any part of it.

ITCE: NIL

Introduction:

- > We contacted your Customer on: 31 January 2011
- > Our inspection was carried out on: 4 February 2011

Description of Premises:

Single storey house on stumps clad in weatherboard. Approx. 100m².

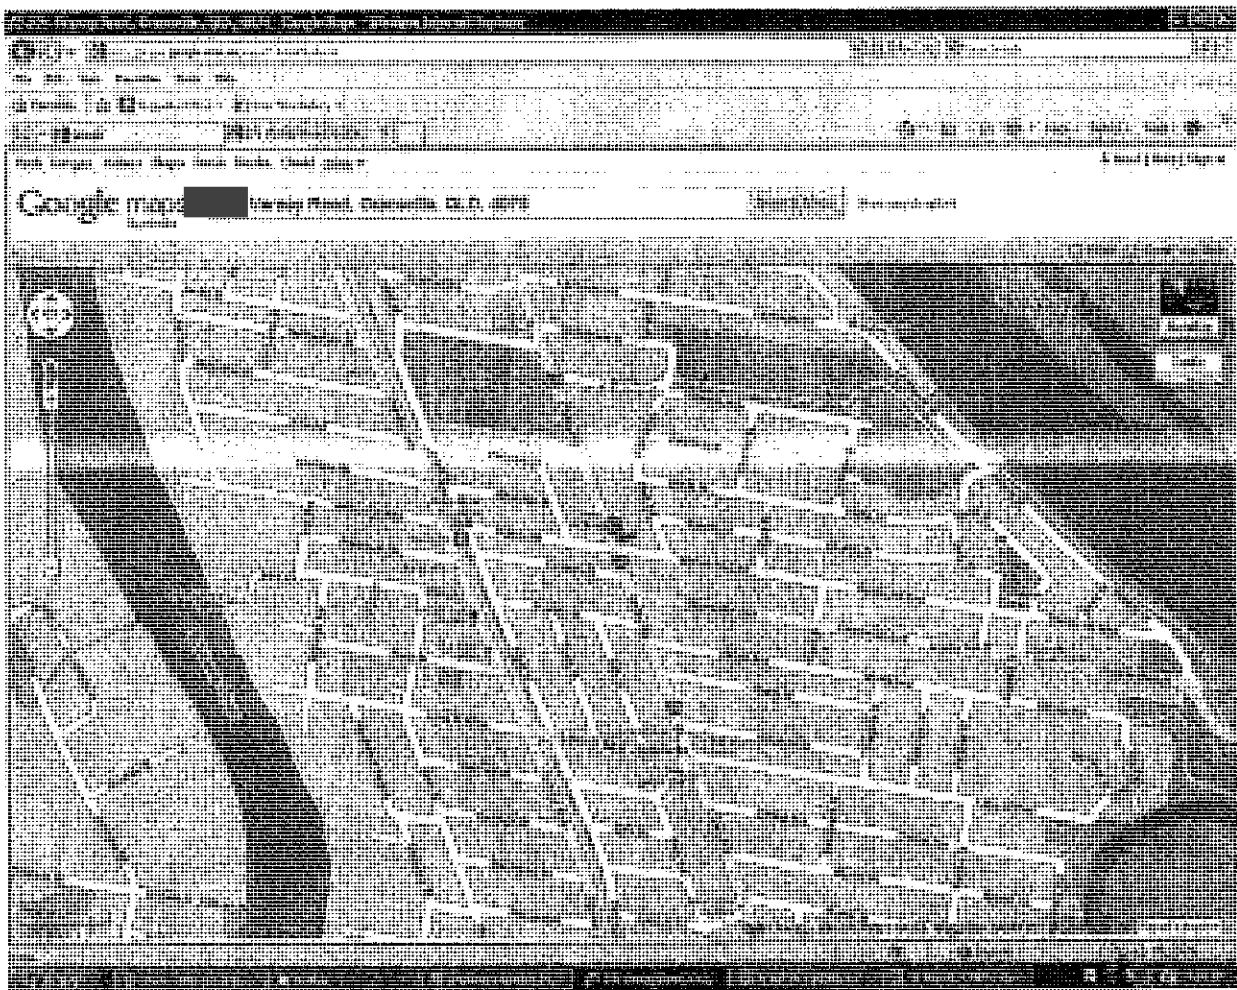

Cause:

Torrential rainfall of more than 160mm in the upper reaches of the Brisbane River catchment area from 9th January 2011 combined with massive releases of water from the Wivenhoe Dam caused river levels to rise rapidly over the period from the 10th to the 13th of January 2011. The river peaked at a near record height of 4.6m on the afternoon of Thursday 13th January 2011. The Bremer River in Ipswich also rose to near record levels peaking at 19.4m.

Rising water caused severe inundation in the Brisbane CBD and more than 55 suburbs. Ipswich was similarly affected. More than 20, 000 homes were evacuated with about 5, 500 properties flooded above floor level.

In the insured's case, your insured believes two road drains located one their side of the road, at the front of the property have overflowed causing the inundation. The property is located within 2 kilometres of the Brisbane River.

The following map shows the location of the risk address.

Loss/Damage:

See attached schedule

Building: ICA Category C

See attached schedule

Contents:

One bed, four pillows	\$1,500.00
Two mattresses, two bed-quilts, two blankets, two sheets	\$1,000.00
One carpet, two bedside rug	\$3,000.00
Two bedside, same toolies	\$1,000.00
One entertainment corner unit base	\$ 600.00
Two bookshelves, some books bought 9 July 2006	\$ 500.00
DVD home theatre including 66cm TV and	
Loud speakers	\$2,100.00
DELL AR SNP E-Smart one bought	\$2,828.00
Sofa, Gibson 2.5 + chaise + ottoman bought 10 June 2006	\$1,667.00
Simson washer large door bought 26 May 2006 without GST	\$ 519.00
Fisher and Paykel fridge bought 26 May 2006	\$1,067.00
Kitchen oven	\$1,100.00
One new fan	\$ 33.00
Bike repair bike hub	\$ 120.00
One coffee table	\$ 400.00
Four dining chairs	\$ 300.00
Hoover	\$ 300.00
One armchair	\$ 200.00
DVD player Panasonic SAMT895	\$ 500.00

Temporary Accommodation:

Not required.

Policy Liability:

From the evidence available at the time of inspection we are unable to determine if flood waters or overflowing road drains are the the cause of the damage.

We recommend insurers appoint a hydrologist to determine toe exact cause of damage.

Adequacy of Insurance:

Sums Insured described seem adequate.

Recovery:

Nil prospect.

Title:

Future Action:

Insured:	Await insurer advice.
Insurer:	Re: policy response.
CL:	Await further instructions.

AAMI home claim - Second Assessment Form

Customer's name:

[REDACTED]

Customer's phone no: [REDACTED]

Claim no: [REDACTED]

Home address: [REDACTED]

Assessor: [REDACTED]

Second assessment date:

Customer's recollection of events:

- a) Where did the water that first inundated the home come from?
- b) On what date/time did this occur?
- c) To what height did it rise?
- d) On what date/time did the water rise to its peak?
- e) How high inside the home did the water rise at its peak?
- f) Any other information the customer wishes to provide?

I.O'S CONTACT ([REDACTED]) HAS ADVISED AS LISTED BELOW:

- A) WATER WAS FLOWING BACK UP AND OUT THROUGH STREET DRAINS TO FRONT RIGHT SIDE OF HOME (PHOTO TO PROVE HAS BEEN SIGHTED AND FORWARDED TO AAMI).
- B) NOT SURE ON THE 12/1/11.
- C) WATER PEAKED AT APPROX. 1.8MTS TO AROUND YARD AREAS OF HOME.
- D) NOT SURE ON THE 12/1/11.
- E) WATER HEIGHT TO INSIDE HOME GOT TO APPROX. 500MM ABOVE FLOOR LEVEL.
- F) THE COLOUR OF THE WATER COMING FROM THE STREET DRAINS WAS DIRTY.

Discuss any specific information relevant to the customer's claim.

SABINA POINTED OUT 1 X STREET DRAIN TO FRONT RIGHT SIDE OF HOME, AND SHE HAS ADVISED THAT AS FAR AS SHE IS AWARE THIS IS WHERE THE WATER CAME FROM THAT WATER DAMAGED HOME.

Conduct site walk and document relevant information.

I HAVE WALKED PART OF VERNEY ROAD AND I HAVE FOUND THAT THERE IS 1 X STREET DRAIN LOCATED APPROX. 5>10MTS AWAY FROM THE FRONT RIGHT CORNER OF I.O'S PROPERTY. THE BRISBANE RIVER IS APPROX. 500MTS AWAY AND UP OVER AN INCLINE FROM I.O'S PROPERTY. I HAVE ALSO FOUND THAT THIS DRAIN AND I.O'S HOUSE APPEAR TO BE IN A LOW PART/GULLY AREA OF VERNEY ROAD. FROM MY OBSERVATION OF THE LAY OF THE LAND TO AROUND I.O'S PROPERTY, IT WOULD APPEAR POSSIBLE AND/OR MOST LIKELY THAT ANY WATER THAT OVERFLOWED FROM THE STREET DRAINS AND/OR STORMWATER RUNOFF FROM SURROUNDING AREAS ENTERED THE INSURED SITE AND POOLED AND/OR CAUSED DAMAGE TO HOME. NO DISCERNABLE EVIDENCE OF HEIGHT OF ANY DRAIN WATER CAN BE OBSERVED/DETERMINED.

<p>If accessible, photograph the customer's home and surrounding street, including:</p> <ul style="list-style-type: none"> a) The front b) The backyard c) Each side d) The street (looking from home) e) The street (looking to left) f) The street (looking to right) g) Behind/each side of property 	PHOTOS TAKEN
<p>Photograph all nearby watercourses or other features relevant to claim</p>	PHOTOS TAKEN
<p>General comments:</p>	<p>OTHER INFORMATION AS PER CUNNINGHAM & LINDSEY ASSESSORS REPORT.</p>
<p>Local resident enquiry no.1:</p> <ul style="list-style-type: none"> a) Were you here when the flooding happened back in January? b) Can you tell me how it happened? c) How high did the water get at your place? d) Where exactly did the water come from? (what direction) e) What colour was the water? (clean/dirty) 	<p># [REDACTED]</p> <p>A) YES. B) DURING HEAVY RAIN, WATER HAS BACKED UP AND FLOWED OUT OF STREET DRAIN TO FRONT RIGHT SIDE OF MY HOME. C) APPROX. 1.8MTS TO AROUND YARD AREAS OF HOME/1.5MTS TO INSIDE HOME. D) STREET DRAIN TO FRONT RIGHT SIDE OF HOME. E) DIRTY.</p>

<p>f) (if appropriate) Has this street flooded before?</p>	
<p>Local resident enquiry no.2:</p> <p>a) Were you here when the flooding happened back in January?</p> <p>b) Can you tell me how it happened?</p> <p>c) How high did the water get at your place?</p> <p>d) Where exactly did the water come from? (what direction)</p> <p>e) What colour was the water? (clean/dirty)</p> <p>f) (if appropriate) Has this street flooded before?</p>	

ANNEXURE 7

Brisbane Flood Claim – Claim life

Insurer: Suncorp

Claim Number: [REDACTED]

Date of Loss: 12/01/11

Claim Lodgement: 12/01/11

Estimated completion of repairs: 14/09/2011

Claim Summary: Customer's property was affected in the Brisbane Flooding

Customer Name: xxxxxxxx

Address: xxxxxxxx

Step 1 – Claim Lodged Timeframe: 1 Day	Step 2 – Book Assessment Timeframe: 8 days	Step 3 – Claim Assessed Timeframe: 3 weeks	Step 4 – Assessment Report Received Timeframe: 5 days	Step 5 – Repair Process Initiated Timeframe: 2 weeks 3 days	Step 6 – Repairs Authorised Timeframe: 3 weeks	Step 7 – Contents Settlement Timeframe: 4 weeks	Step 8 – Engineer Requested Timeframe: 4 weeks 6 days	Step 9 – Engineer Report Received Timeframe: 1 week	Step 10 – Repairs Progress Timeframe: 5 weeks 2 days	Step 11 – Repairs Finalisation Timeframe: 10 weeks
Claim Lodged with client.	The claim is referred to an assessor to view and assess the customer's property.	Assessment is completed on the customers property and report submitted.	Assessor submits his report and supporting documents to Client Manager.	Repairer is engaged to quote on repairs.	Repairer is authorised and repairs commence.	Contents are reviewed to ensure that information is adequate and then settled.	Engineer is requested through Lend Lease.	Lend Lease submit the engineer report to Suncorp.	Repairs commence, delay is identified so estimated repair time is extended.	Progress payment submitted and paid to the repairer. Confirmed repair time.

Step 1 – Claim Lodgement

12/1/11	Claim is lodged, customer advises they have been evacuated.
---------	---

Step 2 – Book Assessment

20/1/11	Assessor is appointed to claim, this was requested at claim lodgement.
---------	--

Step 3 – Claim Assessed

10/02/11	Assessor attends onsite and has advised the customer to seek alternate accommodation as the home is unliveable. Assessor also takes a description of the major building and major contents items damaged, take pictures and estimates cost of repairs to the home and contents replacement required.
----------	--

Step 4 – Assessment Report Received

15/2/11	Assessor Report, pictures and customer's contents list received on claim.
---------	---

Step 5 – Repairs Authorised

04/03/11	Claim sent to Lend Lease to arrange builder inspection and quotes.
----------	--

Step 6 – Authorisation of Repairer

24/3/11	Received Authority To Proceed from Lend Lease, this is authorising the builder on the claim to proceed with repairs. Estimated repair timeframe 18/4/11 to 8/8/11.
---------	--

Step 7 – Contents Settlement

2/4/11	Customer's contents list reviewed by Client Manager and discussed with customer, customer was to review and confirm this was all the items. Temporary Accommodation documents also received and reviewed, updated claim to pay temporary accommodation reimbursement. As payment was large required approval before proceeding.
15/4/11	Customer's amended contents list received, case manager reviewed and updated claim to pay contents, as large amount required approval before processing. Case Manager also paid temporary accommodation.
20/4/11	Case Manager paid contents to customer as had been approved.

Step 8 – Engineer Requested

24/5/11	Lend Lease advised that Engineer is required and that they have appointed Morgan's to inspect the property.
---------	---

Step 9 – Engineer Report Received

1/6/11	Lend Lease suppliers Engineer's Report.
--------	---

Step 10 – Repairs Progress

8/6/11	Lend Lease advised that the repairs started on the 11/5/11. Received email from Lend Lease with a works variation to proceed with amended Scope of Works.
8/7/11	Lend Lease were advised by the repairer that there are delays to the home repairs. This is due to home structure requiring to be dried out, this was going to cause about a two week delay. Repairers advised the estimated completion date of 14/9/11.

Step 11 – Repairs Finalisation

16/5/11	Received first progress invoice, repairs are 25% completed.
2/9/11	Confirmed with Lend Lease that the claim is on track for completion on the 14/9/11.
Note: Claim is not yet closed as repairs are not completed should be completed by 14/9/11, once final invoice received claim will be closed.

Insurer: AAMI

Claim Number: [REDACTED]

Claim Type: Working Loss

Date of Loss: 13/06/2011

Claim Lodgement: 15/06/2011 (lodged on weekend)

Repairs complete: 08/09/2011

Claim Summary: Leak in the wall detected when moving furniture

Customer Name: Mr xxxxxxxx

Address: xxxxxxxx, SUNRISE BEACH, QLD 4567

Step 1 – Assessment Timeframe: 1 day	Step 2 – Assessment Requested Timeframe: 1 day	Step 3 – Supply Team Request Timeframe: 1 day	Step 4 – 1 st Review Timeframe: 4 days	Step 5- Repair Team/Assessment Timeframe: 6 days	Step 6 – Supply Team Timeframe: 11 days	Step 7 – Repair Team Timeframe: 2 weeks	Step 8 – Authorise all repairs and replacements Timeframe: 1 day	Step 9 – Contact Insured Timeframe: 1 day	Step 10 – Claim Decision Timeframe: 1 day
On intro call insured advised to stop leak. Restoration to be arranged as soon as complete.	Assessing co-ordinator determines that an assessment is not required.	Request sent to the supply team to organise restoration and report on carpet	File Review completed on claim. Restoration report in and customer's documentation.	Request sent to the Repair Team to organise a builder to quote on repairs.	Supply team review restoration report and organise replacement of carpet.	Repair Team review builders report and authorise repairs to commence	Review all information and authorised repairs and replacement of items	Contact insured to confirm repairs have been completed and are satisfactory	Final review is finished and all repairs and replacement has been completed

Step 1 – Assessment

15/6/2011	Customer lodges claim with AAMI and insured is advised to stop the leak. Once completed the restoration is commenced.
Step 2 – Assessment Requested	
16/6/2011	Assessing team determine no assessment is required and that a builder can be assigned to quote on the repairs
Step 3 – Supply Team Engaged	
16/6/2011	Supply team organise for restoration and quote on carpet.
Step 4 – 1st Review	
30/6/2011	Insured has contacted advising his plumber will send reports. (Insured's plumber holds this up at this stage for 5 working days). Claim is reviewed, reports are read including restoration report. Request sent to supply to organise replacement quote on carpet. Request sent to builder to quote and report on repairs. Based on reports to hand, assessment is required and actioned.
Step 5 –Assessment/Repair Team engaged	
5/7/2011	Assessment is conducted determining that insured can supply quotes for contents and some minor works. Repair co-ordinator organised for thorough inspection of area surrounding damages. Repair team has engaged builder to quote and report.
Step 6 – Supply Team	
10/7/2011	Supply Team determine insured's quotes F&R and advise to cash settle these items.
Step 7 –Repair Team	
15/7/2011	Repair team review builders report
22/7/2011	Repair team are authorised to engage builder for repairs.
Step 8 – All Repairs and Replacement authorised	
31/7/2011	Review completed, invoice paid for carpet replacement. All repairs authorised and have commenced. Work is proceeding very well
Step 9 – Review Completed	
8/8/2011	Insured contact to ensure all repairs are completed and to the insured satisfaction. Insured o/s for 4 weeks and not contactable.
Step 10 – File Review	

5/9/2011	Insured contacts on return to advise all works complete and very happy with the entire result. Advising would recommend AAMI and our builder to friends.
----------	--

Step 10 – Claim finalisation

8/9/2011	All works confirmed complete, all supplied contents complete. Insured very satisfied with works. Invoices waiting to be finalised for AAMI builder.
----------	---

14/6/2011	Repair team review builders report
24/6/2011	Repair team are authorised to engage builder for repairs.
Step 8 – All Repairs and Replacement authorised	
24/6/2011	Review completed, invoice paid for carpet replacement. All repairs authorised
Step 9 – Review Completed	
2/8/2011	Insured contact to ensure all repairs are completed and to the insured satisfaction.
Step 10 – Claim Decision	
16/8/2011	Final Review completed and claim finalised

ANNEXURE 8

27 April 2011

[REDACTED]
[REDACTED] Agnes Street
Rockhampton QLD 4700

Dear Mr & Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Eleventh Avenue, Theodore on 28 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report from WRM Water & Environment that has investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Castle Creek and Dawson River at the time (28 December 2010) your property was affected. This report is 39 pages. If you would like a copy please let us know.

We have also obtained a site-specific report from WRM Water & Environment which confirms that Castle Creek and Dawson River inundated your property. It also concludes that stormwater runoff did not inundate your property. A copy of this report is enclosed.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, overland floodwaters from Castle Creek initially inundated your property before overland floodwaters from the Dawson River later inundated your property. We are satisfied that stormwater runoff did not inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

9 May 2011

[REDACTED]
[REDACTED] Kilkenny Drive
BURPENGARY QLD 4505

Dear Mr & Mrs [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your fence and air conditioner located at [REDACTED] Kilkenny Drive, Burpengary, QLD on or around 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for your cooperation in this regard.

Geography

We understand that your property is situated approximately 100 m to the west of Burpengary Creek.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, we are satisfied that the damage to your fence and air conditioner was caused by overland flood. More specifically, Burpengary Creek located approximately 100m behind your property has risen and overflowed, causing inundation to your yard on or around 11 January 2011. As your Policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision.

The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

18 July 2011

Mr [REDACTED]
[REDACTED] Skyline Drive
Kholo QLD 4306

Dear Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the disappearance of your canoe, from your Skyline Drive property on 11 January 2011.

As you know, we appointed an Assessor to attend your property and discuss the circumstances of your claim. We thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your canoe was witnessed floating away down River. This report is substantial (over 130 pages). You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that the low-lying area of your property was inundated by Brisbane River floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that the policy covers damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011, Volume 1: An Overview*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

The term 'flood' is also defined on page 50, as it applies to wording throughout your policy.

Your policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood..."

On page 49, your policy specifically defines the following words:

"Damage and loss.

Damage means actual physical damage to your contents.

Loss or lost means your contents or a part of your contents being destroyed, stolen or damaged beyond economical repair.

Loss **does not** mean items being accidentally misplaced."

Page 51 of your policy defines 'storm' as:

"Storm means violent wind (including a cyclone or tornado), thunderstorm or a heavy fall of rain, snow or hail."

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, we confirm our understanding that your canoe was displaced from its mooring on your property and floated away down river, at the time the Brisbane River rose significantly across the low-lying part of your property. You have advised that that one of your neighbours witnessed your canoe being swept away.

We have reviewed the nature of your canoe's disappearance against all covers available under your policy. Unfortunately we do not believe that any part of your policy can respond to the circumstances claimed for. Specifically:

- a) Your claim has not been accepted under the insured event of storm and rainwater, as those causes of loss are not relevant. The policy specifically defines storm on page 51, to relevantly only include the heavy fall of rain, which was not the proximate cause of your claim.
- b) We have additionally considered your claim against the \$1,000 limited cover you hold under the Extra Cover for Portable Valuables section of your policy. Unfortunately the general exclusion on page 22 prevents your claim under that cover, since the policy excludes claims for the cost of any property when the claim arises from or involves flood, as that term is defined on page 50.

We accept that the event claimed for is unusual in their nature, as your canoe has not been 'lost' or 'damaged' as your policy defines those words. However, its disappearance did arise as a result of river flooding. We must therefore regretfully confirm that your claim has not been accepted, as the general exclusion for flood is applicable.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to

be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Springall Street
Basin Pocket QLD 4305

Dear Ms [REDACTED]

Mr Frank Curr AAMI building and contents insurance claim: H006290863

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Springall Street, Basin Pocket 4305 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River has affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Bremer River adjacent to your property rose and overflowed, causing floodwaters to travel overland and inundate your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

30 June 2011

[REDACTED]
[REDACTED] Layfield Road,
Anstead Qld 4070

Dear Mr [REDACTED]

Your AAMI building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Layfield Road, Anstead on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8 to 13) under the heading, '**What we cover – insured events**' explains the specific insured events that your Policy covers.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your fencing was caused by flood. Specifically, the substantive cause of loss is floodwaters from the tributary of Pullen Pullen Creek to the south of your property rising to inundate your property, causing damage to your fences. A minor contribution to the overall flooding may have been overflows from the dam on your neighbour's property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

19 July 2011

██████████
██████████ Tyack Street
TOOWOOMBA QLD 4350

Dear Ms ██████████

Your AAMI contents insurance claim ██████████

Thank you for contacting AAMI to tell us about water damage to your contents at ██████████ Pierpoint Street, Stanthorpe on 10 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology which indicates that there was minor rainfall in your area on and around 10 January 2011.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by water seeping into or otherwise entering your building due to:

a defect or fault in the design, structure or construction of your building where you could reasonably be expected to be aware of the defect or fault"

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

mould, wet or dry rot, rising damp or dampness"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, it is evident that the damage to your contents was not caused by an insured event.

We understand that the damage to the various contents items you have claimed for was as a result of:

- a) water seepage through the wall at the front of your property and via bricks at ground level; and/or
- b) mould, mildew and dampness.

We are satisfied that you were reasonably aware of the presence of a defect in the building that allowed for water seepage, as you indicated to us that you were aware of ongoing problems across the seven years during which you have resided at the property.

As your policy does not cover loss or damage of the types described above, we regret to inform you that this claim has not been accepted on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

15 July 2011

[REDACTED]
[REDACTED] Cliveden Avenue
Corinda Qld 4075

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Cliveden Avenue, Corinda on 12 – 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Reports:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, floodwaters from the Brisbane River have back flowed down Oxley Creek and then into Pennywort Creek approximately 400 metres south east and approximately 300 metres east of your property respectively. These floodwaters have subsequently risen and overflowed to cover ordinarily dry land and to inundate your property on or around 12 January, 2011.

As your policy does not cover loss or damaged caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

04 May 2011

[REDACTED]
[REDACTED] Leybourne Street
Chelmer QLD 4068

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Leybourne Street Chelmer QLD 4068 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that was affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 250m to the east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

Peter Unwin
Technical Event Claims Manager - Queensland

4 May 2011

██████████
██████ Mount Ommaney Drive
JINDALEE QLD 4074

Dear Mr & Mrs ██████████

Your AAMI building insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building located at ████████ Mount Ommaney Drive, Jindalee QLD 4074 on or around 11 January 2011.

In particular you have claimed for damage to your pontoon and jetty.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time (11 January 2011) your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, **'What we cover – insured events'** explains that you are

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled *'Flooding in the Brisbane River Catchment, January 2011'*.

covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building is not as a result of an event that is insured under your Policy. Specifically:

- a) In relation to the damage to your wooden decking connecting to your pontoon gangway, the Brisbane River adjacent to your property has risen and overflowed, causing floodwaters to travel overland and inundate those parts of your wooden decking that are ordinarily over dry land. Your Policy does not cover damage caused by flood of this type.
- b) In relation to the damage to your gangway and any damage to your pontoon, it is evident that this damage was caused by the heightened level of the Brisbane River

(including the significantly increased velocity of the water at the time). This event, in itself, is unfortunately not covered by any part of your building policy.

Whilst we acknowledge that different parts of the policy have been referred to above, we have carefully reviewed the specific circumstances of your claim and must confirm that there is no coverage under your policy on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

29 August 2011

[REDACTED]
[REDACTED] Taylor Street
DINMORE QLD 4303

Dear Mr [REDACTED]

Your AAMI landlord building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your landlord building located at [REDACTED] Dunlop Street Redbank 4301 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Morgans Consulting Engineer Report

Morgan Consulting Engineers attended your property on 29 July 2011 to inspect the damage caused by the flood waters. They have noted the following in relation to the double garage and the purlins:

4.5 Shed

The shed is a single storey, steel framed and sheet metal clad structure on a concrete slab, with a sheet metal roof. Corrosion was noted along each of the edge purlins. It appeared that this corrosion may have penetrated under the galvanising of the purlin. The sheeting was pan fixed to the purlins.

5.0 Evaluations & Conclusions

The corrosion to the purlins has occurred as a result of damage to the protective coating (galvanising). The process of corrosion occurs over a period of many years and would not be affected by a brief one-off flood event. Furthermore, the extent of corrosion indicates that it was initiated prior to the flood event. The pan fixing of the roof sheeting is poor building practice and can lead to water ingress and corrosion of the roof sheeting and purlins.

6.0 Recommendations

We recommend that the corrosion to the purlins be removed and the protective coating repaired as part of regular maintenance. As this corrosion has not been affected by the flood, we are unable to comment whether this would be covered by the policy.

Your AAMI Landlord Insurance Policy

Your AAMI Landlord Insurance Policy Product Disclosure Statement (your Policy) on pages 12 & 14 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your landlord building occurring during the period of cover and caused by:

"Flood"

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 18:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Wear and tear, rust, deterioration or corrosion"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, it is evident that the damage present to the purlins and the double garage has occurred as a result of general wear and tear and rust which has occurred over a long period of time.

As your policy does not cover damage caused by wear and tear or rust, we regret to inform you that the replacement of the purlins and the double garage will not be covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

jenna zimmermann

Technical Support Officer
PI Home Claims QLD/NT

11 April 2011

[REDACTED]
[REDACTED] Allandale Drive
DUBBO NSW 2830

Dear [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Fifth Avenue, Theodore QLD 4719 on 28 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Geography:

We understand that your property is located in the central part of Theodore between the Dawson River and Castle Creek.

Hydrology Report:

We have obtained a Hydrology Area Report from hydrologists WRM Water and Environment. This firm has investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Dawson River at the time (28 December 2010) your property was affected. We enclose a copy of this report for your records.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Dawson River approximately 100m to the west of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

9 May 2011

[REDACTED]
C/- PO [REDACTED]
JERICHO QLD 4728

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Pasteur St, Jericho on or around 25 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Geography:

We understand that your property is located in Jericho and that Jordan Creek runs past the town approximately 900m east of your property.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood,"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, we are satisfied that Jordan Creek has risen and overflowed to inundate your property on or around 25 December. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

23 February 2011

[REDACTED]
PO Box 239
EMERALD QLD 4720

Dear Gillian,

Claim Number [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your home contents at [REDACTED] Edgerton Street Emerald 4720 on the 30th December 2010.

As you know, we appointed an assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrologist Area Report from WRM Water & Environment Pty Ltd on the cause and timing of inundation in the area of your home. Their report shows that the inundation was caused by flood water escaping and overflowing from the Nogoa River from 29/12/2010 to 03/01/2011. We enclose a copy of the report for your information.

We also obtained an individual Water Damage Assessment of your claim by WRM Water & Environment Pty Ltd, confirming the inundation was caused by flood. We enclose a copy of this assessment for your perusal.

Your Insurance Policy:

Your Home Contents Insurance Policy Product Disclosure Statement (PDS) on pages 16, 18, 19 and 21 under the heading 'What we cover – insured events', provides that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Home Contents Insurance Policy PDS further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our Decision On Your Claim:

After careful consideration of the information and reports we have obtained, it is evident that the damage to your home contents was caused by flood. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your Right to Have This Decision Reviewed:

If you are not satisfied with our response, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and have the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:.

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of the decision of our Consumer Appeals Service. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

11 April 2011

[REDACTED]
PO Box [REDACTED]
THEODORE QLD 4719

Dear Mr [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your property located at [REDACTED] Cracow Road, Theodore, QLD on 28 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Geography:

We understand that your property is situated within close proximity to the Dawson River which runs west of the township of Taroom.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM). At Woodleigh (17.5km northwest of your property), the highest short duration rainfall intensity over the period December 2010 to 1st January 2011 was a 5 minute burst of 39mm/h. The hydrologist opined that rainfall of this intensity would not normally cause local stormwater inundation.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained there is no evidence to suggest the occurrence of an insured event i.e. storm (as the term is specifically defined in the policy) or stormwater runoff. On this basis, we accept the hydrologist's conclusion that the damage to your property was caused by flood. Specifically, inundation caused by the floodwater flowing up the irrigation drainage channel under Cracow Road to the subject property on or around 28 December 2010. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Peter Unwin
Technical Event Claims Manager - Queensland

22 February 2011

[REDACTED]
[REDACTED] Garnet Street
EMERALD QLD 4720

Dear [REDACTED]

Claim Number [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your home contents at [REDACTED] Garnet Street, Emerald QLD 4720 on the 31/12/2010.

As you know, we appointed an assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrologist Area Report from WRM Water & Environment Pty Ltd on the cause and timing of inundation in the area of your home. Their report shows that the inundation was caused by flood water escaping and overflowing from the Nogoa River from 29/12/2010 to 3/01/2011. We enclose a copy of the report for your information.

We also obtained an individual Water Damage Assessment of your claim by WRM Water & Environment Pty Ltd, confirming the inundation was caused by flood. We enclose a copy of this assessment for your perusal.

Your Insurance Policy:

Your Home Contents Insurance Policy Product Disclosure Statement (PDS) on pages 16, 18, 19 and 21 under the heading 'What we cover – insured events', provides that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Home Contents Insurance Policy PDS further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our Decision On Your Claim:

After careful consideration of the information and reports we have obtained, it is evident that the damage to your home contents was caused by flood. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your Right to Have This Decision Reviewed:

If you are not satisfied with our response, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and have the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:.

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of the decision of our Consumer Appeals Service. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

24 June 2011

George Street
BUNDABERG QLD 4670

Dear Miss

Your AAMI building insurance claim:

Thank you for contacting AAMI to tell us about the water damage to your building located at George Street Bundaberg on 28 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

We also thank you for allowing an onsite hydrology investigation to be conducted by WRM Water and Environment. The report explains that the initial inundation of the shed and laundry was initially caused by local stormwater runoff. Higher levels of floodwater from the Burnett River subsequently inundated your home. Please find enclosed a complete copy of this report for your records.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM). The closest BOM recording station to your property is the Bundaberg Aero Rainfall Station. The relevant rainfall data is included in the **enclosed** WRM onsite hydrology report. Rainfall data leading up to 30 December indicates that there was heavy rainfall over 27 and 28 December 2010.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, viewing publically available aerial mapping and reviewing the documents you have provided, it is our view that the damage to your property was caused by an initial inundation of stormwater runoff, followed by overland flood to a far higher inundation level.

We are satisfied that the damage to your contents in your shed & laundry up to and including 5cms above ground level was not caused by overland flood. Rather, the damage was caused by stormwater runoff. On this basis we are pleased to inform you that your policy will cover this portion of your claim.

Unfortunately the information and reports we have obtained indicate that the damage to your contents located higher than 5cms above the shed and laundry was caused by flood. Specifically, the Burnett River has risen and overflowed causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by overland flood, we regret to inform you that this portion of your claim has not been accepted.

In order to process the accepted portion of this claim, we will require you to complete a list of contents which were in the shed and laundry and that were damaged by the 5cm of water.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI

Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

1 April 2011

[REDACTED]
[REDACTED] Donald Street
BUNDABERG QLD 4670

Dear Mr & Mrs [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Donald Street, Bundaberg QLD on 29 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

We also thank you for allowing an onsite hydrology investigation to be conducted by WRM Water and Environment. The report indicates that the inundation was caused by flood water escaping and overflowing from the Burnett River at the time (Thursday, 30 December 2010) your property was affected. Please find **enclosed** a copy of this report for your records.

Geography:

We understand that your property is situated approximately 450m north of the Burnett River which runs through the township of Bundaberg.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM). The closest BOM recording station to your property is the Bundaberg Aero Rainfall Station. The relevant rainfall data is included in the **enclosed** WRM onsite hydrology report. Rainfall data leading up to 30 December indicates that there was heavy rainfall over 27 and 28 December 2010.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, **'What we cover – insured events'** explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your property was caused by flood.

Specifically, the Burnett River located approximately 450m south of your property has risen and overflowed due to the heavy rains in the area, causing floodwaters to travel overland and inundate your property. Furthermore, the WRM onsite hydrology report concludes that the source of inundation to your property was overland floodwater from the Burnett River.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

4 May 2011

[REDACTED]
PO Box 1918
BUNDABERG QLD 4670

Dear Mr and Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] George Street, Bundaberg QLD on 29 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for your cooperation in this regard.

We also arranged for WRM Water and Environment to attend your property and investigate the cause and timing of water inundation at your property's specific location. **Enclosed** for your information is a copy of the WRM Water and Environment hydrology report.

Geography:

We understand that your property is situated a short distance to the south east of Saltwater Creek which runs through the centre of the Bundaberg township.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or
cannot enter because it is full or has overflowed, or
is prevented from entering, because other water has already escaped or been released from it,
the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

You will note that the WRM Water and Environment report states that:

" The initial inundation of the down-stairs bathroom above floor level may have occurred from Burnett River floodwaters backflowing up sewer pipes and into the toilet drains within the bathroom. It could not have been stormwater runoff because the most intense rainfall, which produces the greatest stormwater runoff ceased some 12 hours earlier.

It is likely that water inundation from this source would have only been to a shallow depth (up to 100mm) above floor level. The main living area of the house, which is elevated about 1 m above the bathroom could not have been inundated by water from this source."

After careful consideration of the WRM Water and Environment report, in conjunction with other information we have obtained and viewing relevant Government mapping, we are satisfied that the damage to your bathroom vanity, carpet and underlay was not caused by overland flood. Rather, this initial damage was caused by water backflowing up sewer pipes and into the toilet drains within your home. On this basis we are pleased to inform you that your policy will cover this portion of your claim.

As you are aware, we will also be reimbursing you for the cost of your temporary accommodation in the amount of \$640.00.

Unfortunately, the damage to the remainder of your property was caused by floodwater inundation from the overflow of Saltwater Creek which is located within close proximity of your property, on or around 29 December 2010. As your policy does not cover loss or damage caused by overland flood, we regret to inform you that the damage to the remainder of your building and contents is not covered under this claim.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

15 April 2011

[REDACTED]
[REDACTED] Dawn Street
ROCKLEA 4106

Dear M [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Elmes Road, Rocklea, 4106 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Stable Swamp Creek and/or Rocky Water Holes Creek. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Stable Swamp Creek and/or Rocky Water Holes Creek, approximately 350m to the south and 250m to the north east respectively of your property, received floodwaters from the Brisbane River via Oxley Creek causing it/them to rise and floodwaters to subsequently travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

Mr [REDACTED]
[REDACTED] Furlong Street
Indooroopilly QLD 4068

Dear [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Furlong Street Indooroopilly QLD 4068 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River to the east of your property rose and overflowed, causing floodwaters to travel overland and inundate your property on via Cubberla Creek to the south which affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River to the east of your property rose and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011 via Cubberla Creek to the south of your property. As your policy does not

cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Peter Unwin
Technical Event Claims Manager - Queensland

3 May 2011

[REDACTED]
[REDACTED] Kiamba Road
KIAMBA QLD 4560

Dear Mr and Mrs [REDACTED]

Your AAMI building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your property located at [REDACTED] Kiamba Road, Kiamba, QLD on or around 11 January 2011.

In particular, you are claiming for damage to your fencing around your property.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Geography:

We understand that your property is situated adjacent to South Maroochy River.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or

stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood;

Subsidence or landslide unless caused by the insured event of earthquake."

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to one of your fences (approximately 150 metres of post and wire fencing) was caused by flood. Specifically, South Maroochy River located adjacent to your property, has risen and overflowed causing floodwaters to travel overland and sweep your fence away.

In relation to the damage caused to your other fence by a landslide (approximately 50 metres of post and wire fencing), we note your policy does not cover for landslides unless caused by an earthquake. In this case, the landslide was not caused by an earthquake.

As your policy does not cover loss or damage caused by flood or excluded landslides, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

5 April 2011

[REDACTED]
[REDACTED] Longfellow Street
Norman Park 4170

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Longfellow Street Norman Park 4170 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Norman Creek approximately 200m to the west of your property has received floodwaters from the Brisbane River, subsequently causing Norman Creek to rise and overflow. Floodwaters have then travelled overland to inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located approximately 850 metres to the north of your property on or around 13 January 2011. As your policy does not

cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. 18 April 2011

[REDACTED]
[REDACTED] Long Street E
Graceville QLD 4075

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Long St E, Graceville on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Oxley River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Oxley Creek, which is located approximately 500 meters east of your property, and the Brisbane River which is approximately 600 meters north east of your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

We are pleased to inform you that your policy will cover your claim for spoilage of frozen food. As discussed we have organized a cheque for \$400.00 to your address.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

29 June 2011

[REDACTED]
[REDACTED] Mount Mee Road
Delaneys Creek QLD 4514

Dear M [REDACTED]

Your AAMI building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your property located at [REDACTED] Budgen Street, Yarraman.

In particular you have claimed for water damage that occurred on or around 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Rainfall data

The Bureau of Meteorology rainfall data for the days leading up to and including the 11 January 2011 indicates that there was significant rainfall in your area.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on page 6) under the heading, **'What we cover- the building'** excludes:

"fixed wall and floor coverings such as carpets, internal blinds, drapes, and curtains."

You Policy (on pages 8, 12 and 13) under the heading, **'What we cover – insured events'** explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Our decision on your insurance claim:

Floating floors in open plan entry, lounge room, meals room and kitchen areas

After careful consideration of the information and reports we have obtained, and taking into account the rainfall records from the Bureau of Meteorology, it is evident that the damage to your floating floors in the open plan entry, lounge room, meals room and kitchen areas was

caused by stormwater runoff. As your policy covers damage caused by stormwater runoff, we are pleased to inform you that this portion of your claim is accepted.

Carpet and underlay located in the main bedroom and the second bedroom

Carpets are specifically excluded under your home building policy. Unfortunately at the time of loss you did not have contents cover which normally covers carpet damage caused by a storm and rainwater event. This being the case we regret to inform you that this portion of your claim is not covered.

Cracked lounge room ceiling

On the evidence available we are unable to establish the cause of damage to your lounge room ceiling. Without knowing the cause of damage we cannot make a decision on this aspect of your claim. We believe it is necessary to have a builder inspect your ceiling and provide us with a written report. Once this has occurred we will be in a better position to make a decision on this component of your claim.

Your client manager will contact you shortly to arrange a building inspection.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

29 June 2011

[REDACTED]
[REDACTED] Moggill Road
MOGGILL QLD 4070

Dear Mr [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your pontoon and walkway located at [REDACTED] Moggill Road, Moggill.

We understand that the events you have claimed for took place between 9 and 14 January 2011 at the time of the Brisbane floods.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your property was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your pontoon and walkway is not as a result of an event that is insured under your Policy.

Specifically:

- a) In relation to your pontoon and walkway, they were washed away due to the heightened level of the Brisbane River (including the significantly increased velocity of the water at the time). This event, in itself, is unfortunately not covered by any part of your building policy.
- b) In relation to any parts of your walkway that were situated on/over normally dry land, the Brisbane River adjacent to your property rose and overflowed, causing floodwaters to travel overland and inundate those parts. Your Policy does not cover damage caused by flood as defined in your Policy.

Whilst we acknowledge that different parts of your Policy have been referred to above, we have carefully reviewed the specific circumstances of your claim and must confirm that there is no coverage under your Policy on this occasion.

We apologise for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

15 April 2011

[REDACTED]
[REDACTED] Mandalay Street
Fig Tree Pocket QLD 4069

Dear Mr & M [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Mandalay St, Fig Tree Pocket 4069 on 14 January 2011.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located to the rear of your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Kendall Street
OXLEY QLD 4075

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Kendall St Oxley QLD 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Oxley Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Oxley Creek, which is located approximately 65 metres to the east of your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. Peter Unwin
Technical Event Claims Manager - Queensland

29 June 2011

██████████
PO BOX ██████████
Morningside QLD 4170

Dear Mr Galea

Your AAMI contents insurance claim ██████████

Thank you for contacting AAMI to tell us about the loss of your pump located at ██████ Nawala Court, Karana Downs.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or
- cannot enter because it is full or has overflowed, or
- is prevented from entering, because other water has already escaped or been released from it,
- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

Under Australian insurance law a policy holder must establish on the balance of probabilities that the covered risk has been damaged by an event insured under their policy. After careful consideration of the information and reports we have obtained, we are not satisfied that you have established that the damage to your pump was caused by an insured event.

Specifically, there is no evidence to indicate that a falling tree impacted your pump and caused it physical damage. The pump was not available for inspection by the Assessor and to our knowledge has not been retrieved by you since the January flood event.

In our view, even if physical damage to the pump could be proved, it is likely that such damage was caused by overland flooding which is excluded under your policy. In this case, overflow from the rising Brisbane River is highly likely to have inundated the pump's structure, which you have advised us was located on ordinarily dry land (the river bank).

On the basis of the above, we regret to inform you that your claim has not been accepted.

We apologise for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to

be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

19 May 2011

[REDACTED]
[REDACTED] Annette Court
BURPENGARY QLD 4505

Dear Mr and Mrs [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the damage to your bridge located at [REDACTED] Annette Court, Burpengary on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Geography:

We understand that a gully runs through your property which has been dammed to the east. The resultant dam runs across both your and neighbouring properties.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM) which provides an indication of the rainfall totals in your area at the time your property was inundated. It is noted that there was heavy rainfall on and around the date of loss.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your bridge is not as a result of an event that is insured by your Policy.

It is our view that dammed gully which runs through your property has received stormwater runoff, causing the dam to rise and overflow and inundate ordinarily dry land in its vicinity.

Consequently, we accept that the damage to your bridge was caused by two discrete events:

- a) The water level of the dam rose above the height of your bridge and the lateral force against its structure has caused it to fail. This event, in itself, is unfortunately not covered by any part of your building policy.
- b) The foundations of your bridge, which were ordinarily on dry land, were inundated by the rising and overflowing dam. We are satisfied that the damage they sustained was either the result of this floodwater inundation alone or a combination of the floodwater and the lateral force against the body of the bridge itself. Flood of this type is excluded by your Policy.

Whilst we acknowledge that different parts of the policy have been referred to above, we have carefully reviewed the specific circumstances of your claim and must confirm that there

is no coverage under your Policy on this occasion and regret to inform you that your claim is not covered.

Please accept our apology for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely

Peter Unwin

16 May 2011

Mr [REDACTED]
[REDACTED] Colwel Street
Oxley QLD 4075

Dear Mr [REDACTED] & Miss [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Colwel St, Oxley 4075 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Oxley Creek has affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Oxley Creek approximately 150m north east of your property has risen and overflowed causing floodwaters to travel overland and inundate your property on or around 12 January 2011.

We have considered the possibility of inundation to your home by water escaping from drains near your property and/or stormwater runoff. However, we are satisfied that rainfall of any significance ceased well prior to your home being inundated and that any water which escaped nearby drains and/or stormwater runoff that had pooled in your street mixed with overland floodwaters from Oxley Creek before inundating your property.

We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain and/or stormwater runoff.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

17 May 2011

Mr [REDACTED]
[REDACTED] Belmore Court
PINE MOUNTAIN QLD 4306

Dear Mr & Mrs [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your driveway located at [REDACTED] Belmore Court Pine Mountain on 27 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, **'What we cover – insured events'** explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by water seeping into or otherwise entering your building due to:

A defect or fault in the design, structure or construction of your building where you could reasonably be expected to be aware of the defect or fault."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Wear and tear, rust, deterioration or corrosion,

Erosion or washing away of soil, earth or *gravel*,

The washing away or movement of the surface of any path or *driveway* which has a surface consisting of a *loose material* such as *gravel*, stone or dirt."

Your Policy also states in the section, "**What we cover – the building**" on page 7:

"The building excludes:

The *loose surfaces* of tennis courts, *driveways* and paths."

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained it is evident that the damage to your driveway is not covered by your policy. We regret to inform you that your claim is not covered on this occasion.

The basis for our decision:

We are satisfied that the damage to your driveway was caused by rainwater inundation contributed to by a number of other factors that are excluded by your policy.

Based on the policy wording explained above, we believe that your driveway is not a part of your building (as this word is defined in the policy) as considerable parts of the driveway are made up of a loose surface. Alternatively, if it was to be accepted that your driveway does constitute a building, the specific exclusions shown above prevent your policy from responding as:

- 1) The storm event caused the loose surface of the driveway to be washed away, subsequently allowing the base surface to be exposed and weakened resulting in cracks and pot holes. The loose surface consisted of gravel, stone and dirt.
- 2) Damage was caused during the storm event by water seeping into or otherwise entering your driveway due to a defect in its design, structure or construction. It is our view that your driveway has not been constructed properly (it is too thin to hold up against vehicle traffic) and as a result is defective. You could be reasonably expected to be aware of this because of ongoing wear and tear issues and the appearance of cracks and potholes during normal use, which has led to you making a previous claim under your policy.
- 3) The damage to your driveway also involved wear and tear, and such damage is excluded by your policy.

The acceptance of your previous claim for damage to your driveway was at AAMI's discretion. We confirm that AAMI considers each claim for damage separately and is under no contractual obligation to accept a future claim as a consequence of any previous claim decisions.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

20 April 2011

[REDACTED]
UNIT [REDACTED] BUCHANAN STREET
WEST END 4101

Dear Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Buchanan Street, West End, 4101 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane river on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane river, which is located approximately 55 metres to the north east of your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

11 May 2011

██████████
██████████ Curchins Road
BUNGADOO QLD 4671

Dear Mrs ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ██████████ Curchins Road, Bungadoo QLD on 9 January 2011.

In particular you have claimed for damage to your jetty, walkway/steps, water pump and canoe.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, it is evident that the damage to your building and contents is not as a result of an event that is insured under your Policy. Specifically:

- a) In relation to the damage to your walkway/steps and water pump, the Burnett River adjacent to your property has risen and overflowed, causing floodwaters to inundate your water pump and those parts of your walkway/steps that are ordinarily on/over dry land. Your Policy does not cover damage caused by flood of this type.
- b) In relation to the damage to your jetty and canoe, it is evident that this damage was caused by the heightened level of the Burnett River (including the significantly increased velocity of the water at the time). This event, in itself, is unfortunately not covered by any part of your Policy.

After carefully reviewing the specific circumstances of your claim we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely

[REDACTED]
[REDACTED] Leybourne Street
CHELMER QLD 4068

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Leybourne Street, Chelmer, QLD 4068 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located approximately 600 metres to the east of your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

18 May 2011

██████████
██████ Egmont Street
SHERWOOD QLD 4075

Dear Mr ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ████████ Egmont Street Sherwood 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek on or around 12 January. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled *'Flooding in the Brisbane River Catchment, January 2011'*.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Oxley Creek approximately 600m east of your property has received floodwaters from the Brisbane River causing it to rise and overflow. It initially inundated the low lying parklands east of your property adjacent to the Oxley Creek. As water levels continued to rise, overland floodwaters inundated your property to cause damage on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

18 April 2011

[REDACTED]
[REDACTED] Agnes St
ROCKHAMPTON QLD 4700

Dear Mr & Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Eleventh Avenue, Theodore on 28 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report from WRM Water & Environment that has investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Castle Creek and Dawson River at the time (28 December 2010) your property was affected. This report is 39 pages. If you would like a copy please let us know.

We have also obtained a site-specific report from WRM Water & Environment which confirms that Castle Creek and Dawson River inundated your property. It also concludes that stormwater runoff did not inundate your property. A copy of this report is enclosed.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, overland floodwaters from Castle Creek initially inundated your property before overland floodwaters from the Dawson River later inundated your property. We are satisfied that stormwater runoff did not inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

12 July 2011

Mrs [REDACTED]
PO Box 18
GREENMOUNT QLD 4359

Dear Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Gerald Lane Greenmount 4359 on 10 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Flooring Report

We have obtained a report from Townsend Building Services who attended and inspected the damage present to the veranda/deck flooring. Their report states the following:

"In my opinion the damage I inspected appears to be the result of a faulty product. There was evidence of excessive cupping, bowing, mould and movement to the boards"

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8 - 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16 - 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by a specific list of insured events.

On pages 38 and 39 of your Building Policy and pages 48 and 50 of your Contents Policy it states under the heading "**What do we mean by that**" it explains that the definition of an insured event is:

Insured event – The occurrences we have listed on pages 8 - 13 (building policy) and pages 16 - 21 (contents policy) which cause damage or loss to your building and contents.

Our decision on your insurance claim:

While we have previously accepted this claim for storm and rainwater damage, we have since received additional information. After reviewing this information, it is evident that the damage present has been caused by a faulty product. This product has since failed further after being affected by the recent weather conditions.

As the original cause of damage is due to the faulty product you will need to refer this issue to the Queensland Building Services Authority (QBSA) for them to review and determine if reworks are required to be done under the original QBSA warranty. If the QBSA deem that the damage is solely related to water damage, then AAMI will at this stage arrange for the replacement of the damaged flooring.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Client Manager
Home Claims QLD/NT

[REDACTED]
[REDACTED] Westlake Drive
Westlake 4074

Dear Mr & Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Westlake Drive Westlake 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River and Westlake at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading **'What we cover – insured events'**, explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled *'Flooding in the Brisbane River Catchment, January 2011'*.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River and Westlake, both of which are located within a short distance of your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Keogh Street
West Ipswich QLD 4305

Dear Ms [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Keogh St, West Ipswich 4305 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Bremer River approximately 200m to the west of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

[REDACTED]
[REDACTED] Westlake Drive
Westlake QLD 4074

Dear Mr & Miss [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Westlake Drive Westlake QLD 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River which is adjacent to your property inundated your property on or around 12 January 2011 when it rose and overflowed. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. 5 April 2011

[REDACTED]
[REDACTED] Inskip Street
Rocklea 4106

Dear Mr [REDACTED]

Your AAMI building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Inskip Street Rocklea 4106 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Rocky Water Holes Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Rocky Water Holes Creek, which is located approximately 150 m to the north east of your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. 06 May 2011

Ms [REDACTED]
69-71 Domnick Street
Caboolture QLD 4510

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Domnick Street, Caboolture QLD 4510 on or around 10 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for your cooperation in this regard.

Geography:

We understand that your property is situated within close proximity to Platypus Creek which is a tributary of the Caboolture River.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM). The closest rain station to your property is located at Morayfield - Mark Street. Rainfall data from the days leading up to 10 January 2011 indicates that there was heavy rainfall in your area which caused the Caboolture River to break its banks and overflow into Platypus Creek, which in turn broke its banks and overflowed into nearby properties.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Platypus Creek, which is located approximately 300 m to the north west of your property, on or around 10 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. Technical Event Claims Manager - Queensland

11 April 2011

[REDACTED]
[REDACTED] Morgan Street
Norman Park 4170

Dear Mr & Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at 45 Brisbane Corso Fairfield 4103 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, the Brisbane River which is adjacent to your property, rose and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 150m to the north of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

19 April 2011

[REDACTED]
[REDACTED] Eversley Terrace
YERONGA QLD 4104

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Eversley Terrace Yeronga 4104 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled *'Flooding in the Brisbane River Catchment, January 2011'*.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 800m to the north of your property rose and overflowed to inundate the parklands to the north of your property. The floodwaters continued overland, crossing Hyde Road to inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

Technical Event Claims Manager - Queensland

4 July 2011

[REDACTED]
[REDACTED] Caddie Avenue
KYOGLÉ NSW 2474

Dear Mr & Mrs [REDACTED]

Your AAMI Landlord building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the damage to your building located at [REDACTED] Haig Street Milton 4064 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Engineers Report:

We have obtained an engineer's report from Morgan Consulting Engineers who attended your property on 12 May 2011 to inspect the stumps and front boundary retaining wall to determine if any structural damage has occurred as a result of the flood event.

Their report states the following:

Front Boundary Retaining Wall

"The retaining wall bows outwards along its length and there are several significant cracks. This wall appears to be formed from two skins of brickwork and is unreinforced. The cracks are not fresh and appear to be quite old. A review of Google Maps shows that the wall had large trees immediately adjacent to the wall."

Stumps

"The stumps are quite old and many are leaning and have packing shims at the top. The bearer under the front wall is twisted and the joists that are notched into this bearer are no longer supported in the notches. There are previous repairs in an attempt to support the joists, indicating that the bearer has been in this condition for many years."

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 12, 14 and 16) under the heading, '**What we cover – insured events**' explains that you are

covered for damage or loss to your home building occurring during the period of cover and caused by:

"Flood"

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on page 18) under the heading, **"You are not covered – general exclusions"**, further states:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

- An unreasonable failure to properly maintain or repair your insured property
- Wear and tear, rust, deterioration or corrosion
- The actions of trees, plants or their roots
- Soil movement or settlement
- Erosion or washing away of soil, earth or gravel

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, it has been determined that the damage to the retaining wall and stumps has not occurred as a result of the flood event.

Rather the damage to the retaining wall has been caused by the action of trees and their roots. The outward force created by the trees and roots has caused the cracking and movement which is present to the wall.

In relation to the stumps, it has been found that large and relatively random pattern of settlement previously experienced in the stumps indicates that the soil supporting these stumps has failed in bearing. There does not appear to be any recent increase in settlement and the settlement observed is atypical of flood related movement. Therefore the movement and damage present is not considered to be as a result of the flood event.

As your policy does not cover loss or damage caused by the action of trees and their roots or soil movement or settlement we regret to inform you that we are unable to accept this part of the claim for you. AAMI has however accepted the damage relating to the electrical works completed and this has already been settled to you less the applicable claims excess.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

5 May 2011

██████████
██████████ Lyndon Way
KARALEE QLD 4306

Dear Mr and Mrs ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ██████████ Lyndon Way, Karalee on 12 January 2011.

In particular you have claimed for spoilage of frozen food, damage to contents in your garage and damage to your tennis court and septic tank.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Their report indicates that some inundation to your property was caused by flood water escaping and overflowing from the Brisbane River.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your property was ultimately partially inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood,

the moving, shifting or dislodging of any swimming pool or spa and their covers and liners, or any septic tank or other inground structure **unless** caused by the insured events of earthquake or impact,"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, we are satisfied that the damage to your building and contents was caused by several separate events:

- a) your spoilage of frozen food was a result of the failure of the public electricity supply;

- b) the contents in your garage were damaged by stormwater runoff;
- c) any damage to your tennis court was caused by the rising and overflowing of the Brisbane River which ultimately inundated your tennis court on or around 12 January 2011; and
- d) the damage to your septic tank was caused by it moving, shifting or dislodging to effectively collapse.

As your policy covers loss or damage by stormwater runoff but not for loss or damage caused by flood or by the moving, shifting or dislodging of any septic tank or other inground structure, we regret to inform you that your claim is not covered in full on this occasion. Your policy will only respond to the damage caused by stormwater runoff and to the spoilage of frozen food as a result of the public electricity supply failure which is a benefit under your policy.

We will contact you shortly in relation to the accepted components of your claim, which have been accepted subject to the relevant terms of your policy and any applicable excesses.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

23 May 2011

Mr [REDACTED]
[REDACTED]
Macquarie Street
St Lucia 4067

Dear Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at Uni [REDACTED]
[REDACTED] Macquarie Street St Lucia 4067 on 14 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, the Brisbane River adjacent to your garage rose and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

15 March 2011

[REDACTED]
Woodstock
Mail Service [REDACTED]
[REDACTED] Pink Lily Road
Rockhampton MC Qld 4702

Dear Mr [REDACTED],

Claim Number: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your home building and home contents at [REDACTED] Pink Lily Rd, Rockhampton on the 31 December 2010 at 6.00pm.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Manning Constructions Report:

We have obtained an assessment report by Manning's Construction who have advised the internal damage was not caused by storm water or flood water. There was no water entry through the roof and they believe damage could not be from moisture in the air. Based on the report no insured event has occurred to the internals of your property. We enclose a copy of the report for your information.

Hydrology Report:

We also obtained an individual water damage assessment of your claim by WRM, confirming the inundation to your shed and its contents was caused by flood. Their report shows that the inundation was caused by flood water escaping and overflowing from the Fitzroy River. We enclose a copy of the report for your information.

Your Insurance Policy:

The Product Disclosure Statement (PDS) for your Home Building Insurance Policy (on pages 8 and 12) and for your Home Contents Insurance Policy (on pages 16 and 18) under the heading "**What we cover – insured events**", provides you are covered for damage or loss to your home building and your home contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

The Product Disclosure Statement (PDS) for your Home Building Insurance Policy (on pages 9 and 13) and for your Home Contents Insurance Policy (on pages 17, 19 and 21) under the headings, "**You are not covered for**", provides that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

The PDS for your Home Building Insurance Policy (on page 14) and for your Home Contents Insurance Policy (on page 22) also states in the section. "**What we do not cover – general exclusions**":

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our Decision On Your Claim:

After careful consideration of the information and reports we have obtained, it is evident that the damage to your home building and home contents was caused by flood. Other areas of damage within your building are due to poor workmanship and not from a defined event. As your policies do not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your Right to Have This Decision Reviewed:

If you are not satisfied with our response, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeals Service is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au.

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of the decision of our Consumer Appeals Service. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

jenna zimmermann

Technical Event Claims Manager - Queensland

18 April 2011

[REDACTED]
[REDACTED]
[REDACTED] Phillip Street
LEICHHARDT QLD 4305

Dear Mr and Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your property located at [REDACTED] Phillip Street, Leichhardt, QLD on or around 11 January 2011.

In particular you have claimed for damage sustained to your bitumen driveway, chest freezer and fridge and spoilage of frozen food.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for your cooperation in this regard.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or
is prevented from entering, because other water has already escaped or been
released from it,
the normal confines of any watercourse or lake including any that may have
been modified by human intervention, or reservoir or canal, dam or
stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or
water escaping from any water main, drain, pipe, street gutter, guttering or
surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on
page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability
caused by or arising from or involving:

flood"

Your Policy in the section, **"What we cover – additional benefits"** on page 28 and 31 for
Contents explains that you are covered for:

"damage caused by electric current to an electric motor if the motor is less than 10
years old, and:

the motor is in a domestic appliance which forms part of your contents"

In the section, **"What we cover – additional benefits"** on page 28 and 31 for Contents
further states that you are covered up to a maximum of \$400.00 for:

"spoilage of frozen food caused by:

failure of public electricity supply to your home other than because of industrial
action"

Our decision on your insurance claim:

Damage to your bitumen driveway

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Bremer River, which is located within a short distance to the west of your property, on or around 11 January 2011. As your Policy does not cover loss or damage caused by flood, we regret to inform you that this portion of your claim is not covered on this occasion.

Damage to your chest freezer and fridge

We are satisfied that the damage to your chest freezer and fridge was not caused by flood. Rather, the damage was caused by Energex cutting off the power supply to your property for a period of 46 hours. On this basis we are pleased to inform you that your Policy will cover this portion of your claim on this occasion.

Spoilage of frozen food

Given that the spoilage of your frozen food was due to the failure of public electricity supply to your home, we are pleased to inform you that your Policy will cover the cost of replacing your spoiled frozen food up to a maximum of \$400.00.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

██████████
██████████ Campana Street
Oxley Qld 4075

Dear Ms ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ██████████ Campana Street Oxley Qld 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River, which flowed into Wolston Creek and then into Bullock Head Creek causing them to rise and overflow and affect your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"**You are not covered** under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, floodwaters from the Brisbane River have flowed into Wolston Creek and then into Bullock Head Creek causing them to rise and overflow. Bullock Head Creek has overflowed to inundate the reserve adjacent to your property with floodwaters then inundating surrounding properties including yours on or around 12 January

2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

4 April 2011

██████████
██████ Hargreaves Ave
Chelmer 4068

Dear Mrs Marion ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ████████ Hargreaves Ave Chelmer 4068 on 11th of January 2011

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 150m to the north east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

However, in relation to your claim for spoilage of frozen food, we can advise you that this component of your claim will be covered. We are sorry for any inconvenience caused by previous representations that this component would not be covered. I can clarify that AAMI is satisfied that your food spoilage loss was due to the failure of the public electricity supply to your property and therefore will be covered under your policy.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Peter Unwin
Technical Event Claims Manager - Queensland

10 May 2011

[REDACTED]
[REDACTED] Range View Drive
MOUNT SAMSON QLD 4520

Dear Mr and Mrs [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your driveway located at [REDACTED] Range View Drive, Mount Samson on 10 January 2011.

As you know, we appointed assessors from Cunningham Lindsey and Construct Services to attend your property and inspect the damage and we thank you for allowing this to happen.

Geography:

We understand that there is a dam approximately 400m south east of your property and the natural watercourse which runs through your property receives overflow from the dam once it exceeds its capacity.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM). The closest rain station to your property is located at Samsonvale, QLD. Rainfall data on 10 January 2011 indicates that there was heavy rainfall in your area at the time your driveway was damaged.

Engineer's Report:

We thank you for allowing an engineer to attend your property and inspect the damage. Their report concludes that the damage sustained to the underneath of your driveway is not a direct result of any storm event but rather due to poor building practice, significantly inadequate drainage and inadequate design. The inadequate drainage has resulted in long periods of erosion to the soil materials that form part of the underneath of your driveway. The force generated from water flow through the natural watercourse in the latest storm event has finally triggered the collapse of the material underneath the driveway. A copy of this report is attached.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or
cannot enter because it is full or has overflowed, or
is prevented from entering, because other water has already escaped or been released from it,
the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

"Damage or loss caused by water seeping into or otherwise entering your building due to:

a defect or fault in the design, structure or construction of your building where you could reasonably be expected to be aware of the defect or fault."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood,
erosion or washing away of soil, earth or gravel,
soil movement or settlement,
subsidence or landslide **unless** caused by the insured event of earthquake."

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, it is our view that the damage sustained to your driveway is not covered by your policy.

Specifically, we believe that the damage to your driveway was caused by the dam south east of your driveway rising and overflowing to inundate normally dry land (i.e. your driveway) via the natural watercourse which runs through your property on or around 10 January 2011.

We also note that the damage has arisen and/or involves soil movement and erosion that has been occurring over time due to a defect in the design and construction of your driveway that has allowed prolonged water seepage into the driveway.

We have considered the possibility of stormwater runoff causing the damage due to the heavy rainfall experienced in your area. However, we are satisfied that any stormwater runoff in the area would have entered (or have been prevented from entering because it was

already full or overflowing) the dam and/or natural watercourse to form part of the floodwaters which damaged your driveway.

As your policy does not cover loss or damage caused by flood or involving the erosion or washing away of soil or soil movement or settlement, we regret to inform you that your claim is not covered on this occasion.

The construction of your driveway:

We refer you to the engineer's report of Censeo which explains engineering and building concerns with the construction of your driveway at its lowest point across the natural watercourse on your property. We confirm by way of this letter that you are now aware of these construction/defect issues and we ask that you take advice from a qualified builder and/or engineer when rebuilding this part of your driveway.

Please note that your Policy restricts cover under page 13 and 16 for structures that are not designed or constructed properly (when you are reasonably aware) or do not comply with statutory building requirements. This means that AAMI may not accept a future claim for this part of the driveway unless it is repaired as described above.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely

Peter Unwin
Technical Event Claims Manager - Queensland

13 April 2011

Mr [REDACTED]
[REDACTED] Panton Street
Woodend QLD 4305

Dear Mr & Mrs [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Panton Street, Woodend 4305 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Bremer River which is located a short distance to the east of your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. 11 April 2011

[REDACTED]
[REDACTED] Amaranthus Street
Runcorn 4113

Dear Mr [REDACTED] & Miss [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Hefferan Street Fairfield 4103 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, the Brisbane River approximately 150m to the west of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Peter Unwin
Technical Event Claims Manager - Queensland

18 April 2011

Mr [REDACTED]
[REDACTED] Baroona Road
ROSALIE QLD 4064

Dear Mr & Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Baroona Road Paddington 4064 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or about 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, floodwaters from the Brisbane River have flowed down the stormwater channel approximately 400m to the south of your property, causing it to rise and overflow. The overflowing floodwaters have inundated Milton Park, continuing over Milton Road, Haig Road and into Barooka Road to inundate your property on or about 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. [REDACTED]
Apartment [REDACTED]
[REDACTED] Grey Street
South Bank 4101

Dear [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at Apartment [REDACTED] Grey Street South Bank 4101 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, overland floodwaters from the Brisbane River have inundated your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

4 April 2011

[REDACTED]
[REDACTED] Manson Parade
Yeronga 4104

Dear Mrs [REDACTED],

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Manson Parade Yeronga 4104 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River approximately 1km to the north of your property has risen and overflowed, causing floodwaters to travel overland via the parklands to the north to cross over Hyde Road and inundate properties along Manson Parade, including yours, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

13 April 2011

[REDACTED]
Indooroopilly Road
Indooroopilly QLD 4068

Dear Mr & Mrs [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Indooroopilly Rd Indooroopilly QLD 4068 on 12 January 2011.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Sandy Creek on or about 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Sandy Creek, which is located a short distance to the north east of your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne

City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

23 June, 2011

[REDACTED]
[REDACTED] Kennedy Street
Condamine QLD 4416

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Kennedy Street Condamine 4416 on 28 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage. We additionally appointed a hydrological engineer to inspect your property and its surrounds and provide a written report as to the cause of the water inundation. We thank you for allowing both assessments and your continued patience in allowing us to complete our enquiries into your claim.

Hydrology Report:

The WRM hydrology investigation specific to your home indicates that the inundation was caused by flood water escaping and overflowing from the Condamine River on 11 - 12 January, 2011. We enclose a copy of this report for your records.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Rainfall Data

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM). The closest rain station to your property is in Condamine. Rainfall data leading up to December 28 indicates that there was heavy rainfall over 27 and 28 December. We enclose the relevant rainfall data for your records.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your property was caused by flood. Specifically, the Condamine River approximately 90m to the north west of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss of damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

19 April 2011

[REDACTED]
[REDACTED]
PO BOX [REDACTED]
Brassall, QLD 4305

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Haig Street, Brassall, QLD 4305 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Mihi Creek at the time on or about 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Mihi Creek, which is located approximately 300 meters north east of your property, on or about 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Bolsover Street
Depot Hill QLD 4700

Dear M [REDACTED]

Claim Number: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your home building and home contents at [REDACTED] Bolsover Street, Depot Hill QLD 4700 on the 1st of January, 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have also obtained a Hydrologist Area Report WRM Water & Environment Pty Ltd on the cause and timing of inundation in the area of your home and contents. Their report shows that the inundation was caused by flood water escaping and overflowing from the Fitzroy River from the 27/12/2010 to mid January, 2011. We enclose a copy of the report for your information.

We also obtained an individual water damage assessment of your claim by WRM Water & Environment Pty Ltd, confirming the inundation was caused by flood. We also enclose a copy of this assessment]

Your Insurance Policy:

The Product Disclosure Statement (PDS) for your Home Building Insurance Policy (on pages 8 and 12) and for your Home Contents Insurance Policy (on pages 16 and 18) under the heading "**What we cover – insured events**", provides you are covered for damage or loss to your home building and your home contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

The Product Disclosure Statement (PDS) for your Home Building Insurance Policy (on pages 9 and 13) and for your Home Contents Insurance Policy (on pages 17, 19 and 21) under the headings, **"You are not covered for"**, provides that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

The PDS for your Home Building Insurance Policy (on page 14) and for your Home Contents Insurance Policy (on page 22) also states in the section. **"What we do not cover – general exclusions"**:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our Decision On Your Claim:

After careful consideration of the information and reports we have obtained, it is evident that the damage to your home building and home contents was caused by flood. As your policies do not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your Right to Have This Decision Reviewed:

If you are not satisfied with our response, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeals Service is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:.

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of the decision of our Consumer Appeals Service. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Jenna Zimmermann

██████████
██████████ Wendouree Crescent QLD Westlake 4074

Dear Ms ██████████

Your AAMI building insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building located at ██████████ Wendouree Crescent QLD Westlake 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River adjacent to your property has risen and overflowed to inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Marshall Rd
ROCKLEA QLD 4106

Dear Mrs & Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Marshall Rd, Rocklea, QLD 4106 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Stable Swamp Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Stable Swamp Creek which runs around your property to the north and east received significant volumes of floodwaters from Oxley Creek and the Brisbane River causing it to rise and overflow. Floodwaters have subsequently travelled overland and inundated your property.

We have reviewed the information you have provided in relation to the watercourse to the east of your property. We do not accept that this watercourse is a drain. Rather, given its size, function and water-carrying capacity we regard it to be properly characterised as a stormwater channel, designed to carry significant volumes of water through the lower suburban catchment area it passes through. We confirm that even if this watercourse was to be characterised as a drain (which we do not accept), then any water escaping from it, or

from nearby street drains around your property, would have been a minor contributor to the significant overland water flow across the south west Rocklea area during the main flood event.

We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water that would in isolation be covered (in this case, if your property was inundated only by water escaping from a drain).

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

05 May 2011

Mr [REDACTED]
[REDACTED] Leybourne Street
Chelmer QLD 4068

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Leybourne Street Chelmer QLD 4068 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 350m east of your property rose and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. 15 April 2011

[REDACTED]
[REDACTED] Boundary Road
INDOOROOPIILY 4068

Dear Mr & Mrs Pedley,

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Boundary Road, Indooroopilly, 4068 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located within a short distance to the east of your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Bowen St, Windsor 4030 on the 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Breakfast Creek affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

'What we cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, Breakfast Creek approximately 300m to the east of your property which connects to the Brisbane River has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Fred St
Red Hill QLD 4059

Dear Mr and Mrs [REDACTED],

Your clients' AAMI home insurance claim no. [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents located at [REDACTED] Payne Street, Auchenflower on 11 and 12 January 2011.

In particular, you have claimed for damage to camping equipment, gardening tools and a number of kids' toys due to rain water inundating the ground floor area of your home to a depth of 10-15cms on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the ultimate inundation was caused by flood water escaping and overflowing from the Brisbane River at the time (on or around 12 January 2011) your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was ultimately inundated by floodwater.

Your AAMI Contents Insurance Policy:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

We confirm that your claim for rain water damage to a depth of 15cms causing damage to your camping equipment, gardening tools and a number of kids' toys. As well as the items in your garage area and garden shed listed on the spreadsheet your provided, on 11 January 2011 has been accepted. Your Client Manager will be in touch with you shortly to discuss this claim further.

However, after careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the additional damage to your building and contents was caused by flood. Specifically, the additional damage was caused

by floodwater inundation from the overflow of the Brisbane River, which is located approximately 1 km to the south east of your property on or around 12 January 2011.

As your policy does not cover loss or damage caused by flood, we regret to inform you that the additional damage to your building and contents is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Macquarie Street
ST LUCIA QLD 4067

Dear Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at Uni [REDACTED]
[REDACTED] Macquarie Street St Lucia 4067 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which runs past your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. 07 April 2011

Mrs [REDACTED]
UNIT [REDACTED] Egmont Street
SHERWOOD QLD 4075

Dear Mrs & M [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED]
[REDACTED] Egmont Street, Sherwood QLD on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Oxley Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading **'What we cover – insured events'**, explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled *'Flooding in the Brisbane River Catchment, January 2011'*.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, Oxley Creek approximately 350m to the north east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Coombel Street
Jindalee QLD 4074

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Coombel Street, Jindalee, QLD 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled *'Flooding in the Brisbane River Catchment, January 2011'*.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River approximately 400m to the north of your property has risen and overflowed, causing a connecting watercourse that runs past your property through the Jindalee Golf Course approximately 400m to the east of your property to rise and overflow, which has then caused floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. [REDACTED]
[REDACTED] Doris Street
Hill End QLD 4101

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Doris St, Hill End 4101 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River has affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, overland floodwaters from the Brisbane River travelled through low lying properties on Ryan Street and into Doris Street before inundating your property (including your internal home and electric gate) on or around 12 January 2011. We specifically refer you to the flood imagery of your street on the Queensland Reconstruction Authority website.

We acknowledge that an insignificant amount of floodwater may have escaped nearby drains in front of your property however we are satisfied that any drain escape water would have promptly mixed with overland floodwater rising into and over Doris Street.

Under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or damage caused by flood of this type, we regret to inform you that your claim is not covered on this occasion.

We apologise to you for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

Ms [REDACTED]
[REDACTED] Baronsfield Street
GRACEVILLE QLD 4075

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Baronsfield Street, Graceville, 4075 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Oxley Creek located at the side of your property, on or around 13 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, floodwater inundation from the overflow of Oxley Creek located at the side of your property, on or around 13 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. [REDACTED]
[REDACTED] Penaton Street
CORINDA QLD 4075

Dear Mrs & Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Penaton Street Corinda 4075 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek on or around 13 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled *'Flooding in the Brisbane River Catchment, January 2011'*.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, overland floodwaters from Oxley Creek approximately 200m to the north and south of your property inundated your house on or around 13 January 2011.

We confirm that any water escaping from nearby street drains around your property would have been a minor contributor to the significant overland water flow from the Oxley Creek during the main flood event.

We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under

your policy) and water that would in isolation be covered (in this case, if your property was inundated only by water escaping from a drain).

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no-cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

19 April 2011

Mr [REDACTED]
[REDACTED] Boyle Road
Pullenvale QLD 4069

Dear Mr & M [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Boyle Road Pullenvale on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Pullen Pullen Creek on the 12 January 2011 that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or

- cannot enter because it is full or has overflowed, or

- is prevented from entering, because other water has already escaped or been released from it,

- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Pullen Pullen Creek approximately 200 metres to the east of your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

12 April 2011

Mr [REDACTED]
[REDACTED] Elizabeth Street
ROSALIE QLD 4064

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Elizabeth Street ROSALIE QLD 4064 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, the property damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located within a short distance to the south east of your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

11 April 2011

[REDACTED]
Unit [REDACTED] Haig Street
BRASSALL QLD 4305

Dear Ms & Mr [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at Unit 1 [REDACTED] Haig Street Brassall on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Mihi Creek on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading **'What we cover – insured events'**, explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled *'Flooding in the Brisbane River Catchment, January 2011'* and is made up of Volume 1 "An Overview" and Volume 3, *'Flooding in Ipswich City LGA'*.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Mihi Creek, which is a tributary of the Bremer River and located a short distance from your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
P [REDACTED]
TOOWONG 4066

Dear Mr & Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Rani Close, Mount Ommaney, 4074 on 14 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Mt Ommaney Creek on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood.

Specifically, Mt Ommaney Creek approximately 100m north west of your property has received floodwaters from the Brisbane River causing it to rise and overflow and floodwaters to inundate the low lying parts of the McLeod Country Golf Club adjacent to your property.

As the Brisbane River and Mt Ommaney Creek continued to rise, floodwaters continued to travel overland and subsequently inundate your property on or around 12 January 2011.

We are satisfied any stormwater runoff that had been pooling in the McLeod Country Golf Club adjacent to your property mixed with the overland floodwaters well prior to the inundation of your property. We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and stormwater runoff.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Please accept our apology for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. "You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your home was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located approximately 50 m from the rear of your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. 11 April 2011

Mr [REDACTED]
Mrs [REDACTED]
[REDACTED] Clinker Street
Darra 4076

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Lather Road Bellbowrie 4070 on 11th January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, your pontoon has come loose and floated away due to the rising Brisbane River in which it was situated. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. Ms [REDACTED]
[REDACTED] Edith Street
PORT CURTIS 4700

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Edith Street, Port Curtis, 4700 on 02 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report from hydrologists WRM Water and Environment. This firm has investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the nearby watercourses, including Gavial Creek and the Fitzroy River, located to the east of your property. We enclose a copy of this report for your records.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

Technical Event Claims Manager - Queensland

6 June 2011

[REDACTED]
[REDACTED] Fairfield Road
Fairfield Qld 4103

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Fairfield Road, Fairfield on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage. We additionally appointed a qualified hydrologist to attend your property and its surrounds and provide a written report as to the cause of the water inundation. We thank you for allowing both assessments and your continue patience in allowing us to complete our enquiries into your claim.

Hydrology Reports:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

The WRM hydrology investigation specific to your home explains that its internal inundation was caused by floodwaters from the Brisbane River on 12 – 13 January, 2011. Please find enclosed a complete copy of this report for your records.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or
- cannot enter because it is full or has overflowed, or
- is prevented from entering, because other water has already escaped or been released from it,
- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane river, which is located approximately 350 metres from your property on 12 – 13 January 2011.

We have specifically considered the information and photographs you have provided to us and confirm that all relevant information was made available to the WRM hydrologist to allow them to compile a complete report into the cause of water inundation at your property. We refer to you the comment, conclusions and Figure 1 of that report, for detailed analysis of water origin, flow direction and relative inundation depths. We accept the conclusion provided by the hydrologist in this instance, being that the internal inundation of the lower of your home was caused by Brisbane River floodwater which had risen due to overland flow to reach the level of your home's floor (and above).

As your policy does not cover loss or damage caused by flood, we must regretfully inform you that your claim has not been accepted by AAMI.

We apologise for the delay in providing you with our decision and enclose information about the QLD Premier's Relief fund which may be of assistance to you.

Your right to have this decision reviewed:

If you do not agree with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

21 April 2011

[REDACTED]
[REDACTED] Neata Street
Corinda QLD 4075

Dear Mr [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Neata Street Corinda QLD 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Oxley Creek, which is located approximately 150 metres to the north of your property on or around 11 or 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, floodwater inundation from the overflow of the stormwater channel behind your property which adjoins the Brisbane River, which is located approximately 250m from your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. 1 April 2011

████████████████████
████ King Arthur Terrace
TENNYSON QLD 4105

Dear Mr ██████████

Your AAMI building insurance claim ██████████

Thank you for contacting AAMI to tell us about the water damage to your building located at █████ King Arthur Terrace, Tennyson QLD 4105 on 12 January 2011.

In particular you have claimed for damage to your pontoon and gangway.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8 to 13) under the heading, '**What we cover – insured events**' explains the specific insured events that your Policy covers.

"Impact - sudden and unexpected impact of any:

motor vehicle, aircraft, watercraft or space debris,
object falling from a motor vehicle or aircraft,
falling tree or part of a tree,
aerial, mast or satellite dish which breaks or collapses."

Our decision on your insurance claim:

You have advised us that the damage to your pontoon and gangway was most likely as a result of pontoons and debris impacting with your pontoon and gangway. Subsequently, your pontoon was washed away.

On this occasion, we are not satisfied that an impact by an object covered by your Policy, for example by a watercraft, has caused the damage you have claimed for. Further, the loss of your pontoon as a result of it being washed away is also not covered by your Policy.

We regret to inform you that your claim is not covered on this occasion since the damage you have claimed for is not as a result of an event that is insured under your Policy.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. 7 April 2011

Mr [REDACTED]
[REDACTED] Carnegie Street
Westlake QLD 4074

Dear Mr & Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Carnegie St Westlake 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home contents was caused by flood. Specifically, the Brisbane River has risen and overflowed, inundating your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Technical Event Claims Manager - Queensland

27 April 2011

[REDACTED]
[REDACTED] Markham Street
Darra QLD 4076

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Markham Street Darra 4076 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Bullockhead Creek at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

We note that you discussed the damage to your fencing, fascia and granny flat with the Assessor on 15 April and agreed to withdraw these aspects of your claim.

Unfortunately, after careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to the remainder of your building and contents was caused by flood.

Specifically, it appears the damage was caused by floodwater inundation from the overflow of Bullockhead Creek which is located a short distance to the north east of your property, on or around 12 January 2011. Alternatively, we accept that a minor contribution to the overall flooding of your house may have come from water escaping from drains near your property, at the time of the main flood event.

We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

9 May 2011

[REDACTED]
[REDACTED] Coldstream Street
ULMARRA NSW 2462

Dear Mrs [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Coldstream Street Ulmarra 2462 on or around 13 January 2011.

In particular you have claimed for damage sustained to three internal doors and the following content items:

- Mechanical chainsaw
- Electric frypan
- Two electric hand held mixers
- Breville toaster
- Selection of framed photographs
- Bamix food mixer

Assessment Report

We have received an Assessment report from Cunningham Lindsey who attended your property on 16 February 2011.

Their report states 'water has flowed from the Clarence River in the township of Ulmarra and flooded the low-lying paddock area, which runs east to Tucabia, this water has then entered the property on 13 January 2011.'

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, it is evident that the water damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Clarence River on or around 13 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim for water damage is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne

City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

7 March 2011

[REDACTED]
[REDACTED]
EMERALD QLD 4720

Dear [REDACTED]

Claim Number [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your home contents at [REDACTED] Blue Gum Drive Emerald 4720 on the 30 December 2010.

As you know, we appointed an assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrologist Area Report from WRM Water & Environment Pty Ltd on the cause and timing of inundation in the area of your home. Their report shows that the inundation was caused by flood water escaping and overflowing from the Nogoia River from 29 December 2010 to 3 January 2011. We enclose a copy of the report for your information.

We also obtained an individual Water Damage Assessment of your claim by WRM Water & Environment Pty Ltd, confirming the inundation was caused by flood. We enclose a copy of this assessment for your perusal.

Your Insurance Policy:

Your Home Contents Insurance Policy Product Disclosure Statement (PDS) on pages 16, 18, 19 and 21 under the heading 'What we cover – insured events', provides that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Home Contents Insurance Policy PDS further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our Decision On Your Claim:

After careful consideration of the information and reports we have obtained, it is evident that the damage to your home contents was caused by flood. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your Right to Have This Decision Reviewed:

If you are not satisfied with our response, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and have the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:.

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of the decision of our Consumer Appeals Service. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Technical Event Claims Manager - Queensland

7 April 2011

PO [REDACTED]
Kenmore 4069

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Fig Tree Pocket Rd, Fig Tree Pocket 4069 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 500m to the north east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Stable Swamp Creek and/or Rocky Water Holes Creek, approximately 200m to the south and 250m to the north east respectively of your property, received floodwaters from the Brisbane River via Oxley Creek causing it/them to rise and floodwaters to subsequently travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

[REDACTED]
[REDACTED] Brisbane Corso,
Fairfield QLD 4103

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Brisbane Corso, Fairfield QLD 4103 on 11/01/2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located approximately 150 metres to the northwest of your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. Technical Event Claims Manager - Queensland

3 May 2011

[REDACTED]
[REDACTED] Don Lee Close
SAMSONVALE QLD 4520

Dear Mr and Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Don Lee Crescent, Samsonvale QLD on or around 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage on 2 February 2011 and we thank you for your cooperation in this regard.

We also thank you for allowing a further onsite assessment to be conducted on 20 April 2011.

Geography:

We understand that your property is situated within close proximity of both North Pine River and Armstrong Creek.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM). The closest rain station to your property is located at Samsonvale. Rainfall data from the days leading up to and including 11 January 2011 indicates that there was heavy rainfall in your area which caused the North Pine River to break its banks and overflow into Armstrong Creek, which in turn broke its banks and overflowed into nearby properties.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant mapping, it is evident that the damage to your fencing located in the back paddock was caused by flood. Specifically, it appears that the damage was caused by overland floodwater inundation from the overflow of Armstrong Creek which runs to the rear of your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that this portion of your claim is not covered.

We are satisfied that the damage to the carpet in your office (adjacent to your garage) was not caused by flood. Rather, the damage was caused by stormwater runoff. On this basis we are pleased to inform you that your policy will cover this portion of your claim.

We will contact you shortly to discuss the settlement of the covered component of your claim.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Mount Crosby Rd
Chuwar QLD 4306

Dear Mr & Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Elanora Way Karalee QLD 4306 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Bremer River, which borders the south west end of your property, on or about 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

9 May 2011

████████████████████
████ Lawson St
OXLEY QLD 4075

Dear Mr and Mrs ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ██████ Lawson Street Oxley on 12th January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek on the 12th January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled *'Flooding in the Brisbane River Catchment, January 2011'*.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Oxley Creek approximately 250m east of your property has received floodwaters from the Brisbane River causing it to rise and overflow and floodwaters to subsequently travel overland and inundate your property.

We accept that a minor contribution to the overall flooding of your house may have come from water escaping from drains near your property (at the time of the main flood event) however any water that did escape mixed with overland floodwaters before inundating your property.

We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under

your policy) and water escaping from a drain and/or stormwater runoff. We are satisfied that your property was not inundated prior to the arrival of overland floodwaters.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. Peter Unwin
Technical Event Claims Manager - Queensland

11 April 2011

[REDACTED]
[REDACTED] Guthrie Street
PADDINGTON 4064

Dear Ms [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Baroona Road Rosalie 4064 on or around 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 11 January. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Wear and tear, rust, deterioration or corrosion,

Flood,"

Our decision on your insurance claim:

(a) Damage to your gutters and fascia

After careful consideration of the information and reports we have obtained, it is evident that the damage to your gutters and fascia was caused by the heavily rusted condition of the gutters. Your property is insured on the condition that it has been and will continue to be properly maintained and repaired. Unfortunately rust itself and any consequent damage arising from rust is not covered by your policy. Accordingly, we regret to inform you that this portion of your claim is not covered on this occasion.

(b) Glass breakage

You have told us that during the cleanup process glass breakage occurred when a volunteer moved some debris on the premises. We are pleased to inform you that you will be covered for the broken glass on this occasion. You may have to lodge a separate claim for the glass damage.

Remaining property

Based on the available evidence, including viewing relevant Government mapping, we are satisfied that the remaining damage to your home and contents was caused by flood. Specifically, the property damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located within a short distance south east of your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that the remainder of your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

20 April 2011

[REDACTED]
[REDACTED] Kingsley Parade
Yeronga QLD 4104

Dear Ms [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Kingsley Parade, Yeronga QLD 4104 on or around 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage on 10 February 2011. We thank you for your cooperation in this regard.

We also thank you for allowing a further onsite assessment to be conducted on 7 April 2011.

Hydrology Report:

Following the Queensland floods of December 2010 and January 2011 the Insurance Council of Australia (ICA) appointed a panel consisting of three expert hydrologists¹ to assess and report on flooding across the state. A two-volume report (which is accessible on the ICA website (www.insurancecouncil.com.au)) deals with the Brisbane area.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time (Wednesday, 12 January 2011) your property was affected.

Geography:

We understand that the Brisbane River runs to the north, west and south of your property.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, we believe that the damage to your building located up to and including 30 cm above ground level was not caused by flood. Rather, the damage was caused by water escaping from the stormwater drains located on your street.

Unfortunately the information and reports we have obtained indicate that the damage to your building located higher than 30 cm above ground level was caused by flood. Specifically, the Brisbane River running to the north of your property has risen and overflowed causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that you are not insured for damage that occurred 30cm above ground level.

We understand that the lower level of your house is a basement. Therefore, we do not believe that your building has sustained any insured damage on this occasion, however, please telephone us if you believe your building did sustain damage between the ground and 30cm above ground level.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

08 April 2011

[REDACTED]
[REDACTED] Rocklea QLD 4106

Dear [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Galah Street Rocklea QLD 4106 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Stable Swamp Creek and/or Rocky Water Holes Creek, which received floodwaters from the Brisbane River via Oxley Creek that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Stable Swamp Creek and/or Rocky Water Holes Creek, approximately 100m to the south and 300m to the north east respectively of your property, received floodwaters from the Brisbane River via Oxley Creek causing it/them to rise and floodwaters to subsequently travel overland and inundate your property on or around 12

January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. 07 April 2011

[REDACTED]
[REDACTED] Lather Road
Bellbowrie QLD 4070

Dear Mr [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Lather Road Bellbowrie 4070 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Pullen Pullen Creek that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Pullen Pullen Creek approximately 10m behind your property which connects to the Brisbane River has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. 15 April 2011

[REDACTED]
[REDACTED] Strong Avenue
GRACEVILLE 4075

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Strong Avenue, Graceville, 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River on or around the evening of 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 250m to the north east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around the evening of 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
PO Box [REDACTED]
GRACEVILLE EAST QLD 4075

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Strong Avenue, Graceville, 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River on or around the evening of 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 250m to the north east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around the evening of 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. [REDACTED]
[REDACTED] Mill Street
GOODNA QLD 4300

Dear Ms [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents located at Unit [REDACTED] Mill St, Goodna, Qld 4300 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Woogaroo Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, The Brisbane River has risen and overflowed, causing floodwaters to travel overland and flow down Woogaroo Creek which has also then risen and overflowed, causing floodwaters to inundate your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. [REDACTED]
[REDACTED] Burns Street
FERNVALE QLD 4306

Dear Mr and Mrs [REDACTED]

Your AAMI building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your property located at [REDACTED] Burns Street, Fernvale, QLD on or around 12 January 2011.

In particular you have claimed for damage sustained to your floorboards.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for your cooperation in this regard.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on page 14 under the heading, '**What we do not cover – general exclusions**' explains that you are not covered for loss or damage caused by:

"mould, wet or dry rot, rising damp or dampness".

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, it is our view that the damage to your property was caused by rising moisture from water pooling underneath your home. As your policy does not cover loss or damage caused by rising damp, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

[REDACTED]
[REDACTED] Golf Links Rd
Rocklea QLD 4106

Dear Miss [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Golf Links Rd Rocklea QLD 4106 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Rocky Waterhouse Creek, which is located a few hundred metres from the rear of your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. 27 April 2011

[REDACTED]
[REDACTED] Rosecliffe Street
HIGHGATE HILL QLD 4101

Dear Mr and Mrs [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the damage to your building located at [REDACTED] Rosecliffe Street, Highgate Hill on 12 January 2011.

In particular you have claimed for damage to your pontoon.

As you know, we appointed an Assessor to attend your property on 8 February 2011 and inspect the damage and we thank you for allowing this to happen.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8 to 13) under the heading, '**What we cover – insured events**' explains the specific insured events that your Policy covers.

Our decision on your insurance claim:

You have advised us that the damage to your pontoon was most likely as a result of a neighbour's pontoon impacting with your pontoon. Subsequently, your pontoon was washed away.

On this occasion, we are not satisfied that an impact by an object covered by your Policy, for example by a watercraft, has caused the damage you have claimed for. Further, the loss of your pontoon as a result of it being washed away is also not covered by your Policy.

We regret to inform you that your claim is not covered on this occasion since the damage you have claimed for is not as a result of an event that is insured under your Policy.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. 07 April 2011

[REDACTED]
[REDACTED] Markham Street
Darra Qld 4076

Dear Mrs & M [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Markham Street Darra Qld 4076 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Bullockhead Creek that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Bullockhead Creek, which is located approximately 100 m to the west of your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Bremer River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, the property damage was caused by floodwater inundation from the overflow of Bremer River, which is located within a close proximity of your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Donatello Street
Fig Tree Pocket 4069

Dear Mr & M [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Donatello Street Fig Tree Pocket 4069 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 150m to the east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. 5 April 2011

[REDACTED]
[REDACTED]
[REDACTED]
Hamilton 4007

Dear Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Pedder Street Albion 4010 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or
- cannot enter because it is full or has overflowed, or
- is prevented from entering, because other water has already escaped or been released from it,
- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, floodwaters from the Brisbane River have flowed into Breakfast Creek. Breakfast Creek approximately 100m to the west of your property has subsequently risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Technical Event Claims Manager - Queensland

15 June 2011

[REDACTED]
[REDACTED] Redcliffe Avenue
SEAFORTH QLD 4741

Dear [REDACTED]

Your Landlord Building Claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your landlord building located at [REDACTED] McDonald Street Hawthorne 4171 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen. The assessor attended to determine if the damage present has been caused by the claimed event of flood.

The assessor has reported on the damage as listed below:

- Main bedroom cupboard doors and drawers to be adjusted
- Rear sunroom sliding doors to be adjusted
- Two rear timber shed doors and wall paint

Additional damage was noted by Dankav to the front entry staircase.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Landlord Insurance Policy Product Disclosure Statement states on page 12 and 14 under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

- Flood

Your Policy on pages 18 under the heading, "**You are not covered**", further states that you are not covered for:

- An unreasonable failure to properly maintain or repair your insured property,
- Wear & tear, rust, deterioration or corrosion and
- Mould, wet or dry rot, rising damp or dampness

Our decision on your insurance claim:

After careful consideration of all the information available to us, we are now able to accept the damage to the main bedroom cupboard doors and drawers and the rear sunroom sliding doors as being related to the flood event:

As discussed we will arrange for a builder to attend to rectify these repairs and the builders will be in touch with your real estate agent directly.

Unfortunately, the information and reports we have obtained indicate that the damage present to the rear shed doors, wall paint and the front entry staircase appear to be related to general wear & tear, rust and dry rot. As your policy does not cover loss or damage caused by the above we regret to inform you that this portion of your claim has not been accepted.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. Peter Unwin
Technical Event Claims Manager - Queensland

19 May 2011

[REDACTED]
[REDACTED] Redcliffe Ave
Seaforth 4741

Dear Mr [REDACTED]

Your AAMI building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the damage to your building located at [REDACTED] McDonald Street Hawthorne 4171, on 13 January 2011.

As you know, we appointed an Assessor and a builder to attend your property and inspect the damage and we thank you for allowing this to happen.

The Builder has advised in their report on closer inspection of the damages noted by Cunningham and Lindsay assessor that the damage is consistent with wear and tear maintenance.

The builder has supplied an expert report detailing the damages are pre-existing to the Brisbane floods of January 2011, please see attached for the detailed information in this report.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around the 13 January your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

While we acknowledge water was present at your property however, our builder report identifies that the damages that are being claimed are consistent with wear, tear and maintenance of the property.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on page 14) under the heading, **'What we do not cover – general exclusion'** states the following:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

An unreasonable failure to properly maintain or repair your insured property, wear and tear, rust, deterioration or corrosion.

Mould, wet or dry rot, rising damp or dampness."

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that water has been at your property.

However, the damages that you are claiming are consistent with wear, tear and maintenance as outlined within the builder's expert report.

We have enclosed a copy of the builder report.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision.

The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

15 April 2011

[REDACTED]
[REDACTED] Sandford Street
ST LUCIA 4067

Dear M [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Sandford Street, St Lucia, 4067 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River on or around 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, the Brisbane River adjacent to your property rose and overflowed to inundate your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. [REDACTED] Looranah Street
JINDALEE QLD 4074

Dear Miss [REDACTED] and Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Looranah Street, Jindalee, QLD 4074 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the watercourse running through the Jindalee Golf Course to the east of your property at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the watercourse running through the Jindalee Golf Course to the east of your property has risen due to a backflow of floodwater from the Brisbane River. The resultant overland flooding of the watercourse has inundated your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Archer Court
Karalee QLD 4306

Dear Mr & Mrs [REDACTED]

Your AAMI building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Duncan St Riverview QLD 4303 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Six Mile Creek affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Six Mile Creek, which is located approximately 400 metres east of your property, on or about 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. 29 June 2011

[REDACTED]
[REDACTED] Edmonson Street
Corinda Qld 4075

Dear Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents located at unit [REDACTED] Edmonson Street, Corinda on 11 - 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage, we thank you for allowing this to happen.

Hydrology Reports:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or
- cannot enter because it is full or has overflowed, or
- is prevented from entering, because other water has already escaped or been released from it,
- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, Pennywort Creek, approximately 100m south of your property and a tributary of the Oxley Creek, has received floodwaters from Oxley Creek which caused it to rise and overflow, with floodwaters subsequently travelling overland to inundate your property on or around 13 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Elanora Way
KARALEE 4306

Dear Miss [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Elanora Way, Karalee, 4306 on 10/01/2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River on or around 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Bremer River approximately 200m to the south of your property rose and overflowed, causing floodwaters to travel overland and inundate your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

29 April 2011

[REDACTED]
F [REDACTED]
GRACEVILLE QLD 4075

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Haldane Street Graceville 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Oxley Creek to the east of your property received significant volumes of floodwaters from the Brisbane River, causing it to rise and overflow. Floodwaters have subsequently travelled overland and inundated your property. Alternatively, we accept that a minor contribution to the overall flooding of your house may have come from water escaping from drains near your property, at the time of the main flood event. We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or

damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Mr [REDACTED]
Mrs [REDACTED]
[REDACTED] Haldane Street
GRACEVILLE QLD 4075

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Haldane Street Graceville 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Oxley Creek to the east of your property received significant volumes of floodwaters from the Brisbane River, causing it to rise and overflow. Floodwaters have subsequently travelled overland and inundated your property. Alternatively, we accept that a minor contribution to the overall flooding of your house may have come from water escaping from drains near your property, at the time of the main flood event. We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or

damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

[REDACTED]
Kingsley Pde
YERONGA QLD 4104

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Kingsley Parade, Yeronga on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that your property was ultimately inundated by flood water escaping and overflowing from the Brisbane River at the time (12 January 2011) your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was ultimately inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled *'Flooding in the Brisbane River Catchment, January 2011'*.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, we are satisfied that the damage to your building and contents was caused by flood after an initial lower inundation by water escaping nearby drains.

Specifically, we accept that your property was inundated up to a maximum depth of 1.25m above the ground floor level by water escaping nearby drains before mixing with floodwaters from the Brisbane River that travelled overland and inundated your property to a height of approximately 4.5m above ground floor level on or around 12 January 2011.

As your policy covers loss or damage caused by water escaping drains but not for loss or damage caused by overland flood, we regret to inform you that your claim is not covered in full on this occasion. We confirm that under Australian insurance law an insurer is not

obligated to accept a claim for water damage when that damage was caused by a mixture of overland floodwater (excluded under your policy) and water escaping from drains.

Your policy will only respond to the damage caused by the initial inundation of water escaping drains, subject to the relevant terms of your policy.

We will contact you shortly in relation to the accepted portion of your claim.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

4 April 2011

[REDACTED]
Allamanda Street
Fairfield 4103

Dear [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Allamanda Street Fairfield 4103 on 11th of January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around 11 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located approximately 200 m metres from the rear of your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. 04 April 2011

Neata Street
CORINDA, QLD 4075

Dear Mrs [REDACTED]

Your AAMI building and contents insurance claim

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Neata Street, Corinda, QLD 4075 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Oxley creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Oxley Creek approximately 100m to the north of your property which connects to the Brisbane River has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Oxley Creek approximately 200m to the north of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

5 April 2011

[REDACTED]
[REDACTED] Gordon Street
Milton 4064

Dear Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED]
[REDACTED] Gordon Street Milton 4064 on 13th January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River approximately 300m to the south east of your property has risen. A watercourse branching off the Brisbane River underneath Coronation Drive which runs adjacent to Douglas Street has therefore also risen.

As a result of the rising waters, the watercourse has overflowed and inundated Douglas Street causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Technical Event Claims Manager - Queensland

10 May 2011

[REDACTED]
[REDACTED] Fig Tree Pocket Road
Fig Tree Pocket QLD 4069

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Fig Tree Pocket Road, Fig Tree Pocket QLD 4069 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage on and we thank you for your cooperation in this regard.

We also obtained a hydrology report from WRM Water and Environment. Please find enclosed a copy of this report for your records.

Hydrology Report:

Following the Queensland floods of December 2010 and January 2011 the Insurance Council of Australia (ICA) appointed a panel consisting of three expert hydrologists¹ to assess and report on flooding across the state. A two-volume report (which is accessible on the ICA website (www.insurancecouncil.com.au) deals with the Brisbane area.

Their report indicates that the inundation was ultimately caused by flood water escaping and overflowing from the Brisbane River at the time (Wednesday, 12 January 2011) your property was affected.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home (building, garage and swimming pool) was inundated by Brisbane River floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, viewing publically available aerial mapping and reviewing the documents you have provided, we are satisfied that the damage to your building and contents was caused by overland flood from the Brisbane River.

More specifically, the hydrology report (attached) has indicated that water initially escaped from nearby drains inundating the lowest part of your site to a level of 0.8 metres. In this instance, given the range of ground levels at your property we accept that the lowest level of your property, which was inundated was only the surface of your driveway, to the height of your front wooden retaining wall. Unfortunately inundation above this level was caused by the later rise and overflow of the Brisbane River which is located a short distance from your property. As your policy does not cover loss or damage caused by overland flood, we regret to inform you that your claim for building, contents and swimming pool damage has not been accepted.

Please note that your Client Manager will contact you shortly to discuss whether you are eligible to claim for the spoilage of your frozen food. This is an additional benefit under your policy that is excess free and may apply in this instance.

Given that there was drain escape water inundation across the front of your site, AAMI is prepared to consider a claim for electrical wiring damage at your site but only to the height of the fuse box connection, if your property is serviced by an underground power line. Please advise your Client Manager if you would like us to consider this potential claim. We confirm that such a claim would be subject to your \$1000 policy excess.

We apologise to you for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

10 June 2011

[REDACTED]
[REDACTED] Newcastle Street
Fairfield Qld 4103

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Newcastle Street, Road, Fairfield on 11 - 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage. We additionally appointed a qualified hydrologist to attend your property and its surrounds and provide a written report as to the cause of the water inundation. We thank you for allowing both assessments and your continue patience in allowing us to complete our enquiries into your claim.

Hydrology Reports:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

The WRM hydrology investigation specific to your home explains that the internal inundation was initially caused by water escaping drains and then higher levels of floodwater flowed from the Brisbane River on 11 - 13 January, 2011. Please find enclosed a complete copy of this report for your records.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, viewing publically available aerial mapping and reviewing the documents you have provided, it is our view that the damage to your property was caused by an initial inundation of water escaping stormwater drains then and overland flood to a far higher level.

We are satisfied that the damage to your building and contents located on the lowest level of your home namely your carport, sheds and laundry up to and including 40 cms above their ground level was not caused by overland flood. Rather, that damage was caused by water escaping from drains in the vicinity of your property. On this basis we are pleased to inform you that your policy will cover this portion of your claim.

Unfortunately the information and reports we have obtained indicate that the damage to your building and contents located higher than 40 cms as at the carport, sheds, laundry areas of your home was caused by flood. Specifically, the Brisbane River which is located 150 m from of your property has risen and overflowed causing floodwaters to travel overland and inundate your property to this greater height. As your policy does not cover loss or damage caused by overland flood, we regret to inform you that this portion of your claim has not been accepted.

We apologise for the delay in providing you with our decision.

Your Client Manager will be in contact with you shortly to arrange the necessary repair costing assessment required now that AAMI has determined its liability.

Your right to have this decision reviewed:

If you do not agree with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Wendouree Cres
WESTLAKE QLD 4074

Dear Mr Tran,

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Wendouree Crescent, Westlake QLD on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, 'What we cover – insured events' explains that you are

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River adjacent to your property has risen and overflowed to inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, floodwater inundation from the overflow of Stable Swamp Creek, which is located approximately 300m from your property, adjoining the Oxley Creek which itself flows from the Brisbane River, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Nero Close
JINDALEE 4074

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Nero Close, Jindalee, 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, the property damage was caused by floodwater inundation from the overflow of an unnamed tributary adjoining the Brisbane River (located approximately 1.25km northeast of your property), on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

██████████
██████ Laurel Court
MOORES POCKET 4305

Dear Mr ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ████████ Laurel Court, Moores Pocket, 4305 on 10 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Bremer River on or around 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"**You are not covered** under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, the property damage was caused by floodwater inundation from overflowing of the Bremer River which surrounds the insured's property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

We apologise to you for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. 3 May 2011

[REDACTED]
[REDACTED] Camelot Street
Tennyson QLD 4105

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Camelot Street Tennyson QLD 4105 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, overland floodwaters from the Oxley Creek approximately 400m to the west of your property have mixed with water escaping from drains and resulted in the inundation of your house on 12 January 2011. Under Australian insurance law an insurer is not obliged to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or damage caused by flood of this type, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Scenic Road
KENMORE 4069

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Scenic Road, Kenmore, 4069 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, we are satisfied that the water that inundated your property to cause damage was water that escaped or overflowed from the Brisbane river approximately 400m to the south of your property and/or water that could not enter the Brisbane River because it was already full or overflowing. Your policy does not cover loss or damage caused by flood of this type. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Siemon Street
One Mile QLD 4305

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Siemon St, One Mile 4305 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled 'Flooding in the Brisbane River Catchment, January 2011' and is made up of Volume 1 "An Overview" and Volume 3, 'Flooding in Ipswich City LGA'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Bremer River which is located a short distance to the east of your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

[REDACTED]
[REDACTED] Owen Stanley Place
Darra Qld 4076

Dear Mrs & [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Owen Stanley Place Darra Qld 4076 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek , which travelled overland and inundated the property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, Oxley Creek approximately 200m north east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. [REDACTED]
PO Box [REDACTED]
GRACEVILLE EAST QLD 4075

Dear Mr & Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at Unit 70 [REDACTED] Long Street East Graceville 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from both the Brisbane River and Oxley River on or around 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, it appears that the Brisbane River approximately 500 m north east and Oxley Creek approximately 300 m east of your property have risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. 08 April 2011

[REDACTED]
[REDACTED] Clara Street
Corinda QLD 4075

Dear Mrs & Mr May

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Clara Street Corinda QLD 4075 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek, causing floodwaters to travel overland and inundate your property via the Benarrawa Reserve that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, Oxley Creek approximately 400m to the south east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property via the Benarrawa Reserve on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. [REDACTED]
[REDACTED] Goodwin Street
KANGAROO POINT QLD 4169

Dear Mrs and [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Goodwin St, Kangaroo Point QLD 4169 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or

- cannot enter because it is full or has overflowed, or

- is prevented from entering, because other water has already escaped or been released from it,

- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located to the rear of your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. [REDACTED] Duncan Street
Riverview 4303

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Duncan Street Riverview 4303 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Six Mile Creek at the time on or around 11 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, overland floodwaters from Six Mile Creek back flowed into the unnamed watercourse running along the northern boundary of your property which in turn overflowed and inundated your home, on or around 11 January 2011.

The high floodwaters within Six Mile Creek were the result of high floodwaters travelling down the Brisbane River causing very high levels of back flow flooding in the River's tributaries, including Six Mile Creek.

We acknowledge that an insignificant amount of floodwater may have escaped nearby street drains around your property however we are satisfied that any drain escape water would have promptly mixed with overland floodwater from the watercourse prior to inundating your home.

Under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or damage caused by flood of this type, we regret to inform you that your claim is not covered on this occasion.

We sincerely apologise to you for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
House [REDACTED]
[REDACTED] Moores Pocket Road
Tivoli QLD 4305

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at house [REDACTED] Moores Pocket Road Tivoli 4305 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Bremer River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

[REDACTED]
[REDACTED]
CARINDALE 4152

Dear Ms & Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Gordon Street, Hawthorne, 4171 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, the Brisbane River adjacent to your property rose and overflowed to inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. [REDACTED]
[REDACTED] Brisbane Rd
RIVERVIEW QLD 4303

Dear Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Brisbane Rd Riverview 4303 on 30 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River located approximately 250 metres to the north of your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

████████████████████
████████████████████
████████████████████ Strong Avenue
Graceville QLD 4075

Dear Mr ████████████████████

Your AAMI building and contents insurance claim ████████████████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ██████████ Strong Av, Graceville 4075 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River and the Oxley Creek affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River and Oxley Creek, both of which are located within a short distance of your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. [REDACTED]
[REDACTED] Lincoln Street
OXLEY QLD 4075

Dear Mrs & Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Lincoln St Oxley 4075 on or around 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or

- cannot enter because it is full or has overflowed, or

- is prevented from entering, because other water has already escaped or been released from it,

- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Oxley Creek approximately 750m to the east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. [REDACTED]
[REDACTED] Selwyn Street
North Booval QLD 4304

Dear Mr & M [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Selwyn Street North Booval QLD 4304 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Bundamba Creek approximately 200m north of your property received floodwaters from the Bremer River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, it appears that Bundamba Creek approximately 200m north of your property received floodwaters from the Bremer River causing it to rise and overflow and floodwaters to subsequently travel overland and inundate your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. 24 March 2011

[REDACTED]
[REDACTED] Tekapo Street
WESTLAKE 4074

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Tekapo Street, Westlake, 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Mt Ommaney Creek on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, overland floodwaters from Mt Ommaney Creek approximately 400 metres to the west of your property inundated your house on or around 12 January 2011.

We are satisfied that the proximate cause of the damage to your property was from flood waters entering from the rear of your property. We note that your property slopes downwards from the street to the rear of the property where McLeod Country Golf Club is located. We are satisfied that the water levels in the Brisbane River caused Mt Ommaney Creek to overflow and flood the McLeod Country Golf Club, rising to a point to a where it inundated your property.

Alternatively, we accept that a minor contribution to the overall flooding of your house may have come from water escaping from drains near your property, at the time of the main flood event. We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain.

As your policy does not cover loss or damage caused by flood of this type, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

30 May 2011

[REDACTED]
[REDACTED] Twilight Street
Kenmore QLD 4069

Dear Mrs & M [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Twilight Street Kenmore QLD 4069 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River, which travelled overland towards and inundate your property from the direction of the parklands. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood.

Specifically, the Brisbane River approximately 450m south of your property rose and overflowed to inundate the low lying parklands adjacent to your property. The Brisbane

River continued to rise which caused floodwaters to travel overland towards and inundate your property from the direction of the parklands.

We accept that a minor contribution to the overall flooding of your property may have come from water escaping nearby drains in the parklands at the time of the main flood event. We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

Mr [REDACTED]
[REDACTED] Mankinna Street
Jindalee QLD 4074

Dear Mr & Ms [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Mankinna St, Jindalee 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled *'Flooding in the Brisbane River Catchment, January 2011'*.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located approximately 100 metres north of your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Torwood Street
Auchenflower QLD 4066

Dear Mrs [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Torwood Street Auchenflower QLD 4066 on 10 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that affected the property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or

- cannot enter because it is full or has overflowed, or

- is prevented from entering, because other water has already escaped or been released from it,

- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, floodwaters from the Brisbane River have flowed down the stormwater channel approximately 250m to the south east of your property, causing it to rise and overflow and overland floodwaters to subsequently inundate your property. As your policy

does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

06 April 2011

[REDACTED]
George Street
TIVOLI 4305

Dear Mrs [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] George Street, Tivoli, 4305 on 12/01/2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the overflow of Sandy Creek, which is located approximately 200 metres to the east of your property on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Sandy Creek, which is located approximately 200 metres to the east of your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Peter Unwin
Technical Event Claims Manager - Queensland

18 May 2011

[REDACTED]
Progress Street
QUINALOW QLD 4403

Dear Ms [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents located at Progress Street, Quinalow on 9 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Geography:

We understand that your property is located in Quinalow adjacent to Progress Road and that Myall Creek is located to the north and east of your property.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM) which provides an indication of the rainfall totals in your area at the time your property was inundated.

Hydrologist Report:

As you know, we appointed WRM Water & Environment to provide us with a hydrologist report to specifically address the cause of water inundation to your property and we thank you for allowing them to visit your property and speak with you. The report indicates the drainage features in your area and the behaviour of rainfall and Myall Creek water levels around the time your property was inundated. It concludes that your property was not inundated by stormwater runoff but by overflows from Myall Creek. A copy of their report is enclosed.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or
- cannot enter because it is full or has overflowed, or
- is prevented from entering, because other water has already escaped or been released from it,
- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood.

Specifically, Myall Creek to the north of your property rose and overflowed initially into the northern end of the township of Quinalow. The overland floodwaters then flowed in a southerly direction along Progress Street to inundate your property on or around the evening of 9 January 2011.

Alternatively, we accept that a minor contribution to the overall flooding of your house may have come from stormwater runoff near your property, at the time of the main flood event. We confirm that under Australian insurance law an insurer is not obligated to accept a claim

for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

We apologise for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Technical Event Claims Manager - Queensland

11 April 2011

[REDACTED]
[REDACTED] William Terrace
OXLEY QLD 4075

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] William Terrace Oxley 4075 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, **'What we**

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, Oxley Creek approximately 750m to the east of your property has risen and overflowed after receiving floodwaters from the Brisbane River, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy

does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. 15 April 2011

████████████████████
████ Michelangelo Street
LONE PINE QLD 4069

Dear Mr ████████ and Ms ████████

Your AAMI contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your contents at █████ Michelangelo St Lone Pine QLD 4069 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, the Brisbane River which runs around your property approximately 250m to the west, 600m to the east and 400m to the south, has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

17 May 2011

[REDACTED]
[REDACTED] Raven Court
Karalee QLD 4306

Dear Mr and Mrs [REDACTED]

Your AAMI building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Raven Court, Karalee on or around 10 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage on 2 February 2011 and we thank you for your cooperation in this regard.

We also thank you for allowing a second assessment to be conducted on 4 May 2011.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (page 7) under the heading, **"What we cover – the building"** explains that the definition of building excludes:

"the loose surfaces or tennis courts, driveways and paths,

hedges (whether or not they form a fence), lawns, trees, shrubs, plants, flowers, garden beds or any other living material."

Your Policy further explains (page 8 and 12) under the heading, **"What we cover – insured events"** that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (page 14) under the heading, **"What we do not cover – general exclusions"**, further states that you are not covered for damage or loss caused by:

"wear and tear, rust, deterioration or corrosion,

erosion or washing away of soil, earth or gravel,

soil movement or settlement,
subsidence”

Our decision on your insurance claim:

Retaining wall

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your retaining wall was caused by soil movement and subsidence as a result of stormwater runoff. As your Policy covers loss or damage due to stormwater runoff, we are pleased to inform you that this portion of your claim is accepted.

Outside deck

Based on the evidence available, we are satisfied that this damage was not caused by stormwater runoff, but rather, deterioration over time. Unfortunately your Policy does not respond to claims for damage resulting from wear and tear and/or deterioration. On this basis, we further regret to inform you that we cannot accept this portion of your claim.

Grass and topsoil

As your Policy does not include soil itself nor *hedges, lawns, trees, shrubs, plants, flowers, garden beds or any other living material* within its definition of building, and further does not cover damage arising from *erosion or washing away of soil, earth or gravel*, we again regret to advise that we are unable to respond to this aspect of your claim.

Frozen food spoilage

We confirm that this component of your claim has been withdrawn.

We also apologise to you for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne

City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

24 June 2011

[REDACTED]
[REDACTED] Lather Road
Bellbowrie QLD 4070

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Lather Road Bellbowrie QLD 4070 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping from Pullen Pullen Creek, which received floodwaters from the Brisbane River, causing it to rise and overflow and subsequently travel overland and inundate your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Pullen Pullen Creek received floodwaters from the Brisbane River, causing it to rise and overflow and floodwaters to subsequently travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

11 April 2011

[REDACTED]
[REDACTED] East Street
DEPOT HILL QLD 4700

Dear Mr [REDACTED]

Claim Number: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your home building and home contents at [REDACTED] East Street Depot Hill 4700 on the 10 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have also obtained a Hydrologist Area Report WRM Water & Environment Pty Ltd on the cause and timing of inundation in the area of your home and contents. Their report shows that the inundation was caused by flood water escaping and overflowing from the Fitzroy River from 27 December 2010 to mid January 2011. We enclose a copy of the report for your information.

Your Insurance Policy:

The Product Disclosure Statement (PDS) for your Home Building Insurance Policy (on pages 8 and 12) and for your Home Contents Insurance Policy (on pages 16 and 18) under the heading "**What we cover – insured events**", provides you are covered for damage or loss to your home building and your home contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

The Product Disclosure Statement (PDS) for your Home Building Insurance Policy (on pages 9 and 13) and for your Home Contents Insurance Policy (on pages 17, 19 and 21) under the headings, "**You are not covered for**", provides that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or
cannot enter because it is full or has overflowed, or
is prevented from entering, because other water has already escaped or been
released from it,
the normal confines of any watercourse or lake including any that may have
been modified by human intervention, or reservoir or canal, dam or
stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or
water escaping from any water main, drain, pipe, street gutter, guttering or
surface."

The PDS for your Home Building Insurance Policy (on page 14) and for your Home Contents Insurance Policy (on page 22) also states in the section. **"What we do not cover – general exclusions"**:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our Decision On Your Claim:

After careful consideration of the information and reports we have obtained, it is evident that the damage to your home building and home contents was caused by flood. As your policies do not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your Right to Have This Decision Reviewed:

If you are not satisfied with our response, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeals Service is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:.

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of the decision of

our Consumer Appeals Service. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

18 April 2011

[REDACTED]
PO BOX [REDACTED]
Milton 4064

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Waterline Crescent Bulimba 4171 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or about 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River located 20 meters west of your property, on or about 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

We are pleased to inform you that your policy will cover your claim for spoilage of frozen food. We will be in contact with you shortly to discuss the particulars of this claim in further detail.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Bremer River which is located a short distance to the east of your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Moores Pocket Road
TIVOLI QLD 4305

Dear Mrs & Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Moores Pocket Road Tivoli 4305 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River on or around 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Bremer River, which borders the south end of your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. 20 April 2011

[REDACTED]
[REDACTED] Fortrose Street
Kenmore QLD 4069

Dear Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Fortrose St, Kenmore 4069 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Moggill affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, floodwater inundation from the overflow of Moggill Creek, which is located approximately 50m from your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Technical Event Claims Manager - Queensland

19 April 2011

[REDACTED]
[REDACTED] Brisbane Valley Hwy
WANORA QLD 4306

Dear Mr [REDACTED]

Your AAMI building insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Brisbane Valley Hwy, Wanora on 12 January 2011.

In particular you have claimed for damage to your driveway, embankment, and submersed water pump.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood,
erosion or washing away of soil, earth or gravel,
the washing away or movement of the surface of any path or driveway which has a surface consisting of a loose material such as gravel, stone or dirt,
soil movement or settlement"

Your Policy also states in the section, "**What we cover – the building**" on page 7:

"The building excludes:

the loose surfaces of tennis courts, driveways and paths"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, it is our view that the damage to your building was caused by the heightened level of the dam on your property. Specifically, the dam on your property has risen and overflowed causing damage to your driveway, embankment and submersed water pump on or around 12 January 2011. Your policy does not cover loss or damage caused by flood.

It is also our view that any damage to your driveway or embankment as a result of stormwater runoff is not covered under your Policy due to the general exclusions on page 14 of your Policy, specifically those noted above.

We also refer you to page 7 of your Policy and confirm that your building does not include any loose surfaces of driveways and therefore your Policy cannot respond to a claim for loss or damage to a driveway of this type.

We regret to inform you that your claim is not covered on this occasion since the damage you have claimed for to your building is not covered under your Policy.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Perth Street
Karalee QLD 4306

Dear Miss [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED]
Gladstone Street Oxley QLD 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek that affected the property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, the property damage was caused by floodwater inundation from the overflow of Oxley Creek, which is located within a close proximity of your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

28 March 2011

[REDACTED]
[REDACTED] Egmont St
Sherwood QLD 4075

Dear Ms [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at Unit [REDACTED] Egmont St Sherwood QLD 4075 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, floodwater inundation from the overflow of the Brisbane River, which is located approximately 200m north east of your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Technical Event Claims Manager - Queensland

20 April 2011

[REDACTED]
[REDACTED] Oxley Road
Oxley QLD 4075

Dear Mr [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Oxley Road Oxley QLD 4075 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek and an unnamed tributary of Oxley Creek on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, Oxley Creek and an unnamed tributary of Oxley Creek (approximately 600m and 350m to the east of your property respectively) received floodwaters from the Brisbane River causing it to rise and overflow and floodwaters to subsequently travel overland and inundate the insured property on or around 12 January 2011. As your policy

does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Long Street E
GRACEVILLE QLD 4075

Dear [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Long Street E, Graceville 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Oxley Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Oxley Creek, which is located approximately 200 m east of your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. 23 May 2011

[REDACTED]
[REDACTED] Bernborough Avenue
OORALEA QLD 4740

Dear Mr [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Rodboro St Berserker 4701 on 28 December 2010.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report from hydrologists WRM Water and Environment. This firm has investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Fitzroy River at the time your property was affected. We enclose a copy of this report for your records.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne

City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Peter Unwin
Technical Event Claims Manager - Queensland

20 May 2011

[REDACTED]
[REDACTED] Keith Street
BUNDAMBA QLD 4304

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Keith Street, Bundamba on 11 January 2011.

As you know, we appointed assessors to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Their report indicates that the inundation was caused by the backflow effects of Brisbane River flood water into the Bremer River and Bundamba Creek, at the time (11 January 2011) your property was affected. We specifically refer you to section 8.4.4 titled Bundamba Creek on page 48 and 49 of the Volume 3 report which provides a description of the causes of flooding in your area and a graph (Figure 8.8) which indicates the height and corresponding time of water levels in the vicinity of your property.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater. We specifically refer you to the 2010-2011 Flood and Cyclone Imagery which depicts that the floodwaters which inundated your property have come from the overflowing Bremer/Brisbane River.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled 'Flooding in the Brisbane River Catchment, January 2011' and is made up of Volume 1 "An Overview" and Volume 3, 'Flooding in Ipswich City LGA'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood.

Specifically, the Bremer River has received floodwaters from the Brisbane River which have caused it to rise and overflow. Floodwaters from the Brisbane and Bremer Rivers subsequently travelled overland to inundate your property on 11 January 2011.

We note that you have additionally claimed for damage that you have advised us was the result of stormwater ingress through your roof before the arrival of overland floodwaters. Unfortunately, as the overland floodwaters inundated your property to a height above your ceiling, causing substantial damage to your building (including the collapse of the ceiling), AAMI is not in a position to assess or verify the occurrence or extent of any damage that may have happened as a result of any water ingress through the roof.

We confirm that under Australian insurance law, the onus rests on the policy holder to establish that an event insured under their policy has caused damage to property insured by the policy. Whilst we have carefully considered the circumstances you have described to us, we are not able to satisfy ourselves on this occasion that internal damage first occurred as a result of rainfall.

Given the above, as your Policy does not cover loss or damage caused by flood, we regret to inform you that your claim, in its entirety, has not been accepted by AAMI.

Please accept our apology for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

5 April 2011

[REDACTED]
[REDACTED] Victoria Street
Fairfield 4103

Dear Miss [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at Unit 2 [REDACTED] Victoria Street Fairfield 4103 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or
- cannot enter because it is full or has overflowed, or
- is prevented from entering, because other water has already escaped or been released from it,
- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, the Brisbane River approximately 400m to the North West of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

29 March 2011

[REDACTED]
[REDACTED] Rocklea Street
Archerfield QLD 4108

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Rocklea St Archerfield QLD 4108 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, Stable Swamp Creek which leads into Oxley Creek which connects to the Brisbane River has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Strickland Terrace
GRACEVILLE 4075

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Strickland Terrace, Graceville, 4075 on 10 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Oxley Creek, which is located approximately 60 metres to the southeast of your property, on or around 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Oxley Creek, which is located approximately 60 metres to the southeast of your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Victoria Street
Fairfield QLD 4103

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Victoria Street Fairfield QLD 4103 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 200m to the north west of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

[REDACTED]
Fortrose Street
KENMORE QLD 4069

Dear [REDACTED],

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Fortrose Street, Kenmore QLD 4069 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Moggill Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Gareel St, Jindalee 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek and/or Pennywort Creek affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Oxley Creek and/or Pennywort Creek, which are located within close proximity of your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

[REDACTED]
[REDACTED]
[REDACTED]
Marburg QLD 4346

Dear Mr and M [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your property located at [REDACTED] Edmond Street, Marburg, QLD on or around 11 January 2011.

In particular you have claimed for damage sustained to your driveway, retaining wall and stone fence.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for your cooperation in this regard.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 6 and 7) under the heading, '**What we cover – the building**' explains that you are not covered for any loss or damage to:

"the loose surfaces of tennis courts, driveways and paths."

Your Policy further states (on page 14) under the heading, '**What we do not cover – general exclusions**' that you are not covered for loss or damage caused by:

"erosion or washing away of soil, earth or gravel,

Our decision on your insurance claim:

Driveway

Unfortunately the information and reports we have obtained do not satisfy us that stormwater runoff washed away the surface of your driveway. Even if this was the case, your Policy does not cover damage to loose surfaces of driveways. Accordingly, we regret to inform you that this aspect of your claim is not covered on this occasion.

Retaining wall and stone fence

After careful consideration of the information and reports we have obtained, it is our view that the damage to your retaining wall and stone fence was caused by stormwater washing away the earth beneath the retaining wall which in turn moved and caused cracking to the stone fence. As your policy does not cover damage caused by erosion, we regret to inform you that this aspect of your claim is also not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. [REDACTED]
[REDACTED] Sumners Road
Riverhills 4074

Dear Mrs J [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Sumners Road Riverhills 4074 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 400m to the north of your property has risen and overflowed, causing floodwaters to travel overland via a reserve to inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
PO B [REDACTED]
NORMAN PARK 4170

Dear Mr [REDACTED] Miss [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Norman Avenue, Norman Park, 4170 on 13 January.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Norman Creek on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Norman Creek approximately 200m south west of your property has received floodwaters from the Brisbane River causing it to rise and overflow and floodwaters to subsequently travel overland and inundate your property on the evening of 12 January 2011 and/or the morning of 13 January 2011.

Alternatively, we accept that a minor contribution to the overall flooding of your house may have come from water escaping from drains near your property, at the time of the main flood event. We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Please accept our apology for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

7 April 2011

[REDACTED]
[REDACTED] Walcott Street
ST LUCIA QLD 4067

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Hopetown Street Tivoli 4305 on 14 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Tivoli Creek (consequent overflow of the Bremer River) on or around 14 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Tivoli Creek (consequent overflow of the Bremer River), which is located approximately 4 metres to the left hand side of your property on or around 14 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

28 June 2011

[REDACTED]
[REDACTED] Westlake Drive
Westlake QLD 4074

Dear Mr [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Westlake Drive, Westlake QLD 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or about 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, 'What we cover – insured events' explains that you are

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which borders the north side of your property, on or about 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. 29 March 2011

[REDACTED]
[REDACTED] Goburra Street
Rocklea Qld 4106

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Goburra St Rocklea on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River to the North and a significant tributary to the West of your property have risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

[REDACTED]
Rani Close
Mount Ommaney QLD 4074

Dear Mrs & Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Rani Close Mount Ommaney QLD 4074 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River flowed down Mount Ommaney Creek that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, floodwaters from the Brisbane River flowed down Mount Ommaney Creek which subsequently rose and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

[REDACTED]
[REDACTED] Sumner Road
Riverhills QLD 4074

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Sumner Road Riverhills QLD 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, overland floodwaters from the Brisbane River located approximately 400m to the north of your property to inundate your house on or around 12 January 2011.

Alternatively, we accept that a minor contribution to the overall flooding of your house may have come from water escaping from drains near your property, at the time of the main flood event. We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or

damage caused by flood of this type, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

12 April 2011

[REDACTED]
[REDACTED]
Booval 4304

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Lyndon Way Karalee 4306 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River on or around 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Bremer River which is located a short distance from the rear of your property, on or around 11 January 2011.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

11 May 2011

[REDACTED]
[REDACTED] McDougall Street
MILTON QLD 4064

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Macquarie Street St Lucia 4067 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River immediately to the north of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Witt Street
North Rockhampton QLD 4701

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Witt St, North Rockhampton 4701 on 6 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report from hydrologists WRM Water and Environment. This firm has investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Frenchmans Creek has affected your property. We enclose a copy of this report for your records.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading,

'What we cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your laundry building was caused by soil movement and subsidence as a result of flood. Specifically, overland floodwaters from Frenchmans Creek, which is located approximately 400 metres to the east of your property, have inundated your property on or around 6 January 2011. We are satisfied that floodwater pooling on your property caused soil saturation and movement, which in turn caused the laundry wall to shift and break away from the remainder of the structure. As your policy does not cover loss or damage caused by flood nor does it cover damage arising from soil movement or settlement and subsidence (page 14 of your policy), we regret to inform you that your claim has not been accepted.

We do note that a section of stormwater drain pipe is exposed at the ground level to the rear of your laundry structure. Even if AAMI was to accept that stormwater runoff overflowing from this exposed pipe caused or contributed to the damage, we would not accept your claim on the basis that your policy does not cover (on page 13):

"damage or loss caused by water seeping into or otherwise entering your building due to:

a defect or fault in the design, structure or construction of your building where you could reasonably be expected to be aware of the defect or fault."

We apologise to you for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. [REDACTED]
[REDACTED]
ARCHERFIELD 4108

Dear Mrs and Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Gladston St, Archerfield, QLD 4108 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Stable Swamp Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, Stable Swamp Creek to the north of your property received significant volumes of floodwaters from Oxley Creek and the Brisbane River, causing it to rise and overflow. Floodwaters have subsequently travelled overland and inundated your property.

We have reviewed the information you have provided in relation to the watercourse to the east of your property. We do not accept that this watercourse is a drain. Rather, given its size, function and water-carrying capacity we regard it to be properly characterised as a stormwater channel, designed to carry significant volumes of water through the lower suburban catchment area it passes through. We confirm that even if this watercourse was to be characterised as a drain (which we do not accept), then any water escaping from it, or from nearby street drains around your property, would have been a minor contributor to the significant overland water flow across the Archerfield area during the main flood event.

Under Australian insurance law an insurer is not obliged to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water that would in isolation be covered (in this case, if your property was inundated only by water escaping from a drain).

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Riversleigh Road
Bellbowrie QLD 4070

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Riversleigh Road Bellbowrie QLD 4070 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Pullen Pullen Creek that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Pullen Pullen Creek which runs through your property and is approximately 150m from your home has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. 5 April 2011

[REDACTED]
[REDACTED]
[REDACTED] Gordon Street
Milton QLD 4064

Dear Ms [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents located at [REDACTED] Gordon Street Milton QLD 4064 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that affected the property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, floodwaters from the Brisbane River have flowed down the stormwater channel approximately 200m to the south of your property, causing it to rise and overflow. The overflowing floodwaters have inundated Dorsey and Douglas Streets, continuing down Douglas Street to inundate your property from the rear on 12 January 2011.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

17 May 2011

[REDACTED]
[REDACTED] Umina Street
Jindalee QLD 4074

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Umina St Jindalee 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River travelled through the Jindalee Swimming Pool into the low lying IGA car park located at the intersection of Looranah Street and Umina Street before finally entering Umina street and rising to reach your property at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, overland floodwaters from the Brisbane River travelled through the Jindalee Swimming Pool into the low lying IGA car park located at the intersection of Looranah Street and Umina Street before finally entering Umina street and rising to reach your property, on or around 12 January 2011. We refer you to the flood imagery of your street on the Queensland Reconstruction Authority's website.

We acknowledge that an insignificant amount of floodwater may have escaped nearby drains around your property however we are satisfied that any drain escape water would have promptly mixed with overland floodwater rising over Umina Street.

Under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or damage caused by flood of this type, we regret to inform you that your claim is not covered on this occasion.

We apologise to you for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

16 May 2011

[REDACTED]
[REDACTED] Ferry Road
WEST END QLD 4101

Dear [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at Unit 5, [REDACTED] Ferry Road West End 4101 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood.

We accept that overland floodwaters from the Brisbane River approximately 300m north west of your property mixed with water escaping nearby drains before inundating your property on or around 12 January 2011. Specifically, we understand that your unit was only inundated and flooded at the very peak of the flood event. Given the information available to us, we necessarily accept that this peak inundation only occurred after floodwaters crossed over dry land from the Brisbane River at or very close to the flood peak height.

We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from drains.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Please accept our apology for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Vivian Street
Tennyson 4105

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Vivian Street Tennyson 4105 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Oxley Creek adjacent to your property rose and overflowed to inundate your property on or around 12 January 2011.

We accept that a minor contribution to the overall flooding of your house may have come from water escaping from drains near your property, at the time of the main flood event. Our assessment of your home and site has confirmed that the land both in front and behind your home is lower than the internal living area of your home. Accordingly, we do not accept that any drain water pooling in your street first inundated your home before the arrival of overland floodwaters from Oxley Creek.

We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Please accept our apology for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Boundary Street
MOORES POCKET QLD 4305

Dear Mrs & Mr

Your AAMI building and contents insurance claim:

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at Boundary St, Moores Pocket, QLD 4305 on 14 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Bremer River located approximately 20 metres to the east of your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. 5 April 2011

██████████
██████████ Markham Street
DARRA QLD 4076

Dear Mr ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ██████████ Markham Street Darra 4076 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River via Wolston Cree at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Bullock Head Creek approximately 100m to the north west of your property has received floodwaters from the Brisbane River via Wolston Creek, subsequently causing it to overflow and send floodwaters overland towards your property which was then inundated on or around 12 January 2011. As your policy does not cover

loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. "Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, your pontoon has come loose and floated away due to the rising Brisbane River in which it was situated. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal

Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Tarcoola Street
East Ipswich QLD 4305

Dear Miss [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Tarcoola St, East Ipswich 4305 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Bremer River approximately 250m to the north of your property has risen and overflowed, causing floodwaters to inundate your property both by travelling overland and via the stormwater channel to the rear of your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. [REDACTED]
[REDACTED] Duncan Street
Riverview QLD 4303

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Duncan Street Riverview QLD 4303 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Six Mile Creek, a tributary of the Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Six Mile Creek, a tributary of the Brisbane River which is located a short distance to the east of your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. [REDACTED]
[REDACTED] Boundary Road
WACOL QLD 4076

Dear Miss [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Ormonde Road Yeronga 4104 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River approximately 100m to the north of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

5 April 2011

[REDACTED]
[REDACTED] Eversley Terrace
Yeronga 4104

Dear Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at Unit [REDACTED]
[REDACTED] Eversley Terrace Yeronga 4104 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River approximately 1km to the north of your property has risen and overflowed, causing floodwaters to travel over the parklands to the north, over Hyde Road and then into Eversley Terrace to inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Peter Unwin
Technical Event Claims Manager - Queensland

29 March 2011

[REDACTED]
Kenny Street Fig Tree
Pocket QLD 4069

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Kenny Street Fig Tree Pocket QLD 4069 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

- escapes or overflows from, or
- cannot enter because it is full or has overflowed, or
- is prevented from entering, because other water has already escaped or been released from it,
- the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River approximately 200m to the east and 600m to the west of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

7 April 2011

[REDACTED]
[REDACTED] Elmes Road
Rocklea QLD 4106

Dear Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Elmes Rd Rocklea 4106 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Stable Swamp Creek and/or Rocky Water Holes Creek affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Stable Swamp Creek and/or Rocky Water Holes Creek, approximately 250m to the west and 350m to the north east respectively of your property, received floodwaters from the Brisbane River via Oxley Creek causing it/them to rise and floodwaters to subsequently travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

4 April 2011

[REDACTED]
[REDACTED] Fairfield Road
Fairfield 4103

Dear Miss Carole [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Fairfield Road Fairfield 4103 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 400m to the north west of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. Technical Event Claims Manager - Queensland

27 June 2011

Family Law

East Perth WA 6892

Dear Ms

Re: your ref.

AAMI building and contents insurance claim:

Thank you for your most recent letters dated 1 and 2 June in relation to your clients' claim.

This claim has been made for water damage to both building and contents located at Gascoyne Drive, Karalee in January 2011.

As you are aware, we appointed two property assessors to attend your clients' property and inspect the damage. More recently we appointed a hydrologist engineer from WRM Water & Management to inspect your clients' property and to provide an opinion as to the cause of their home's internal inundation. We thank you for allowing this to happen.

Hydrology Reports:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your clients' home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River at the time (11-13 January 2011) your clients' property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

The WRM hydrology investigation specific to your clients' home confirms that its internal inundation was caused overflowing from the Bremer River and travelling overland. Please find enclosed a complete copy of this report for your clients' records.

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

mapping, made available by the Queensland Government, indicates that your clients' home was inundated by overland floodwater from the Bremer River.

Your clients' AAMI Building and Contents Insurance Policy:

Your clients' AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your clients' AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your clients' Policy) under the heading, **'What we cover – insured events'** explains that you clients are covered for damage or loss to their building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your clients' Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that they are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your clients' Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your clients' insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your clients' building and contents was caused by flood. Specifically, the Bremer River which is located some 1,000m from your clients' property has risen and overflowed causing floodwaters to travel overland and inundate their property. *(the lesser distance in the hydrological engineer's report is noted)*

I confirm that AAMI has carefully considered the answers your clients have provided in your letter of 1 June 2011, against the known rainfall and Bremer River height during the January flood event. On the information available we are not satisfied that your clients' home was internally inundated by water on Sunday 9 January 2011. The rainfall in the Karalee area was not in our view of sufficient intensity to create a body of water, moving north to south, immediately to the east of our clients' home, to a height sufficient to cause its internal inundation. We refer you to the QLD Reconstruction Authority's interactive mapping, which clearly depicts a continuous body of Bremer River flood water filling this adjacent eastern area.

As such, AAMI accepts that the Bremer River rose significantly on Tuesday 11 January to Thursday 13 January 2011, inclusive, and it was during this river flooding event that your clients' home was inundated. As your clients' policy does not cover loss or damage caused by overland flood, I regret to inform you that AAMI is not prepared to accept your clients' claim.

Please accept AAMI's apology for the delay in providing this decision.

Your clients' right to have this decision reviewed:

If your clients are not satisfied with our decision, they are entitled to have it reviewed at no cost to them by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to them within 5 working days of receiving their telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your clients' participation in this review process does not affect or compromise their entitlement to seek remedies elsewhere or to issue legal proceedings. Should they wish to exercise this right, they can write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9am–5pm AEST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If they are not satisfied with the response from our Consumer Appeals Service they may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

04 April 2011

[REDACTED]
[REDACTED] Long St E
GRACEVILLE QLD 4075

Dear Mrs and Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED]
[REDACTED] Long St E, Graceville, QLD 4075 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River, which is located approximately 300m south east of your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

Technical Event Claims Manager - Queensland

8 April 2011

[REDACTED]
[REDACTED] Derby Street
HIGHGATE HILL QLD 4101

Dear Mr and Mrs [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Derby Street, Highgate Hill QLD 4101 on 12 January 2011.

In particular you have claimed for damage to your pontoon, gangway and external stairs.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time (12 January 2011) your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8 to 13) under the heading, '**What we cover – insured events**' explains the specific insured events that your Policy covers.

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building is not as a result of an event that is insured under your Policy. Specifically:

- a) In relation to the damage to your stairs, the Brisbane River adjacent to your property has risen and overflowed, causing floodwaters to travel overland and inundate those parts of your stairs that are ordinarily over dry land. Your Policy does not cover damage caused by flood of this type.
- b) In relation to the damage to your gangway and any damage to your pontoon, it is evident that this damage was caused by the heightened level of the Brisbane River (including the significantly increased velocity of the water at the time). This event, in itself, is unfortunately not covered by any part of your building policy.

Whilst we acknowledge that different parts of the policy have been referred to above, we have carefully reviewed the specific circumstances of your claim and must confirm that there is no coverage under your policy on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

██████████
██████████ Graceville Avenue
GRACEVILLE QLD 4075

Dear Ms ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ██████████ Graceville Avenue Graceville 4075 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we**

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 150m north east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

18 May 2011

[REDACTED]
[REDACTED] Cunningham Street
Oakey QLD 4401

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Cunningham Street, Oakey on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for your cooperation in this regard.

We also thank you for allowing an onsite hydrology investigation to be conducted by WRM Water and Environment. The report indicates that the inundation was caused by initial stormwater runoff followed by floodwater escaping and overflowing from the Oakey Creek at the time (11 January 2011) your property was affected. Please find **enclosed** a copy of this report for your records.

Geography:

We understand that your property is situated approximately 300 m south west of Oakey Creek which runs through the township of Oakey.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM). The closest BOM recording station to your property is the Oakey Aero Rainfall Station. The relevant rainfall data is included in the **enclosed** WRM onsite hydrology report. Rainfall data leading up to and including 11 January 2011 indicates that there was heavy rainfall in the vicinity of your property.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, viewing publically available aerial mapping and reviewing the documents you have provided, it is our view that the damage to your property was caused by initial stormwater runoff followed by a higher level of overland flood.

We are satisfied that the damage to your property located up to and including 10 cm above floor level in your two sheds and BBQ area was not caused by overland flood. Rather, the damage was caused by stormwater runoff. On this basis we are pleased to inform you that your policy will cover this portion of your claim.

Unfortunately the information and reports we have obtained indicate that the damage to the remainder of your property (the higher portions including your above-ground pool) was caused by flood. Specifically, Oakey Creek which is located approximately 300 m to the north east of your property has risen and overflowed causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by overland flood, we regret to inform you that this portion of your claim has not been accepted.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. [REDACTED]
Clydesdale Place
Sumner QLD 4074

Dear Ms [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Clydesdale Place Sumner QLD 4074 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Wolston Creek, which received floodwaters from the Brisbane River, causing it to rise that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, Wolston Creek approximately 75m to the south west of your property has received floodwaters from the Brisbane River, causing Wolston Creek to rise and overflow and floodwaters to subsequently travel overland and inundate your property on 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Bannerman Street
Oxley QLD 4075

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Bannerman St, Oxley 4075 on the 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Oxley Creek at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

'What we cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Oxley Creek, which is located approximately 40 m east of your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Manyung Street
KENMORE QLD 4069

Dear Mr & Mrs

Your AAMI building and contents insurance claim:

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at Manyung Street Kenmore 4069 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Moggill Creek on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, floodwater inundation from the overflow of Moggill Creek, which is located approximately 200m from your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

██████████
██████ Mirren Street
Gailles Qld 4300

Dear Ms ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at ████████ Mirren Street Gailles Qld 4300 on 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Woogaroo Creek that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, floodwater inundation from the overflow of the Woogaroo Creek, which is located approximately 300m from your property, on or around 13 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Koorringal Drive
JINDALEE 4074

Dear Mr & Mrs [REDACTED],

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Koorringal Drive, Jindalee, 4074 on 11/01/2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River approximately 50m to the north of your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or
cannot enter because it is full or has overflowed, or
is prevented from entering, because other water has already escaped or been released from it,
the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River approximately 50m to the north of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. Peter Unwin
Technical Event Claims Manager - Queensland

3 March 2011

[REDACTED]
[REDACTED] Ormadale Street
YERONGA QLD 4101

Dear [REDACTED]

Claim Number: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your home building and home contents at [REDACTED] Ormadale Street Yeronga 4101 on the 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Assessment Report:

Cunningham Lindsey attended on 11 February 2011 to assess the damage to your property. Cunningham Lindsey has confirmed that water initially entered the lower level of your property on Tuesday 11 January 2011 from surrounding blocks and streets to a level of approximately 1.5m. We also enclose a copy of this assessment report.

Cunningham Lindsey supplied a Scope of Works required to repair the damage sustained by rainwater inundation and have obtained a quote from BMR Building Solutions. BMR Building Solutions quoted \$53,103.60. We also enclose a copy of this quote.

Hydrology Report:

We have also obtained a individual water damage assessment from WRM Water & Environment Pty Ltd on the cause and timing of inundation in the area of your home. Their report states that the initial inundation above floor level was caused by stormwater runoff and subsequent inundation to maximum depth was caused by Brisbane River floodwaters. We enclose a copy of this report.

Your Insurance Policy:

The Product Disclosure Statement (PDS) for your Home Building Insurance Policy (on pages 8 and 12) and for your Home Contents Insurance Policy (on pages 16 and 18) under the heading "**What we cover – insured events**", provides you are covered for damage or loss

to your home building and your home contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

The Product Disclosure Statement (PDS) for your Home Building Insurance Policy (on pages 9 and 13) and for your Home Contents Insurance Policy (on pages 17, 19 and 21) under the headings, **"You are not covered for"**, provides that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

The PDS for your Home Building Insurance Policy (on page 14) and for your Home Contents Insurance Policy (on page 22) also states in the section. **"What we do not cover – general exclusions"**:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our Decision On Your Claim:

After careful consideration of the information and reports we have obtained, it is evident that the damage to your home building and home contents was caused by both an inundation of rainwater runoff and flood. We have therefore been able to partially accept your claim.

Based on the Scope of Works supplied by Cunningham Lindsey and the quote received from BMR Building Solutions, we have processed a settlement to you for:

Building Repairs - \$52,703.60 (net \$400 policy excess)
Contents Settlement - \$ 6,198.00

As your policies do not cover loss or damage caused by flood, we regret to inform you that that portion of your claim is not covered on this occasion.

Your Right to Have This Decision Reviewed:

If you are not satisfied with our response, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeals Service is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au.

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of the decision of our Consumer Appeals Service. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

 Jens Zimmermann

Technical Event Claims Manager - Queensland

18 April 2011

██████████
George Holt Drive
Mount Crosby 4306

Dear Ms ██████████

Your AAMI building insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building located at ██████████ Durness Street Kenmore 4069 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Moggill Creek at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Moggill Creek which is located within a short distance of your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, floodwater inundation from the overflow of the Brisbane River, which is located approximately 200m from your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

11 May 2011

Chapel Hill Road
Chapel Hill QLD 4069

Dear Mr [REDACTED]

Re your client: Dr Wase - AAMI building and contents insurance claim: [REDACTED]

C We thank you for your letter dated 15 April 2011.

As you are aware, your client lodged a building and contents claim for water damage to her home located at [REDACTED] Kenny Street, Fig Tree Pocket, Brisbane. This claim was effectively denied in our letter of 31 March 2011.

Subsequently, we have obtained a hydrology report from WRM Water and Environment dated 11 May 2011 which has caused us to revisit our initial assessment and decision in your client's claim. Please find **enclosed** a full copy of this report for your records.

AAMI is always prepared to review a claim outcome when further information that is relevant to a claim becomes available.

C We apologise to your client for any inconvenience caused as a consequence of us having to reassess and revise our decision on this claim.

We additionally comment on your correspondence, insofar as it relates to section 35 of the Insurance Contracts Act 1984 (the Act).

Our revised decision on your client's insurance claim:

After careful consideration of the information and reports we have obtained, viewing publically available aerial mapping and reviewing the documents we have been provided, it is our view that the damage to your client's property was caused by initial water escaping stormwater drains within the vicinity of Biambi Yamba Park and surrounding streets, followed by a higher level of overland flood directly from the Brisbane River.

Accordingly, we are satisfied that the damage to your client's property located up to and including 1.6 metres above ground level was not caused by overland Brisbane River floodwater. Rather, the damage was caused by water escaping stormwater drains, which is an event that is covered under your client's policy. On this basis we are pleased to inform you that your client's policy will cover this portion of the claim. We do note however that the cost of removing debris from the swimming pool is specifically excluded under your client's

policy (please refer to page 13 of the Building Product Disclosure Statement (PDS) and page 21 of the Contents PDS).

Unfortunately the information and reports we have obtained indicate that the damage to the remainder of your client's property (the higher portions) was caused by overland flood. Specifically, the Brisbane River which is located a short distance from your client's property has risen and overflowed causing floodwaters to travel overland and inundate the property. As your client's policy does not cover loss or damage caused by overland flood, we regret to inform you that this portion of your client's claim has not been accepted.

Please note that we will contact you (or should you advise us otherwise, your client directly) shortly to discuss:

1. Whether your client is eligible to claim for the spoilage of their frozen food. This is an additional benefit under your client's policy that is excess free and may apply in this instance.
2. your client's landscaping repairs. Any coverage for repairs will be limited to those structures which fall within the AAMI definition of building (page 6 of the Building PDS). This definition does not extend to "*hedges, lawns, trees, shrubs, plants, flowers, garden beds or any other living material*" which are specifically excluded on page 10.

Our position with respect to section 35 of the Act:

In relation to your submission with respect to section 35 of the Act, we can confirm that at the time your client purchased her policy (by phone) AAMI was not obligated under relevant financial services laws (the Act, the ASIC Act 2001 nor the Corporations Act 2001) to orally inform her of the flood limitation within both its home and contents insurance policies.

However, we can confirm that both PDS booklets were posted to your client within five working days of the sale transaction. This is a standardised process utilised by AAMI and AAMI is able to verify its delivery of these PDS documents, together with the relevant insurance schedule to Australia Post service which is then responsible (at law) to deliver these documents to our customers.

Accordingly, we do not accept that AAMI breached section 35 of the Act in relation to your client's insurance policy. This means that AAMI does rely on the flood exclusion for water damages above the 1.6 metre level communicated by way of this letter.

Your client's right to have this revised outcome reviewed:

Since the decision about your client's claim has been made following a major flooding event, we confirm that your client is entitled to ask us to review our decision if your client believes it was not correct or complete. We ask that you or your client contact our Claims Department within the next six months should your client wish to ask us to review any component of this claim.

If we cannot resolve any disagreement about this claim with your client, your client will also have access to our internal dispute resolution process, the details of which have already been provided by way of our initial letter dated 31 March 2011.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

05 May 2011

PO Box [REDACTED]
Ipswich QLD 4305

Dear [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Ferguson Street North Ipswich QLD 4305 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Bremer River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled 'Flooding in the Brisbane River Catchment, January 2011' and is made up of Volume 1 "An Overview" and Volume 3, 'Flooding in Ipswich City LGA'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, it appears the damage was caused by floodwater inundation from the overflow of the Bremer River which is located a short distance to the east of your property, on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

Technical Event Claims Manager - Queensland

24 March 2011

[REDACTED]
[REDACTED] Campbell Street
TOOWONG 4066

Dear Mr & Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at Unit [REDACTED] Campbell Street, Toowong, 4066 on 12/01/2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River approximately 600m to the north east of your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River approximately 600m to the north east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property via a nearby unnamed creek. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Peter Unwin
Technical Event Claims Manager - Queensland

14 April 2011

[REDACTED]
[REDACTED] White Street
Bundamba 4304

Dear Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] White Street Bundamba 4304 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Bremer River at the time on or around 11 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Bremer river, which is located approximately 400 metres to the north of your property on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Baroona Road Paddington on 14 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, floodwaters from the Brisbane River have flowed down the stormwater channel approximately 500m to the south of your property, causing it to rise and overflow. The overflowing floodwaters have inundated Milton Park, continuing over Milton Road, Haig Road and into Barooka Road to inundate your property on 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

[REDACTED]
[REDACTED] Golflinks Road
ROCKLEA 4106

Dear Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Golflinks Road, Rocklea, 4106 on 13/01/2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River and Rocky Waterholes Creek, which is located nearby your property, on or around 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

16 May 2011

[REDACTED]
[REDACTED] Sugarwood Street
BELLBOWRIE 4070

Dear Mrs [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at unit [REDACTED] Sugarwood Street, Bellbowrie, 4070 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on 12 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or
cannot enter because it is full or has overflowed, or
is prevented from entering, because other water has already escaped or been released from it,
the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by overland flood.

Specifically, the unnamed tributary of the Brisbane River (a small creek) which runs through Booker Place Park east of your property has received floodwaters from the Brisbane River causing it to rise and overflow. The floodwaters have inundated the low lying areas of the parklands and have continued to rise, travelling overland to inundate your property on or around 12 January 2011.

Alternatively, we accept that a minor contribution to the overall flooding of your house may have come from water escaping from drains near your property, at the time of the main flood event. We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim has not been accepted.

Please accept our apology for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. [REDACTED]
Indooroopilly QLD 4068

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Aaron PI, Indooroopilly 4068 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 200m to the east of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. Alternatively, we accept that a minor contribution to the overall flooding of your property may have come from water escaping from nearby drains, at the time of the main flood event. We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. 19 May 2011

[REDACTED]
[REDACTED] Johnstone Street
Sherwood 4075

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Johnstone Street Sherwood 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, floodwaters from Oxley Creek flowed down an unnamed tributary of the creek approximately 200m south of your property which extends west from the creek to Egmont Street. The tributary and creek continued to rise, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Technical Event Claims Manager - Queensland

11 May 2011

[REDACTED]
[REDACTED] Botticelli Street
Fig Tree Pocket QLD 4069

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

We refer to our letter dated 11 April 2011 informing you of our decision to deny this claim in full under your AAMI policy.

Subsequently, we have obtained a hydrology report from WRM Water and Environment dated 11 May 2011 which has required us to revisit our initial assessment and decision in this claim. Please find **enclosed** a copy of this report for your records.

AAMI is always prepared to review a claim outcome when further information that is relevant to a claim becomes available.

We apologise for any inconvenience caused as a consequence of us having to reassess and revise our decision on this claim.

Our revised decision on your insurance claim:

After careful consideration of the information and reports we have obtained, viewing publically available aerial mapping and reviewing the documents you have provided, it is our view that the damage to your property was caused by initial water escaping stormwater drains followed by a higher level of overland flood.

We are satisfied that the damage to your property located up to and including 1.3 metres above the internal floor level of your home building was not caused by overland flood. Rather, the damage was caused by water escaping stormwater drains. On this basis we are pleased to inform you that your policy will cover this portion of your claim. However, your policy (on page 13 for Building and page 21 for contents) does not cover "*the cost of cleaning or clearing debris from any pool or spa*" and therefore will not respond to any claim for costs incurred for the removal of debris from your pool.

Unfortunately the information and reports we have obtained indicate that the damage to the remainder of your property (the higher portions) was caused by flood. Specifically, the Brisbane River which is located approximately 150 m to the east of your property has risen and overflowed causing floodwaters to travel overland and inundate your property. As your policy does not cover loss or damage caused by overland flood, we regret to inform you that this portion of your claim has not been accepted.

We further note that your Client Manager will contact you shortly to discuss whether you are eligible to claim for the spoilage of your frozen food. This is an additional benefit under your policy that is excess free and may apply in this instance.

Your right to have this outcome reviewed:

Since the decision about your claim has been made following a major flooding event, we confirm that you are entitled to ask us to review our decision if you believe it was not correct or complete. We ask that you contact our Claims Department within the next six months should you wish to ask us to review any component of this claim.

If we cannot resolve any disagreement about this claim with you, you'll also have access to our internal dispute resolution process, the details of which were provided to you in our previous letter.

Yours sincerely,

Peter Unwin
Technical Event Claims Manager - Queensland

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

C Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

C We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 150m to the east has risen and overflowed, causing floodwaters to travel overland and inundate the insured property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Bayford Street
OXLEY QLD 4075

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Bayford Street Oxley QLD 4075 on 14 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Oxley Creek that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Oxley Creek which is located approximately 50 m to the east of your property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. [REDACTED]
[REDACTED] Tekapo Street
Westlake QLD 4074

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Tekapo St Westlake QLD 4074 on 12 January.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Mt Ommaney Creek (consequent overflow of the Brisbane River), which is located approximately 500 metres to the east of your property on or around 12 January 2011.

We accept that the overland flood flow from Mt Ommaney Creek travelled across the golf course behind your property and rose to inundate your home.

In this instance, we specifically refer you to the Government aerial mapping which depicts the flood movement and extent in the vicinity of your property.

As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

[REDACTED]
[REDACTED] Heritage Street
Riverhills QLD 4074

Dear Mr & Mrs [REDACTED]

Your AAMI building and contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Heritage Street Riverhills QLD 4074 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled 'Flooding in the Brisbane River Catchment, January 2011'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, the Brisbane River approximately 200m north of your property has risen and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer

Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

[REDACTED]
[REDACTED] Herbert Street
BUNDAMBA QLD 4304

Dear Mr [REDACTED]

Your AAMI contents insurance claim [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED]
[REDACTED] Herbert Street Bundamba 4304 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the overflow of the stormwater channel and Bundamba Creek on or around 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section **"What we do not cover – general exclusions"** on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, the property damage was caused by floodwater inundation from the overflow of the stormwater channel and Bundamba Creek which are both located within a short distance of your property, on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

████████████████████
████ Siemons Street
One Mile QLD 4305

Dear Mr & Mrs ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at █████ Siemons St, One Mile 4305 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Bremer River affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, 'What we

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled 'Flooding in the Brisbane River Catchment, January 2011' and is made up of Volume 1 "An Overview" and Volume 3, 'Flooding in Ipswich City LGA'.

cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of Bremer River which is located a short distance to the east of your property, on or around the 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

4 April 2011

[REDACTED]
[REDACTED] Marshall Road
Rocklea 4106

Dear Mr [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Marshall Road Rocklea 4106 on 12 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, floodwaters from the Brisbane River have flowed down Oxley Creek and then into Stable Swamp Creek which is approximately 300m to the north east of your property. Stable Swamp Creek subsequently rose and overflowed, causing floodwaters to travel overland and inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. [REDACTED]
TBC
TBC

Dear M [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Jacaranda Street, East Ipswich, 4305 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Bremer River on or around 10 and 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. For the Ipswich region this report is titled '*Flooding in the Brisbane River Catchment, January 2011*' and is made up of Volume 1 "An Overview" and Volume 3, '*Flooding in Ipswich City LGA*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, the damage was caused by floodwater inundation from overflowing of the Bremer River which is located approximately 350m north of your address, on or around 10

and 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

We acknowledge that an insignificant amount of floodwater may have escaped nearby drains around your property however we are satisfied that any drain escape water would have promptly mixed with overland floodwater rising over Jacaranda Street and surrounding streets.

Under Australian insurance law an insurer is not obliged to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or damage caused by flood of this type, we regret to inform you that your claim is not covered on this occasion.

We apologise to you for the delay in providing you with our decision.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

████████████████████
████ Crawford Road
Chelmer QLD 4068

Dear Mr & Mrs ██████████

Your AAMI building and contents insurance claim: ██████████

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at █████ Crawford Rd, Chelmer 4068 on the 13 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River at the time your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading,

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

'What we cover – insured events' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by flood. Flood means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your home and contents was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the Brisbane River located on the eastern side of your property on or around 13 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5

working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. Corinda 4075

Dear Mrs [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Thornburgh Street Corinda 4075 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time on or around 12 January 2011 your property was affected. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building and contents was caused by flood. Specifically, floodwaters from the Brisbane River have flowed down Oxley Creek and then into Pennywort Creek.

Both Oxley Creek and Pennywort Creek, approximately 200m south east and approximately 150m to the north east of your property respectively, have subsequently risen and overflowed and a combination of floodwaters from these watercourses has travelled overland to inundate your property on or around 12 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.au mailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin

[REDACTED]
[REDACTED] Torwood Street
AUCHENFLOWER 4066

Dear Ms [REDACTED]

Your AAMI contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your contents at [REDACTED] Torwood Street, Auchenflower, 4066 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from the Brisbane River on or around 11 January 2011. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Contents Insurance Policy:

Your AAMI Contents Insurance Policy Product Disclosure Statement (your Policy) on pages 16, 18, 19 and 21 under the heading '**What we cover – insured events**', explains that you are covered for damage or loss to your contents while they are in your home or at the site, occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

It also states:

"You are not covered for:

Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy further states in the section "**What we do not cover – general exclusions**" on page 22:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

Flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your contents was caused by flood. Specifically, overland floodwaters from the large stormwater channel (consequent to the overflow of the Brisbane River) located approximately 100m to the south east of your property to inundate your house on or around 11 January 2011.

Alternatively, we accept that a minor contribution to the overall flooding of your house may have come from water escaping from drains near your property, at the time of the main flood event. We confirm that under Australian insurance law an insurer is not obligated to accept a claim for water damage when that damage was caused by a mixture of floodwater (excluded under your policy) and water escaping from a drain. As your policy does not cover loss or damage caused by flood of this type, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. 05 April 2011

[REDACTED]
[REDACTED] Kirri Avenue
Petrie QLD 4502

Dear Mr [REDACTED]

Your AAMI building insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building located at [REDACTED] Kirri Avenue Petrie QLD on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Geography:

We understand that your property is situated within close proximity to the North Pine River which runs to the south of Petrie.

Rainfall Data:

We have obtained relevant rainfall data from the Bureau of Meteorology (BOM). The closest rain station to your property is located at Amcor – Petrie Mill. Rainfall data from the days leading up to 11 January 2011 indicates that there was heavy rainfall in your area which caused the North Pine River to break its banks and overflow into nearby properties.

Your AAMI Building Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (your Policy) (on pages 8, 12 and 13) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your home building occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13) under the heading, "**You are not covered**", further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, "**What we do not cover – general exclusions**" on page 14:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing publically available aerial mapping, it is our view that the damage to your home was caused by flood. Specifically, it appears that the damage was caused by floodwater inundation from the overflow of the North Pine River on or around 11 January 2011. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne

City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Technical Event Claims Manager - Queensland

06 April 2011

[REDACTED]
[REDACTED] Capitol Drive
Jindalee QLD 4074

Dear Mr [REDACTED]

Your AAMI building and contents insurance claim: [REDACTED]

Thank you for contacting AAMI to tell us about the water damage to your building and contents located at [REDACTED] Capitol Drive Jindalee QLD 4074 on 11 January 2011.

As you know, we appointed an Assessor to attend your property and inspect the damage and we thank you for allowing this to happen.

Hydrology Report:

We have obtained a Hydrology Area Report which has been jointly issued by three established hydrology firms¹ that have investigated the cause and timing of water inundation in the area of your home.

Their report indicates that the inundation was caused by flood water escaping and overflowing from Brisbane River at the time that affected your property. This report is substantial (over 260 pages) and made up of two volumes. You can view it online and download a copy at www.insurancecouncil.com.au

Queensland Government aerial flood mapping:

We additionally refer you to publically available aerial flood mapping on the Queensland Reconstruction Authority's website: www.qldreconstruction.org.au/maps/interactive-map. This mapping, made available by the Queensland Government, indicates that your home was inundated by floodwater.

¹ The joint hydrology report has been issued by WRM Water and Environment, Water Matters International and Worley Parsons. It is titled '*Flooding in the Brisbane River Catchment, January 2011*'.

Your AAMI Building and Contents Insurance Policy:

Your AAMI Building Insurance Policy Product Disclosure Statement (on pages 8, 12 and 13) and your AAMI Contents Insurance Policy Product Disclosure Statement (on pages 16, 18, 19 and 21) (together referred to in this letter as your Policy) under the heading, '**What we cover – insured events**' explains that you are covered for damage or loss to your building or contents occurring during the period of cover and caused by:

"Storm and rainwater including stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy (on pages 9 and 13 for Building and pages 17, 19 and 21 for Contents) under the heading, **"You are not covered"**, further states that you are not covered for:

"Damage or loss caused by **flood**. **Flood** means the inundation or covering of normally dry land by water which:

escapes or overflows from, or

cannot enter because it is full or has overflowed, or

is prevented from entering, because other water has already escaped or been released from it,

the normal confines of any watercourse or lake including any that may have been modified by human intervention, or reservoir or canal, dam or stormwater channel.

Flood does not mean stormwater runoff from areas surrounding the site, or water escaping from any water main, drain, pipe, street gutter, guttering or surface."

Your Policy also states in the section, **"What we do not cover – general exclusions"** on page 14 for Building and page 22 for Contents:

"You are not covered under any section of the policy for damage, loss, cost or liability caused by or arising from or involving:

flood"

Our decision on your insurance claim:

After careful consideration of the information and reports we have obtained, and viewing relevant Government mapping, it is evident that the damage to your building was caused by flood. Specifically, the Brisbane River approximately 1.2km to the north of your property has risen and overflowed, causing a connecting watercourse that runs south from the Brisbane River through the Jindalee Golf Course to approximately 200m to the north of your property to rise and overflow, which has then caused floodwaters to travel overland and inundate your

property. As your policy does not cover loss or damage caused by flood, we regret to inform you that your claim is not covered on this occasion.

Your right to have this decision reviewed:

If you are not satisfied with our decision, you are entitled to have it reviewed at no cost to you by our Consumer Appeals Service (referred to in policy booklets as the AAMI Customer Ombudsman or the AAMI Consumer Appeal Service), who will respond to you within 5 working days of receiving your telephone call, letter or e-mail. The Consumer Appeal Service team is independent of this Department and has the appropriate experience, knowledge and authority to carry out a review.

Your participation in this review process does not affect or compromise your entitlement to seek remedies elsewhere or to issue legal proceedings. Should you wish to exercise this right, please write to: The Consumer Appeals Service, AAMI, PO Box 14180, Melbourne City Mail Centre, Victoria, 8001, fax on 1300 316 047, telephone on 1300 130 794 (9 am – 5 pm EST Monday to Friday) or e-mail to consumerappeals@aami.com.aumailto:

If you are not satisfied with the response from our Consumer Appeals Service you may be entitled to apply to the Financial Ombudsman Service (FOS) for a review of that decision. The FOS is an independent external dispute resolution scheme approved by the Australian Securities and Investments Commission. AAMI is a member of this scheme and we agree to be bound by its determination about a dispute. Contact details for the FOS will be provided by our Consumer Appeals Service on the completion of its review.

Yours sincerely,

Peter Unwin
