Dear Ms Hayden

Seqwater

We refer to your letter of 28 February 2012.

Our client is not presently in a position to provide further submissions to the Commission in respect of the document you provided to us. As you know, we do not act for Mr Ayre. Mr Ayre's sixth statement indicates that he compiled the document as his own aide and he does not believe he provided it to the other flood engineers. His statement does not explain the circumstances surrounding the creation of the document nor the entries in it. His statement also does not explain when the document was created or what it was used for (beyond being an aide).

We note the Commission is seeking Mr Ayre's response to the document and our client requests the Commission to provide a copy of that response to us so our client can consider the matter further. It may be that upon receipt of Mr Ayre's response, our client is in a position to provide submissions.

Also, if the Commission proposes to rely upon the document to support an adverse finding against our client, please identify the proposed finding so that our client can respond.

Yours faithfully

Michael Ilott
