

The Water Grid Manager owns the urban water entitlements in South East Queensland and is responsible for managing the Water Grid. It purchases services to store, treat, produce and transport bulk water from Seqwater, LinkWater and WaterSecure to sell treated water to councils, power stations and other businesses.

Seqwater supplies water from dams, weirs and borefields; and is responsible for the catchment, treatment and storage of bulk water for the Water Grid Manager.

WaterSecure supplies water from the Gold Coast Desalination Plant and the Western Corridor Recycled Water Scheme to the Water Grid Manager.

LinkWater moves drinking water from treatment plants and reservoirs through bulk pipelines and into the distribution networks, for the Water Grid Manager.

Industrial customers

State-owned statutory authorities
